"It is a globally televised 'war of ideas' that is fought in living rooms and in places of work, in cities and in countrysides throughout every hemisphere."

Wick concluded his speech, "America is a land with borders. Yet, her survival depends upon the moral support of people outside her borders. Without universal goodwill, America's alliance system, her worldwide commerce, and her foreign policy can only wither and die * * * We cannot loose the campaign for truth and freedom in the 'war of ideas.' It is a potential threat to the nation's security."

Winning that war of ideas also comes from the Government giving us the tools to win the battles and not be an impediment to business. Every news story that we read which is negative to the United States is one more burden for us.

So, it was with a heavy sigh that I read the story about U.S. exports in the Washington Times, November 8, 1989. The headline is "U.S. Lags Behind In Pushing Exports." The gist of the story is the Federal Government offices which should be helping American business in their export efforts are so strapped for funds that we are losing out to other governments in the export business.

We are losing out through funds and personnel. The story said the "U.S. export promotion: missing the boat."

The story explained that Japan External Trade Relations Organization

(JETRO), the chief representative of Japan's overseas commercial interests, has about 71 officers in the United States supported by a staff of 73 American professionals. This is in addition to its myriad of Japanese/American societies in the United States. which promote business and the culture of Japan. The United States has 10 commercial officers in Japan and 27 foreign nationals to conduct our business efforts. Quite a contrast, isn't it?

Mr. Speaker, I would like to read the Washington Times story by Karen Riley, and will leave it for the RECORD. It is a superior piece of reporting.

[From the Washington Times, Nov. 11, 1989]

U.S. LAGS BEHIND IN PUSHING EXPORTS

(By Karen Riley)

A Tokyo businessman recently passed up a major furniture show in North Carolina after the Canadian government offered to pay his passage if he took a look at its wares instead.

For Keith Bovetti, a Japan-based Commerce Department official charged with finding buyers for American-made products, it was the latest example of the United States coming up short in promoting its exports.

At other foreign posts, Commerce officers like Mr. Bovetti say they're so strapped for funds they can't return business phone calls or develop marketing brochures.

Such complaints are common. U.S. export promotion efforts were dead last compared with other major trading nations in an unpublished 1988 Commerce report. The U.S. ranked last or near last for total spending, per capita spending, spending as a percentage of gross national product, and amount of subsidies provided exporters.

The survey included Belgium, Britain, Canada, France, Italy, Sweden and West Germany but not Japan and South Korea.

"You'd almost think we were talking about a banana republic," said Howard Lewis, assistant vice president/international for the National Association of Manufacturers. "We're sending a signal on how seriously we take our trade problems."

Critics question whether it makes sense to assign so little priority to export promotion at a time when the U.S. trade deficit tops $110 billion and when export growth, sparked by an earlier falling dollar, is showing every sign of stalling out.

The United States is the only country in the developed world that's ambivalent about whether the government should take an aggressive role in drumming up business for the private sector, said William T. Archey, vice president international for the U.S. Chamber of Commerce.

"Looking into the 1990s, the U.S. no longer has the luxury of living in an isolated system, we have to export," he said.

The government's promotion effort mirrors the low priority business assigned to exporting. While 75 percent of all small manufacturers produce goods that could be marketable overseas, only 10 percent actually export.

For decades, U.S. export promotion programs were carried out by State Department officers stationed in embassies and consulates abroad.

In 1980, Congress created the Foreign Commercial Service and transferred these responsibilities to the Commerce Department. Domestic trade promotion officers had operated through the International Trade Administration, a separate arm of Commerce. It merged with the FCS in 1982, and the two became the U.S. and Foreign Commercial Service (US&FCS).

Today, 151 commercial officers work abroad, three less than before the FCS was created. The officers are stationed at 122 posts in 64 countries and their work is augmented by some 500 foreign nationals. Many locations are staffed by one officer or only foreign nationals.

The United States has 10 commercial officers in Japan and 27 foreign nationals. In contrast, the Japan External Trade Relations Organization (JETRO), the chief representative of Japan's overseas commercial interests, has about 71 officers in the United States supported by a staff of 73 American professionals.

State Department commercial officers provide export promotion services and counseling to business in the 84 developing countries where the FCS is not present.

At home, promotion services are provided by trade specialists in 48 district offices and 19 branch offices. Staffing is down from 368 persons in 1985 to about 291 today.

"Unfortunately, the aggressive role envisioned by the Congress for the US&FCS has not been realized," Allen Mendelowitz, director of trade, energy and finance issues for the General Accounting Office, told a House Government Operations subcommittee recently.

To begin correcting some of the perceived imbalances, the Bush administration requested a $6 million increase for the US&FCS budget for fiscal year 1990.

"We are aware that a number of program and management problems exist and we are committed to addressing these problems," said J. Michael Farren, Commerce Department undersecretary for international trade.

The Bush administration is reviewing the mission resources and programs of the US&FCS to prepare the agency "to lead an aggressive export promotion effort in the 1990s.," Mr. Farren told Congress.

The Small Business Administration also provides limited aid and counseling for exporters and the Export Import Bank offers limited mixed credit financing, less than the loans offered Brazilian and South Korean exporters.

Recognizing the federal government's export promotion limitations, the Reagan administration encouraged the states to increase their own marketing efforts abroad. In 1988, some 34 states had offices in Tokyo alone, The explosion of state offices amuses Japanese businessmen, who view it as a wasteful, duplicative effort.

The US&FCS budget has been standing still in recent years. In 1988, expenditures totaled $80 million—$40 million for foreign and $20 million for domestic, with the rest spent for activity in Washington.

The GAO points out that, because of the dollar-related loss of overseas purchasing power and increases in salaries, funds formerly available for direct program support activities have been virtually eliminated, making aggressive export promotion activities impossible.

While some U.S. commercial officers lacked money to return phone calls, others were unable to travel within the country to develop trade leads or make business contacts.

The GAO also criticized the government's tiny presence in Taiwan. U.S. trade with the nation has quadrupled over the last 10 years, while the U.S. trade deficit with Taiwan has soared.

Taiwan expects to buy $6 billion in foreign equipment for major commercial building projects, airport expansion and pollution control over the next several years. But the two commercial officers stationed in Taiwan told the GAO that they don't have the staff to track these developments.

Economists have never been able to draw a direct correlation between an aggressive government export marketing effort and rising sales abroad, says Georgetown University professor Michael Czinkota, a former Commerce Department trade official.

Nevertheless, "other countries are doing things that put us at a competitive disadvantage," Mr. Czinkota said.

A U.S. Chamber of Commerce survey indicates that the government's most important role is providing country-specific timely information such as whether a certain company is looking for a specific form of widget.

Congress is also looking at the issue. Rep. Tom Ridge, Pennsylvania Republican, is drafting a bill that would create a private-sector task force to make recommendations on how to streamline what the National Governor's Association has called the "current ad-hoc non-system of sibling rivalry," the hodgepodge of export promotion efforts at the local, state and federal levels.

The recommendations in turn would be implemented by a new interagency task force.

"Although programs are well-intentioned, they're basically ineffective. There's a lack of cooperation and coordination and a duplication of effort," said Charles Zogby, an aide to Mr. Ridge.

Not everyone wants the government to have a hand in export promotion. Conservatives in the early 1980s believed that export promotion should be left entirely up to business.

David Stockman, President Reagan's first budget director, proposed giving the FCS zero funding in the 1982 and 1983 budgets. There were even studies looking at the feasibility of privatizing the FCS, but it was ultimately rejected as impractical.

Katsuro Sakoh, research fellow at Johns Hopkins University is still skeptical about whether or not pouring money and manpower into government export promotion campaigns produces any actual results.

He said Japan's exporting clout is the result of its culture and the aggressive efforts of its massive private trading companies and not JETRO.

"They've done practically nothing. They have no idea of markets and what a product is about," Mr. Sakoh said, and it's "the same thing" for the FCS. Government simply doesn't have the marketing instincts of the private sector, he said.

Mr. Speaker, the foregoing story is explanation enough for the reason to create a Marshall plan. We need to provide American business with all the help we can instead of placing obstacles in their way. We tell them to go out and fight the good fight for American, but we tie one hand behind their back.

We created a country out of ideas. To be an American is to accept the idea of the spirit of freedom. To go as far as our talents can take us without hurting others. We have attracted,

and are continuing to attract to our shores, people from all over the world in pursuit of the American dream. We have been and are a mecca of freedom.

We must have the tools to continue to provide the freedom and standard of living that attracts people to the American way of life.

I am proud of being an American, but only you and I, and those of us in Government with the support of the American people, have the power to recapture the blossoming of an America that will leave an inheritance of greatness for our children and our children's children so they too may go forward in freedom.

The choice is up to us. Do we try the impossible to live without the opportunities of America—which we will surely lose without Government fulfilling its obligation to American business, or do we work together to follow and fulfill our dream—the American dream of freedom? Together we can meet any challenge. There is no going back in this economic battle. It is for keeps. The choice is ours. I choose to win.

THE JAPAN THAT CAN SAY "NO"

The SPEAKER pro tempore (Mr. OWENS of Utah). Under a previous order of the House, the gentleman from Michigan [Mr. LEVIN] is recognized for 60 minutes.

Mr. LEVIN of Michigan. Mr. Speaker, I have decided to insert into the CONGRESSIONAL RECORD, "The Japan That Can Say 'No'," a series of essays by Sony Corp. chairman Akio Morita, and Japanese Diet member, Shintaro Ishihara.

This publication was the subject of widespread comment in the press last week. It seems wise for Members of Congress to be able to peruse the entire document for themselves.

There is no more important relationship in the world today than that between the United States and Japan. This is true strategically. It is also true economically. There has been a persistent trade imbalance in Japan's favor of around $50 billion a year. This imbalance has major ramifications for both countries. It simply must be addressed and redressed.

To do so, we must talk candidly and directly to each other. Each must understand what the other is thinking and feeling. We must be willing to say to each other what we are saying to ourselves. We must be willing to let our ideas be tested both in our own forum of public opinion and that of the other. Indeed, a thesis of the authors of the essays is that only through candid dialog can America and Japan avoid misunderstanding and clarify what we have a right to expect of each other.

I am an internationalist who deeply believes in an America that understands, indeed welcomes, the ever-growing internationalization in the commerce of goods and ideas, and an America that becomes fully prepared to compete with this interdependent world.

In this decade we have been losing ground in our international economic standing. Some of this was inevitable, as other nations rebounded in the post-World War II era. But much was a reflection of conscious decisions—or the lack of them—in other industrialized nations and our own.

I venture that I have spent a quarter of my time these last years on issues relating to international trade and American competitiveness. I have worked with the American private sector on issues ranging from auto parts to the FSX.

After a study mission to Japan, several of us worked with the late Malcolm Baldrige, Secretary of Commerce, to insert issues of trade in auto parts into the M.O.S.S. [market oriented sector specific] talks with the Japanese. Unfortunately, marked by resistance from the Japanese and timidity from the administration, there is virtually nothing to show from years of these talks.

I returned several months ago from talking issues of trade with political leaders and American businessmen and women in the Philippines, Indonesia, Singapore, and Thailand. I was struck by how weak is our economic presence in those burgeoning nations and how underprepared, understaffed, and undertrained we are to compete in a market of many hundreds of millions—and growing.

One thing is increasingly clear—the status quo is unsatisfactory. We must open our eyes and our minds, and engage the issues of our economic future and the world of trade.

It is within this spirit that I have entered this series of essays in the CONGRESSIONAL RECORD. I have used the CONGRESSIONAL RECORD for the insertion of documents sparingly, only when I believed that they clearly served a valid public purpose. After considerable thought, I believe the public interest will be served by letting us read in full what the recent flurry of articles has quoted in bits and pieces.

These essays contain in my judgment, some views that are compelling and some that are pernicious.

Akio Morita's chapters contain most of what is enlightening about "The Japan That Can Say 'No' ".

Despite some lapses into bashing Lee Iacocca and ritually denying that America has any products Japanese want to buy, Mr. Morita offers an astute critique of United States neglect of a coherent international trade policy and inattention to our manufacturing base.

His thesis is that technological innovation goes hand in hand with the experience and resources gained from high-volume production of high-value-added manufactured goods. A service economy is not enough, in other words.

He believes the United States cannot become substantially more competitive unless it sustains and guards the American manufacturing base. He criticizes the lack of labor-management cooperation in the United States. And he points to Japan as a successful model of creativity in translating innovative technology into products that consumers want.

Also enlightening are Morita's acknowledgments of Japan's trade barriers. "Japan should open its markets to the extent where there would be no room for their complaints," he says. "Certainly the full opening of our markets and advancing large sums of money for developing countries is very painful," he adds. But "if we do not reorient our consciousness from the perspective of being international people," Morita says, "then I do not feel Japan will be able to continue to walk the globe as an economic power."

It is interesting that even Mr. Ishihara admits Japan has some egregious trade barriers. "The rice issue has its sentimental aspects in Japan as well as its practical aspects," says this urban legislator,

> Yet it is obvious that we must liberalize the market. Such is also true of construction projects. It is inevitable that we allow foreign construction firms to participate in Japanese public construction projects. Japanese general contractors have been maintaining prices as much as 40 percent higher in comparison to foreign bidders, due to bid-rigging traditions to assure a monopoly on business for themselves. There is no way these practices could ever be free of foreign criticism.

Most of what is troubling in the book comes from Mr. Ishihara, a former Cabinet member who was a dark-horse candidate to succeed Sousuke Uno as Prime Minister this year. Mr. Ishihara is an ultranationalist who sees international relations largely in terms of racial superiority and inferiority.

It is Mr. Ishihara's "firm conviction that the roots of the United States-Japan friction lie in the soil of racial prejudice." Mr. Ishihara believes Japan has technological superiority over the rest of the world, partly because of a manufacturing edge in semiconductors, and he would have Japan use the threat of withholding its computer chips as leverage in trade and security relations with the United States.

In the same vein, Mr. Ishihara says the FSX deal to coproduce a fighter plane with the United States comes

down to this: "In short, America wants to steal Japanese know-how." The ultranationalist flavor of Ishihara's thinking is further revealed in such comments as: "The FSX was a surprise to Americans, as were the Zero fighters at the beginning of the Second World War."

Mr. Ishihara is very wrong about the balance of technological benefits in the FSX deal. In matters of alliance politics he has equally bizarre notions, such as the likelihood of a United States-Soviet alliance against Japan—which, of course, Japan would thwart by using its technological superiority. He is as wrong about what is conceivable in the future as he is about what has happened in the past between our two countries.

The expressions from Mr. Ishihara send the wrong message to the world and to the Japanese people—that the basic source of conflict between the United States and Japan is somebody else's fault; namely, racist attitudes in the West. Our Nation must be willing to show Japan that we deeply disagree with that kind of thinking, and that it is harmful to efforts to resolve problems between our two nations and building ever-strong ties of friendship and understanding. I do not believe it helps those in Japan who fight against ultranationalism for us in the United States to be silent in the face of this type of extremism.

The dangers of ultranationalism can be openly seen when it moves a person of good will, like Mr. Morita, to say "Perhaps Mr. Ishihara is right in his contention that racial problems lie at the root of the problem." The United States has been far from colorblind throughout its history, but there is far more to our history, including the Bill of Rights, the Emancipation Proclamation, and Martin Luther King's "I have a Dream" than can be seen through the extremist lens of Mr. Ishihara.

□ 1800

THE EXTRAORDINARY VIOLENCE IN EL SALVADOR

The SPEAKER pro tempore (Mr. OWENS of Utah). Under a previous order of the House, the gentleman from Florida [Mr. MCCOLLUM] is recognized for 60 minutes.

Mr. MCCOLLUM. Mr. Speaker, this past weekend we have seen some extraordinary violence that started in El Salvador again. I am very disturbed about it, and I want to report to my colleagues on the subject a little bit and talk about some of the history of El Salvador for a few minutes.

That little country is just a few miles south of us. It is very close to us. It is a democracy. About 5 million people is the population of El Salvador, at least it was in 1985, though quite a large number of Salvadorans have come to the United States during that interval, so I am not sure of the exact population, but it is a small, country.

In the early part of this decade, we began to see a movement toward democracy in El Salvador that had been unheard of in that country. In 1984, we had an election in El Salvador for President. That was the first time in 50 years there had been a democratically elected President of El Salvador, an extraordinary event. President Jose Napolean Duarte was elected as President at that time.

There had been actually earlier elections in 1982, again a remarkable thing to have occurred in that country.

We in the United States supported the democratic evolution in El Salvador and we have continued to support it through this past election that occurred for a new President in March of this year. As a matter of fact, on March 19, 1989, I happened to attend the election process and participated as an official observer of President Bush. At that time, President Alfredo Cristiani was elected, and the people throughout that country massed in large numbers to go to the polls for an extraordinary showing of democratic will.

Throughout this period of time, as democracy has emerged and free elections have taken place for President on two occasions and for a legislative body on several more, we have seen a continued effort by Communist guerrillas to disrupt this process and to thwart democracy.

The organization calls itself the FMLN, and it was this Communist organization that over the weekend just past, starting Saturday night and continuing yesterday and still continuing today, that we have seen deaths occur in the city of San Salvador in particular. We have seen President Cristiani's official residence bombed and extensively damaged, so much so that some reports say that had he been present in his home at that time in his official residence, which thank goodness he was not, that he would not have survived that bombing.

We have seen a larger number of people who have been killed during that period of time. We do not know all the formal statistics, but we know that a large number have been killed during the last 48 to 72 hours.

The Salvadoran Army, the latest report I have, says that there have been 86 who have been killed in action, 189 more wounded. Of the FMLN, the Government reports at least that 202 of them have been killed, another 94 wounded in action, and approximately 17 civilians have been killed and an estimated 88 more wounded.

The point I am here to make today and to discuss is that it is just terribly tragic to see a democratic government like El Salvador that has been the apple of our eye in Central America deteriorate with this kind of fighting in the streets.

A few weeks ago we had some premonition of this, because we knew and we have known in this Congress for a long time that the FMLN had not accepted democracy. They did not choose to participate in those elections in March in any official way, other than to put a candidate on the ballot in a few places and have a few observers out, but they did not sanction that election and they have disagreed with it ever since then, despite the fact that it was clearly a free election that was held.

What we have seen is that caches of arms continue to go in to support these guerrillas in ever-increasing numbers. For example, very recently we had a report that was in my newspaper, the Orlando Sentinel, dated October 21, 1989, on an Associated Press report that says our State Department on that day accused Nicaragua of systematically violating the Central American peace agreements by continuing clandestine efforts to send military equipment to the leftist rebels in El Salvador.

Now, I can read, and I will in just a moment a little more from that, but I think the remarkable thing is the coincidence between the attack that has been made down there in the city of San Salvador and in the countryside of San Salvador in this democratic neighbor of Nicaragua's over this immediate past weekend and what happened the weekend before when President Ortega inside of Nicaragua boldly decided that he was going to break the peace agreements and the truce that had been held in that country with the Contras and went into the countryside at that point in time, doing something that may very well jeopardize the election process and free elections that are anticipated and hoped for in Nicaragua in the coming year that is coming up.

I go on to quote, this is in the news counts of October 21 just a few weeks ago:

> Department spokeswoman Margaret Tetwiler made the accusation after Honduran security forces found large numbers of weapons that she claimed originated in Nicaragua and were earmarked for the Salvadorans insurgents known by the Spanish initials FMLN. The seizure occurred at a border crossing between Nicaragua and Honduras, and according to Tetwiler included AK-47's, rifle grenades, explosives, thousands of rounds of ammunition, and FMLN instruction manuals. Honduran officials are currently evaluating the facts involved in their seizure.

And so on and so forth.

Now, this is a very current thing. We had caches of arms found inside Nicaragua much earlier. This is why some of us got so concerned about police

training and trying to get amendments through on the floor of this body, and were successful in the authorization bill on foreign operations just a few weeks ago.

The fact is that this whole process of trying to beef up the internal security and train the police, not just the military in El Salvador, occurred in 1985 and 1986 in this body as we saw the bombing occur in Santa Rosa where five of our Marines were killed, and nine civilians were killed by these same FMLN.

At that time, as it has become increasingly apparent, we realized that the guerrillas, these FMLN Communists, were no longer going to be content with any kind of open warfare in the countryside, which they had been unsuccessful as demonstrated by the election process and the people not really supporting them, but they were going to go instead into the cities, and particularly the city of San Salvador where the brunt of the attacks took place over the last few days.

Mr. DREIER of California. Mr. Speaker, will the gentleman yield?

Mr. McCOLLUM. Yes, I am going to yield to the gentleman from California, who has been so instrumental in this effort.

Mr. DREIER of California. Mr. Speaker, I thank my friend for yielding to me.

I would like to begin, Mr. Speaker, by extending congratulations to the gentleman for bringing out this special order.

You know, one would think that today would be a day of a special order in which we would simply be heralding what has become known as freedom weekend, that is what ABC called it last night, when we saw over the last few days this unprecedented historic development, with the crumbling of the Berlin Wall.

In fact, one of those who had just crossed over said in one of the interviews on television last night that if one had been asleep for a weekend had awakened and was told that the Berlin Wall had come down, they would have said that you were crazy if you would have told them that.

So here we are, not able to simply celebrate that great development. We are here tonight to underscore sort of a tragic aftermath of that, because the wall started coming down Thursday, Friday, and then it was Saturday night that we saw this unbelievable attack. It is one which frankly the gentleman is very wise in pointing to the fact that the cease-fire was lifted by Daniel Ortega in Nicaragua and then we saw a number of other developments out of Salvador.

One was interesting and also rather tragic. I spent about an hour with our colleague, the gentleman from New Hampshire [Mr. DOUGLAS] with a young man, Mr. Goya Martinez, who came to the United States just a couple of weeks ago and said that he was part of a death squad operation being perpetrated by the Salvadoran Government.

□ 1810

He leveled these great accusations in an attempt to garner support and sympathy from the United States and Members of this body and, of course, I have talked to a number of my colleagues on the other side of the aisle who were, frankly, totally drawn in by the arguments that Mr. Martinez offered, and it is interesting though that just a few days after these reports of death squad activities with someone who came to the United States to report on them, came to the forefront that we see this largest attack ever launched in El Salvador. The gentleman is very correct in pointing to the fact that on March 19 I was with him when we saw, and actually I was told that it was the largest in this decade, and I think that is more accurate, would it not be, and I think that we have seen some real problems that have gone on through this decade, but clearly that has been the largest attack which has taken place during this 10-year period, and I think it is important for us to recognize that on March 19 while the gentleman and I witnessed this election it was, in fact, the first time in the history of El Salvador we saw the transition from one democratically elected government to another.

I have been disturbed at the reports which have come out in the media in the last couple of days on this very tragic attack on the Presidential palace where we have seen tremendous loss of life, all perpetrated by the FMLN.

Mr. McCOLLUM. Reclaiming my time, why do we not talk about that election for just 1 minute, because I think that we need to lay a predicate here. We can say all we want about how democratic it is down there, but lots of people still do not understand the transition that has occurred. Back in 1980 we had Amnesty International reporting 750 death-squad victims a month down there, and by 1987, because of the transition to democracy and cleaning up their act, El Salvador only had an average of about 23 deaths like that. It has even improved much further since then.

Mr. DREIER of California. It has dropped down to about 12 a month.

Mr. McCOLLUM. About 12 a month at max. Then we saw this election last March which the gentleman and I observed, and what happened there, and the gentleman can fill in some with me, because we went out and looked at the countryside, and I flew in helicopters to the most remote areas where the guerrilla activities would be the greatest, and we saw all of these people coming out to vote. They had a very sophisticated Government voting system. They had registered a huge percentage of the population eligible to vote, those adults, and they had given them voter registration cards, and on the day of the election they had already set out these boxes, these kits for each one of the little precinct areas to be set up in the communities, however, large, the big cities or the small villages, and they had these election officials who were representing all of the various factions and, frankly, including these guerrillas, the FMLN, and they had a candidate, as I recall.

Mr. DREIER of California. If the gentleman would yield on that, I know that he and I both saw Salvadoran citizens who faced up against tremendous odds, being told by the FMLN that their thumb would be cut off if they voted, being told that they would be killed if they exercised their right to vote, yet as we moved throughout the country on March 19, we saw Salvadorans walk 3, 4, 5, 6, 7 kilometers to exercise that right to vote.

I think the product of that election day is an incredible one where we saw, against these tremendous odds, threats from the FMLN against the people of El Salvador, what we saw was a turnout larger than what we had in November 1988, in the United States elections.

Mr. McCOLLUM. Reclaiming my time just for a second, that very first town I went to by helicopter the morning of the election, they were setting up for the election. They were taking some bodies off of a square there who had been shot during a firefight the night before with the FMLN, and it was a battle between a few of the Government forces, and there were efforts being made throughout the countryside to break up this election, but in that little town, as one example, that did not keep them from opening up the ballot boxes, as the gentleman pointed out, and it did not keep them from, the people, from voting. There was an incredible desire to vote in the face of violence in the countryside, and I know people question how could those elections have been valid.

The gentleman and I watched how democratic it was, how they had this thing fixed when they went up to vote and when they showed their card, they had to actually be fingerprinted, and then they had to put their finger in an inkwell so they could not vote twice, in indelible ink. They had a secret ballot place to go to, and when they marked their paper ballot, they dropped it into a large plastic bag that was out in front of the place where they voted that was in public vision the whole time during the day of the election, and then at night when the polls closed, representatives of each

party came around together from the local election office and collected these ballots and counted them right then and there and decided which ones to throw out and which ones to save. I watched that. It was absolutely fabulous.

Mr. DREIER of California. If the gentleman will yield further, that was a very good point, and I am sure my friend recalls that I came back with that black ink on my finger, because I dipped my finger in there. It lasted several weeks.

The interesting thing is we are standing here as Republicans, but I think it is very important for us to recognize that our former colleague, my California colleague, Tony Coelho, was one of those who was part of that observer team. He was the third-ranking Democrat in the House, and he came back with the exact same conclusion that the gentleman and I drew. I think that it is important for us to recognize that both Democrats and Republicans in this House came to the conclusion that it was a very free, fair, and open election.

Mr. McCOLLUM. Reclaiming my time, while the gentleman is making that point, I have in my hand a draft of the election statement of the AFL-CIO observer who was also along with me on that. He came back, despite the fact that I think they were a little disappointed at who won the election, with the same conclusion, that this was an absolutely fair and free election. The people had their say, and Alfredo Cristiani was elected. Since that time he has proven to be even fairer than most of his supporters would have thought he could possibly have been in this whole process, and the critics all agreed on that, too.

Mr. DREIER of California. If the gentleman will yield further, that is exactly what I was going to say just as we moved to that. One of the things that has disturbed me is that over this weekend we have heard the Salvadoran Government described in simply two ways in reports I saw in Los Angeles over the weekend: the U.S.-backed rightist government, never stating at all on the television news reports that this was an unbelievably fair and open election, and that has disturbed me greatly to see these kinds of reports coming out in the media, because it clearly was a very free and open election.

What we have seen in the aftermath of this free and open election is a U.S. ally facing a major conventional assault on them, and that is why I think that is a very critical and serious issue for us to consider with that kind of attack from the FMLN, supplied with arms that have directly come through Nicaragua to El Salvador.

Mr. McCOLLUM. Reclaiming my time, the gentleman has supplied, and I know he is familiar with these, these photographs that are down here of some arms. I was talking about what had come through Honduras very recently that our Government believes that the Nicaraguan Sandinistas supplied. As the gentleman knows, the AK-47's are the Soviet weapon of choice.

Mr. DREIER of California. If the gentleman will yield further, the pictures that are standing next to my friend from Florida in the well were taken of the largest cache of weapons ever seized in El Salvador. These photographs were taken on May 30, literally the eve of the inauguration of Alfredo Cristiani, and I was fortunate to be there with our colleague from the other body, Senator LUGAR, and they had just taken these. We stood over this cache of weapons. It included 283 Soviet-made AK-47's, a wide range of other Eastern bloc weapons, including Hungarian pistols, North Korean devices, a wide range of items which were clearly going to be used in an attempt to disrupt the inauguration of President Cristiani.

Mr. McCOLLUM. These were taken, if I may reclaim my time, in the city of San Salvador, were they not?

Mr. DREIER of California. They were seized in El Salvador in a large cache; in fact, as I said, the largest cache ever seized, and obviously one of the things that I said at that point is that if we have here the largest cache ever seized, what other kinds of caches of weapons are there? It is apparent, with the developments which took place just this past weekend, that obviously that flow had continued.

We recall that on August 7 when he saw the agreement signed at Tela, President Cristiani, and my colleague from Florida [Mr. GOSS], and I were with Mr. Cristiani just before that summit in August, and he said that his priority was what he referred to as chapter 2, ensuring the Nicaraguans would not allow the flow of those weapons to move through Nicaragua into El Salvador.

What happened was on October 19, just a few weeks ago, a huge truck, and we have other photographs which we could show, of weapons which came through Nicaragua and directly into El Salvador were seized, which is clearly a violation of the Tela agreement which President Ortega signed in August in Tela, Honduras.

□ 1820

Mr. McCOLLUM. Mr. Speaker, I want to point out a New York Times article today before I yield to my other good friend, the gentleman from California [Mr. LAGOMARSINO].

There is mention of weapons that were seized down there during the last couple of days. Just in one case an Army unit captured at least 19 automatic weapons, seven Soviet-made grenade launchers. What are they doing down there? Several pounds of explosives, and large quantities of ammunition in one instance alone.

They are out there shooting up helicopters and so forth, and obviously not fighting anything but a guerrilla war in the city, doing the very thing that the gentleman I am about to recognize has worked with me and others on for quite some time to try to get the Salvadoran situation fixed so we could ferret this out and not have that sort of thing happen.

The gentleman from California [Mr. LAGOMARSINO] is our ranking member on the Committee on Foreign Affairs. I am delighted he could come out to be with us today.

Mr. LAGOMARSINO. Mr. Speaker, I thank the gentleman for yielding. I want to thank the gentleman from Florida [Mr. MCCOLLUM] for taking out this special order. It is an opportune time to do so, with what is going on in San Salvador and El Salvador generally as we are speaking.

It is interesting, with the great emotion and excitement of political openness sweeping Eastern Europe and the rest of the world, that these events in Central America seem grotesquely out of sync.

The combination of ending the cease-fire by the Sandinistas in particular, with the severe escalation of fighting in El Salvador, represents a serious setback to the hope of achieving a political solution to the crisis in Central America.

Daniel Ortega's decision to end the cease-fire seemed to reflect a concern more about his own political future than military fighting in his country.

In El Salvador, the decision of the Marxist guerrillas to undertake their biggest offensive in 10 years seems to reflect the recognition that their external and internal support is rapidly deteriorating. We have some at least indirect indication that the Soviet Union is getting tired of helping the FMLN and that perhaps Mr. Ortega is getting concerned about his ability to continue doing that, because, of course, the United Nations peacekeeping force is going to be put into effect here very rapidly.

It seems to me the events in both Nicaragua and El Salvador reflect desperate measures taken by desperate men.

Reference has been made here already to the October 18 seizure at the El Paraiso border crossing between Honduras and Nicaragua of a large cache of arms and armaments.

The captured weapons, for example, included 20 AKM assault rifles, 13 of which were manufactured in the Soviet Union. There were more than 300 rifle grenades and 800 mortar shells, which probably would have been used in this assault over the weekend, a large quantity of Soviet-

made hand grenades, 50 other assault weapons or machineguns, a large quantity of explosives and ammunition. Included with the weapons were instruction manuals with FMLN inscribed on their covers.

Many of the rifles and shells were packed in Nicaraguan newspapers. I might point out those instruction manuals instructed the people who read them on how to use this Soviet weaponry.

The driver of that truck was captured and is being interrogated by Honduran authorities. I understand that he has admitted to them he has been doing this for a long time about once a month.

So I do not think there can be any other conclusion than this was a shipment from Nicaragua to El Salvador, 2½ months after Daniel Ortega first admitted he was doing it, which he had never done before, and second, that he was going to stop, which obviously he did not do.

I attended two of the Presidential elections, the primary in 1984 and the final one that year, and I certainly had the impression very much like the gentleman from Florida [Mr. McCOLLUM] and my colleagues from California [Mr. DREIER] did, of the people walking for miles and enduring threats and so on to vote. Every indication I had was that the last election was every bit as free and fair.

As a matter of fact, the guerrilla parties, their political parties, took part in the election. They did not do very well, but they took part. They were there to choose if people wanted to select and vote for them.

It is interesting on Sunday Daniel Ortega in Managua made some comments that would seem to indicate that he knew what was going to happen and was happening in El Salvador. He condemned the Government of El Salvador for doing something they had not yet and did not do, and that is indiscriminate bombing of the population.

So I just feel there is a definite connection between what he did in canceling the truce unilaterally in Nicaragua and what happened here. Perhaps this should take pressure off of him. I do not know.

Mr. McCOLLUM. As the gentleman knows, there has been a long concern the gentleman and I and a number of other Members have shared about Nicaragua and the Ortega faction and the Communists down there, as much because of what they could do to El Salvador and their neighbors as anything else. Not trying to simply dictate what happens in Nicaragua, as much as we would like to see freedom there, but with a greater fear that if Ortega and his brand of communism succeeded in consolidating their revolution, they would step up the activity of exporting arms and revolution into El Salvador and maybe go into Guatemala and Honduras.

It is disturbing to hear what the gentleman says, though I agree with it. It does appear without any question that Ortega and his government have been shipping these arms, winking about how they are not going to support this sort of thing anymore, all throughout the time when we have been trying to get these free elections in their country and when we have been cooperating, though granted against the wishes the gentleman and I had, with not supplying the Contras with support, which this Congress should have done.

Mr. LAGOMARSINO. Good point the gentleman makes. Whereas we have stopped entirely shipping any kind of armaments to the Contras, through Nicaragua they have not stopped shipping the armaments to the guerrillas in El Salvador.

Mr. McCOLLUM. It is absolutely incredible. I am sure we are going to hear more about that.

Mr. KYL. Mr. Speaker, would the gentleman yield?

Mr. McCOLLUM. I yield to the gentleman from Arizona.

Mr. KYL. Mr. Speaker, let me commend and thank the gentleman for conducting this special order, and thank the gentleman from California [Mr. LAGOMARSINO] who just finished speaking. The gentleman and I met together for one of the first times in 1984 in El Salvador when we were both official observers to the presidential elections, I as a civilian and the gentleman from California as a member of the United States delegation, to observe the fairness of the presidential elections in 1984.

We returned as official observers in 1989. This time I was a member of the congressional delegation observing the fairness of elections in this country.

Mr. Speaker, I can attest to my colleagues that the elections held in El Salvador for Presidency of that country were as fair and good an election process as you would observe anywhere, including here in the United States of America.

It is in this time of need in this country of El Salvador that I believe those of us who are familiar with the country should stand behind the people of that brave country.

I have been there many times, as has been the gentleman from Florida [Mr. McCOLLUM] who is conducting this special event, as well as others who are with us today. I think we can attest to the fact that if that country had peace for any extended period of time, it could blossom into one of the great economic miracles in this hemisphere.

Its people really want nothing more than peace, because they have the freedom and democracy that we enjoy here in this country, something which again I attest to, having been an official observer to their elections the past two times they have been held.

I was also at the White House when the then President of El Salvador, Jose Napoleon Duarte, made his last state visit to the United States. He exchanged greetings with then President Reagan, and then walked down the podium where he and President Reagan had been speaking.

President Duarte walked all the way to a group of American soldiers who were participating in the ceremony, gathered up the American flag we were holding into his hands, kneeled down, and kissed the American flag.

This is a moment I will never forget, because this by then very frail cancer-ridden Jose Napoleon Duarte was telling us through his gesture to the American flag how very much he appreciated the support and the friendship of the American people to help his country rid itself of a former dictatorship and become a full-fledged democracy.

I think most of us in this body can be very proud of the fact that not too many weeks ago we supported a bill which provided assistance to the Government of El Salvador to continue to help them economically, and also, importantly, to try to assist their police force in becoming more modern, better trained, and able to deal with crises that develop in their country. Unfortunately not of the magnitude we are now witnessing over the last several days, but at least to help have order in their country and make sure they live under a rule of law that all of us would live under.

It is well known, it has been reported many times, that the assistance to the FMLN guerrillas that have been coming in through Cuba and Nicaragua, that there is a violation of the peace process that President Ortega from Nicaragua signed and pledged to support.

This is probably a part of his plan to divert attention from the activities in his own country, which will probably culminate not in free and fair elections, but a continuation of his dictatorship. Therefore, I think at this time, in their time of need, it is important for us to continue our support for our brave friends in El Salvador, for the Government of El Salvador, and to continue to let them know that we stand behind democracies, which is what El Salvador is, and we stand behind the yearning for peace and the good life that should stem from a democracy that we know can follow if there is peace in that land.

Again, I compliment the gentleman from Florida [Mr. McCOLLUM] for trying to bring this to the attention of our colleagues here. Mr. Speaker, I hope that our colleagues will continue to watch with interest as this situation unfolds, and to provide the continued

support for the people and the Government of El Salvador that it so deserves.

Mr. McCOLLUM. Mr. Speaker, I want to thank the gentleman for coming out and speaking on this issue. I would like to use what he said to make a point here. I have a report of a news conference that was held in Managua by one of the leaders of the FMLN on November 8, which was just about 3 days before this attack began.

□ 1830

And I think it is interesting to read or quote from it a little bit.

It says, "Today the FMLN announced its plan to intensify the armed struggle and political pressures to force the Alfredo Cristiani government to restart the dialog process," a process which frankly had been going on, as far as I know, for a long time. The two guerrilla commanders, in this case Gonzalez and Sinfuego of the FMLN directorate, "reiterated today that the FMLN will put all the military capability it has accumulated during the almost 10 years of war at the service of the negotiation process." That seems like a strange way to put it, considering the deaths that they have just caused. "We are going to employ all modes and tactics of our military strategy and break the Government's view that the guerrillas participate in a dialog because they are militarily weak," Gonzalez told Salvadoran newsmen in Managua.

"Sinfuego said the rebels will not return to the negotiating table until the authorities change the terms under which they want to hold these talks and until opposition organizations stop being the target of a wave of violence unleashed by the Army." It does not appear to me there has been that kind of a situation down there in the first place. We have not seen violence unleashed against these folks. In each case we have seen democracy move to try to stop that. What is so strange about it is, having had their opportunity to participate in the last election process, what more is it that the FMLN really wants? They appear to want an assured sharing of power, a sharing of dictating power. The only way I can see how they can share in power in a country that is truly democratic as this one is and as the Congressmen who already talked tonight and I have observed would be in some way that they would be nondemocratic. It is beyond me to understand what it is that these folks really want unless it is truly what Communists usually do, and that is a reversal of those democratic processes so that they can get it and they can control and they can dictate through their dictatorial manner much as Ortega has done in Nicaragua and as Castro has done in Cuba.

It is just a very strange set of circumstances.

My colleague from Florida has risen to join me in this discussion and I am pleased he has come out tonight, the gentleman from Florida [Mr. Goss], a good friend.

Mr. Speaker, I yield to the gentleman from Florida.

Mr. GOSS. I am very happy to have the opportunity to join with the gentleman, the gentleman from Florida, my distinguished colleague, because I very much appreciate his initiative. In fact, I have just come from a briefing trying to get an update on what the situation is right at this moment in El Salvador and what the outlook is going to be and what the early manifestations are of what has happened and why it has happened.

It appears that there is still rebel participation. They are tyring to enjoin the democratic army forces that are trying to preserve law and order and protect the citizens of El Salvador, in two of the suburban areas, Lontanos and Serapango.

I understand the rebels are beginning to fade away and that it is lessening. The outlook is that this will gradually break off and we will get back to a better semblance of order and, hopefully, more peacefulness in the city.

I gather they had an extremely difficult time on the university campus over the weekend and really had an outright military engagement there. The rebels were chased off, took a lot of casualties. I understand there were some casualties to the army also.

I think some things have come out that are very, very important here. The first one, it appears inescapable that the President of Nicaragua, Ortega, has certainly had foreknowledge of these events, has gone on the radio and is very knowledgeable during the weekend, made some very forceful statements about things that are supposed to be happening in El Salvador. It is clear to me that he is trying to create a diversion from his own problems. It was only a short time ago that he broke the peace in Nicaragua, presumably after he had determined that he was behind in the polls and that the ways that he has to wiggle now to live up to his pledges on providing democratic free elections are beginning to hem him in.

I think there is no question that what is happening in Salvador is not coincidental. It is clearly an orchestrated effort. There is no doubt that the evidence exists that the Nicaraguan Government, as we have said, as the gentleman from Florida has seen, including myself. The gentleman has presented evidence, there is more evidence. Within the month we have evidence of yet more arms shipments going through. They happened to be Soviet arms wrapped in Nicaraguan newspapers, smuggled in a truck from Nicaragua that went by Costa Rica to try to hide its purpose. Those arms 3 weeks ago were uncovered. On August 7, in Tela, the President, Ortega, took a solemn oath with the other Presidents of Central America that he would cease and desist any more arms shipments to the Communist rebels in San Salvador. That is a pretty good example of what that man's word is worth, and he wants us to believe that he is going to hold free, fair democratic elections in his country on his say-so. Well, his say-so is not worth a whole lot. There are a lot of dead people in Salvador, regrettably, today, who know that.

Second, we have it clearly understood that the rebels grotesquely underestimated their anticipation that if they got these arms in to Salvador, San Salvador, and got them into citizens' hands, there would be a popular uprising because the Cristiani Government is so unpopular.

Just the opposite happened. The rebels got chased out of town. The people of San Salvador looked to the Cristiani Government, as they should, to defend them, their democracy, their freedom, and their ability to come and go, to conduct business. The people have responded well to the Cristiani Government.

Consequently, the rebel uprising, as it were, has failed totally. It is a complete fiasco. They have no way to save face. I am going to be very interested to see how they try to do it in the newspapers.

The third thing that happens, quite obvious, they are trying to provoke the good democratic forces of Salvador into some type of response, some type of a military response, which they can hold up to the world as an atrocity of some type. These are the people who are smuggling bombs, doing terrorism, blowing up women and children in downtown San Salvador. They want to point to the army that is doing their job of preserving the public order, protecting the people of Salvador, and say that those people are the people who are out of step.

I think those people are the ones who are out of step.

Those things, those three things, emerge very clearly.

Fortunately, the prognosis is that the rebels are pretty badly beaten and are going with their tail between their legs out into the countryside where they will indeed continue to blow up power lines and people and buses and undefended people and undefended installations wherever they can.

Mr. McCOLLUM. Mr. Speaker, to piggyback on what the gentleman from Florida has just indicated, one of the things I know as a member of the Committee on Foreign Affairs that the gentleman has been observing is

we just fought a battle over here a few weeks ago, this whole business of the need for police training in urban warfare inside a city like San Salvador, because out in the countryside, while the gentleman is absolutely right, that is where they are going to continue to do some of this, the military has a better way of getting out and they observe them better. But they come into the city in the dead of night under the cover of large buildings in very congested areas, stash these arms, which Ortega supplies through the Soviet auspices, and then they come out and do all of these things.

So one of the things that the gentleman has been very instrumental in helping with and the Members here are going to have another chance to vote on here through the Foreign Operations appropriation bill tomorrow or the next day, is the training that we have given and we need to renew now on the Salvadoran Treasury Police and the National Guard, who are their police forces in the city of San Salvador, so that they can be better able to go ferret out these arms caches and still know good investigative police work to build a better case, to have an actual criminal lawsuit to press against somebody so that you actually have a judiciary system that is working down there as they have in the United States. It has been a marvelous thing to see the work over the last 3 or 4 years because back in 1985 and 1986 when some of us first proposed training them as a waiver of a worldwide prohibition to do anything like this, just because of the need down there, they did not even have radios for their cars. In fact, they did not even have any police cars in the city of San Salvador. And today they at least have, thanks to this program, they have radios, they have some degree of training. But it needs to be continued in order to protect the Americans as well as the Salvadorans in the cities and of course to instill in these folks a sense of what democratic police are all about, and human rights protections.

□ 1840

Mr. GOSS. If the gentleman will continue to yield, the gentleman deserves tremendous credit for his visionary foresight to see these things and pass the necessary legislation, have the necessary legislation passed for that training to have begun in the years past, because I had the opportunity to speak with Colonel Ponce whose installation was attacked, along with the President's residence and everything else this weekend, and Colonel Ponce assured me on that point that that was the most important thing. It is the most important thing to have those people properly trained, whether they are police or military, or wherever we make the breakdown, so that they do not overrespond to the provocation that the Communist rebels are subjecting them to because that, of course becomes grist to the international propaganda mill, if we do overly respond. So this training is the critical key. The gentleman recognizes it, and we spoke at length about this. This is something that we are obviously going to have to continue.

As I say, I think that the book needs to be well-written with the praise of the gentleman who initiated that visionary effort sometime ago. I hope others will recognize it and sustain, as we go through our deliberations in the next day or two.

Mr. McCOLLUM. Mr. Speaker, I thank the gentleman for that. I see that the gentleman from California [Mr. HUNTER] has joined our debate. I am happy to yield to the gentleman.

Mr. HUNTER. Mr. Speaker, I thank the gentleman for yielding.

I always listen very intently when the two gentlemen from Florida who are experts on Central America are talking about that issue. I think the gentleman from Florida [Mr. Goss] made a very important comment when he said that really you present overreaction by giving training, police-type training, to the people who will have to operate against these guerrillas in the inner city. It is actually something that supports safety, that supports a populace that does not want to see overreaction, and it does not want to see large-scale military operations by the Government of El Salvador in the cities.

One other thing I would like to mention to my colleagues is I think any person watching the news today has to conclude that we are living in very interesting times of great fundamental change in the Communist system. I think it is very interesting that while the rest of the world is shrugging off the Communist systems that have burdened them for many, many years, in most cases since World War II, we still seem to be bent to some degree on emplacing that system, or at least allowing it to be emplaced by the Soviet Union, on two very important countries in our own hemisphere: in El Salvador and Nicaragua.

I thought it was interesting that recently in the last month, the two offensive actions that have been taken, that is, the two orders to attack that have been taken by the Communists, by the Marxists in those two countries. In one case Nicaragua, in which the Marxists control the country in which they are the government, and they have determined that since they are behind in the polls, it is important to break the cease-fire at this point and portray the Contras, who have been without an ammunition resupply for 2 years, as proving to be a great danger to the security of that nation, and thereby justifying their attacking the Contras. In El Salvador, we have the rebels, the Marxist rebels attacking the democratic government of El Salvador.

I think it is important for people who find this moral symmetry in the two superpowers, and who are trying to really understand the context in which these world events are taking place, with the Berlin Wall coming down, with many Eastern Europeans getting their first taste of freedom. In both cases, in Nicaragua and in El Salvador, the United States supports free and fair elections. We support the people who want to go to the ballot box. In the case of Nicaragua, Violeta Chamorro and her comrades who want to see democracy in Nicaragua. In El Salvador, we support the people who went to the ballot box in overwhelming numbers and elected first Jose Duarte and now the present President.

It is the other side, it is the Soviet Union that supports, in both of those countries, the people who want to violently overthrow, in one case, a democratically elected government; and in the other case, violently prevent democracy from taking place. I think it is important for Americans in the next several months to focus on our own hemisphere and let Members see if we cannot give a taste of that democracy that we are celebrating for the East Germans who are now able to go through the Berlin Wall and see their friends and families in West Germany for the first time, or in West Berlin for the first time, and all the other Eastern Europeans we are so concerned about, let Members give the people of our own hemisphere a chance for democracy.

Mr. McCOLLUM. Mr. Speaker, if I may reclaim my time to engage the gentleman, I think he is making an excellent statement about policy overall. The President is going to meet with Mikhail Gorbachev very shortly in a built up not too important summit where they do not have a treaty to sign, and I am sure they will discuss the European events and what will happen. We are euphoric about it.

I think there are major things, as the gentleman pointed out, that are happening in Europe right now and elsewhere. It seems to me that while they are having that meeting, there ought to be some discussion, and the President needs to point out, and I am sure he will, I feel confident he will, to Mr. Gorbachev that we cannot truly move in the way that maybe he now is perceived as wanting to go in Europe, and move that way with our enthusiastic support toward the major changes, as long as he is going to continue in Latin America, to do the things he is doing, supporting Ortega and those causes. There are going to be some major desires to go beyond in Europe than where we are now. I will want to see that happen. Members will

want to see that happen, but we will be very reluctant to want to yield in certain respects over there beyond where we are headed at the present moment toward arms reductions and so on, if we do not see good will on the part of Gorbachev in pulling out his support for these puppet regimes like that of Ortega and the supply of arms going to these, FMLN guerrillas in El Salvador. That is so close to the United States. Members are aware of this, because, the gentleman is from California, I can get on a plane and go to the State of California in the time it takes, and in fact it is a lot longer for me, than to go from Miami, Florida, down to San Salvador. I have done it. It is not as long a plane ride, not as far away. In our own Capital, Washington, I can get there in the same time. Afghanistan is around the other side of the world, and Europe, of course, is quite a few hours away the other way. But El Salvador is right next door to the United States. I know the gentleman wants to get back in the foray.

Mr. HUNTER. Mr. Speaker, I think the gentleman made excellent comments that should be well taken by our own people, by the American people, and by our leaders, who will be meeting with the Soviets, and particularly our President. I think it will be difficult for Mr. Gorbachev to make a case that he needs economic aid when he seems to be able to divert $500 million to $600 million worth of military equipment circuitously albeit, to Cuba, and finally to Nicaragua, and then to El Salvador. As long as we have that $500 to $600 million a year of military equipment moving to the Marxist government in Nicaragua, and even though Mr. Gorbachev says he is not giving it, although it is Russian equipment, it is Russian made, it is not being given by the Soviet Union. He said it is being given by Cuba, to Nicaragua. We know that the principal supplier of Cuba is the Soviet Union. Obviously, there is an agreement between the intelligence agencies of the three Governments of the Soviet Union, Nicaragua, and Cuba. We still see the Soviet Union ultimately being the check writer for $500 million to $600 million worth of military equipment being shipped into our hemisphere, to kill Central Americans. I think it is going to be difficult for Mr. Gorbachev to move from that basic fact to a position in which he can justify the West, and particularly the United States opening up our pocketbooks, and our credit, and our commodities, to his people.

Mr. McCOLLUM. Mr. Speaker, I know it is moving to a broad view, but I think it is important, talking about this perspective of Gorbachev and the Soviets, to notice that maybe, and I hope it is not true, but maybe the same kind of distractions many of our colleagues have talked about that Ortega may be looking at with the FMLN in El Salvador to help him with, and with his efforts to break the peace accords and the cease-fire in Nicaragua, perhaps the distraction from his own election problems there, maybe Gorbachev's efforts in Europe, which we welcome, are efforts that, in part, are designed to distract Members and distract the Western World, for the moment, from the fact that while he has said he is pulling out of Afghanistan, he still left things in there, and they are still supplying millions and millions of dollars' worth of armament to a puppet regime that really still rules, might as well be the Soviets in there because the free forces of Afghanistan and the mujahidin have certainly not succeeded, and are not likely to with the kind of support the Soviets are giving them, and then moving away on over to Cambodia to see, while it appears that the Vietnamese are pulling out of Cambodia, they are leaving huge numbers of colleagues there with the Soviet blessing and moving on to our own hemisphere. With what is happening in Nicaragua and El Salvador and the obvious Soviet arms that have gone in there by the millions of dollars' worth in the last couple of years.

□ 1900

It is a distraction to think about and an important one, and I do not want to diminish it and minimize it because I am encouraged by it, as well as the gentleman is, and others, but what is happening in Europe kind of is a distraction in a way that might, if we do not watch it, allow the Soviet Union to continue this kind of aggressive pattern of setting up puppet regimes, and still supplying them and asking us in essence to fund all of that by providing some kind of economic aid to take them off the hook, either in their satellite countries or the Soviet Union itself, and I just cannot concede that our Government would ever be a party to that, that we would be so foolish as to step into that vacuum while at the same time I am all for encouraging the steps toward democracy taking place in Eastern Europe today.

Mr. HUNTER. Mr. Speaker, I think the gentleman from Florida [Mr. McCOLLUM] is right. I think we cannot allow Mr. Gorbachev to take the position that he cannot control what happens to the $500 million, $600 million worth of military aid that he sends to Cuba which ultimately arrives in Nicaragua. It is obviously an agreement between intelligence agencies to move this aid through, and I think that it would be a good position for the President to take as a threshold position that it is not acceptable for Mr. Gorbachev to say that because the Soviet boatload of equipment stops in Cuba before it gets to Nicaragua, it is a Cuban aid program. The Cubans are as poor as church mice. They could not live for a few days without the Soviet Union keeping them going. Everything that happens in Cuba economically is a transfusion from the Soviet Union, and the Soviet Union, it appears to me, has absolutely a vice-like grip over the economy, that wretched Marxist economy, as it is in Cuba.

Mr. McCOLLUM. Mr. Speaker, as the gentleman from California [Mr. HUNTER] knows, we made an enormous policy mistake back in the early 1960's in allowing Castro to stay and come to power in Cuba, and since then that export of revolution from him has been fueled by the Soviet support that he has obviously received, and we have done very little about that. We have had a few opportunities, but we really have not done much about it, and I think we lose sight of the fact, coming back strictly to our hemisphere for the moment, not only the proximity of those little countries down there to us and the tremendous problems that could be caused by the deterioration of their societies from the standpoint of misery coming our way and our own national security concerns with our own border that is closer, frankly, to the gentleman than they are frankly to my own State, but we lose sight of the fact that this whole process, as we deal with Latin America, Central America particularly, that we are talking now about something that has been going on for a long time. We are talking now about almost close to 30 years of Soviet involvement and meddling in our hemisphere, and one wonders about whatever happened to the Monroe Doctrine at times like this.

I guess it is nice rhetoric to talk about this, and maybe it conjures up images that are gone, but the United States has a hemispheric concern that is paramount here. It needs to be here. If the Soviets can mess around in our backyard the way they have been doing and get away with it, they are probably going to continue to do that, and that is not something that should be acceptable to our people, it seems to me, and it is something that, if we look at what is going to happen, the domino effect we used to talk about in Southeast Asia is far more likely to occur in Latin America and Central America in particular if we do not see the encouragement of these democratic values and the strengthening of economies, like in El Salvador, and an end to the kind of violence the FMLN did this weekend.

Mr. HUNTER. Every Soviet admiral realizes that Hitler sunk 114 American vessels near the mouth of the Panama Canal in World War II and that the Caribbean is an absolute choke point for us, but beyond that the naval base at Corinto in Nicaragua would confer

an enormous strategic advantage to the Soviet Union if they are able to consolidate Nicaragua as a Soviet satellite because right now ships operating, more ships operating out of the Soviet Union, have to come out of Camranh Bay thousands of miles away from the American west coast, out of the Korean Peninsula or out of the Soviet Union, again traveling thousands of miles without a safe port to put into with a very, very long logistical tail, and they essentially have to go into a holding pattern off our coast to project power. If the Soviets are able to develop Corinto into a Soviet naval base, they will be able to project Soviet naval power directly into the heartland of the American Pacific Fleet. And it is, I think, because of that enormous strategic importance of Nicaragua and of this area in our own hemisphere that the Soviets realize that I think that the Soviets are going to be very reluctant to let go, and I would be interested in the gentleman from Florida [Mr. Goss] giving us his opinion, but it is my opinion that, when the Soviets have let go in Afghanistan, and indeed they have not yet; we have evidence that they are still bombing, according to U.N. contractors who have been near the border, and even though they may not let go in parts of Africa and other parts of the world, I think the Soviet Union, if it listens to the advice of its admirals and generals, will try to hang on in Central America, in our own hemisphere, as long as possible because of the enormous leverage that it confers on them.

Mr. McCOLLUM. Mr. Speaker, I would like to wrap up in a couple of minutes, but, before I do that, I would like to yield in the remaining 5 minutes or so some more time to the gentleman from Florida [Mr. Goss] to respond because I think both he and the gentleman from California have provided a great service in discussion of this today.

Mr. GOSS. Mr. Speaker, I appreciate my friend and colleague, the gentleman from Florida [Mr. McCOLLUM] for yielding, and I appreciate the observations from my friend from California [Mr. HUNTER] on what the Soviet strategic interest may very well be in the Pacific. I think at this stage the easiest thing to say, if it is a free opportunity, the Soviets are going to be very happy to accept it, and I think it is our duty to make sure that it is not a free opportunity for them. We so often in this Chamber talk about the Panama Canal, and we talk about the importance of commerce in the economy, not only to our east coast, but we forget sometimes that the economy of Latin America is very much dependent on the security and free use, free commercial use, of the Panama Canal for the well-being, the economic well-being, of all of the countries of the world, but particularly those in the Western Hemisphere. And if we shut off those trade routes for the people of west coast South America, through the canal to our markets and our east coast, and, if we shut off the Orient from the east coast of Latin America, South America, we have created a tremendous economic hardship, and that is not something that we want to entertain at this point because we are—one of the big things we talk about in terms of our well-being in Latin America—is helping the democratic nations there overcome the debt problems that they have got, particulary without relying on the drug problem, so this is all tied in together, and I do not think we can afford to lose a foot, and strategically I agree with our colleague from California [Mr. HUNTER] that it is in our best interest to make absolutely certain that there is no Soviet outpost in our backyard, and I think most of the people of the United States of America would buy that foursquare.

Mr. Speaker, I am equally concerned, as the gentleman has brought up, with the relationship of Cuba. I do not know whether it is a charade or not that is going on between Gorbachev and Castro. But either way the mischief is still going on. There is not doubt about that, and I do not know whether we are going to find out. The Cubans are making these overtures about becoming members of the OAS and so forth in 1991, and sitting on the Security Council now, increasing their hegemony in the area. I do not know whose flag they are really flying. They say they are flying their own. Most likely our history shows they have been flying the Soviet flag, and I think the gentleman has a point that is worthy of close consideration.

Mr. McCOLLUM. Mr. Speaker, I would like to reclaim my time from both gentlemen, but I really appreciate the fact that one from the Committee on Foreign Affairs and one from the Committee on Armed Services have been here today to help us discuss this issue and bring it back home just for a brief summary and a conclusion. What we have been talking about here with our colleagues this afternoon has been what has happened over the weekend in El Salvador, that tiny little country to the south of us that has about 5 million people in population, that has a democratically elected government, a government that I went down and observed the last election of their President in March of this year when thousands and thousands of Salvadorans went to the polls in one of the most open demonstrations of democracy ever in the history of the world. What we saw this weekend, what we are reporting on and what we are concerned about is the guerrilla activity the Communists supplied through Nicaragua, still with Soviet weapons, probably from Cuba in an intermediate way to allow them to kill a lot of people over there, to bomb the President's residence, this democratically elected President's residence in El Salvador, which probably would have killed him had he been in that residence, and to do all kinds of damage that really has no business being done in a free country. There are ways of going about democracy, but what Ortega is supporting there and what these guerrillas are doing is not the way to do it. We have a ballot box. We have an opportunity for an election in Nicaragua coming up in the first of the year. We need to support the freedom and the free people of El Salvador and the free opportunities for elections in Nicaragua, as they have been in El Salvador.

□ 1900

So I urge my colleagues to take a close look at all these things, beware. The friendly bear from the Soviet Union may not be so friendly, even though he may be friendly on the one hand with one cheek in Europe, he is not so friendly this evening when it comes to what is happening with his allies and his puppet in Latin America which are right next door to us. Let us watch it carefully. Let us lend the support they need to the government of Alfredo Cristiani and let us above all else remember, our national security interests are at stake.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. DREIER] is recognized for 60 minutes.

[Mr. DREIER of California addressed the House. His remarks will appear hereafter in the Extensions of Remarks.

CONFERENCE REPORT ON H.R. 2939

Mr. OBEY submitted the following conference report and statement on the bill (H.R. 2939) making appropriations for foreign operations, export financing, and related programs for the fiscal year ending September 30, 1990, and for other purposes:

CONFERENCE REPORT (H. REPT. 101-344)

The Committee of Conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2939) "making appropriations for the Foreign Operations, Export Financing, and Related Programs for the fiscal year ending September 30, 1990, and for other purposes," having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the Senate recede from its amendments numbered 5, 9, 14, 28, 29, 34, 39, 41, 50, 56, 57, 58, 59, 60, 61, 70, 71, 73, 80, 82, 88, 93, 99, 100, 101, 104, 106, 108, 109, 114, 119,

129, 130, 175, 176, 199, 242, 280, 282, 285, and 288.

That the House recede from its disagreement to the amendments of the Senate numbered 1, 2, 10, 16, 18, 27, 30, 32, 36, 37, 38, 45, 47, 53, 62, 68, 72, 92, 116, 118, 123, 125, 137, 138, 141, 143, 144, 145, 147, 148, 150, 151, 152, 153, 155, 157, 158, 159, 165, 166, 170, 171, 172, 173, 174, 177, 178, 181, 182, 183, 184, 186, 188, 189, 190, 191, 192, 193, 194, 195, 196, 198, 200, 202, 203, 204, 205, 206, 207, 208, 209, 210, 212, 213, 214, 217, 218, 219, 222, 223, 225, 226, 227, 228, 229, 230, 231, 232, 236, 237, 238, 239, 240, 241, 244, 249, 251, 254, 255, 256, 258, 261, 264, 265, 268, 269, and 271, and agree to the same.

Amendment numbered 7:

That the House recede from its disagreement to the amendment of the Senate numbered 7, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert *$137,948,091*; and the Senate agree to the same.

Amendment numbered 11:

That the House recede from its disagreement to the amendment of the Senate numbered 11, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert *$40,000,000*; and the Senate agree to the same.

Amendment numbered 40:

That the House recede from its disagreement to the amendment of the Senate numbered 40, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert *$35,000,000*; and the Senate agree to the same.

Amendment numbered 43:

That the House recede from its disagreement to the amendment of the Senate numbered 43, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert *$31,000,000*; and the Senate agree to the same.

Amendment numbered 46:

That the House recede from its disagreement to the amendment of the Senate numbered 46, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert *$3,205,000,000*; and the Senate agree to the same.

Amendment numbered 77:

That the House recede from its disagreement to the amendment of the Senate numbered 77, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert *$20,000,000*; and the Senate agree to the same.

Amendment numbered 78:

That the House recede from its disagreement to the amendment of the Senate numbered 78, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert *$215,000,000*; and the Senate agree to the same.

Amendment numbered 81:

That the House recede from its disagreement to the amendment of the Senate numbered 81, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert *$168,614,000*; and the Senate agree to the same.

Amendment numbered 84:

That the House recede from its disagreement to the amendment of the Senate numbered 84, and agree to the same with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows: *: Provided further,* That of the funds appropriated under this heading not less than $15,000,000 shall be available for Refugee Entrant Assistance; and the Senate agree to the same.

Amendment numbered 90:

That the House recede from its disagreement to the amendment of the Senate numbered 90, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert *$8,250,000*; and the Senate agree to the same.

Amendment numbered 94:

That the House recede from its disagreement to the amendment of the Senate numbered 94, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert *$4,297,404,194*; and the Senate agree to the same.

Amendment numbered 96:

That the House recede from its disagreement to the amendment of the Senate numbered 96, and agree to the same with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows:

For expenses necessary for loans to enable to the President to carry out the provisions of section 23 of the Arms Export Control Act, $406,000,000: Provided: That any funds made available by this paragraph, except as otherwise specified, may be made available at concessional rates of interest: Provided further, That the concessional rate of interest on Foreign Military Financing Program loans shall be not less than 5 per centum per year: Provided further, That all country and funding level changes in requested concessional financing allocations shall be submitted through the regular notification procedures: Provided further, That during fiscal year 1990, gross obligations for the principal amount of direct loans under this heading, exclusive of loan guarantee defaults, shall not exceed $406,000,000.

And the Senate agree to the same.

Amendment numbered 243:

That the House recede from its disagreement to the amendment of the Senate numbered 243, and agree to the same with an amendment as follows:

In lieu of the section number stricken and inserted, insert: *572*; and the Senate agree to the same.

Amendment numbered 246:

That the House recede from its disagreement to the amendment of the Senate numbered 246, and agree to the same with an amendment as follows:

In lieu of the section number stricken and inserted, insert *574*; and the Senate agree to the same.

Amendment numbered 247:

That the House recede from its disagreement to the amendment of the Senate numbered 247, and agree to the same with an amendment as follows:

In lieu of the section number stricken and inserted, insert *575*; and the Senate agree to the same.

Amendment numbered 248:

That the House recede from its disagreement to the amendment of the Senate numbered 248, and agree to the same with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows:

IRELAND

SEC. 576. It is the sense of the Congress that of the funds appropriated or otherwise made available for the International Fund for Ireland, the Board of the International Fund for Ireland should give great weight in the allocation of such funds to projects which will create permanent, full time jobs in the areas that have suffered most severely from the consequences of the instability of recent years. Areas that have suffered most severely from the consequences of the instability of recent years shall be defined as areas that have high rates of unemployment.

And the Senate agree to the same.

Amendment numbered 272:

That the House recede from its disagreement to the amendment of the Senate numbered 272, and agree to the same with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows:

RESCISSION

SEC. 589. Of the funds appropriated by the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1989, under the heading "Economic Support Fund", $50,000,000 of such funds are hereby rescinded: Provided, That such rescission may be derived only from unearmarked funds and funds earmarked under such heading for Sub-Saharan Africa and allocated for Sudan, Somalia, and Liberia.

And the Senate agree to the same.

Amendment numbered 273:

That the House recede from its disagreement to the amendment of the Senate numbered 273, and agree to the same with an amendment as follows:

In lieu of the sum proposed by said amendment insert *590*; and the Senate agree to the same.

The committee of conference report in disagreement amendments numbered 3, 4, 6, 8, 12, 13, 15, 17, 19, 20, 21, 22, 23, 24, 25, 26, 31, 33, 35, 42, 44, 48, 49, 51, 52, 54, 55, 63, 64, 65, 66, 67, 69, 74, 75, 76, 79, 83, 85, 86, 87, 89, 91, 95, 97, 98, 102, 103, 105, 107, 110, 111, 112, 113, 115, 117, 120, 121, 122, 124, 126, 127, 128, 131, 132, 133, 134, 135, 136, 139, 140, 142, 146, 149, 154, 156, 160, 161, 162, 163, 164, 167, 168, 169, 179, 180, 185, 187, 197, 201, 211, 215, 216, 220, 221, 224, 233, 234, 235, 245, 250, 252, 253, 257, 259, 260, 262, 263, 266, 267, 270, 274, 275, 276, 277, 278, 279, 281, 283, 284, 286, 287, 289, 290, 291, 292, 293, 294, and 295.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2939) making appropriations for Foreign Operations, Export Financing, and Related Programs for the fiscal year ending September 30, 1990, and for other purposes submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

TITLE I—MULTILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

CONTRIBUTION TO THE INTERNATIONAL FINANCE CORPORATION

Amendment No. 1: Inserts $75,000,000 for the International Finance Corporation contributions for arrearages as proposed by the Senate, instead of $79,904,472 as proposed by the House.

Amendment No. 2: Deletes language proposed by the House and stricken by the Senate relating to annual contributions to the International Finance Corporation. The Senate excluded annual contributions from its limitation on stock purchases.

Amendment No. 3: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert: $24,544,000

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to a lower level for fiscal year 1990 stock purchases for the International Finance Corporation due to the tight budgetary outlay situation.

INTER-AMERICAN DEVELOPMENT BANK

INTER-REGIONAL PAID-IN CAPITAL

Amendment No. 4: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides $31,617,983 for the United States paid-in share portion of the increase in capital stock for the Inter-American Development Bank.

INTER-AMERICAN DEVELOPMENT BANK

FUND FOR SPECIAL OPERATIONS

Amendment No. 5: Provides $63,724,629 as proposed by the House, instead of $53,724,629 as proposed by the Senate.

Amendment No. 6: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *: Provided, That the funds made available under this heading shall be withheld from obligation until the Secretary of the Treasury certifies that the Board of Executive Directors of the Inter-American Development Bank has adopted policies to ensure that all recipients of assistance must agree in writing that in general any procurement of goods or services utilizing Bank funds shall be conducted in a manner that does not discriminate on the basis of nationality against any member country, firm or person interested in providing such goods or services: Provided further, That the Secretary of the Treasury shall instruct the United States Executive Director of the Inter-American Development Bank to use the voice and vote of the United States to oppose any assistance by the Bank to any recipient of assistance who refuses to agree in writing that in general any procurement of goods or services utilizing Bank funds shall be conducted in a manner that does not discriminate on the basis of nationality against any member country, firm or person interested in providing such goods or services: Provided further,*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees are concerned about the procurement practices of the Inter-American Development Bank. The conferees have included language withholding funding until the Secretary of the Treasury certifies that the Bank has adopted policies requiring all assistance recipients to agree generally not to discriminate in procurement practices on the basis of nationality. The conferees have also included language requiring the Secretary of the Treasury to instruct the U.S. Executive Director of the Bank to vote against assistance recipients who fail to agree to generally unbiased procurement practices.

ASIAN DEVELOPMENT FUND

Amendment No. 7: Appropriates $137,948,091 for the Asian Development Fund arrearages instead of $184,641,964 as proposed by the House or $84,641,964 as proposed by the Senate.

INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT

Amendment No. 8: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

CONTRIBUTION TO THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT

For payment to the International Bank for Reconstruction and Development by the Secretary of the Treasury, for the United States share of the paid-in share portion of the increases in capital stock, for the General Capital Increase, $50,000,795, to remain available until expended: Provided, That no such payment may be made while the United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a postion at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides $50,000,795 in paid-in-capital for the General Capital Increase for the International Bank for Reconstruction and Development (World Bank). Prior year language limiting the pay of the United States Executive Directors to the Bank has also been included.

The conferees agreed to provide $50,000,795 in budget authority for the hard-loan window of the Bank but have declined in Amendment No. 9 to provide $2,241,863,586 in callable capital that would allow the Bank to make loans in that amount, including structural adjustment loans.

Congress will make its judgment on the provision of the callable capital contribution to the World Bank in a future supplemental.

The conferees have agreed to drop language inserted by the Senate relating to funding for El Salvador. That issue is addressed in later language in the Statement of the Managers.

LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

Amendment No. 9: Deletes language proposed by the Senate stating that the limitation on callable capital for the International Bank for Reconstruction and Development shall not exceed $2,241,863,586.

The conferees have agreed to delete the provision of callable capital for the Bank as explained in Amendment No. 8.

INTERNATIONAL FINANCE CORPORATION

Amendment No. 10: Deletes language proposed by the House providing $8,095,528 in annual contributions to the International Finance Corporation.

ASIAN DEVELOPMENT FUND

Amendment No. 11: Appropriates $40,000,000 for the Asian Development Fund annual contributions instead of $37,254,036 as proposed by the House or $67,750,072 as proposed by the Senate.

ENHANCED STRUCTURAL ADJUSTMENT FACILITY OF THE INTERNATIONAL MONETARY FUND

Amendment No. 12: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows:

CONTRIBUTION TO THE ENHANCED STRUCTURAL ADJUSTMENT FACILITY OF THE INTERNATIONAL MONETARY FUND

For payment to the Interest Subsidy Account of the Enhanced Structural Adjustment Facility of the International Monetary Fund, $140,000,000 to remain available until expended: Provided, That such funds are available subject to authorization: Provided further, That none of the funds made available by this paragraph shall be available for obligation or disbursement until the Secretary of the Treasury has assured the Committees on Appropriations in writing that the current policy of the International Monetary Fund (IMF) and the United States Government requiring that all congressional inquiries to IMF employees be cleared through the office of the United States Executive Director of the IMF has been reversed thereby allowing unmonitored and unfettered contact between Congress and IMF employees.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have provided $140,000,000 for a United States contribution to the International Monetary Fund Interest Subsidy Account. Further, it has come to the attention of the conferees that informational

inquiries to the IMF offices are routinely being referred to the U.S. Executive Director's office. Assistance from the Executive Director's offices in obtaining information may on occasion be necessary and helpful. However, the conferees note that no similar policy or practice is followed at any other international financial institution receiving U.S. funding. The conferees object to the existing blanket referral policy.

The conferees believe that it is imperative for the United States Government to develop a centralized information system on all debt instruments issued by U.S. Government agencies. International and domestic debt issues continue to play a large role in U.S. Government financial matters. Executive and legislative policy development is constrained by the inability of the Executive Branch to rapidly and accurately respond to factual questions concerning principal and interest payments schedules, potential lost revenues, arrearages, applicable interest rates, deficit effects, public liabilities on guaranteed financial instruments, etc.

Consequently, the conferees direct that the Department of the Treasury and the Office of Management and Budget shall develop a plan to create a centralized financial debt and credit information system for the United States Government. The plan shall include an implementation schedule and cost estimates, and shall be provided to the Committee on Appropriations no later than March 5, 1990.

The conferees further direct that the Department of the Treasury in conjunction with the Office of Management and Budget shall develop a written report on receipts paid to agencies of the United States Government by foreign governments during the last five years and projected for the next five years on current debt under all U.S. Government programs. The receipts report shall be made on a country by country and program by progam basis. Receipts received shall be compared to receipts owed according to original loan repayment schedules. Loan repayment schedules affected by Paris Club reschedulings shall be clearly noted along with the dates of those reschedulings, as shall all payments of principal or interest currently in arrears. Such report shall be provided to the Appropriations Committees of the House and Senate no later than March 15, 1990.

Amendment No. 13: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment insert the following:

For necessary expenses to carry out the provisions of sections 301 and 103(g) of the Foreign Assistance Act of 1961, and of section 2 of the United Nations Environment Program Participation Act of 1983, $265,115,000: Provided, That no fund shall be available for the United Nations Fund for Science and Technology: Provided further, That the total amount of funds appropriated under this heading shall be made available only as follows: $109,510,000 for the United Nations Development Program; $65,400,000 for the United Nations Children's Fund, of which amount 75 per centum (less amounts withheld consistent with section 307 of the Foreign Assistance Act of 1961 and section 526 of this Act) shall be obligated and expended no later than thirty days after the date of enactment of this Act and 25 per centum of which shall be expended within thirty days from the start of the United Nations Children's Fund fourth quarter of operations for 1990; $980,000 for the World Food Program; $1,500,000 for the United Nations Capital Development Fund; $800,000 for the United Nations Voluntary Fund for the Decade for Women; $200,000 for the United Nations International Research and Training Institute for the Advancement of Women; $100,000 for the Intergovernmental Panel on Climate Change; $2,000,000 for the International Convention and Scientific Organization Contributions; $2,000,000 for the World Meteorological Organization Voluntary Cooperation Program; $22,000,000 for the International Atomic Energy Agency; $12,000,000 for the United Nations Environment Program; $800,000 for the United Nations Educational and Training Program for Southern Africa; $110,000 for the United Nations Institute for Namibia; $500,000 for the United Nations Trust Fund for South Africa; $750,000 for the Convention on International Trade in Endangered Species; $220,000 for the World Heritage Fund; $100,000 for the United Nations Voluntary Fund for Victims of Torture; $245,000 for the United Nations Fellowship Program; $400,000 for the United Nations Center on Human Settlements; $500,000 for the UNIDO Investment Promotion Service; $10,000,000 for the Organization of American States; and $35,000,000 for the United States contributions to the third replenishment of the International Fund for Agricultural Development; Provided, That none of the funds appropriated under this heading shall be made available for the International Fund for Agricultural Development until agreement has been reached on the third replenishment of the Fund: Provided further, That funds appropriated under this heading may be made available for the International Trade Energy Agency only if the Secretary of State determines (and so reports to the Congress) that Israel is not being denied its right to participate in the activities of that Agency.

The managers on the part of the Senate will move to concur in the amendment of the House to the Senate.

The conference agreement specifies funding for the organizations within this account as follows:

Organization	House	Senate	Conference
U.N. Children's Fund (UNICEF)	$65,400,000	$65,000,000	$65,400,000
U.N. Development Program (UNDP)	108,990,000	109,630,000	109,510,000
Convention on Int. Trade in Endangered Species (CITES)	750,000	650,000	750,000
U.N. Environment Program	12,000,000	10,000,000	12,000,000
Int. Atomic Energy Agency (IAEA)	23,000,000	22,000,000	22,000,000
U.N. Afghanistan Emergency Trust Fund	(13,500,000)	13,500,000	(13,500,000)

Total	270,115,000	241,125,000	265,115,000

The conferences have also agreed to include a requirement that the United Nations Children's Fund (UNICEF) receive 75 per cent of its funding no later than thirty days after enactment. The remainder will be expended no later than within thirty days from the start of UNICEF's fourth quarter of operations for 1990. The International Fund for Agricultural Development (IFAD) will receive $35,000,000 from within this account subject to reaching agreement on the third replenishment of the Fund. The conference agreement provides $13,500,000 for the U.N. Afghanistan Emergency Trust Fund to be derived by transfer from the Private Sector, Environment, and Energy account within the Agency for International Development (Amendment No. 23).

INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT

Amendment No. 14: Deletes funding for the International Fund for Agricultural Development proposed by the Senate. Funding for IFAD is provided under amendment No. 13.

TITLE II—BILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

AGENCY FOR INTERNATIONAL DEVELOPMENT

Amendment No. 15: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

AGRICULTURE, RURAL DEVELOPMENT, AND NUTRITION, DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of section 103, $483,715,000: Provided, That up to $5,000,000 shall be provided for new development projects of private entities and cooperatives utilizing surplus dairy products: Provided further, That not less than $8,000,000 shall be provided for the Vitamin A Deficiency Program: Provided further, That, notwithstanding any other provision of law, up to $10,000,000 of the funds appropriated under this heading shall be made available, and remain available until expended, for agricultural activities in Poland which are managed by the Polish Catholic Church or other nongovernmental organizations: Provided further, That not less than $1,000,000 shall be available for a Farmer-to-Farmer program for Poland, notwithstanding any other provision of law.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The House had included funding for agriculture, rural development and nutrition programs under a category for general development assistance. The Senate included a separate functional account for this purpose. The conferees have accepted the Senate position on functional accounts. If

there are future changes in the Foreign Assistance Act which would change the development assistance account structure then the restructuring of these accounts should be reviewed at that time.

The House had included $5,000,000 for surplus dairy products, $8,000,000 for Vitamin A Deficiency and $10,000,000 for agriculture activities in Poland in the general development assistance funding, while the Senate provided them under the functional account. The conferees agreed to provide these programs under the specific functional account.

The conferees encourage innovative approaches such as that advanced by the partnership of Puerto Rico, Massachusetts, and Hawaii in which Third World aquaculture development would enhance available supplies of protein as well as contribute to local economic development initiatives through private capital investment and job creation. As such, the conferees expect AID to allocate funds for this project to the organizations participating in this partnership, in the manner outlined in the testimony presented before the House Appropriations Subcommittee on Foreign Operations, Export Financing and Related Programs.

The conferees agreed to earmark $1,000,000 of the funds appropriated to the Agriculture, rural development and nutrition functional account for fiscal year 1990 to support a Farmer-to-Farmer program to assist Poland. The Farmer-to-Farmer program is expected to send at least 100 highly qualified United States volunteer farmers and agriculturalists to assist Polish farmers and agriculture-related organizations. Working at the people to people level, the volunteers will carry out assignments in such areas as crop and livestock production, farm input supply, post-harvest storage and handling, and food processing and marketing. Where feasible, Polish-speaking Americans should be recruited to carry out these activities.

The Farmer-to-Farmer program was initiated in the 1985 Farm Bill and is administered by the Volunteers in Overseas Cooperative Assistance (VOCA), a private voluntary organization which recently received the 1989 Presidential End Hunger Award for its worldwide program. VOCA operates in over 40 countries and has sent more than 300 volunteers abroad.

The conferees also encourage AID to supplement this earmark with local currencies, including those generated through food aid programs, so that the number of volunteers might be increased.

POPULATION, DEVELOPMENT ASSISTANCE

Amendment No. 16: Appropriates $220,000,000 as proposed by the Senate instead of $201,600,000 as proposed by the House.

Amendment No. 17: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides not less than $15,000,000 in Population, Development Assistance funds for the United Nations Population Fund. The provision requires that the United Nations Population Fund maintain these funds in a separate account and not commingle them with any other funds. The provision also prohibits the use of any funds made available for the United Nations Population Fund from being made available for programs for the People's Republic of China.

EGYPT, JORDAN, PAKISTAN, DEVELOPMENT ASSISTANCE

Amendment No. 18: Delegates developed assistance earmarks proposed by the House for Egypt, Jordan, and Pakistan. The conferees agreed to address these earmarks under the Economic Support Fund account.

HEALTH, DEVELOPMENT ASSISTANCE

Amendment No. 19: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

HEALTH, DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of section 104(c), $125,994,000.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The House had provided assistance for health programs under a general development assistance account. The conferees agreed to fund health programs under the functional Health account proposed by the Senate.

The revised provision on the Health account deletes a Senate earmark for River Blindness. However, this earmark was deleted with the understanding that the Agency for International Development is to make available at least $5,000,000 for the River Blindness Program of the World Health Organization in the manner described in the House report on this bill.

INTERNATIONAL AIDS PREVENTION AND CONTROL PROGRAMS

Amendment No. 20: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides $42,000,000 for the International AIDS Prevention and Control Program, of which $21,000,000 is earmarked for the World Health Organization for the use in financing the Global Program on AIDS, including activities implemented by the Pan American Health Organization. The House had included $42,000,000 for the AIDS program under a general development assistance account and an earmark of $25,000,000 for the World Health Organization.

The conferees are concerned about the lack of uniform implementation of AIDS control programs in Africa where, according to the World Health Organization as many as 2.5 million individuals have been infected with the HIV virus.

AIDS respects no national borders. The absence of AIDS control programs in some countries seriously undermines the effectiveness of existing programs elsewhere. The victims of this patchwork approach are not just those countries without an AIDS control program, but the entire continent. The conferees therefore urge WHO to ensure that AIDS control programs are implemented in those countries lacking such programs as quickly as possible.

CHILD SURVIVAL FUND

Amendment No. 21: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides $71,000,000 for the Child Survival Fund. The House had provided Child Survival assistance as part of a general development account. The conferees agreed to provide Child Survival assistance as part of a functional account proposed by the Senate.

The conferees also agreed that funding from all sources for child survival activities for fiscal year 1990 should be targeted at $200,000,000.

EDUCATION AND HUMAN RESOURCES, DEVELOPMENT ASSISTANCE

Amendment No. 22: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

EDUCATION AND HUMAN RESOURCES DEVELOPMENT, DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of section 105, $134,541,000: Provided, That $1,500,000 of the funds appropriated under this heading shall be made available for the Caribbean Law Institute: Provided further, That not less than $67,270,000 of the funds appropriated under this heading and under the heading "Sub-Saharan Africa, Development Assistance" shall be available only for programs in basic primary and secondary education: Provided further, That in fiscal year 1990 the Agency for International Development shall initiate three new bilateral projects in basic primary and secondary education, at least two of which shall be initiated in Sub-Saharan Africa: Provided further, That not less than $20,000,000 of the funds appropriated under this heading shall be made available for the International Student Exchange Program, of which $2,000,000 shall be available, notwithstanding any other provision of law, for students from Poland and Hungary: Provided further, That not less than $1,200,000 of the funds appropriated under this heading shall be made available for leadership programs for the Americas that have a demonstrated record of performance: Provided further, That not less than $2,000,000 of the funds appropriated under this heading shall be made available, notwithstanding any other provision of law, for technical training for the people of Poland and Hungary in skills which would foster the development of a market economy and the private sector, including training in management and agricultural extension: Provided further, That not less than $3,000,000 of the funds appropriated under this heading shall be made available, notwithstanding any other provision of law, for educational and cultural exchanges with Poland and Hungary, which shall be undertaken in cooperation with the United States Information Agency.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides $134,541,000 for Education and Human Resources Development as proposed by the Senate. The House had included funding for education and human resources programs under an overall development assistance account.

The conferees agreed to earmark $67,270,000 for basic primary and secondary education programs. In fiscal year 1990 three new bilateral basic primary and secondary education projects are to be initiated, at least two of which shall be initiated in sub-Saharan Africa. Funds in the amount of $20,000,000 have been earmarked for the International Student Exchange Program, of which $2,000,000 is for students from Poland and Hungary. The conferees also agreed to earmark $1,200,000 for leadership programs for the Americas that have a demonstrated record of performance.

The conferees have agreed to provide $2,000,000 for technical training programs, and $3,000,000 for educational exchanges in Poland and Hungary.

PRIVATE SECTOR, ENVIRONMENT, AND ENERGY, DEVELOPMENT ASSISTANCE

Amendment No. 23: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

PRIVATE SECTOR, ENVIRONMENT, AND ENERGY, DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of section 106, $149,209,000: Provided, That not less than $7,500,000 shall be made available only for cooperative projects among the United States, Israel and developing countries of which not less than $5,000,000 shall be made available for the Cooperative Development Program, and of which not less than $2,500,000 shall be made available for cooperative development research projects: Provided further, That not less than $5,000,000 shall be made available only for the Central American Rural Electrification Support project: Provided further, That not less than $2,000,000 of the funds appropriated under this heading or under the heading "Sub-Saharan Africa, Development Assistance", shall be made available for assistance in support of elephant conservation and preservation: Provided further, That not less than $3,300,000 of the funds appropriated under this heading shall be made available, notwithstanding any other provision of law, for assistance to establish an air quality monitoring network in the Krakow, Poland metropolitan area, to improve water quality and the availability of drinking water in the Krakow metropolitan area, and to establish and support a regional environmental center in Budapest, Hungary for facilitating cooperative environmental activities, which activities shall be undertaken in cooperation with the Environmental Protection agency: Provided further, That not less than $10,000,000 of the funds appropriated under this heading shall be made available, notwithstanding any other provision of law, for support for retrofitting a coal-fired commercial plant in the Krakow, Poland region with clean coal technology and for assistance to assess and develop the capability within Poland to manufacture or modify equipment that will enable industrial activities within Poland to use fossil fuels cleanly, which activities shall be undertaken in cooperation with the Department of Energy: Provided further, That the Administrator of the Agency for International Development or his designee may vest title in any property acquired under the previous two provisos in an entity other than the United States: Provided further, That not less than $1,500,000 of the funds appropriated under this heading shall be made available, notwithstanding any other provision of law, for the provision of technical assistance to Poland and Hungary (1) for the implementation of labor market reforms, and (2) to facilitate adjustment during the period of transition to free labor markets and labor organizations, which activities shall be undertaken in cooperation with the Department of Labor and United States labor and business representatives.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement earmarks not less than $5,000,000 for the Cooperative Development Program, and not less than $2,500,000 for cooperative development research projects. Funds in the amount of $5,000,000 are earmarked for the Central American Rural Electrification Support project. Also, $2,000,000 has been earmarked for assistance in support of elephant conservation and preservation.

The conferees direct that the funds appropriated under this act in support of elephant conservation and preservation shall be applied toward new initiatives consistent with the African Elephant Conservation Plan. The conferees agree that this earmark is to be provided only from new funding resources and shall not be drawn from any existing environmental or conservation program. Current elephant management initiatives shall be continued.

The conferees agreed to provide $3,300,000 for air and water quality activities in Krakow and to establish an environmental center in Budapest, $10,000,000 for retrofitting coal fired commercial plants with clean coal technology and other equipment modifications in the Krakow area, and $1,500,000 for technical assistance related to labor reform needs and activities in Poland and Hungary.

SCIENCE AND TECHNOLOGY, DEVELOPMENT ASSISTANCE

Amendment No. 24: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which appropriates $8,662,000 for Science and Technology, Development Assistance. The House had provided funding for science and technology development programs under a general account for development assistance.

MICRO-ENTERPRISE DEVELOPMENT

Amendment No. 25: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which earmarks $75,000,000 in Development and Economic Support Fund assistance and local currencies for programs of credit and other assistance for micro-enterprises in developing countries.

The conferees agreed that the Agency for International Development is to submit by March 1, 1990 to the Committees on Appropriations a detailed evaluation of the Micro-Enterprise Program. This evaluation should review the success of the program to date, the ability of AID to provide and monitor loans of less than $300 in poor countries and make recommendations on the size and scale of any future Micro-Enterprise Program.

POLAND AND HUNGARY

Amendment No. 26: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which states that funds for Poland and Hungary provided under the Poland and Hungary section are made available from Development Assistance and from the Economic Support Fund.

Amendment No. 27: Provides $45,000,000 in Development Assistance and Economic Support funds for Poland. The House had provided $10,000,000 in assistance for Poland and the Senate provided $45,000,000. The $45,000,000 earmark is part of an overall initiative on assistance for Poland, and can, along with $5,000,000 made available in both bills for Hungary, provide capitalization of $50,000,000 for private enterprise funds.

Amendment No. 28: Deletes language proposed by the Senate indicating that funding for Poland and Hungary is to go through the regular notification procedures of the Committees on Appropriations. The conferees agreed that notification will be required even if specific language is deleted, since under section 523 notification is required for activities not previously justified to the Committees on Appropriations.

Amendment No. 29: Deletes langauge proposed by the Senate concerning the availability of funds for Poland. This issue is addressed under Amendment Number 289.

SUB-SAHARAN AFRICA, DEVELOPMENT ASSISTANCE

Amendment No. 30: Appropriates $565,000,000 in Development Assistance for sub-Saharan Africa as proposed by the Senate. The House had provided $515,000,000 for sub-Saharan Africa, Development Assistance. The funding recommended by the conferees includes $50,000,000 for activities supported by the Southern Africa Development Coordination Conference which the House had included under a separate account.

The conference agreement provides funding for the third year for the Development Fund for Africa (DFA). Except as otherwise provided in the bill, the conferees agree that this assistance should continue to be implemented in accordance with the statement of managers accompanying P.L. 100-202.

The DFA was established to provide an assured source of funding and maximum flexibility to AID to respond efficiently and expeditiously to the pressing development problems confronting countries in sub-Saharan Africa. Funding is to be directed to those countries making serious efforts to address their development problems. In refraining from earmarks, there was clear intention to give AID a unique instrument with few strings in order to address sub-Saharan Africa's special development requirements.

The conferees are agreed that AID should carefully allocate the DFA between countries and programs. There is growing concern that, in the face of declining availabilities of ESF for sub-Saharan Africa, some administration officials may see DFA funds as a convenient substitute. This was not the original intent, nor is it now acceptable to the conferees, and the administration should resist any such attempts. The allocation of DFA should not be politicized, and the administration should view the unique flexibility afforded by the DFA as an experiment in dealing with sub-Saharan Africa's development problems.

Amendment No. 31: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *: Provided further, That not less than $50,000,000 of the funds appropriated under this heading shall be made available only to assist activities supported by the Southern Africa Development Coordination Conference: Provided further, That funds appropriated under this heading which are made available for activities supported by the Southern Africa Development Coordination Conference shall be made available notwithstanding section 518 of this Act and section 620(q) of the Foreign Assistance Act of 1961*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to provide funding for activities supported by the Southern Africa Development Coordination Conference (SADCC) within funds provided for development assistance for Africa. A total of $50,000,000 has been earmarked within the Sub-Saharan Africa, Development Assistance account for SADCC. Waivers for SADCC funding proposed by the Senate have been included in the revised provision.

The $50,000,000 earmark for SADCC has been provided only to assist sector projects supported by the Southern Africa Development Coordination Conference to enhance the economic development of the nine member states forming that regional institution. The conferees agreed that funding for SADCC is to be made available for one or more of the following sectors: transportation; manpower development; agriculture and natural resources; energy (including the improved utilization of electrical power sources which already exist in the member states and offer the potential to swiftly reduce the dependence of those states on South Africa for electricity); and industrial development and trade (including private sector initiatives). Funding for SADCC provided under this earmark is in addition to any amounts otherwise made available for such purposes.

SOUTHERN AFRICA, DEVELOPMENT ASSISTANCE

Amendment No. 32: Deletes language proposed by the House providing a separate account for activities supported by the Southern Africa Development Coordination Conference (SADCC). Funding for SADCC has been included as an earmark within the funding provided for Sub-Saharan Africa, Development Assistance.

ZAIRE

Amendment No. 33: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which states that development assistance for Zaire is to be carried out under the provisions for development assistance in the Foreign Assistance Act of 1961.

ASSISTANCE FOR DISPLACED CHILDREN

Amendment No. 34: Restores language stricken by the Senate which provides $3,000,000 for programs and activities for children who have become orphans as a result of the effects of drought, civil strife and other natural and man-made disasters. The conferees agree that the Agency for International Development should follow the guidelines and reporting requirements specified in the House report accompanying H.R. 2939.

ASSISTANCE FOR VICTIMS OF WAR

Amendment No. 35: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

ASSISTANCE FOR VICTIMS OF WAR

Of the aggregate of the funds appropriated by this Act to carry out part I and chapter 4 of part II of the Foreign Assistance Act of 1961, not less than $5,000,000 shall be made available, notwithstanding any other provision of law, for assistance for the provision of prostheses and related assistance for civilians who have been injured as a result of civil strife and warfare: Provided, That this amount shall be derived in equal amounts from part I and from chapter 4 of part II.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement earmarks $5,000,000 for assistance for the provision of prostheses and related assistance for civilians who have been injured as a result of civil strife and warfare. The Administration is to follow recommendations on this program as outlined in the Senate report.

SEPARATE ACCOUNTS

Amendment No. 36: Deletes language proposed by the House concerning Separate Accounts. The conferees agreed to provide one guideline for separate accounts under Amendment Number 275.

PRIVATE SECTOR REVOLVING FUND

Amendment No. 37: Provides a limitation of $5,000,000, as proposed by the Senate, on the amount of funds in the Private Sector Revolving Fund that may be derived by transfer from development assistance accounts. The House had recommended a transfer limitation of $4,611,502.

Amendment No. 38: Provides a limitation of $3,500,000 in direct loans for the Private Sector Revolving Fund, as proposed by the Senate. The House had provided a limitation of $3,228,051.

Amendment No. 39: Provides a limitation of $46,115,020 on commitments to guarantee loans for the Private Sector Revolving Fund as proposed by the House. The Senate had proposed a limitation of $100,000,000.

AMERICAN SCHOOLS AND HOSPITALS ABROAD

Amendment No. 40: Appropriates $35,000,000 for American Schools and Hospitals Abroad instead of $30,000,000 as proposed by the House and $40,000,000 as proposed by the Senate. The conference agreement provides funding for ASHA at last year's appropriated level.

Amendment No. 41: Deletes language proposed by the Senate concerning criteria for the American Schools and Hospitals Abroad program. The conferees are aware that the Agency for International Development has concluded that education programs for the disabled can be considered for ASHA funding within existing legislation and grant criteria. In dropping the Senate provision from the bill amending Section 214(a) of the Foreign Assistance Act to establish the eligibility of educational programs for the disabled for ASHA grants, the conferees rely on the good faith implementation of the decision by AID to consider applications from such programs on the same basis as all other applications. It is the conferees' intent that the term "schools" in Section 214(a) of the Foreign Assistance Act of 1961 shall be interpreted by AID to include "institutions which provide activities of daily life training, vocation education, and related services to the mentally and physically impaired." The two Foreign Operations subcommittees will continue to exercise close oversight of the ASHA program to ensure that the intent expressed in this Statement of the Managers is fully complied with by AID.

OPERATING EXPENSES OF THE AGENCY FOR INTERNATIONAL DEVELOPMENT

Amendment No. 42: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following: *$15,000,000 (except that payment may be made under this limitation only for those categories of services for which charges have been made under Foreign Affairs Administrative Support both in prior years and in the current year)*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agreed to provide a limitation of $15,000,000 for Foreign Affairs Administrative Support as proposed by the Senate instead of the limitation of $21,000,000 as proposed by the House.

The conference agreement also stipulates that the Agency for International Development's FAAS payments under the limitation may cover only categories of services included in FAAS both in fiscal year 1990 and in previous years. This stipulation reflects the concern of the conferees that AID should not be forced to absorb substantial increases (estimated at more than $11,000,000) for services previously provided without charge and over which AID has little or no control.

The conferees are aware that a comprehensive interagency review of the FAAS system is underway, and believe it is premature for the Department of State to seek to shift any additional costs to AID prior to completion of this study.

OPERATING EXPENSES OF THE AGENCY FOR INTERNATIONAL DEVELOPMENT

OFFICE OF THE INSPECTOR GENERAL

Amendment No. 43: Appropriates $31,000,000 for the Operating Expenses of AID's Office of the Inspector General instead of $30,000,000 as proposed by the House and $31,194,000 as proposed by the Senate.

HOUSING AND OTHER CREDIT GUARANTY PROGRAMS

Amendment No. 44: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *: Provided further, That section 222(a) of the Foreign Assistance Act of 1961 is amended by striking out "September 30, 1990" and inserting in lieu thereof "September 30, 1991": Provided further, That notwithstanding the prior limitation on total commitments to guarantee loans at not to exceed $125,000,000, during the fiscal year 1990, total commitments to guarantee loans shall not exceed $100,000,000 of contingent liability for loan principal*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement includes an extension of the authorization of the Housing and Other Credit Guaranty Programs through September 30, 1991. The conference agreement also sets the limitation on total commitments to guarantee loans at $100,000,000.

ECONOMIC SUPPORT FUND

Amendment No. 45: Inserts language proposed by the Senate change the reference of "Economic Support Assistance" to "Economic Support Fund".

Amendment No. 46: Appropriates $3,205,000,000 instead of $2,145,000,000 as provided by the House and $3,247,000,000 as proposed by the Senate.

Amendment No. 47: Earmarks $815,000,000 for Egypt as proposed by the Senate instead of $315,000,000 as proposed

by the House. Amendment No. 48: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *and of which sum cash transfer assistance may be provided, with the understanding that Egypt will undertake significant economic reforms which are additional to those which were undertaken in previous fiscal years, and of which*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement eliminates the limitation of $115,000,000 on cash transfer assistance to Egypt. The conferees have agreed, however, that cash transfer assistance for Egypt will be provided with the understanding that significant economic reforms, which are additional to those which were undertaken in previous fiscal years, will be undertaken. All cash transfer assistance to Egypt will be notified through the regular notification procedures of the Committees on Appropriations.

Amendment No. 49: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which allows Egyptian pounds generated from this account, or any other account in the bill, to be used to restore an endowment to a level of $50,000,000 Egyptian pound equivalent for the American University in Cairo. The conference agreement also allows an additional 20,000,000 Egyptian pounds to be used to endow other United States educational programs in Egypt. The conferees expect that funds from these endowments will be used to support a variety of educational institutions.

The conferees note that the American University in Cairo (AUC) provides subsidies, scholarships, and financial assistance, including student work programs and student aid, to the great majority of its Egyptian students. It is the conferees' hope that the financial support AUC receives from the United States through this endowment will, among other objectives, enable AUC to continue to extend a generous level of such assistance to its Egyptian students.

Amendment No. 50: Deletes language proposed by the Senate which would have limited expenditures from this account.

Amendment No. 51: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which makes clear that the funds in El Salvador's Special Investigative Unit can be used for bringing to justice those responsible for the murders of United States citizens in El Salvador.

The conferees are very disappointed that another year has passed without significant action on the expropriation of the San Salvador Electric Light Company (CAESS). Despite Committee report language and numerous letters from the respective House and Senate committees to the Secretary of State, the Salvadoran Government has as yet to comply with the dictates of its own Supreme Court and come to fair and equitable terms with CAESS.

Accordingly, the conference agreement contains language which requires a report from the President on the extent to which the Government of El Salvador has made demonstrable progress in settling outstanding expropriation claims on this matter prior to the obligation of fiscal year 1990 ESF funds.

In light of the rulings of its own Supreme Court, the Salvadoran government should move promptly to negotiate a fair value for the CAESS assets and reach an equitable settlement for all concerned.

The conferees agree that none of the funds provided to El Salvador under this Act shall be conditioned on any requirement that El Salvador accept any settlement with the FMLN which violates the democratic constitution of El Salvador of 1983.

Amendment No. 52: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which extends the applicability of section 534 of the Foreign Assistance Act of 1961 through September 30, 1990. This provision extends the authorization for the Administration of Justice program by one year.

Because of the extreme demands placed on the ESF account the conferees have not provided a full earmark for the Administration of Justice program. The amount of $7,000,000 was earmarked for the ICITAP program under amendment No. 292. The conferees wish to express their strong support for other aspects of this program and emphasize that they expect them to be fully funded by the Administration.

Amendment No. 53: Earmarks $35,000,000 for Jordan as proposed by the Senate instead of $18,000,000 as proposed by the House.

Amendment No. 54: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which earmarks not less than $230,000,000 for Pakistan.

Amendment No. 55: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which earmarks not less than $20,000,000 for Morocco.

Amendment No. 56: Deletes language proposed by the Senate which would have provided an earmark for Tunisia of not less than $12,500,000.

Amendment No. 57: Deletes language proposed by the Senate which would have provided an earmark of not less than $50,000,000 for Portugal.

Amendment No. 58: Restores language proposed by the House and stricken by the Senate which prohibits Zaire from receiving Economic Support Funds.

Amendment No. 59: Restores language proposed by the House and deleted by the Senate which provides that no economic support funds shall be made available for Zaire.

Amendment No. 60: Deletes language proposed by the Senate which would have required all Economic Support Funds for Zaire to be provided only through private and voluntary organizations.

Amendment No. 61: Deletes language proposed by the Senate which would have provided an earmark for Central American democracies of not less than $440,000,000.

Amendment No. 62: Deletes language proposed by the House on separate accounts for non-project sector assistance. This subject matter is addressed in Amendment No. 275.

Amendment No. 63: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *treated in accordance with section 592 of this Act.* The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

This conference agreement clarifies that local currency generated from ESF cash transfers shall be treated in accordance with section 592 of this Act.

Amendment No. 64: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that notifications be provided through the regular notification procedures of the Committees on Appropriations. The House had proposed that notifications be provided through procedures contained in section 634A of the Foreign Assistance Act of 1961.

Amendment No. 65: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that notifications be provided through the regular notification procedures of the Committees on Appropriations. The House had proposed that notifications be provided through procedures contained in section 634A of the Foreign Assistance Act of 1961.

Amendment No. 66: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which clarifies that none of the ESF funds from this Act or prior foreign assistance appropriations shall be made available for tied-aid credits in accordance with any provision of law enacted after May 19, 1988.

Amendment No. 67: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides not less than $5,000,000 for humanitarian relief, medical treatment, education and vocational training for victims of the Armenian earthquake of December 7, 1988. These funds will be channeled through private and voluntary organizations and non-governmental organizations from the United States.

The conferees are aware of the severe damage done to the Leeward Islands and Dominica by Hurricane Hugo in September 1989, and commend the Office of Foreign Disaster Assistance for its prompt provision of plastic sheeting for roofless buildings, water purification tablets, and other emergency items.

In view of the damage to and destruction of hospitals, schools, roads, food crops, export crops, livestock and other segments of these island-economies, however, the conferees recognize the need for an American assistance program that goes beyond the short-term, immediate focus of emergency assistance, to the longer-term challenge of reconstruction, rehabilitation and recovery.

The conferees therefore strongly urge the Agency for International Development (AID) to commit not less than $5,000,000 in fiscal year 1990 ESF and DA for these purposes.

The determination of which islands will be beneficiaries, and in which sectors these funds will be allocated, is to be left to the discretion of AID.

Amendment No. 68: Earmarks $1,500,000 to support the independent Polish trade union "Solidarity" through the AFL-CIO's Free Trade Union Institute as proposed by

the Senate instead of $1,000,000 as proposed by the House.

Amendment No. 69: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *: Provided further, That not less than $200,000,000 of the funds appropriated under this heading shall be available, notwithstanding any other provision of law, for Poland: Provided further, That $2,500,000 of the funds appropriated under this heading shall be available, notwithstanding any other provision of law, to support independent, democratic organizations and activities in Poland and Hungary*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides $200,000,000 for economic stabilization, private sector, and other activities aimed at developing a market-oriented economy in Poland. Also $2,500,000 is provided for independent democratic organizations and activities in Poland and Hungary.

The conferees note that the $1,500,000 provided for the AFL-CIO's Free Trade Union Institute and the $2,500,000 for other democratic organizations are in addition to the $200,000,000 provided for Poland.

The United States strongly supports peaceful, democratic change in Estonia, Latvia and Lithuania. United States interest in Baltic self-determination dates from 1922, when we recognized the independence of the three Baltic States, as the Soviet Union had already done following World War I.

During the past two years, through their courageous response to the glasnost/perestroika policies of the Soviet leadership, the Baltic peoples have signaled their desire to move the process of self-determination forward. Elections early next year for Supreme Soviets in the three Baltic republics will be milestones in this process.

The U.S. supports the advancement of democratic institutions throughout Eastern Europe.

Amendment No. 70: Deletes Senate language to earmark $10,000,000 to implement the South Pacific Tuna Act of 1988.

INTERNATIONAL FUND FOR IRELAND

Amendment No. 71: Restores language proposed by the House which provides $20,000,000 for the United States contribution to the International Fund for Ireland. The conferees note that this will bring United States contributions to the Fund to $150,000,000 since 1986. The Anglo-Irish Agreement Support Act of 1986 (Public Law 99-415) authorized $120,000,000 to support implementation of the Anglo-Irish Agreement.

The International Fund for Ireland was intended to be multilateral. Canada and New Zealand have provided small contributions. In a welcome move, the European Community has pledged three annual contributions of $18,000,000, with the first contribution made in March 1989. No other donors have participated in the Fund. As of fiscal year 1989, the United States has provided over 85 percent of the working capital of the Fund.

The conferees are concerned that the response from other nations has not been as forthcoming as had been hoped. While international assistance is necessary, Great Britain and Ireland bear the primary fiscal responsibility for dealing with problems of economic and social development and reconciliation. Given the present United States budget situation, the conferees believe it will be difficult to sustain support for additional United States contributions unless there is wider and more substantial international participation in the International Fund for Ireland.

MULTILATERAL ASSISTANCE INITIATIVE FOR THE PHILIPPINES

Amendment No. 72: Deletes language proposed by the House requiring that the President seek to provide not less than 25 percent of multilateral assistance initiative and development funds for the Philippines through private voluntary organizations.

Amendment No. 73: Deletes language proposed by the Senate encouraging the use of private voluntary organizations and cooperatives in meeting the objectives of the Philippine Multilateral Assistance Initiative.

Amendment No. 74: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert: *: Provided further, That the President shall seek to channel through indigenous and United States private voluntary organizations and cooperatives not less than $20,000,000 of the funds appropriated under this heading and of the funds appropriated and allocated for the Philippines to carry out sections 103 through 106 of such Act*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have provided very large increases in foreign assistance for the Philippines. A substantial proportion of these funds are for project assistance.

The conferees strongly believe that significant staffing increases in the mission of the Agency for International Development will be required in order to manage adequately these expanded responsibilities. This situation is made even more acute by the already existing project pipeline backlog and slow project disbursements in the Philippines AID programs.

The conferees are fully aware of the security risks in the Philippines. Nevertheless, the conferees believe that unless staffing increases are undertaken quickly it is likely that what is already a bad situation will deteriorate. Programs cannot be doubled in size without corresponding improvements and enlargements in both management systems and personnel.

The conferees require that the Agency for International Development provide to the Congress a management and staffing plan and an implementation schedule no later than December 15, 1989.

Amendment No. 75: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *: Provided further, That up to a total of $40,000,000 of the funds appropriated to carry out sections 103 through 106 and chapter 4 of part II of such Act may be transferred to and consolidated and merged with the funds appropriated under this heading notwithstanding the limitations on transfers between accounts contained in section 514 of this Act and sections 109 and 610 of the Foreign Assistance Act of 1961 : Provided further, That any funds transferred to carry out the purposes of this heading shall be made available only for projects and activities which are consistent with the purposes of those funds as initially appropriated: Provided further, That of the total amount of funds transferred to carry out the purposes of this heading not less than 50 per centum shall be derived from funds appropriated to carry out chapter 4 of part II of the Foreign Assistance Act: Provided further, That transfers of any funds to carry out the purposes of this heading shall be subject to the regular notification procedures of the Committees on Appropriations*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to provide $160,000,000 for the Philippines Multilateral Assistance Initiative for economic and structural reform programs critical to the Philippines' development and sustained economic growth. The funds will be made available for policy reform, private sector design and feasibility studies, financially viable projects aimed at creating job opportunities and increasing incomes, small and medium entrepreneurial activities, the effective management of environment and natural resources and infrastructure needs such as power, telecommunications, and transportation.

The conferees have agreed further to permit the transfer of an additional amount not to exceed $40,000,000 into the multilateral assistance initiative to be taken equally from available economic support funds and development assistance funds subject to the regular notification procedures of the Committees on Appropriations.

The conferees agreed that environmental and natural resource degradation in the Philippines has reached alarming proportions. This is largely due to the fact that those exploiting the natural resource base often are not directly dependent upon the land or coastal fisheries for their daily sustenance. The conferees recognize that local communities which are dependent upon natural resources for their immediate survival are most often in the best position to manage those resources in a sustainable manner.

Amendment No. 76: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that notifications be provided through the regular notification procedures of the Committees on Appropriations. The House had proposed that notifications be provided through procedures contained in section 634A of the Foreign Assistance Act of 1961.

OVERSEAS PRIVATE INVESTMENT CORPORATION

Amendment No. 77: Limits direct loans for the Overseas Private Investment Corporation not to exceed $20,000,000, instead of $23,000,000 as proposed by the House or $17,000,000 as proposed by the Senate.

Amendment No. 78: Limits commitments to guarantee loans not to exceed $215,000,000 for the Overseas Private Investment Corporation, instead of $189,000,000 as proposed by the House or $229,000,000 as proposed by the Senate.

Amendment No. 79: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which states that not less than $40,000,000 of commitments to guarantee loans of the Overseas Private Investment Corporation

shall be used for projects for Poland notwithstanding any other provision of law.

Amendment No. 80: Deletes langauge proposed by the Senate restricting the use of Overseas Private Investment Corporation guarantee loans in Poland if martial law is declared or if members of the Polish Senate or Sejm are removed. This matter is addressed in Amendment Number 289.

PEACE CORPS

Amendment No. 81: Appropriates $168,614,000 for the Peace Corps instead of $163,614,000 as proposed by the House and $173,800,000 as proposed by the Senate. The conferees have agreed to provide an additional $5,000,000 of the $10,186,000 added by the Senate. Of the amount provided $2,000,000 is to be used for Peace Corps programs in Poland and Hungary.

Amendment No. 82: Deletes language proposed by the Senate which would have made $1,000,000 available for Peace Corps foreign currency fluctuations.

DEPARTMENT OF STATE

INTERNATIONAL NARCOTICS CONTROL

Amendment No. 83: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides such sums appropriated for International Narcotics Control as the President deems necessary may be made available for the funding of the United States participation in a multilateral antinarcotics strike force. Funding provided under this provision is to be notified through the Appropriations Committees' fifteen day notification process.

MIGRATION AND REFUGEE ASSISTANCE

Amendment No. 84: Earmarks $15,000,000 for the Refugee Entrant Assistance Program. These funds are to be provided to the Voluntary Agency Matching Grant Program. The House had provided an earmark of $21,900,000. The Senate provided no earmark.

The funds provided are necessary to provide entrant assistance for refugees funded for entrance under the fiscal year 1989 Supplemental. Although the Administration requested $100,000,000 in funding for the Migration and Refugee Assistance program, they failed to request any Supplemental or fiscal year 1990 funds for costs associated with resettlement in the United States.

The Administration's approach to budgeting for refugees coming to the United States is both misleading and inconsistent. In order to provide a workable refugee program the Administration should organize its program so that entrant assistance corresponds to funding provided for refugee resettlement.

Amendment No. 85: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *: Provided further, That of the funds appropriated under this heading not less than $46,000,000 shall be made available for the refugee admission program for first asylum refugees from East Asia: Provided further, That section 584(a)(3) of the Foreign operations, Export Financing, and Related Programs Appropriations Act, 1988 (as contained in section 101(e) of Public Law 100-202), is amended by striking "8 months" and inserting "one year"*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agreed to provide the earmark proposed by the Senate of $46,000,000 for the program for first aslyum refugees from East Asia. An earmark proposed by the Senate of $156,500,000 for the refugee admissions program was not included in the conference agreement.

The conferees have deleted the Senate's earmark of $15,000,000 for the expedited resettlement of Amerasians and family members. The conferees are aware that the earmarked sum would not have been sufficient to meet the congressionally-stated goal of having all Amerasians and family members who desire to leave Vietnam by the end of FY 1990. The conferees strongly urge that the Department of State give high priority to the achievement of that goal, and believe that approximately $40,000,000 will be required for that purpose in fiscal year 1990.

The conferees have agreed to a provision that changes the valid period for Amerasian visas from 8 months to one year. The visa extension will permit more time for processing of Amerasian applicants and will provide savings to the United States on the cost of visa renewals.

The conferees are concerned about the precipitious drop in the number of refugees from Czechoslovakia interviewed and the percentage approved in FY 1989 compared to FY 1988. The number interviewed decreased from 1,214 to 358, while the percentage approved fell from 85% to 66%.

These decreases are difficult to understand given the fact that, unlike other East European nations, persecution continues unabated—and may be on the rise—in Czechoslovakia.

Thus, the conferees urge the Department of State and the Immigration and Naturalization Service to review this situation and to make every effort to increase the number of interviews, the approval rate, and the number of admissions for Czech refugees.

The conferees strongly condemn Malaysia's recent actions in pushing back and redirecting boats of Vietnamese asylum-seekers from Malaysia's shores. Over 2,000 asylum-seekers have been pushed back resulting in at least 4 deaths. These pushbacks by Malaysia are a clear breach of the Comprehensive Plan of Action and exacerbate an already tenuous first aslyum situation in Southeast Asia. The conferees calls upon Malaysia to immediately halt this practice and to work constructively toward the preservation of first aslyum in Southeast Asia.

Amendment No. 86: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which earmarks $1,500,000. for a Thailand-Cambodia border refugee protection program. The House had no similar language.

Amendment No. 87: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which earmarks $1,500,000 for the antipiracy program. The House had no similar language.

Amendment No. 88: Deletes language proposed by the Senate to earmark $5,000,000 to assist Iraqi Kurdish refugees in Turkey.

The conferees recognize the need for assistance for the Iraqi Kurdish refugees in southeastern Turkey. More than 36,000 of these refugees live in three separate camps in Turkey. Last year, 369 of these refugees died, 269 of whom were children under the age of five. The conferees are also aware that a number of European countries have agreed to contribute assistance to these refugees and that an agreement has been reached between the Turkish government and the United Nations High Commissioner for Refugees to assist these refugees. The conferees believe it would be a tragedy not to give immediate and direct assistance from the Migration and Refugee Assistance account for this purpose.

In order to prevent such deaths from occurring during the coming winter months, the conferees agree that no less than $5,000,000 under the "Migration and Refugee Assistance" account is to be allocated to assist the Iraqi Kurdish refugees in Turkey with sanitation facilities and winterized housing improvements at the camps, as well as to provide additional medical supplies.

Amendment No. 89: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which earmarks $10,000,000 for assistance for shelter, food and other basic needs to ethnic Turkish refugees fleeing Bulgaria. The House had no similar language.

The conferees recognize the importance of providing assistance for shelter, food and other basic needs to ethnic Turkish refugees fleeing the People's Republic of Bulgaria and resettling on the sovereign territory of Turkey. The Committee is concerned, however, about recent reports that the Turkish-Bulgarians have begun to settle in the occupied areas of Cyprus and want to make it clear that this money shall not be used to further settle Turkish Bulgarian refugees in the occupied areas of Cyprus or support Turkish-Bulgarian refugees who have already settled in the occupied areas of Cyprus.

Amendment No. 90: Provides a limitation of $8,250,000 for the administrative expenses of the Office of Refugee Programs. The House had proposed a limitation of $8,500,000 and the Senate a limitation of $8,000,000.

Amendment No. 91: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *: Provided further, That of the funds appropriated under this heading, $250,000 shall be made available, notwithstanding any other provision of law, for food, medicine, medical supplies, medical training, clothing, and other humanitarian assistance for displaced Burmese students at camps on the border with Thailand*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agreed to provide an earmark of $250,000 for food, medicine, medical supplies, medical training, clothing, and other humanitarian assistance for displaced Burmese students (as well as persons related to those students) at camps located on either side of the border with Thailand.

TITLE III—MILITARY ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

Amendment No. 92: Deletes language proposed by the House providing $39,000,000 for expenses for the general costs of administering the military assistance program. The conferees agreed to provide this assistance under the Foreign Military Financing Program heading and the funding is addressed in Amendment Number 112.

INTERNATIONAL MILITARY EDUCATION AND TRAINING

Amendment No. 93: Restores language stricken by the Senate which permits any country with an annual per capita gross national product exceeding $2,349 to receive grant financed military education and training if that country agrees to fund from its own resources the transportation cost and living allowances of its students. The amendment also deletes proposed Senate language.

FOREIGN MILITARY FINANCING PROGRAM

Amendment No. 94: Appropriates $4,297,404,194 for Foreign Military Financing Program grants instead of $4,214,404,194 as proposed by the House or $4,703,404,194 as proposed by the Senate.

Amendment No. 95: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *: Provided further, That grants provided with funds made available by this paragraph shall be implemented by grant documents which do not include a requirement to repay the United States Government, notwithstanding any requirement in section 23 of the Arms Export Control Act*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

Amendment No. 96: Appropriates $406,000,000 for Foreign Military Financing program loans instead of $410,000,000 as proposed by the House and $0 proposed by the Senate; limits gross obligations of direct loans not to exceed $406,000,000 instead of $410,000,000 as proposed by the House and $0 proposed by the Senate; and restores House language setting loan interest rates at not less than 5 percent and requiring country funding level changes to be subject to the regular notification procedures of the Committees on Appropriations.

The conferees have agreed to prior year language as proposed by the House and to a new level of Foreign Military Financing Program loans of $406,000,000.

Amendment No. 97: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which utilizes the phrase "Of the funds" instead of the House proposed "Funds".

Amendment No. 98: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following: *$500,000,000 only shall be available for Turkey and $350,000,000 only shall be available for Greece and, if Turkey receives any funds under this heading on a grant basis then not less than $30,000,000 of the funds provided for Greece shall be made available as grants*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement earmarks $500,000,000 in Foreign Military Financing Program funds for Turkey and $350,000,000 for Greece. The conferees agreed that if Turkey receives any FMFP funds on a grant basis then not less than $30,000,000 of the funds provided for Greece is to be made available on a grant basis.

Amendment No. 99: Restores House language stricken by the Senate which limits foreign military financing program assistance for El Salvador to not more than $85,000,000.

Amendment No. 100: Restores language stricken by the Senate concerning a technical change on the wording of non-lethal assistance for Guatemala. The conferees agree that all military assistance provided to Guatemala is to be non-lethal.

In recent years the United States has provided high levels of economic assistance and significant amounts of non-lethal military assistance to Guatemala. The conferees continue to strongly support the consolidation of democratic civilian rule in Guatemala, and support similar levels of assistance for fiscal year 1990.

The conferees are pleased with the Guatemalan Government's efforts to adopt structural economic reforms and to revitalize the economy. However, much more needs to be done before these macro-economic improvements materially benefit the country's poor.

The conferees are also encouraged that for the second year the leadership of the Guatemalan army supported the civilian government and put down an attempted coup.

The conferees are disturbed, however, by a new wave of killings and bombings directed at students, labor activists, human rights monitors, political leaders and other civilians. Much of this violence appears to be the work of right-wing forces antagonistic to the civilian government, and of left-wing guerrillas opposed to the government. Some reports suggest that members of the army or security forces have been responsible for some of the reported human rights abuses, including harassment, death threats and murder of Guatemalan Indians who oppose conscription into the civil defense patrols.

The Congress has closely monitored events in Guatemala since the disastrous years of military dictatorship in the late 1970's and early 1980's. The conferees recognize the progress which has been made and have supported it with generous amounts of economic and military assistance. Present trends, however, suggest an inability of the civilian authorities to control forces that would prefer to see Guatemala return to a period of violence. The conferees wish to emphasize that unless the Guatemalan Government undertakes serious efforts to investigate human rights abuses and brings those responsible to justice, the conferees will no longer be able to continue current levels of assistance to Guatemala.

Amendment No. 101: Deletes language proposed by the Senate making a technical change on the requirement to provide nonlethal military assistance to Guatemala. This issue is discussed under Amendment Number 100.

Amendment No. 102: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken, insert: , *except through the regular notification procedures of the Committee on Appropriations, not more than*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement restores the House limitation of $3,000,000 in foreign military financing assistance for Zaire and adds a provision allowing assistance above that level only through the Committees on Appropriations' 15 day notification procedure.

Amendment No. 103: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert the followings: *$43,000,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement earmarks $43,000,000 in Foreign Military Financing Program assistance for Morocco instead of $52,000,000 as proposed by the Senate. The House had no earmark.

Amendment No. 104: Deletes language proposed by the Senate which would have earmarked $30,000,000 in Foreign Military Financing Program assistance for Tunisia.

The conferees are encouraged by Tunisia's actions on both the political and economic fronts. Tunisia is making major strides towards democratization and liberalization of the economy and these actions should be supported by the providing of economic and military assistance.

On the political side, the elections held in April 1989 were Tunisia's most open and free since independence in 1956 with a wide range of opposition parties participating. Over 10,000 political prisioners were released and their full civil rights restored. Also, in 1982, Tunisia, at American urging, agreed to house the PLO leadership when they were evacuated from Beirut. This helped to defuse a possible Israeli-PLO confrontation in West Beirut.

The conferees believe that Tunisia needs to receive military assistance which will allow the maintenance of previously purchased U.S. military equipment, and the ability to meet a possible threat from Libya. Qadhafi is purchasing long-range Soviet SK-24 aircraft and helicopters which are capable of reaching all parts of Tunisia. Finally, the conferees note that Tunisia will repay more than $46,000,000 on previous FMS loans.

Economically, Tunisia implemented some difficult economic agreements with the World Bank and the International Monetary Fund calling for economic reforms and increased emphasis on private enterprise. Many enterprises owned by the government are continuing to be transferred to the private sector. Along with a total debt service of approximately $1,000,000,000 in 1988, economic growth predictions for 1989 decreased to 3.5%. Therefore, the conferees support the providing of economic aid to assure continued economic growth.

Amendment No. 105: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the sum proposed by said amendment, insert the following: *$30,000,000*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement earmarks $30,000,000 in Foreign Military Financing Program assistance for sub-Saharan Africa. The Senate had proposed a $50,000,000 earmark. The House had no earmark.

Amendment No. 106: Deletes language proposed by the Senate which would have earmarked $5,000,000 in sub-Saharan Africa

Foreign Military Financing Program assistance for Malawi.

Amendment No. 107: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *: Provided further, That none of the funds appropriated under this heading shall be available for Sudan or Somalia, except through the regular notification procedures of the Committees on Appropriations*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement prohibits Foreign Military Financing assistance to Sudan or Somalia unless assistance is proposed through the Committees on Appropriations' 15-day review procedure.

Amendment No. 108: Restores language proposed by the House limiting commercial sales.

The conferees have limited commercial foreign military credit sales to not more than $687,404,194 excluding commercial contracts involving Israel and Egypt.

Amendment No. 109: Restores language proposed by the House limiting funds for commercial contracts to specific countries.

Amendment No. 110: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *to countries other than Israel and Egypt: Provided further, That only those countries for which assistance was justified for the "Foreign Military Sales Financing Program" in the fiscal year 1989 congressional presentation for security assistance programs may utilize funds made available under this heading for procurement of defense articles, defense services or design and construction services that are not sold by the United States Government under the Arms Export Control Act.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have limited commercial foreign military credit sales to a specific list of countries as proposed by the Administration and the Senate.

Amendment No. 111: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that notifications be provided through the regular notification procedures of the Committees on Appropriations. The House had proposed that notifications be provided through procedures contained in section 634A of the Foreign Assistance Act of 1961.

Amendment No. 112: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *: Provided further, That not more than $39,000,000 of the funds appropriated under this heading may be obligated for necessary expenses, including the purchase of passenger motor vehicles for replacement only for use outside of the United States, for the general costs of administering military assistance and sales*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agreed to provide administrative expense funding for the Foreign Military Financing Program under that heading. The House had proposed providing a separate section for the funding. The conference agreement adds language, carried for a number of years in the Foreign Operations Appropriations Act, permitting the purchase of passenger motor vehicles.

Amendment No. 113: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which permits the funding of administrative expenses under the Foreign Military Financing Program heading. Previously this funding had been provided under the section for Military Assistance, and technical change was needed to provide the assistance as outlined in Amendment Number 112.

Amendment No. 114: Deletes language proposed by the Senate related to guidelines for Foreign Military Sales (FMS) financing of direct commercial contracts.

The conferees have agreed to drop Senate language requiring that FMS guidelines be promulgated as regulations under the Administrative Procedure Act. The conferees also agreed to drop language requiring the suspension of those guidelines until such time as the regulations were promulgated.

FOREIGN MILITARY SALES DEBT REFORM

Amendment No. 115: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which states that the interest rate included in prior Foreign Military Sales Debt Reform legislation is amended lowering it from 10 percent to 8 percent.

The conferees have agreed that foreign military loans with interest rates of 8 percent or higher may be refinanced by the private sector and shall be guaranteed by the United States at 90 percent.

TITLE IV—EXPORT ASSISTANCE

EXPORT-IMPORT BANK OF THE UNITED STATES

LIMITATION ON PROGRAM ACTIVITY

Amendment No. 116: Limits the Export-Import Bank direct loan program to not more than $615,000,000 as proposed by the Senate instead of $595,000,000 as proposed by the House.

Amendment No. 117: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment insert: *: Provided, That gross obligations for the principal amount of direct loans pursuant to the medium-term financing program shall not exceed $215,000,000: Provided further, That the interest subsidy authority and the tied-aid grants authority provided under this heading are subject to authorization*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to include a medium-term direct loan financing limitation of $215,000,000 instead of $184,500,000 proposed by the Senate and no limitation proposed by the House.

The conferees have agreed further that the tied-aid and interest subsidy authorities provided in this Act are subject to authorization.

Amendment No. 118: Inserts the word "further" as proposed by the Senate. The conferees have provided $110,000,000 for a tied-aid grant program to be administered by the Export-Import Bank. If blended with commercial credits guaranteed by the Bank, these funds will provide approximately $300,000,000 of tied-aid export financing at minimum concessionality levels specified by international agreements. Since not all offers are successful, the Bank will be able to make an even larger volume of offers. In addition, the conference agreement allows up to $5,000,000 in ESF funds to be used for such tied-aid credits; if the President determines that it is in the national interest to do so, additional ESF funds may be used for this purpose.

The conferees believe that tied-aid credits result in trade distortions and thus support the Administration's efforts to negotiate further limits on their use. The funds provided in this legislation should encourage greater progress in those negotiations. At the same time, the conferees are troubled by the use of limited AID resources for this purpose since it is apparent that decisions that would otherwise be made on the basis of development or foreign policy criteria are being made to help American firms win contracts. This is a legitimate objective for the United States to support, but the integrity of the appropriations process requires a clear delineation of the purposes for which funds are being used.

The conferees believe the Export-Import Bank is the primary agency responsible for financing tied-aid credits, and that ESF and development aid funds available to AID should not be used for this purpose except as otherwise specifically provided by this Act. The conferees have consistently supported Administration requests for tied-aid credits in the past. If insufficient resources are available, the conferees encourage the Administration to request additional funds for the Bank rather than using limited ESF and development aid resources for this purpose.

The conferees intend that the figures of $110,000,000 and $20,000,000 specified for tied-aid grants and interest subsidy payments respectively are overall annual ceilings on appropriations for both porgrams. At any given time during the fiscal year, the actual amounts appropriated for such purposes would only be the amounts necessary to fund cumulative commitments under both programs made up to such time. Thus, if the Bank determines that it is not likely to use the full amount available under either program or that the Bank's resources could be better utilized under the regular direct loan program, amounts not yet committed under the tied-aid credit or interest subsidy payment programs would be available for use under Ex-Im Bank's regular direct loan program subject to the overall annual ceiling of $615,000,000.

In addition, the amount committed for each transaction under the interest subsidy payment program should be based on Ex-Im Bank's estimate of the present value of the full amount of the interest subsidy payments to be made over the life of such transaction. Under the program, private lenders will extend loans at fixed OECD consensus interest rates, while being assured of a market-related return based upon floating rates acceptable to Ex-Im Bank and the lenders. Consequently, the actual amount of the interest subsidy payments will depend on the rates in effect at the time of payment. If the interest payments exceed the amount estimated at the time of authorization, Ex-Im Bank should make up the difference from its operating revenues.

Amendment No. 119: Restores language proposed by the House and deleted by the Senate requiring that none of the Export-Import Bank interest subsidy funds may be used in conjunction with Export-Import Bank guaranteed loans.

The conferees have agreed to retain House language prohibiting the joint utilization of I Match and loan guarantee authority in order to avoid exceeding available credit authority.

Amendment No. 120: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which states that $20,000,000 of the funds made available for the Export-Import Bank interest subsidy program shall be subject to the Export-Import Bank direct loan limitation.

Amendment No. 121: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert: *: Provided further, That loan guarantee authority available to the Export-Import Bank of the United States may be used by the Bank to participate in the financing of commercial sales of defense articles and services destined for Greece and Turkey, notwithstanding any other provision of law: Provided further, That the authority provided by the previous proviso shall not be used for the procurement of defense articles or services for use on Cyprus*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to allow, on a one time basis only, for a period of one year only, the use of Export-Import Bank loan guaranty authority for financing of commercial sales of defense articles and services for Greece and Turkey. The conferees agree that future such proposals shall be resolved through the appropriate authorizations bill.

The conferees have agreed to prohibit the use of Ex-Im Bank resources for financing defense articles or services for use on Cyprus.

FUNDS APPROPRIATED TO THE PRESIDENT

AGENCY FOR INTERNATIONAL DEVELOPMENT

TRADE CREDIT INSURANCE PROGRAM

Amendment No. 122: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *for Central America and, notwithstanding any other provision of law, not to exceed $200,000,000 of contingent liability for loan principal for Poland pursuant to the authorities of section 224 of the Foreign Assistance Act of 1961: Provided, That section 224(c) of the Foreign Assistance Act of 1961 is amended by striking out "September 30, 1989" and inserting in lieu thereof "September 30, 1990"*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agreed to provide not to exceed $200,000,000 in secondary loan guarantees for a new Trade Credit Insurance Program for Poland. The conferees also extended the authorization date for the Trade Credit Insurance Program until September 30, 1990.

TITLE V—GENERAL PROVISIONS

REPRESENTATIONAL ALLOWANCES

Amendment No. 123: Deletes the word "total" as proposed by the Senate.

Amendment No. 124: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which includes the general costs of administering military assistance and sales in the limitations of the provision. The conferees have agreed to include general costs of administering the military assistance programs in the Foreign Military financing program account.

Amendment No. 125: Deletes reference to the Foreign Military Financing Program Operating Expenses account as proposed by the Senate.

PROHIBITION AGAINST DIRECT FUNDING FOR CERTAIN COUNTRIES

Amendment No. 126: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which prohibits the obligation or expenditure of direct loans, credits, insurance and guarantees of the Export-Import Bank or its agents to Angola, Cambodia, Cuba, Iraq, Libya, the Socialist Republic of Vietnam, South Yemen, Iran, or Syria.

Amendment No. 127: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which permits the President to waive prohibitions against funding for the Export-Import Bank or its agents if in the judgment of the President it is not in the national interest of the United States. The provision also requires the President to report to Congress on his decision.

TRANSFERS BETWEEN ACCOUNTS

Amendment No. 128: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which allows the President to transfer funds between accounts subject to the regular notification process of the Committees on Appropriations if he consults with the Committees and provides a written policy justification.

DEOBLIGATION/REOBLIGATION AUTHORITY

Amendment No. 129: Deletes language proposed by the Senate which would have limited reobligation authority for Development Assistance to $15,000,000.

Amendment No. 130: Restores language proposed by the House inserting the word "Provided".

Amendment No. 131: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that notifications be provided through the regular notification procedures of the Committees on Appropriations. The House had proposed that notifications be provided through procedures contained in section 634A of the Foreign Assistance Act of 1961.

AVAILABILITY OF FUNDS

Amendment No. 132: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken by said amendment, insert the following: *: Provided further, That, notwithstanding any other provision of this Act, any funds made available for the purposes of chapter 1 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961 which are allocated or obligated for cash disbursements in order to address balance of payments or economic policy reform objectives, shall remain available until expended: Provided further, That the report required by section 653(a) of the Foreign Assistance Act of 1961 shall designate for each country, to the extent known at the time of submission of such report, those funds allocated for cash disbursement for balance of payment and economic policy reform purposes*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

LIMITATION ON ASSISTANCE TO COUNTRIES IN DEFAULT

Amendment No. 133: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following: *: Provided, That this section and section 620(q) of the Foreign Assistance Act of 1961 shall not apply to funds made available in this Act for any narcotics-related activities in Colombia, Bolivia, and Peru authorized by the Foreign Assistance Act of 1961, as amended, or the Arms Export Control Act*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agreed to a provision which states that assistance under the Foreign Assistance Act for any narcotics-related activities in Colombia, Bolivia and Peru are exempted from the prohibition of funds to countries that are in default on payments to the United States Government. The conferees agreed that funding that would be provided to these countries under periods of default is to be only for counter-narcotics efforts.

NOTIFICATION REQUIREMENTS

Amendment No. 134: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides revised functional account and other headings changes. The corrections in the amendment are technical and are necessary to conform to the account headings included in the bill.

Amendment No. 135: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which states that the Administration is to inform the Committees on Appropriations on any changes regarding any Foreign Military Financing Program assistance for major defense equipment, other than conventional ammunition, or other major defense items defined to be aircraft, ships, missiles, or combat vehicles not previously justified to Congress or 20 per centum in excess of the quantities justified to Congress. The House had proposed a similar provision specifying that major defense items be defined as major defense equipment and comparable equipment and sensitive items.

The conference agreement will place into law the notification requirments on Major Defense Equipment. In order to allow flexibility on the submission of items deemed to be sensitive in nature, the conferees agreed to the Senate proposal to drop that term from the bill. However, in accordance with

the agreement reached with the executive branch on the submission of changes under the Foreign Military Financing Program, sensitive program changes are still to be submitted through the Committees on Appropriations notification procedure.

Amendment No. 136: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires notification on development assistance activities whenever there is a 20-percent increase in a program activity regardless of whether the activity is new or ongoing. The House had proposed language requiring notification on development activities only for new projects, projects whose purpose was signficantly different from the original purpose, or when the activity was in excess of the total amount allocated under the Foreign Assistance Act or the Congressional Presentation, whichever was lower.

LIMITATION ON AVAILABILITY OF FUNDS FOR INTERNATIONAL ORGANIZATIONS AND PROGRAMS

Amendment No. 137: Inserts a new subsection designation as proposed by the Senate.

Amendment No. 138: Inserts "Africa People's" as proposed by the Senate instead of "African Peoples" as proposed by the House in designating the Southwest Africa People's Organization.

Amendment No. 139: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that notifications be provided through the regular notification procedures of the Committees on Appropriations. The House had proposed that notification be provided through procedures contained in section 634A of the Foreign Assistance Act of 1961.

Amendment No. 140: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which states that the United States shall not make contributions to the United Nations organizations or affiliated organizations which grant full membership to any entity lacking international recognized attributes of statehood.

UNITED NATIONS VOTING RECORD

Amendment No. 141: Deletes citation proposed by the House and inserts citation proposed by the Senate.

Amendment No. 142: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which inserts a reference to Section 530 of the Foreign Assistance and Related Programs Appropriations Act, 1985. The conferees have agreed to include this section in the list of provisions to be repealed.

Amendment No. 143: Inserts new paragraph number as proposed by the Senate.

Amendment No. 144: Deletes citation proposed by the House and inserts citation proposed by the Senate.

Amendment No. 145: Inserts new paragraph number as proposed by the Senate.

Amendment No. 146: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which corrects a date citation.

Amendment No. 147: Inserts new paragraph number as proposed by the Senate.

Amendment No. 148: Inserts new paragraph number as proposed by the Senate.

Amendment No. 149: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which corrects a date citation.

Amendment No. 150: Inserts corrected statute citation as proposed by the Senate.

ECONOMIC SUPPORT FUND ASSISTANCE FOR ISRAEL

Amendment No. 151: Inserts heading change proposed by the Senate, which changes the heading from Economic Support Assistance to Economic Support Fund Assistance.

Amendment No. 152: Inserts technical reference to heading change as proposed by the Senate.

Amendment No. 153: Inserts technical change proposed by the Senate which changes the House reference to the Economic Support "Assistance" to the Economic Support "Fund".

ENVIRONMENTAL CONCERNS

Amendment No. 154: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which expands the category of projects for which multilateral development banks are expected to conduct environmental impact assessments.

Amendment No. 155: Inserts new punctuation as proposed by the Senate.

Amendment No. 156: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which expands the category or projects for which multilateral development banks are expected to perform assessments of environmental and economic costs.

Amendment No. 157: Inserts new reference to MDBs as proposed by the Senate.

Amendment No. 158: Deletes language inserted by the House as proposed by the Senate.

Amendment No. 159: Inserts additional punctuation and the word "and" as proposed by Senate.

Amendment No. 160: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires the Secretary of the Treasury to seek the convening of a special seminar on alternate investment opportunities and end-use energy efficiency and conservation.

Amendment No. 161: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides $10,000,000 for biological diversity activities, of which $2,000,000 is to be made available for Parks in Peril and $1,000,000 shall be for the National Science Foundation.

The conferees have also agreed that funding for AID's Office of Energy should be targeted at $20,000,000 in fiscal year 1990. The conferees expect that these funds will be used, among other things, to expand existing projects within the Office which provide assistance and training for the promotion of end-use energy efficiency and renewable energy. The conferees expect that the Conventional Energy Technical Assistance Project will not be expanded. The conferees agree that AID's energy efforts need expansion and should clearly focus on end-use energy efficiency, conservation and renewable energy resources, particularly in "key" developing countries which contribute significantly to global greenhouse gas emissions, and in which actions to promote energy efficiency, reliance on renewable energy resources, and forest conservation could significantly reduce those emissions.

AID's Office of Energy, in cooperation with country missions, should assist countries in developing and implementing energy plans that employ end-use analysis to identify cost effective actions to minimize reliance on fossil fuels. These plans should include an analysis of the effects of alternative energy systems and end-use energy efficiency on levels of greenhouse gas emissions. Wherever possible, nongovernmental organizations and academic institutions should be involved in the preparation of these plans.

Amendment No. 162: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires the Secretary of the Treasury to instruct U.S. Executive Directors on certain environmental issues.

GLOBAL WARMING INITIATIVE

Amendment No. 163: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which inserts directives to implement a global warming initiative. The conferees have also agreed to provide an additional $15,000,000 to the Private Sector, Environment, and Energy account specifically to combat the global warming phenomenon and the long-term threat that emissions of greenhouse gases pose to the entire world. In order to ensure that the additional $15,000,000 is in fact additive, the conferees expect that obligations by AID to combat global warming in fiscal year 1990 will exceed those in fiscal year 1989 by at least $15,000,000.

The conferees' purpose is to raise the global warming threat to the top of AID's agenda, with a sharp focus in key developing countries including countries which do not currently receive AID assistance on the twin and linked problems of development and utilization of renewable energy sources and reversing the radical deforestation, above all tropical deforestation, which is damaging the biosphere. The additional funds the conferees are providing to promote energy efficiency and conservation are intended to be used to provide the resources AID needs to carry out this urgent mandate in these key countries.

In addition, the conferees have provided authority for AID to use its program funds to retain and increase its direct-hire and other personnel (including the operations of that staff) with expertise in the environment sector, in particular with regard to forestry, end-use energy efficiency, and renewable technologies.

Amendment No. 164: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

(d) EXPORT-IMPORT BANK.—(1) Of the financing provided by the Export-Import Bank that is utilized for the support of exports for the energy sector, the Bank shall seek to provide not less than 5 per centum of such financing for renewable energy projects.

(2) The Export-Import Bank shall take all appropriate steps to finance information exchanges and training whose purpose it is to help link United States producers in the re-

newable energy sector with assistance programs and potential foreign customers.

(3) Beginning on April 15, 1990, the Chairman of the Export-Import Bank shall submit an annual report to the Committees on Appropriations on the Bank's implementation of this subsection.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement specifies that the Export-Import Bank shall seek to provide 5 percent of their energy related financing to renewable energy projects.

PROHIBITION CONCERNING ABORTIONS AND INVOLUNTARY STERILIZATION

Amendment No. 165: Inserts section number proposed by the Senate.

AFGHANISTAN—HUMANITARIAN ASSISTANCE

Amendment No. 166: Inserts section number proposed by the Senate.

Amendment No. 167: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that not less than $70,000,000 be made available for the Afghanistan Humanitarian Assistance Program. This assures that the program will receive a minimum of $70,000,000.

The conferees continue to believe that there is a need for a strong bilateral program and a large international effort to rebuild Afghanistan. The conferees admire the courage and dedication of the Afghan people to determine their own destiny, and believe that the United States should support these efforts.

The conferees are, however, concerned about the lack of focus and direction in U.S. policy in Afghanistan since the Soviet withdrawal on February 15, 1989. Unless a coherent, long-term policy direction is set for the United States in Afghanistan, the conferees fear that future support for these activities may be undermined. The ultimate success of the fundamental goal of a free Afghanistan must not be jeopardized by drift and uncertainty in U.S. policy. The conferees urge the Administration to develop and explain to Congress and the American people a clear strategy for assisting the Afghan people in bringing the war to a close.

The conferees believe that the Agency for International Development should coordinate closely its humanitarian support with the appropriate ministries of the Afghan interim government. However, the conferees see a need to strengthen the Afghan interim government's financial and managerial practices. Without such an effort, foreign donors, including the U.S. Government, will be forced to re-evaluate the future direction of our assistance program to Afghanistan.

Amendment No. 168: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that $70,000,000 shall be made available for the Afghanistan Humanitarian Assistance program. This makes the earmark for this program mandatory.

Amendment No. 169: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken by said amendment, insert: *: Provided, That of the funds appropriated under the heading "Private Sector, Environment, and Energy, Development Assistance", $13,500,000 shall be transferred to "International Organizations and Programs" and made available only for the United Nations Afghanistan Emergency Trust Fund*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to provide $13,500,000 for the Afghanistan Emergency Trust Fund. These funds are to be derived from the Private Sector, Environment and Energy, Development Assistance account and made available to the United Nations through the International Organizations and Programs account.

PRIVATE VOLUNTARY ORGANIZATIONS—DOCUMENTATION

Amendment No. 170: Inserts section number proposed by the Senate.

EL SALVADOR—INVESTIGATION OF MURDERS

Amendment No. 171: Inserts section number proposed by the Senate.

REFUGEE RESETTLEMENT

Amendment No. 172: Inserts section number proposed by the Senate.

Amendment No. 173: Inserts language proposed by the Senate changing the reference of "Economic Support Assistance" to "Economic Support Fund".

IMMUNIZATIONS FOR CHILDREN

Amendment No. 174: Inserts section number proposed by the Senate.

Amendment No. 175: Deletes subsection letter proposed by the Senate.

Amendment No. 176: Deletes language proposed by the Senate earmarking not less than $50,000,000 for immunizations for children, and requiring a report by April 1, 1991 on the extent to which the goal of universal access to childhood immunization has been achieved. The conferees agreed that the Agency for International Development is to carry out in fiscal year 1990 an immunization program of at least $50,000,000 and report to the Committee on Appropriations on the funding amount that has been made available.

ETHIOPIA—FORCED RESETTLEMENT, VILLAGIZATION

Amendment No. 177: Inserts section number proposed by the Senate.

SUDAN, SOMALIA, LEBANON, LIBERIA, AND ZAIRE NOTIFICATION REQUIREMENTS

Amendment No. 178: Inserts section number proposed by the Senate.

Amendment No. 179: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which adds Uganda to the countries that can receive U.S. foreign assistance only through the regular notification procedures of the Committees on Appropriations. As in prior years, this requirement does not apply to assistance made available "notwithstanding any other provision of law".

Amendment No. 180: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that notifications be provided through the regular notification procedures of the Committees on Appropriations. The House had proposed that notifications be provided through procedures contained in section 634A of the Foreign Assistance Act of 1961.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

Amendment No. 181: Inserts section number proposed by the Senate.

Amendment No. 182: Inserts language proposed by the Senate changing the reference of "Economic Support Assistance" to "Economic Support Fund".

CHILD SURVIVAL AND AIDS ACTIVITIES

Amendment No. 183: Inserts section number proposed by the Senate.

CHILE—LOANS FROM MULTILATERAL DEVELOPMENT INSTITUTIONS

Amendment No. 184: Inserts section number proposed by the Senate.

Amendment No. 185: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which adds a reference to a new subsection.

Amendment No. 186: Inserts language proposed by the Senate changing the reference of "Economic Support Assistance" to "Economic Support Fund".

Amendment No. 187: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

(c)(1) The Congress supports the democratic transition underway in Chile, and intends to assist the new democratically elected government, following its inauguration in March of 1990, with assistance to—

(A) strengthen democratic institutions; and

(B) establish a new relationship with the Chilean armed forces appropriate to a democratic system of government.

(2) Of the funds appropriated by this Act under the heading "International Military Education and Training", up to $50,000 may be made available for Chile for fiscal year 1990, subject to the following conditions—

(A) a civilian, democratically elected President is in power in Chile and has requested such funds;

(B) internationally recognized human rights are being respected and the civilian government is exercising independent and effective authority; and

(C) the Government of Chile is making good-faith efforts in attempting to resolve the murders of Orlando Letelier and Ronni Moffitt.

(3) Assistance may be provided under paragraph (2) without regard to the requirements of section 726(b) of the International Security and Development Cooperation Act of 1981.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to provide IMET assistance to Chile under limited conditions. The conferees are encouraged that Chile is moving forward toward democratic Presidential elections.

COMMODITY COMPETITION

Amendment No. 188: Inserts section number proposed by the Senate.

PROHIBITION OF FUNDING RELATED TO COMPETITION WITH UNITED STATES EXPORTS

Amendment No. 189: Inserts section number proposed by the Senate.

PROHIBITION AGAINST INDIRECT FUNDING TO CERTAIN COUNTRIES

Amendment No. 190: Inserts section number proposed by the Senate.

ASSISTANCE FOR LIBERIA

Amendment No. 191: Inserts section number proposed by the Senate.

Amendment No. 192: Inserts language proposed by the Senate changing the reference of "Economic Support Assistance" to "Economic Support Fund".

RECIPROCAL LEASING

Amendment No. 193: Inserts section number proposed by the Senate.

DEFENSE EQUIPMENT DRAWDOWN

Amendment No. 194: Inserts new title as proposed by the Senate.

Amendment No. 195: Inserts section number proposed by the Senate.

Amendment No. 196: Inserts new subsection designation as proposed by the Senate.

Amendment No. 197: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

(b) Section 506(a) of the Foreign Assistance Act of 1961 is amended by—

(1) inserting "(1)" after "(a)";

(2) striking "(1)" and "(2)" and inserting in lieu thereof "(A)" and "(B)", respectively; and

(3) inserting the following new paragraph:

"(2)(A) If the President determines and reports to the Congress in accordance with section 652 of this Act that it is in the national interest of the United States to draw down defense articles from the stocks of the Department of Defense, defense services of the Department of Defense, and military education and training, he may direct—

"(i) the drawdown of such articles, services, and the provision of such training for the purposes and under the authorities of chapters 8 and 9 of part I, as the case may be; and

"(ii) the drawdown of defense services for the purposes and under the authorities of the Migration and Refugee Assistance Act of 1962.

(B) An aggregate value of not to exceed $75,000,000 in any fiscal year of defense articles, defense services, and military education and training may be provided pursuant to subparagraph (A) of this paragraph.

(c) Drawdowns made pursuant to section 506(a)(2) of the Foreign Assistance Act of 1961 shall be subject to the regular notification procedures of the Committees on Appropriations.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed that the President may use $75,000,000 in annual defense drawdown authority for purposes of international narcotics control assistance, international disaster assistance, or migration and refugee assistance in addition to $75,000,000 in annual defense drawdown authority for purposes of military assistance as already provided by law. Any use of the new authorities is to be provided only through the regular notification procedures of the Committees on Appropriations.

Amendment No. 198: Inserts section number proposed by the Senate.

Amendment No. 199: Restores language proposed by the House stating that the Committees on Appropriations shall be informed of the original acquisition cost of defense articles notified to the Committees as determined to be in excess of the needs of the United States.

AUTHORIZATION REQUIREMENT

Amendment No. 200: Inserts section number proposed by the Senate.

Amendment No. 201: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert the following: *be obligated and expended notwithstanding section 10 of Public Law 91-672 and section 15 of the State Department Basic Authorities Act of 1956: Provided, That of the funds appropriated by this Act for the "Economic Support Fund" and "Foreign Military Financing Program" accounts, not more than 33⅓ percent of the amounts made available by this Act for such account excluding amounts made available for Israel, Egypt, Poland and Hungary, may be obligated and expended prior to March 1, 1990, unless an Act authorizing appropriations for such account has been enacted.*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement requires that not more than 33 and ⅓ percent of the funds made available for the Economic Support Fund and Foreign Military Financing Program accounts be obligated prior to March 1, 1990 unless there is an enacted authorization bill. Israel, Egypt, Poland and Hungary are exempted from the obligation ceiling. The provision is intended to permit further action on fiscal year 1990 authorizing legislation.

NOTIFICATION CONCERNING EL SALVADOR

Amendment No. 202: Inserts section number proposed by the Senate.

NOTIFICATION TO CONGRESS ON DEBT RELIEF AGREEMENTS

Amendment No. 203: Inserts section number proposed by the Senate.

MIDDLE EAST REGIONAL COOPERATION AND ISRAELI—ARAB SCHOLARSHIPS

Amendment No. 204: Inserts section number proposed by the Senate.

Amendment No. 205: Inserts language proposed by the Senate changing the reference of "Economic Support Assistance" to "Economic Support Fund".

Amendment No. 206: Inserts language proposed by the Senate changing the reference of "Economic Support Assistance" to "Economic Support Fund".

Amendment No. 207: Inserts language proposed by the Senate changing the reference of "Economic Support Assistance" to "Economic Support Fund".

MEMBERSHIP DESIGNATION IN ASIAN DEVELOPMENT BANK

Amendment No. 208: Inserts section number proposed by the Senate.

DEPLETED URANIUM

Amendment No. 209: Inserts section number proposed by the Senate.

EARMARKS

Amendment No. 210: Inserts section number proposed by the Senate.

Amendment No. 211: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that notifications be provided through the regular notification procedures of the Committees on Appropriations. The House had proposed that notifications be provided through procedures contained in section 634A of the Foreign Assistance Act of 1961.

HAITI

Amendment No. 212: Inserts section number proposed by the Senate. The conferees recognize that it may not be possible for the Government of Haiti to restore in full the Haitian Constitution of March 1987 until new elections have been held and a new government inaugurated. The conferees also recognize that this may be taken into account should the President consider exercising the national interest waiver provision of this legislation.

Amendment No. 213: Makes a technical change deleting "or".

Amendment No. 214: Makes a technical change inserting "assistance; or".

Amendment No. 215: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which allows assistance for Haiti for the control and eradication of swine flu.

Amendment No. 216: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that notifications be provided through the regular notification procedures of the Committees on Appropriations. The House had proposed that notifications be provided through procedures contained in section 634A of the Foreign Assistance Act of 1961.

ASSISTANCE FOR PANAMA

Amendment No. 217: Inserts section number proposed by the Senate.

Amendment No. 218: Inserts language proposed by the Senate making a technical correction to the spelling of "Noriega".

ELIMINATION OF THE SUGAR QUOTA ALLOCATION OF PANAMA

Amendment No. 219: Inserts section number proposed by the Senate.

Amendment No. 220: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *beneficiary countries of the Caribbean Basin Initiative and Bolivia*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees strongly urge that in reallocating Panama's sugar quota to the Caribbean Basin countries, not less than thirty percent of this reallocation should go to the smaller, poorer Caribbean Basin Countries known as the Caricom nations.

These countries have never benefited from past sugar quota reallocations. For example, they were excluded from the reallocation of South Africa's sugar quota in 1986, as well as from Nicaragua's reallocation in 1983.

In addition, because these countries are neither diversified nor advanced, and because they have been particularly hard hit by the overall cut in U.S. sugar quotas in recent years, this 30 percent combined reallocation would represent an important U.S. investment in Caricom economic stability.

The conferees note that all references to "quota year" in this provision are to be interpreted as indicating the current "quota period".

Amendment No. 221: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede

and concur in the amendment of the Senate which corrects a section number reference.

OPPOSITION TO ASSISTANCE TO TERRORIST COUNTRIES BY INTERNATIONAL FINANCIAL INSTITUTIONS

Amendment No. 222: Inserts section number proposed by the Senate.

PROHIBITION ON BILATERAL ASSISTANCE TO TERRORIST COUNTRIES

Amendment No. 223: Inserts section number proposed by the Senate.

Amendment No. 224: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that notification be provided through the regular notification procedure of the Committees on Appropriations. The House had proposed that notifications be provided through procedures contained in section 634A of the Foreign Assistance Act of 1961.

DETENTION OF CHILDREN

Amendment No. 225: Inserts section number proposed by the Senate.

MILITARY ASSISTANCE TO MOZAMBIQUE

Amendment No. 226: Inserts section number proposed by the Senate.

HONDURAS—RAMIREZ CASE

Amendment No. 227: Inserts section number proposed by the Senate.

Amendment No. 228: Inserts language proposed by the Senate changing the reference of "Economic Support Assistance" to "Economic Support Fund".

SOUTH AFRICA—SCHOLARSHIPS

Amendment No. 229: Inserts section number proposed by the Senate.

Amendment No. 230: Inserts language proposed by the Senate changing the reference of "Economic Support Assistance" to "Economic Support Fund".

NARCOTICS CONTROL PROGRAM

Amendment No. 231: Inserts section number proposed by the Senate.

Amendment No. 232: Inserts language proposed by the Senate changing the reference of "Economic Support Assistance" to "Economic Support Fund".

Amendment No. 233: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which inserts Senate language clarifying that funds provided under the general provision for the Narcotics Control Program for Bolivia, Peru, Colombia and Ecuador are in addition to any other amounts provided in the bill.

Amendment No. 234: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which changes "earmarked" to amounts "provided".

Amendment No. 235: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter stricken and inserted by said amendment, insert: *up to $2,000,000, except through the regular notification procedures of the Committee on Appropriations,*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees agree to provide up to $2,000,000 in assistance for International Military Education and Training in Bolivia, Peru, Colombia and Ecuador. Funding above the $2,000,000 may be requested through the regular notification procedures of the Committee on Appropriations.

Amendment No. 236: Inserts section number reference proposed by the Senate.

Amendment No. 237: Inserts section number reference proposed by the Senate.

Amendment No. 238: Inserts language proposed by the Senate changing the reference of "Economic Support Assistance" to "Economic Support Fund".

Amendment No. 239: Inserts language proposed by the Senate making a punctuation change.

TURKISH AND GREEK MILITARY FORCES ON CYPRUS

Amendment No. 240: Inserts section number proposed by the Senate.

COMMERCIAL LEASING OF DEFENSE ARTICLES

Amendment No. 241: Inserts section number proposed by the Senate.

FAIR PRICING

Amendment No. 242: Deletes language proposed by the Senate titled "Fair Pricing" relating to charges recouped from foreign purchases of United States defense articles and services.

The conferees have agreed to drop fair pricing langauge proposed by the Senate. This matter is addressed in the Defense Appropriations Bill.

CAMBODIAN NONCOMMUNIST RESISTANCE FORCES

Amendment No. 243: Inserts new section number "572" instead of "571" as proposed by the House or "573" as proposed by the Senate.

The conferees understand that the non-Communist resistance forces in Cambodia recently have made gains that have opened up areas for civilian administration. This new situation may require that the program in support of the non-Communist resistance forces meet civilian needs in Cambodia as well as those of the forces themselves.

Amendment No. 244: Inserts language proposed by the Senate changing the reference of "Economic Support Assistance" to "Economic Support Fund".

MODERNIZATION OF MILITARY CAPABILITIES OF CERTAIN COUNTRIES

Amendment No. 245: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the first section number named in said amendment, insert: *573*

In lieu of "Section 503" cited in subsection (d), insert: *Section 632(d) of the Foreign Assistance Act of 1961*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to include authority to transfer excess defense articles to certain countries.

COMPETITIVE INSURANCE

Amendment No. 246: Inserts a new section number "574", instead of "572" as proposed by the House or "575" as proposed by the Senate.

PAY RAISES

Amendment No. 247: Inserts a new section number "575", instead of "573" as proposed by the House or "576" as proposed by the Senate.

IRELAND

Amendment No. 248: Restores language proposed by the House relating to the use of the International Fund for Ireland, and inserts a new section number "576".

ASSISTANCE TO AFGHANISTAN

Amendment No. 249: Inserts a new section number proposed by the Senate.

EL SALVADOR ECONOMIC SUPPORT FUNDS

Amendment No. 250: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which requires that not less than 25 percent of El Salvador's Economic Support Funds shall be used for projects and activities in accordance with development assistance authorities.

DISADVANTAGED ENTERPRISES

Amendment No. 251: Inserts a new section number proposed by the Senate.

STINGERS IN THE PERSIAN GULF REGION

Amendment No. 252: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which prohibits the sale of Stingers to any country bordering the Persian Gulf except as provided in section 581 of this Act.

STINGERS FOR BAHRAIN

Amendment No. 253: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which allows Bahrain to retain Stinger missiles made available in fiscal year 1989 based on a Presidential determination and notification to Congress.

The conferees agreed to include a provision allowing for the retention of stinger missiles by Bahrain.

PROHIBITION ON LEVERAGING AND DIVERSION OF UNITED STATES ASSISTANCE

Amendment No. 254: Inserts a new section number proposed by the Senate.

Amendment No. 255: Inserts language proposed by the Senate which further clarifies the provision.

APPROPRIATIONS OF EXCESS CURRENCIES

Amendment No. 256: Inserts a new section number proposed by the Senate.

INTEREST ON LOCAL CURRENCIES

Amendment No. 257: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which changes the title of the provision to "Debt for Development".

Amendment No. 258: Inserts a new section number proposed by the Senate.

Amendment No. 259: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which clarifies that debt-for-development, and debt-for-nature exchanges are encouraged uses of the funds recouped under the provision.

Amendment No. 260: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which clarifies that interest earned may be used for the establishment of endowments among other activities in accord with the original purpose for which the funds were provided.

LEBANON

Amendment No. 261: Inserts new section number proposed by the Senate.

Amendment No. 262: Reported in technical disagreement. The managers on the part

of the House will offer a motion to recede and concur in the amendment of the Senate which clarifies that the sources of the Lebanon earmark are to be the Development Assistance accounts and the Economic Support Fund.

Amendment No. 263: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which clarifies that the assistance provided to Lebanon shall be made available under the general authorities of disaster assistance (i.e. notwithstanding any other provision of law). The conferees agree that this assistance can be used to provide support for the American University of Beirut and Beirut University College.

JOB-RELATED CRIMES

Amendment No. 264: Inserts a new section number proposed by the Senate.

Amendment No. 265: Inserts subsection designation as proposed by the Senate.

Amendment No. 266: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which inserts the phrase "determined that there is".

Amendment No. 267: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

(b) Section 610(a) of the Foreign Service Act of 1980 is amended by inserting the following new paragraphs:

Notwithstanding the hearing required by this section, or procedures under any other provision of law, where there is reasonable cause to believe that a member has committed a crime for which a sentence of imprisonment may be imposed, and there is a nexus to the efficiency of the Service, the Secretary, or his designee, may suspend such member without pay pending final resolution of the underlying matter, subject to reinstatement with back pay if cause for separation is not established in a hearing before the Board.

(4) Any member suspended pursuant to subsection (a)(3) of this section shall be entitled to—

(A) advance written notice of the specific reasons for such suspension, including the grounds for reasonable cause to believe a crime has beem committed;

(B) a reasonable time, not less than seven days, to answer orally and in writing;

(C) be represented by an attorney or other representative; and

(D) a final written decision.

(5) Any member suspended pursuant to subsection (a)(3) of this section shall be entitled to grieve such action in accordance with procedures applicable to grievances under chapter 11. The Board review, however, shall be limited only to a determination of whether there exists reasonable cause to believe a crime has been committed for which a sentence of imprisonment may be imposed, and whether there is a nexus between the conduct and the efficiency of the Service.

(c) For purposes of the amendments made by subsection (a) and (b) of this section, reasonable cause to believe that a member has committed a crime for which a sentence of imprisonment may be imposed shall be defined as a member of the Service having been convicted of, and sentence of imprisonment having been imposed for, a job-related crime.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement clarifies that a Foreign Service employee may be suspended without pay, subject to reinstatement with back pay, if that employee has been convicted of a job-related crime for which a sentence of imprisonment has been imposed. The conferees urge the appropriate authorizing Committees to review the anomalies between Civil Service and Foreign Service legislation on this matter as soon as possible.

LOCATION OF STOCKPILES

Amendment No. 268: Inserts section number proposed by the Senate.

Amendment No. 269: Inserts a new subsection designation as proposed by the Senate.

Amendment No. 270: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which amends Section 514 of the Foreign Assistance Act of 1961 increasing the limitation on defense stockpiles from $77,000,000 to $165,000,000 and extending the provision for fiscal year 1990.

The conferees have agreed to increase the limitation on defense stockpiles located outside the United States to $165,000,000 for fiscal year 1990.

HONG KONG

Amendment No. 271: Inserts a new section number proposed by the Senate.

RESCISSION

Amendment No. 272: Restores and alters language proposed by the House and stricken by the Senate by inserting a new section number "589".

In addition the conferees agreed to rescind $50,000,000 from fiscal year 1989 Economic Support Funds instead of $59,000,000 proposed by the House. The rescission will be derived from unearmarked funds and funds allocated for Sudan, Somalia, and Liberia.

WEST BANK SCHOOLS

Amendment No. 273: Inserts new section number "590", instead of "585" as proposed by the House and "589" as proposed by the Senate.

ASSISTANCE FOR PAKISTAN

Amendment No. 274: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *591*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement inserts the Senate provision extending the applicability of Section 620E(d) of the Foreign Assistance Act of 1961 from April 1, 1990 until April 1, 1991.

SEPARATE ACCOUNTS

Amendment No. 275: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

SEPARATE ACCOUNTS

SEC. 592. (a) SEPARATE ACCOUNTS FOR LOCAL CURRENCIES.—(1) If assistance is furnished to the government of a foreign country under chapter 1 of part I (including assistance for sub-Saharan Africa) or chapter 4 of part II of the Foreign Assistance Act of 1961 under arrangements which result in the generation of local currencies of that country, the Administrator of the Agency for International Development shall—

(A) require that local currencies be deposited in a separate account established by that government;

(B) enter into an agreement with that government which sets forth—

(i) the amount of the local currencies to be generated, and

(ii) the terms and conditions under whcih the currencies so deposited may be utilized, consistent with this section; and

(C) establish by agreement with that government the responsibilities of the Agency for International Development and that government to monitor and account for deposits into and disbursements from the separate account.

(2) USES OF LOCAL CURRENCIES.—As may be agreed upon with the foreign government, local currencies deposited in a separate account pursuant to subsection (a), or an equivalent amount of local currencies, shall be used only—

(A) to carry out chapter 1 of part I or chapter 4 of part II (as the case may be), or

(B) for the administrative requirements of the United States Government.

(3) PROGRAMMING ACCOUNTABILITY.—The Agency for International Development shall take all appropriate steps to ensure that the equivalent of the local currencies disbursed pursuant to subsection (a)(2)(A) from the separate account established pursuant to subsection (a)(1) are used for the purposes agreed upon pursuant to subsection (a)(2).

(4) TERMINATION OF ASSISTANCE PROGRAMS.—Upon termination of assistance to a country under chapter 1 of part I or chapter 4 of part II (as the case may be), any unencumbered balances of funds which remain in a separate account established pursuant to subsection (a) shall be disposed of for such purposes as may be agreed to by the government of that country and the United States Government.

(b) SEPARATE ACCOUNTS FOR CASH TRANSFERS.—(1) If assistance is made available to the government of a foreign country, under chapter 1 of part I (including assistance for sub-Saharan Africa) or chapter 4 of part II of the Foreign Assistance Act of 1961, as cash transfer assistance or as non-project sector assistance, that country shall be required to maintain such funds in a separate account and not commingle them with any other funds.

(2) APPLICABILITY OF OTHER PROVISIONS OF LAW.—Such funds may be obligated and expended nothwithstanding provisions of law which are inconsistent with the nature of this assistance including provisions which are referenced in the Joint Explanatory Statement of the Committee of Conference accompanying House Joint Resolution 648 (H. Report No. 98-1159).

(3) NOTIFICATION.—At least fifteen days prior to obligating any such cash transfer or non-project sector assistance, the President shall submit a notification through the regular notification procedures of the Committees on Appropriations, which shall include a detailed description of how the funds proposed to be made available will be used, with a discussion of the United States interests that will be served by the assistance (including, as appropriate, a description of the

economic policy reforms that will be promoted by such assistance).

(4) EXEMPTION.—Non-project sector assistance funds may be exempt from the requirements of subsection (b)(1) only through the notification procedures of the Committees on Appropriations.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed on a new provision related to the management of separate accounts.

GLOBAL REDUCTION OF POVERTY

Amendment No. 276: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amenement as follows:

In lieu of the section number named in said amendment, insert: *593*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement directs the Agency for International Development to establish a system of specific quantitative and qualitative indicators of poverty reduction on a country-by-country basis. The language also calls on AID to identify in its annual Congressional Presentation poverty reduction objectives and progress to date in meeting those objectives.

INTERNATIONAL MONETARY FUND

Amendment No. 277: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

INTERNATIONAL MONETARY FUND

SEC. 594. (a) The Secretary of the Treasury shall instruct the United States Executive Director to the International Monetary Fund (IMF) to regularly and vigorously promote the following policy and staffing changes through formal initiatives before the Board and management of the IMF and through bilateral discussions with other member nations:

(1) The addition to the IMF's staff of natural resource experts, and development economists trained in analyzing the linkages between macro-economic conditions and the short- and long-term impacts on sustainable management of natural resources.

(2) In a manner consistent with the proposals of the IMF, the establishment in the IMF of a systematic process to review in advance, and take into account in policy formation, projected impacts of each IMF lending agreement on the long-term sustainable management of natural resources, the environment, public health and poverty.

(3) The creation of criteria to consider concessional and favorable lending terms to promote sustainable management of natural resources. Such capacity should seek the reduction of the debt burden of developing countries in recognition of domestic investments in conservation and environmental management.

(b) The Secretary of the Treasury shall prepare an annual report to the Congress on the progress made by the United States Executive Director to the IMF in implementing the reforms encompassed in this section.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement includes instructions to the Secretary of the Treasury on promoting various staffing and policy changes with the International Monetary Fund.

EL SALVADOR

Amendment No. 278: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

EL SALVADOR

SEC. 595. With respect to the ongoing political unrest and armed conflict in El Salvador, the Congress hereby—

(1) welcomes the negotiating process set in motion on September 13, 1989 in Mexico City by the Government of El Salvador and the leadership of the Farabundo Marti National Liberation Front and the expressed willingness of both parties to continue this process;

(2) urges the parties to these negotiations to achieve, as quickly as possible—

(A) a cessation of hostilities, and

(B) an overall political settlement of the ten-year-old conflict; and

(3) calls upon the Secretary of State to consult frequently with the Congress on the status of the Salvadoran negotiations and on the efforts being undertaken by the President to support these negotiations.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to limit military aid to El Salvador to $85,000,000. This limitation is contained in Amendment No. 99.

The conferees are concerned about the recent increase in violent abuse of human rights in El Salvador by both the Salvadoran armed forces and the FMLN. The conferees note and condemn the recent actions of guerrilla forces apparently designed to polarize the political situation and cause a hindrance to the current peace negotiations. Similarly the conferees are concerned about the recent increase in the number of persons arrested by the Army and security forces and allegations of gross mistreatment and torture of those taken into custody. The conferees are also concerned about continuing reports that agencies that administer or support humanitarian assistance programs to civilians in rural El Salvador are being prevented from traveling in areas of conflict. The conferees expect the Government of El Salvador and the FMLN to adhere fully to Article 23 of the Fourth Geneva Convention of 1949 regarding the passage of medical and hospital stores, and foodstuffs destined for certain classes of non-combatants.

CENTRAL AMERICAN DEVELOPMENT COORDINATION COMMISSION

Amendment No. 279: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *596*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement includes a provision proposed by the Senate, which provides support for the Central American Development Coordination Commission. Not less than $500,000 is provided from the Economic Support Fund to assist in the implementation of the Commission.

GUARANTEE RESERVE FUND INTEREST

Amendment No. 280: Deletes language proposed by the Senate amending the Arms Export Control Act in order to capture certain interest revenues for the Guaranty Reserve Fund, and to avoid letting the Department of the Treasury collect interest twice. twice.

The conferees direct the Department of the Treasury, in consultation with the Office of Management and Budget and the Defense Security Assistance Agency (DSAA), to revise the notes issued during fiscal year 1989 and fiscal year 1990 by DSAA, as the GRF manager, to (and accepted by) the Secretary of the Treasury in order to revise the note's provision regarding interest owed to the Treasury by the GRF pursuant to the third sentence of the paragraph under the heading "Guaranty Reserve Fund." The note should be revised to reduce or eliminate the GRF's obligation to pay the Treasury interest to the extent that the Treasury receives interest payments from the foreign borrowers with respect to GRF payments made under loans guaranteed by DSAA. The conferees wish to ensure that the Treasury is not reimbursed twice for interest, once from the foreign borrowers and again from the GRF.

ELIGIBILITY OF POLAND AND HUNGARY FOR OVERSEAS PRIVATE INVESTMENT CORPORATION

Amendment No. 281: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate which provides eligibility for Poland and Hungary for Overseas Private Investment Corporation (OPIC) programs until September 30, 1992. The provision further states that OPIC shall support projects in Poland and Hungary in order to enhance the nongovernmental sector.

The conferees have agreed to provide Poland and Hungary eligibility for OPIC programs until September 30, 1992.

AGENCY FOR INTERNATIONAL DEVELOPMENT

Amendment No. 282: Deletes language proposed by the Senate.

The conferees recognize that because of the nature of its programs, the Agency for International Development must often use consultants with specialized skills in carrying out programs directed at AIDS, child survival and global warming. Because of their specialized skills many of these consultants are not available for full-time federal service. Even if they were, A.I.D.'s requirement for their service is short-term assignments on an as-needed basis. Therefore, it would be exceedingly expensive for A.I.D. to bring specialists on board every time a new program is started, and then face the termination costs when these specialists are no longer needed.

However, the conferees also recognize the potential for conflicts of interest and other problems that can result from the use of contractors. Therefore, the conferees direct the Agency for International Development to take steps to prevent the occurrence of such problems. These steps should include, at a minimum, assurance that the Agency maintains the in-house expertise necessary to oversee the work of its contractors. These steps are designed to ensure that the Agency for International Development, and not its contractors, remains firmly in control of its programs and the decision-making that guides them.

INTERNATIONAL COFFEE AGREEMENT

Amendment No. 283: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *598*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement includes the provision proposed by the Senate which expresses the sense of the Congress on the importance of the International Coffee Agreement.

LATVIA, ESTONIA, AND LITHUANIA

Amendment No. 284: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

LATVIA, ESTONIA, AND LITHUANIA

SEC. 599. (a) The Congress finds that—

(1) the Baltic states of Latvia, Estonia, and Lithuania gained their independence from the Russian Socialist Federative Soviet Republic in 1918, a fact recognized by the government of the Russian Socialist Federative Soviet Republic in 1920;

(2) the governments of the Latvian Democratic Republic and the Russian Socialist Federative Soviet Republic (RSFSR) signed a Treaty of Peace in Riga, Latvia on August 11, 1920, in which the RSFSR "establishes the right of self-determination for all nations, even to the point of total separation from the States with which they have been incorporated" and declares that "Russia unreservedly recognizes the independence, self-subsistency and sovereignty of the Latvian State and voluntarily and forever renounces all sovereign rights over the Latvian people and territory which formerly belonged to Russia";

(3) similar treaties were signed by both the Republic of Estonia and the Republic of Lithuania with the RSFSR on February 2, 1920 and July 12, 1920, respectively;

(4) the independent republics of Latvia, Estonia, and Lithuania swiftly recovered from the ravages of World War I and became active in the world community, gaining membership in the League of Nations on September 22, 1921 and full recognition by the United States on July 28, 1922;

(5) the sovereign rights of the independent states of Latvia, Estonia, and Lithuania were violated by the Union of Soviet Socialist Republics in a Secret Protocol to the Nazi-Soviet Treaty of Nonaggression of August 23, 1939, which divided Eastern Europe into Nazi and Soviet "spheres of influence";

(6) the Union of Soviet Socialist Republics coerced the governments of Latvia, Estonia, and Lithuania to sign Pacts of Mutual Assistance in October 1939, which stipulated that the "contracting parties undertake not to enter into any alliances or to participate in any coalitions directed against one of the contracting parties" and that "the carrying into effect of the present pact must in no way affect the sovereign rights of the contracting parties, in particular their political structure, their economic and social system, and their military measures";

(7) the Union of Soviet Socialist Republics violated not only those bilateral agreements with the independent Baltic states but also international conventions on the changing of international borders by force when the Soviet Union issued ultimatums to the three independent nations on June 15-16, 1940, demanding the formation of governments to their liking, followed by armed invasions of Lithuania, Latvia, and Estonia on June 16-17, 1940;

(8) the occupation of the Baltic states was confirmed on July 14-15, 1940, with the irregular and illegal "election" of new parliaments, which then petitioned for admission into the Soviet Union, and these petitions were accepted by the Soviet Union, as follows: Lithuania's on August 3, 1940, Latvia's on August 4, 1940, and Estonia's on August 5, 1940;

(9) the Government of the United States continues its policy of standing by the 1922 recognition of the de jure independent governments in the Baltic states, and of refusing to recognize the forced incorporation of the Baltic states into the Soviet Union;

(10) the peoples of Latvia, Estonia, and Lithuania have never accepted the occupation of their native lands, and have demonstrated their resolve on numerous occasions since 1940, most notably in the last three years. The most striking demonstration of the desires of the Baltic people took place on August 23, 1989, the fiftieth anniversary of the Nazi-Soviet Treaty of Non-aggression, when nearly 2,000,000 citizens of Latvia, Estonia, and Lithuania joined hands in a 400-mile human chain stretching across the Batic states from the Estonian capital of Tallinn, through the Latvian capital, Riga, to the Lithuanian capital of Vilninus;

(11) the people of the Baltic states, through their elected representatives in the Populat Front of Latvia, the Popular Front of Estonia, and the Lithuanian Movement in Support of Perestroika "Sajudis", have declared their desire for the restoration of independence in the Baltic states; and

(12) even the Communist officials and regimes in each of the Baltic states have begun to respond to the drive for more autonomy.

(b) The Congress urges the President—

(1) to raise the issue of the political rights of the Baltic peoples in all diplomatic contacts with the Soviet Union including during the meeting between President Bush and President Gorbachev in December, 1989 and during the Presidential summit scheduled in 1990 between the United States and the Soviet Union; and

(2) to call upon the Soviet Union—

(A) to honor the international agreements it has voluntarily entered into, such as the Final Act of the Helsinki Conference on Security and Cooperation in Europe and the United Nations Declaration of Human Rights, as well as the bilateral agreements it has voluntarily entered into with the independent governments of Latvia, Estonia, and Lithuania,

(B) to allow the people of Latvia, Estonia, and Lithuania their right of self-determination, as guaranteed by the RSFSR in 1920 as well as by the current constiution of the Soviet Union,

(C) to recognize the human rights of all peoples both within the Soviet Union and under Soviet influence, and

(D) to replace the policy of aggressive industrialization in the Baltic states, which has poisoned the land, air, and water of Latvia, Estonia, and Lituania, with one of environmental responsibility.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement provides revised language on a congressional finding regarding Latvia, Estonia and Lithuania.

TIANANMEN SQUARE PARK

Amendment No. 285: Deletes language proposed by the Senate urging the naming of the park in the District of Columbia "Tiananmen Square Park". The conferees delected the bill language expressing the sense of the Senate on this matter but feel that consideration should be given to a designation of a park near the Embassy of the People's Republic of China in order to illustrate the United States outrage concerning the events that have taken place at Tiananmen Square in the People's Republic of China.

IMPORTATION OF CERTAIN DEFENSE ARTICLES FROM POLAND, CZECHOSLOVAKIA, AND HUNGARY

Amendment No. 286: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the section number named in said amendment, insert: *599A*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The conference agreement includes a provision proposed by the Senate which clarifies that certain defense articles from Poland, Czechoslovakia, and Hungary have been lawfully imported, and shall be permitted to remain in the United States, and in museums or educational institutions without being subject to any penalty by reason of such importation.

HUMAN RIGHTS IN CUBA

Amendment No. 287: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows: In lieu of the section number named in said amendment, insert: *599B*

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement adds a provision concerning the human rights situation in Cuba. The Senate language revises a provision in prior year Foreign Assistance Appropriations Acts on human rights violations in Cuba.

CENTER FOR AGRICULTURAL RESEARCH

Amendment No. 288: Deletes language proposed by the Senate directing the Agency for International Development to conduct a feasibility study on establishing a center to conduct research on common argicultural problems in the United States and the Caribbean.

The conferees however note that producers of agricultural commodities in the Caribbean region (including the Caribbean Basin nations and those states in the United States abutting the Gulf of Mexico) have common prospects and problems. Among those common problems are pest managment, transportation, post-harvest handling and treatment, market penetration, and proper crop selection and management. As an example, the declining research on and availability of environmentally safe pesticides and pest management technologies are common problems for both the United States and Caribbean agricultural producers in the region. The conferees believe that it would be in the mutual benefit of United States and Caribbean agricultural interests jointly to seek solutions to these problems.

Such an effort would benefit United States argicultural production, and at the same time make a contribution to the objectives of the Caribbean Basin Initiative.

Therefore, the conferees require the Agency for International Development to study the feasibility and potential benefits of joint research and education on agricultural production in the region, including chemical, biological and biotechnology research. The study should identify priorities in terms of common problems facing producers of agricultural commodities in the region and, if warranted, propose a mechanism for conducting comprehensive research and development solutions to these problems. This study should be made available to the Committees on Appropriations of the House and Senate by April 1, 1990.

ASSISTANCE FOR POLAND AND HUNGARY

Amendment No. 289: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

ASSISTANCE FOR POLAND AND HUNGARY

SEC. 599C. (a) In addition to amounts appropriated under the heading "Trade and Development Program", there is hereby appropriated $2,000,000, to remain available until expended, to carry out the provisions of section 661 of the Foreign Assistance Act of 1961, notwithstanding any other provision of law.

(b) Notwithstanding any other provision of this Act, any funds made available by this Act for a specific activity for Poland or Hungary instead may be obligated for Poland or Hungary for an activity with a similar purpose. The authority of section 515 fo this Act may also be used to deobligate such funds and reobligate them for Poland or Hungary for an activity with a similar purpose: Provided, That the authority of this subsection shall be exercised to the regular notification procedures of the Committees on Appropriations.

(c) Funds made available by this Act and obligated for the Government of Poland shall not be expended if the President of Poland, or any other Polish official, initiates martial law without the consent of the Polish Senate and Sejm, or if members of the Polish Senate or the Sejm are removed from office or are arrested through extra-constitutional processes: Provided, That, notwithstanding the restriction on expenditures contained in this subsection, the President of the United States may continue to expend funds made available to Poland if he determines and certifies to Congress that it is in the foreign policy interest of the United States to do so.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to a number of provisions throughout the Act providing assistance for programs in Poland and Hungary. The conferees intend that the $2,000,000 increase in appropriations for the Trade and Development Program be utilized for investment feasibility studies, training and other activities in Poland and Hungary. Similarly, the conferees intend that $2,000,000 of the increase above the House level for the Peace Corps be utilized for Peace Corps programs in Poland and Hungary.

The conferees have directly appropriated to the Agency for International Development and have earmarked $1,000,000 for the Farmer-to-Farmer program, up to $10,000,000 for agricultural activities in Poland; $2,000,000 for technical training for private sector development in Poland and Hungary; $3,000,000 for educational and cultural exchanges to be carried out in conjunction with the United States Information Agency; $2,000,000 for scholarships for Polish and Hungarian students in the United States; $3,300,000 for an air quality monitoring network and water supply in Krakow and to support of a regional environmental activities center in Budapest to be carried out in conjunction with the Environmental Protection Agency; $10,000,000 for an energy program related to clean coal technology to be carried out in conjunction with the Department of Energy; $1,500,000 for technical assistance for implementation of labor reforms to be carried out in conjunction with Department of Labor and United States labor and business community representatives; $50,000,000 for enterprise funds for private sector development; $1,500,000 to support Solidarity through the AFL-CIO's Free Trade Union Institute; $2,500,000 to support independent, democratic organizations and activities in Poland and Hungary; $2,000,000 for medical supplies and hospital equipment and training in Poland and $200,000,000 for economic stabilization, private sector, and other activities aimed at developing a market-oriented economy in Poland. Additionally, the conferees have provided $200,000,000 in secondary guarantees for the Trade Credit Insurance Program to insure the Export-Import Bank against further losses in Poland.

The conferees intend that the Agency for International Development be the central management and coordinating agency for Polish and Hungarian program. Consequently, funds, in almost every instance, have been appropriated to the Agency for International Development. Flexibility in management of the funds made available has been provided through the utilization of section 515 of this Act and through the regular notification procedures of the Committees on Appropriations.

The conferees also strongly support the provision of up to $125,000,000 in Public Law 480 food assistance.

The conferees direct that the Department of State take a leadership role in the G7 countries to organize a $1,000,000,000 fund for economic stabilization in Poland. Strong leadership is necessary in order to get the various donor countries to cooperate effectively in making cash resources available in order to have foreign exchange available to stabilize the Polish economy and currency. It is crucial that Western leadership respond with more than words and caution to the truly remarkable political and economic changes occurring in Eastern Europe. The cost of lost opportunity vastly exceeds the Western resources necessary to support continued progress toward democracy and open-market economies in Eastern Europe.

The conferees further agreed to deleted Senate proposed language on offsetting adjustments.

ESTABLISHING CATEGORIES OF REFUGEE APPLICANTS

Amendment No. 290: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

ESTABLISHING CATEGORIES OF ALIENS FOR PURPOSES OF REFUGEE DETERMINATIONS

SEC. 559D. (a) IN GENERAL.—In the case of an alien who is within a category of aliens established under subsection (b), the alien may establish, for purposes of admission as a refugee under section 207 of the immigration and Nationality Act, that the alien has a well-founded fear of persecution on account of race, religion, nationality, membership in a particular social group, or political opinion by asserting such a fear and asserting a credible basis for concern about the possibility of such persecution.

(b) ESTABLISHMENT OF CATEGORIES.—

(1) For purposes of subsection (a), the Attorney General, in consultation with the Secretary of State and the Coordinator for Refugee Affairs, shall establish—

(A) one or more categories of aliens who are or were nationals and residents of the Soviet Union and who share common characteristics that identify them as targets of persecution in the Soviet Union on account of race, religion, nationality, membership in a particular social group, or political opinion, and

(B) one or more categories of aliens who are or were nationals and residents of Vietnam, Laos, or Combodia and who share common characteristics that identify them as targets of persecution in such respective foreign state on such an account.

(2)(A) Aliens who are (or were) nationals and residents of the Soviet Union and who are Jews or Evangelical Christians shall be deemed a category of alien established under paragraph (1)(A).

(B) Aliens who are (or were) nationals of the Soviet Union and who are current members of, and demonstrate public, active, and continuous participation (or attempted participation) in the religious activities of, the Ukrainian Catholic Church or the Ukrainian Orthodox Church, shall be deemed a category of alien established under paragraph (1)(A).

(C) Aliens who are (or were) nationals and residents of Vietnam, Laos, or Cambodia and who are members of categories of individuals determined, by the Attorney General in accordance with the "Immigration and Naturalization Service Worldwide Guidelines for Overseas Refugee Processing" (issued by the Immigration and Naturalization Service in August 1983) shall be deemed a category of alien established under paragraph (1)(B).

(3) Within the number of admissions of refugees allocated for fiscal year 1990 for refugees who are nationals of the Soviet Union under section 207(a)(3) of the Immigration and Nationality Act, notwithstanding any other provision of law, the President shall allocate 1,000 of such admissions for such fiscal year to refugees who are within the category of aliens described in paragraph (2)(B).

(c) WRITTEN REASONS FOR DENIALS OF REFUGEE STATUS.—Each decision to deny an application for refugee status of an alien who is within a category established under this section shall be in writing and shall state, to the maximum extent feasible, the reason for the denial.

(d) PERMITTING CERTAIN ALIENS WITHIN CATEGORIES TO REAPPLY FOR REFUGEE STATUS.—Each alien who is within a category established under this section and who (after August 14, 1988, and before the date of the enactment of this Act) was denied refugee status shall be permitted to reapply for such status. Such an application shall be deter-

mined taking into account the application of this section.

(e) PERIOD OF APPLICATION.—

(1) Subsections (a) and (b) shall take effect on the date of the enactment of this Act and shall only apply to applications for refugee status submitted before October 1, 1990.

(2) Subsection (c) shall apply to decisions made after the date of the enactment of this Act and before October 1, 1990.

(3) Subsection (d) shall take effect on the date of the enactment of this Act and shall only apply to reapplications for refugee status submitted before October 1, 1990.

(f) GAO REPORTS ON SOVIET REFUGEE PROCESSING.—

(1) The Comptroller General shall submit to the Committees on the Judiciary of the Senate and of the House of Representatives reports on the implementation of this section in Italy and the Soviet Union. Such reports shall include a review of—

(A) the timeliness and length of individual interviews,

(B) the adequacy of staffing and funding by the Department of State, the Immigration and Naturalization Service, and voluntary agencies, including the adequacy of staffing, computerization, and administration of the processing center in Washington,

(C) the sufficiency of the proposed Soviet refugee processing system within the United States,

(D) backlogs (if any) by ethnic or religious groups and the reasons any such backlogs exist,

(E) sufficiency of the means of distributing and receiving applications for refugee status in Moscow,

(F) to the extent possible, a comparison of the cost of conducting refugee processing only in Moscow and such cost of processing in both Moscow and in Italy, and

(G) an evaluation of efforts to phase out Soviet refugee processing in Italy.

(2) The Comptroller shall submit a preliminary report under paragraph (1) by December 31, 1989, and a final report by March 31, 1990. The final report shall include any recommendations which the Comptroller General may have regarding the need, if any, to review or extend the application of this section.

ADJUSTMENT OF STATUS FOR CERTAIN SOVIET AND INDOCHINESE PAROLEES

Sec. 599E. (a) IN GENERAL.—The Attorney General shall adjust the status of an alien described in subsection (b) to that of an alien lawfully admitted for permanent residence if the alien—

(1) applies for such adjustment,

(2) has been physically present in the United States for at least 1 year and is physically present in the United States on the date the application for such adjustment is filed,

(3) is admissible to the United States as an immigrant, except as provided in subsection (c), and

(4) pays a fee (determined by the Attorney General) for the processing of such application.

(b) ALIENS ELIGIBLE FOR ADJUSTMENT OF STATUS.—The benefits provided in subsection (a) shall only apply to an alien who—

(1) was a national of the Soviet Union, Vietnam, Laos, or Cambodia, and

(2) was inspected and granted parole into the United States during the period beginning on August 15, 1988, and ending on September 30, 1990, after being denied refugee status.

(c) WAIVER OF CERTAIN GROUNDS FOR INADMISSIBILITY.—The provisions of paragraphs (14), (15), (20), (21), (25), (28) (other than subparagraph (F)), and (32) of section 212(a) of the Immigration and Nationality Act shall not apply to adjustment of status under this section and the Attorney General may waive any other provision of such section (other than paragraph (23)(B), (27), (29), or (33)) with respect to such an adjustment for humanitarian purposes, to assure family unity, or when it is otherwise in the public interest.

(d) DATE OF APPROVAL.—Upon the approval of such an application for adjustment of status, the Attorney General shall create a record of the alien's admission as a lawful permanent resident as of the date of the alien's inspection and parole described in subsection (b)(2).

(e) NO OFFSET IN NUMBER OF VISAS AVAILABLE.—When an alien is granted the status of having been lawfully admitted for permanent residence under this section, the Secretary of State shall not be required to reduce the number of immigrant visas authorized to be issued under the Immigration and Nationality Act.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to new bill language establishing categories of refugee applicants. The conference agreement requires the Attorney General to allow Soviet Jews and Evangelical Christians, along with certain Southeast Asians, to qualify for refugee status by asserting a fear of persecution and asserting a "credible basis for concern about the possibility of such persecution."

The conferees intend that a "credible basis for concern" is established if the applicant asserts: (1) acts of mistreatment, or prejudicial action against the individual personally such as, but not limited to—(a) inability to study or practice religious beliefs or ethnic heritage; (b) denial of access to educational, vocational or technical institutions for which he or she is otherwise qualified, based on the individual's membership in the group; (c) adverse treatment in the workplace stemming from prejudicial attitudes toward members of his or her group; or (2) acts of persecution committed against similarly situated individuals, in his or her geographic locale; or (3) instances of mistreatment or prejudicial actions based on the individual's request to depart the individual's homeland, including, but not limited to, loss of home, job or education opportunity; (4) knowledge, either from having read of or heard of, of situations like those in (a), (b), and (c) as affecting persons in the same category residing elsewhere in the home country.

Once a credible basis for concern about the possibility of persecution has been established, the burden of disproving eligibility for refugee status will fall upon the United States Government. The United States Government may meet this burden by establishing that assertions of the type proffered by the applicant are not credible given what is known about conditions in the individual's home country.

Regarding Ukrainians, the 1,000 refugee numbers (discussed in subsection (b)(3)) should be viewed as both a floor and ceiling; in effect, a set-aside.

REPEAL OF PROVISION

Amendment No. 291: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

REPEAL OF PROVISION

SEC. 599F. (a) The following provision under the heading "Salaries and Expenses, General Legal Activities," contained in the Departments of Commerce, Justice, and State, the Judiciary and Related Agencies Appropriations Act, 1990 (H.R. 2991), as enacted into law, is hereby repealed:" : Provided further, That for fiscal year 1990 and hereafter the Attorney General may establish and collect fees to cover the cost of identifying, copying and distributing copies of tax decisions rendered by the Federal Judiciary and that any such fees shall be credited to this appropriation notwithstanding the provisions of 31 U.S.C. 3302".

(b) The provisions of subsection (a) shall take effect upon the date of the enactment into law of the Department of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1990 (H.R. 2991).

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees have agreed to delete language proposed by the Senate concerning a plan to eradicate the worst aspects of poverty. Although the conferees agree with the thrust of the language proposed by the Senate it was felt that the provision should be addressed in authorizing legislation. The conferees note that United States development assistance should contribute measurably to eradicating the worst aspects of absolute poverty by the year 2000 and that international cooperation should be sought in achieving this goal. The conferees have addressed other issues of poverty in amendment number 276.

The conferees upon request have agreed to include a new provision which repeals a provision in the Commerce, Justice, State Appropriations Bill which would permit the Attorney General to establish and collect fees to cover the cost of identifying, copying and distributing federal tax decisions. The repealed Commerce, State, Justice provision would have distorted the Supreme Court's recent decision in *Department of Justice* v. *Tax Analysts* and would have permitted the Attorney General to override fee provisions of the Freedom of Information Act that were carefully negotiated with the Justice Department only three years ago. The original proponents of this provision—including Commerce, Justice, State conferees and the Justice Department—have requested that this provision should be repealed.

CONDITIONAL ASSISTANCE FOR EL SALVADOR FOR POLICE TRAINING

Amendment No. 292: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter proposed by said amendment, insert the following:

CONDITIONAL ASSISTANCE FOR EL SALVADOR FOR POLICE TRAINING

SEC. 599G. (a) CONDITIONAL ASSISTANCE.—In order to promote the professional development of the security forces in El Salvador and to encourage the separation of the law enforcement from the armed forces of El Salvador, funds made available under chapter 4 of part II of the Foreign Assistance Act of 1961 which are allocated to El Salvador may, notwithstanding section 660 of that Act, be provided to El Salvador for fiscal year 1990 for purposes otherwise prohibited by section 660 of the Act, if the following conditions are met:

(1) The training provides with such assistance is provided by United States civilian law enforcement personnel.

(2)(A) The assistance is to be used for the purposes of professional development and training of the security forces of El Salvador in such areas as human rights, civil law, investigative and civilian law enforcement techniques, and urban law enforcement training.

(B) Any such assistance that is made available for equipment for these forces is intended to be used for the purchase of equipment such as communication devices, transportation equipment, forensic equipment, and personal protection gear. No such assistance may be used for the purpose of any lethal equipment, except for small arms ammunition and rifle ammunition solely for training purposes.

(3) At least 30 days before obligating such assistance, the President certifies to the Committee of Foreign Affairs and the Committee on Appropriations of the House of Representatives and the Committee of Foreign Relations and the Committee on Appropriations of the Senate that the Government of El Salvador has made significant progress during the preceding 6 months in eliminating any human rights violations, including torture, incommunicado detention, dentention of persons solely for their political views, or prolonged detention without trial. Any such certification shall include a full description of the assistance which is proposed to be provided and of the purposes to which it is to be directed. Any such certification shall also include a report on the status of all investigative action and prosecutions with respect to those responsible for the 1980 murders of Archbishop Oscar Romero and the four American churchwomen, the recent murder of Ana Casanova, and the recent bombings of the headquarters of the FENASTRAS union and the office of COMADRES, a human rights organization.

(4) REPROGRAMMING.—Funds made available under this subsection shall be subject to the regular reprogramming procedures of the Committees on Appropriations.

(b) DEFINITION.—For purposes of this section, the term "civilian law enforcement personnel" means individuals who are not members of the United States Armed Forces.

(c) Not more than $5,000,000 shall be made available in fiscal year 1990 to carry out the provisions of this section. Not less than $7,000,000 of the funds made available to carry out the provisions of chapter 4 of part II of the Foreign Assistance Act of 1961 for fiscal year 1990 shall be made available for the purposes of subsection 534(b)(3) of the Foreign Assistance Act of 1961.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conferees are deeply concerned about reports of human rights abuses by members of the Salvadoran police forces. The conferees wish to support efforts by the Administration and the Salvadoran Government to further professionalize the police forces and bring to justice those who have committed abuses. For this reason funds have been provided, notwithstanding the prohibition in section 660, for civilian training of police and non-lethal equipment, with the exception of small arms ammunition and rifle ammunition used only for training purposes. The conferees direct that the use of such ammunition shall occur only at the Salvadoran Police Academy.

Because of the history of police misconduct which led to the section 660 prohibition in the first place, this training and equipment are provided only on condition that the Administration certifies that significant progress is being made in eliminating human rights abuses and in bringing to justice those responsible for certain crimes, including the recent murder of Ana Casanova and the bombings of the FENASTRAS headquarters and the office of COMADRES.

Furthermore, in order to ensure that the training and equipment are accomplishing their intended purposes, the conferees direct the Administration to report on a biannual basis to the Committees on Appropriations of the House and Senate on the conduct of police who receive this training and equipment, including all efforts to bring to justice police who have engaged in abuses of human rights.

CROPS IN PERU, BOLIVIA AND JAMAICA

Amendment No. 293: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows: In lieu of the matter inserted by said amendment, insert the following:

CROPS IN PERU, BOLIVIA AND JAMAICA

SEC. 599H. Notwithstanding any other provision of law, the President may provide assistance under chapter 1 of part I or chapter 4 of part II of the Foreign Assistance Act of 1961 for Peru, Bolivia and Jamaica to promote the production, processing, or marketing of all crops which can be economically grown in areas of those countries which currently produce crops from which narcotic and psychotropic drugs are derived.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement includes a provision giving the President authority to provide assistance to Peru, Bolivia and Jamaica to promote production, processing, or marketing of all crops which can be economically grown in areas which currently produce crops from which narcotic and psychotropic drugs are derived.

LAND REFORM IN EL SALVADOR

Amendment No. 294: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

In lieu of the matter inserted by said amendment, insert the following:

LAND REFORM IN EL SALVADOR

SEC. 599I. (a) It is the sense of the Congress that the success and continuation of land reform in El Salvador is vital to United States policy and to political stability, economic development and maintenance of democratic institutions in that country.

(b) Therefore, when allocating Economic Support Funds to El Salvador, the President shall take into consideration progress in the Salvadoran Land Reform Program.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate. The conference agreement includes sense of the Congress language on land reform in El Salvador.

TITLE VI—FUNDING LEVELS

Amendment No. 295: Reported in technical disagreement. The managers on the part of the House will offer a motion to recede and concur in the amendment of the Senate with an amendment as follows:

Restore the matter stricken by said amendment, amended to read as follows:

TITLE VI—FUNDING ADJUSTMENTS

REDUCTION OF APPROPRIATIONS

SEC. 601. Each appropriation item, direct loan obligation limit, loan guarantee commitment limit, or obligation limit provided by this Act shall be reduced by 0.43 percent: Provided, That such reduction shall be applied proportionally to each program, project, and activity as set forth in section 543 of this Act: Provided further, That programs and activities exempt from sequestration under Section 255 of the Deficit Control Act of 1985 shall be exempt from the uniform reduction required by this paragraph.

COUNTER-NARCOTICS PROGRAMS

SEC. 602. For expenses necessary to enable the President to carry out the provisions of the Foreign Assistance Act of 1961 and the Arms Export Control Act, $125,000,000, which shall be made available only for counter-narcotics programs: Provided, That none of the funds appropriated under this heading shall be made available except as provided through the regular notification procedures of the Committees on Appropriations.

The managers on the part of the Senate will move to concur in the amendment of the House to the amendment of the Senate.

The conference agreement includes two provisions relating to an initiative for the control of illicit drugs. The first provision above is an overall across the board cut needed to offset the additional costs associated with government-wide assistance for the control of illicit drugs. The provision is consistent with agreements reached on funding included in other appropriations bills.

The second provision provides an additional $125,000,000 in assistance beyond what has been provided in other titles in the bill for international counter-narcotics programs. These funds can be made available for counter-narcotics activities under the Foreign Assistance Act (FAA) and the Arms Export Control Act (AECA) and are to be used in accordance with the authorities that are applicable to the provisions of the FAA or AECA under which they will be used. The specific program and project uses of this $125,000,000 are to be provided through the notification procedures of the Committees on Appropriations.

The conferees agreed that the Administration is to follow non-conflicting recommendations in the House and Senate Committee Reports to the extent that they are not in conflict with this Statement of the Managers.

CONFERENCE TOTAL—WITH COMPARISONS

The total new budget (obligational) authority for the fiscal year 1990 recommended by the Committee of Conference, with comparisons to the fiscal year 1989 amount, the 1990 budget estimates, and the House and Senate bills for 1990 follow:

New budget (obligational) authority, fiscal year 1989	$14,390,032,000
Budget estimates of new (obligational) authority, fiscal year 1990	15,157,926,225
House bill, fiscal year 1990	14,284,613,131
Senate bill, fiscal year 1990	14,441,723,945
Conference agreement, fiscal year 1990	14,643,814,000

Conference agreement compared with:	
New budget (obligational) authority, fiscal year 1989	+253,782,000
Budget estimates of new (obligational) authority, fiscal year 1990	−514,112,225
House bill, fiscal year 1990	+359,200,869
Senate bill, fiscal year 1990	+202,090,055

DAVID R. OBEY,
SIDNEY R. YATES
(except amendment 292 and all military assistance to El Salvador),
MATTHEW F. MCHUGH
(except amendment 292 regarding police training in El Salvador),
WILLIAM LEHMAN,
CHARLES WILSON,
WILLIAM H. GRAY III,
R.J. MRAZEK
(except amendment 292 and military assistance to El Salvador),
RONALD COLEMAN,
JAMIE WHITTEN,
MICKEY EDWARDS,
JERRY LEWIS,
JOHN PORTER,
DEAN GALLO,
Managers on the Part of the House.

PAT LEAHY,
DANIEL K. INOUYE,
J. BENNETT JOHNSTON,
DENNIS DECONCINI,
FRANK LAUTENBERG,
TOM HARKIN,
BARBARA A. MIKULSKI,
ROBERT C. BYRD,
ROBERT W. KASTEN, Jr.,
MARK O. HATFIELD,
ALFONSE D'AMATO,
WARREN B. RUDMAN,
ARLEN SPECTER,
DON NICKLES,
TED STEVENS,
Managers on the Part of the Senate.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. ALEXANDER (at the request of Mr. GEPHARDT), for today, on account of official business.

Mr. BROOKS (at the request of Mr. GEPHARDT), for today, on account of illness.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. WELDON) to revise and extend their remarks and include extraneous material:)

Mr. MCCOLLUM, for 60 minutes, today.

Mr. DREIER of California, for 60 minutes, today, November 15, 16, and 17.

Mr. MCEWEN, for 5 minutes, today.

(The following Members (at the request of Mr. LEVIN of Michigan) to revise and extend their remarks and include extraneous material:)

Mr. ANNUNZIO, for 5 minutes, today.

Mr. GAYDOS, for 60 minutes, today and November 15.

Mr. LANTOS, for 60 minutes, on November 16.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

Mr. LEVIN of Michigan, and to include extraneous material, notwithstanding the fact that it exceeds two pages of the RECORD and is estimated by the Public Printer to cost $6,776.

(The following Members (at the request of Mr. WELDON) and to include extraneous matter:)

Mr. PETRI.
Mr. LAGOMARSINO.
Mrs. MORELLA.
Mr. SOLOMON.
Mr. MARLENEE.
Mr. CLINGER.
Mrs. BENTLEY in two instances.

(The following Members (at the request of Mr. LEVIN of Michigan) and to include extraneous matter:)

Mr. ANDERSON in 10 instances.
Mr. GONZALEZ in 10 instances.
Mr. BROWN of California in 10 instances.
Mr. ANNUNZIO in six instances.
Mr. BONIOR.
Mr. MONTGOMERY.
Mr. RANGEL.
Mr. LANTOS in two instances.
Mr. STARK in three instances.
Mr. OWENS of New York.
Mr. ACKERMAN.
Ms. OAKAR.
Mr. ATKINS.
Mr. MAZZOLI.
Mr. STOKES.
Mr. TORRICELLI.
Mr. RICHARDSON.
Mr. SOLARZ.

SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 280. An act to amend the Wild and Scenic Rivers Act by designating a segment of the Niobrara River in Nebraska as a component of the National Wild and Scenic Rivers System; to the Committee on Interior and Insular Affairs.

S. 561. An act to provide for testing for the use, without lawful authorization, of alcohol or controlled substances by the operators of aircraft, railroads, and commercial motor vehicles, and for other purposes; to the Committees on Energy and Commerce and Public Works and Transportation.

S. 1249. An act to amend the Federal Trade Commission Act to provide authorization of appropriations, and for other purposes; to the Committee on Energy and Commerce.

ENROLLED BILL SIGNED

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee had examined and found truly enrolled a bill of the House of the following title, which was thereupon signed by the Speaker:

H.R. 2991. An act making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1990, and for other purposes.

BILLS AND JOINT RESOLUTION PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on the following date present to the President, for his approval, bills and joint resolution of the House of the following titles.

On November 9, 1989:

H.J. Res. 425. Joint resolution designating November 12 through 18, 1989, as "Community Foundation Week;"

H.R. 2710. An act to amend the Fair Labor Standards Act of 1938 to increase the minimum wage, and for other purposes; and

H.R. 1231. An act to establish a commission to investigate and report respecting the dispute between Eastern Airlines and the collective bargaining units, and for other purposes.

ADJOURNMENT

Mr. MCCOLLUM. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 7 o'clock and 1 minute p.m.), the House adjourned until tomorrow, Tuesday, November 14, 1989, at 12 o'clock noon.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

2011. A letter from the Assistant Secretary of State for Legislative Affairs transmitting copies of the original report of political contributions by Stephen J. Ledogar, of Connecticut, U.S. Representative-designate to the Conference on Disarmament, and members of his family, pursuant to 22 U.S.C. 3944(b)(2); to the Committee on Foreign Affairs.

2012. A letter from the Assistant Secretary of State for Legislative Affairs transmitting copies of the original report of political contributions by Robert Gregory Joseph, of Virginia, U.S. Commissioner-designate on the U.S.-U.S.S.R. Standing Consultative Commission, and members of his family, pursuant to 22 U.S.C. 3944(b)(2); to the Committee on Foreign Affairs.

2013. A letter from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting copies of international agreements, other than treaties, entered into by the United States, pursuant to 1 U.S.C. 112b(a); to the Committee on Foreign Affairs.

2014. A letter from the Administrator, Federal Aviation Administration, transmitting the semiannual report on the effectiveness of the Civil Aviation Security Program for the period July 1, 1988, through December 31, 1988, pursuant to 49 U.S.C. app. 1356(a); to the Committee on Public Works and Transportation.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

[Submitted Nov. 11, 1989]

Mr. OBEY: Committee of conference. Conference report on H.R. 2939 (Rep. 101-344). Ordered to be printed.

[Submitted Nov. 13, 1989]

Mr. CLAY: Committee on House Administration. H.R. 2668. A bill to authorize the establishment with the Smithsonian Institution of the National Museum of the American Indian, to establish a memorial to the American Indian, and for other purposes; with amendments (Rep. 101-340, Pt. 2). Ordered to be printed.

Mr. MURTHA: Committee of conference. Conference report on H.R. 3072 (Rept. 101-345). Ordered to be printed.

Mr. DINGELL: Committee on Energy and Commerce. H.R. 1602. A bill to amend the Public Health Service Act to improve emergency medical services and trauma care, and for other purposes; with an amendment (Rept. 101-346). Referred to the Committee of the Whole House on the State of the Union.

Mr. DE LA GARZA: Committee on Agriculture. H.R. 3589. A bill to amend the Disaster Assistance Act of 1989 to provide assistance to agricultural producers suffering from earthquakes; with an amendment (Rept. 101-347). Referred to the Committee of the Whole House on the State of the Union.

Mr. DE LA GARZA: Committee on Agriculture. H.R. 2134. A bill to amend the Federal Meat Inspection Act to authorize the distribution of wholesome meat for human consumption that has been condemned under that act to charity and public agencies; with amendments (Rept. 101-348). Referred to the Committee of the Whole House on the State of the Union.

Mr. HUGHES: Committee on the Judiciary. H.R. 3550. A bill to amend section 524 of title 28, United States Code, with respect to the Special Forfeiture Fund, to amend section 511 of the Controlled Substances Act to make technical, clarifying, and administrative changes, and for other purposes; with amendments (Rept. 101-349, Pt. 1). Ordered to be printed.

Mr. MORRISON of Connecticut: Committee on the Judiciary. H.R. 150. A bill to amend the Immigration and Nationality Act to provide a procedure for an alien who dies while serving on active duty with the U.S. Armed Forces during certain periods of hostilities to be considered a citizen of the United States at the time of the alien's death; with an amendment (Rept. 101-350). Referred to the Committee of the Whole House on the State of the Union.

Mr. MORRISON of Connecticut: Committee on the Judiciary. H.R. 525. A bill to permit the naturalization of certain Filipino war veterans; with amendments (Rept. 101-351). Referred to the Committee of the Whole House on the State of the Union.

Ms. SLAUGHTER: Committee on Rules. House Resolution 288. Resolution waiving certain points of order against the conference report on H.R. 2939, a bill making appropriations for the foreign operations, export financing, and related programs for the fiscal year ending September 30, 1990, and for other purposes, and against certain amendments reported from conference in disagreement (Rept. 101-352). Referred to the House Calendar.

Mr. DERRICK: Committee on Rules. House Resolution 289. Resolution providing for the consideration of S. 974, an act to designate certain lands in the State of Nevada as wilderness, and for other purposes (Rept. 101-353). Referred to the House Calendar.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. HASTERT (for himself, Mr. KYL, Mr. DOUGLAS, Mr. BARNARD, Mr. DONALD E. LUKENS, and Mr. HERGER):

H.R. 3643. A bill to provide savings in the compilation and distribution of Federal environmental impact statements, and to ensure the timely notification of all interested parties; to the Committee on Merchant Marine and Fisheries.

By Mr. MONTGOMERY (for himself, Mr. WHITTEN, Mr. ESPY, Mr. PARKER, Mr. TAYLOR, and Mr. MYERS of Indiana):

H.R. 3644. A bill to designate the general mail facility on Highway 49 in Gulfport, MS, as the "Larkin I. Smith General Mail Facility") to the Committee on Post Office and Civil Service.

By Mr. TRAXLER (for himself and Mr. HENRY):

H.R. 3645. A bill to require a study of what institutions are institutions for mental diseases for purposes of the Medicaid Program; to the Committee on Energy and Commerce.

By Mr. WHITTEN:

H.J. Res. 433. Joint resolution making further continuing appropriations for the fiscal year 1990, and for other purposes; to the Committee on Appropriations.

H.J. Res. 434. Joint resolution making further dire emergency supplemental appropriations to meet the needs of natural disasters of national significance and for emergency drug funding for the fiscal year 1990, and for other purposes; to the Committee on Appropriations.

PRIVATE BILLS AND RESOLUTIONS

Under clause 1 of rule XXII,

Mr. EMERSON introduced a bill (H.R. 3646) for the relief of Oscar H. McCormack; to the Committee on the Judiciary.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 41: Mr. MANTON.

H.R. 58: Mr. YOUNG of Florida.

H.R. 60: Mr. PETRI, Mr. WALSH, Mr. OWENS of Utah, Mr. HUBBARD, Mr. NEAL of North Carolina, Mr. KYL, Mr. BONIOR, Mr. YOUNG of Alaska, and Mr. SKEEN.

H.R. 63: Mr. SHUMWAY.

H.R. 844: Mr. ROBERTS.

H.R. 917: Mr. LANTOS, Mr. GALLO, Mr. HUCKABY, Mr. YATES, Mrs. LLOYD, Mr. HAYES of Louisiana, Mr. ANDERSON, Mr. MACHTLEY, Mr. KOSTMAYER, Mr. MADIGAN, and Mr. SPENCE.

H.R. 930: Mr. FEIGHAN.

H.R. 1239: Mr. STEARNS.

H.R. 1693: Mr. HAYES of Illinois.

H.R. 2085: Mr. OLIN, Mr. LAGOMARSINO, and Mr. MCDADE.

H.R. 2192: Mr. DENNY SMITH, Ms. OAKAR, and Mr. SKEEN.

H.R. 2418: Mr. SYNAR, Mr. HOLLOWAY, and Mr. OBERSTAR.

H.R. 2564: Mr. HANSEN.

H.R. 2584: Mr. KASICH.

H.R. 2614: Mr. ROGERS.

H.R. 2648: Mr. POSHARD.

H.R. 2838: Mr. GRANT and Mrs. ROS-LEHTINEN.

H.R. 3004: Mr. SLATTERY and Mr. WILSON.

H.R. 3050: Mr. ESPY, Mr. STUDDS, and Ms. KAPTUR.

H.R. 3071: Mr. OWENS of Utah.

H.R. 3270: Mr. DURBIN, Mr. JONES of Georgia, Mr. MARTIN of New York, Mr. PICKLE, Mr. MCCURDY, Mr. INHOFE, Mr. BOEHLERT, Mr. HANCOCK, Mr. PRICE, Mr. ANDREWS, Mr. QUILLEN, and Mr. NEAL of North Carolina.

H.R. 3333: Mr. EMERSON, Mr. ARMEY, Mr. BAKER, Mr. RHODES, Mr. SKEEN, Mrs. BENTLEY, Mr. CRAIG, Mr. RINALDO, and Mr. LEWIS of California.

H.R. 3413: Mr. RITTER.

H.R. 3483: Mr. POSHARD.

H.R. 3512: Mrs. COLLINS, Mr. CRANE, and Mr. LANCASTER.

H.R. 3589: Mr. STARK, Mr. TOWNS, Mr. BERMAN, Mr. LAGOMARSINO, Mr. DIXON, and Mr. SHUMWAY.

H.R. 3622: Mr. BUSTAMANTE, Mr. PALLONE, Mr. GILMAN, Mr. NIELSON of Utah, and Mr. GALLO.

H.R. 3623: Mr. GILMAN, Mr. FALEOMAVAEGA, Mr. DONALD, E. LUKENS, Mr. NIELSON of Utah, Mr. HENRY, and Mr. GALLO.

H.J. Res. 59: Mr. HAMMERSCHMIDT.

H.J. Res. 127: Mr. HATCHER.

H.J. Res. 282: Mr. MARTINEZ, Mrs. BOGGS, Mr. THOMAS of Wyoming, Mrs. VUCANOVICH, Mrs. MARTIN of Illinois, Mr. BOEHLERT, Mr. HASTERT, Mr. GINGRICH, Mr. DUNCAN, Mr. ANDERSON, Mr. BATEMAN, Mr. MILLER of Washington, Mr. DURBIN, Mr. SAVAGE, Mr. PORTER, Mr. DELLUMS, Mr. LIVINGSTON, Mr. FRANK, and Mr. SYNAR.

H.J. Res. 409: Mr. DORNAN of California.

H.J. Res. 417: Mr. VISCLOSKY.

H. Con. Res. 6: Mr. DORNAN of California.

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 4 of rule XXII, sponsors were deleted from public bills and resolutions as follows:

H. Con. Res. 147: Mr. LEVIN of Michigan and Mr. MARTINEZ.

EXTENSIONS OF REMARKS

NICARAGUA: THE HUMAN RIGHTS RECORD 1986-89, UPDATE

HON. ROBERT J. LAGOMARSINO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. LAGOMARSINO. Mr. Speaker, as I reported during my 1 minute speech today, I am inserting into the RECORD a summary of the most recent report issued by Amnesty International about human rights abuses in Nicaragua by the Sandinista Government.

While the report acknowledges some notable improvements—largely due to actions taken to support the reforms leading to elections in February—Amnesty International expresses concern about reports this year of human rights abuses that include summary killings and disappearances.

In one of its key findings, Amnesty International reports that during the cease-fire that was in effect for the past 19 months, until Daniel Ortega announced its cancellation, there was no sign of a decline in non-combat killings and disappearances of civilians blamed on security forces. The report also refers to dozens of unarmed peasants being summarily executed during operations by Sandinista troops against Contra rebels.

This Amnesty International report serves to support the contention that Daniel Ortega's action to cancel the cease-fire is motivated more by fear of opposition to his government than by alleged Contra attacks.

NICARAGUA: THE HUMAN RIGHTS RECORD 1986-89, UPDATE

1. BACKGROUND: THE TELA AGREEMENT

The evolution of the human rights situation in Nicaragua has been decisively influenced by successive negotiations between the presidents of Costa Rica, El Salvador, Guatemala, Honduras and Nicaragua, following their signature on 7 August 1987 of the Esquipulas Dos Agreement, also known as the Central American Peace Agreement. The impact on human rights of these diplomatic efforts to negotiate a solution to the armed conflict in Nicaragua is assessed in Amnesty International's report "Nicaragua: The Human rights Record 1986-1989."

On 7 August 1989 the five signatories of the Central American Peace Agreement met again at the coastal town of Tela, Honduras, where they signed a further agreement establishing mechanisms for the voluntary demobilization of the Nicaraguan opposition forces (the contra), which are based in Honduras. The agreement provides for the creation within 30 days of an International Commission of Support and Verification ("Comisión Internacional de Apoly y Verificación"), CIAV, under the joint auspices of the United Nations (UN) and the Organization of American States (OAS). The CIAV is given wide powers of supervision over the dismantling of the contra bases in Honduras, and over procedures for the repatriation of the contra combatants and their families to Nicaragua, or their relocation to third countries. It is expected to ensure "that the necessary conditions exist and are maintained to permit the full incorporation of repatriated people into civilian life", and its brief includes the setting up of offices to verify that the Nicaraguan Government complies with the guarantees offered under the agreement. The Tela agreement envisages that the demobilization process should be completed within 90 days of the formation of the CIAV. The CIAV would also play an important role in promoting the plan through direct contacts with the Nicaraguan Resistance (NR), the major contra force, and by seeking the assistance of relevant international organizations.

On 25 August the Secretaries General of the UN and the OAS officially announced their decision to form the CIAV in accordance with the agreement. However, press reports on the initial reaction of NR leaders to the plan indicated that they did not intend to order the disbandment of their forces at least until after the elections in Nicaragua scheduled for 25 February 1990, and that many of their number wished to continue fighting.

Four days prior to the Tela agreement, the Nicaraguan Government reached a broad agreement with representatives of 22 opposition parties. The latter agreed to support the plan for the voluntary demobilization of the opposition forces in return for a wide range of reforms on electoral procedures and civil liberties. Those with a direct bearing on human rights included a commitment to a "broad and unconditional amnesty" for political prisoners on completion of the demobilization process; the immediate release of prisoners certified to be in poor health; and consideration of the release of members of the political parties proven to be detained for their political activities, on the submission of lists by the political parties. The government also agreed to introduce legislation immediately to repeal the Public Order Law (Decree 1074) and to amend the Law on the Jurisdictional Functions of the Sandinista Police, rescinding those sections which assign judicial functions to police officials.

2. REPEAL OF THE PUBLIC ORDER LAW

Amnesty International was informed by the government during the first week of September that President Ortega had presented a bill to the National Assembly to repeal the Public Order Law (Law for the Maintenance of Public Order and Security, Decree 1074 of 6 June 1982). The bill was under consideration by a special parliamentary committee and was expected to be voted on in the next session of the Assembly.

Amnesty International welcomes this measure, as repeal would remove from the statute book the special penal provisions under which the great majority of political prisoners were charged and sentenced under the state of emergency, and which remained in force after the state of emergency was lifted in January 1988. Amnesty International was concerned that the summary procedures followed in trials under the Public Order Law significantly curtailed rights of defence (See "Nicaragua: the Human Rights Record 1986-1989," Chapter 4, published by Amnesty International simultaneously with this document). In addition, although most of those charged and sentenced under the Public Order Law were accused of collaborating with or supporting armed opposition groups (the contra), a large number of these prisoners are peasant farmers living in war zones who appear to have done little more than provide food or shelter to passing contra patrols, and have denied in court having any active involvement with them. Amnesty International was also concerned that some of the articles of the Public Order Law, particularly those relating to conspiracy and the dissemination of anti-government manifestos and propaganda, are loosely defined and provided a basis for the prosecution of government critics who had neither used nor advocated violence. Public Order Law prisoners have included members of opposition parties and their affiliated trade unions, some of whom Amnesty International believed to be prisoners of conscience.

3. AMENDMENT OF LEGISLATION ASSIGNING JUDICIAL FUNCTIONS TO THE POLICE

The government has also introduced a bill to the National Assembly to amend the Law of Jurisdictional Functions of the Sandinista Police (Decree 559 of 28 October 1980). Although Amnesty International has not seen the draft legislation, the agreement with the political parties was to rescind those sections of the law which assign police magistrates powers of adjudication and sentencing for certain minor offences. Under the law as it presently stands, police magistrates, who are Ministry of the Interior appointees and are not required to have legal training, may impose sentences of up to six months' imprisonment for certain offences defined under the Police Regulations and Laws. Such "police courts" have generally been used to provide a swift administrative procedure for dealing with misdemeanour and petty criminal offences. Although defendants may consult a lawyer, lawyers are not permitted to "obstruct the investigations" and, in practice, legal defence is non-existent. There is no judicial hearing or right of judicial review. In previous years, summary imprisonment by police magistrates was repeatedly used to curb opposition protest activity; in 1988 more than 20 opposition activists were imprisoned by police magistrates for up to six months without a trial or right of legal appeal. In its report "Nicaragua: The Human Rights Record 1986-1989" (Chapter 4.4), Amnesty International pointed out that the police court system failed to satisfy criteria for a fair and impartial trial, and in its recommendations urged that the government ensure that all prisoners were tried, with appropriate safeguards, by a properly constituted, independent judicial body.

The current time periods permitted for police investigation before detainees are brought before a judge are also laid down in the Law of Jurisdictional Functions of the Sandinista Police. As the law stands, al-

though the Nicaraguan Constitution states that detainees must be brought before a "competent authority" within 72 hours, the police are currently allowed to detain suspects for 24 hours, after which they must release them, unless a formal investigation is ordered by a police magistrate. If an investigation is ordered, the police have a further six days to investigate before, alternatively, passing sentence, releasing the suspect, or referring the case to the public prosecutor. Under the Penal Procedure Reform Law of 13 April 1988, the Public Prosecutor has a further three days to decide whether to bring charges before a court. Under the law as it stands, therefore, detainees may be held for up to 10 days before being brought before a court of law. In its report "Nicaragua: the Human Rights Record 1986-1989" Amnesty International has urged the government to ensure that all detainees are brought before a judicial authority independent of the executive branch within 72 hours of their arrest, and that they should enjoy the right to appoint and consult a lawyer in private as soon as possible after their arrest.

4. PRISONER RELEASES

On 15 August 1989, during an outdoor rally in Pantasma, Junotega, President Ortega announced that approximately 1,200 peasants, imprisoned for being "directly or indirectly linked with counter-revolutionary activities" and tried under the Public Security Law, would be released on 3 September upon the submission of a list of such prisoners by the Union Nacional de Agricultors y Ganaderos (UNAG), the National Union of Farmers and Cattlemen.

Twenty-nine prisoners, reported to be serving up to three-year sentences, were released at the Pantasma rally; a further 179 prisoners were reported released on 24 August. By the end of September, although no news had been received of the block release announced by President Ortega, Amnesty International had received reports of the release of 239 prisoners since the signing of the Tela agreement. It was informed by the government that the Commission of Peace and Human Rights of the National Assembly was currently considering a proposal for the release of prisoners aged 60 or over and those in poor health, as well as a proposal submitted by the National Commission for the Promotion and Protection of Human Rights [CNPPDH], the government-sponsored human rights commission, for the release of the 14 remaining women prisoners detained under the Public Security Law. In addition the political parties had been asked to submit lists of their members or sympathizers in prison so that their early release might be considered.

Amnesty International is concerned that the structure and procedures of the special tribunals known as Popular Anti-Somozist Tribunals [TPAs], which tried the majority of Public Order Law prisoners, were inconsistent with international standards of fairness and impartiality. Although the courts were abolished in January 1988, when the government lifted the state of emergency, the ordinary courts which assumed jurisdiction in Public Order Law cases coninued to follow the special summary procedures which regulated TPA trials. Amnesty International believed these procedures allowed insufficient time for the full preparation of a defence, and was also concerned that in many cases, evidence was based on out-of-court "confessions" obtained, often allegedly under duress, while the defendants were being held incummunicado without access to a lawyer. Although Amnesty International has not established that any of the prisoners currently held are prisoners of conscience, it has investigated several cases in which there appeared to be little evidence that those accused had been actively involved with the opposition forces. In its report "Nicaragua: the Human Rights Record 1986-1989" Amnesty International urges the government to give all Public Order Law prisoners the opportunity of a review hearing by an independent judicial body, and to release all those who have neither used nor advocated violence.

News of the planned releases led to the reemergence of a long standing public disagreement between the government and opposition groups over the numbers of political prisoners still in detention. The Permanent Commission of Human Rights [CPDH], the non-governmental human rights commission, maintained that the government was in fact holding approximately 6,000 contra prisoners. In a news conference on 22 August, Tomas Borge, the Minister of the Interior, categorically denied this allegation, stating that there were 1,400 contra prisoners sentenced or awaiting trial in the prison system, and 15 currently held in General Directorate of State Security [DGSE] detention centres. The Minister invited international human rights organizations, including Amnesty International and Americas Watch, to visit all the country's prisons, including DGSE detention centres, to verify these figures.

In replying to this invitation, which was extended officially to Amnesty International on 24 August, the organization again welcomed the Nicaraguan Government's openness to international human rights organizations, but declined the invitation in view of its customary policy not to undertake systematic prison inspections or censuses of prisoners. It urged the Nicaraguan Government, however, to provide full and regular access to all detention facilities in the country to the International Committee of the Red Cross (ICRC), which is able to undertake such visits on a regular basis. On 31 August the government released new figures which it said were based on a census of prisons (not included DGSE detention centres) conducted by the ICRC during the last week of August. According to these figures, there were 1,306 remaining political prisoners, of whom 1,268 were contras, and 38 ex-members of the Somoza National Guard. The largest number were held in the Carcel Modelo, Tipitapa (800), and Juigalpa prison (279).

Amnesty International has seen no evidence on which to assert that there are a significantly higher number of political prisoners being held than the number acknowledged by the government. These numbers are in approximate accordance with the numbers in the prison system given to Amnesty International by the government on earlier occasions, and earlier figures attributed by the government to the ICRC which the government has made public. Although no organization has enjoyed regular access to government detention centres, there has been no evidence that thousands of prisoners are currently being held in unacknowledged detention in such detention centres or in other secret places of detention. Furthermore, to Amnesty International's knowledge, no independent human rights organization has been able to compile a reasonably accurate register of prisoners on the basis of updated information on arrests and releases.

5. KILLINGS AND "DISAPPEARANCES" IN WAR ZONES

At the end of August the Nicaraguan Government made available to Amnesty International the text of an official commentary on reports issued in 1988 and 1989 by Americas Watch, a non-governmental human rights organization, on alleged summary executions in Nicaragua's war zones. In a newsletter published in April 1989, Americas Watch referred to "detailed evidence suggesting a pattern of summary executions committed by government forces against suspected contra collaborators. . . . recent investigation by Americas Watch has found such executions to have continued".

The government's reply to Americas Watch closely reflects the oral comments made to Amnesty International by government representatives and human rights officials during its March 1989 mission, when Amnesty International expressed concern about reports of killings in war zones. The following is the text of part of the government statement:

"The government of Nicaragua does not deny that isolated violations of human rights have occurred, but this is neither an explicit nor a tacit policy of the government, which does not promote nor tolerate such violations. On the contrary, every allegation of a violation must be made known to and investigated by the relevant institutions in order to clarify the events and bring to justice those responsible. If the allegation is proved, a series of formal and informal channels exist in the country for registering complaints . . . these include the army's own complaints offices, and those of the Ministry of the Interior, the Presidency, the offices of the Regional Delegates of the government and of the Military Auditor. All of these offices are open to the public to present denunciations and to carry out the investigations merited in the case so that those responsible, if there are any, may be punished. There is also the National Commission for the Promotion and Protection of Human Rights, which is the government body with specialized competence in human rights and humanitarian affairs. In practice it can be seen that the absolute respect for the right of life which is the basic principle of the revolution is observed, as can be seen by the fact that Nicaragua is one of the very few countries in the whole continent which has a certain number of members of its armed forces serving prison sentences for infringing the law".

On the basis of information presently available, it is possible to give the following break-down of government responses to cases presented by Amnesty International to the Nicaraguan Government in its communications of June and November 1987, July 1988 and March 1989. These involve a total of 56 alleged victims of out-of-combat killings and "disappearance". Information has been received on trials and convictions in three cases of unlawful killing, which involved 10 out of the 56 victims. After being tried by military courts, a total of 17 military and police personnel were sentenced to prison terms ranging from six years to the maximum 30-year term on charges of homicide or "atrocious murder" (*assesinato atroz*).

In three other cases, however, the victims were determined by the official investigation to have been killed in cross-fire or during firefights in circumstances which were held to exonerate soldiers of criminal responsibility. Records of the military court

verdicts in these cases were made available to Amnesty International. In each case the version of the incident given by the military investigators as a result of their inquiries differs significantly from that reported originally to Amnesty International. The incompleteness of information regarding the evidence on which the military investigators based their findings, and the frequently long intervals before inquiries were initiated, makes it difficult to assess these investigations. However, in one case, that of Nemesio Obando González, who was shot dead by army troops on 11 March 1987 after running from a house in which contras were allegedly hiding, investigators appeared to concentrate on whether or not the troops were justified or not in opening fire on him. The court decision does not make clear whether the investigators examined evidence in the original denunciation that the fatal shot was fired while he lay wounded and defenceless on the ground.

In two cases dating from 1985 which involved a total of 20 individuals, investigations were suspended for lack of information, on the grounds that the areas where the incidents are alleged to have occurred had been evacuated and were now uninhabited, making it impossible to trace witnesses; one "disappearance" case (that of Pablo Manzanares Mairena, discussed above) was said to have been resolved with the reported reappearance of the person affected; in one case involving the reported killing in January 1988 of two brothers, Silvino de Jesús Escobar López and Lorenzo Escobar López, the alleged victims were said to be alive by relatives who testified to the court. Amnesty International continues to investigate this case, which it presented to the government on the basis of an oral testimony from the mother of the victims. One of the relatives said to have been interviewed by the military investigator was described as the "mother" of the victims, but had a quite different name. As of September 1989, Amnesty International is still awaiting the results of investigations into 12 alleged killings in 1987 (the Ubú, Zelaya cases), and three in 1988, which the government has informed it are still in progress. It has received no conclusive information on the results of investigations into the five cases of people who "disappeared" in 1987 and 1988 which Amnesty International submitted to the government in March 1989 and documented in "Nicaragua: the Human Rights Record: 1986-1989."

Amnesty International has continued to receive reports of cases of apparent summary execution of non-combatants in war zones during 1989 from both domestic and international human rights organizations. While it has not had an opportunity to verify these on the basis of independently conducted interviews with relatives or neighbors in Nicaragua, it has noted that several cases have been documented independently by more than one source. Amnesty International has also received information from non-governmental sources that some of those responsible for these abuses have been tried and sentenced to prison, but in past cases, by no means all have been investigated to date.

Amnesty International acknowledges and welcomes the efforts made by the CNPPDH and the relevant government offices during the current year to undertake serious investigations in the light of the concerns expressed by Amnesty International, Americas Watch and other organizations. It recognizes that there may be considerable logistical, economic and political obstacles to carrying out such investigations expeditiously and effectively. Nevertheless, the organization believes it to be of paramount importance to the promotion of human rights that the government redouble its efforts to guarantee the physical security of the residents of war zones. Human rights violations are often attributed to certain local commanders and officials who apparently enjoy considerable operational autonomy; this situation may have led to the commission of acts incompatible with the human rights principles publicly espoused by the government. Amnesty International urges the government to intensify the steps it has already taken to rectify this situation in the coming months, to ensure that such investigations are conducted promptly and thoroughly, with proper guarantees of independence and impartiality, and that their results are made public, along with the evidence on which the findings are based. The government should also seek to reinforce human rights instructions to troops and security personnel in war zones, stressing that violations are impermissable and subject to severe penalties. To assist investigations and to ensure that justice is seen to be done, post-mortem investigations should be routinely conducted. Unless relatives declare this to be against their wishes, exhumations should be carried out when the cause or circumstances of death remains in doubt.

THE ISRAELI STRATEGY FOR PEACE

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. LANTOS. Mr. Speaker, in the realm of the diplomatic machinations that make up the Middle East peace process, it is imperative that our well-intentioned impatience for tangible progress not blind us to the complexities of the situation.

We are a nation geared toward "quick fix" solutions, but unfortunately there are no quick and easy answers to the current difficulties in the Middle East. Each step may be painstakingly slow, each movement necessarily cautious. The peace process, however, is far from stymied.

An Israeli initiative, backed by the United States and calling for elections in the territories, remains under consideration. Israel has expressed a willingness to talk with any Palestinian so long as they reside in the West Bank. The current pace reflects the political reality of years of rivalry, which has been prolonged by Arab belligerence and PLO terrorism.

With this in mind, Mr. Speaker, it is important that we repress any inclination to lay blame at Israel's doorstep. In actuality, Israel is only asking for the same guarantees that our Nation would insist upon were we facing similar circumstances. And when all things are considered, these guarantees may pave the way for eventual success in peace negotiations, should there be a willing and able Arab partner.

Mr. Speaker, I would like to place in the RECORD an excellent article by syndicated columnist Charles Krauthammer, which appeared in the Washington Post last week. It reminds us that Israeli attention to details, which may seem trivial to some, is driven by the need for national security and survival.

[From the Washington Post, Nov. 3, 1989]

WHY ISRAEL INSISTS ON ITS STRATEGY—PEACE IS MORE ATTRACTIVE TO PALESTINIANS INSIDE THE TERRITORIES THAN TO THE PLO IN TUNIS

(By Charles Krauthammer)

The Middle East peace process appears to have gotten so bogged down in arcana that only diplomats and specialists can follow its twists and turns. The public has lost interest. But the occasional reports and leaks that penetrate the public perplexity leave one clear impression: that behind the obfuscation, it is Prime Minister Yitzhak Shamir's niggling insistence on procedural details that is keeping us from the dawn of Middle East peace—and keeping this administration from a diplomatic triumph, the first ever Israeli-Palestinian talks.

The impression is false. Shamir has made a large issue of two points. But they are about as procedural as Churchill's refusal to negotiate with Hitler.

Point 1. Israel has proposed a peace initiative: free elections in the occupied territories to produce Palestinian negotiators to work out some interim peace ("autonomy") that would end the Israeli military occupation. After three years of living together this way, after having had time to reassess each other's worst assumptions about the other's ultimate intentions, then and only then do negotiations start on a final peace, because only then can they have any chance of success.

Elections, negotiation, interim solution, final status. Everybody but the PLO has accepted this idea in principle. Nevertheless, an Egyptian 10-point plan pointedly puts the ultimate "final status" issue—Israel's giving up the West Bank—on the table before the first words are exchanged or the first ballot cast.

Shamir's "wrangling" is about demands for an ironclad American guarantee that the initial talks will be about elections and not a Pandora's box of unresolvable "final status" questions. Israel does not want to start talks that are destined from day one to fail and for which failure it is sure to be blamed.

Point 2. The question of Palestinian representation. Israel's other wrangle is to insist that the Palestinian negotiators who will arrange the elections be insiders (West Bankers) and not outsiders (Palestinians living abroad and representing the PLO establishment in Tunis).

This is not a procedural point, because the only talks that can possibly succeed are talks between Israel and the insiders. It is true, of course, that insiders and outsiders both swear allegiance to PLO. (Those who refuse to have a way of getting shot: 125 of those killed during the intifada are Palestinians killed by other Palestinians). But there is a natural divergence of interests between insiders and outsiders in the Palestinian movement, just as there was a natural divergence between insiders and outsiders in the Algerian war and between insiders (Viet Cong) and outsiders (Hanoi) in South Vietnam.

On every major issue, the insiders' divergent interest is more favorable to peace:

Occupation. It is the insiders, not the outsiders, who suffer daily the dislocations and casualties of the intifada. Their objective is

thus to end the Israeli occupation quickly. For the outsiders, the intifada is a political boon. It puts them on the map. It revives an issue that had been dead for years. They are in no hurry. They can hold out to the last West Banker for their maximal demands.

Elections. The first freely elected Palestinian leadership ever, though nominally pledged to Yasir Arafat, will enjoy a status and legitimacy that will rival that of the aging rejectionists in Tunis. Precisely for that reason the PLO is not happy about elections. It will give West Bankers a potentially rivalrous, potentially more moderate political voice.

Final status. It is conceivable that West Bankers would trade an end to occupation for a Palestinian entity that truly renounces all designs on Israel proper. The outsiders will not. The vast majority of them come not from the West Bank but from Israel proper. Their interest, their program, is to use the West Bank as a staging point for returning to—retaking—what is now Israel.

In sum, the insiders have a more urgent need for the peace now and a more moderate objective for the final peace to come. That is what prompted Israel to propose, and the United States to back, West Bank elections. The whole point of the election idea is to get the peace process moving by exploiting the natural divergence of interests between insiders and outsiders and shifting the center of political gravity from the latter to the former.

Talks with outsiders—representatives of the PLO in Tunis—are guaranteed to fail. But don't you have to negotiate peace with your enemies? The answer to that fatuity is: There are enemies and there are enemies. You negotiate with enemies whose objective is somehow to settle with you. With those who want only to expunge you, there is nothing to negotiate.

Another fatuous argument is that one side does not have a right to interfere in choosing negotiators for the other side. Nonsense. Vietnamese, Cambodians, Angolans, Afghans, Nicaraguans routinely make demands regarding which of their enemies they will or will not sit down with. So did Churchill and Roosevelt. Because everybody understands that who you negotiate with determines whose legitimacy you recognize, whose agenda you are prepared to discuss and ultimately which outcome will prevail.

Israel does not want to negotiate with PLO outsiders because it understands that such negotiations can only be about a single issue: a PLO state. For most Israelis, that is a prescription for national suicide. They are not interested into entering a negotiation whose purpose is to work out the finer modalities of their demise.

That may look like procedure in Washington. In Jersualem, it is life and death.

AMERICAN LEGION DEMANDS CONSTITUTIONAL AMENDMENT TO PROTECT FLAG

HON. GERALD B.H. SOLOMON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. SOLOMON. Mr. Speaker, every Member of this House knows you to be a man of your word. We all know you will live up to your promise to allow a vote on H.J. Res. 350, a constitutional amendment to protect the American flag.

That is why we were all pleased to discover that the American Legion, perhaps the leading veterans organization in America, shares our interest in H.J. Res. 350.

With more than 4 million members, the American Legion certainly speaks with a louder and more representative voice than the so-called veterans who burned American flags in Seattle and the four radicals arrested this week for the same offense on the steps of the Supreme Court.

The American Legion remains convinced, as do many Members of the House and Senate, that a mere statute cannot protect the American flag from desecration. People like Gregory Johnson, villain of the Texas flag-burning case, decided last summer by the Supreme Court, were itching to test the statute, and they wasted no time. They understand clearly what too many Members of this House are determined to ignore, that a Federal statute so similar to the Texas statute is sure to suffer the same fate in the courts. And those who hate this country, like Gregory Johnson, will be free to shove their contempt in the faces of all patriotric Americans.

Mr. Speaker, please listen to the American Legion. These are the Americans who fought for the freedoms listed in the Bill of Rights. As National Commander Miles S. Epling indicated in his letter to you, which all Members also received, these same Americans are not about to ride roughshod over those constitutional freedoms. I am pleased to place this letter in the RECORD, and I await your announcement on the date for a vote on H.J. Res. 350.

THE AMERICAN LEGION,
Washington, DC, October 20, 1989.

Hon. THOMAS S. FOLEY,
Speaker, U.S. House of Representatives, Washington, DC.

DEAR MR. SPEAKER: On behalf of the 4.1 million members of The American Legion, the American Legion Auxiliary and the Sons of The American Legion, I urge you to keep your promise and allow a vote on H.J. Res. 350. Although we were disappointed and saddened as the Senate turned a deaf ear to the American people when it voted against a constitutional amendment to protect the American flag, we hope you will honor your previous assurance that the House will act to vote on a constitutional amendment.

An amendment, through the ratification process, will allow "We, the people" to voice our belief that the flag ought to be protected from those who would burn it as a means of getting attention for what they want to say. We have petitions from every district represented in the House of Representatives urging Congress to pass a constitutional amendment to protect the flag. The names on these petitions are not only veterans, but citizens from every walk of life.

As wartime veterans, we would be the last organization to try to suppress any rights guaranteed by the Constitution, especially the First Amendment. Those are the rights we fought to defend and many of our comrades died to preserve. We are not asking to take away any of these fundmental rights, but rather add just one more, the protection of our flag from physical desecration. We believe that a constitutional amendment is the only sure way to do that.

As always, we appreciate your consideration of our views and urge your support.

Sincerely,

MILES S. EPLING,
National Commander.

THE CASE FOR EMPLOYER SANCTIONS REPEAL

HON. MAJOR R. OWENS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. OWENS of New York. Mr. Speaker, 3 years ago when the Immigration Reform and Control Act of 1986 was passed by the Congress, I was one of many lawmakers and others who opposed its employer sanctions provisions, under which employers face legal penalties for knowingly hiring undocumented immigrants. We believed that most employers would take the line of the least resistance and simply refuse to hire individuals who "looked foreign", had "foreign" accents, or "foreign-sounding" last names. Now, 3 years after the measure's enactment, there is data that confirms those misgivings. Hundreds of people, particularly in New York City with its large populations of Puerto Ricans—who are, after all, United States citizens—have been refused work by timid employers who will not take the time to ascertain if these individuals are citizens or not.

On October 30, I cochaired a hearing in New York City of the House Subcommittee on Employment Opportunities concerning incidents of discrimination and civil rights violations stemming from misapplication of the employer sanctions provision of the Immigration Reform and Control Act. It was the first hearing of its kind. An essential element of the compromise that led to the enactment of the immigration law was that the implementation of employer sanctions would be closely monitored and that they would be repealed if there was evidence that they were causing discrimination. Judging from the overwhelming evidence presented in the testimony of the hearing's witnesses, the repeal of employer sanctions is very much in order.

One of those testifying, Aixa Torres, program director of the National Association for Puerto Rican Civil Rights, said that Puerto Ricans have been hard hit by the employer sanctions provision, due to a reluctance on the part of employers to hire individuals with accents and Spanish surnames.

Ms. Torres said younger people have an especially difficult time getting the necessary documentation because they do not have drivers licenses and a birth certificate is not sufficient. She said that the bill has created undocumented citizens, and what's worse is that banks and other institutions not affected by the law are now requiring the same documentation. The Puerto Rican Commonwealth is even issuing cards for American citizens born on the island that carry a fingerprint, an Orwellian "Big Brother" device that is one of the more odious by-products of the employer sanctions provision.

There have been two reports issued in the last 3 years which indicate a rise in hiring dis-

crimination against working people who appear "foreign" following the passage of the Immigration Reform and Control Act. A report by the New York State Inter-Agency Task Force on Immigration Affairs released last November concluded that a large percentage of the employers surveyed knew they could be fined but did not know what they should be doing to avoid the fines—a problem that could, and has, led to wrongful denial of employment.

The report found that a vast majority of employers will not hire until they receive the appropriate documents, which results in applicants either not being considered: Being denied employment for some waiting period, then hired; or being denied employment after some period of waiting. Large numbers of people have been denied work because they cannot get the appropriate documents quickly enough, according to the report; and a large number of people are subjected to selectively stringent screening practices.

The preliminary findings of a General Accounting Office review also issued last November—the second of three annual reports mandated by the Congress on the effects of the immigration law—found that of the 3.3 million employers surveyed who were aware of the law—22 percent were not aware it had passed—about 527,000, or 16 percent, had begun or increased employment practices not permitted under the law, such as adopting a policy of hiring only U.S. citizens. The 16 percent who admit to discrimination indicates a much wider pattern by those unwilling to admit to such discriminatory practices.

The employer sanctions provision has opened the way to numerous kinds of immigrant worker exploitation. For instance, an employer who finds someone who is undocumented can pay this worker $1 an hour instead of $3 an hour or more, and not turn the worker in. People are being forced into sweatshops rather than being forced to return to their countries of origin, as the law intended.

As of last month, 707 employment discrimination complaints had been received around the country by the Office of Special Counsel in the U.S. Justice Department, which probes employment discrimination charges under the Immigration Reform and Control Act. Of the total, 253 were in California and 62 in New York, according to special counsel Andrew Strojny, as quoted in the October 30 edition of New York Newsday. Settlements have thus far resulted in job reinstatement, job offers, and more than $180,000 in back pay for injured parties, according to Strojny.

The employer sanctions provision hurts those who are legally permitted to work, even temporary residents who obtained work authorization under the act, who have nonetheless been denied employment.

The employer sanctions provision has abridged some basic freedoms available to all working people in the United States, whether they are people of color born in the U.S., naturalized citizens, or temporary residents. It is simply not working, and must be repealed immediately. A more humane way must be found to regulate the influx of undocumented immigrants and protect the jobs of U.S. citizens, naturalized citizens, and those applying for citizenship, without penalizing immigrants and others who have a right to employment.

A SALUTE TO THE BALTIMORE JEWISH COUNCIL

HON. HELEN DELICH BENTLEY

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mrs. BENTLEY. Mr. Speaker, it is my great honor and privilege to salute the Baltimore Jewish Council on the occasion of the 50th anniversary of its foundation.

Over the years the Council has been a powerful and visible force in Baltimore, its membership consisting of some of the city's most important religious and social organizations. Groups like Har Sinai Congregation, the Jewish Labor Committee, and Jewish War Veterans—just to name a few—decided long ago to come together and create a forum responsive to issues affecting the entire Jewish community.

Mr. Speaker, the Baltimore Jewish Council is a wonderful example of a large and often diverse ethnic group coming together and working as one. In fact I had the chance to visit with its members recently when I attended its 50th anniversary celebration at the Baltimore Grand. Teddy Kollek, Mayor of Jerusalem, was the keynote speaker, and his words were indeed wise and inspiring.

I urge you, Mr. Speaker, and all of my colleagues in joining me in congratulating the Baltimore Jewish Council during this happy anniversary. May it thrive for another 50 years.

UNREALISTIC CLEAN AIR LEGISLATION

HON. RON MARLENEE

OF MONTANA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. MARLENEE. Mr. Speaker, I rise today to fire some warning shots as Congress deliberates over various provisions of proposed clean air legislation.

We all want clean air. Does anybody like dirty air? But I smell something in the air. It's the odeous smell of half-baked, over-zealous regulation—of inflexible, unrealistic environmental law.

And in the euphoria of some Members of Congress to respond to the President's bugle call for clean air legislation, let's look at Congress' track record when it comes to environmental law. If we don't, as the old tried-but-true axiom puts it, "we're condemned to repeat it."

Here's a few of the blunders Congress has made in the past when it comes to environmental law, and I urge my colleagues to take a good, hard look:

Congress passed a law calling for stringent controls on landfills and now we've got rural communities on the brink of closing their landfills because they can't afford to comply. Can we really expect residents of these communities to drive hundreds of miles to dispose of their trash?

Congress, acting amidst hysteria over inconclusive asbestos studies, passed a law ordering the removal of asbestos from all public buildings. Schools and local governments—many of them with bare-boned budgets that have them scraping for dollars just to buy the next adding machine—are forced to come up with elaborate asbestos-removal plans. Yet conclusive tests now show that it's actually more dangerous to remove the stuff than to monkey with it.

Congress passed an iron-fisted law to halt the supposedly impending environmental dangers of leaking underground fuel storage tanks.

Thanks to this law, thousands of gas stations will soon be forced to close their doors. What's more, the demise of these stations is very likely to force rural Americans to install their own storage tanks, creating an even greater threat to the environment than if we'd passed a law that considered the realities of rural America.

Congress passed a law calling for stringent toxicity tests of sewage sludge and severely restricting application of sludge on fields after the EPA had spent years trying to encourage this method of waste recycling.

Again, rural America suffers, and so does the environment. Thousands of septage cleaning businesses will be eaten alive by these expensive test rules. And rural sewage treatment operations are pushed closer to shutting down.

If that happens, has Congress really helped the environment?

Let's not travel down the same road when it comes to passing clean-air law. The last time Congress tried doing something about clean air was in 1977—with a law that required scrubbers on utility smokestacks. The result: budding clean coal technologies that would have done a much better job of cleaning up the air were shelved in the rush to acquire the required scrubbers.

In addition, Congress must stop confusing Los Angeles with cities like Billings, MT. The intensity of response that's needed in Los Angeles, isn't the same for Billings, MT, or, for that matter, any other city in Montana.

Finally, where is the sense in penalizing coal-fired plants for having already achieved significant emissions improvements? That's what will happen if we don't make major changes in the clean air bills now before Congress. Montana's clean-air plants have sterling records on the clean air front, but some of the legislation under consideration essentially says, "You jumped the gun. You should have waited until Congress passed a new clean air law before trying to reduce your emissions. Since you didn't wait, we'll raise your costs." But who really pays?

Consumers, of course. American consumers are already spending $33 billion a year on clean air. And the air is getting purer. The number of cars on the road since the Clean Air Act was passed in 1970 has increased by 55 percent and utility and industrial output has also substantially increased. However, as President Bush himself noted, "lead concentrations in the air we breathe are down 98 percent, sulfur dioxide and carbon monoxide have been cut by over a third, particulate

matter cut by 21 percent. Even ozone-causing emissions have been cut by 17 percent."

In summary, efforts to produce this legislation must not—cannot—be made at the expense of fairness, common sense and economic realities. If we don't—if Congress chooses to rush wildly down the same old track—then the ghosts of history will again return to haunt us.

WALL STREET JOURNAL CRITICIZES YUGOSLAV GOVERNMENT FOR HUMAN RIGHTS ABUSES AGAINST ALBANIANS

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. LANTOS. Mr. Speaker, the gross human rights violations by the Yugoslav government against the ethnic Alabanians of the Yugoslav province of Kosovo is one of the great tragedies now taking place. The dramatic events taking place in East Germany and Bulgaria have overshadowed the latest tragic events in southern Yugoslavia, but unfortunately the violence and the bloodshed and repression continue.

This past week reports from Western journalists indicated that six ethnic Albanians died in recent violence in Kosovo, although Albanian sources in the United States have reported that the figure is considerably higher than that number. Last spring scores of Albanians were killed, hundreds injured, and thousands arrested in clashes with Serbian authorities in Kosovo.

The Yugoslav newspaper *Delo,* published in Ljublana, reported last week that a French judge, Antoine Garpon, head of a delegation of the International Federation for Human Rights and two of his associates were told by police that they would be killed unless they left Kosovo.

Mr. Speaker, we in the Congress must speak out forcefully against these denials of human rights. It is incumbent upon us to call the attention of the American people to these abuses. We must demand that the Yugoslav government put an end to the violence and terror against a portion of its citizens.

Last week, Mr. Speaker, the European Edition of the Wall Street Journal published an excellent editorial dealing with the situation in Kosovo. I ask that it be placed in the RECORD for the benefit of my colleagues.

DARKNESS IN KOSOVO

[From the European Edition of the Wall Street Journal, Nov. 9, 1989]

The show trial, one of the most sinister manifestations of Stalinism, is apparently making a comeback in Yugoslavia. The former Communist Party chief of Kosovo, Azem Vlasi, along with 14 other ethnic Albanians are being tried on charges that harken back to the 1950's: "counter-revolutionary undermining of the social order." More specifically, the 15 are accused of having committed acts aimed at "smashing brotherhood and unity, destroying the equality of nations and nationalities, and undermining the economic basis of the country."

To the extent that there is—or can be—any truth in this sort of newspeak masquerading as an indictment, it is that the Albanians may well have been involved in the numerous demonstrations and strikes over the past couple of years in Kosovo. These were organized to protest Serbia's moves to reassert its control over the Kosovo Autonomous Region, whose population is at least 85 percent Albanian. When some of the region's powers were ceded to Serbia last spring, police clashed with demonstrators and 25 perished. The trial has led to a fresh wave of demonstrations and at least three have died in recent days.

The case, in Titova Mitrovica, is not the only trial in Yugoslavia with evidently political motives. In Subotica, in the Vojvodina autonomous Region, Karoly Vicel, an ethnic Hungarian, is being tried a second time for allegedly spreading "hostile propaganda" in complaining about discrimination at the hands of Serbians. Witnesses acknowledged in court that the secret police had made them sign dictated statements, which led to the initial conviction.

Behind all this is a blatant attempt by Serbia, led by a blustery demagogue named Slobodian Milosevic, to reconciliate Yugoslavia—under Serbian rule. The country's slide toward disintegration began after the death of Tito (Croat-Slovenian roots) in 1980. The more prosperous western republics of Croatia and Slovenia have been increasingly looking toward Western Europe for economic and cultural contact; Slovenia this September even amended its constitution to give itself the right to secede. Croats and Slovenes feel little kinship with the peoples of the other republics, Macedonia, Montenegro and Bosnia-Hercegovina. But they all distrust the expansionism of Serbs—the largest part, 22 percent, of Yugoslavia's population.

It bears keeping in mind that Yugoslavia escaped from the Soviet orbit four decades ago though, in the interest of keeping the Southslav concoction in one pot, wasted the opportunity to dismantle one party rule. Its experimentation with various half-baked socialist models like worker self-management has led to massive corruption, 1,500 percent inflation rates and effective bankruptcy for the state. Although the unofficial economy has made individuals relatively prosperous in the western regions, much of Yugoslavia's population lives hand-to-mouth. Recent demands by the International Monetary Fund for Belgrade to cover its internal deficits, to unify its welfare program, to normalize interest and exchange rates, and to establish securities and stock exchanges seem but cruel jokes.

The Kosovo and Vojvodina trials give a more ominous signal of Yugoslavia's direction. They indicate that while Poland, Hungary, the Soviet Union and even East Germany are beginning to see the light, Yugoslavia is rapidly sliding toward darkness.

ADVANCING THE CAUSE OF DEMOCRACY IN NICARAGUA

HON. JOHN J. LaFALCE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. LaFALCE. Mr. Speaker, I am pleased to share with my colleagues an article in the November 8 edition of the Washington Post, "Keep Watch on Our Elections," by Violeta Chamorro, the Nicaraguan opposition parties' candidate for president. Mrs. Chamorro raises a key failing of U.S. foreign policy in Central America and offers constructive suggestions on how we can advance the cause of democracy in Nicaragua in the months to come.

For nearly a decade, United States foreign policy in Nicaragua saw only the right and the left, the Contras and the Sandinistas; a view which only encouraged the polarization of Nicaraguan society. Unfortunately, this narrow perception of Nicaraguan politics served only to detract from the legitimate, nonviolent democratic opposition, much of which had participated in the revolution of 1979. Aiding the Contras, at the expense of the Nicaraguan center, also discredited our policy in the eyes of our hemispheric neighbors and the international community as a whole. Worse, it allowed Daniel Ortega to manipulate Nicaraguan nationalism diverting blame away from the Sandinista front and toward the United States.

In the past year, however, much has changed following the Central American Peace Accords of the region's five presidents and the ongoing agreement between the Congress and President Bush. It appears that U.S. policy in the region has, in fact, been favorably reoriented toward greater coordination with our allies, active diplomacy to apply international pressure, and strong support for pluralism and the nonviolent opposition. These agreements offer great hope and practical steps to resolve the question of the Contras and hold accountable the repressive regime of Daniel Ortega.

Within the frame work of these agreements, the internal opposition in Nicaragua, composed of business, labor, religion, the press and political parties has arduously committed itself to the task of unseating, nonviolently, the regime which most of its members had fought to bring into power.

Free and fair elections offer great hope for an UNO victory, a victory which would begin a much-needed healing process and a working coalition to begin a common program for national reconciliation.

We have an opportunity, indeed an obligation, to offer constructive and effective assistance in the peace process, as well as to monitor and ensure the integrity of the February elections. On November 7, the United States joined the other members of the U.N. Security Council in voting to create a U.N. peacekeeping force charged with halting cross-border incursions in Central America.

Violeta Chamorro, widow of the slain editor of La Prensa, an original member of Nicaragua's first revolutionary junta and UNO's candidate for president, asks the United States to "keep watch on our elections," by sending as many observers as possible. I hope we will heed Mrs. Chamorro's call and lend to the Nicaraguan people a witness for democracy.

[From the Washington Post, Nov. 8, 1989]

KEEP WATCH ON OUR ELECTIONS

(By Violeta Chamorro)

From Manila to Mexico, from Budapest to Berlin to Beijing, a great gale of democracy is blowing. But not on the Nicaraguans. What a cruel blast we've received from fate!

In 1979 we were all part of "the beautiful revolution": a great coalition that was to rid us of tyranny forever, of corrupt officials, of bullying soldiers and police, of grinding poverty, of foreign tutelage, of one-party, one-family rule. Then we were the vanguard of the democratic revolution. Now we bring up the rear.

For one brief moment in July of 1979 our people rose in joy to greet our brave muchachos returning victorious to Managua: Davids who had vanquished Goliath. How could we imagine that soon we would behold them behind armored personnel carriers and helicopter gunships. Soon enough the heroes of the revolution were slaughtering one another. Soon enough the workers who struck against autocrarcy could no longer strike or organize; the political parties that had united against the dictator could not assemble; the newspaper that had spread the word of freedom could not publish; the church that had preached liberation from the pulpit was bound and gagged.

How sad that Nicaraguans, instead of enjoying the blessings of equality and prosperity for which they risked their lives, now flee their homeland in the hundreds of thousands. How sad that the government of which I once formed a part has become as corrupt as its predecessor, as cruel, as hated.

But we've had our fill of hatred and of opinionated warriors who promise paradise and deliver inferno. Ten years of living dangerously has brought civil war, an exodus of a fifth of our countrymen, an annual inflation of 30,000 percent, 40 percent unemployment and, for the first time in our history, mass hunger. Our industry and agriculture are paralyzed. We have gone from being the bread basket of Central America to being its basket case: an international beggar with the largest per-capita foreign debt in Latin America. Even a government-commissioned survey has found consumption to have fallen by 70 percent since the revolution. Of course the Sandinista media shout that all this is due to Mr. Reagan and now to Mr. Bush. But we Nicaraguans know full well that the shortages and the repression came before the war and the embargo.

Tired of war and warriors, of dogmas and slogans, we'd like to put our feet on the ground, our house in order. We want to be boring for a while—more like our neighbor to the south, Costa Rica—a country at peace with its neighbors where no family or party is above the law, with an army reduced to a minimum (and without any "State Security" forces at all), with no political party controlling the media, the military and the police, and with all parties allowed to compete freely at the ballot box. We do not look back: what has been positive in the revolution, we'd keep and extend. For example we would give peasants who farm nationalized lands clear title to them, and would distribute all remaining state farms to those peasants who have no land. We would like to find common ground.

We in the opposition have been able to find common ground among ourselves. Today I am proud to say that the opposition coalition includes every group that united against Somoza in 1979, except the Sandinistas, who many feel betrayed our revolution. The National Opposition Union (UNO) spans 14 parties of every political stripe: Communist, Socialist, Social Democratic, Populist, Liberal, Social Christian, Christian Democratic, Libertarian and Conservative. We are supported by all the independent labor unions, business organizations, and professional groups. Anyone who knows Nicaragua will tell you that forging unity among our diverse groups and tendencies is no small achievement, especially because our organizations have been restricted and repressed. But we have united around a common program for national reconciliation, economic reconstruction and social justice through democratic institutions.

Our common effort found fertile ground. Last month despite intimidation by Sandinista troops and myriad obstruction by government bureaucrats, a record 92 percent of eligible Nicaraguan voters formed long lines to register. As has been reported in The New York Times, the Sandinista military even went so far as to stage a sham battle in an unsuccessful attempt to stop voters from registration. To frighten the people, President Daniel Ortega has called us "traitors" and "mercenaries" and "CIA agents," and has declared that a vote for us is "a vote for the enemy of the people." Pronouncing the Sandinistas "sure winners," he has emphasized that people would "not be so foolish as to vote for a loser"—darkly intimating that after a Sandinista victory opposition voters will be treated as traitors. Our jails are filled already with "enemies of the people."

But the people remain steadfast. Despite the government's monopoly of television (we are allowed only 15 minutes per week on a feeble channel that cannot reach many areas), despite indiscriminate Sandinista use of state transport, telephones, offices, meeting places, telegraph and copiers, despite the fact that 50 percent of our desperately needed and profoundly appreciated donations are appropriated by the Sandinista-dominated electoral commission, the people are giving us their support. Just last week an independent survey showed us winning by a margin of nearly 2 to 1. Even though the Sandinistas have unleashed their mobs to disrupt our meetings, these meetings grow larger and larger. Recently even the Sandinista mayor of Managua acknowledged that his party is losing.

Accordingly the Sandinistas have resorted to a new, more desperate and dangerous diversion. Again turning their backs on their solemn commitment to their people and to the Central American presidents, they have broken the cease-fire with the rebels. Their helicopter gunships and automatic artillery have opened fire. Their 90,000-man army sweeps through our villages on the preposterous pretext that tiny groups of poorly equipped contras constitute a "threat to national security." Lacking arguments to defend their misgovernment, the Sandinistas wish to spread fear, to chill the people into submission. This stratagem must raise grave doubts about the supposed Sandinista commitment to free elections.

In view of these alarming developments I have come to this country to ask for help. With the solidarity of all those who support our cause, I believe we may secure a relatively free vote; without it we may be doomed to elections in the style of the Sandinistas' ally Gen. Noriega.

Keep watch. Send observers from Congress, from state and federal government, from political parties, from labor unions, from professional and human rights organizations. Send them now. They will be witnesses for democracy. Send journalists and cameras; let your news and polling organizations conduct independent voter surveys. Help give Nicaraguans the chance to feel again the breezes of democracy.

HONORING HIS EMINENCE ARCHBISHOP IAKOVOS

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. ACKERMAN. Mr. Speaker, I rise today to pay tribute to an outstanding religious world leader, Archbishop Iakovos, on the occasion of his 30th anniversary as the spiritual leader of over 2 million Greek Orthodox faithful in the Americas and as the dean of all religious leaders in the United States. This unique and vibrant leader has, over the past three decades worked diligently to bring greater vitality and unity to the church, initiating reforms and advancing the frontiers of eastern Orthodoxy throughout the world.

On April 1, 1959, his Eminence was made archbishop of the Greek Orthodox Church of North and South America. Since this date, he has presided over many landmark events, both in the field of human and civil rights and in the arena of religious dialog. Soon after his appointment as archbishop, His Eminence visited Pope John XXIII at the Vatican. This historic encounter marked the first time in 350 years that an archbishop of the Greek Orthodox Church was received by the Pope. His relationship with the Vatican blossomed and in 1969 he was the first archbishop of his church to preach in St. Patrick's Cathedral. His activities as an ardent ecumenist extended to the initiation of ongoing dialogues between the Orthodox Church and Judaism, and the establishment of Orthodox dialogues with Roman Catholics, Anglicans, Lutherans, Southern Baptists and Black church leaders.

A tireless champion of human and civil rights, Archbishop Iakovos joined forces with Dr. Martin Luther King at Selma, and lobbied vigorously for passage of the Civil Rights Act.

The archbishop is no stranger to honors in recognition of his outstanding service. During his illustrious career he has received honors from over 35 universities, from nations, and from church and world leaders. He is the recipient of our Nation's highest civilian award, the Presidential Medal of Freedom, presented by President Jimmy Carter in 1980. On October 27, 1986 he was accorded the Ellis Island Medal of Honor. The United Hellenic American Congress in Chicago is gathering today to recognize the 30th anniversary of this man's extraordinary career of leadership and service to the Greek American community.

The archbishop is a shining example of the imprint that one man's efforts can make on the world. I ask my colleagues to join me in this opportunity to wish the archbishop a very happy anniversary and to extend our warmest thanks and appreciation for his devoted efforts as a progressive religious leader who has brought guidance to millions.

TRIBUTE TO DAVID N. DINKINS

HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. RANGEL. Mr. Speaker, I rise in praise of David Norman Dinkins, the son of a barber, faithful husband and father, marine, lawyer, and public servant who today is the mayor-elect of the greatest city on Earth. Yesterday he was elected by the people of New York City to lead them for the next 4 years, and today he is the same warm, humble, and loving person that he has been for all of his 62 years.

Indeed, the occasion is filled with fitting irony in the ascendancy of this most unassuming of men—yet an inspiring leader—to accomplish one of the last remaining feats in New York City politics: the election of an African-American as mayor. I remember some of the days during the campaign when little children, especially the black ones, surrounded him with adoring cheers and laughter, as if they knew—before any of us could honestly say it—that he was the winner. Because of David, we all now know for sure that they too have another set of shoulders to stand on.

I speak so fondly of David not only because he is my friend and neighbor of many years in the Harlem community where we both live. I would extol his virtues even if all I had known of him was his conduct during this long, arduous political campaign. Throughout this often rough-and-tumble matchup, David remained the unflappable gentleman. While some others ranted and raved, he counseled, in that soothing way of his, reason and humanity. It will be a fitting tribute to him to go down in history as New York's great healer.

Already David has stood the test. To the amazement of many citizens of his own racially polarized city and elsewhere, his affable personality and sober leadership enabled the formation of a victorious coalition of African-Americans, Hispanic-Americans, Jews, and a multiplicity of ethnic whites. It was a task never before achieved by a black man in a city fractured more than ever by racial violence, drugs, and fiscal crisis. With an appeal to the majority of what he described as New York's "gorgeous mosaic," he has prevailed.

David Dinkins was born in Trenton, NJ, on July 10, 1927, to William and the late Sally Dinkins, who a year earlier had migrated from Newport News, VA. He attended public schools in Trenton and in New York City, and after serving in the Marine Corps, went on to graduate from Howard University in Washington with a degree in mathematics. In 1953, he graduated from Brooklyn Law School.

A protege of the great J. Raymond Jones, former Manhattan borough president and city councilman, David's political career began in 1965 with his election to the New York State Assembly, where he served one term before his district was redrawn in redistricting. He later served as New York City clerk and, in 1985, was elected to his current position as Manhattan borough president.

David has practiced well the instruction of his mentor, Mr. Jones, who just yesterday said of him, "He learned we had to make it on the issue of being good Democrats and not the fact that we were black."

For the last 26 years, David has lived with his wife, Joyce, in the same three-bedroom apartment in Harlem. They have two grown children, David, Jr., and Donna, and a grandchild, Jamal.

I wish David and his family my heartfelt congratulations, and may God guide him in the wise and successful governance of our great city.

ARTHUR A. BRESSI, FORMER PRISONER OF WAR

HON. G. V. (SONNY) MONTGOMERY

OF MISSISSIPPI

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. MONTGOMERY. Mr. Speaker, I was saddened to learn today of the death of Mr. Arthur A. Bressi, of Tucson, AZ, a totally disabled former prisoner of war during World War II, and a former national commander of the American Defenders of Bataan and Corregidor.

Art was born and raised in Marion, PA, and graduated from Marion High School in 1938. He joined the Army and was shipped to Corregidor, the Philippines, in 1940. He was assigned to the 60th Coast Artillery and, after the attack on Pearl Harbor, was active in the defense of Corregidor until its fall on May 6, 1942. He was a prisoner of the Japanese for 3½ years, until the end of the war. During the final 2 years of his internment by the Japanese he worked in a steel mill in Hirahato, Japan. After the war, Art stayed in the service, working in Army Intelligence until retiring. He later worked for the Department of the Navy and the Commonwealth of Pennsylvania. During the years since his retirement Art performed many hours of voluntary service at the Department of Veterans Affairs medical center in Tucson, AZ, and was constantly active in functions of the American Defenders of Bataan and Corregidor as well as the American Ex-Prisoners of War.

I have known Art for many years as an outspoken leader in the cause for improving benefits for former prisoners of war. He was a man that people listened to and followed. He told it like it was and pulled no punches. You didn't have to agree with Art to know that his heart was always in the right place. He was stricken with a massive coronary and stroke on October 28 while performing one of his favorite activities, emceeing a function for former prisoners of war held in Mukden, Manchuria during World War II. He finally succumbed to these devastating occurrences on Veterans Day, November 11, 1989.

Art leaves behind his beloved wife Anna, a loving daughter, Barbara, and a granddaughter. Both Anna and Barbara exhibit the same spirit and tenacity of their husband and father and I am certain they will continue to be active in matters affecting former POW's and veterans. I am saddened that Art's name will now be added to the list of members of the Defenders of Bataan and Corregidor who have died since the organization's last convention. He usually led the beautiful candle ceremony during which these individuals are remembered.

We shall truly miss Art, but will remember him and honor him by carrying on the cause he lived and died for, to make certain our veterans are afforded the benefits and services they so rightly deserve. Had he not been stricken, Art surely would have participated in numerous activities honoring veterans this past Saturday. It is only fitting that we honor him today.

TRIBUTE TO JOHN T. "JOCK" MENZIES

HON. HELEN DELICH BENTLEY

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mrs. BENTLEY. Mr. Speaker, it is my great honor and privilege to salute Mr. John T. "Jock" Menzies upon being chosen as 1989 Port Leader of the Year by the Baltimore Junior Association of Commerce.

I have been closely associated with the Port of Baltimore and the maritime industry for over 40 years, so I possess a true understanding as to how important the port is to our city's economic well-being. Thus it always gives me great pleasure to honor someone like Jock Menzies—a man whose efforts have been invaluable in helping to guide our port into the next century.

Jock has demonstrated his leadership in a variety of ways. He serves as president of Terminal Corporation—a company which has helped to make Baltimore a major paper product port. He chairs the Private Sector Port Committee—an organization which is developing a common area of dialog among port interests in both the private and public sectors.

Yet it is as an outspoken and effective advocate of the port system that Jock's influence may be at its strongest. For he is a man personally dedicated to helping all interested groups—management, labor, and various levels of government—coordinate their efforts and work for the good of the port.

Mr. Speaker, Jock Menzies is certainly deserving of this award—as well as the thanks and admiration of all of us who are involved with the port.

Congratulation, Jock, and thanks for a job well done.

THE SERVICE OF DOROTHY BUSH

HON. MARY ROSE OAKAR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Ms. OAKAR. Mr. Speaker, one of the finest Democratic women has retired as secretary of the National Democratic Party. She was respected and admired by us all.

When all the list is completed and all the tests are applied, one Alabama-Mississippi-national Democrat will have outshone and outlasted all the rest. Dorothy Bush, secretary of

the Democratic Party from 1944 to 1989, wielded ceremonial gavels at 12 national conventions before the American people. Her clear voice as she called the roll of members leaves a pleasant memory to all who attended and those who followed the conventions on television.

Busy with the day-to-day meetings, spending 13 years in Washington to better perform her duties, Dorothy never shirked a responsibility nor ever failed in her dedication to the people of the Nation by her service to the Democratic Party.

She was the first women to hold a top-level office in either major party. She enjoyed a front-row seat for the unfolding of the spectacle of American politics. On television from 1948 on, she prepared the way for acceptance of women in politics.

Among Dorothy's fond memories as she retires are tributes by the hundreds, among them:

From Democratic National Committee chairman Paul Kirk who called her the Party's "Living Legend";

From committee chairman John White who called her "The Den Mother of the Democratic Party";

From committee chairman Bob Strauss—"The Grand Lady of our Party";

And from Hubert Humphrey who said he wouldn't believe he was actually the party's nominee for President until he saw Dorothy Bush's signature attesting to the fact.

I can only add to those words of praise by pointing out that the Democratic Party of today would not be what it is without the invaluable contribution that Dorothy Bush made; she has been a source of inspiration to us all: Members of Congress, judges, governors, State and local legislators, and precinct captains.

We salute Dorothy Bush for a job well done.

HOUSE CONCURRENT RESOLUTION 214

HON. CHARLES E. BENNETT

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. BENNETT. Mr. Speaker, thank you for this opportunity to rise in support of House Concurrent Resolution 214, in support of regional efforts to end driftnet fishing in the South Pacific.

The economic and environmental damages associated with the widespread use of driftnets in the South Pacific are issues of great national and international importance. Plastic driftnets, also known as ghost driftnets, which are lost or discarded at sea continue to fish and indiscriminately kill fish, seabirds, and marine mammals. Driftnets are also an inefficient and wasteful method of harvesting fisheries resources. As much as 50 percent of the fish ensnared in driftnets die and drop out of the net before it is harvested onboard ship.

I have long been a proponent for legislation aimed at stopping this environmentally destructive practice. In both the 99th and 100th Congress, I introduced the Driftnet Monitoring, Assessment, and Control Act. The provisions of my bill were then incorporated in Public Law 100-220.

The unregulated use of driftnets has devasted the living marine resources of the Pacific Ocean for too long. The continued persistance of a few nations to use driftnets clearly indicates that this problem will not go away by itself. I commend this worthwhile and long overdue legislation and urge my colleagues to join in voting in favor of House Concurrent Resolution 214.

H.R. 3614, DRUG-FREE SCHOOLS AND COMMUNITIES ACT OF 1989

HON. GEORGE MILLER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. MILLER of California. Mr. Speaker, I rise in strong support of H.R. 3614, which amends the Drug-Free Schools and Communities Act of 1986. We, as a nation, are in the midst of a drug war which we can't afford to lose. Targeting our drug prevention and education efforts at our youth, as this bill does, is critical if we are to stop this crisis. I am pleased that this bill contains several new provisions which focus on several populations in critical need of our drug abuse prevention and education efforts.

I particularly want to note the inclusion of H.R. 3576, a bill which provides emergency protective and related services to children whose parents are substance abusers. Repeated testimony to the Select Committee on Children, Youth, and Families suggests that substance abuse is a primary factor in a majority of child abuse cases, including child abuse-related deaths.

This legislation is desperately needed by child protection agencies, which have been overwhelmed by—and often unable to serve—the rapidly growing numbers of children abused and neglected by drug-addicted parents. According to the National Committee for Prevention of Child Abuse, substance abuse is the most dominant characteristic of child protective services [CPS] caseloads in over two-thirds of the States. What this means in human terms is that, far too often, children are left in dangerous homes because appropriate services are just not there.

By supporting this legislation, which authorizes $40 million in fiscal year 1990—and such sums as necessary in subsequent years—we will enable State and local child protection agencies and nonprofit child abuse intervention and mental health organizations to better assist troubled youth and families by supporting the hiring of additional caseworkers, staff training, services, foster care and adoptive family recruitment, and coordination with other providers of appropriate services to abused youth.

Most importantly, by supporting this legislation, we help those hardest hit by drugs: Babies born hooked to alcohol or cocaine; neglected toddlers found in drug raids; 10-year olds forced to peddle drugs for food; children battered or killed by parents high on crack; and the millions of young children at risk of abuse by alcoholic parents.

In addition, I am pleased that this bill contains a provision to serve another needy and underserved population of our youth—those in our juvenile detention and correctional centers. As juvenile arrest rates for drug sales and possession have skyrocketed in the last several years, the numbers of youth incarcerated in these facilities have increased as well.

Many of these facilities face the same problems as those serving adults: They are overcrowded, underfunded, understaffed, unable to meet the service needs of their residents, and in too many instances, under court order to provide better services to youth in them. By requiring the Governors to first provide drug abuse education and prevention to these youth, we are advancing the rehabilitative goal of the juvenile justice system, and addressing a population in dire need of such services. If we hope to keep this youth out of the adult correctional system, we must target our resources on them now.

School systems around the country have reported great success in their drug abuse prevention efforts through the use of trained drug abuse counselors. I am pleased that H.R. 3601, which promotes antidrug counseling, has been included in this bill. Currently, there is a shortage of such counselors at the secondary level, and a severe shortage at the elementary school level.

I would like to highlight several other significant provisions in H.R. 3614. One amends the State plan to require that drug abuse education information and a list of local resources for substance abuse counseling and treatment be made available, so that people will be able to seek services in their communities. Recognizing that it is important to educate children as early as possible about the dangers of drug abuse, a new provision requires that information and materials about drug-abuse prevention and education be made available to parents of children in early childhood education programs. I am also pleased that the definition of "drug abuse education and prevention" has been amended to include information about the dangers of anabolic steroids, a growing problem among both high school and college athletes.

I urge my colleagues to join me in supporting this crucial bill.

THE JAPAN THAT CAN SAY "NO"

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. LEVIN of Michigan. Mr. Speaker, under leave to extend my remarks in the RECORD, I include the following:

THE JAPAN THAT CAN SAY "NO"—THE NEW UNITED STATES-JAPAN RELATIONS CARD

(By Akio Morita and Shintaro Ishihara)

THE NECESSITY FOR PRESENT DAY JAPANESE TO REFORM THEIR CONSCIOUSNESS

(Ishihara)

Japanese People Have Become Top Heavy

Each month, there is the Cabinet meeting for the economic report. I am one of those kinds of guys who gets up early and goes

before the cabinet meeting, which winds up by 9 am, or 8 at the earliest. While rubbing my sleepy eyes, I go over the reports by the Bureau Chief of the Economic Planning Agency and by the Director of the Bank of Japan. Each month, the reports are almost identical. Generally, the Cabinet ministers sleep through it. When I suggested to the Chief Cabinet Secretary that in this age of governmental administrative reform, why not give up these meetings, the response, not entirely unexpected on my part, was that these were absolutely necessary, even if there were some Party executives who did not attend.

Thus, each month, there is repetition of a nearly identical report.

The Bureau Chief of the Economic Planning Agency said this month, just as he did last month, that the magnitude of Japan's surplus in international revenues was tending to shrink. In other words, this means he is saying that it is perfectly alright for business not to be so good. The Cabinet members all nod and underline this in red.

Myself, I thought this was a really strange phenomenon, so I turned to the Minister for Home Affairs, Mr. Kajiyama, who was sitting beside me, and asked what was going on here. Everybody is thinking it's just great that business isn't prospering that much and eagerly red lining that information. Couldn't you say, however, that a country like that won't last long? Words, words—if the meaning of words keeps changing, you can never be really sure what is being said. In other words, aren't our values changing?

If we take Japan's vast trade surpluses as one type of crisis situation, then this points to the necessity of changing Japan's economic and industrial structure. While leaving undetermined for the moment of whether or not the conclusions of the Maekawa Report were valid, it is true that the "comprehensive and vast" industries are tending to recede and the lean and mean knowledge-intensive types are coming into their own. When the term "comprehensive and vast" [jukochodai] is applied to human beings, it is a form of praise, while the opposite, "light and small" would be to berate the same. However, when these terms are applied to the industrial structure, their meaning has come to change.

What matters, however, is whether or not this is good. Should we all be at ease, not that we are not dirtying our hands and sweating in order to make things with our own hands? Certainly know how comes about from one type of mental activity, and coming up with it is work worthy of respect. Looking at history, however, in cases where the whole society of the country was using their brains instead of their hands, not one has lasted to prosper today. In some sense, it may be true that the Japanese people are being forced into a new historical experience, but can we go on now, as we are, thinking we are the chosen people?

When looking at the actions of the Japanese people these days, I recall that these seem similar to ET, the extra-terrestrial, in the Spielberg films. I feel that it may well be the Japanese people will evolve into something like ET with pronounced eyes and noses and a big head making them top-heavy, over an abnormally thin body and slender arms and legs.

Therefore, it was impossible for Japan to get more than a few gold medals as the Seoul Olympics, which many Japanese read as being abnormal. While it may be that this is a sign that a new people has arisen to make contributions in other areas, it seems more natural to me that our descendants would be able to continue to sweat and work to keep the country strong.

Japan's Advanced Technology Is at the Heart of Military Strength

This is something advocated by Mr. Morita, who is a company leader that has driven Japan's advanced technology and who is known for manufacturing excellent products. He pointed out that the INF limitations (the restrictions on intermediate range nuclear forces) were something that the Soviet and American leaders came to each other on. While this was an epoch-making event, it was certainly not done because Americans and Russians had a new sense of the danger of nuclear weapons, they were not acting from the standpoint of human morality.

There may be some people who took the INF negotiations as a sign that both countries were beginning to act from their sense of humanity, but I think the reason why they got together on this is different.

Whether it be mid-range nuclear weapons or inter-continental ballistic missiles, what ensures the accuracy of weapons is none other than compact, high precision computers. As everyone knows, current ICBMs use the MIRV concept where there are multiple warheads. When an attacking missile gets near enough to be detected, the warhead splits into 8 or 9 separate heads. Not all of them contain hydrogen bombs, however, some are dummies designed just to dupe the enemy.

The remaining warheads lose speed, reenter from space, fall, run sideways and follow complicated paths, but in the end, they hit the targets picked for them by spy satellites and destroy them to within 1 second of latitudinal and longitudinal accuracy. For a Soviet ICBM, this would mean hitting the silo containing the retaliatory ICBM in Vandenburg AFB California.

These silos go 50 to 60 meters underground and are strong fortresses having thick walls of reinforced concrete. If a direct hit is not scored upon them, one cannot destroy the hydrogen bombs inside. The equipment will not even be affected as much as it is in an earthquake if a direct hit is not made. Thus, it is absolutely vital that a direct hit is made.

At the present time, Soviet technology allows these missiles to hit within a 60 meter accuracy, while for the U.S., it is 15 meters, and there is concern that this 15 meters has to be brought down to zero. This type of precision calls for a more complex orbit the further the attack proceeds, and only artificial intelligence can ensure accuracy. It may well be that America was the 4th generation leader and that the 1 megabit and several megabit devices which will support the next, the 5th generation, can be developed by American know how. However, to use this know how across diverse applications, including weapons, requires a country with dramatically advanced production management; it is only Japan that can deliver on it.

In sum, if Japanese semiconductors are not used, this accuracy cannot be assured. It has come to the point that no matter how much they continue military expansion, if Japan stopped selling them the chips, there would be nothing more they could do.

If, for example, Japan sold chips to the Soviet Union and stopped selling them to the U.S., this would upset the entire military balance. Some Americans say that if Japan were thinking of doing that, it would be occupied. Certainly, this is an age where things could come to that. The more technology advances, the more the U.S. and the Soviet Union will become dependent upon the initiative of the Japanese people—this is getting crazy now, but the point is clear.

The U.S. Defense Department's Science Commission recently prepared a huge classified report on electronic engineering. Looking at this, one can well understand the sense of crisis that the U.S. has with respect to Japan.

The report states that if Japan is left to go as it is, it will be impossible to get the lead back. This report is very accurate in assessing the areas of weakness in the U.S. and the strengths in Japan, but only the President and a few select people have seen the report. If it were seen by the general public, it would certainly raise quite a commotion. It is in this area where U.S. specialists have their greatest sense of danger, primarily centering on Japan's semiconductor technology.

—We have grown very dependent upon America's technological superiority in military strength. In that technology, electronic equipment is the most effective technology. Semiconductors are the "key" to preserving this superiority in electronic equipment, they are the "heart of the equipment." If competitive, mass production of semiconductors is the key, then this is in turn dependent upon having the market to support mass production.—

This dependence on the market for supporting mass production can be seen in that America did not have the vast and diverse needs for semiconductors, as Japan did in rice cookers and other household appliances. In Japan, these sizable and diverse needs created the market for semiconductor production. The report continues:

—America's Semiconductor Industry for its commercial mass production is losing its superiority minute by minute. There is a strong relationship between superiority in production technology and superiority in semiconductor technology, this is being transferred to foreign countries minute by minute. Very soon now, the defense of America will become dependent upon supply sources abroad. It is the opinion of the task team that this is something which is absolutely unacceptable for the United States—

What is meant in the report by "foreign supply sources" is none other than Japan. Further, they seem to worry about the following:

—What is more problematic is that electronic equipment systems are being transferred abroad, where they could more easily get transferred into the hands of the Soviet Union.—

In other words, their sense of crisis stems from the fact that semiconductor technology is absolutely vital in maintaining military superiority, and that this might flow from Japan to the Soviet Union. I feel that what is behind this abnormal hysteria on the part of this country is that this pivotal military technology is in the hands of another country, not even Europe, but in the hands of an Asian country, Japan.

Toshiba, etc. which was speared by COCOM is the fault of this hysteria by the U.S. If that had been criticism from the pure perspective of law, it would not for a moment have any basis at all.

The 1 megabit semiconductors which are used in the hearts of computers, which carry hundreds of millions of circuits in an area which is one-third the size of your little fingernail, are only made in Japan.

Japan has nearly a 100 percent share of these 1 megabit semiconductors.

The United States has the know how to make them, but when it comes down to actual production, they don't have the technicians; they don't have the employees. Further, they don't have the production management. Because they don't have development and production linked into one unit, they guard know how like a jewel.

America went after cheap labor and set up factories in Southeast Asia, where they could make 256k chips (¼ the capacity of 1 megabit chips), but they could not catch Japan. Now, Japan is at least 5 years ahead of the U.S. in this area and the gap is widening. There are even some kinds of basic research which cannot be accomplished without using one of these advanced computers, It takes excellent computers in order to develop other advanced computers—it is a cycle of technology. In other words, the bigger the gap in advanced computer technology, the more difficult it is to catch up.

The current situation in the world is that those kinds of computers are central to military strength and therefore central to national power. This is why the U.S. is being driven so hard. For example, in performing simulations of what elements would be needed by aircraft flying at mach 2, a regular computer might take 40 years to perform the necessary computations. If the same query is put to a new, advanced computer, however, the answer will come out in a year. Japan has almost the total share of the 1 megabit chips which are at the heart of these computers. In that sense, Japan has become a very important country.

There Is a Need for Japanese To Change Their Consciousness in Light of High Technology

As the world goes smaller, and issues in the world further settle down, whether it be China or Siberia, development will proceed. In order to get the needed access (participation in the market) the most important possibility lies in linear technology. Japan and West Germany are the most advanced countries in this research and development, and the theoretical base of Japanese technology if far superior. West Germany has given up in research on superconducting, but Japan has cleared the three technological obstacles which were envisioned by West Germany.

To make a long story short, the West German magnetic floating train development realized a levitation of only 8 mm, but Japan's "Maglevel" superconducting linear motorcar realized a levitation of 10 centimeters, and speeds of 500 kilometers per hour. This type of technology does not exist anywhere in the Soviet Union or the United States, it only exists in Japan and West Germany. If the giants in the economic field and the politicians can join together around this type of technology, it would open up new possibilities for our advancement. Whether or not this can be achieved depends upon our large and small choices in the future; in sum, it is a question involving the sensibilities of our politicians.

There is a Jiyu Shakai Kenkyu-kai (Free Society Research Association) which is presided over by Mr. Morita. This was formed more than 10 years ago as an association of politicians and businessmen. I am the youngest, but I also participate. We get together for discussions once or twice a year.

Recently, Mr. Kissinger predicted that Japan might become a military superpower. This, however, was not the foolish step of Japan getting ICBMs and refurbishing the old Yamato battleship, it pointed to the danger that no matter how much the U.S. or the Soviet Union developed space, equipped themselves with space platform weapons, the military initiative to control these would be dependent upon Japanese technology. The question now is whether Japan has politicians who accurately understand the history behind what we have now become.

We Japanese now face choices on whether we can boldly proceed or stand back quietly. It may be possible that Japan can secure a new culture for itself based upon the skeleton of the development of high level technology. We must not restrain ourselves to what we have done up to this point. The tax reform was one thing, we must boldly proceed in making a number of reforms. The dregs of the postwar period are too prominent in the consciousness of Japanese. I feel that however hesitatingly, the revolution in our consciousness has already begun.

The Soviet Union implemented a revolution in consciousness with its criticism of Stalinism, and China achieved the Great Cultural Revolution. The United States also realized a type of consciousness reform through its bitter experiences in the Vietnam War. Japan is the only one which has not felt the need for some kind of reform since the end of the war. We do not need a drastic reform of consciousness, but rather a smooth reform based upon the technology that we have developed for ourselves. I think that only by doing this will we realize a society which is mature in the true sense of the word.

THE DECLINE OF AN AMERICA WHICH CAN ONLY SEE 10 MINUTES AHEAD

(Morita)

America Neglects the Significance of Production

The gist of the Ishihara message is the importance of production activities.

I have had frequent occasion to deliver speeches, both in Europe and in the United States, due to the nature of my business activities, and have involved myself in many debates at international conferences. As a result of my conversations with Europeans and Americans, I have become very aware of and concerned about the fact that they appear to have forgotten the importance of production activities.

Americans make money by playing "money games," namely, M&A (mergers and acquisitions), by simply moving money back and forth. If you look at the exchange rate, for example, the dollar is now worth about 120 Japanese yen, and enormous and quick profits are made by just moving money by computer, satellite and even by telephone.

The summer before last, I had the opportunity to talk to a group of three thousand foreign currency dealers, who specialize in buying and selling money, at a conference on the future of money transfers and finance. I have been known to be critical of the floating exchange rate system. Talking to money dealers about my ideas was like telling stockbrokers that the movement of stock prices is wrong; it takes a lot of courage. I stressed that money should not be the subject of speculation, because the fundamental function of money should not be to enrich banks and security companies but to smooth the path of production activities. It has been said that America is entering a so-called post-industrial society where the weight of the service industry sector is growing. Yet, when people forget how to produce goods, and that appears to be the case in America, they will not be able to supply themselves even with their most basic needs.

Last summer, a friend of mine who is always criticizing Japan for being "unfair" invited me to his summer home to play golf. At the first tee, I pulled out my MacGregor driver whereas my friend had a Japanese Yonex club. I criticized him for using Japanese clubs since he had been telling everyone not to buy Japanese products. He responded simply. "These clubs give me better distance." Well, I was not able to convince him to sacrifice distance and so I kept quiet. After the game, he invited me to his house and while his wife was preparing dinner, he showed me around. In the garage, I saw a Kawasaki snowmobile, which he said he needed because winters in the northern part of New York State have a lot of snow. Next to it was a Japanese motor boat, which he said he needs because he house is surrounded by lakes. I also saw an off-road vehicle made in Japan.

Finally, dinner was ready and as I went into the house, I saw a Sony television and numerous other Japanese-made products. I said "You criticize us all the time for not buying American products while it's obvious that you prefer Japanese products. Are you asking us to buy something you won't buy yourself?"

Americans today make money by "handling" money and shuffling it around, instead of creating and producing goods and with some actual value.

America Looks 10 Minutes Ahead; Japan Looks 10 Years

I delivered a speech in Chicago entitled "Ten Minutes vs. Ten Years." I stated that we Japanese plan and develop our business strategies ten years ahead. When I asked an American money trader "how far ahead do you plan . . . one week?" The reply was "no, no . . . ten minutes." He was moving money through a computer, targeting the fate of that transaction ten minutes later. So, as I told the Americans, we are focusing on business ten years in advance, while you seem to be concerned only with profits ten minutes from now. At that rate, you may well never to able to compete with us.

A well-known economist, Peter Drucker, wrote recently; "Americans cannot live in a symbol economy where businessmen play only with numbers; Americans should come back to a real economy where money moves in accordance with real production activities."

Unfortunately, in America, stocks are owned and handled by institutional investors whose fund managers actually buy and sell stocks in huge numbers in an attempt to maximize profits in a given short period of time. At the slightest increase in stock prices, they sell, and when the profit margin of any company declines as a result of poor management, they sell before the company's stock prices begin to decline. For them, the name of the game is nothing but quick profits.

It is expected that the American service industry will flourish. This includes finance and financial services, where entrepreneurs and investors alike do not leave their money in long-term projects, such as the ten-year projects that have been implemented in Japan. The American economy is, then, an economy without substance. It must return to a real production economy.

In America, R&D is closely linked to the military budget. R&D in the private sector

is heavily dependent on military expenditure. As a result, a corporation can engage in the development of a new fighter without worrying about profit or loss. On the other hand, budget constraints on NASA and the military agencies will directly reduce the volume of R&D.

A ten-minute profit cycle economy does not permit companies to invest in long term development. There are some exceptions, such as IBM, AT&T, DuPont and some others. But they do not represent the mainstream of American business nowadays. Gradually but surely, American business is shifting toward a symbol economy. In addition, it seems fashionable to call the service industry the "futuristic third wave" and information and intelligence is the business of the future. But these produce nothing. Business, in my mind, is nothing but "value added;" we must add value and wisdom to things and this is what America seems to have forgotten. And this is the most deplorable aspect of America today.

Japan will do fine as long as it continues to develop and produce things of tangible value; a shift from high technology industry to quick profits from the money game will only serve to accelerate the degeneration of the country. We must take precautions against such developments, providing for, for example, tax advantages for long term investments.

It is even more the case in America. A quick profit from a stock deal should be taxed at a higher rate than those on long term investment. Capital gains should be subject to a lower rate of taxation.

Recently I said, "America is supposedly the number one industrial country in the world. Why don't you have a Department of Industry?" Seated next to me was the chairman of the Ford Motor Corporation, Mr. Caldwell, who replied "that's right—we are supervised by the Department of Transportation." The Department of Transportation is interested in emission control and highway safety, but has no interest in or jurisdiction over the future of the automobile industry in the United States.

America is the only nation among the advanced industrial countries that does not have a Department of Industry which is responsible for industrial policy. Instead, the Department of Commerce and USTR preside and their only real concern is trade related matters and they criticize others for the failure of American industry.

Japan's Impact on the World Economy Will Be Recognized

The American economy appears to be deteriorating. I assume that the Bush Administration will take steps to tackle the present problems, but the country as a whole seems to be extremely nonchalant about the so-called twin deficits: budget and trade.

There seems to be the feeling that Reaganomics raised the standard of living, taxes are relatively low, and they can buy goods from all over the world. When the Republicans captured the White House again, I began to wonder if there was any sector in America which was truly concerned about the twin deficits since Bush repeatedly denies any possibility of a tax increase. How in the world do the Americans expect to restore their economy?

Let's examine the price of gasoline. Consumption of gasoline is growing rapidly, yet the price is still below a dollar a gallon. The ongoing world price per gallon is $4 US. A one-cent per gallon tax-increase means an additional $10 billion; think what the government could get if they levied an additional 25 cents per gallon. Yet the government will not even begin to initiate such a move.

In fact, even with such an additional tax, American gasoline prices will still remain less than international prices. Politicians are simply afraid of losing votes by adopting unpopular policies. Some of my closest American friends have said that Bush could have been elected without promising not to raise taxes. He has so firmly committed himself and his administration to not raising taxes, yet it is so obvious that the twin deficits cannot be solved without additional national revenue.

Bush should have been more realistic if he was, and is, honestly concerned with the American budget crisis. Tactically, he could have said early on that he would not raise taxes, but as he gained support, he should have become more honest and direct, and told the people that it was necessary to pursue a more realistic financial policy. On the contrary, he confirmed his pledge after he was elected. Solutions to the deficit problem seem even more remote.

This being the case, the US dollar has continued to decline, and the US has had to increase interest rates to further attract foreign money to the US, for which it will have to pay a great deal of interest. The result is an increasingly vicious circle.

The US inflation situation might well become an even more chronic phenomenon. Economic growth without inflation is ideal, whereas endless inflation might well bring the dollar's value to the level of trash. This, in turn, will make European and Japanese assets trash since sizeable assets of both are in US dollars.

Both the Europeans and Japanese cannot sit idly by, ignoring or overlooking the trend in the American economy. At one time, when the US dollar was very high, the Japanese and Europeans asked Americans if "they could absorb the trade deficit caused by the high dollar?" At that time, Treasury Secretary Regan was of the opinion that the US dollar should stay high and strong. When James Baker became the new Secretary of the Treasury, he recognized the problem and entered into the Plaza Accord to lower the value of the dollar.

The American economy does not stand alone. It is not only a domestic issue. The collapse of the American economy would cause a worldwide disaster. 1987's Black Monday chilled all nations momentarily. I am not a pessimist, but I cannot help thinking that unless the Bush Administration handles economic issues very seriously, a worldwide collapse is not just a worry, but a very real possibility. The ever-growing American inflation and this economic crisis will not only make other nations catch cold, but bring their economies into crisis as well.

It is said that Japan contributed to efforts to stop a possible disastrous chain reaction ignited by Black Monday which began in America and soon affected the London stock market as well. At that point, the Japanese Ministry of Finance asked Japanese institutional investors to support prices for a time, which instantly normalized Japanese stock prices. Later, the chairman of one of the major US banks, who was visiting Japan, told me "it was Japan who put a stop to the chain reaction, and it was the Ministry of Finance who was able to move the Tokyo stock market. The Japanese government now has the clout to sustain Wall Street and the City of London. So-called Japanese guidance is truly powerful."

This gentleman went on to say "we are worried about the fact that the Japanese people are unaware of the fact that they have a significant impact on the world economy. And I believe it is true that Japan's economic status has been much enhanced.

Like it or not, this is the picture held by Americans, and the Japanese people have to recognize it and, inevitably, they have to behave in accordance with that status in the world community today.

RACIAL PREJUDICE IS AT THE ROOT OF JAPAN BASHING (ISHIHARA)

America Will Never Hold Its World Leadership Position Unless It Ends Its Racial Prejudice

I had the opportunity to visit Washington, D.C. in April a year ago, and was surprised at the very hostile atmosphere. It was only five days after Congress passed the resolution condemning Japan on the semiconductor issue. I met some of my old friends, senators and congressmen, who with subtle smiles admitted that racial considerations or more directly, racial prejudice, played a role in US-Japan relations. This was after I had discussed several concrete examples with them. Although they shied away from the subject of racial prejudice as if it were taboo, they did admit that it is there.

Initially, they violently denied my allegations, citing that the Pacific War of 40-some years ago as the only real source of prejudice against the Japanese. I declared that it was not as simple as that. It appears that the Americans were firmly of the opinion that it was the West, namely Euro-Americans, who established modernism. My reaction was as follows.

It may be true that the modern era is a creation of the white race, but you have become somewhat presumptous about it. In the pre-modern era, Asiatic races such as Genghis Khan and his armies raided the European continent, destroying towns and villages, looting and raping. Yet at that time, many Europeans actually irritated the style and behavior of Khan's hordes, cutting their hair short, shaving their eyebrows, and walking menacingly with knees apart. That was nothing compared to the strange ways modern Europeans and Americans adopt the style and fashions of some of the present era's heros, such as the Beatles and Michael Jackson. Even Asian kids do this. Probably Khan was some kind of cult figure then and white women regarded him as a "hero" of sorts.

Some say that the roots of the so-called "yellow peril" can be traced back to atrocities committed by Khan and his men. At any rate, we should keep in mind that there is prejudice against Orientals, as the following episode illustrates.

I had a chance to talk with the Secretary of the Navy about the Amber System. Amber is supposed to be the color of caution and danger and this system is named for this concept. Under the Amber System, ordinary vessels such as tankers and container ships, are equipped with sonar on their bows. The sonar can detect underwater objects. Some objects are rocks, etc., which navigational charts will show. What the system is looking for are nuclear submarines.

The Amber System alone cannot detect the nationality of the submarines detected; it cannot tell if they are American, Russian or whatever. It simply detects the presence of some foreign object and this information is relayed directly to the Pentagon, which knows what is on the navigational charts and also where U.S. subs are located, so

they will be able to ascertain whether the particular sub is American or not.

I suggested that the Navy equip all Japanese commercial vessels with this system. Japanese seamen are reliable and the Japanese merchant marine travels all the oceans and seas. Japanese vessels, including our oil tankers, could gather information along vital cargo routes and the U.S. could analyze the information received from the Japanese ships.

To my surprise, the Americans said that it was none of Japan's business. I asked that how, in light of the very limited number of U.S. ships, can you deny the need for such assistance. The answer, "We cannot leave such a critical matter with Japan." I asked if it was appropriate to involve the British and Germans, and they said it would be.

The fact of the matter is that Americans do not trust Japan. Japan would have no basis with which to analyze the information collected by the Amber System, yet they still worried about the Japanese reliability in merely collecting the information. It seems that in their minds, even the Soviets are more trustworthy than the Japanese. American racial prejudice toward Japan is very fundamental and we should always keep it in mind when dealing with the Americans.

During the Second World War, Americans bombed civilian targets in Germany, but only on Japan did they use the atomic bomb. While they refuse to admit it, the only reason they could use the atomic bomb on Japan was because of their racial attitude toward Japan. The fact that they actually dropped the atomic bomb on Japan is sufficient indication that racial prejudice was a factor.

It is my firm conviction that the roots of the US-Japan friction lie in the soil of racial prejudice. American racial prejudice is based upon the cultural belief that the modern era is the creation of the white race, including Americans. This confidence appears a bit overwhelming, probably due to America's relative youth as a nation, which tends to blind it to other cultures. If Americans were ever to be made aware of the presence of a real Japanese culture in the Azuchi-Momoyama period as did the Spanish and Portuguese missionaries, they may develop some respect for Japanese cultural history. Unfortunately, the present American education system does not teach children the value of other cultures. In the period noted above, there were over 20,000 "terakoya" schools all over Japan. No other nation had such an extensive schooling system at such an early point in their history.

During the Edo period, even farmers and peasants were able to read and write at least one or two thousand characters, including hiragana and katakana. Japan already, at that time, had a complete postal network, called "hikyaku" as far as the southernmost end of Kyushu. Documents and information of various kinds were available in libraries in many cities and towns.

This is the kind of information I give to Americans who exhibit ignorance of our culture. Unfortunately, most Americans don't like to see these facts, and they tend to change the subject. In short, their historical prejudice and cultural narrowness has reached a point where they cannot see another's point or see the value of another culture. All this has made Americans, in the post war period, very irritable on the issue.

The American position at this point seems to be that the British and Germans can play whatever role the Japanese could, and can do so without irritating the U.S. Americans are essentially an honest people, and in fact do admit to the existence of racial prejudice, if they are pressed on the subject, which I do. However, this is not enough. They should also admit that prejudice does not hold any solutions to the problems developing in the world today. It is important that they face the situation aware of the historical context, seeing that the reality is that the power in the world, including economic power, is shifting gradually from West to East. I may not be as strong a shift as is expressed in the expression the "Pacific era," but at any rate it is in America's interest to rid itself of prejudice against Asia, including that against Japan, in order to maintain a position of leadership in the world.

Japan Should Become More Cosmopolitan

The calendar clearly indicates that we are moving toward the end of a century, and with it is coming the end of the modern era as developed by white Westerners. History is entering a period of new genesis. The promoter of this new era is Japan as well as the U.S. It is a historical development which America's political leaders should make known, so that America will be better equipped to meet the tasks of the future.

The Japanese have their own problems. They may have to go through a mental evolution to meet the needs of this new era. As Mr. Morita has pride and confidence in the products of his company, an attitude which has made him a truly cosmopolitan man, so must the Japanese develop pride and confidence in our culture and our technology. We cannot become overbearing, which will not be tolerated in the new era, but by the same token, an inferiority complex is equally harmful. The Japanese people must move out of their current mental stagnation; I feel this is especially important for Japanese diplomats.

Except for the young and the especially qualified, most Japanese diplomats suffer from a peculiar inferiority complex and as a result are spreading the seeds of misunderstanding throughout the world. When I was young, I had the opportunity to live with one of Japan's ambassadors and his family. He was a hell of a nice guy—a really wonderful human being. However, he seldom socialized with anyone. At the end of a game of golf, if someone suggested dropping into the lounge for a beer, he would refuse saying that he preferred to have one when he got home. This is the same attitude that some Japanese have when they won't even accept a cup of tea while a guest in another's home. It may be for most Japanese that only in his home and only with his family can he really relax. If this is true, then the Japanese can never be truly cosmopolitan. When the heads of some of Japan's top trading companies, such as Mitsubishi and Mitsui, wanted to join prestigious country clubs in the countries in which they were stationed, their applications were rejected because it was felt that Japanese were too parochial, staying to themselves and not socializing with others. Some Japanese diplomats don't hesitate to show their inferiority complex. One ambassador even publicly said that the Japanese were a race of "pygmies." Such things happen all the time!

The Ministry of Foreign Affairs tried to cover up the news of the firing training by an American cruiser (the Towers, 3370 tons) last year in Tokyo Bay. A single cannon on the Towers, the Mark 42, can send a 32 kg ball over 23 kilometers at 36 rounds per minute. Americans authorities said non-explosive training ammunition was being used. But even these could easily damage of Uraga class Japanese Coast Guard frigate (33231 tons), not to mention what it could do to small fishing vessels. Tokyo Bay is a busy commercial habor, similar to New York Harbor, inside the Verranzano Bridge. American television reported that the American people would be furious if that happened in their country.

The Ministry of Foreign Affairs asked the Japanese media to hold the story until further notice, since that event was incidental. I was very angry and protested, saying that I would release the news on my own. This happened on Japanese sovereign territory in an area clearly barred from such firings due to the fact it was a vital maritime channel. It was a clear violation of Japan's sovereign rights. I observed that "it was like seeing a ranking Self Defence Agency official firing his service revolver at the Ginza junction." I still feel the same way.

Americans can say that they are here to protect Japan under the US-Japan Security Treaty. But at times, it appears to me that the Americans behave more like mad dogs instead of watch dogs.

I use the term "mad dogs" when referring to the Americans recalling that Mr. Shiina, Deputy President of the LDP, used it when he was Foreign Minister. This is another instance where "no" clearly said when that is what is meant would be useful. One must say "no" when he means "no" and failure to do so reduces credibility. In the case of the US-Japan relationship, such an attitude only further increases American racial prejudice. The Japanese people should know that they are in essence protecting American interests as the new era in international relations begins, something the Americans seem quicker to sense. This is the reality of the US-Japan relationship today.

BASHING JAPAN GETS VOTES (Morita)

The Paradox of Welcoming Investment but Criticism of Japan

I am worried about the tide of attitude in America with respect to Japan.

The U.S. government and the Congress have adopted a number of harsh policies with respect to Japan. Some 37 states in the U.S. have established offices in Tokyo. Since I am responsible for investment-related matterss in the Keidanren [Federation of Economic Organizations], when the state governors visit, I am the one to meet with them if my time permits.

It never fails, they are always coming to Japan saying "invest, please invest." Just when I am about to assume that America welcomes Japanese, U.S. congressmen elected from these same states are bashing Japan. The state government has no involvement with this, of course, but they are saying to Japan's big business, "come on, come on."

"What in the world is the meaning of this?" I wonder. In addition, recently a number of famous academics and journalists have published books which are critical of Japan. Recently, there has been a book, "Buying into America" which suggests that Japan is buying up America, and there is a book called "Yen" which envisions a future after the year 2000 in which Japan uses its financial power to control the world. The latter is rather calm in its perspective, but both books reveal a clear Japanese menace—the tides have really shifted since "Japan As Number One" was published.

A book written by a famous journalist which depicts Japan in a very harsh light has become a best seller, so this is indicative of the critical attitude on Japan held by the American masses. The more this attitude increases, politicians will beat up on Japan in an attempt to make votes for themselves, because getting votes is the most important aspect of being a politician.

The politicians themselves are not at all concerned, however. When asked why they bash Japan, they respond that if they say "Japan is good," votes will drop off. If Japan is bashed, further, if a Toshiba radiocassette player is smashed, this is not indicative of hating Toshiba, but they think if they do such things, votes will increase.

The state governments welcome Japanese industry because if they invest in their state, tax collections increase along with employment, but among the American people, the attitude with respect to Japan is becoming more and more critical.

The Keidanren has established a "Council for Better Investment in the United States," which is the English language name of the council (literally it is the "Council for Investment in the U.S.—translator). What we mean by "better investment" is the type of investment which will get Americans on Japan's side. If the number of Americans viewing things the way Japan does increases, then bashing Japan will cause lower vote counts. That would probably make politicians stop bashing Japan.

I think that it is vital that we help build a feeling of friendship among the American masses with respect to Japan. At the present time, everyone buys Japanese goods and is delighted with them. They do not hate Japanese products. What makes them hate Japan, however, is that when Japanese businesses enter the American society, they have the feeling that foreigners are coming.

Japanese Industries in the U.S. Should Work at Community Service

Direct investment in the United States is currently expanding very rapidly. The end result of this is that Japanese companies, including Sony, have established themselves in local districts throughout the country. When the English or French invest in a local area, the communities and local society do not see this as an invasion of foreigners. However, when the Japanese come, they feel that strangers, or something foreign has entered their midst. This gives them strong feelings of fear and anxiety.

To give a simple example, when Japanese go to the U.S., their children go to schools. The schools have an organization, the P.T.A. This stands for Parent and Teachers Association. The corresponding organization in Japan is called the "Fathers and Brothers Association" but no fathers and brothers participate, it is more of a "mothers and sisters" association. Myself, I have never attended the Fathers and Brothers Association in Japan. In the case of America, however, husbands go with their wives to attend meetings for their elementary school or local area school and discuss how those schools should be run. In Japan, it is the mother's duty to take care of educational matters for the children, so the father does not attend. In America, however, when the father takes off work to attend a PTA meeting, his company does not charge him leave. The man, therefore, must go to the PTA meetings.

When I was living in the U.S., I went to PTA meetings where I was able to associate with persons from various walks of life. My daughter went to the Nightingale Bonford School in Manhattan and my son went to St. Bernards. I got to know Stokowski (the late) conductor at one of the PTA meetings. John Gunther, a very influential behind-the-scenes man was also someone I met through PTA, he is now the Ambassador to Austria. Henry Grunwald, the editor of Time, was a classmate of my daughter's who I also got to know.

At a gathering of Japanese businessmen in the United States, I got up and told them, "to go as a couple to the PTA to get to know the other people involved and to start getting personally involved in the school." The people I was speaking to made such remarks as "I don't like to hear that," or "Why do we have to do that." When I told them there was actually a meeting the other night and asked what they did, the responses were "I was too busy, I sent my wife," or "My wife can't speak English so she just gossiped with the other Japanese women and came home." Because of instances like this, there is no doubt that the PTA would view them as the foreigners who'd come to town.

Also, when Sunday morning comes, the whole community dresses up and goes to church. At that time, however, the Japanese are all walking in the opposite direction to the country club. When they are asked why they are not going to church, they are likely to respond that "I'm a Buddhist," or a similar reply. I'm not saying that they should necessarily go to church, but it is natural for the people in the community to think that some really strange foreigners are in their midst when they see them all trotting off to the golf course on Sunday morning.

I golf in America too. But I always do it with foreigners. When Saturday night comes, I take my wife to the country club, have dinner and talk with the other members. However, golf for Japanese is usually a business-related event; there are usually guests from Japan and a group solely composed of Japanese people plays the course. This is another way in which a strange image is transmitted to the local community.

Another example is that American wives often volunteer their spare time for community service activities, such as preparing braille for the visually handicapped. Japanese housewives normally do not participate in such activities.

There are also public fund-raising dinner parties for local community centers, which does not involve mere contributions, it is a major social event where funds are raised. Tickets for the party are $30, $50, $100, and $200 which represent contributions for the fund raising event. They view participation in these events as a contribution to their local society. While this is a little different than the golf example above, it is another area where Japanese isolate themselves as strange foreigners.

It is vital that we participate in the local society in order to resolve any racial problems. When Japanese build factories in the United States, these usually go to the regional or rural areas due to the large amount of space they require. In such a small community context, if Japanese avoid contributing to the local community, they will be disliked in the area, and then the people of that area will cast their votes for Japan-bashing politicians.

One Japanese company that had established in the U.S. had its headquarters in Japan make a very substantial contribution to build a community center, in an effort to counter any adverse prejudice, even though the local company had not yet become profitable. The local community was delighted and named the hall after the company that had contributed. When the plant manager was reassigned back to Japan, the whole community threw a "sayonara" party for him.

I am not saying that all Japanese companies coming to the United States are bad, but just a little kindness and consideration can turn around attitudes about Japanese people. The Council for Better Investment in the United States is trying very hard to get this information out in an effort to have the Japanese company weave itself into the fabric of the local community in which it is locating.

At the current time, two hundred and forty or fifty companies who have invested in the U.S. are members of the Council, but it aims to attract even more members.

Information about these efforts is gradually becoming known in the U.S., and this has already done much to change perceptions there. I think Japanese people in the U.S. are also making better efforts.

Let's Build an American Society Where Japan Bashing Causes Votes To Decline

Therefore, I think that the only way to erase the perception Mr. Ishihara points to where Japanese are disliked just for being Japanese is to make the above types of efforts. This is because they [Americans] are stubborn and are not likely to be induced by saying "you guys change."

I have so many American friends myself that I have been accused of being an American. Since I have lived in America and have been counted as a friend by many Americans, I am not overly sensitive to what is said about me. As Ishihara has said, to Americans, they feel that because their hair color is different, it is difficult for them to know what Japanese are thinking. I think there is another important point. The way of delivering a message is different. The structure of the Japanese language and English is different, and this affects our discussions together.

I have written this elsewhere in a book, but when Japanese read Chinese, they put in arrows and symbols to change word order, but Chinese read it directly and understand the meaning of the sentence immediately. English is the same kind of language, which is read one word after the other. In sum, this means that American have a different sequential order in thought processes. Therefore, no matter if you use interpreters, it is impossible to interpret in the same sequential order as the thought process that generated the words in Japanese. Thus, when a message is to be delivered, it is regrettable but true, that the sequential thought process of Japanese is in the minority in the world. When communicating with occidentals, who are in the majority, if things are not communicated in an order they can comprehend, they do not understand what we are saying. It is necessary that we be cognizant of this disadvantage that Japan has in this area.

While the color of our hair will never be identical to Americans, from the point of view of practical businessmen, I think we must recognize that if the current trade imbalance with the U.S. is not rectified, America will always say Japan is at fault. If Japanese business does not go to the U.S. with manufacturing and sales to bring down the imbalance, there is no way the problem will be rectified. We must bring our factories to

foreign shores, and invest in these areas where our goods are sold.

At this point, if there are any racial problems, it would be the fault of the Americans, but that does nothing to resolve them. Through the successes of Japanese-American citizens groups, racial problems are not so prominent anymore. When the Second World War began, all Japanese-Americans were placed in detention camps.

In the United States, people having different colored skin have realized great successes. An example is the Wang company which was founded by a Chinese. In our quest to find why it is only Japan that is bashed, it would be a bit strange to say it is because Japan is not internationalized, but it is really because we have been lax in not following the "when in Rome, do as the Romans do" in incorporating ourselves in the local community. I think this is why we remain foreign. That is exactly why I am saying we need to make such efforts. I am not saying that everything they do is alright, but I am saying there is a need for internationalization by both parties, and we have the need to do business.

The internment of Japanese-Americans during the war was a prime example of the emotionalism that the U.S. displayed with respect to Japan. After the passage of 40 years, the President has finally publicly recognized that this was wrong. It would be nice if emotionalism with respect to Japan ended right there, but that is not the case. An example is the Toshiba clause in the Omnibus Trade and Competitiveness Bill—no buying of Toshiba products—Toshiba Machine is bad.

I said in a speech that this was a violation of the U.S. constitution. This was due to the provision in the constitution which proscribes the enactment of laws which would deal retroactively with crimes. It also allows anyone accused of a crime the opportunity to defend himself. In the process of compiling this bill, sanctions were put on Toshiba for its crime. Toshiba had already been punished for its crime under Japanese law; but by adopting these sanctions restricting Toshiba's business activities, the Bill would impose retroactive punishment.

When I recently spoke in Seattle, I suggested that this Bill was unconstitutional, that it was an emotional response, and that it should be treated as an emotional international issue, which was similar in substance to the internment of Japanese-Americans during the war.

When something can become this emotional, perhaps Mr. Ishihara is right in his contention that racial problems lie at the root of the problem.

During the occupation era, the Americans built fences and stayed inside and didn't mingle too much with the Japanese people. This created an unpleasant atmosphere. Now, however, there are no occupation zones and we are at peace, we must behave appropriately and associate with each other.

If we do make efforts in the direction I have indicated to establish a framework where Japan bashing politicians are rewarded by fewer votes for their efforts, there is no doubt that political pressure will be exerted to the point where there can be no reduction in frictions between the countries.

Thus, it is my way of thinking that Japan must take the kind of action this situation calls for.

AMERICA ITSELF IS UNFAIR (Morita)

America Lacks Business Creativity

Americans and Europeans are always saying "We're getting ripped off by Japan. They take the ideas we have invented, make products and then the onslaught comes. We are being damaged, they're disgraceful." Japan has certainly done better more recently, but the U.S. and Europe are very much advanced in basic research.

Last year, I was invited to speak to about 100 researchers who worked at the Bell Laboratories at ATT.

The Bell Laboratories have about 7 people who have won the Nobel Prize. To me, it seemed that I would be speaking before some of the greatest men of our time. Prior to the speech, I was shown around the Bell Laboratories, where a number of wonderful research projects were underway.

As you must know, the transistor and the semiconductor, which are at the root of the current revolution in industry were invented at the Bell Laboratories. It really brought home to me how wonderful America was.

The basic message I brought that day was that this type of research was extremely significant academically in terms of both science and culture, but to be significant from the standpoint of business and industry, two other types of creativity, in addition to the creativity required to make the original invention, were absolutely necessary.

Industry requires three types of creativity. The first, of course, is the basic creativity necessary to make technological inventions and discoveries. This alone, however, does not make for good business or good industry.

The second type of creativity that is necessary is that involving how to use this new technology, and how to use it in large quantities and in a manner that is appropriate. In English, this would be called "product planning and production creativity."

The third type of creativity is in marketing. That is, selling the things you have produced. Even if you succeed in manufacturing something, it takes marketing to put that article into actual use before you have a business.

The strength in Japanese industry is in finding many ways to turn basic technology into products and using basic technology. In basic technology, it is true that Japan has relied on a number of foreign sources. Turning technology into products is where Japan is number 1 in the world.

Sony was the first company in Japan to license the transistor patent from Bell Laboratories, back in 1953. At that time, the transistor was only being used in hearing aids. We were repeatedly told to take this transistor and manufacture hearing aids.

When we brought this new transistor back to Japan, however, Mr. Ibuka, of Sony said, "There is not much potential in hearing aids, let's make a new transistor and build radios." At this point, we put all our energies each day in developing radios which used transistors. One of our researchers during this development effort, Mr. Esaki, subsequently went to work for IMB where he earned a Nobel Prize, but it was at our company where he did work worthy of the Prize. There are a number of Japanese who have received the Nobel Prize, but Esaki was the only one who worked for a research laboratory of a company. We poured money into development of new transistors, and developed small radios for the market, an effort that was worthy of the Nobel Prize.

It was an American company, however, who made the first transistor radio. I became a salesman, and took my product with full confidence to the United States to sell it. Prior to this sales effort, the newest innovation was a vacuum tube type of amplifier which required a lot of space. When the American company, which was a famous radio manufacturer, was initially rebuffed by people telling him "since we have this great sound and large speakers, who would want to buy your little radio," that company just quit trying to manufacture transistor radios.

We, however, had something else in mind as a way to sell these radios. "Currently in New York, there are some 20 radio stations broadcasting 20 different programs during the same time frame. If everyone had their own radio, then each person could tune in to the program he or she wanted to listen to. Don't be satisfied with one radio for the whole family, get your own radio. The next step was to do the same for televisions." This was a new marketing concept. One radio for one person became a kind of catch phrase in this campaign and the result was that Sony transistor radios became famous throughout the world.

While it is true that Sony was second in developing the transistor radio, the company who did it first lacked the marketing creativity, so without much thought, they simply quit and pulled out of the market.

America has stopped manufacturing things, but this does not mean that they do not have the technology. The reason why the link between this technology and business has not been firmly connected is because they lack the second and third types of creativity, turning products made with the new technology into a business. I feel that this is a big problem for them. This exact area happens to be Japan's stronghold for the moment.

When I went to speak at Bell Laboratories, I got the chance to look at a lot of their research and advanced technology. I felt that they may well come up with something new that was even more important than the transistor, but since Bell Labs is a part of ATT, they are not thinking of anything except for telecommunications applications. There is not one person there who is thinking about how to use the new technology they are developing as a business. I think that this is one area where the U.S. comes up wanting. It is my feeling that even though times are good in America now and employment is up, the time will never again come when America will regain its strength in industry.

There is a television network in the U.S. called CBS. CBS has a weekly program which airs every Sunday evening called "60 Minutes," which has a very high viewership rating. This is a news program which devotes segments just under 20 minutes to various stories and opinion from around the whole world. More than 10 years ago, I was on the program. This is a program that takes a lot of money to produce. A crew followed me around Europe for about 6 months to prepare the segment.

Now they want me to do another one. A cameraman followed me to London, and when I went to Singapore, they followed me there too. The other day, a famous and beautiful interviewer in the U.S., Dianne Sawyer, came to Japan to interview me for the program. We spent a long time in front of the TV cameras, and the questions grew sharper. This made me mad and at the end, it was like we were in a fight.

She asked me what I thought of Lee Iacocca. Since this is a program he would be sure to see, I was frank in my statements. I said he was a disgrace, and that he was unfair. Iacocca comes to Japan and says Japanese are unfair. Very recently, he

headed his sentence with "Let me make myself very clear," and then he went on to slander Japan. I know he wrote that book which labeled Japan as "unfair" but I think it is Iacocca who is unfair, and this is what I said.

When I was asked why he was unfair, I answered clearly, in front of the camera.

The president of a Chrysler company came to Japan. I had met this person before. I knew he was involved in selling Chrysler automobiles, so I asked him how sales were going. He turned to me and said quite plainly that he had not come to Japan to sell cars, but he had come to purchase Japanese parts and engines. He said he had come to Japan to buy Japanese products so they could sell them in the U.S.

At the present time, the three big automobile manufacturers have purchased 250,000 automobiles from Japan in 1987. How many have they sold to Japan? Only 4,000. They make no effort at all to sell their cars in Japan, and then call Japan unfair because Japan sells too much in the U.S. and that Japan will not buy their products.

One of the reasons why U.S.-Japan relations are in such a mess is that Japan has not told the U.S. the things that need to be said.

Japan Has Not Forced Its Sales on the U.S.

When I go to foreign countries, I hear that Japanese work too much. But why is working too hard so bad? Our society cannot continue to eat unless we keep producing products. People have to have products in order to live. They use golf clubs, and drive automobiles. If they want these products and do not wish to import them, they must manufacture them. I am a businessman. I am not forcing my customers to buy things from me. We expend our energies on how to make our products most attractive to the customer.

The Americans say that there is a U.S.-Japan trade imbalance, and it is not because Japan is not buying U.S. products or because Japan is forcibly selling the products. There are few things in the U.S. that Japanese want to buy, but there are a lot of things in Japan that Americans want to buy. This is at the root of the trade imbalance. The problem arises in that American politicians fail to understand this simple fact. It could never be the case that we are selling too much; it is not because we are exporting, the imbalance arises as a result of commercial transactions based on preferences.

Therefore, the only thing that Americans or Europeans can do to correct this imbalance is reassess themselves and make an effort to produce products which are attractive to Japanese consumers. It is in this area where I would like to see Japanese politicians get courage enough to expound abroad to our trading partners.

Recently, U.S. Secretary of Commerce Verity brought representatives of 25 companies to Japan who wanted to sell their company's products in Japan. I was the person responsible for welcoming this group, and I told them that Japan would do its best to help out. I remarked, however, that I had been doing my best to sell Japanese products in the United States over the past 30 years. Yet, not once had the Minister of International Trade and Industry accompanied me and helped out in my efforts. I asked the Secretary of Commerce if it was his intention to finally create an "America Incorporated." Secretary Verity smiled, but everyone else laughed out loud.

The Government of Japan has, in both the good sense and the bad sense, passed along various types of administrative guidance, which has been criticized by foreign countries as being an alliance between government and business—even if the Minister of International Trade and Industry does not go on trade missions.

One of the Americans in the group then asked me why the Japanese government backed up Japanese industry. Let's think about it. Even though the government does not own one share of my stock, I pay more than half of my profits to the government in taxes. If my business does not do well, the government does not receive more revenues. Thus, the government, we feel, is a kind of partner. I asked them why American industries, which are paying taxes to the government say, "the government is trying to control industry; don't touch us." Your viewing of the government as the enemy seems strange.

During this visit, Secretary Verity did voice his support for cooperation between government and business to sell products, but it is my feeling that the establishment of a framework for this type of cooperation is still a long way off.

Let Us Think About the Role Japan Should Play in the World

On the other side of the question, however, there are certainly aspects of Japan which are "unfair" when viewed from the U.S. perspective. When you consider what Japan has done for the world in the course of its becoming the second largest economy, I think this is an area where Japan is in line for some critical reflection.

Recently, since the time of Prime Minister Takeshita, Japan has been making enormous efforts to become the second most open country in the world for trading. The long boiling problems over beef and citrus imports were gradually resolved through efforts directed at these problems. However, from the perspective of Americans, Japan still has not done what it should do. I am not saying we should put more money in defense spending, but if we are not to exceed 1% of GNP on defense, then the government should put a lot more money into Official Development Assistance (ODA) (foreign aid), which helps the other countries of the world.

In addressing the ODA to GNP ratio, of the 18 countries in the world who provide foreign aid, Japan is number 15. Also, if we look at the amount of non-loan foreign aid for which there is no remuneration, Japan is number eighteen of eighteen. I shrink when I am asked whether that record is something Japan can be proud of.

Almost all U.S. corporations make donations of about 1 percent of their pre-tax profits to the community—using some of their money for the community is a kind of custom with them. In Japan, too, we also make some contributions to return money to society, and at the current time many Japanese companies are returning more than 1 percent.

But when Japan is looked at as a state, it is perceived as unfair by the rest of the world because it is not returning some of the benefits it reaps from the world back into the world society.

Therefore, when I speak before Japanese groups, I emphasize what is meant when America says Japan is acting disgracefully. I tell them, "Shouldn't we review what we are doing once again?" Japan should be bold in telling the U.S. what it needs to be told, but at the same time, Japan must establish a code of standards for the role it should be playing in the world.

Japan should open its markets to the extent where there would be no room for their complaints, and money that Japan has should be provided to help developing countries where people are not being oppressed. This would be a magnificent behavior on Japan's part, and I think that Japan needs to become aware of its responsibilities.

Certainly the full opening of our markets and advancing large sums of money for developing countries is very painful. However, things will not get better in the world until the pain is shared more equitably. How much pain do you think was involved during the Meiji Restoration where the privileged class of samurai gave up their power, cut their special hair styles, and tossed out their swords? It allowed a bloodless revolution to take place within Japan.

Mr. Ishihara has said there is a need for a reform of consciousness in Japan. He is exactly on the mark. If we do not reorient our consciousness from the perspective of being international people, then I do not feel Japan will be able to continue to walk the globe as an economic power.

THE CRITICISM OF JAPAN AS AN IMITATOR IS OFF THE MARK (ISHIHARA)

The America Which Closes Its Eyes to Its Own Unfairness, and Criticizes Japan

The more I hear Americans bellowing complaints that Japan is unfair, the more I would like them to calm down and think. An example is a harsh exchange between myself and the U.S. Secretary of Commerce. It was a coincidence, but at a time when Commerce Secretary Verity visited Japan, there had been an agreement for an American company to participate in the second phase construction at Haneda International Airport. Verity was in Japan, and his mission included offering his thanks for this deal. However, I threw some cold water on him by saying that this would be the only time I would permit such a big commotion over such an issue.

The U.S. Congress had been criticizing Japan for having a "closed" market in large construction projects. In fact, however, there was only one U.S. construction firm that had been licensed to work in Japan—two, if you count pending applications. They say that the barriers are too thick, but I think that anyone wishing to do business in a foreign country has to make some adjustments to correspond to the local conditions.

After we went back and forth along that line, I commented that Japan's design for the Airport Building and the Shinkansen [bullet train] station, including the interior was poor—not refined enough and too idiosyncratic. I went on to say that this might well be something which could be consigned to a foreign country.

This was true of Narita International Airport too. I noticed the other day that the pillars were painted with rust-proofing primer coat. When I suggested to the person in charge that he get busy and have them painted, he said, "Mr. Minister, did you just notice this? They have been that way since the airport was completed." When I asked why, he replied that it was OK this way because of the contrast between the red, white and black. When I asked whose design that was, he calmly replied that the painting contractor had made the determination.

Actually, there is not even a bar in the whole airport. One might like to have a drink to ease one's tension about flying

before the flight, or one after to relax. Foreign airports always have a place where you can get a drink. Day or night, there is a place where the customer can get a drink. This is an integral part of air travel.

When I relayed these stories, Secretary Verity nodded his head, indicating that he understood my point. You could tell he was the Commerce Secretary, because when we went on to discuss the Kansai Airport, he said it would be a great idea if American companies could do the design.

Just that would be nice, he went on, but after it is completed, he said that the same number of U.S. aircraft should be permitted to fly from the airport as was permitted by Japanese carriers. I replied sharply, "No, that won't do." He turned colors and asked back, "Why not?"

There is an aviation treaty between the U.S. and Japan. It is a relic of the occupation era. Not only is it not balanced, it is outright unfair.

Among the mutually agreed upon rights in this treaty is the right for air transport to points in the signatory country, and for rights held unilaterally by the U.S. side. America can fly into whatever Japanese airport it pleases and then fly to anywhere else. In other words, it has unlimited rights to fly through Japan to destinations beyond.

Japan, however, only has the right to navigate through limited airports, the economically unprofitable routes from San Francisco-New York-Europe. Actually, these routes are not even being used. During the U.S.-Japan Summit in 1982, we were allowed two flights per week from Los Angeles to Rio and San Paulo Brazil. One of the concerns on the Japan side is that Nippon Cargo Airlines (NCA) was finally obtaining 9 flights weekly in 1985 on the Tokyo-San Francisco-New York route.

However, in exchange for this, America got the right to land jumbo jets in Japan, and then fly from there further in small cargo aircraft to Manila, Taiwan and Korea. The most profitable rights went to the U.S. in this agreement too. In the midst of all this, Japan cannot get the right to fly a cargo aircraft in and out of Chicago.

While points of origin are limited by land space, Japan is restricted to just three points, Tokyo, Nagoya, and Osaka. America can fly to Japan from 19 airports. Looking at the number of flights, according to a study made in November of 1988, Japan had 204.5 and the U.S. 371 passenger flights, and 60 cargo flights for Japan versus 170 for the U.S. This is really unfair of the U.S. to be party to the U.S.-Japan Aviation Treaty which gives it so overwhelming of an advantage.

American specialists are well aware of this situation, so they do not want to engage in further negotiations. This type of situation continues while the U.S. makes selfish assertions.

I explained to the Secretary that since the U.S. maintained that attitude, it was at fault. The Secretary said he knew nothing of these matters. I pointed out to him that we couldn't even begin talking about getting negotiations started if he knew nothing about these matters.

An official from the State Department was accompanying the Secretary on his visit. He was an honest guy, and told the Secretary that the Treaty was indeed unfair. Secretary Verity became troubled. It was a very strange atmosphere between the Commerce Secretary and the official from the State Department, standing there in front of me, a Japanese. America is not the solid rock we thought it to be.

For example, relations are extremely poor between the Department of Commerce and the U.S. Trade Representative. Yeutter and Verity quarreled like dogs and monkeys, they never got along and were always bad mouthing each other. While none of these references about these two went on in front of me, there was an official from the U.S.T.R. in the delegation who was there to keep an eye on things.

Anyway, once the potential for a scene between the Secretary and me had quieted down, the "spy" from the U.S.T.R. caught my eye and said "Hang in there." I laughed, thinking what an interesting country the U.S. was.

Japan, A Country Where Each Person Is Highly Creative

America closes its eyes to its own unfairness and criticizes others. I think that it should not be forgotten what such a shifty country has done.

As Mr. Morita has pointed out, it is off the mark to say that Japan has relied on the U.S. for the creativity to develop technology, and then has just cleverly developed and marketed it. Americans and Europeans say that Japan can do nothing but imitate, but it is not right for Japanese themselves to begin to agree with such a statement. The Japanese people have been possessed of creativity for ages.

There has been a gradual increase in the number of Americans and Europeans who recognize creativity in the Japanese. The same can be said for cultural creativity.

Take the field of literature. Some while ago, the French did not recognize Japanese literature at all. They did not think it had any value. More recently, however, the French have grown to appreciate Japanese literature more and more. The reason for this is quite interesting: it came about because of Japan's high technology. That is, foreigners who were interested in Japan's high technology began studying the Japanese language and started reading modern Japanese novels.

They recognized that modern Japanese literature was indeed quite interesting. It was not their masters of literature or translators who pointed this out, but the intelligencia who were coming from scientific backgrounds.

In any case, I do not think we should stand still and agree that outside of literature, we are still nothing but imitators as the Americans say. It is time that Japanese take pride in their own spontaneous creativity and march forward.

Sony developed the transistor and took it to the U.S. market and changed the way Americans thought. In other words, they ripped apart the immutable principle of one radio per each family. The concept of making radios a personal appliance was nothing other than an exhibition of creativity on the order of that shown by Columbus.

The bountiful creativity of the Japanese is not something which can only be seen in a few of the elite, but something which can be broadly witnessed across the board in the general citizenry.

Japanese technology has found its way to the very heart of the world's military forces. I think this the product of the integration of our creativity.

Even if you have one creative genius, unless you can produce the product of his creativity in a factory, it will not come to anything. It takes a large number of excellent general technicians and excellent employees or one will not begin to see the light of day.

The Excellence of Japanese Products Relates to the Educational High Level of the Employees

One can partially grasp the superiority of Japan's technological ability in the low rate of break down in Japanese products. The vital element in the excellence of technology and in tackling the problem of product break downs is possible because of the excellence in abilities of the general employees.

The U.S. Boeing Corporation which was scrutinized due to an aircraft crash was found to have problems with its employees' work methods, and they quickly set about making improvements. Certainly the re-education of the management could be undertaken quickly to the satisfaction of Japan and other countries, but since the level of the general employees was so low, concern remains in that area. When the president of Boeing's Seattle plant was asked: "How long will it take after re-education has begun before the technological strength [of your company] will begin bearing fruit?" His answer was seven years. Seven years! How can we ride around in jumbo jets for seven years not knowing what types of defects they might have?

As we learned from the tragic Boeing crash in Japan, all of those responsible got off, bearing no criminal responsibility. The legal systems in Japan and the U.S. are different; in Japan, a national inspector is sent out, but in America, aircraft manufacturers are not held responsible. The Boeing company did not even name the responsible persons. They say that it is better to prevent a recurrence than to spend all of their energies in finding fault, but the thinking that exemption from prosecution is the only way the truth can be told is something that is very hard to take for the families of those killed in the accident. According to an investigation by the Japanese police, there were four Boeing employees who should have been further pursued to assess their responsibility. The U.S. side acknowledges this.

The Boeing accident was nothing more than a worker's mistake—it happened well before the crash. There was no follow up after the crash except to say that the maintenance operations were sloppily done. While the specifications had called for three thick divider walls to be tightly bolted on, it just was not done.

Bolts had been placed on the left and right, but they did not reach through the three sheets, just to the second one. This caused a serious weakening of the aircraft strength. This tells the story of the low level of the people who are performing the maintenance.

Despite the fact that they are employees of the Boeing Corporation, a world-class manufacturer of aircraft, it would still take 7 years to re-educate them. This is a story which could not be comprehended in Japan's industrial circles.

The United States wants everyone to buy American-made semiconductors, and these are even being used in Japan, but the number of defective ones is amazingly high. When we complain, the answer is: Japan is the only country that is complaining, nobody else has any complaints. It leads me to think that there is no hope for the U.S.

The manufacturing defect rate in the United States has improved somewhat recently, but it is still 5 to 6 times higher than that in Japan—it used to be 10 times higher.

The report by the task team in the Pentagon also admits this.

To contrast this with Japan, I would like to insert the following episode.

This is an episode illustrating the exceptional knowledge and decision making capability of one female employee of the Kumamoto plant of Nippon Electric Corporation (NEC). For one reason or the other, the rate of rejects at the Kumamoto plant had been higher than it was at other NEC plants. No matter how hard they tried, they could not get the reject rate down. If it could be done in other plants, why couldn't it be done in Kumamoto? There were all-hands meetings with the plant supervisor daily on this problem.

One day, a female shift worker at the plant stopped at a crossing for the Kagoshima Line which ran in front of the factory. This was on her way to work. It was a rare event, but this day, she had to wait while a long freight train passed. Rumbling vibrations were sent through her legs as the train passed. The thought crossed her mind that these vibrations might have some sort of adverse effect on the products made at the plant. While she was working, she paid attention to the time and stopped when a train was scheduled to pass by. In the factory, however, she couldn't feel anything unusual. She still wondered, however, if the machines were not being affected. She reported her concerns to the foreman, suggesting that the precision machinery in the plant might be so affected.

The plant supervisor said, "That's it." He reacted immediately by digging a large ditch between the plant and the railroad tracks and filling it with water. The result was a drastic decline in the number of rejects.

That woman was 18 years old. This woman took pride in the products made by her company and identified with it. It is my feeling that this type of result is due to the vast differences in our formal education system.

In any case, when it comes to economics among the free world countries, the basis for existence is economic warfare, or, if that is too harsh a word, economic competition. It is probably natural, therefore, that various cheerleading groups of the other party will rough you up by calling you unfair, but we cannot stand still and be defeated just because our adversary is making a lot of noise. This is exactly the position Japan is in today.

IS AMERICA A COUNTRY WHICH PROTECTS HUMAN RIGHTS?

(Morita)

Workers' Rights Are Ignored by American Companies

American demands of Japan may increase in the future but America has a great many defects of its own, to which we must continuously direct its attention.

My long observation of American corporations leaves me puzzled about American human rights legitimacy. Human rights are held to be such high moral values in America and it preaches on the subject continuously all over the world. America has been criticizing and condemning nations such as South Africa and Afghanistan on human rights issues; however, I must ask Amercians if they are applying these same standards to their own workers.

American corporations hire workers right and left and build new plants all over whenever the market is bullish, in an attempt to maximize their profits. Yet once the tide shifts, they lay off workers simply to protect company profits. These laid-off workers have nothing to do with poor market conditions.

American corporate executives are of the opinion that it is a corporate right to pursue maximum profits and that fired workers should be able to live on their savings. However, people do not work for wages alone. Work has more meaning to most people than just as a means of subsistence. A Japanese worker has a sense of mission in holding his job for his lifetime as well as supporting the corporation which provides him with meaning to his life. This may well not be the case in America. American workers may only expect a comfortable wage for their work. However, this attitude could change. People can easily develop loyalty to a group or to a company to which they belong depending upon conditions and guidance provided. This sense of loyalty to the company is a formidable asset. Repetitive hiring and firing denies any possibility of cultivating a sense of loyalty.

I must ask American executives if they regard workers as mere tools which they can use to assure profits and then dump whenever the market sags. It seems that workers are treated simply as resources or tools rather than as human beings with inalienable rights. I would like to suggest that they should first do something to protect the human rights of workers in America before they start asking other nations to protect and enhance the human rights of their citizens. There are good reasons why American labor unions must be confrontational in protecting their members and attempting to assure maximum wages during periods of employment since they have no assurance that the jobs will continue. Attitudes of executives are not actually much different than those of the union to the extent that they grab whatever they can—as much as half the company's annual profits in the form of huge bonuses, claiming that this is just since they were responsible for the profits.

A corporate chairman with whom I am acquainted, complained that he has no use for all the money he receives. His company is doing well and his income is in the multimillion dollar a year range. His children are all grown and he and his wife already have vacation villas, a yacht and a private airplane; he said they just have no way to spend any more money on themselves.

Japanese executives work morning to night to improve the position of their companies, and yet the majority of their salaries are wiped out by taxes. The income gap between American and Japanese business executives is astounding. In Japan, even if one works very hard to increase his income to assure himself of some of the amenities of life, there is no way that he could expect to equal the luxuries enjoyed by American executives. Mr. Matsushita, probably the wealthiest man in Japan, when traveling abroad with his secretary, uses regular commercial flights. Having a private plane is simply out of his realm of consideration.

There is some talk in Japan concerning levying taxes on profits generated by the founder of a corporation. I am opposed to this proposal as I believe the spirit of free enterprise must be protected. While an unbridled pursuit of personal gain is not ideal, those who have created new business through extraordinary effort and who have made this contribution to society, should be rewarded financially to a certain extent as this will provide encouragement to young people, motivating them to follow their dreams and create new industries.

The current popular idea that everyone belongs in the middle class and the wealthy are suspect may undermine the very basis of a free economy. The Liberal Democratic Party, however, tends to accept this premise, as put forth by the opposition for the sole purpose of parliamentary manipulation, which is a shame since they have a 300-seat majority.

Japan has been a practicing free economy and a good majority of the people do in fact belong to the so-called middle class, which I think is marvelous. We have no real social classes and everyone is free to choose whatever profession or occupation they wish.

Today in Japan, nearly all company executives dine out on company accounts and ride in corporate-owned cars. As a child, I never saw this land of lavish living by corporate executives such as my father. He had a car and a chauffeur, but they were financed directly by him, out of his own pocket. It would be beyond his comprehension to use a company car and driver for his personal use. I am not particularly opposed to such benefits enjoyed by today's executives, as they can be correct rewards and incentives.

American corporate practices, from my personal observations, are extreme. An example is the so-called "golden parachute" which is the ultimate executive privilege. When one's reputation as an executive is well established and he is hired by another company, his contract may well contain these "golden parachutes." The executive may demand a certain percentage of corporate profits as his bonus, or perhaps some stock options. Upon retirement, he may still receive his salary for a number of years. Should he pass away during this period, his wife may be entitled to receive all or a percentage of these benefits. Should he be fired, for whatever reason, he may still collect his salary under his contract. A contract is a contract and "golden parachutes" are a part of the system.

So even though the corporation may stall or crash, the executive is equipped with his "golden parachute" and is thereby guaranteed to land safely and comfortably. He may go to Florida and elsewhere to enjoy a rich retirement life. Who suffers? Who suffers is America: the American economy suffers from this outrageous system.

American Executives Prefer Immediate Rewards

Poverty is very visible all over America, particularly among blacks and Hispanics. The minority issue is a crucial one in America. The gap between rich and poor is enormous. Only one percent of the population controls 36% of the national wealth, an outrageous condition that should somehow be corrected.

A free economy basically should assure profit to anyone who works. Yet if an individual's gains go to the extreme, he becomes a celebrity and an egotist. This is what I have seen to be the case in many corporations today.

Such individuals regard their employees as their own tools to enhance their personal performance for which they collect all the rewards. Should one fail and be fired, he will land comfortably on his feet, thanks to his golden parachute. As an example of an extreme case of such, a friend of mine mismanaged his company while he was its chairman. The company failed, but he and his wife are leading a luxurious life, something that would never happen in Japan. This man has simply played the American game. He had no real intention of remaining

with that company in any case; he was only working to maximize his personal income during that time.

I have been involved in a number of joint venture projects in America. I make every effort to improve my joint venture situations. I want to close the deal as quickly as possible whenever we are involved in substantial capital investment. When we spend capital on facilities investment, we are entitled to tax benefits. I like to utilize the extra profits generated by these tax benefits to get rid of debt service. Whenever I suggest that, my partners ask "why do we have to sacrifice our profits for people in the future?"

For me, the most critical objective is to make the company healthy and free of debt service, hoping that our successors will do the same for their successors by availing whatever profits we get from repaying the debt, while my joint venture partners feel that their personal gains should not be so sacrificed. They have no intention of remaining with these companies for very long and so they want to increase their personal income by maximizing disposable company profits in the short run.

For example, they moved production facilities to Singapore or Japan when the US dollar was high because they could not expect to maintain high profits when productions costs were high.

This is the case in the semiconductor industry as well. Production has been moved out of the US, leaving production primarily with Japan. This has deprived America of the capacity for anything other than 256 bit chips. It is cheaper and easier to buy them from Japan, rather than dealing with expensive, unionized workers in America. These very same business executives have been blaming the trade imbalance and the Japanese trade surplus for their difficulties while at the same time choosing to import these products from Japan. Japan has not forced them to buy its products, but it cannot begin to catch up on orders placed by American firms.

A Japanese Corporation is a Community Bound Together by a Common Destiny

The fundamental principles which govern a Japanese corporation are basically different from those of an American corporation, from the view-point of both executives and workers.

The structure of pre-war Japanese corporations bears some resemblance to American corporations today to the extent that the president could fire anyone at his discretion. A variety of labor activities were implemented to meet such situations. Taxes were low and executives were leading comfortable lives, able to have company stock allocated, assuring themselves of a comfortable retirement. A top executive was able to buy a house with just one bonus. By the time he retired, he could have several houses for rental, which alone would have ensured a luxurious life.

After the war, General MacArthur changed Japanese labor laws as well as tax laws, among other things, which put Japanese business executives in a different situation. First, they were now unable to fire employees at their discretion, not even to reduce the size of their labor force. At times a company must reduce the size of the work force if it cannot afford to keep them or if they are unproductive.

When I first found that American companies can hire and fire and rehire at will, I wondered perhaps if Japanese companies were more charitable organizations than profit making institutions. However, Japanese managers have developed a concept which, in essence binds the company, workers and management, into a community with a common fate or destiny. I have explained to American corporate managers that in Japan, once an individual is hired, he has been hired for life and unless he commits some serious offense, the company cannot fire him. Americans want to know how in the world we are capable of operating profitably. I say that since a Japanese company is a community bound together by a common destiny, like the relationship between a married couple, all must work together to solve common problems.

This concept of a fate-sharing community might sound particular to Japan. However, recently, it appears to have had some impact on American corporations, which are showing interest in the Japanese corporate management system. They seem anxious to absorb some of the positive elements of the Japanese system.

When I find an employee who turns out to be wrong for a job, I feel it is my fault because I made the decision to hire him. Generally, I would invest in additional training, education, or change of duty, even perhaps sending him overseas for additional experience. As a result, he will usually turn out to be an asset in the long run. Even if the positive return is only one out of every five, that one individual's productivity will cover the losses incurred by the other four. It is a greater loss to lose that one productive person than to maintain the presence of the four incompetents.

In a fate-sharing corporation, one capable individual can easily carry a number of other not-so-capable individuals. The confidence of Japanese employees in their company, knowing that he is employed for life, means that he will develop a strong sense of dedication to that company. For these reasons, Japanese corporate executives are anxious to train their employees well, as they will be their successors.

As the chief executive officer, it is my responsibility not only to pursue profit, but also to create a community where those I have employed can complete their careers 20-30 years from now with the feeling that he had truly made a good life with the company.

Japanese company employees know that they are members of a community bound together by a mutual fate for which they bear the hardships of today in anticipation of a better future. There are many company presidents today in Japan who at one time or another served as union leaders. This fact makes present union leaders feel that they too may, sometime in the future, move into management positions within their company, and therefore their long term interests are closely tied to the company. They do not pursue short term, myopic profits for the immediate future. When the company proposes a plan to save a certain portion of profits for facility investment or to pool for the following year, unions may well be willing to make compromises, because they know that the future of the workers is tied to the future of the corporation. I would like to ask presidents of American corporations if they ever heard of any American union leaders who have become heads of corporations. Japanese executives have a categorically different corporate philosophy than do American executives, who are more anxious to demonstrate profitability to please stockholders. I have asked Americans what, in their minds, is the meaning of "company." In my mind, it is a group of people conforming where interests are shared. I must point out that in the American interpretation of company, this concept does not exist. It is my firm conviction that man is created equal, irrespective of color of skin or nationality and it is natural that my concept of company includes the employees of my overseas Sony operations. My California plant opened in 1972, initially with 250 employees. Soon after the plant opened, we were hit with the worldwide oil crisis, which caused a recession. The California plant was not immune to this development and the facility lost business and was unable to support its 250 employees.

The president of Sony America was, of course, an American and he came to me saying that there was no other choice but to lay off some of the employees. I refused his proposal, telling him that I would take the responsibility for possible losses in order to retain the employees. We sent capital from the Japanese headquarters to sustain the 250 person work force for some time. During this period, there was not enough work to keep everyone busy, so we developed educational programs, out of which grew not only a sense of appreciation, but also a real emotional involvement with the company. They began to feel that the plant was their home, and began to clean and polish the facilities, and take care of their work sites on their own. These people became the central core of the California plant, which now employs 1,500 people. They don't even talk about unionizing themselves. American unions are basically industrial, which means that there are always active union leaders from outside who attempt to unionize our plant. Our workers had tee-shirts made, with their own money, saying "WE DON'T NEED THE UNION."

The United Kingdom has a unique law which unionizes every company. Sony UK is no exception. Yet some of our women union members insisted, in an interview on the BBC, that their union is different than other, ordinary ones. This is a positive demonstration of the feeling that we all share the same fate, no matter where we are in the world.

In the U.S. and UK, most employees never have even seen their top executives. When I go to one of our plants, I normally mingle with the employees and eat together with them in the company cafeteria. This helps in developing communication and trust. It may be a bit difficult to expect the same response from foreign employees, but it is still the best approach. The Japanese system is not completely applicable to the American system of course. Yet patient demonstration to show that the company truly wishes to protect their interests, even when business is at its worst, will show results. People tend to develop trust under these circumstances. The best thing a company can do is to treat its employees as dignified human beings.

The Japanese Approach Can Be Used Worldwide

European corporations appear to be treating their employees more humanely than their American counterparts, although they are still far from the concept of lifetime employment. Large corporations do not hesitate to lay off employees whenever business is down; they even close operations without notice or sell out, treating employees as if they were tools or equipment.

There is also obvious class discrimination within companies. Engineers, for example, wear white collars, stay in their offices, and

seldom show up in the factories. They want to tell workers what to do, rather than donning blues and showing them. In my company, all workers wear the same uniforms. I also wear the same uniform, not only in the plants, but also at company headquarters. All our plant managers do the same. Those who are in training have been instructed to walk through the plant frequently, establishing personal contacts with the workers. Those who become foremen or section managers are encouraged to hold brief meetings each morning with their subordinates to read their mood and detect problems in advance. They are instructed to talk with those who seem ill or depressed, to find out if they need medical care or if they are having family or personal problems. Should this be the case, they should be allowed to take time off and deal with these problems first, while the other workers cover for them. This also helps the sense of togetherness among workers.

On the occasion of 20th and 25th anniversaries of Sony America, my wife and I visited all our American plants, gave talks, had dinner with our employees and shook hands of all our workers. Since at some plants we had three shifts, we had dinner three times in one day, with the night shift taking their turn at 4:00 a.m. I told everyone that we greatly appreciated their contributions which helped make the 25th anniversary a celebration and shook everyone's hand. I was able to feel their response even physically. These employees told me that this experience was something they never would have had in an American company. I felt our Japanese approach was not foreign to them at all.

One episode made me particularly happy. I visited one of our rather small laboratories, and said that I wanted to meet all of its members. The head of the lab asked if he could take my picture. He took his camera from his desk drawer and took me to each member of his staff, introducing me to him or her and taking our picture as we shook hands. There were almost 80 people at this facility and he promised to make a print for each person. I was surprised that this typically Japanese activity was taking place in a facility where there were no Japanese! There again, I felt that we are all basically the same, irrespective of national and cultural differences.

Our style and our efforts have a ripple effect and make other members of our company feel the Sony spirit. I am not saying that whatever style and customs we have developed are automatically good and acceptable everywhere. What I am emphasizing here is that the basic attitude of a corporation and its philosophy can be understood worldwide, and certain aspects of Japanese tradition and style can be rooted overseas.

On the other hand, I recognize fully that certain aspects of American business administration, such as numerical and analytical operations, are excellent as we have sent many individuals from our company to American business schools to learn such matters. Combining good traditions and practices of both the Japanese and American systems will, I believe, make for a very strong corporation.

LET'S BECOME A JAPAN THAT CAN SAY NO

(Morita)

Saying "No" Actually Represents a Deepening of Mutual Understanding

It is inevitable that Japanese companies have been establishing American operations. America after the era of Reaganomics is now responding to the trend with new Bush Administration policies. In response, Japan should now begin to make it a habit to say no when its position is clearly negative. It is the rule in the West to say "no" whenever one's position is clearly negative. We are in a business environment where "well" or "probably" have no place in normal business conduct. I have been saying "no" to foreigners for the last thirty years. Clearly, the Japanese Government has missed many, many opportunities to say "no."

Take the auto trade issue, for example. America forced Japan to limit its auto exports to two million units per year under the guise of voluntary restrictions. When the American market became more lucrative, and the number of imported cars could have been increased, American auto manufacturers demanded that the quota be tripled. MITI and the Prime Minister gave in to American demands.

In my opinion, this was a great mistake. Both the MITI minister and the prime minister at that time should have taken the position that the American demands were unfair. The Big Three had already increased their profits enormously and individuals such as Lee Iacocca and Roger Smith were receiving more than a million dollars each in bonuses. They simply demanded special treatment in order to increase profits from the Japanese imports which they sold under their company brands when they requested that the quotas be tripled. That was the time for Japan to have said "you are being hypocritical, criticizing others as unfair when in fact what you are demanding is what is really unfair." The timing was crucial; unless one registers opposition or negative reaction at precisely the right time, Americans take the situation for granted and later insist that they were right as no opposition was registered at the time of the demand. This has always been the case in the past.

The trade imbalance is another case which should be scrutinized as to whether or not American demands are based on fact and reality. I once asked Americans to investigate what Americans had been importing from Japan.

American imports from Japan are mostly products which require a high tech capacity to produce. Many of these products fall into the area of military procurement, but it is true that even the private sector is buying Japanese products which are technologically indispensable. Even some of the inexpensive home electrical appliances may be obtained from Japanese manufacturers within a short time frame if they require high technological skills in the production process.

America has left the production responsibility with Japan, resulting in a heavy dependency upon Japan. American politicians only talk about the results of this situation, blaming Japan for the trade deficit to get votes. Yet it seems that these same politicians don't even know specifically what it is that America buys from Japan. If they took the time and made the effort to seriously investigate the matter, they could not condemn Japan so out of hand.

Japan should tell America that it may buy these quality products irrespective of the exchange rates, even when the US dollar falls to the 100 to 1 ratio. Artificial manipulation of the exchange rate does not benefit the American economy. Such products as transistors, which Sony originally marketed, may today be purchased anywhere outside Japan, and so are not a matter of friction between the US and Japan. Products recently developed in Japan are not as easily obtained elsewhere. There are some things that can only be found in Japan and Japan cannot be blamed for over exposing. Those who say otherwise simply do not know the facts.

Computer terminals are in short supply at present and are being rapidly developed in Japan. Japan should let America know what the situation is and make the US realize that the relationship between the two nations is increasingly mutually dependent.

My purpose in advocating saying "no" is to promote that awareness. "No" is not the beginning of a disagreement or a serious argument. On the contrary, "no" is the beginning of a new collaboration. If Japan truly says "no" when it means "no" it will serve as a means of improving the US-Japan relationship.

National Characteristics Which Make It Difficult for the Japanese to Say "No"

The question arises as to who should say "no?" Japan's Confucian background makes is very difficult for its people to say "no" within the context of normal human relationships. In a traditional hierarchy, subordinates dare not say "no" to higher ups without violating normal courtesy. The higher up take a "no" from a subordinate as insubordination. In a staff relationship, "no" is something to be avoided in order to maintain smooth human relationships.

Living in a homogeneous society since childhood, we Japanese have grown up without practical experience in quarreling and fighting in a heterocultural environment. Many of us feel that eventually other people will understand our true feelings on an issue without verbalizing them. In short, we expect a lot when it comes to mutual understanding. Americans may go directly to their boss to offer an explanation whenever they feel they are not properly understood. Japanese, on the other hand, even if they feel they are not properly understood, remain hopeful that they will eventually be understood or that the truth will reveal itself sooner or later. They do the same with foreigners in foreign countries. They feel that sincerity and effort should automatically be reciprocated. In my mind, this can happen only in Japan, but never in foreign countries. Wordless communication and telepathy will just not happen.

I admit that I may be more westernized than most Japanese, since I believe that we should be more straightforward as we become closer, and that a serious quarrel need not destroy a friendship. This may not be accepted in a traditional Japanese relationship; we avoid serious confrontation by turning away from the cold facts. Instead, we tend to make loose compromises. It is quite simply our tradition not to say "no" to our friends.

We should not expect to find a similar understanding from foreigners concerning this particular Japanese mentality. It is too easy to expect understanding of one's opposition without using "no." I could say it is a Japanese defect to expect something without using the rational verbal procedures.

If you stay silent when you have a particular demand or an opposing position to express, the other party will take it for granted that you have no demands or opposition. When you close your mind to the outside, remaining in a uniquely Japanese

mental framework, you will be isolated in this modern, interdependent world.

LET'S NOT GIVE IN TO AMERICA'S BLUSTER

(Ishihara)

Statesmen Ought to Make Best Use of All Available Cards

America has renewed its bluster in the last year. Politicians must sense that they will win more votes bashing Japan than bashing the Soviet Union. Criticism of Japan by U.S. politicians has taken on a rather hysterical tone these days. I experienced it personally when I was there and met with politicians who told me that was a new power shift between the U.S. and U.S.S.R., as if this development should scare Japan somehow. These same politicians indicated that since both Americans and the Soviets are white, at a final confrontation, they might gang up against a non-white Japan.

Japan should never give in to such irrational threats. Japan also holds very strong cards in high technology capabilities which is indispensable to military equipment in both the U.S. and U.S.S.R. Yet Japan could well have said "no" to making available specific technology. Japan has substantial national strength to deal with other nations, yet some of the powerful cards it holds have been wasted diplomatically.

I happened to be in America at the time the U.S. Congress passed a resolution to impose sanctions on Japan on the semiconductor issue. Congress seemed to be very excited, almost in the same mood as was the League of Nations was when it sent the Litton Mission to Manchuria to observe Japanese activities there in relation to the Manchukuo Incident.

I talked with members of Congress in this tense atmosphere, and I did not feel they were conducting matters on a rational basis. Some Congressmen were actually brandishing sledgehammers, smashing Toshiba electronic equipment, with their sleeves rolled up. It was just ugly to watch them behave so.

I commented at that time that the U.S. Congress is too hysterical to trust. Their faces turned red in anger and they demanded an explanation. I told them: "Look—only a few decades ago you passed the Prohibition Amendment. No sincere Congress would ever pass such irrational legislation." They all just grinned at me in response.

Yet I must admit, that it was Japan who aggravated the semiconductor issue to such a low level, by not saying "no" on the appropriate occasions.

After he was elected to a second term, Mr. Nakasone promised America that Japan would avail highly strategic technology without giving adequate thought to the significance of that kind of commitment. The strongest card, which he should have played, was virtually given away free to America. He probably wanted to impress America, hoping for a tacit reciprocity from a thankful U.S. Unfortunately, it was only Mr. Nakasone who recognized the value of that card at the time. Both the Liberal Democrats and opposition parties overlooked the significance of this issue. I assume that the leaders of those parties, such as Takeshita, Miyazawa and Abe did not know it either. It is such a pity that Japan's politicians are not aware of the political significance of Japan's high technology capabilities.

In reality, Japanese technology has advanced so much that America gets hysterical, an indication of the tremendous value of that card—perhaps our ace. My frustration stems from the fact that Japan has not, so far, utilized that powerful card in the arena of international relations.

What Mr. Nakasone got out of the free gift was Reagan's friendship, so-called. We all know that love and friendship alone cannot solve international conflicts and hardships.

Nakasone Bungled the Relationship

I truly regret that Japanese diplomacy has been based on a series of "yeses" instead of skillful manipulation of strong ace cards. Former prime minister Nakasone has done a substantial disservice to Japan in terms of his handling of relations with the U.S. These are among his most unfortunate mistakes. He boasted of the so-called "Ron-Yasu" relationship as if he had succeeded in bringing about a skillful policy toward the U.S. In reality, he was simply a lowly yes-man to Reagan.

It was actually I who introduced Mr. Nakasone to Mr. Reagan. I asked one of Mr. Reagan's assistants if he ever recalled a "no" from Nakasone to Reagan. He immediately replied he did not know of any, and Mr. Nakasone was a "nice guy with a sardonic smile."

Former Prime Minister Nakasone was in a position to know that Japan's leading edge technology was superior to that of the U.S. so much so that Americans had become nervous concerning the magnitude of Japan's superiority in the area. Yet he still did not say "no." Was he taken advantage of? Did he have some weak spot as did the prime minister (Tanaka) at the time of the Lockheed scandal during the Nixon Administration? Otherwise, Japanese leaders who hold such high cards should be able to play them in dealing with American demands.

The FSX, the next generation of fighters, developed by Mitsubishi Heavy Industries during the Nakasone era, has become another source of controversy in the U.S. as it relates to defense matters. Further development of the FSX appears to be quashed by the U.S. I am unaware of any deals made under the table, but there is considerable frustration in Japan over the matter.

Mitsubishi Heavy Industries is a conglomerate with a wide variety of technology used in manufacturing advanced products. The chief engineer there is a contemporary of mine who developed the most advanced land-to-air missile. He is also the man responsible for the design of the next generation fighter and he believes that Japan should have its own capacity to provide such equipment, which of course astonishes Americans.

The FSX is a marvelous and formidable fighter. No existing fighter, including the F-15 and the F-16 can match it in a dog fight. I recall when the Secretary of Defense Weinberger became serious about quashing the FSX Japanese development plan, strictly out of fear.

Unfortunately, Japan has not yet developed a powerful enough jet engine, although I advocated such development while I was a member of the Upper House. Japan still must purchase jet engines, which are mounted on the F-15 and F-16. If America gets really nasty, Japan could buy engines from France, which is quite anxious to export military equipment (at the same time that country's president is advocating truces all over the world, I might add). If France is reluctant to sell what we need, I would not mind going to the Soviet Union, although the quality of the Russian engines is not particularly impressive.

New Mitsubishi designed jet fighters equipped with Russian engines may only have a top speed of 95% of existing F-15 and F-16 class fighters, so one might think them inferior. On the contrary, their combat capability is far superior in a dog-fight situation. It can make a 380-degree turn with a third of the diameter needed by other top fighters. The F15 and 16 require 5000 meters; the Mitsubishi fighter only requires 1600 meters. Just think of war as a game of tag. What is necessary is not maximum speed but great maneuverability. Mitsubishi's FSX fighter can get right on an enemy plane and send heat-seeking missiles with 100% accuracy. Incidently, there are two types of air-to-air missiles, heat seeking and radar controlled. The radar controlled type may even fail to hit a jumbo jet, while the heat tracing type can fine tune its direction to head for the enemy's source of heat.

The FSX was a surprise to the Americans, as were the Zero fighters at the beginning of the Second World War. They never expected to see such an advanced fighter as the Zero, which virtually controlled the air at the beginning of the war. That such a formidable weapon as the FSX is in production today outside the US came as shock to Americans. The Japanese FSX is equipped with four vertical fins, similar to shark's fins. Each acts as a steering mechanism, like the steering wheel of a four-wheel drive automobile that can make a complete turn in a small area without moving back and forth. Such a marvelous idea probably is not the monopoly of Japan, but it was a Japanese manufacturer who developed the idea into reality, thanks to Japanese advanced high technology.

Russian fighters are also equipped using Japanese know-how, especially in the areas of ceramics and carbon fibers. Special paints on American reconnaissance planes which assist in avoiding radar detection are also made in Japan.

Shocked by the high standards of the FSX, I guess that the US pressured Mr. Nakasone, probably citing his earlier commitment on technology. His submission to American pressure eventually caused the mothballing of the FSX, to be replaced by future projects of a joint US-Japan development plan. In November 1988, the two governments signed an agreement that set the course for the joint development of the FSX; an agreement which leaves many unsolved problems at the industry level.

One of the manufacturers involved, General Dynamics, was very anxious to assume the initiative on the project, dividing it up among others. It met with resistance from Mitsubishi, and General Dynamics came up with a plan that would separate the development of the left and right wing—a very peculiar approach.

In short, America wants to steal Japanese know-how. They cannot manufacture the most technologically advanced fighters without advanced ceramic and carbon fiber technology from Japan. That is why America is applying so much pressure, attempting to force Japan to come to American terms. Some of Japan's industry representatives appear willing to deal with the Americans under the table, probably with the good intentions of smoothing US-Japan relations on the issue. I happen to disagree with such an approach. We just cannot give in on this issue. We must be persistent to the maximum degree. If America does not appreciate a rational division of labor on the project, we should discontinue the project and start all over from scratch.

The joint development idea is a legacy of the Reagan-Nakasone era. Both men are now out of power and we can retract the whole thing and tell the US that we have decided to develop our own project without its participation. It is our choice. We must bluff to counter American bluff, otherwise we will continue to be the loser.

I brought this subject up the other day to Mr. Nakasone. He responded: "Well you had a pretty sharp interest in that issue at the time." I said that I was "probably the only one concerned about the issue at the time." Mr. Nakasone then insisted that he made the decision to compromise in order to maintain good US-Japan relations. He also admitted that America was then already very much afraid of further Japanese technological advances. Well, compromise is fine, but in reality this was not a compromise: it was a sell-out—a simple sell-out of Japan's interests.

I don't regret it any less when we make the silly mistake of not saying "no" especially when we hold the strong cards. Such freebies are now taken for granted and America comes back with more bluff. On the record, USTR Yeutter stated that the "application of high pressure is the best way to manipulate Japan."

My position may draw some criticism in Japan, where it probably will be said that I am playing with dynamite in dealing with America in this fashion. It goes without saying that an equal partnership must be carried out without humiliating pressure or compromise as the result of such pressure. This is the reason I am advocating that Japan say "no." "No" is an important instrument in the bargaining process.

Diplomacy should be Free of External Pressures

Diplomacy which lacks the "no" factor cannot be diplomacy for the benefit of Japan. Japan has had a solid basis for saying "no" on many occasions. All we must do is play our cards wisely, playing our ace intelligently. Japan is very poor at diplomatic tactics. It is a wonder to me that Japan has failed to recognize that its initiatives are instrumental in the ultimate decision making process in the international arena.

Mr. Glen Fukushima, an American of Japanese descent in the office of the USTR (Deputy Assistant USTR for Japan and China), who was acquainted with Senator Aquino of the Philippines while both were at Harvard, is one of the most capable Asian specialists. His wife is an intellectual Keio University graduate, who prefers to live in Japan, forcing Glen to commute to Japan two or three times a month.

On one occasion, I had dinner with him and asked him what America's next Japan-bashing scenario would entail. He replied that the US would take up the distribution issue since this cannot be rectified by Japanese politicians without pressure from the US. I hate to use American pressure in order to accomplish a national objective, yet, I must admit that the distribution system is one of Japan's biggest headaches today. There is no question that high prices in Japan are caused by the distribution system itself, which is made worse by Japanese politicians.

There are domestic areas where we Japanese must say "no" also, even before we say "no" to outsiders. The liberalization of rice is one such issue. Opinions on the rice issue sharply divide politicians such as I, whose constituents are urban, from those representing farmers.

Former minister of agriculture Sato is a good friend of mine, but his advocacy of food security is becoming diminished. Inevitably, mutual dependence is becoming more and more a reality in our world today. America was not even able to place a ban on exports of grain to the Soviet Union when the Russians invaded Afghanistan. There would have been too much pressure from American farmers. If that is the case, it would probably be practically impossible to put a ban on agricultural exports to Japan. The rice issue has its sentimental aspects in Japan as well as its practical aspects, which make the overall issue more complicated. Yet it is obvious that we must liberalize the market. Such is also true of construction projects. It is inevitable that we allow foreign construction firms to participate in Japanese public construction projects. Japanese general contractors have been maintaining prices as much as 40% higher in comparison to foreign bidders, due to bid rigging traditions to assure a monopoly on business for themselves. There is no way these practices could ever be free of foreign criticism.

In the course of my conversation with Glen Fukushima, I asked whom among the Japanese negotiators he considers the best. He immediately came up with the name of MITI's Kuroda, whom the Japanese press used to criticize for his tough positions. The press claimed that his participation aggravated the problems with the US. The Americans criticized him for being stubborn. Strangely, the American negotiator named him the most effective. He is stubborn and is able to say "no" decisively whenever he should do so. The Americans usually try to overpower negotiations by increasing pressure. But Kuroda does not feel that he must say "yes" to American pressure. America is a giant in many ways and, in many ways, Japan is a dwarf. This obvious contrast has been exploited by the Americans often in the past. Mr. Kuroda kept pointing out that irrational pressure is not the result of reason or logic, and reinforced this position by withstanding increasing pressure. His "no" is not a no for its own sake; he always states his reasons. This is the proper approach and attitude in negotiations. In the past, there have been allegations that Japanese logic and opinions have not made any sense to the other side.

When the opposing side points out that Japanese opinions and demands have no logical basis, all of a sudden the illogical Japanese start saying "yes, yes, yes" in a panic. But these "yeses" do not necessarily mean yes in the sense of positive assertion. At any rate, the other side then comes to the conclusion that Japan will not take action unless pressure is placed on them. This is a rather unfortunate situation for the people of Japan. The Japanese image of being soft in the face of pressure does not help Japan's diplomatic efforts at all.

I have often suggested that at least half of Japan's diplomats stationed abroad be civilians. Those who are in business and other professions who have dealt with foreigners are in a better position to represent the interests of Japan than are career diplomats. Send Mr. Morita to America as our ambassador: a brilliant idea! But it should not be just an idea. I truly believe that it would be most beneficial to the US-Japan relationship to have such an ambassador from Japan to the US.

THE U.S. AND JAPAN ARE "INESCAPABLY INTERDEPENDENT" (Morita)

No Way To Avoid the Trade Frictions

Recently the expression, "inescapable interdependence" has been heard quite often among Americans. If we dare to explain this concept in a more extreme way, perhaps we can say it's a "fatal attraction". With this trend now prevailing in the world, we have no choice but to live cooperatively. Everyone on earth, not just the United States and Japan, is mutually dependent and this is unavoidable. This is the times that we are facing now. What does cooperation mean?

A Japanese tends to say, "Let's work together." But I often wonder whether they really understand its meaning. This can be applicable to Americans, as well. We are at home using this expression but it seems to only be used as a convenience. Furthermore it is out of the question to force "cooperation" through threats.

To cooperate is to maintain harmony. It is not harmonious to force your adversary. When they cope with you, you, too, must cope with them. You have to give up some of your interest; you must abandon something.

I tell people whenever I have a chance that we know what it is to be selfish but hardly anybody is aware when he himself is being selfish. We say that one is selfish but actually this person probably has no idea that he is perceived as such. In this sense, Japan also can be thought a little bit selfish by other countries, although we hardly have such idea.

Looking for the reason, we are so perceived, the opening of the domestic market can be one example. Everyone agrees that we should open our markets to foreign traders, but when it comes to individual, this is hard to actualize since someone says, "no, I cannot accept this", and then someone else says, "no, I cannot accept that." Although at summit meetings, Japanese leaders assure others that they will do their best, and they actually do try to open the market. In the end, however, this is never actualized since their promise goes against domestic interest groups and they are forced to back down. Only lip-service followed by no achievement might result in being called "liars" and this is surely worse than "selfish."

The development of communication technologies means this is a shrinking world and any country will be left alone if it does not talk frankly to its people and friendly countries about the compromises that they must accept.

Free people in the free world ask for their freedom but at the same time they respect the freedom of others. And I think it is genuine freedom to think "we should abandon some so that we can respect others". It will simply increase friction if we just look out for our own benefit, and put priority on winning the race based on the premise that we simply can focus on our interests alone since we are in the world of free economy.

We should also recognize that friction seldom occurs with those who are far from you. Friction occurs as we move close. We cannot escape from the trade friction as long as we belong to the world of "inescapable interdependence".

Japan's Central Role in Asia

The closer we become, the harsher the friction can be. So it would be wise for us to prepare for problems with neighboring Asian countries.

I went to Singapore recently to attend a ceremony marking the opening of our new plant, and had a chance to talk with President Lee Kuan Yew who has been a friend for a long time. He invited me to his home, we talked over the dinner and I stayed with him.

The plant our company opened this time in Singapore is operated automatically by robots. We use materials Singapore supplies and employ able engineers graduated from good schools in Singapore, producing special parts in large numbers. The plant itself will be a foothold to supply the products all over the world. When I proudly held forth my new plant, he was very pleased and said that in the past when Japanese firms opened plants in his country, they needed a large number of employees, where they in fact have never had enough personnel. Because of the nature of his country, that is, Singapore is a small island, this caused wage increases at a drastic pace. This is what they had wanted; a plant with sophisticated technology.

Transferring our technologies, not teaching management, I believe, is the best way to alleviate friction between Southeast Asian countries and Japan. These countries, NICS, then NIES, are now the Four Tigers or Five Tigers. It might be too much to say that they developed thanks to the Japanese economy and industrial technologies, but I believe we contributed to them in such a way that contributed to their current prosperity. From now on, Japan will need to take a major role in Asia. You already are able to see this is happening when you recognize that Tokyo has taken on a major role as a finance and money center like New York and London.

In the past, we yearned to go to New York when we were young. Similarly, the youth of Southeast Asia yearn to visit Tokyo or Disneyland in Japan. I should avoid the expression, "leadership", but Japan has begun to assume that role as a center in Asia.

To take on the role as an initiator means we must also be able to take on the role of arbitrator. That is, we must think carefully what constitutes a real leadership role in this mutually dependent world.

America, You Had Better Give Up Certain Arrogance

As you (Mr. Ishihara) mentioned before, rapprochement between the United States and the Soviet Union and Japan's involvement in their military strategies because of its highly-sophisticated technology directly affects new trends on the world scene.

I do not think anybody imagined a decade ago that these two superpowers would be mutually dependent on each other in a military sense and that there would be a strange structure in the power balance among the United States, the Soviet Union and Japan. Nobody can deny that we are going to have a totally new configuration in the balance of power in the world.

Facing this, most important to Japan in the practical sense, is the relationship between Japan and the United States. Japan needs the United States. I think the United States needs Japan as well. It is a bond we can never cut, and this might be the "fatal attraction" between us. Since we can never separate, we had better look for the way to develop through cooperation a healthy relationship through cooperation. And we want to ask you Americans, "what is going on now in your country? Do Americans really understand the meaning of 'freedom' and the role of Japan which is so necessary to the United States?" When you see present conditions, it is obvious that the United States is not strong enough in a fundamental and structural sense. So, I think what is most important is that we ask them frankly as an equal and not as a subordinate, "Are you really sure that you are all right?" We will be in trouble as will the whole world if the United States is not strong enough in the fundamentals and this means more than talking about something current. It must be recognized by Mr. Bush as well. In this sense, it is important for Mr. Takeshita to deliver our message correctly in the coming summit. In my understanding, however, these summit meetings are held according to an itinerary prepared at the working level and they decided what was supposed to be said by the leaders. In negotiations among business leaders, we, top management hold discussions face to face, saying "yes" or "no", or "if you will do that, we will do this." However, we have a tendency to prepare answers for negotiations even in business world in Japan. Take my case, for example. Once a chairman of a large Japanese firm was visiting me and I planned to talk with him face to face. Then, someone from that office called us and asked what I was going to talk about when we met. "Our chairman is going to say such and such. How will you respond?" They wanted to prepare all answers beforehand. I do not think we need to have meetings if the content is planned beforehand. I want Mr. Takeshita to say correctly how we, Japanese, see the present situation in the United States and tell them clearly what we want them to do. I think we should tell them, "please do not cling to the image that you are the superpower, but rather look for the way to get your economy on the road to recovery. We should tell them, "we are going to back up your dollar, so face the fact and issue yen-bonds, for example, as Carter Administration issued pound-bonds." Americans have to abandon the idea, such as, "our federal obligations do not bother us since we can print more green backs." They have to change the way they think about their own economy. To this end, we Japanese must deliver the message "if you cannot make both ends meet, we cannot either." We must do this even if it takes time to make them understand.

It is high time to let them know we might go bankrupt together if things are not resolved. The United States and Japan relationship is in serious trouble. Because of our historical discipline, Japan has adhered to the principle that "silence is golden", but I believe Japan must insist that the United States do what must be done. An outspoken person like me is easily criticized from every corner and I am sure Mr. Ishihara has had the same experience since he is also very outspoken. But to be silent and to put up with things do not work at all in the West. As Ishihara has suggested, I think we should say what we have to say. If not, I am afraid that we will lose our own identity as Japanese in the world.

JAPAN SHOULD LIVE IN HARMONY WITH ASIA

(Ishihara)

Restrain America!

When the time comes when Japan does say "no" decisively on a particular issue, there may be a dramatic reaction. It should come as a shock to the Americans, and a number of different reactions would be possible. Even now, some Americans suggest the possible physical occupation of Japan in case Japan engages in semiconductor trade with the Soviet Union.

Yet when the time comes, we may well dare to say "no." The relationship between Japan and the U.S., as Mr. Morita describes, it is unbreakable. However, the whole world does not exist for the sake of Japan and the U.S.-Japan's relationship with the rest of the world does not exist only in relation to or through the U.S. Should America behave unreasonably toward Japan, Japan must open channels to deal with the rest of the world from a different standpoint than on the basis of the U.S.-Japan relationship and must show that it is doing this to the Americans.

America itself has already exhibited certain indications that it is shifting towards a closer relationship with the Soviet Union, as Alvin Toffler stated, insinuating that Japan will be threatened once the U.S. establishes a more collaborative relationship with the Soviet Union, similar to the case of the U.S. movement toward China, which it did without keeping Japan advised. Beyond the shock of America's new relationship with China, which burst forth in December 1978, there was also an astonishing high technology demonstration.

I for one had a chance to observe some of that demonstration. It began with a set of satellite photos which Dr. Kissinger brought to China. At the time, Viet Nam was engaged in a military conflict with China, subsequent to the fall of the Saigon government in April 1970 and the Cambodian war. The Sino-Vietnamese war was recklessly provoked by Deng Shao Ping, chief of staff in China. In the initial encounters, China was severely defeated. The real power behind Viet Nam was the Soviet Union. The Soviets provided Viet Nam with detailed satellite photos illustrating the movements of the Chinese military, the number of soldiers and divisions, the number of tanks unloaded at Kuang Tong station and which direction all these troops took. Taking advantage of the superior information available to them, as provided by the Soviet Union, Viet Nam was able to lure Chinese troops deep into the mountains, then destroyed them with anti-tank missiles. This miserable battle was all recorded by American satellites, which Dr. Kissinger presented to the Chinese with the comment "what a silly war you people have conducted."

Needless to say, it was a shock to the Chinese leaders to see how, step by step their military was demolished.

I assume that the Americans showed another series of satellite pictures showing the horrible massacre of Chinese soldiers at the seige of Damansky Island (in Russian, or Chin Pao Island (in Chinese), which is located in the middle of the Amur (phonetic rendering) River. At first, only a small number of Russian soldiers occupied the island and they were soon driven off by the Chinese, who had many more troops than did the Russians. The Russians returned in greater numbers and recaptured the island. Finally, the Chinese sent the equivalent of a human wave of troops, almost flooding the island with soldiers. As the Chinese shouted victory, the island was surrounded by a sudden mist and eventually it was covered by a dense fog. The Russians exploited this climatic assistance, surrounding the island with tanks and opening a salvo. At dawn, there were a great many dead Chinese troops. The Russians landed their tanks, rolling over the dead, wounded, and living, reducing all to nothing.

The Americans showed clear pictures of the events, illustrating what had taken place using satellite pictures, a great demon-

stration of the combination of technology and intelligence gathering. China was shocked and disturbed that it could not effectively counter a situation like that as they simply did not have access to the technology required. They listened to the Americans, and agreed to the development of a bilateral relationship with the U.S. on American terms. America had played its high tech card quite effectively.

The normalization of relations with China, by-passing Japan, set a precedent and provided a basis for other such threats to Japan by the U.S. America can bluff Japan by indicating that it can develop a similar relationship with the Soviet Union, without consultation, so that Japan would be less needed within the framework of U.S. global strategy. But Japan has a similar card to play, to counter the American bluff.

Some of Japan's business leaders have long had an interest in Siberian development, which now appears to be a realistic possibility. Some of them are of the opinion that Japan could go neutral, revoking the U.S.-Japan Security Treaty, if the Soviets will return the northern islands, granted that Japan would be given the right to develop Siberian resources.

This may be a realistic choice from the Soviet point of view since some critical technologies such as linear technology are available from Japan. The U.S. simply does not have them. Japan had better start sending some signals of its own to America. My American friends comment that my behavior in the U.S. is too provocative; I feel that more of us should speak out like this more often.

Japan could have the Soviets formally request Japan's linear technology. The COCOM would claim that it is illegal for Japan to provide this technology. Japan would then mount a public relations campaign, appealing to the rest of the world that the use of its linear technology is simply to enhance the efficiency of the Soviet railroad system in Siberia so that travel time is shortened and the whole thing will be rationalized as an attempt to restrain American intervention. In fact, the UK and France are champions at this kind of public relations game, in combination with diplomacy. We need more skillful players in the game to counter the formidable American challenges in the international arena.

Japan Is Not Getting a Free Ride on the U.S.-Japan Security Pact

It goes without saying that the U.S.-Japan relationship is a vital one. The security treaty has certainly been helpful to Japan. America, however, has chosen to become involved for American interests; it did not want to see the restoration of Japanese military power. However, the so-called American nuclear umbrella as a deterrent power for Japan is not as valuable as the Americans have said. I verified this myself twenty years ago and put it into the official record. The American nuclear umbrella is just an illusion as far as the Japanese people are concerned. Also, the so-called "free ride" on the U.S.-Japan Security treaty is no such thing and has no earthly basis. I have stated this repeatedly. The Japanese people have been forced to thank the U.S. for an illusion. Both the U.S. and the USSR had to enter into the INF agreement due to the nature of a changing power shift in the world, which on the bottom line, is inevitable in light of the high technology dominance by Japan. This has been clearly seen by individuals such as Dr. Kissinger, who even foresaw the situation today long ago, a position he has stated on a number of occasions. Poor Japanese politicians have never studied these issues systematically and therefore can never provide a rebuttal to American allegations. Americans, for their part, seem to have emotional and intellectual difficulties in admitting to changes and new developments.

A Pentagon task force sent a warning on electronics, with particular emphasis on semiconductors, those who have nothing to worry about but Japan. America is very seriously concerned about losing power of any kind to Japan. Some Americans have been raising their voices in advocation of an increased Japanese defense capacity. This may be a worthwhile suggestion. We should overhaul our current defense system, although I am not advocating an abrupt cutting of ties with the U.S. We have accepted this absurd defense formula consisting of three defense forces. This system must be completely overhauled to suit present realities, including a much greater deterrent capacity, exploiting our high technology to the maximum. We should develop the most persuasive and demonstratable deterrent formula which would, without any doubt, show our adversaries that any attack on Japan will end with unbearable damage to the aggressor from both a strategic and a tactical viewpoint.

Production and maintenance of escort ships which can only exhaust their missiles and ammunition within a few minutes, and then sit and wait for death is absurd. Participation in RIMPAC with such equipment makes no sense. RIMPAC has nothing to do with the concept of active defense.

In a lecture that the Defense College of Japan, the commander of the US 7th Fleet declared that it is 100% unlikely that Soviet forces could land on Japanese territory. This is honest- but stupid-comment. Some time ago, we invited a famous Israeli tank division commander named Tam (phonetic rendering) to Japan. He kept annoying the Defense Agency by asking why Japan was building tanks. He was considered to be one of the top tank strategists in the world, and he told us that even on Hokkaido there was no need of tanks for defense. He said that Soviet attacks would have to be destroyed at sea. He also expressed doubt in the value of escort ships.

His points are absolutely valid. Tanks and escort ships were built and maintained at the direction of the Americans. America has imposed its defense formula for Japan on Japan, reproducing its own defense formula within Japan. Thus, Japan has ended up with the defense system it has simply because of one-sided, pro-American diplomacy: one in which Japan says only "yes."

I conducted my own cost analysis of Japanese defense systems and discovered the whole thing could be far less expensive if Japan developed its own system in accordance with its own initiatives and planning, in comparison to the expenditures forced on us today by the US. Despite the bowing under to American will by Japan, it still is the target of American politicians such as McClosky who charge that "Japan is protected by American blood shed in the Persian Gulf."

The time has come for Japan to tell the US that we do not need American protection. Japan will protect itself with its own power and wisdom. This will require a strong commitment and will on our part. We can do it as long as there is a national consensus to do so. There may be some political difficulties at this point in forming this consensus. From both a financial and a technological point of view, there are no barriers to accomplishing this goal in the near future. We can develop a more effective and efficient defense capability at less than we are paying today.

In reality, the abrupt cancellation of the security treaty is not feasible. But it is a diplomatic option and a powerful card. Outright refusal to consider such an option means giving up a valuable diplomatic card. The fact remains that we do not necessarily need the security treaty and a security system which will meet Japanese needs, can be built by Japan alone.

Both the right and left on this issue tend to become fanatical on the security treaty debate. It is most regrettable that we do not have a cool and rational forum where the objective profit and loss aspects of the issue can be analyzed. But the time will come when we will have to face this issue and this time is in the near future.

The current state of the Liberal Democratic Party means that it cannot afford a serious deliberation on this issue. Once the opposition parties disassociate themselves from a one-sided pro Russian and Chinese policy and demonstrate their capacity to be able to replace the LDP as alternative political parties fully recognized by the voters, we will be in the position to examine our options with greater flexibility.

Japan Should Live in Harmony With Asia

Japanese popular songs are heard all over Asia these days; it reminds me of the time when the Japanese became so interested in American pop music, which, at the time, conditioned our psycho-emotional base so that post-war Japan evolved into a consumer-oriented society. Structurally, there must be similar powers during such social phenomena and I wonder what it is today.

As a matter of fact, it has always been some technological breakthrough which has moved history into the next stage, during any given era, even as far back as the stone age or the copper epoch. Technology has always set the pace of civilization and cultures flourish on this basis. When we start seeing only the pretty flowers that are the result of this flourishing and forget about the roots that nourish the blossoms, we soon experience the decline of the civilization, as has been the case of nations in the past. This is the way I interpret history, in cool and orthodox terms.

With respect to the development of the commercial uses of the semiconductor, materialized by Japan in Asia, I must say that we can easily understand the reason why this happened. When the French Minister of Culture, Andre Malroux, came to Japan, he pointed out the distinction between Western religious artifacts and those of Japan. He told an audience that the Western expression of a crucified Christ is bloody and even grotesque and might well discourage a religious attachment to Christ. However, he said, the Miroku Buddha at the Horiyuji Temple emits such a sublime beauty, beyond the barriers of race and religion, that it is raised to the level of an eternal or ultimate object to be revered.

What he meant was that the type of beauty and the impression given in such an artifact as the Miroku Buddha or the Horiyuji Temple attracts interest and respect from all over the world, beyond national, racial, and cultural boundaries. These are products of refinement from Japanese people. The original image of Buddha came from India, by way of China and the

Korean peninsula. The image of Buddha in Japan is the product of the refinement of Japanese art. The process has been constantly refined and it becomes a product of Japanese intellectual processes, as the Minister explained, it is clearly Japanese.

In my judgment, Japan has acquired this ability primarily because of the particular geographical environment surrounding the Japanese archipelago. In the long journey from West to East, Japan is located at a dead end; there is nothing beyond except the Pacific Ocean. Japan is in no position to pass on to any other nations what it has received; it must live with what it receives for the rest of history. Everything stops at Japan; the Japanese people refine what has come their way; Japan is the last stop in cultural transition.

Among Japanese statesmen, Mr. Minora Genda is one I truly respect. He once said that Western swords were basically instruments of killing, although there are some variations, such as those used in the sport of fencing. But these swords are just tools and we cannot be impressed looking as Western swords. Japanese swords make viewers feel they are looking at artifacts and that they are being invited in the world of art and mystery. He went on to say that the Japanese people have converted these awful tools, made originally to butcher other people, into art objects.

Another time, Mr. Genda told me: "Mr. Ishihara—after all, in the end, Japan will be all right. It is able to defend itself." When I replied, "how," he said that "Japan's technology can be the basis of Japan's defense." What he had pointed out was that Japanese technology, which has been refined and polished to the ultimate extent, just like the swords, would provide the basis for Japan future existence.

Mr. Genda also affirmed the points I made, suggesting that in certain crucial technological areas, Japan should move at least five years ahead of other nations and if possible, further, to at least ten years. As long as Japan maintains that ten year advance, it will be in a safe position for the first twenty-five years of the 21st century. And this can be accomplished if politicians use their ace cards wisely.

I had an argument with an American correspondent recently. I asked him to look at those developing nations which were under American auspices. The Philippines and those in Africa, Central and South America are all in hopeless situations. Americans once called the Philippines "a showcase of democracy." I said that Americans are mistaken.

While the Philippines may have felt more comfortable under American administration than under Spanish colonial rule, and while they still listen to America, the US have never really imparted to them an understanding of genuine democracy. The chairman of the House Subcommittee on Southeast Asia once suggested to me that the US and Japan should split the cost of financial aid to the Philippines. I responded: "You're kidding!" He said that money alone cannot improve the situation in the Philippines because of the internal situation. The US does not even know where its aid money actually ends up. And most fundamentally, social conflict in a nation cannot be solved with an outsider's cash.

The most crucial task in the Philippines is to face the cause of social turmoil there. The cause is the role of the landowners; Philippine landowners have accumulated incredible power and wealth, syphoning everything from the ordinary people. These landowners will get no sympathy from me. The Philippines must act to redistribute the land and wealth in much the same manner as took place in Japan after the war. Landowners cannot remain landowners unless the country is stabilized. Should a military junta take power, and decide upon a socialist economic policy, these landowners would be wiped out.

Usurpers must be removed, otherwise there is no way the seeds of democracy can be planted. This so-called "showcase of democracy" is empty. And pouring additional aid money into the hands of the landowners on the form of compensation for losing their land is not only a utter waste of funds, but also ruins any basis for self-help and self-motivation.

There is a chieftain in the Truk Islands, who speaks Japanese, and who said that since the Japanese left, their children have only learned to be lazy as the Americans give aid—money and things which spoil human beings. If you give people lettuce seeds, he said, they will learn to grow lettuce, but if you give them money they will simply import lettuce and learn nothing.

America is reluctant to recognize the importance and value of local cultures. Christian missionaries do not permit the natives to chant their charms and they prohibit the use of herbs as medicine—herbs that have traditionally been used in healing sicknesses, found in certain localities and used according to local customs. Local festivals are banned, so that traditional songs and dances are forgotten. Tradition is dismantled. Americans force other cultures to give up their traditional value and impose the American culture upon them. And they do not even recognize that this is an atrocity—a barbaric act!

Natives who once has a traditional festival similar to Japan's ceremony of tasting the fruits of the first harvest. (Our ancestors may well have come from these southern islands, by the way). The festival was held on the night of the full moon. Beating drums and dancing, the people indulged in open sex as the festival had by its nature this element of fertility. Christian priests prohibited these festivals and instructed the natives to bring the fruits of the harvest to the church altar. One hour after this was done, the priests ate the gifts. The chieftain, still speaking Japanese, complained "we did not grow this to feed priests." This kind of misunderstanding goes on and on and Americans don't even realize it.

Those Asian nations where the economy has been a success story, such as Korea, Taiwan, and Singapore, were all, at one time or another, under Japanese administration. We are aware that some negative things happened under the Japanese administration, but it cannot be denied that many positive changes were left behind.

Among the resource supplying nations, the only Southeast Asian nations which have developed stable socio-economic systems are those where Japan has cooperated as a fellow Asian country. I pointed this out to that correspondent with whom I had the argument; in return he only kept silent.

In any case, these NICS are turning into NIES who are catching up to Japan, which makes Japan nervous. However, this is fine with me. Japan should work more positively, basing its approach on the premise that we must live in harmony with other Asian nations, developing constructive political strategies to assist these countries economically and politically. Entering a new era—the Pacific Age-Japan cannot remain prosperous without the rest of Asia. We need Asia more than we need America.

Japan Can be Admitted to the World Community by Saying "No."

Japan is not quite the tiny country most Japanese think it is. We should not be presumptuous or arrogant, ending up hated by others, but should have pride and dignity as respected members of the world community.

Our world view appears to be very peculiar, conditioned in part by our geography and our climate. In our mind, Japan and the rest of the world do not exist in a concentric circle. The rest of the world has its center and the center of Japan is somewhere outside this. I feel it is time to overhaul this concept and enter into the concentric world.

We want to enter that arena not through the kind of individual performance as given by Mr. Nakasone, but rather by saying "no" decisively. The Japanese people will define their position in facing the consequences and significance of their "no" and will be able to join the world community in the concentric circle as a truly "adult" member. It is therefore imperative to normalize our relationship with the US, so we can get on with becoming a true member of the world community.

I often suggested a G2 conference with the US. This would help establish Japan's status and America might well welcome the suggestion. When there are only two parties meeting, Japan will have no choice but to say "yes" or "no" without resorting to gray areas. Japan must be equipped with logic and reason whenever it says "no." Best of all, by holding a G2, Japan will have only itself and the US with which to be concerned, making it easier to stick to the "no." No other nation will pay attention to Japan is Japan cannot say "no" to the US. A good example is China.

Japan is flattered by many nations these days for no other reason than its wealth. Money is important, but Japan has many more valuable assets, such as tradition, culture, creativity, as well as powerful high technology; this last item is one that even the US and USSR cannot afford to ignore. In order to make the rest of the world realize that Japan has much more to offer than wealth, we must develop the logic and reasoning to be able to say "no," explain why, and stick to it at certain crucial moments.

IN HONOR OF THE CLEVELAND FOUNDATION

HON. MARY ROSE OAKAR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Ms. OAKAR. Mr. Speaker, this week we commemorate Community Foundation Week across the country. I am proud that my hometown—Cleveland, OH—is the birthplace of the community foundation movement. Seventy-five years ago, Clevelander Fredrick Goff had an idea. That idea was to create a means by which any citizen could leave funds for projects directed toward the betterment of his or her community. Mr. Goff's idea began with the Cleveland Foundation, a community trust that today has assets in excess of $1 billion. This idea has grown to include more than 300 community foundations in the United States

with expansion in several other countries expected in the very near future.

The Cleveland Foundation has been at the forefront of civic life in greater Cleveland for decades. I know firsthand the good works of this great institution and I have seen the lives of countless people enriched because of the actions of the foundation. This is an institution that responds to requests for support to meet a wide variety of programs within the community—some to well-established organizations, others to new groups needing startup costs to work in some way to address the special needs of its neighborhood. Everyone has access to the foundation to present his or her case.

But the foundation not only simply responds to requests for financial assistance, it plays an active leadership role in community life by analyzing, investigating, and studying new ways to seek solutions to local community issues. This leadership is exemplified by the last four distinguished directors of the foundation whom I know personally: James A. (Dolph) Norton, Barbara Rawson, Homer Wadsworth, and it's current director Steve Minter. In addition, the foundation has always had a sensitive staff.

The dream that Fred Goff envisioned lives on—not only in Cleveland, but throughout the country. On behalf of the thousands of people who have benefited from its good work, I salute the Cleveland Foundation.

TRIBUTE TO MRS. BEATRICE BROWN

HON. ROBERT G. TORRICELLI

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. TORRICELLI. Mr. Speaker, it is with great respect and admiration that I address my colleagues in the House today, for I rise to extend my heartiest congratulations and warmest best wishes to Mrs. Beatrice Brown. On Sunday evening, November 12, the Israel Cancer Research Fund will honor Mrs. Brown at the Tower of Hope Ball.

Beatrice Brown is the vice president and founding board member of the Israel Cancer Research Fund, which this year will finance cancer research projects by 90 young Israeli scientists. Bea is the past president of the Pascack Valley Chapter of Hadassah in Bergen County, NJ. She founded the Annual Modern Art Show, which for 30 years has been the chapter's most successful community activity and fund raising event. Bea is also the past president of Pascack Valley American Field Service, which sent dozens of local students abroad to live in homes and attend high schools in Europe, Africa, and the Far East. The chapter brought to New Jersey dozens of foreign students for the school year, one of whom lived in Bea's home, while they attended Pascack Valley High School in New Jersey.

During World War II, Bea worked in Washington, DC, where she met and married naval officer Melvin Brown. The couple then moved to Hillsdale, NJ where they brought up three sons. In 1976 Mel passed away. Bea still resides in Hillsdale where she is a volunteer in hospital and hospice programs. She has three grandchildren.

Bea's warmth and spirit, energy and understanding, certainly define her as one of the special few who have truly made a difference. She is indeed a woman who deserves our respect and appreciation. I welcome this opportunity to join with family, friends, and the colleagues who honor her, in wishing Beatrice Brown continued success. Mr. Speaker, it is an honor and a privilege to participate in the tributes being extended on this occasion and I know my colleagues in the House will join me in saluting her efforts and accomplishments.

HONORING PANDIT JAWAHARLAL NEHRU

HON. STEPHEN J. SOLARZ

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. SOLARZ. Mr. Speaker, tomorrow marks the centennial of the birth of Pandit Jawaharlal Nehru, one of the great men of our century. As one of the principal founders of India, he has earned history's accolades as one of the great nation-builders of our time. Moreover, he was also one of the great democrats—with a small "d"—of this or any other age.

Mr. Speaker, last week the House demonstrated its esteem for Mr. Nehru by adopting House Concurrent Resolution 217, a resolution honoring the birth centennial of this political and intellectual giant. A few days later, India's new ambassador to the United States, His Excellency Karan Singh, paid tribute to Mr. Nehru in glowing words that poignantly explain why men and women of goodwill all around the world regard Mr. Nehru with such admiration. As an additional tribute to Mr. Nehru, and as a token of our friendship and respect for Ambassador Singh, I ask that the ambassador's words of praise for Mr. Nehru be printed in the RECORD.

JAWAHARLAL NEHRU, 1889–1989

Jawaharlal Nehru was a unique figure in India's freedom movement under Mahatma Gandhi, which itself was unparalleled in the annals of human history. Never before had hundreds of millions of oppressed people been led to freedom by a leader committed to peace and non-violence. Among the galaxy of colleagues surrounding Mahatma Gandhi, the brightest star was certainly Jawaharlal Nehru. Born and brought up in an affluent family, and educated from an early age in England, Jawaharlal Nehru grew into one of the most dynamic and charismatic leaders of the Indian freedom movement. Beginning in the early twenties, Jawaharlal began to play an increasingly important role in the affairs of the Indian National Congress, the party which was the main vehicle of the struggle for national liberation. He rose to become one of the youngest presidents of the party, and it was under his presidentship in 1929 that the famous Lahore Resolution was passed demanding complete independence from British Rule.

After spending long years in jail, Jawaharlal Nehru was ultimately called upon to head the Interim Government in 1946 and, after India became free on the 15th August 1947, to become India's first Prime Minister. For 17 years thereafter he made a historic contribution to strengthening democratic principles and practices in this vast and turbulent nation. In the early years he had colleagues from the days of the freedom movement, but in the last decade of his life he stood virtually alone as a giant among Indian leaders. In every sphere of national life—political and economic planning; administrative reconstruction and foreign policy; science and education—he left the impress of his boundless enthusiasm and deeply felt humanism.

Jawaharlal Nehru's contribution to politics was by no means confined to India. A passionate opponent of colonialism, he became the rallying point for spearheading the aspirations of vast millions of people of Asia and Africa who were then under colonial yoke. Along with President Nasser of Egypt and President Tito of Yugoslavia he founded the non-alignment movement, which today is subscribed to by over a hundred nations. Always opposed to a bi-polar world, Jawaharlal Nehru foresaw an era in which the two super-powers would shed their animosity and gradually develop a cooperative relationship. The astounding events in the Soviet Union and Eastern Europe this year, the year of Jawaharlal Nehru's birth centenary, are a dramatic vindication of his vision and farsightedness.

Jawaharlal Nehru also wrote with grace and lucidity, and while in jail produced a number of significant books, the most important being his Autobiography, the Discovery of India and Glimples of World History. He was a universal man, responding passionately to events within his own country and the world, revolting against oppression wherever he found it, urging and exhorting his fellow countrymen to rise to their full potentialities. On the occasion of his birth centenary we salute a great patriot and thinker; administrator and author; humanist and world leader.

KARAN SINGH,
Ambassador of India to the USA.

BOSTON LIVING CENTER TO OPEN THIS WEEK

HON. CHESTER G. ATKINS

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. ATKINS. Mr. Speaker, this week the Boston Living Center will open in my home State of Massachusetts. The opening of the living center creates a new and unique opportunity for those living with AIDS and HIV infection to lead more comfortable and fulfilling lives.

Mr. Speaker, far too often, those living with AIDS have been denied the opportunity to interact with other people, to enjoy the pleasure of other people's company. As a mother whose son died of AIDS 2 years ago put it, "with my son, the isolation was very difficult. There was no place he could socialize. He was left alone to his thoughts." The Boston Living Center has dedicated itself to breaking down such walls of isolation. They are committed to providing a place of emotional support, a place of social activity, and a place of companionship for all people living with AIDS.

The Boston Living Center is seeking to provide the simple comforts that many of us take for granted, but which are so vital in leading a dignified life.

Mr. Speaker, I commend the men and women who have made the Boston Living Center a reality. Their efforts will make a tremendous difference in the lives of those they serve.

IN SIGHT OF LOUISVILLE: A PERSPECTIVE OF LOUISVILLE ARTISTS

HON. ROMANO L. MAZZOLI

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. MAZZOLI. Mr. Speaker, I am very excited that, beginning this week and running through December 15, artists from Louisville and Jefferson County—which I am privileged to serve in the U.S. Congress—will be participating in an exhibit at the Washington, DC Design Center which will provide a unique insight into the art and culture of Louisville.

Everyone in Louisville and Jefferson County is excited about this opportunity to "showcase" the artistic talent in our community. This exhibit, "In Sight of Louisville: A Perspective of Louisville Artists", will include the works of veteran artists as well as newer artists in our artistic community. And, it will illustrate the very wide variety of talent—and enthusiasm and energy—of our local artists.

The artists whose works are included in the exhibit are: Tom Butch, Ying Kit Chan, Madison Cawein, Gaela Erwin, Joyce Garner, Susan Gorsen, James Grubola, Kay Grubola, Ed Hamilton, Suzanne Mitchell, Pam Pfister, Chris Radtke, Andrew Speer, Chuck Swanson and Cathy Tuggle.

I hope that my colleagues will take the time to view this exhibit while it is in Washington. The design center is just off Capitol Hill at 300 E Street, SW.

A SALUTE TO SAM H. MILLER, "OUTSTANDING PHILANTHROPIST FOR 1989"

HON. LOUIS STOKES

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. STOKES. Mr. Speaker, I rise today to salute an outstanding resident of the 21st Congressional District and a good friend, Mr. Sam H. Miller. On November 15, 1989, the National Society of Fund Raising Executives will honor Mr. Miller as "Outstanding Philanthropist for 1989." The award confirms what many Clevelanders have known about the civic and Jewish activist for more than 40 years: that he is a superb fundraiser.

The "Outstanding Philanthropist" award represents the latest in the assortment of international, national and local citations presented to Mr. Miller for his efforts. Even as he is being honored by the Society of Fund Raising Executives, Sam is in the midst of a huge project as chairman of the Passage to Freedom Campaign for Soviet Jewish resettlement. Already, he has helped to raise over $1 million for the campaign.

Mr. Speaker, I am pleased to join with others throughout the community in saluting Sam on this special occasion. He is an exceptional individual and certainly deserving of this special recognition. I want to share with my colleagues a recent article about Sam Miller which appeared in the Cleveland Jewish News.

"FUNDRAISERS' FUNDRAISER" HEADS PASSAGE CAMPAIGN

(By Vivian Witt)

When professional fundraisers say you're a fundraiser, you're really a fundraiser! So on November 15, when the National Society of Fund Raising Executives cites Sam H. Miller as "Outstanding Philanthropist for 1989," it will merely confirm what Clevelanders have known for 40 years: that the civic and Jewish activist is indeed a superb fundraiser. The Society's membership incudes the professional heads of philanthropic foundations throughout the country.

"I hate being called a philanthropist," Miller once told this reporter back in 1981 when B'nai B'rith International's highest honor, the Humanitarian Award, was then the latest in a slew of international, national and local citations, enough to paper a wall.

But the word "philanthropist," distasteful as it is to Miller, serves well to describe what he does so expertly, so passionately.

Right now, Miller is in the midst of a huge project as chairperson of the special local community drive for the national Passage to Freedom campaign for Soviet Jewish resettlement.

Cleveland's goal is $2.49 million (a share of the United Jewish Appeal's $75 million target), for what is termed an "historic exodus" of Soviet Jews. "We've already raised over a million dollars," he reports.

"It's a tough campaign," acknowledges Miller, but he expects "absolutely" that Clevelanders will respond by going over the top. "I'm not being optimistic, but realistic. I'm a pragmatist," says Miller, who considers himself a "very conservative businessman." Actually, it's not too farfetched to describe him as chief operating officer of more than one major multi-million-dollar undertaking—Forest City Enterprises, Inc., where he is vice chairman of the board—and any number of fundraising efforts. All at the same time.

Miller has had this lifelong "thing" about plucking Jews out of precarious situations wherever they may be, here or overseas, especially through fundraising. It dates back to the time his mother dropped two pennies into the proverbial blue pushke when the family lived in poverty at E. 63rd and Woodland. As a kid, Miller didn't speak a word of English—only Yiddish or Russian—until he was 7 years old, when his mother marched him off to the public library. Together, the two learned the language.

Later, Miller had a first-hand encounter with Soviet "justice" when he engaged in some behind-the-scenes exploits, one of which landed him in an NKVD prison.

He's pretty blunt about the current drive. "I don't want to talk figures, I don't want to talk politics—let's just get the Soviet Jews out!"

TOO WORRIED TO BE TIRED

One can't resist wondering out loud, why, after all these years of heading major fundraising drives, he takes on still another.

"So what if I'm tired?" he answers. "I have to worry about my people. We Jews have no choice, as long as there are Jews. When there are no more Jews, there'll be no more fundraising. You think it's fun to ask people to part with their money? Well, somebody's got to do it," he shrugs.

Miller also answers the "call" for others. He recently headed a fundraising effort for the Catholic Diocese at the request of his friend Bishop Anthony Pilla, and reports with some pride, "it was successful beyond their fondest dreams." He observes, "The easiest kind of a campaign is the one where the funds stay here."

Miller is also active in Lebanese War Relief International as well as Northern Ohio Region, National Conference of Christians and Jews which winds up its annual fundraising drive at a dinner on Oct. 30. (And those are just his current efforts!)

Miller credits his wife, Maria, for providing "all kinds of support" for his humanitarian projects which he dovetails with a fierce work ethic. Miller holds an honorary doctorate from Baldwin Wallace College, earned a master's degree from Harvard University School of Business, and is a Phi Beta Kappa graduate of Western Reserve University.

The astute businessman (who got all A's in college except for a "B" in economics) insists, "Whatever I've done in the field of philanthropy has come back to me a thousand times in business."

TAKOMA PARK INTERMEDIATE SCHOOL CELEBRATES 50 YEARS OF EXCELLENCE

HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mrs. MORELLA. Mr. Speaker, I rise today to commemorate the 50th anniversary of the founding of Takoma Park Intermediate School in Montgomery County, MD. Takoma Park Intermediate is, without a doubt, one of the finest educational institutions in the county, and its golden anniversary is certainly an occasion worth celebrating.

Takoma Park Intermediate School is a winning institution because it comes from what is, undoubtedly, a winning community. Time and again, the students, parents, and teachers of Takoma Park Intermediate have gone to bat for their school. In 1983, the Takoma Park community successfully fought efforts to close down the school due to declining enrollment.

As a result of the community's active interest in the school, Takoma Park Intermediate is alive and well today. The school boasts a highly acclaimed math-science-computer magnet program which draws students from all over Montgomery County. Parents and teachers have been extremely supportive of the program, and the results have been outstanding. Many Takoma Park Intermediate students have received countywide and statewide math and science awards, and student interest in the program continues to grow by leaps and bounds. As a member of the Committee on Science, Space, and Technology, I

am especially proud to recognize Takoma Park Intermediate School for its efforts in this area.

But the math-science-computer magnet program is not the only notable program at Takoma Park Intermediate; the school's racially diverse student population enjoys excellent academic facilities in all areas and participates in a thriving athletics program. Indeed, Takoma Park Intermediate School produces extremely well-rounded students.

As a former teacher in the Montgomery County public school system, it is a great pleasure for me to congratulate Takoma Park Intermediate School on its 50th anniversary and to wish the students, parents, and faculty many more years of continued excellence.

ANNIVERSARY OF AMERICAN EDUCATION WEEK

HON. WILLIAM F. CLINGER, JR.

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. CLINGER. Mr. Speaker, I rise today to acknowledge the anniversary of American Education Week which takes place from November 12–18. American Education Week [AEW] is 68 years old this year and deserves the respect accorded such a venerable age. The focus of this year's AEW is threefold: to increase public understanding and appreciation of the Nation's schools, to encourage parents and nonparents to visit schools, and to build civic and community support for education. Together, these goals will stress the theme of AEW 1989: Learning and Liberty: Our Roots, Our Future.

Learning and Liberty are very much a part of our Nation's roots. Our Founding Fathers had a deep understanding of the value of education and trusted that the future of the Republic lay in the instruction of all Americans. Knowledge not only allows liberty, but continues it. With education comes an appreciation and tolerance, of divergent viewpoints.

With its three goals for the week, AEW aims to strengthen the roots of American education. All of these goals are geared toward uniting our nation in its respect for education. A common understanding and appreciation of schools will re-establish schools, not as assemby halls for our Nation's youths, but as centers of our Nation's future. Parental and adult participation will set an example for our children to emulate while simultaneously adding the work of teachers. After all, education does not and should not stop at the schoolyard gate. Lastly, wide community support will garner individual commitment, by both youths and adults alike, to the perpetuation of quality education.

The liberty that education begets is apparent on all fronts. Economic security is just one aspect of the rewards of erudition. Undeniably, knowledge and skills facilitate success in the workplace which enables financial well-being. Additionally, social awareness makes people sensitive to others' needs and difficulties while also providing them with the means to solve these problems. But perhaps most significant is the personal liberty that knowledge enables. Standing educated, people have the confidence to feel secure in their convictions, whether individually or together as a Nation. Successful defense of a held belief is perhaps the most liberating of all experiences.

Yet, many people in America have never experienced this sense of exhilaration and triumph. In fact, it is estimated that annually over 700,000 high school graduates are unable to read. Often, drugs seem to take precedence over sports and extra-curriculars. We have a duty to our Nation, and Our Nation's youths, to provide quality education. The Educational Excellence Act which I have cosponsored is a step to ensuring this goal. American Education Week will raise awareness and assist us in our goal of producing educated, concerned Americans.

SOUND THE ALARM

HON. DOUGLAS H. BOSCO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Mr. BOSCO. Mr. Speaker, I would like to insert in the RECORD the following article by Jacques Levy, a Santa Rosa, CA journalist and author. Mr. Levy is ever a provocative thinker, and I commend his insight on the flag-burning issue to my colleagues in the House.

The article follows:

SOUND THE ALARM

(By Jacques Levy)

As armed tanks lumbered down a street in Manila, a nun stepped out of the crowd and moved toward them. The tanks stopped. The Filipino people marched on to overthrow a tyrant and to restore their democracy.

The yearning for freedom and justice smolders in the hearts of most people. We saw it when other unarmed civilians confronted troops in China, Chile, Poland, Panama, South Africa and elsewhere.

Ever since we iginited our flame of freedom two centuries ago, others have joined the quest for liberty. But while many still strive to kindle their torch, Americans risk to see ours diminished.

It's time to sound the alarm.

Our catalogue of fundamental rights did not originate with the Declaration of Independence in 1776, nor did its growth end then. Anglo-Saxon democracy's roots developed a hundred years earlier in England during the Puritan Revolution. And Americans have gradually expanded their guaranteed liberties in the two centuries since our Constitution was ratified.

Among our advances: an end to slavery, expanding the vote to women, improving equal representation through the principle of one person one vote, new guaranteed rights to assure fair trials.

Today, however, for the first time in 200 years, our president advocates changes in our Bill of Rights. He would limit our right to protest and blur the strict separation between church and state. The Supreme Court, too, threatens to revoke every American's cherished right to privacy, and to reverse our progress in civil rights.

History suggests why we should sound the alarm. Look back to England, in 1642, when the Puritan revolt exploded. Charles I lost his head on an executioner's block, but a dictator, Oliver Cromwell, took his place.

Many Englishmen, however, had wanted freedom. They had rallied behind a flamboyant leader whose stubborn insistence on his rights as a "freeborn Englishman" had earned him the nickname "Freeborn John." His name was John Lilburne.

Freeborn John first fought against the despotic Charles I, then challenged Cromwell and Parliament when they, too, turned tyrannical. Lilburne's views were branded radical. In 1646 he wrote that men and women "were by nature all equal and alike in power, dignity, authority, and majesty."

In our Declaration of Independence, Thomas Jefferson, one of Lilburne's distant descendants, wrote that "all men are created equal."

Lilburne advocated a representative government elected by poor and rich alike. His opponents argued that would result in anarchy.

As a young man, Freeborn John fought for a free press a freedom of religion, both denied by the king and the Church of England. At his trial for printing illegal pamphlets, he refused to take what he called the "inquistion oath," which could have resulted in self-incrimination. Despite 200 lashes and imprisonment, he did not break.

Lilburne and his followers later fought for religious tolerance, a concept rejected by Parliament. One minister warned that if Lilburne prevailed, the people would never "ever after have command of wives, children, servants."

Protest petitions to Parliament generated by Lilburne were labeled seditious and ordered burned by the public hangman.

Today, the president proposes a constitutional amendment prohibiting the "physical desecration" of our flag. That suggests that Americans worship the flag, rather than the principles for which it stands.

Flag burners can only damage our nation if reaction to their acts abridges our Bill of Rights. The next step might then be an amendment prohibiting derogatory comments about the presidency, or the Congress. Pseudo-patriots would argue that disrespect for high government officials is more dangerous than disrespect for a silken symbol.

Consider what happened to Lilburne. Because he feared both Parliament and its leaders, he proposed that Englishmen should be protected by a constitution written by the people and ratified by their vote.

He and his supporters wrote "The Agreement of the People," the first draft of a written constitution in the history of democracy. When it was presented to Parliament, the House of Commons declared it "destructive to the being of Parliament and to the fundamental government of the Kingdom." Commons ordered it burned. Although Lilburne was imprisoned—where he died—he never gave up.

His spirit lives on today in Wu'er Kaixi, the Chinese student who helped lead the Tiananman Square demonstrations, and who lectured Premier Li Peng on national television. Lilburne's spirit also lives on in Soviet dissident Andrei Sakharov, Polish Solidarity leader Lech Walesa and Nelson Mendela in South Africa.

The spirit of Freeborn John must be rekindled here, too, that we may protect our birthright, expand the right of all citizens and assure freedom and justice for all.

SUPPORTING S. 931, THE GENESEE RIVER PROTECTION ACT

HON. LOUISE M. SLAUGHTER

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Monday, November 13, 1989

Ms. SLAUGHTER of New York. Mr. Speaker, I am pleased to give my wholehearted support to the Genesee River Protection Act, S. 931. Letchworth State Park and the parts of the Genesee River within it are beautiful natural resources that I and many of my constituents enjoy. In a time and place where development continues to encroach on our open spaces, the Genesee River offers both urban and rural New Yorkers unparalleled opportunity to enjoy irreplaceable recreational and scenic wonders.

I joined in introducing the House version of the Genesee River Protection Act because the 17-mile stretch of the river within the park has been under threat of development. This stretch of the Genesee River should remain a recreational resource.

For years the Army Corps of Engineers explored the possibility of increasing the reservoir size of the Mount Morris flood control dam to allow hydroelectric power generation in the park. After strong citizen protest against the idea, the Corps of Engineers recommended that no further action be taken regarding the proposed modification of the dam.

Now, despite the expression of citizen concern and recommendation by the Corps of Engineers, a private organization has received a preliminary permit from the Federal Energy Regulatory Commission to study the possibility of developing hydro power in the park. This development would be a mistake.

Passage of S. 931 will prevent irreparable harm to this unique section of the Genesee River by providing it with protection equal to rivers listed for study as potential additions to the National Wild and Scenic Rivers System. This river is worth saving. I urge my colleagues to approve this important bill.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Any changes in committee scheduling will be indicated by placement of an asterisk to the left of the name of the unit conducting such meetings.

Meetings scheduled for Tuesday, November 14, 1989, may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

NOVEMBER 15

8:00 a.m.
Veterans' Affairs
To hold hearings on health care for rural veterans.
SR-418

9:00 a.m.
Armed Services
To hold hearings on the nomination of Victor Stello, Jr., of Maryland, to be an Assistant Secretary of Energy for Defense Programs.
SR-222

Banking, Housing, and Urban Affairs
To continue hearings to review the stability of the U.S. economy.
SD-538

9:15 a.m.
Finance
Business meeting, to mark up H.R. 3275, to implement the steel trade liberalization program.
SD-215

9:30 a.m.
Energy and Natural Resources
Business meeting, on pending calendar business.
SD-366

Joint Economic
To resume hearings to examine changes in relative U.S. economic power and the impact of those changes on national security.
B352 Rayburn Building

10:00 a.m.
Environment and Public Works
Toxic Substances, Environmental Oversight, Research and Development Subcommittee.
To hold hearings to review the Environmental Protection Agency's enforcement program.
SD-406

Finance
To continue hearings on S. 712, to provide for a referendum on the political status of Puerto Rico; to be followed by a business meeting, to consider the nominations of Catalina V. Villalpando, of Texas, to be Treasurer of the United States, and Donald E. Kirkendall, of Maryland, to be Inspector General, Department of the Treasury.
SD-215

Foreign Relations
To hold hearings on the Montreal Aviation Protocols Nos. 3 and 4 (Ex. B, 95-1).
SD-419

Special on Aging
To hold hearings to examine the effects of drug abuse on the elderly in urban and rural settings.
SD-628

1:30 p.m.
Small Business
To hold hearings on the nomination of Kyo R. Jhin, of Maryland, to be Chief Counsel for Advocacy, Small Business Administration.
SR-428A

2:00 p.m.
Agriculture, Nutrition, and Forestry
To hold hearings on pending nominations.
SR-332

Environment and Public Works
Water Resources, Transportation, and Infrastructure Subcommittee
To hold hearings on S. 1804, to reduce the amount of Federal highway funds allocated to any State that does not provide for the revocation or suspension of the driver's license of any individual convicted of a drug offense.
SD-406

Judiciary
To hold hearings on the nominations of Edward W. Nottingham, to be United States District Judge for the District of Colorado, Edward J. Lodge, to be United States District Judge for the District of Idaho, and Arthur D. Spatt, to be United States District Judge for the Eastern District of New York.
SD-226

3:00 p.m.
Foreign Relations
East Asian and Pacific Affairs Subcommittee
To hold hearings to examine U.S. policy toward China.
SD-419

NOVEMBER 16

8:30 a.m.
Banking, Housing, and Urban Affairs
International Finance and Monetary Policy Subcommittee
To hold hearings to review the Department of the Treasury's report on the exchange rate.
SD-538

9:00 a.m.
Commerce, Science, and Transportation
Communications Subcommittee
To hold oversight hearings on the implementation of the Cable Telecommunications Act (P.L. 98-549).
SR-253

9:30 a.m.
Armed Services
To hold hearings to review the Department of the Navy's investigation into the gun turret explosion aboard the U.S.S. *Iowa*.
SH-216

Energy and Natural Resources
To resume hearings on a committee amendment to S. 406, Competitive Wholesale Electric Generation Act.
SD-366

Labor and Human Resources
To hold hearings on S. 930, to establish in the Occupational Safety and Health Administration an Office of Construction, Safety, Health, and Education to ensure safe and healthy working conditions in the performance of construction work.
SD-430

Special on Aging
To hold hearings to examine how individuals, hospitals, States, and governments from various countries attempt to purchase prescription drugs in the United States at a fair and reasonable cost, and to determine how successful their efforts have been.
SD-628

10:00 a.m.
Banking, Housing, and Urban Affairs
Business meeting, to mark up S. 648, to grant additional authorities to the Se-

curities and Exchange Commission to take certain actions in a market emergency, large trader reporting of program or block trades, and to facilitate coordinated clearing mechanisms and practices in the securities markets, S. 566, to provide for a revitalized national housing policy, and a proposed Market Reform Act.
SD-538

Governmental Affairs
To hold hearings on the nomination of Zinora M. Mitchell, to be an Associate Judge of the Superior Court of the District of Columbia.
SD-342

Judiciary
Business meeting, to consider pending calendar business.
SD-226

2:00 p.m.
Governmental Affairs
Business meeting, to consider pending legislation and nominations.
SD-342

3:00 p.m.
Banking, Housing, and Urban Affairs
Securities Subcommittee
To hold hearings on proposals to revise corporate takeover procedures, including S. 1658, S. 1794, and S. 1244.
SD-538

NOVEMBER 17

9:00 a.m.
Commerce, Science, and Transportation
Communications Subcommittee
To continue oversight hearings on the implementation of the Cable Telecommunications Act (P.L. 98-549).
SR-253

9:30 a.m.
Governmental Affairs
Federal Services, Post Office, and Civil Service Subcommittee
To hold hearings on S. 166, to establish procedures for Federal agency contracting of advisory and assistance services.
SD-342

10:00 a.m.
Banking, Housing, and Urban Affairs
To hold hearings on S. 13791, to reauthorize various provisions of the Defense Production Act.
SD-538

Environment and Public Works
Toxic Substances, Environmental Oversight, Research and Development Subcommittee
To hold oversight hearings on the regulation of lawn chemicals.

DECEMBER 5

9:30 a.m.
Energy and Natural Resources
To hold oversight hearings on the Department of Energy's implementation of the civilian nuclear waste program.
SD-366

SENATE—*Tuesday, November 14, 1989*

(Legislative day of Monday, November 6, 1989)

The Senate met at 10 a.m., on the expiration of the recess, and was called to order by the Honorable CHARLES S. ROBB, a Senator from the State of Virginia.

PRAYER

The Reverend Dr. James M. Barnett, pastor of Trinity Episcopal Church, Norfolk, NE, offered the following prayer:

Let us pray:

Almighty God, we praise You for this Nation and its institutions of government, and especially at this time for its Senate. May the Members of the Senate be guided by Your wisdom and strengthened by Your Spirit that they may strive to create new hope in us and in the other peoples of the Earth that the resources You have so abundantly provided on this planet for all humanity may fulfill the needs of every person in a just social order increasingly characterized by peace, harmony, and good will among all peoples and nations. We pray also for each Member of the Senate and their families that You will bless and sustain them in their daily lives that they may know Your steadfast love for them. To You, O Lord, we give honor and glory for ever and ever. Amen.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore [Mr. BYRD].

The assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, November 14, 1989.

To the Senate:

Under the provisions of rule I, section 3, of the Standing Rules of the Senate, I hereby appoint the Honorable CHARLES S. ROBB, a Senator from the State of Virginia, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. ROBB thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. Under the standing order, the majority leader is recognized.

THE JOURNAL

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Journal of the proceedings be approved to date.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

SCHEDULE

Mr. MITCHELL. Mr. President, following the time reserved for the two leaders, there will be a period for morning business until 10:30 a.m., with Senators permitted to speak therein for up to 5 minutes each. At 10:30, the Senate will resume consideration of S. 1582, the Poland-Hungary assistance bill.

Under the provisions of the unanimous-consent agreement entered into last evening, the only amendments which may be offered are three first-degree amendments relating to cargo preference; a first-degree amendment relating to tax extenders with second-degree amendments in order to that amendment which are relevant to the subject; and an amendment by Senator HUMPHREY on Solidarity. The yeas and nays have already been ordered on the Roth amendment, No. 1121, with that vote occurring once the above-mentioned amendments have been disposed of. Upon disposition of all amendments, the Senate could then proceed to final passage of the Poland-Hungary assistance bill.

I want to make clear that with respect to cargo preference, there are three amendments which may be offered. No decision finally has been made by the sponsors as to whether they will be offered. It is, therefore, possible that votes on the Roth amendment and final passage could occur relatively early this morning if the cargo preference amendments are not offered. If they are offered, then I anticipate those will require some debate, and it will be later in the morning or afternoon before we complete action on the bill.

The Senate will recess today from 12:30 p.m. until 2:15 p.m. for the party conferences. Upon reconvening at 2:15, there will be, pursuant to a previous order, 3 hours of debate on the Packwood-Roth capital gains and IRA proposal, with a vote to invoke cloture on that measure occurring at 5:15 p.m.

RESERVATION OF LEADER TIME

Mr. MITCHELL. Mr. President, I reserve the remainder of my leader time, and I reserve all the time of the distinguished Republican leader.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there will now be a period for the transaction of morning business not to extend beyond the hour of 10:30 a.m., with Senators permitted to speak therein for not to exceed 5 minutes each.

Mr. MITCHELL. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SANFORD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

PRESIDENT PREPARING DISHONEST BUDGET

Mr. SANFORD. Mr. President, the shame of the President's fiscal year 1990 budget, which Congress has just approved, is that it does not tell the citizens the truth about their financial condition. Both Congress and the President had a part in this deceit.

The double shame is that right now the White House, the President's Office of Management and Budget, is preparing the fiscal year 1991 budget, and that budget is even more dishonest, and covers up an even greater amount of the growing debt.

The people must understand that the law requires the President to prepare and present to the Congress his budget. It is the President's budget. It was President Reagan's budget in fiscal year 1982, that began our $200 billion plus annual increases in the debt, that gave us the great Reagan legacy, the massive Federal debt of $3 trillion.

I find some people around the country who think that Congress writes the budget. Of itself, it is not important to place the blame on the President. There is plenty of blame to go around.

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

The clear truth is that the President prepares the budget. The law requires him to do so, and gives him that authority. Congress takes the budget, makes a few changes around the edges, and then approves the President's budget.

While placing blame is a useless exercise, understanding who writes the budget is essential. If we are to have a balanced budget it should be understood that Congress cannot balance a budget that comes from the President, as it has for the past 8 years, almost one-quarter of a trillion dollars in the red. President Reagan was a smoothie. He pretended he didn't have much to do with the budget. He said he just took what Congress gave him. He also kept saying that he was reducing the deficit. A lot of smart—otherwise smart—people believe all that baloney even today, even after we have just increased the debt limit to cover the Reagan deficits and debt of over $3 trillion.

The truth of the matter is that the President has even more to do with the budget than he has to do with foreign policy. He is the director—the real director—of the budget. Congress can shift a few percentage points here or there, but it remains the President's budget.

Why is it important to make this point? Why is it important for the people to understand that our budget is the budget the President made?

It is important because we are going to be in deep trouble if the President keeps preparing dishonest budgets that conceal, this year, five-sevenths of the deficit, and soon, by their own account, to conceal 100 percent of the deficit.

The budget for fiscal year 1991 being prepared by the White House right now will have, any reliable CPA would agree, a deficit of approximately $280 billion. The President's budget will conceal two-thirds of this amount by unacceptable and dishonest accounting practices. The President will claim, falsely, that he has reduced the deficit to about $90 billion.

If we are going to have an honest budget it must start with a demand that the President give us an honest budget with the deficit reported forthrightly and in full. A taxpaying citizen doesn't have to study the details of a budget to know that it ought to be honest.

We know right now the President does not plan to send us an honest budget in January. We have every right to expect—to demand—honesty from the President. But right now, the President does not plan to give us simple honesty.

Mr. President, I yield the floor.

THE FALSEHOODS AGAINST DR. JONAS SAVIMBI

Mr. HELMS. Mr. President, the disinformation campaign against Dr. Jonas Savimbi, President of the Union for the Total Independence of Angola [UNITA] rests on a number of incorrect assertions. Among the most persistent is the allegation that UNITA violates internationally recognized human rights, or that it brutalizes or intimidates its members.

Ambassador Herman Cohen, Assistant Secretary of State for African Affairs, succinctly answered these charges during his confirmation hearings. Yet the crusade by supporters of the Communist Popular Movement for the Liberation of Angola [MPLA] regime in Luanda continues to malign UNITA and Dr. Savimbi personally. The goal is to suggest that neither the movement or its leader are worthy of United States or African support or assistance.

An excellent article appeared recently in Human Events of October 28. The article is another important contribution to the overwhelming preponderance of evidence that exposes allegations of human rights violations as fabrications and falsifications.

Mr. President, I ask unanimous consent that this fine article be printed in the RECORD in the hope that it will be a useful adjunct to ongoing debate.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

INTELLIGENCE PANELS DISPUTE CHARGES AGAINST SAVIMBI

When Dr. Jonas Savimbi came to the United States to shore up his support in Congress and the Administration in early October, he was met with dependable opposition from the usual gaggle of left-wing groups and leaders, including Trans-Africa's Randall Robinson and Rep. Howard Wolpe (D.-Mich.), chairman of the House Foreign Affairs' Africa subcommittee.

The chief weapon used to try to discredit the Angolan rebel leader was the charge—aired earlier this year by the New York Times and the London papers—that Savimbi has systematically engaged in human rights violations in the territory he controls, including the torture and murder of innocent victims.

Robinson, Wolpe and the Marxist-Leninist government of Angola, the MPLA, also circulated with great gusto an August 18 article from *National Review*, which mainly rehashed many of the allegations against UNITA's charismatic leader, but, coming from a conservative magazine, was viewed as particularly damaging.

When we interviewed Savimbi at his headquarters at The Grand Hotel in Washington on October 7, he emphatically denied all the accusations. But it turns out he has support from two more impartial entities: both the Senate and House Intelligence committees.

Rep. John Rowland (R.-Conn.), a member of the House Intelligence panel, told us that when the charges against Savimbi surfaced earlier this year, the committee was briefed by the intelligence community and that the allegations just "didn't hold up."

Rowland imparted the same information to his colleagues on the House floor October 12. The Intelligence panel, he stressed, had looked at the various allegations against Savimbi "in depth" and that it had "found no information that substantiated allegations that have surfaced both in Europe and the United States that Dr. Savimbi has tortured or killed close associates."

An allegation had popped up that he had killed Gen. Anthony Fernandez, for instance, but as fate would have it, said Rowland, "Fernandez appeared with Savimbi" on his October trip to the U.S.

Another charge is that Tito Chingunji was tortured by Savimbi, a charge "categorically denied" by Chingunji himself. In fact, said Rowland, several Republican lawmakers, including Reps. Dan Burton (Ind.), David Dreier (Calif.) and Norman Shumway (Calif.), "met with Tito shortly after the allegations surfaced. They found him to be in good health and very indignant that anyone would insinuate that he had been tortured."

"Finally," Rowland said, "there is an often repeated allegation that Dr. Savimbi had several individuals burned at the stake in 1983. This story also has not been substantiated."

Rowland stressed to us that no member of the House Intelligence Committee, which includes such leftward tilting lawmakers as Rep. Stephen Solarz (D.-N.Y.) and Robert Kastenmeier (D.-Wis.), stood up to challenge his remarks in Savimbi's defense.

David Holliday, a special assistant to David Boren (D.-Okla.), chairman of the Senate Intelligence panel, echoed what Rowland told us. Over the past several years, he informed us, there have been "periodic charges against UNITA in general and Savimbi in particular, alleging everything from torture to murder.

"And the latest spate of them was several months ago. We did look at [the charges], as we had looked at them before. And we came to the same conclusion which was that we could not uncover any evidence that supported the charges."

Holliday added, "We talked to everyone who we thought might have knowledge of such things, or who others brought to our attention as having such knowledge. We talked to people in this country and in Angola. And we simply did not come up with anything that supported them."

The Senate Intelligence panel also has a passel of left-wingers, including Sen. Alan Cranston (D.-Calif.) and Howard Metzenbaum (D.-Ohio), but even they have not contradicted their own panel's findings.

There seems, in short, no reason anyone should buy into the theory that Savimbi is nothing but a totalitarian cutthroat unless far more persuasive evidence is presented.

TERRY ANDERSON

Mr. MOYNIHAN. Mr. President, I rise to report to the Senate that it is now 1,704 days that Terry Anderson has been held captive in Beirut.

I would ask that we not lose sight of his continuing ordeal in the face of the daily work that confronts us. As Thanksgiving approaches, let us hope that Terry Anderson and his family will be together.

THE ISRAEL OCEANOGRAPHIC AND LIMNOLOGICAL RESEARCH INSTITUTE

Mr. SPECTER. Mr. President, today I call to the attention of my colleagues the important work of the Institute. Amid the strife and tension in the Middle East, this program offers a glimmer of hope that cooperation between Israel and her Arab neighbors will soon become commonplace.

On November 1, the North American Friends of Israel Oceanographic and Limnological Research Institute held its annual board meeting in Washington, DC. At that time, I had the opportunity to discuss with board members and with scientists the exciting work in which the Institute is involved. I heard first hand of the significant strides the Institute has made in only a short time.

The Institute, partially funded through the U.S. Agency for International Development's Regional Cooperation Program, is a model for shared scientific efforts in the Middle East and other regions of the world. The program's research has included studies related to the protection of shoreline, lakes management, fisheries and aquaculture, seafood toxins, pollution control, and wastewater reuse. The participants—from two dozen different organizations in Egypt and Israel—travel and communicate freely and frequently in each others' countries. Their laboratory studies are conducted in a cooperative and complementary manner. All data are shared equally and the participants are now beginning to co-author published papers.

As a member of the Foreign Operations Subcommittee, I have supported this program, especially when its future activity was endangered. The Institute and its sister programs represent an important and effective means of promoting mutual understanding between Israel and her Arab neighbors. This understanding naturally fosters the difficult process of achieving peace in this region. In this regard, I am highly enthusiastic about this program and am hopeful that similar projects will begin in the near future.

The ACTING PRESIDENT pro tempore. The Chair would note the absence of a quorum. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SIMON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. SIMON. Mr. President, for our colleagues and for their staffs who are monitoring this, I think it would be helpful if the Presiding Officer could delineate where we stand in the proceedings on the Poland and Hungary bill right now.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. The Chair announces that morning business is closed.

SUPPORT FOR EAST EUROPEAN DEMOCRACY ACT

The ACTING PRESIDENT pro tempore. The Senate will now resume consideration of S. 1582, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (S. 1582) to amend the Foreign Assistance Act of 1961 to provide for certain forms of assistance to Poland to ensure the success of freedom and democracy in Poland.

The Senate resumed consideration of the bill.

Pending:

Roth amendment No. 1121, to express the sense of the Senate regarding increasing the quota of the International Monetary Fund (IMF).

The ACTING PRESIDENT pro tempore. The pending business is the committee substitute to which five first-degree amendments are in order, as printed in the inside page of the calendar. They are an amendment from Senator HARKIN, two from Senator DOLE, one from Senator HUMPHREY, one from Senator DANFORTH; and a second-degree amendment that is pending, also from Senator DANFORTH.

The only relevant second-degree amendment would be to the Danforth amendment. All other amendments would be precluded by the unanimous-consent agreement.

Mr. SIMON. I thank the Presiding Officer.

Unless someone seeks the floor, Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The absence of a quorum has been suggested. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LEVIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. DIXON). Without objection, it is so ordered.

A TRUE HERO FOR ALL OF US

Mr. LEVIN. Mr. President, today the Congress, the President, and the American people join together in welcoming a freedom fighter, a true hero to the United States.

Crumbling walls and open borders and massive turnover in totalitarian governments tell a story of a region and a world being reinvented right before our eyes, but they do not tell the whole story. For that we need to remember decades of struggle across Eastern Europe.

From the ranks of those struggles came a man named Lech Walesa, the shipyard electrician who electrified the world first in 1980 while at the helm of the trade union movement of Solidarity. For his efforts, he and hundreds of other Solidarity men and women were jailed by Polish officials. Now that these men and women are the officials of Poland, there is certainly cause for celebration. But with equal certainty, the achievements of Lech Walesa and the Polish people raise before all of us a new set of challenges. And so it is with Hungary and much of Eastern Europe.

The challenge is to respond to the opportunities of lasting peace with the same vigor, the same aggressiveness with which we prepared for the dangers of war in that part of the world.

The measure before us here in the Senate is a package of economic assistance for Poland and Hungary. I feel it is important for us to put this discussion of this assistance in the proper context. It is not simply economic assistance; it is an investment in the security of the United States. In fact, it could almost more properly be a matter of defense spending.

Mr. President, on the Armed Services Committee, I serve as chairman of the Conventional Forces and Alliance Defense Subcommittee. In terms of strategic and conventional deterrence in partnership with our allies, for more than 40 years we prepared for the worst and we prepared well. The American people, especially, have sacrificed and continue to sacrifice a great deal in this effort contributing about $150 billion to the defense of Europe, more money, indeed, than Europe spends for its own defense.

We have met the challenge of the cold war, and we have met it successfully. Now, unmistakably, the challenge shifts. We are at a point of decision.

I said a moment ago that assistance to Eastern Europe and specifically the nearly three-quarters of a billion dollars in assistance to Poland and Hungary that is before us, an amount less than one-half of 1 percent of our NATO contribution each year, by the way. In other words, if you look at all the money we pour into NATO and the defense of Europe each year, this three-quarters of a billion dollars represents about one-half of 1 percent of what we spend in defense of Europe. We should view this in light of our national security.

The assistance, this assistance, today's assistance has an important role to play in the defense of our country. There is another context, the context defined by the word "investment." Since the end of World War II, we have made the security and stabili-

ty in Europe a key to our foreign policy. We have sought to guarantee a safe future for Americans and Europeans by investing heavily in weapons of war. Billions and billions of dollars remain committed to that effort.

The challenge before us is great, but it is not as great as the one that Lech Walesa has set for his nation. In August, he defined that challenge in a newspaper interview:

Nobody has previously taken the road that leads from socialism to capitalism. And we are setting out to do just that, to return to the pre-war situation when Poland was a capitalist country, after having gone through a long period of socialism.

More than a year ago, Mr. President, I met with Lech Walesa in Poland, and he made it clear how much of our country has to offer, not so much from government-to-government involvement, but small targeted investments in free enterprise that would allow the Polish economy to grow from the ground up. Our challenge is to maintain the safety and security we have gained through our efforts in the past. The time for investments in weaponry is not past by any means. We must still and always be wary of potential adversaries, but the day is here and the time is now for investments like the one before us that build allies.

Unlike the old comic strip character Pogo, we are not confronted with insurmountable opportunities; we are confronted by great, western value affirming opportunity. This is the change and that is the challenge and this is the spirit with which we greet Lech Walesa today and tomorrow, a true hero for all of us.

I thank the Chair.

Mr. SIMON. Will my colleague yield?

Mr. LEVIN. I am happy to yield.

Mr. SIMON. I concur in all the sentiment wholeheartedly. First, I point out that three-quarters of a billion is for 3 years, so when you say it is one-half of 1 percent of what we spend for the defense of Western Europe in terms of an annual budget, it is one-sixth of 1 percent, or a very small amount, indeed.

Mr. LEVIN. And it is a tremendous investment in our own security when we think—the Senator's point is exactly right—we spend about $150 billion a year in the defense of Europe. Just think what a free, independent, strong Poland will not only mean to the spirit of the world in terms of our Western values but to the security of Western Europe and the United States. So this is a true investment, and that is why I said it is such an investment in our own security that it could almost be part of the defense budget.

Mr. SIMON. Absolutely. As usual, the Senator from Michigan is right on target.

Mr. LEVIN. I thank my friend from Illinois.

Mr. HUMPHREY. Mr. President, I ask unanimous consent that the amendments pending be temporarily laid aside so I may offer an amendment.

The PRESIDING OFFICER. Is there objection to the request of the senior Senator from New Hampshire that he be permitted to offer an amendment out of turn?

Without objection, it is so ordered.

The senior Senator from New Hampshire.

AMENDMENT NO. 1128

Mr. HUMPHREY. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from New Hampshire [Mr. HUMPHREY], for himself and Mr. SIMON, proposes an amendment numbered 1128:

On page 18, after line 21, in section 201 of the amendment, insert at the appropriate place the following new subsection and renumber all succeeding subsections accordingly:

"( ) Not less than 10 percent of the funds expended pursuant to this section during fiscal year 1990 shall be provided to the Economic Foundation of NSZZ Solidarnosc, and the Confederacy of Independent Poland (KPN), for investment in private enterprise, providing that the Economic Foundation of NSZZ Solidarnosc and the Confederacy of Independent Poland (KPN) meet all criteria established by the Polish-American Enterprise Fund."

Mr. HUMPHREY. Mr. President, my amendment would set aside 10 percent of the 1990 funding for the Polish Private Investment Fund for assistance to the Solidarity Trade Union for privatization and economic investment in Poland.

The rationale behind this amendment is simple: The government of Tadeusz Mazowiecki may have only a limited time to bring economic reform to Poland before its window of opportunity slams shut. Over and over again, representatives of the Polish Parliament have told us of the absolute necessity for our assistance to flow to Poland immediately.

Because of the structure of the Polish-American Fund, the private investment provisions of the Polish aid package create a serious danger that our assistance will flow to the fund and remain there while investment proposals flow in over a half-year, a year, 2 years, or perhaps even longer. By the time the money actually arrives in Poland as a result of the submission, consideration, acceptance, and implementation of these proposals, the Mazowiecki government—which is even now implementing severe austerity measures—may have been forced out of power.

The clearest way to reduce this delay is to earmark part of the 1990 funds for an organization in Poland which already exists, which already has developed proposals for transforming the Polish economy into a capitalist economy, and which, preferably, has a track record which convinces us that it will spend the money wisely and in the best interests of a free Poland.

Channeling all or part of the private investment funds to such an organization also has the advantage of giving the Poles a voice in the dispensation of the investment money.

By these criteria, Solidarity is the obvious choice. Solidarity has been the catalyst for all of the exciting developments which have occurred in Poland. Solidarity is the major alternative political force to the Communist Party in Poland—and the only major alternative political force. Solidarity is the organization which has formed the coalition which now governs Poland. Solidarity is one organization which has examined options for privatization of various Polish state-owned industries. Solidarity has established an economic foundation under one of the preeminent free marketeers in Poland, Jacek Merkel—one of the few organizations in Poland which has the credibility and the expertise to implement de-socialization of the Polish economy. It is significant that the current Polish Finance Minister, Leszek Balcerowicz, before he received his government post, was an assistant to Merkel.

Fifty-six members of the Senate met with Merkel when he visited the United States in early October. As 1 of the 12 ranking leaders of Solidarity—and Lech Walesa's personal representative to the Polish Parliament—Merkel is thus far the highest-ranking Solidarity official who has ever visited the United States.

Mr. Merkel will oversee the economic foundation under the supervision of a 10-man board, which includes himself, Zbigniew Romaszewski, Stefan Jurczak, Alojzy Pietrazak, Andrzej Milczanowski, Krzysztof Zabinski, Wlodzimierz Mekarski, Szymanski, Odorowski, and Maciej Lopinski—all under the general supervision of the National Executive Commission of Solidarity and its president Lech Walesa. Although the foundation is still winding its way through the arduous approval procedures established by the Polish Government, Solidarity itself has a track record of which we are all aware, both as a political and economic force in that country.

The purposes of the foundation include support of common undertakings, including the development of private enterprise in Poland, with the support of foreign capital participation. In addition, the foundation will also perform functions beyond the scope of this particular funding set-aside, including the provision of assist-

ance to Solidarity members put out of work by economic restructuring and the provision of training, including professional training and foreign language training. Funding under this act, of course, will not go to these additional training programs, but rather will be directed exclusively to the development of private enterprise in Poland.

Solidarity will not, of course, operate in a vacuum. The underlying bill contains ample funds to provide United States economic experts to advise Solidarity and Poland on how to expend its money.

We make a mistake, however, if all we do is channel money to United States experts and businessmen to give Poland the benefit of our advice. Poland needs our advice. But it also needs our money. And this amendment would ensure that at least part of the money goes not to United States Government agencies, not to American businessmen, not to Western intermediaries, but to Poland itself. And it would ensure that it goes there soon enough to do some good.

I urge support of my amendment.

May I say this amendment has been cleared by the managers on both sides, having found it acceptable. The language amends section 201 that deals with the free enterprise aspects of this aid package.

Any applicants for funds under this section will have to be approved by, according to the bill, the Polish American Fund as it is called. That process of submitting applications and awaiting approval could take some months. We all know that the need is urgent. Our goal is to reinforce the changes in Poland and in Hungary as well. That means we have to act with some haste, some dispatch before we lose the opportunity to reinforce these changes. The Poles are undergoing some very difficult times, and their will and patience is going to be sorely and severely tried, even more so than is the case at present. So we need to proceed with all prudent haste, and the idea of this amendment is to set aside 10 percent of the funds under this section to be made available to Solidarity, that is, to its economic foundation and to a free enterprise party, namely the Confederacy of Independent Poland or CPF.

The floor managers on both sides I think are agreeable to this. I will yield the floor.

Mr. SIMON. Mr. President, we have no objection on this side to the amendment.

Mr. HELMS. Mr. President, the amendment is certainly acceptable on this side.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 1128) was agreed to.

Mr. HUMPHREY. Mr. President, I move to reconsider the vote.

Mr. HELMS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HUMPHREY. Mr. President, I thank the managers for their help on this amendment and the other two which I offered yesterday but, more than that, to thank them and commend them for this provisionary bill which in my view makes substantial improvement over the original efforts.

It almost sounds trite to say what is happening in Eastern Europe is mindboggling. Thank God for it. Let us do all we can afford to do to reinforce these changes so as soon as possible they become irreversible. That is our goal, and I think this bill makes the best attempt we can make under the fiscal circumstances which confront us to do just that.

I commend Senator SIMON in particular because he in a way is the originator of this substitute version, but also Senator HELMS for his splendid cooperation and farsightedness.

I thank the Chair.

Mr. SIMON. Mr. President, while the Senator from New Hampshire is very generous in commending others, let me say he was one of the first who said we have to respond more adequately to this opportunity that is given us in Poland, and I personally appreciate it. There was no question where he stood from moment one. I am appreciative of his leadership.

Mr. President, if no one seeks the floor, I question the presence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KOHL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Wisconsin is recognized.

Mr. KOHL. I thank the Chair.

GREAT LAKES SET-ASIDE

Mr. President, in 1985, Congress decided that it was in our national interest to require that 75 percent of our food aid to foreign countries be shipped on American-flag vessels. This requirement, called cargo preference, was designed to protect American jobs. Unfortunately, cargo preference has the opposite effect on jobs in the Great Lakes. Since U.S.-flagged, oceangoing ships are too large to come in and out of the Saint Lawrence Seaway, the Great Lakes ports are unable to compete for food aid being shipped on U.S. flags.

In 1985, to make sure that cargo preference did not preclude the shipment of food aid through the Great Lakes, the Great Lakes set-aside was established. The set-aside guaranteed that the Great Lakes would continue to be allowed their same quantity of shipments under the Public Law 480, Food for Peace Program, that they had prior to 1985. That compromise made sense. It was, as I said, an act of simple justice designed to make sure that the effort to protect American jobs did not disadvantage one area of America.

It also made sense since the Great Lakes represent a logical transportation route for a great deal of the food stuff which we produce and want to send abroad.

Unfortunately, the set-aside provision expires this year. What I have been seeking, along with my colleagues from the Great Lakes States, is an extension of the set-aside until we can debate this issue and resolve it, as it should be, in the farm bill next year. Some of my colleagues, primarily from the Gulf States, have resisted that effort because they believe that their States can pick up business if the Great Lakes are denied their fair share of transporting our food aid.

When we sought to include an extension of the set-aside as a part of the various cargo preference amendments which are in order to the Poland aid bill, we were told to expect a filibuster.

Now, Mr. President, this put us between a rock and a hard place. No one wants to slow down action on aid to Poland and Hungary; at the same time, I certainly do not want to see my State and my region disadvantaged as a result of the expiration of the set-aside. While we had Senators who were willing to include the set-aside in their amendments, my Great Lakes colleagues and I reached the conclusion that the best thing to do was to allow this aid package to move forward.

But we also decided that there were other legislative vehicles where the rock was not as large and the hard place was a lot softer. I fully intend to do whatever I can to get this issue before the Senate this year. And as I look at the legislative vehicles available and see bills like the reauthorization of the Commodity Futures Trading Commission, I see some opportunities for action.

I have always supported cargo preference and I want to continue to protect American jobs. But I cannot protect jobs in some parts of America when my State and my region lose business and employment as a result. I continue to hope that some compromise can be reached which will bring labor and the maritime industry to the table—an agreement which recognizes the legitimate interests of the Great Lakes. I do not want to take business away from the Gulf States—I just do not want them to get business at the expense of my State.

This is an issue which needs to be debated and fully considered—and it will be in the farm bill.

But I think it only fair that we begin that debate under the terms and conditions which now exist. It would be unfair to change the status quo before we begin debate on the farm bill. And that is why I am looking for a simple 1-year extension of the set-aside. If the set-aside provision is allowed to expire, then there is no reason not to modify the cargo preference provisions. If the cargo preference requirements stay the same, then treatment of my region ought to stay the same. I am willing to accept anything which preserves the status quo until the farm bill gives us the opportunity to comprehensively review the current situation. But I am unwilling to see us enter that review with the Great Lakes ports further disadvantaged.

So I warn my colleagues that I will be looking for an opportunity to raise this issue. If I am allowed to do that, I will live with the decision of the Senate. If I am prevented from doing that, I will do my best to prevent action on other issues which are related in any way to this issue.

This is a matter of fairness and equity. It is a matter of keeping faith with the agreement we reached in 1985. It is a matter of vital importance to my State, my region, and to me. I want my colleagues to understand that I will do whatever I can, whatever I need to, to make sure it is addressed one way or another.

Mr. GLENN. Mr. President, I am a strong supporter of aid to Poland in this transition period to a freer society and open economy. I have also been a strong supporter of cargo preference as a means of maintaining a merchant marine and jobs for our domestic maritime industry. However, cargo preference in its present form has not improved the merchant marine, and the impact of cargo preference on the maritime industry of the Great Lakes region, including the State of Ohio, has not been positive. Maritime policies related to cargo preference must be revised to be effective and more equitable for the Great Lakes ports. This is especially important in light of the pending expiration of the Great Lakes set-aside, established to begin to address just these issues.

I will be unable to continue supporting cargo preference for aid to Poland cargoes or any other cargoes as long as it is in conflict with the interest of employment in the Great Lakes maritime industry and the State of Ohio.

As cochair of the Senate Great Lakes Task Force and a member of the Senate Armed Services Committee, I support retailoring our maritime policies so that cargo preference achieves its objectives and does not fairly disadvantage Great Lakes ports. In July, I introduced S. 1350, the Great Lakes Maritime Trade Act of 1989, with 11 cosponsors from within and outside the region. S. 1350 provides an effective solution to issues related to cargo preference through removal of the 3-year waiting period for reflagging of foreign vessels for Great Lakes shipping. Any ships reflagged under this provision would be limited to Great Lakes service, required to carry U.S. crews, and required to carry out upgrading and maintenance at U.S. shipyards.

I endorse the initial objectives of cargo preference. However, some fundamental adjustments are needed to assure that these goals are in fact achieved. The solution proposed in my bill would not eliminate cargo preference, but make it more equitable and effective. My bill would also extend the Great Lakes set-aside, which I believe is a necessary beginning as long as a 75-percent cargo preference exists on Public Law 480 food-for-peace cargoes.

The Great Lakes set-aside was established in the 1985 farm bill to offset the negative impact on Great Lakes ports of an increase in cargo preference from 50 to 75 percent. The set-aside assures that a certain small percentage of Public Law 480 food aid cargoes are transported from Great Lakes ports.

The set-aside is flag neutral. If the set-aside did not exist, little or no such cargo would be shipped from Great Lakes ports because we have no regular ocean-going U.S.-flag ship service in the Great Lakes. The set-aside was intended to be a four year cushion during which the U.S.-flag service would be developed in the Great Lakes. However, it is now due to expire and nothing significant has changed with respect to the level of U.S.-flag service in the Great Lakes, despite the best efforts of all involved in promoting Great Lakes shipping. An extension of the Great Lakes set-aside is needed to provide continuity in the Great Lakes shipping industry at least until maritime issues can be properly debated and resolved.

I look forward to full and complete House and Senate reconsideration of maritime policies as they relate to cargo preference during deliberations on my bill and related legislation next session.

The PRESIDING OFFICER. The Senator from Mississippi is recognized.

Mr. COCHRAN. Mr. President, I thank the distinguished Senator from Wisconsin.

Mr. President, in response to the remarks of the distinguished Senator, let me just say that in the 1985 debate of the farm bill, we had 2 or 3 days of discussion on this floor of a compromise developed over a long period of time among agriculture, industry, and maritime interests to define the shipments of agricultural commodities to be covered by our cargo preference laws.

In that debate, those who represented the Great Lakes region felt that a temporary phased-in preference for Great Lakes ports ought to be included in the compromise.

Some of us did not think there should be any such preference, and we resisted very strongly. Over the course of that debate, however, involving some five rollcall votes here in the Senate, a temporary set-aside was approved by the Senate by about a 10-vote margin.

It was a difficult debate. The Senator now in the Chair offered the amendments that were the subject of those votes and successfully obtained the set-aside provision for the Great Lakes ports. That issue has continued to be an economic problem for many other port ranges, not just Gulf State ports, but ports in other parts of the country.

The heart of the issue is whether there should be any continuation of this set-aside, whether there is any economic justification for it, or any reason in law there should be a national policy of preference for one port range over another.

I would say to the Senate it would be unwise, certainly now, to attempt to change the law to provide an extension for Great Lakes ports.

I am happy the Senator is not seeking to amend this bill for assistance to Poland and Hungary to gain that kind of advantage over other port ranges. His statement, however, that he will be trying in every way possible to change the law between now and the end of this session to gain an extension in the set-aside troubles this Senator very, very much.

(Mr. KOHL assumed the chair.)

Mr. COCHRAN. I feel it necessary to respond by advising the Senate that this Senator thinks it would be terribly unwise to provide an extension of any length—1 year, 6 months, 1 month—of any set-aside in any Federal program that prefers one area of the country over the other. If such an amendment is offered, there will be a long and I hope successful debate against the action being discussed and urged by the Senator from Wisconsin.

Mr. DIXON. Will my friend from Mississippi yield for a question?

Mr. COCHRAN. I am very happy to yield to my friend from Illinois.

Mr. DIXON. I appreciate that very much. My friend from Mississippi remembers with great clarity that debate and recalls that this Senator led the fight at that time, along with the distinguished Senator from Minnesota [Mr. BOSCHWITZ] and others, as I recall, in connection with this issue.

Does my colleague not recall that what in effect inflamed the subject matter and brought about the debate

in the first instance was the change in the percentage on cargo preference laws from 50 percent to 75 percent? That was what really triggered, I think, the debate originally. Is that not the recollection of the Senator from Mississippi of the subject matter at hand?

Mr. COCHRAN. There was probably more than one reason the Senator from Illinois offered his amendments, but that was one of the arguments used in support of the effort of the Senator from Illinois. And I recall that the Senate rejected that argument on, I think, four rollcall votes, maybe five, before the cosponsors of the cargo preference compromise decided to make a change in the language to bring to an end that protracted debate and effort by the Senator from Illinois.

Mr. DIXON. I understand.

Mr. COCHRAN. We were trying to redefine the law so that the litigation then under way between maritime and agricultural interests and the departments of the Government responsible for administering those laws could be brought to an end, so that we could settle the very rancorous, very costly dispute that was not really serving the national interest.

One of the ways to bring that to an end was to define commercial cargo shipments as not being subject to cargo preference; Public Law 480 shipments and section 416 shipments would be covered, and, as a matter of fact, those shipments would be increased as they qualified for cargo preference classification.

Mr. DIXON. From 50 to 75 percent.

Mr. COCHRAN. Fifty percent was the current law. We increased that, over a period of 3 years, to 75 percent under the compromise.

The Senator was compelling in his argument and had his region protected by law as a way to phase in this new percentage so that it would not be as economically harmful, as I recall the argument made by the Senator, as it would have been otherwise. The Senator has been right, since the program costs because of that amendment have been increased by about $6 million. Hundreds of thousands of tons of cargo have been shipped out of the Great Lakes because of that amendment, and much business that would have gone to other ports have gone to the Great Lakes because of that amendment.

Mr. DIXON. Mr. President, will the Senator yield further?

Mr. COCHRAN. I am happy to yield.

Mr. DIXON. Is my friend aware of the fact that certain distinguished Members of both Houses of the Congress—for instance, the distinguished senior Senator from Maryland as an example, and on the other side the lady Congresswoman from Baltimore and others—have attempted to broaden even further the subject matter of the cargo preference law as it exists on the statute books now?

As a matter of fact, the lady from Maryland was successful in obtaining a provision in the Department of Defense authorization bill that this Senator and others had to work diligently to remove from that authorization this time that would have broadened the scope of the cargo preference law even further.

Does my friend understand that each of those things further imperils the existence of shipping and profitable shipping in the Great Lakes for our region of the country?

Mr. COCHRAN. Mr. President, I am aware of the strong argument the Senator is capable of making against cargo preference. But one fact remains, and this everybody should know, that cargo preference shipments out of the Great Lakes constitute only about 2 percent of the total tonnage that is shipped out of the Great Lakes.

Mr. DIXON. If it is so small, why does my friend object?

Mr. COCHRAN. Mr. President, I have not yielded for further comment on my comment. I will be happy to yield when I come to the point where I want to yield to the Senator, but I have the floor.

I would just say to the Senator that any suggestion to continue a preference for any region flies in the face of the provision of the U.S. Constitution that says—and I will read from the Constitution—"No preference shall be given by any regulation of commerce or revenue to the ports of one State over those of another." Mr. President, that is directly from article I, section 9, of the Constitution of the United States.

Mr. DIXON. Does my colleague yield for a further question with respect to that?

Mr. COCHRAN. I am glad to yield to the Senator at this point.

Mr. DIXON. But does my colleague seriously contend that the existence of these cargo preference laws, which are designed to protect American interests in the merchant marine, are not working to the disadvantage of the Great Lakes region of the country? Why will my colleague then not permit us to exempt the Great Lakes altogether from cargo preference laws?

We have no quarrel with my friend's representing the great State, and I have no quarrel with his State or ports from advantaging those ports over foreign competition, but what my friend does and what his colleagues do is to disadvantage American ports by cargo preference laws.

I do not have any quarrels with those laws, may I say to my friend from Mississippi, if they are only designed to protect his ports and other ports against foreign competition, as certain other things do, but this law, this cargo preference law, may I say to my friend from Mississippi takes what we have sometimes called in the country the Rust Belt and puts that part of the country which has had the longest and deepest recession and slowest recovery at disadvantage.

Why would my colleague want to do that?

Mr. COCHRAN. Mr. President, let me conclude my remarks at this point. If the Senator wants to debate this issue, he is certainly free to debate it, and I will be happy to meet him here on the floor at an appropriate time.

As I understand the order, there is no amendment in order that would relate to this issue on this bill, and, while there may be in order certain amendments on cargo preference issues, this is not one that is permitted under the order.

My purpose in rising was to respond to the suggestion of the Senator from Wisconsin that he would try in every way before the end of this session to extend the Great Lakes preference and to require a certain percentage or certain amount of tonnage shipped under cargo preference to be out of the Great Lakes region, regardless of shipments from any other port.

This is wrong under the Constitution. It is wrong under the economic realities that our country faces today, and this Senator is going to be prepared to argue here in the Senate against such an amendment.

I just want to put the Senate on notice that this is a very contentious subject. It is a disagreement that is not going to be easily resolved.

I will be happy to work with my friends from Wisconsin and Illinois to discuss the issue. But I have no hope that we will be able to reconcile the demand by the Great Lakes region that a preference be written into law that is an economic disadvantage for the ports of the Gulf States, the east coast, and the west coast, a preference for one region of the country in the shipment of cargo.

We debated the issue, as my friend from Illinois remembers, for hours and and hours and hours in 1985. I do not look forward to that kind of debate again in 1989 or 1990. But we will be prepared to engage in that debate and to defend the interests of our part of the country against discriminatory language in a piece of legislation that effectively prohibits us from competing for all of the shipments the United States will be making to our friends around the world.

I hope this morning that we can proceed to consider the other amendments that are in order and to pass the bill. I have nothing further to say on this subject.

I will be glad to yield the floor to the Senator at this point.

The PRESIDING OFFICER. The Chair recognizes the Senator from Illinois.

Mr. DIXON. Mr. President, you know the distinguished senior Senator from Mississippi is my warm friend. He is a fine man who advocates in every way the interests of his State, and I respect him for that.

But this is not a matter that can be debated in the usual collegial atmosphere because a law ostensibly designed to advance the interests of the United States of America in international marketplaces, the so-called cargo preference law, is in fact a sword thrust into the heart, Mr. President, of the Midwest.

It is a spear aimed at the back of every Great Lakes State, and it is an outrage.

I am shocked by the fact that a pittance, Mr. President, a miniscule allowance to the Great Lakes of 245,000 metric tons would be denied us. These are the ports, Mr. President, that in the last several years have received the grossest considerations of the Congress with respect to home porting.

In the exercise of closing military bases in this country—a monstrous fraud—we saved less than we spent on the single idea for home porting all over America. And these same greedy folks that got their pork on home porting, demand every dime, every penny, Mr. President, in connection with this issue. And the Chair knows that this Senator was one that said, "Well, all right, then yield some, settle for only 200,000 metric tons." They rejected it, Mr. President.

Mr. President, what happened to the days when the South had its difficulties and the great administration of Franklin Delano Roosevelt brought the South back out of economic disaster? What happened to the days when we built the dams for the West?

Does anybody care that the Midwest has struggled with recession and unemployment, and to this very moment, as I stand in this hall, the man in the chair from Wisconsin, the other Senator from Illinois and this Senator pay a larger share of the support of this Government and get less tax dollars back in their States? Does anybody care?

Can it be true—can it be true, Mr. President—that my colleagues and friends are so selfish in their attitude for their States or so selfish in their view toward this country that we would be denied this slight request by our friends and colleagues? Is that what this place has come to?

And my friends in organized labor for whom I have fought on many occasions, are offended by the fact that I speak here for my part of the country, when, in reality, it is their very people, their own people, who have no work. So, when I go into their halls in Chicago, they are without income because of the outrage of this law, this cargo preference law designed to help us, which, instead, injures us.

Well, perhaps someday, Mr. President, there will be another Roosevelt. Perhaps someday there will be a President who sees that our region is losing representation in the congressional delegations because people leave our States by the numbers, and are being denied every consideration for every one of these simple things we need. I pray for that. I pray for that. I regret very much the intransigence of those who cannot see simple equity.

We are preparing to give hundreds of millions to Poland—and I am for it—and we will not give one dime to the States around the Great Lakes to keep their shipping intact. It is a remarkable outrage and one, Mr. President, that I deeply, deeply, deeply regret.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. DIXON). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOLE. Mr. President, as I understand it, now, we have an agreement not to go forward with any cargo preference amendments on this legislation. I think it would delay. Obviously, I think our amendment would be very helpful to the people in Poland. They would get more food, more aid, and maybe others feel the same about their amendments. But I am also realistic enough to know if we are going to pass this bill, maybe even this session, this year, we have to make some accommodations.

So I want to say a brief word about my decision not to go foward with the amendments I had planned, amendments which would have waived the cargo preference for food shipments to Poland.

Let me be candid. I have decided not to offer these amendments because I do not have the votes. Now and then, that is the bottom line around here, how many votes do you have? I have a lot of votes and I think I would have more if all Senators could be on the floor and could be persuaded.

(Mr. KERRY assumed the chair.)

Mr. DOLE. I am not as persuasive as the man just leaving the Chair who had been speaking very eloquently, but despite all the hand wringing about how important it is that we help Poland, the majority of Senators, let me say frankly the vast majority of Senators on the other side of the aisle, really are a lot more concerned about maintaining these ridiculously large sudsidies for a few shipowners and maritime workers then they are about helping Poland. It is as simple as that.

There is nothing unfair about all this. I am no different from my colleagues, I am pursuing a particular cause and I am working for my constituents. If the other Senator is doing it, he is working for special interests. That is how we seem to divided it, so I am not laying any blame at anyone's doorstep.

I have no quarrel with people working on behalf of the big shipowners or who are trying to save the jobs of some very well-paid seamen. I do not see any well paid jobs lost—well paid thanks to the lavish subsidies received from the American taxpayer.

But it is a little frustrating, spending weeks hearing Senator after Senator—including very enthusiastic backers and some who oppose cargo preference—make speech after speech about how important it is to help Poland, and then have them gang up to block one easy way to help Poland. I thought the thrust of this was to help Poland, not shipowners or maritime unions. We could do that without costing one nickel.

Right now, Mr. Walesa is in Washington, speaking as the official guest of the AFL-CIO. He is speaking to their convention today. He is a great speaker. He ought to get an honorarium before they are outlawed, and I have a great idea for one—the AFL-CIO can agree to a temporary waiver of cargo preference for food aid to Poland. What a dramatic gesture for the unions to make. We want to help the people so we are going to have a temporary waiver, just for Poland and Hungary, of cargo preference.

It is the most important thing they could do for Poland. It would not cost them a nickel and it would not cost the U.S. taxpayer a nickel, which would be refreshing for an change.

I am also reminded Mr. Walesa will be speaking to a joint meeting of Congress on Wednesday. It is a real shame we cannot present the same honorarium to him, in the form of legislation waving cargo preference in this unique situation.

It was not to be. The combination of the shipowner and the maritime union interests was stronger for a majority of Senators than their desire to help Poland, and that is the bottom line. It seems to me we have not given up.

There will be CFTC, I think, coming out of here one of these days. Maybe we can help Poland then. But we will be back and in the interim those of our constituents who are deeply interested in what is going on in Eastern Europe will understand how important it is for us to respond positively to these developments. Hopefully, too, they will make their millions of voices heard.

I do not want to hold up this bill any more. We could have 3 or 4 days' debate. I know there are some who feel very strongly about this issue; some on both sides of the aisle. So I have agreed with the distinguished majority leader we will not offer either of the two cargo preference amendments that are pending, and that the Senator from Iowa, Senator HARKIN, will not offer his cargo preference amendment.

I will close by asking to have printed in the RECORD a letter from the Commercial Counselor's Office of the Embassy of the Polish People's Republic in support of our efforts. I will read:

Therefore I request you to carry this message to the Congress, which is about to vote an amendment waving cargo preference rule, proposed by Senator Chuck Grassley and supported among others by Senator Bob Dole, who learned our position in Poland while visiting our country recently. Your prompt action in this matter would be highly appreciated by the Government of the Polish People's Republic and Polish Nation.

In other words they said by eliminating such conditions the scale of U.S. food aid will be much greater. I think that is the whole point.

So I ask unanimous consent that the letter be printed in the RECORD to indicate it is supported by the very people we wish to help. Maybe the next time around, maybe not on this bill, we will have more success.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

EMBASSY OF THE POLISH PEOPLE'S REPUBLIC, COMMERCIAL COUNSELOR'S OFFICE,

New York, NY.

DEAR MR. SECRETARY: In accordance to our information the U.S. Government granted 119 mio dol. in food aid for Poland. By law at least 75 percent of all U.S. food donations must be shipped on U.S. ship whose rates are at present higher than market rates by 3-4 times. These in turn will cut substantial part of food aid.

Therefore it is of utmost importance to waive the clause requiring that 75 percent of U.S. food aid shall be carried on U.S. flag vessels.

By eliminating such condition the scale of U.S. food aid will be much greater. Allocated financing will be spent on food rather than transportation.

Therefore I request you to carry this message to the Congress, which is about to vote an amendment waiving cargo preference rule, proposed by Senator Chuck Grassley and supported among others by Senator Bob Dole, who learned our position in Poland while visiting our country recently.

Your prompt action in this matter would be highly appreciated by Government of the Polish People's Republic and Polish nation.

Thanking you in advance for your understanding and assistance, I remain,

Sincerely yours,

JERZY KAPUSCINSKI,
Commercial Counselor,
Minister Plenipotentiary.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. SIMON. Mr. President, I simply want to thank the minority leader, Senator DOLE, and also Senator GRASSLEY, and also our colleague Senator HARKIN. We could have had very lengthy and extensive debate with the results not completely clear. But there is no question it would have held up this very critical bill for aid to Poland and Hungary. I appreciate the restraint that is being shown here.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. MITCHELL. Mr. President, I join in thanking Senator DOLE and Senator HARKIN for their willingness to permit this bill to proceed without offering the amendments. I know both of them feel very strongly on the issue that has been under discussion but their willingness to withhold to permit us to proceed with this important legislation regarding Poland is very helpful.

If I might, now, for the benefit of Senators, describe the schedule for the immediate future.

ORDER OF PROCEDURE

Mr. MITCHELL. The Senator from Missouri has an amendment which I believe will be accepted by the managers regarding tax extenders. Following that, there be no further amendments to be offered. Under the previous order, we will have a vote on the Roth amendment. And immediately following that, there will be a vote on final passage of the bill. So expect those two rollcall votes to occur, back-to-back, beginning in just a few minutes.

It is my intention to have the second vote be a 10-minute vote so Senators should be forewarned in that regard. We hope by that means to complete action on this bill just prior to the recess for the caucuses. We may run over a little bit to get the votes in. Then we will go back to the original schedule which is to go to capital gains at 2:15.

Mr. President, I thank all concerned and I yield the floor.

Mr. DANFORTH addressed the Chair.

The PRESIDING OFFICER. The Senator from Missouri is recognized.

AMENDMENT NO. 1129

(Purpose: To amend the Internal Revenue Code of 1986 to extend certain expiring tax provisions through June 30, 1990, and for other purposes)

Mr. DANFORTH. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. If no other Senator wishes to offer an amendment that is listed in the agreement on cargo preference, then the Senator from Missouri may send his amendment to the desk. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Missouri [Mr. DANFORTH], for himself, Mr. HEINZ, Mr. BOND, Mr. D'AMATO, Mr. MCCAIN, Mr. COHEN, Mr. BOREN, Mr. DURENBERGER, Mr. WARNER, Mr. HEFLIN and Mr. CHAFEE, proposes an amendment numbered 1129.

Mr. DANFORTH. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment is printed in today's RECORD under "Amendments Submitted.")

Mr. DANFORTH. Mr. President, this is an amendment which would extend 12 expiring tax provisions through June 30, 1990, and pay for them by the acceleration of the payroll tax deposit system for employers who reach certain thresholds of income and FICA tax withholding from employers to agents.

Mr. COHEN. Mr. President, I am pleased to cosponsor the amendment offered by my colleague from Missouri [Mr. DANFORTH] to extend the tax provisions that are, under current law, scheduled to expire at the end of this year.

The expiring tax provisions include many important programs that I have supported enthusiastically for years. Three of these programs, namely, the low-income tax credit, qualified mortgage bonds and mortgage credit certificates, are vital to the housing needs of many Americans. For example, the low-income housing tax credit provides tax incentives for the development of affordable rental housing for low-income Americans. By the end of 1989, commitments will have been made for nearly 200,000 tax credit-assisted units to house over a half million needy Americans. It is crucial that the Congress act swiftly to extend this program now so that providers of low-income housing projects will be able to plan and continue their commitment to the housing program. Without such assurance to the participants of the programs, we risk a halt in the development of low-income housing, thus jeopardizing one of the few viable programs that aid the homeless.

This amendment would also extend programs that benefit employers, especially small businesses. It extends, for example, the authority to issue small issue industrial development bonds, a program that has been very successful in financing small manufacturing projects in my State of Maine, the health insurance deduction for self-employed individuals, the research and development tax credit, and the exclusion for employer-provided educational assistance program. I believe that it is especially important that we extend the health insurance deduction for the self-employed, which allows self-employed individuals to deduct 25 percent of the amounts that they pay

for health insurance for themselves, their spouses, and their dependents. This program is crucial to help these small businesses meet the spiraling costs of health care coverage for their families.

As my colleagues know, each of these programs were adversely affected in 1986 when the Congress allowed them to expire for a 10-month period before renewing them as part of the Tax Reform Act of 1986. This created severe and unnecessary disruption of the programs and made it difficult for businesses and individuals to plan. I urge my colleagues to act swiftly to renew these expiring tax provisions because this is only fair to the thousands of businesses and individuals who benefit greatly from these important programs each year.

Mr. DURENBERGER. Mr. President, I am pleased to join Senator DANFORTH in offering this amendment to temporarily extend the provisions of the Tax Code that are scheduled to expire at the end of this year, as well as those provisions which expired at the beginning of this year.

Mr. President, it seems that every year we hold expiring tax provisions hostage to another piece of legislation. Last year, the expiring provisions were temporarily saved at the last minute when we were finally able to resolve differences over the Technical Corrections Act. This year, the expiring provisions have become caught up in the debate over capital gains, the budget reconciliation process, and sequestration.

I think it is important for all of my colleagues to remember that if some of these provisions expire at the end of this year, it will be nearly impossible to rectify the damage that will result to the public policy objectives that underlie these provisions. For example, if authority to issue mortgage revenue bonds is not extended, this vital program for first time homebuyers will be stopped dead in its tracks on January 1, 1990. The same result will ensue in the low-income housing program and the small issue industrial development bond program. I can hardly think of a Member of the Senate who would want these important programs to end.

Mr. President, I also would note that if the expiring provisions are not extended, the self-employed will not be allowed to take advantage of the 25-percent tax deduction for health insurance. It is difficult enough for me to justify why we allow corporations to deduct 100 percent of the cost of their health insurance, and only allow independent businessmen a 25-percent deduction. Yet how can one explain to these same businessmen that we allowed the 25-percent deduction to expire because it got lost in reforming the budget reconciliation process?

Mr. President, the House and Senate reconciliation conferees have the opportunity to address the issue of extending these provisions, the R&D provisions and the alternative energy credit provisions. I urge them to include these provisions in the final conference agreement, and would urge my colleagues to support this amendment.

Mr. President, I ask unanimous consent that an article from the November 12, New York Times concerning the low-income housing credit program be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the New York Times, Nov. 12, 1989]

CRISIS IN CONGRESS: DON'T KILL LOW-COST HOUSING

(By John P. Mascotte)

As Congress contemplates to bring down the budget deficit, one of the rarest of government creations may be sacrificed in the process—a housing program that really works. The low-income housing tax credit, part of the Tax Reform Act of 1986, has served the diverse housing needs of urban and even suburban households in large to mid-sized communities in all parts of the country.

Because of the tax credit, desperate neighborhoods can build decent, low-cost housing and private investors can get a reasonable financial return from joining in the effort—15 to 20 percent a year. At the same time, the tax credit gives the Federal Government a stunning social return on a relatively small investment of about $205 million a year.

But the low-income housing tax credit will soon die quietly unless Congress votes to extend it. That is because the leadership of the House of Representatives decided not to attach the renewal of this program to last week's debt ceiling bill.

Since the tax credit is allocated and administered on a state-by-state basis, there is no need for a Federal bureaucracy to oversee the program and decide whether a given development should receive financing. It is also more efficient than previous tax incentives for housing because private investors have to make sure their projects will work in order to get the tax credits.

In addition, unlike a uniform, top-down housing plan drawn up in Washington, the tax credit is structured to allow for diversity. Single-family wood frame houses, trailers, multifamily brick buildings—whatever structures makes sense in a particular community—are all options. The program revolves around local decision making in a way that avoids the problems of the past.

Separate bills supporting the extension of the tax credit have been introduced in the Senate and in the House but have not yet been voted on. Most significantly, Jack Kemp, Secretary of Housing and Urban Development, has strongly stated his support for keeping the tax credit in place. But the Treasury Department opposes extending these credits, arguing that there is no room in the budget to provide the modest amount of money needed. But what the department fails to notice sufficiently is that unlike other Federal initiatives, the tax credit is a mechanism that leverages private dollars. Indeed, every dollar invested through the credit generates another two toward the final investment. Last year, as a result of this program, 80,000 needy families got low-cost, affordable housing. But the need is far greater.

It would be wrong for Congress to kill a measure that serves as a model of the public-private approach to solving some of our most intransigent social problems. In 1988 alone, innovative programs based on these tax credits attracted more than $100 million in investments from some of America's biggest corporations, including A.T.&T., the Continental Corporation, American Express, Pfizer and Prudential.

This approach does not demand that companies become developers of low-income housing. Instead financial intermediaries, like the Local Initiatives Support Corporation, turn companies into investors in projects sponsored by nonprofit, community-based development corporations.

Community-based development corporations that benefit from the tax credit are small and local, but their national impact is immense. A recent national survey of about half of America's estimated 1,700 community development corporations showed that 631 of these organizations created a total of nearly 125,000 housing units. More than 90 percent of this housing was built for low-income occupants. The community-based corporations surveyed completed about 23,000 of those units, or 19 percent, in 1986 and 1987. By comparison, H.U.D.'s program to create new public housing units for low-income families totaled only 24,740 for the fiscal years 1986 through 1988.

Because their ties to the community are so strong, community-based development corporations, supported by private investors using the tax credit, generally do a much better job than either private developers or the Federal Government does when going alone. Since community-based corporations operate close to the housing they develop, they have the added incentive to make sure that the property is well-maintained.

Strict Federal guidelines ensure that genuine low-income housing will be financed through the low-cost housing tax credit. That is because credits are allocated only on units actually occupied by low-income residents. Rent must be no more than 30 percent of the income of people who earn, at most, 50 to 60 percent of the area median income. These rents must be maintained at an affordable level for 15 years. In New York City, for example, this formula would yield monthly rents no higher than $450 for the average family of four for a two bedroom apartment.

Extending and expanding this effective program would provide the vehicle for a new national urban policy that works. In the long run, ending the tax credit won't save the Government money. The ensuing hardship for people with low incomes could end up costing taxpayers more. For example, in New York, the cost of housing a family of four in a welfare hotel is $36,000 a year.

Eliminating the tax credit would send an extremely distressing message to business leaders, politicians, community groups and citizens all over the country. It would say that we don't believe in the power of new alliances and that we are unable or unwilling to recognize success when we achieve it.

Given the scope of our housing problem, the low-income housing tax credit cannot meet the entire need. But by extending the low-income housing tax credit, the Federal Government can expand on a new approach that can provide decent and affordable housing for a modest outlay to as many as

100,000 American families a year. At the same time, it can help reclaim neighborhoods plagued by indifference and despair. For Congress to kill the credit would save a few dollars in the name of cutting the budget deficit. But it would postpone the day of reckoning with a worsening housing crisis that continues to cost society far more than just money.

The PRESIDING OFFICER. Is there further debate?

The Senator from Illinois.

Mr. SIMON. Mr. President, the amendment is acceptable on this side.

Mr. HELMS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SIMON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SIMON. Mr. President, this is a good time to thank various colleagues for their helpfulness in all this, and the chairman of our committee, Senator PELL, has been very helpful. The majority leader has worked with us. We have had—I do not know how many—meetings trying to get all this worked out. Senator CRANSTON played a very key role. He led a delegation over to Poland. His deep commitment is unquestioned, and he has been very supportive. Senator MIKULSKI; Senator SARBANES; Senator LAUTENBERG; Senator ROBB; Senator BOB GRAHAM; Senator RIEGLE; Senator LEVIN; the Presiding Officer, Senator KERRY; Senator KENNEDY—I am sure I am missing some people who have also been very supportive and helpful on this side.

On the other side, Senator DOLE, who also was over in Poland as we worked out a compromise that I think is a good one all the way around; Senator HELMS, the ranking Republican on the committee; Senator DOMENICI; Senator HUMPHREY; Senator BOSCHWITZ; Senator MURKOWSKI; Senator D'AMATO; and I am sure I am missing some I should be thanking. My colleague from Illinois, Senator DIXON, I should have included for his helpfulness.

On my personal staff, Jonathan Stein and Brian Kennedy have been very helpful. And on the committee staff, John Ritch has been very helpful. In addition, a great many others, including representatives of the Polish American Congress and others who have had an input and have been very helpful.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HELMS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HEFLIN. Mr. President, I rise today to commend the Senate for passing the amendment offered by Senator DANFORTH to the Support for East European Democracy Act of 1989. This amendment would extend vital parts of this Nation's Tax Code which are set to expire or which have already expired. I was a cosponsor of this amendment. Although I have some reservations about the bill to which this amendment is attached, I am pleased that the Senate has now voted to extend these important provisions.

As every Senator knows, these provisions were included in the part of the budget reconciliation bill that passed the Senate Committee on Finance. Unfortunately, in an attempt to strike some provisions creating new tax benefits in order to pass a clean bill, the Senate may have thrown the baby out with the bath water. The Senate removed provisions from the budget reconciliation bill which were fair, equitable, and extremely important to this Nation's economy.

These provisions include ones dealing with such vital matters as the low-income housing tax credit, the research and experimentation credit, the targeted jobs tax credit, employer-provided educational assistance, mortgage revenue bonds, small issue industrial revenue bonds, and the deduction for health insurance premiums paid by self-employed individuals. The value of these provisions is almost undisputed. I will take just a few minutes of the Senate's time to highlight a few of these provisions.

Under current law, small-issue industrial development bonds are carefully targeted. They are available only to finance manufacturing facilities. As a result, the funds raised through the issuance of these bonds help to directly create manufacturing jobs and stimulate the economy of many communities. These bonds are also the primary source of long-term fixed-rate financing for many small- and medium-sized businesses.

Small-issue industrial revenue development bonds are vital if our small- and medium-sized companies are to remain competitive with foreign businesses which receive a multitude of foreign government subsidies. Continuation of this program will result in little revenue loss to the Federal Treasury and therefore offers a low-cost and efficient means of providing Federal support for a growth sector of our economy. The authority for this program should be continued.

The low-income housing tax credit provides one of the few incentives for the construction, rehabilitation, and acquisition of housing to be provided to low-income families. It has been an effective means of stimulating low-income housing development. It should be continued.

Besides low-income housing development, this country needs to encourage and foster the ability of Americans to achieve a major part of the American dream—home ownership. Mortgage revenue bonds help to achieve this goal. These bonds are issued by State and local housing agencies to provide funds for home mortgages at slightly below market rates. This program helps young families to purchase their first homes. Yet this program is also expiring. It, too, should be continued.

The targeted jobs tax credit gives businesses an incentive to provide training and jobs for workers who might otherwise be unemployed. It also deserves to be renewed.

All of these programs are vital and meritorious. They should be continued. I congratulate my colleagues for supporting this amendment and I urge the House of Representatives to do the same.

Mr. KERRY. Mr. President, I rise in support of the amendment offered by my colleague from Missouri, Senator DANFORTH, to extend several expiring tax provisions. Of particular concern to me, Mr. President, is the extension of the low-income tax credit.

Mr. President, an extension of the low-income housing tax credit is one of the most important legislative goals the Congress can accomplish prior to adjournment this year. The low-income housing tax credit is an important and valuable tool in the production of affordable housing. That, Mr. President, is an objective we cannot either take lightly or overlook in our haste to adjourn.

An extension of the low-income housing tax credit is particularly important given the cutbacks in housing and housing production that we witnessed during the Reagan administration. Although Secretary Kemp has demonstrated much needed leadership at HUD and although it appears that there exists a commitment on the part of the Bush administration to begin to address the issue of housing, extension of the low-income housing tax credit is rightfully within the jurisdiction of the Congress and it is a responsibility that we cannot, in good conscience, ignore. The President can show real leadership in housing by supporting an extension of this important tax credit now.

The low-income housing tax credit is a program that has proven its effectiveness since its inception in 1986. In my home State of Massachusetts alone, the existence of the low-income housing tax credit has meant the production of more than 1,500 units of affordable housing. Nationally, Mr. President, the low-income housing tax

credit provides for the production of more than 100,000 units of low-income housing yearly.

The low-income housing tax credit works. It is an effective program that deserves the extension that this amendment would provide. It is a viable program that represents effective public private partnership. As representatives of the people, we need to send a clear signal to the States, localities and private investors that utilize the credit. In so doing, we also seek to fulfill our commitment to ensuring housing for the homeless and the poor.

Mr. CHAFEE. Mr. President, I am pleased to join as a cosponsor of this amendment to extend certain expiring tax provisions. This amendment provides us with the opportunity to vote for stability in our tax policy on issues that are important to every segment of this great Nation and its citizens.

Many of these provisions are important to the continued growth of our economy and the ability of our businesses to successfully compete in the international market. Other provisions are important to the accomplishment of important social goals, such as providing affordable housing for all Americans.

We are currently enjoying the benefits of the longest peacetime economic expansion in the history of the United States. At the same time, however, it is estimated that as many as 3 million Americans are homeless. These individuals are unable to find affordable housing, much less realize the American dream of owning a home.

In an effort to address this problem, we provided the States with authority to issue tax-exempt mortgage revenue bonds and, in 1986, created the low-income housing tax credit. This credit was for low-income Americans. It provides a valuable tax incentive to encourage developers to produce low-income rental housing.

By extending this tax credit, we will be continuing a program that directly benefits less fortunate Americans. In addition, we will be advancing a proposal endorsed in last year's Rouse-Maxwell report, a study that is widely considered to be the blueprint for future housing policy.

In my State, Rhode Island Housing has used the tax credits to create over 450 low-income housing units during the last 2 years. Without this valuable resource, none of these units would have been constructed in Rhode Island. In 1988, Rhode Island was one of only nine States to use 100 percent of its 1988 credit allocation, and the demand for the 1989 credit allocation far exceeded the available supply.

The loss of this tax credit would be a devastating blow to the efforts of Rhode Island Housing. Their program combines an equity investment fund raised through the sale of the low-income housing tax credits with bond financing and zero interest second mortgages to produce affordable housing in one of this country's most expensive housing markets.

Providing adequate housing for the poor is a long-term job, and Rhode Island Housing is in the initial planning stages of a new equity investment fund. If the credit is not extended before the end of this year, these efforts will have to be canceled, and all new projects under consideration by developers wil have to be put on hold. Our failure to extend this program prior to the end of the year will result in a delay in the construction of new low-income housing that could extend for all of 1990 and into 1991.

Besides providing affordable rental housing for all Americans, we must remember that homeownership is an important part of the American dream. In many States, such as Rhode Island, where housing is very expensive when compared to median incomes, we must provide tax incentives for programs that assist low-income Americans in acquiring their first home. We must reverse the declining homeownership trend that exists in this country.

The Mortgage Revenue Bond [MRB] Program authorizes States to issue tax-exempt mortgage revenue bonds to provide below market-rate financing for the purchase of homes by citizens in those States. This below market-rate financing allows many Americans to purchase a home, when they would not be able to buy a house with any of the conventional financing methods.

In 1986, we adopted a State volume cap which placed a limit on the total amount of private-purpose, tax-exempt bonds that could be issued by a State. The MRB Program expands the types of private-purpose bonds that can be issued by a State within its volume cap. I believe we should allow each State to utilize the volume cap to best meet the needs of its citizens.

The Mortgage Revenue Bond Program is a vital part of my State's housing program and its efforts to address the large affordability gap that exists in Rhode Island. The experiences of Rhode Island Housing, the manager of the MRB Program in my State, illustrate the importance of this program to fulfilling the homeownership dreams of low-income Americans.

In the 15 years that Rhode Island Housing & Mortgage Finance Corp. has existed, almost 35,000 families have been able to purchase a home utilizing a mortgage from our MRB Program. The managers of the MRB Program have calculated that approximately 80 percent of the families served by the MRB Program would not have been able to qualify for a conventional mortgage. Rhode Island Housing utilizes State resources to provide second mortgages and interest rate buydowns combined with the MRB Program to assist citizens of my State in the purchase of a home.

If the Mortgage Revenue Bond Program is not extended, the State housing agencies will have to cancel any existing plans for new issuances of mortgage revenue bonds. This could create an extended period of time in which the States do not have money available to provide low-interest mortgages. The leadtime required for financing new mortgages through the issuance of new bonds would be approximately 5 to 6 months.

I believe it is imperative for us to extend the authority of the States to issue tax-exempt bonds to provide mortgage financing to our young families, who would not otherwise be able to fulfill the American dream by purchasing a first home.

In addition to the problem with affordable housing in this country, we must also be concerned about the effect of our international competitiveness on the continued vitality of our economy. Government policies should be carefully scrutinized to ensure they enhance our ability to compete rather than hinder it. Our attention should be focused on helping American businesses succeed in today's worldwide market.

One area of tremendous importance in today's competitive environment is research and development which leads to technological innovation. The nations that are winning the competitiveness race are those that recognize the importance of advanced technology—because it results in new, marketable products and more efficient production and manufacturing.

These countries work to attract companies that will establish research and development facilities within their borders. To achieve greater economic competitiveness we must foster, not impede, U.S. investment in research and development. We must expand, not export, our technological base.

Without stability, we cannot expect our major investors in R&D to make the long-range plans that are critical to some of our most promising research efforts. The provisions in this amendment to extend the R&D tax credit and to renew the moratorium on the application of the section 861-8 R&D allocation rules are necessary to encourage the commitment of U.S. industries to long-term R&D investment.

We must provide these incentives to American businesses to increase and maintain higher levels of expenditures for R&D. Increased levels of research are necessary for America to regain the competitive edge that we have enjoyed for years, but which we have lost, in recent years, to other nations, such as Japan.

If we allow these important tax provisions to expire at the end of this year, we must be prepared to accept the negative consequences that will occur. I am hopeful that these short-term extensions of the expiring provisions will provide us with an opportunity to act early next year to enact permanent extensions of the low-income housing tax credit, the R&D tax credit, and the section 861-8 allocation rules.

In spite of my support for these extensions, I do have a reservation about the employer payroll tax collection speed-up that is used to pay for this amendment. The President may very well oppose this revenue raiser, since it effectively creates revenue in 1990 by borrowing from 1991. The majority of the tax revenue raised by this provision comes from the payroll taxes that would have been collected in fiscal 1991, and are now collected in 1990. I believe we must be prepared to find another way to pay for these important provisions, if the President classifies these revenues as phony.

Thank you, Mr. President, I yield the floor.

The PRESIDING OFFICER. The question is on agreeing to the Danforth amendment, if there is no further debate. Is there further debate? If not, the question is on agreeing to the amendment.

The amendment (No. 1129) was agreed to.

Mr. HELMS. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. DIXON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HELMS. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MURKOWSKI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MURKOWSKI. Mr. President, I rise to thank my colleagues, Senator HELMS, and Senator SIMON, who so notably led the extended debate yesterday on the Polish legislation. Unfortunately, the Senator from Alaska was traveling back from Alaska, and that takes all night or all day, depending on which way you go. So, unfortunately, I was not available for the debate. However, I do thank the Senator from Illinois for including the two amendments which I understand were accepted.

I think we all agree that the legislation which we are about to pass is a major compromise representing a very significant step forward in assuring our friends in Poland that we indeed stand behind the noble effort that has occurred in that country as a consequence of the commitment and diligence of the Polish people. I think it is a recognition that they have always had the ability to rally around the heritage of Poland, the church, which has meant so much to the cohesiveness of the people of that nation during a long and difficult road. What has been achieved is truly extraordinary, as we look at movement across Europe today, as evidenced by what is occurring in East Germany with the Berlin Wall coming tumbling down, so to speak, one might say that this all began in Poland. As a consequence, the commitment that we have to ensure that continued assistance from the United States and the Western world is very real is evidenced in this legislation.

Further, Mr. President, I think we recognize that when the people make a sacrifice as significant as has been made by the people of Poland, and the fact that they are willing to depart from a lifestyle that obviously is dictatorial in the sense of socialism and communism, there is a very significant void and that void must be filled by the commitment of assistance, and we are going to see the opportunity now for private investment in Poland.

We must be cautious to ensure that Poland does not become an outlet for other countries to utlize the productivity of Poland, that it truly is made on the basis of assuring assistance so that the national industry of Poland can be purchased by the people of Poland with joint ventures and other assistance from the United States interests.

Mr. President, yesterday in my absence, Senator HELMS offered two amendments on my behalf which I understand were accepted by the Senate.

I thank Senator HELMS for his actions on my behalf.

Very briefly, these amendments urge the President to take two actions in the coming weeks to address the emergency assistance and economic stabilization needs of the Polish people.

The first asks the President to work closely with the IMF in determining the possible balance of payment crisis the Poles may face this calendar year.

The Polish finance minister raised this issue with me directly during his visit to Washington in September.

He indicated the distinct possibility that the Poles may face a budget shortfall this year that would seriously affect their imports of agricultural inputs and pharmaceutical supplies.

The amendment urges the President to consider the extension of a bridge loan to the Poles to address any emergency need that may become apparent before funds from international lending institutions can be made available.

I believe this issue is of sufficient gravity as to merit specific reference in this bill.

The second amendment addresses the $200 million economic stabilization grant proposed by the President and contained in this bill.

It asks the President to call an urgent meeting of western democracies to build on the $200 million United States contribution to reach the level of $1 billion requested by the new Polish Government.

I understand the Senator from Michigan [Mr. RIEGLE] also had a similar amendment accepted yesterday.

Between the two of us we should have this issue covered.

Activity is ongoing between the United States and the European Community with this regard. This amendment underscores the need for quick action and United States leadership in fully funding the economic stabilization needs of the Poles.

In concluding, I applaud the managers for the progress that has been made on this legislation.

I believe that what has emerged from this process is a comprehensive and clearly targeted package of assistance to the Polish people.

Our action on this legislation could not come at a more significant and dramatic time in Eastern European affairs.

This weekend, the United States and the world watched in awe as the most powerful symbol of the divided Europe—the Berlin Wall—literally crumbled under the feet of East Germans seeking the freedom of the West.

Lech Walesa, the father of Polish Solidarity and the reform movement in Poland will speak to the joint Houses of this Congress tomorrow.

The artificial lines that carved Europe into opposing political blocs are disappearing, Mr. President, and there is no more important time for the United States to extend its hand in guidance and assistance to those left struggling to redefine their place on the continent and in the world.

The Senate extends that hand today, Mr. President, not just to Poland and Hungary but to all citizens of Eastern Europe seeking a better, more democratic and more productive way of life.

Once again, I commend my colleagues for the action we are about to take. And I thank the distinguished majority and minority leaders for accommodating me in order to speak on this very important piece of legislation.

I wish to acknowledge our administration and our President for the commitment which has been made to ensure that the aid as expressed in this legislation is forthcoming.

I thank my colleagues and I thank the Chair.

Mr. KERRY. Mr. President, remarkable changes are occurring in Eastern

Europe these days. For over 40 years, the United States has demanded that the Soviet Union change its political system and loosen its stranglehold over the countries of the Eastern bloc.

The Western alliances, formed to confront the threat of Soviet expansionism, has consistently urged the Soviet Union to decentralize its political and economic system and to grant every Soviet citizen the right to speak, to worship, and to emigrate freely.

Since World War II, the West has called for an end to Soviet domination of Eastern Europe and has tried to promote greater autonomy and freedom for those Soviet-controlled countries. There can be no doubt that today, many of the goals of our post World War II policy are on the verge of being realized.

Hungary has now declared itself a democratic republic. It has removed the barbed wire from its borders and allowed thousands of East Germans free passage to the West. The leader of the opposition faction within the Supreme Soviet has met with the President of the United States. A Solidarity-led government has been elected in Poland.

Glasnost has produced remarkable change within the Soviet Union as we continue to witness the most astounding admissions of past errors in that country. The latest coming from Soviet Foreign Minister Shevardnadze who stated this week that the invasion of Afghanistan violated Soviet laws, norms, and ethics. He stated further that the Krasnoyarsk radar was a clear violation of the ABM Treaty.

Now is the time for the United States to encourage and capitalize upon the changes we have sought for so long. Nobody is questioning the reality that the evolution within the Soviet Union and Eastern Europe will not create new hazards and new uncertainties. However, extraordinary political change provides extraordinary opportunity and does entail extraordinary risk.

For many of us in the Congress, there is not any question that the greatest risk is the failure of continued progress toward democratization and a reversion to the cold war politics of the past.

Today, we face the challenge of restructuring relations with countries ravaged not by fascism and war, but by the effects of a Communist ideology that has clearly failed to deliver economically, politically, and spiritually. Therefore, the task for U.S. foreign policy is to devise and implement policies that serve the interests of the United States. That means we have to be engaged in the process. This means we cannot be passive bystanders as Poland and Hungary struggle to revamp their failed political and economic systems and try to control their own destinies. Our commitment to support these nations must go beyond nods and meager gestures.

Poland's emergency needs alone, however, run into the billions. The country is suffering from a $39 billion external debt which needs to be rescheduled. Food supplies need to be provided until agricultural reforms yield results.

Nobody in the present Solidarity-led government seeks a blank check from the West. Warsaw understands that the medium- and long-term prospects for economic revival will have to be tied to austerity and looser state control. The Poles know exactly where they want to go.

The Poles want an economy that looks very much like those in Western Europe, with free markets and hard currency. Without aid from abroad this transition will impose great suffering as old jobs vanish, controlled prices leap upward, and the old benefits and patronage disappear. It could become painful enough to threaten the Government, thereby jeopardizing Poland's first, freely elected Government in well over half a century. That's why Western aid in credible amouns is necessary, and why speed is crucial.

One of the ways we could further assist Poland in revamping its agricultural sector would be to promote a farmer-to-farmer program with Poland through the agency for international development. Under the farmer-to-farmer program, United States volunteers with expertise in their field would go to Poland and provide technical assistance to Polish farmers on a variety of problems, from animal care to field crop cultivation, to food processing, farm credit, and marketing. The current aid-funded farmer-to-farmer program has been very successful and has sent over 200 United States farmers to over 35 countries since 1986. We have a strong model on which to build, and I hope that we will do so.

The United States must take the responsibility for our Nation's special stake in the transformation of communism. As the world's leading democracy, we stand as a beacon of hope for millions around the globe who want freedom and economic opportunity. Communism has failed to provide either. Therefore, democracy succeed peacefully, with the same energy and enthusiasm we have repeatedly demonstrated in the past to meet the Communist threat by military means. Therefore, I applaud and support the efforts by our distinguished colleague from Illinois, Senator PAUL SIMON, who is offering what I believe is a reasonable compromise between the administration's request and the Support for East European Democracy Act which we reported from the Committee on Foreign Relations.

Mr. PELL. Mr. President, the events we are witnessing in Eastern Europe are truly extraordinary. Each day, the television footage and newspaper headlines become more startling: Poland elects its first non-Communist government in more than 40 years; the new Hungarian Socialist Party announces it will step down if defeated in multiparty elections next spring; Todor Zhikov, the longest serving Communist leader in Eastern Europe relinquishes power in Bulgaria; hundreds of thousands of East Germans flock to the West; and the Berlin Wall, the cold war's starkest symbol, is tumbling down.

Throughout the past 40 years, the people of Eastern Europe have looked to the United States as the symbol of freedom and democracy, and we, for our part, called for the type of change that is now occurring. But few of us thought that we would actually see these events in our lifetime. Perhaps we were not creative enough; perhaps we underestimated the desire of freedom inherent in the people of Eastern Europe.

It has been easy for us to call for reform—to be the champion of democracy, human rights, and the free market. But now, words alone will not suffice. From across the Atlantic, we watch events unfold with a great sense of satisfaction; but that is not enough. We too, must engage in new thinking. The time for rhetoric is behind us; the time for creative action is ahead.

We have before us the opportunity to take action on important legislation to assist Poland and Hungary as they embark upon a changed course. This legislation provides the support that Poland and Hungary desparately need to carry out their ambitious reform programs: It establishes private enterprise funds to promote private sector development; it provides authorization for technical training and environmental initiatives; and it offers food aid.

Less than 2 weeks ago, Imre Posgay, Hungary's Minister of State and the Socialist Party's leading advocate of reform, met with members of the Foreign Relations Committee. At that time, we had to tell him that progress on this legislation was stalled by our own legislative process.

Tomorrow, Lech Walesa, Solidarity leader, Nobel Prize winner and architect of the new Polish Government, will address this body. Throughout the last 10 years, we have supported Mr. Walesa's actions with words, but now we must support our words with action. Mr. President, I urge that we take swift and decisive action to pass the legislation before us in time for Mr. Walesa's visit tomorrow.

Mr. MITCHELL. Mr. President, today the full Senate has a rare opportunity.

We have the chance to participate in one of the most dramatic changes in the international system since 1945—the movement of nations in Eastern Europe away from Soviet domination toward economic and political freedoms and national independence.

The change underway in Poland and Hungary is truly historic. The governments of these countries are being historic. The governments of these countries are being transformed. No longer is the Communist Party assured a monopoly of power. In fact, those parties are being swept away by democratic forces and have begun the process of internal reform. The Hungarian Communist Party has renamed itself Socialist and pledged to support a multiparty democracy. Solidarity, once outlawed, now leads Poland on its path toward democracy.

The people of Poland and Hungary are being given a chance to determine their own futures through a more open electoral process. They are increasingly gaining other democratic freedoms that we in America take for granted. Poland and Hungary are opening their controlled economies, beginning the painful adjustment necessary for a more competitive, free market economic system.

These tasks are not simple. They require steady and resourceful leadership and the understanding and support of the people. The transformation underway will be difficult and its success is by no means assured.

But the success of liberalization in Poland and Hungary is crucial, not simply for Poles, Hungarians, and the Communist neighbors who watch and judge their efforts, but also for the West.

We cannot underestimate the implications of success for the future of all aspects of East-West relations—the security, political, and economic arrangements that will shape that continent in the next century.

It is very much in our interest to ensure that Poland and Hungary succeed.

The bill before us—the Senate Foreign Relations Committee package as modified by Senator SIMON and Senator DOLE—is designed to help ensure that success.

Senator SIMON has played a vital role in moving the Senate, and the Bush administration, forward on the critical issue of aid to Poland and Hungary. His leadership and that of Senators MIKULSKI, CRANSTON, LEAHY, and others have been invaluable in helping to focus American attention on the importance of developments in those countries.

This bill offers a comprehensive and responsible route toward strengthening democracy and freedom in Poland and Hungary.

A great strength of this approach is that it is tailored to the specific needs of the Polish and Hungarian people. The bill establishes important programs to help institutionalize democratic structures and train Poles and Hungarians in the scientific and technical skills so crucial for the future development of industry.

This measure will enable Poland to begin modernizing its communications system, a prerequisite for an efficient market system. It provides necessary environmental cleanup assistance. It will enable Peace Corps volunteers to work in Poland and Hungary and will provide assistance to address critical shortages of medical supplies and health care.

To encourage trade, the bill extends generalized system of preferences eligibility to Poland and Overseas Private Investment Corporation programs to both Poland and Hungary.

This measure also builds upon the President's suggested private enterprise fund, expanding the program to ensure that it can fully exploit and encourage the entrepreneurial efforts of Hungarians and Poles. And it establishes a central clearinghouse to provide Americans with information about business needs and opportunities and voluntary assistance to countries in Eastern Europe.

This measure also authorizes $125 million this year for vitally needed food supplies in response to Poland's request for immediate food aid. The Polish people have been forced to tighten their belts. They live in fear of the escalating prices of food and other basic commodities that are the result of loosened central price controls. But this bill will help ensure that hunger is not the price for democracy.

As the President and the Polish Government requested, the bill includes an authorization for $200 million for the United States' contribution to a multilateral $1 billion stabilization fund.

Reflecting the widespread belief that the United States must play a leadership role in multilateral aid efforts, this bill urges the United States to actively encourage the World Bank and the International Monetary Fund to provide timely and appropriate assistance to Poland and Hungary. It calls on the administration to work with our Western allies to support the Polish Government's new economic plan and to move quickly to reschedule Poland's crushing debt burden. And it urges the administration to consider creative solutions to Poland's debt problem such as debt-for-equity and debt-for-nature swaps.

This is a reasonable bill. This is a responsible bill. It is carefully calibrated to foster private investment and production in Hungary and Poland as appropriate to the needs and capabilities of the growing private sector in those countries.

Those who would prefer to do less simply fail to understand the critical nature of this opportunity to help ensure the success of democracy and economic freedom in Eastern Europe.

Does anyone doubt that we would hesitate to respond if a military buildup were required to help East European States attain freedom? We would not hesitate for a moment. We would provide the necessary military resources.

Yet today we have an opportunity to contribute to freedom in Eastern Europe peacefully, by providing our expertise and assistance to shore up a free market and help reinforce democratic institutions in those countries.

Let us remember that President Bush this April, in Hamtramck, MI, declared that the United States would keep its promises to respond quickly and imaginatively to significant internal reforms in Poland. He said, "We can and must answer this call to freedom."

Then in July, President Bush went to Poland to tell the Polish people that "the United States will stand with Poland. We will support Poland's hopeful mission, unparalleled in your history."

But the President's proposals did not live up to his pledges.

I hope that my colleagues will recognize that we cannot pretend to fully support Poland and Hungary's movement toward freedom and democracy without acting accordingly. I believe that this body must play a responsible role in helping to ensure the success of reforms in Poland and Hungary.

Our allies realize how fleeting and crucial this opportunity is and they have responded accordingly. Italy alone has pledged aid almost equal to that proposed by the administration. France has pledged more. And Germany has offered Poland a package of assistance worth even more than the bill before us.

This overwhelming response from our allies should underscore to my colleagues the need to act boldly. The United States cannot continue to simply sit on the sidelines, saying that we support change in Poland and Hungary but refusing to make a significant contribution to ensuring its success.

Senator SIMON's efforts have led, in my judgment, to an effective American program to promote freedom in Eastern Europe. He has worked to create a bill that serves the interests of our Nation and those who long and work for democracy throughout the world. We now have a bill that will ensure that the United States remains true to its words, engaged in and supportive of democratic reforms.

The United States must play a leadership role in promoting precisely the changes in Eastern Europe that we have demanded for four decades, and

this bill will help to ensure that we do so.

It is fitting for the Senate to pass this long-delayed measure, and to urge an enhanced American role in supporting change in Eastern Europe, today, on the eve of Solidarity leader Lech Walesa's address to a joint session of Congress.

I urge my colleagues to support this bipartisan effort to foster democracy and freedom in Poland and Hungary.

Mr. LAUTENBERG. Mr. President, I rise in strong support of the Support For Eastern European Democracy Act of 1989 and am pleased to be an original cosponsor of this legislation. I commend Senator SIMON for the leadership role he has taken in putting this aid bill together.

By authorizing $738 million over 3 years, this comprehensive bill demonstrates that we are committed to supporting the freedom and democracy in Poland and Hungary and that we are serious about responding to the dramatic reforms underway in those countries.

Among its key provisions, the bill authorizes $325 million for private enterprise development in Poland and Hungary. It includes additional funds to assist Poland in stabilizing its economy, implementing labor market reforms, and providing technical training. It authorizes OPIC to operate in Poland and Hungary, and would through the extension of GSP, expand trade between Poland and Hungary, and the United States. It addresses the foreign debt problems that burden Poland. And it also addresses need for food and medical assistance.

The need to help Poland and Hungary as they head down the road of democracy is urgent. This August, I traveled with the Helsinki Commission to Poland where I had the opportunity to witness, firsthand, the Polish people's latest battle against oppression. Poland is at a critical juncture in her history. Indeed, it is an historic moment for the entire world. Poland's needs are urgent, and so is our need to respond.

The Polish people are reversing over 40 years of tyranny. They have accomplished what no other people in the world have been able to do: they have peacefully, through the democratic process, overturned a Communist government. Millions of people in other Eastern European countries, and around the world, will be profoundly affected by the success or failure of developments in Poland. They, and we, cannot afford to fail.

While in Poland, I witnessed the parliamentary election of Tadaeusz Mazowiecki to be the democratically selected head of government. I also met with Solidarity leader Lech Walesa, a visionary charismatic and compelling leader. He presented an image of courage and determination. That's why the whole world admires him. He epitomizes the will and strength of the Polish people to live as a free people.

In my meeting with Lech Walesa, he spelled out the incredible challenge facing Solidarity leaders and their coalition partners in government. But he also expressed hope and optimism and determination.

In light of the tentative situation in Poland right now, he stressed that it is crucial that the United States take the initiative in aiding Poland's economic recovery. Lech Walesa emphasized the need to move quickly in addressing Poland's economic problems, if political reform is to succeed. He emphasized again and again the importance of stimulating the Polish private sector. He said Poland needs a "healthy dose of capitalism"—Western business investment and management skills. This bill responds to that plea.

Similarly, we need to respond to the movement toward democracy in Hungary. There too the seeds of democracy have been planted and are beginning to blossom.

The Hungarian Government has recognized the 1956 uprising as a popular uprising and has taken steps to offer Imre Nagy an honored place in Hungarian history. The Government has demonstrated an astounding level of independence and commitment to human rights by assisting refugees fleeing from East Germany and Romania. Perhaps most importantly, the Government has allowed political associations to form and has scheduled free elections for 1990.

America must seize this opportunity to turn back communism and totalitarianism and promote freedom and democracy. The provisions on Poland and Hungary included in this bill will move us in that direction.

The Polish and Hungarian people have the tenacity to fight the war for freedom and reform if we provide the ammunition. But to succeed, they need our assistance in reviving their economies. They need investments, business experience, training, and a belief that they have the manifest power of the free world behind them.

I urge my colleagues to send a signal of support for the movement toward freedom and democracy in Poland and Hungary by supporting the Support for East European Democracy Act of 1989.

Mr. DURENBERGER. Mr. President, I wish to express my strong support for this measure to provide desperately needed assistance to Poland and Hungary. We have a truly historic opportunity to provide concrete, substantive, and meaningful support to the people of these countries to assist them in their noble and valiant quests to establish free and democratic societies. The rapid and dramatic changes that we have witnessed in Poland, Hungary, and now in East Germany as well as elsewhere in Eastern Europe, boggle the mind. As an American with a strong Polish heritage, I am proud and honored to support this measure.

In the past few months, we have read and listened to many important statements and speeches regarding United States aid to Poland and Hungary. The individuals and groups involved with this issue have presented different arguments and taken specific positions concerning the amount and form of aid that we should offer these countries.

There are certainly legitimate differences on these questions. Indeed, even in the Senate, there are differences of opinion on how best to proceed. Imagine that. Importantly however, there has been almost universal agreement that we should provide substantial assistance. With this bill, which we will shortly vote on, the U.S. Senate demonstrates its commitment and willingness to support the revolutionary changes taking place in Poland and Hungary.

As you know Mr. President, my interest and commitment to Poland is deep and long-standing. Several years ago, I visited Poland and saw for myself the deplorable state of affairs in which the majority of Poles live. The Communist system that ruled in Poland since the end of World War II had failed miserably.

But even amidst these depressing conditions, and at a time when most of the world had given up hope for Solidarity's resurgence, I saw first hand that the will and spirit of the people to reform their system and to achieve democracy and freedom for the nation had not dimmed at all. On the contrary, their fervent and undying yearning to determine their own fate burned intensely. The Solidarity movement was alive and strong, albeit underground. The Catholic Church continued to motivate and inspire the people.

At long last, earlier this year, the people of Poland had the opportunity too long denied them to vote in a free and open election. They voted overwhelmingly for Solidarity candidates, irrefutably rejecting the illegitimate Communist rulers. And finally, in what seemed an undeniable fate, the Communists failed to form a government, opening the way for Solidarity to establish the first non-Communist government in the Eastern bloc since the end of World War II.

And now, we in the United States and the rest of the industrialized free world, have the opportunity, indeed the obligation to assist the people of Poland and Hungary to achieve their democratic aspirations. Our vote today to pass this measure is a vote to help the people help themselves rid their countries of totalitarian regimes and

establish and institutionalize democracy and economic freedoms.

I am honored to participate in the process that will provide Poland and Hungary with the assistance they require to realize their aspirations. Surely there are risks involved, but also there is a great likelihood that the extraordinary political, economic, and societal changes in Poland and Hungary will succeed. This democratic transformation will serve as a triumphant example for all of Eastern Europe as well as for people around the world who yearn to be free to determine their own futures, to make their own choices, to make their own mistakes, and to achieve their own triumphs.

We all share their hopes and dreams, and pledge our support and commitment to assist them in realizing their aspirations to live free, to be free.

Mr. WALLOP. Mr. President, the changes in Poland and other countries in Eastern Europe do not appear to have touched one area of concern to our national security. That is the intelligence activities of these countries in the United States, especially on behalf of the Soviet Union.

I rise today in support of a provision in this legislation, which the managers of the bill graciously accepted, that requires a report from the President on the extent of Polish espionage in this country, in light of changes in the government there.

Polish intelligence was responsible for two of the most serious espionage cases in the early 1980's. William Holden Bell, a senior project manager for a major defense contractor, was recruited by a Polish intelligence officer operating under commercial cover in California. For 3 years Bell supplied extensive classified documents to Polish Intelligence on advanced radar systems.

In another case, James Durward Harper passed to Polish intelligence a vast array of classified materials on missile survivability and ballistic missile defense from a private firm doing contract research for the Army. On one occasion Harper took some 100 pounds of classified reports to Warsaw, where a team of 20 KGB experts flown in from Moscow declared them to be extremely valuable. The Chairman of the KGB at that time, Yuri Andropov, commended the Polish intelligence unit that handled Harper.

Mr. President, these two incidents alone included highly secret information on the B-1 and Stealth bombers quiet radar programs, details of the lookdown, shootdown radar for F-15 fighters, and all-weather radar system for U.S. tanks, information on the Phoenix air-to-air missile used on Navy F-14 fighters, and the list goes on.

Additionally, Mr. President, just 2 years ago a Polish citizen was arrested in Los Angeles while attempting to leave the country with 46,000 dollars worth of microprocessors. I am also informed that Polish intelligence, at least during the time when Solidarity was illegal in Poland, was monitoring the activities of Polish-Americans in this country who supported Solidarity.

The two cases involving Bell and Harper were cited in a report issued by the Senate Intellegence Committee in 1986. I would like to ask the vice chairman of the Intelligence Committee, Senator COHEN, whether the committee has any additional information about the current activities of Polish intelligence and other Warsaw Pact intelligence services that operate in this country.

Mr. COHEN. I appreciate the interest of the Senator from Wyoming in this matter. As a member of the Intelligence Committee several years ago, he took the lead in getting us to focus on counterintelligence problems. Since 1986 the Intelligence Committee has continued to follow counterintelligence developments closely. We have inquired specifically about the impact of recent events on Soviet and Eastern European Intelligence Operations. The most up-to-date information reaffirms the findings that the committee reported in 1986.

The intelligence services of Poland, East Germany, Czechoslovakia, Bulgaria, Hungary, and Cuba continue to conduct intelligence operations in this country, not only to serve their own national interests, but also as surrogates for Soviet intelligence. This appears to be one field where countries such as Poland continue to serve Soviet interests that directly injure the national security of the United States.

Mr. WALLOP. If this is the case, is there anything our government is doing to place limits on the intelligence operations of these countries in the United States?

Mr. COHEN. Yes, there are several measures that were put in place a few years ago and that remain in effect today. Polish diplomats at their embassy, their consulates, and their U.N. mission, as well as Polish Nationals working for the United Nations and for Polish commercial enterprises, must make travel arrangements through the State Department's Office of Foreign Missions. Their property acquisitions are also controlled by the Office of Foreign Missions and must be reviewed by the FBI and the Defense Department.

The same kinds of requirements are imposed on diplomats, U.N. employees, and commercial entities from other East European countries that act as Soviet intelligence surrogates.

Mr. WALLOP. Have there been any efforts to lift these restrictions.

Mr. COHEN. The Intelligence Committee has not been formally notified of any specific proposal to relax these controls, but there are signs that some State Department officials may have that in mind. The law has been written, however, so that changes in the travel requirements will have to be approved by the Secretary of State and reported to the intelligence and foreign relations committees by the President.

Speaking personally, I believe the National Security Council should formally review any such proposal very carefully and consult U.S. counterintelligence agencies before any change is made.

Mr. WALLOP. Is there anything the Senate can do in this area?

Mr. COHEN. During the mid-1980's several members, including Senator LEAHY, Senator DURENBERGER, Senator ROTH, Senator NUNN and myself, secured the enactment of legislation to strengthen these controls on Soviet surrogate intelligence operations. That legislation always gave the Secretary of State or the President the power to make exemptions. Thus far, that power has been used responsibly. But if it is exercised in blatant disregard of strong counterintelligence evidence, further legislation may be needed.

Mr. WALLOP. What can be done to make sure that the Office of Foreign Missions in the State Department works effectively to take these counterintelligence concerns into account,

Mr. COHEN. The Office of Foreign Missions has not had a Senate-confirmed Director for nearly 2 years, since its first Director, Ambassador James Nolan, a former senior FBI counterintelligence official, retired from Government service. An Acting Director from the State Department took his place, and now the job is vacant. The Office of Foreign Missions needs a strong Director, and I hope the administration will send up a nominee who has an in-depth understanding of counterintelligence requirements.

Mr. WALLOP. I appreciate the concern of the vice chairman of the Intelligence Committee for these problems, and I would like his assurance that the committee will continue to exercise vigilant oversight of the administration's policies in this area.

Mr. COHEN. You have that assurance. The chairman, Senator BOREN, and I have made this one of the committee's priority objectives, and we will continue to do so.

Mr. WALLOP. If I may ask the distinguished vice chairman of the Intelligence Committee one last question? As he knows, the language in this bill requires a report from the President on the extent of Polish intelligence activities. While I assume that his com-

mittee will have access to this information, and will follow the matter closely, does he think it is important to retain this part of the legislation in conference, given the likelihood that the Senate will be asked to act on subsequent legislation on Polish aid?

Mr. COHEN. I think the reporting requirement is extremely useful as a means for the full Senate to monitor Polish intelligence activities in this country at a time when there appears to be significant and lasting change in the structure of the Polish Government. The Intelligence Committee will, I know, want to closely look at the report when it is completed. I certainly think that Senators would want to be aware of the extent of these activities as we continue to review U.S. policies and economic assistance to Poland.

AID TO POLAND AND HUNGARY

Mr. BIDEN. Mr. President, aid to Poland and Hungary is in America's interest. This is the simple truth from which any further discussion of this bill should proceed. We are inspired and gratified to see the pictures of Poland and Hungary becoming free—what can be more inspiring than the birth of democracy to people long consigned to barren lives under Communist rule? But democracy in Eastern Europe will benefit America in very material ways, too.

The most obvious benefit is the relief we can feel when countries once aligned against us suddenly declare themselves to be with us—to be partisans of democracy, instead of minions of communism; to be pioneers of free enterprise, instead of victims of centralized planning. I have no doubt that the Polish and Hungarian people have never considered the United States of America to be their enemy, but for 40 years their governments have been pledged to a way of life opposed to ours. For 40 years in Europe there have been two armed camps poised to clash if crisis should come: Poland and Hungary were in the camp against us. Today, following the will of the Polish and Hungarian people, these nations decry this division. America is safer for it. America is relieved by it. America—our values and ideas and persistance—are triumphant in it.

The end of enmity between Communist Hungary and Poland and democratic America significantly reduces the military threat against which we must defend ourselves and our allies in Europe. Independence looms brightly in these countries' horizons, and as they achieve independence they will seek to be a threat neither to the West nor to the Soviet Union. This will diminish the military potency of the entire Warsaw Pact. Indeed, the Soviet Union has foreseen this inevitable weakening of military forces in the East and is urgently trying to extract a quid pro quo from the West. But no matter how the Warsaw Pact and NATO evolve, Hungary and Poland have declared their status as nonbelligerents—a major reduction in the threat the West faces.

The United States currently spends about $180 billion a year to defend Europe. As the brave people of Hungary and Poland—unimpeded by the new Soviet leadership—seek independence and a demilitarization of their relationships both with the Soviet Union and the West, the threat facing NATO decreases. We have an opportunity, through wise and earnest negotiations with the Warsaw Pact, to significantly reduce both sides' armed forces in Europe and ultimately save billions of dollars. Insofar as the continued progress of Hungary, Poland, and indeed, the Soviet Union toward democratization gives impetus to the reduction of military arsenals, America's relatively small financial investment in the democratization process could reap large dividends in reduced military expenditures.

Beyond the opportunity to save billions of dollars now spent on weapons, the changes occurring in Hungary, Poland and the rest of Eastern Europe open possibilities for major economic gains. The Solidarity-led Government of Poland, and no doubt the soon-to-be elected Government of Hungary, seek to open their countries to the capitalist world and to become market oriented systems themselves. Hungary, and especially larger and poorer Poland, are eager for Western investments in their economy. With well-educated, skilled, but inexpensive labor pools, these countries could be good bases for American manufacturers seeking to enter East and West European markets. As these countries develop, they will become markets for American products.

It is an axiom of capitalist economics, and a lesson of American history, that new open markets are a boon to those who have desirable goods and services to sell. If Poland and Hungary develop their economies and open their markets we will increase the potential growth of our own economy. Whether or not American firms are competitive enough to thrive in these new markets is not for Congress to determine: what we can do is assist those in Poland and Hungary who want to create this potential. In my view we must.

Can anyone doubt that it is in our interest that democracy and markets take hold in Poland and Hungary? Can anyone doubt that the people of Poland and Hungary are on the verge of accomplishing what we have been struggling for since 1945? The answer is clearly no. We are agreed on our goals; now, with the bill before us, we are agreed on the means to pursue them.

Finally, let's put this effort in perspective. Perhaps the most momentous event in American life this century was World War II. The goal was clear, its attainment was difficult. In the words of Franklin Delano Roosevelt and Winston Churchill, the goal was

> • • • to see established a peace which will afford to all nations the means of dwelling in safety within their own boundaries, and which will afford assurance that all the men in all the lands may live out their lives in freedom from fear and want.

The tragedy of the war's end was that countries in Central and Eastern Europe were deprived lives of "freedom from fear and want." So, too, were these countries denied the benefits of the Marshall plan, which was intended to ameliorate "hunger, poverty, desperation, and chaos," in General Marshall's words. Make no mistake, the people of Eastern Europe were victims of World War II, just as deserving of our assistance as the people of Western Europe. Only, their pain was compounded by more than 40 years of suffering under Soviet-protected Communist rule. The people of Hungary and Poland did not choose communism, it was imposed on them. They were victims of two wars: World War II and the cold war.

Today, led by courageous and visionary men such as Lech Walesa, the people of Poland and the people of Hungary are picking themselves up by the proverbial bootstraps. In Poland, the country to which most of the aid provided in this bill is dedicated, the sense of righting history's wrongs is palpable. As American leaders and the American people consider how we can help Poland in its time of great need and historic opportunity, we should draw on Lech Walesa's wisdom to determine whether and how to proceed. For the cause of Walesa and his colleagues—Mazowiecki, Geremek, Kuron, Michnik, to name a few—and the cause of the Polish people, is our cause. It is freedom, independence, and a new prosperity.

A reborn Poland, and a reinvigorated Hungary, can help bring a new and peaceful order to Europe. This has been the goal of American foreign policy for four decades, and is in the profound interest of the American people. We can reach these goals by augmenting the freedom and independence of Poland and Hungary. That is what the present bill is designed to do, and that is why I support it.

Mr. DURENBERGER. Mr. President, I am going to vote against this sense of the Senate resolution because at a time of extraordinary historic change, I do not think that the President's hands should be tied in any way in negotiating with our foreign partners concerning funding for the International Monetary Fund [IMF].

Mr. President, 44 years of steadfast commitment by the United States to the principle of containing totalitariansim and repression, and fighting for democracy and freedom are now paying off handsome dividends. Since the end of World War II, we have spent trillions of dollars in maintaining a military strength that has preserved the light of democracy throughout the globe, and have spent hundreds of billions of dollars, to provide economic assistance to help fledgling democratic societies emerge into the world economy.

In every society where democracy is beginning to emerge, economic tensions are sure to follow as centrally planned countries face the difficult transition towards a free market system. Many of these countries suffer under the weight of an enormous financial debt that will have to be adjusted if their economies and their new democracies stand a chance of real long-term survival. And I have no doubt that the IMF will play a critical role in shaping the economies of these countries in these critical times.

Is this any time for the Senate to tell the President, and I quote from this resolution: "that the administration should not take any action at this time that would imply a commitment to increase or to propose an increase in the resources of the IMF." Are we so bankrupt as an economy that the President of the United States, a country that just happens to have the largest and most vibrant economy in the world, cannot even imply or suggest that the United States would want to redirect more of its resources through the IMF to assist the countries of Eastern Europe, or Latin America or the Third World?

Mr. President, the Congress does not have to approve a single dollar of financial contribution to the IMF. But let us not micromanage the affairs of the executive branch to the point that the President cannot even suggest a willingness to increase resources for the IMF. I urge my colleagues to reject this resolution.

Ms. MIKULSKI. Over the last few years, prior to Poland's first free elections, tens of thousands of Poles fled the unsatisfactory human rights policies and political restrictions of the old regime. Thousands sought and obtained temporary asylum in Western Europe, including some 18,000 Polish refugees who registered with United States Embassies for an opportunity to be interviewed for our refugee admission program.

Some of these asylum seekers are legitimately still reluctant to return to Poland. They have not yet seen any change in their hometown conditions or their local police and party officials. Others, however, after years in exile, see that conditions in Poland are beginning to change, and might soon be willing to return home.

I want to be sure that there is nothing in this bill that would preclude using funds authorized by this legislation for internationally funded and monitored voluntary repatriation programs involving international organizations, like the Intergovernmental Committee for Migration, UNHCR, the International Catholic Migration Commission and local organizations in Poland including the Church. Such a program would plan and facilitate the return and reintegration of these refugees and would even seek to attract the return of some of the talent Poland needs.

Mr. SIMON. Although you are not seeking to earmark funds at this time, I agree that for these purposes, there is nothing in this legislation that would prevent using these funds for such a voluntary repatriation program. I hope that the administration would be willing to so design these new programs.

Ms. MIKULSKI. So, in the Senator's view is there anything in the legislation that would preclude such assistance to individuals or groups aiding returnees?

Mr. SIMON. No.

Ms. MIKULSKI. This then is good news for those Poles who have left Poland. They may need some seed money to get started in new ventures and would also probably welcome technical assistance and training to help ensure the opportunity to rebuild old businesses, start new businesses, develop new products and markets, and even expand employment opportunities for other Poles.

Mr. President, I thank the Senator for yielding. I hope that our Government would be willing to include this idea in the new Polish aid program. I also believe that the administration should take the lead in developing with our allies a comprehensive approach to the plight of Polish asylum seekers that would offer permanent solutions to their long years of suffering in exile.

Mr. HATCH. Mr. President, as we debate the assistance package for Poland and Hungary, extraordinary events are occurring in Eastern Europe. Throughout these countries, we are witnessing a growing impatience with the status quo—a restlessness building to a steady surge for greater political, economic, and social freedoms. These post World War II, Marxist state-controlled systems are not working, and the world is witnessing their inevitable demise.

In the Soviet Union, President Mikhail Gorbachev has taken bold steps to revamp all levels of the Soviet systems. His policies of perestroika and glasnost have brought about political and economic changes in the Soviet system. Political reforms have brought an elected Congress of Peoples Deputies and the beginnings of a potential multiplayer system. Efforts to buttress a state-controlled system are proving more difficult and have resulted in growing disturbances throughout the independent republics.

President Gorbachev's initiatives have also had an impact in Eastern Europe. In Poland, a non-Communist government has been elected. Hungary has removed the formal structures of its Communist party, declared itself a democratic republic, adopted new constitutional reforms, and scheduled free elections for next spring. Moreover, in East Germany, perestroika and glasnost have inspired tens of thousands to graphically display their dismay with their government by fleeing to the West and holding peaceful demonstrations.

As President Gorbachev struggles with rising nationalism throughout the Baltic region, strikes within the independent republics, and an increasingly confident and vocal media, we have reason to be optimistic. We have reason to be optimistic when we hear President Gorbachev say that the Soviet Union has no moral or political right to interfere with Eastern Europe moves toward democracy. We have reason to be optimistic when we are told by Soviet Foreign Minister Eduard Shevardnadze that the Soviet Union violated the 1972 Anti-Ballistic Missile [ABM] Treaty by their Krasnoyarsk radar station in Siberia and that their 9-year campaign in Afghanistan was "a serious violation of our own legislation, of party and civic norms, and ethical standards of the time."

Yet we should also be cautious and prudent in our response to these changes. As long as the Soviet Union pumps billions of dollars in military assistance into Nicaragua, Afghanistan, and Angola in support of regional conflicts, we must remain cautious. As long as the Soviet Union denies its citizens basic human rights, such as freedom of religious worship and freedom of emigration, we must remain prudent in granting them trade credits and most favored nation [MFN] status. As long as the Soviet Union continues to modernize and upgrade their military capability, we must remain strong and unified amongst our allies. We have every reason to see President Gorbachev succeed, but we must be ever mindful of the lessons of history which reveal a repeat pattern of reform followed by severe crackdown.

Built upon a foundation of democratic values, economic freedom, and social justice, the United States has an obligation to assist the change taking place throughout Eastern Europe. For decades this country has worked tirelessly to show the failings of a single

party, State-controlled political and ecomomic system. Now, as the long sought change is occurring, and the people from within the system reach outward for assistance, we must extend our hand in a constructive manner.

The President's approach and the package supported by the distinguished Republican leader establish a bipartisan program for long-term economic and political success in Poland and Hungary. The package establishes a model program for weaning State controlled economies and political systems into the less painful but perhaps more confusing system of private economic growth, development, and investment and social and political freedom.

The central feature of the program is to provide the Polish and Hungarian people with the opportunity to help themselves. By focusing on the development of private enterprise, the aid package will allow these people to grow increasingly less dependent on grant assistance and more self-sufficient in controlling their own economic futures. This approach assures that whatever assistance the American taxpayer affords will provide maximum benefit in the days, months, and years ahead.

Mr. President, the recent events in Eastern Europe are a vivid reminder of the indefatigable spirit that resides in all mankind. The minute the oppressive nature of these Communist societies began to lessen, this spirit erupted. We hope and pray that these developments continue and this remarkable surge for freedom that we are witnessing today never slackens.

Mr. MACK. Mr. President, as we near final passage of legislation to provide economic aid to Poland and Hungary, I would like to again commend the citizens of both countries for this most historic development. We are all hopeful that the political changes rapidly occurring in the Eastern bloc nations will being about simultaneous improvements in their depressed economic conditions.

I would like to call attention to one portion of the bill and thank the leadership on both sides of the aisle for accepting what I believe is an important amendment to the bill. This amendment, which is language I offered, establishes clear cut purposes and goals of the economic aid. Namely, the aid is to be used to promote individual economic rights, such as property rights, pro-growth taxation policies, access to individual investment in the private sector, privatization of the State sector, an open trade policy and limitations on excessive regulation. The amendment further requires that the President issue a report periodically which will assessess the realization of these goals.

Mr. President, I believe this is an important amendment as it establishes a clear link between political and economic reforms. I thank my colleagues for supporting my amendment.

The PRESIDING OFFICER. The Chair advises the managers of the bill that, under the previous order, the Senate was to have recessed until the hour of 2:15. The Chair will entertain a unanimous-consent request.

Mr. SIMON. Mr. President, I question the presence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded the call the roll.

Mr. SIMON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The PRESIDING OFFICER. Will the managers of the bill make the unanimous-consent request with respect to the Senate's recess?

Mr. SIMON. Mr. President, I question the presence of a quorum. Frankly, the leadership will be coming in very shortly to make some announcements.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. MITCHELL. Mr. President, I ask unanimous consent that the vote on the remaining Roth amendment, No. 1121, and the vote on final passage of H.R. 3402 occur immediately following the cloture vote scheduled to begin at 5:15 p.m; that it be in order to ask for the yeas and nays on H.R. 3402 at this time; and that the time on these two rollcall votes be limited to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MITCHELL. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. MITCHELL. Mr. President, therefore Senators should be aware that beginning at 5:15 p.m., there will be three rollcall votes in succession, the first one a cloture vote on the Packwood-Roth substitute on capital gains and IRA's; the second one a vote on the Roth amendment to the Poland-Hungary aid bill; and the third one on final passage of the Poland-Hungary aid bill.

Mr. DIXON. Will my friend, the majority leader, yield for a question? Would the majority leader be able to enlighten the Senate about what might transpire subsequent to the three votes he has alluded to that will occur this evening after 5:15?

Mr. MITCHELL. We are attempting to clear for consideration the transportation appropriations bill, a conference report, and related legislation involving the drug program.

I have to discuss that further with the distinguished Republican leader before being in a position to indicate definitely what time we will vote on that.

Mr. DIXON. I thank the majority leader. Then there is a possibility of subsequent votes after the three votes he has already mentioned?

Mr. MITCHELL. Yes, there is. I hope we will know that by sometime during the afternoon. I will announce it as soon as I learn that.

Mr. President, I yield the floor.

RECESS UNTIL 2:15 P.M.

The PRESIDING OFFICER. Under the previous order, the Senate will stand in recess until the hour of 2:15 p.m.

Thereupon, the Senate, at 12:36 p.m., recessed until 2:15 p.m., when called to order by the Presiding Officer [Mr. SANFORD].

TEMPORARY REDUCTION IN CAPITAL GAINS TAX FOR NONCORPORATE TAXPAYERS

The PRESIDING OFFICER. Under the previous order, the hour of 2:15 having arrived, the Senate will now proceed to the consideration of H.R. 3628, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 3628) to temporarily reduce the capital gains tax for noncorporate taxpayers, and for other purposes.

The Senate proceeded to consider the bill.

The PRESIDING OFFICER. Under the previous order, the Senator from Oregon [Mr. PACKWOOD] is recognized to offer an amendment.

AMENDMENT NO. 1127

(Purpose: To amend the Internal Revenue Code of 1986 to promote savings and long-term investment through a reduced capital gains tax rate and individual retirement plus accounts, and for other purposes)

Mr. PACKWOOD. Mr. President, I call up amendment No. 1127.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Oregon [Mr. PACKWOOD] proposes an amendment numbered 1127.

Mr. PACKWOOD. Mr. President, I ask unanimous consent that the read-

ing of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Strike out all after the enacting clause and insert:

SECTION 1. AMENDMENT OF 1986 CODE.

Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

TITLE I—CAPITAL GAINS PROVISIONS

Subtitle A—Reduction in Capital Gains Tax

SEC. 101. REDUCTION IN CAPITAL GAINS TAX FOR NONCORPORATE TAXPAYERS.

(a) GENERAL RULE.—Part I of subchapter P of chapter 1 (relating to treatment of capital gains) is amended by adding at the end thereof the following new section:

"SEC. 1202. REDUCTION IN CAPITAL GAINS TAX FOR NONCORPORATE TAXPAYERS.

"(a) DEDUCTION ALLOWED FOR CAPITAL GAIN.—

"(1) IN GENERAL.—If, for any taxable year, a taxpayer other than a corporation has a net capital gain, an amount equal to the applicable percentage of the net capital gain shall be allowed as a deduction.

"(2) ESTATES AND TRUSTS.—In the case of an estate or trust, the deduction under paragraph (1) shall be computed by excluding the portion (if any) of the gains for the taxable year from sales or exchanges of capital assets which, under sections 652 and 662 (relating to inclusions of amounts in gross income of beneficiaries of trusts), is includible by the income beneficiaries as gain derived from the sale or exchange of capital assets.

"(b) APPLICABLE PERCENTAGE.—For purposes of this subsection—

"(1) IN GENERAL.—The applicable percentage shall be the percentage determined in accordance with the following table:

"In the case of:	*The applicable percentage is:*
1-year gain	5
2-year gain	10
3-year gain	15
4-year gain	20
5-year gain	25
6-year gain	30
7-year gain	35.

"(2) QUALIFIED VENTURE CAPITAL STOCK.—If for any taxable year a taxpayer has any qualified venture capital stock net capital gain, paragraph (1) shall be applied—

"(A) by substituting '40 percent' for the applicable percentage determined for such gain which is 4-year or 5-year gain, and

"(B) by substituting '50 percent' for the applicable percentage determined for such gain which is 6-year or 7-year gain.

"(c) GAIN TO WHICH DEDUCTION APPLIES.—For purposes of this section—

"(1) 1-YEAR GAIN.—The term '1-year gain' means the lesser of—

"(A) the net capital gain for the taxable year, or

"(B) the net capital gain for the taxable year determined by taking into account only gain or loss from the sale or exchange after October 1, 1989, of assets with a holding period of more than 1 year but not more than 2 years.

"(2) 2-YEAR GAIN, ETC.—The terms '2-, 3-, 4-, 5-, and 6-year gain' mean the amounts determined under paragraph (1)—

"(A) by reducing the amount of the net capital gain under subparagraph (A) thereof by the amount of net capital gain determined by taking into account only gain or loss from the sale or exchange of assets with a holding period less than the minimum holding period for any such category, and

"(B) by substituting 2, 3, 4, 5, or 6 years for 1 year and 3, 4, 5, 6, or 7 years for 2 years, respectively, in subparagraph (B) thereof.

"(3) 7-YEAR GAIN.—The term '7-year gain' means the lesser of—

"(A) the net capital gain for the taxable year, reduced by 1-, 2-, 3-, 4-, 5-, and 6-year gain, or

"(B) the net capital gain for the taxable year determined by taking into account only gain or loss from the sale or exchange after October 1, 1989, of assets with a holding period of more than 7 years.

"(4) QUALIFIED VENTURE CAPITAL STOCK NET CAPITAL GAIN.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'qualified venture capital stock net capital gain' means the lesser of—

"(i) net capital gain for the taxable year, or

"(ii) the net capital gain for the taxable year determined by only taking into account gain or loss from sales or exchanges after October 1, 1989, of qualified venture capital stock.

"(B) QUALIFIED VENTURE CAPITAL STOCK.—

"(i) IN GENERAL.—The term 'qualified venture capital stock' means stock which—

"(I) is issued by a qualified venture capital corporation after October 1, 1989,

"(II) is first acquired (whether directly or through an underwriter) by the taxpayer, and

"(III) is not issued in redemption of (or otherwise exchanged for) stock issued before October 2, 1989.

"(ii) QUALIFIED VENTURE CAPITAL CORPORATION.—For purposes of clause (i)—

"(I) IN GENERAL.—The term 'qualified venture capital corporation' means a corporation the cost basis (determined under section 1012) of all of the assets of which immediately after the date of issuance described in clause (i) is less than $20,000,000.

"(II) ACTIVE TRADE OR BUSINESS REQUIREMENT.—A corporation shall not be treated as a qualified venture capital corporation unless such corporation was engaged in the active conduct of a trade or business during the 5-year period ending on the date of issuance described in clause (i) (or if shorter, its period of existence), and is so engaged immediately after such date.

"(III) EXCEPTION FOR PERSONAL SERVICE CORPORATIONS.—The term 'qualified venture capital corporation' shall not include a personal service corporation (within the meaning of section 269A(b)(1)).

"(5) SPECIAL RULES FOR PASS-THRU ENTITIES.—

"(A) IN GENERAL.—In applying this subsection with respect to any pass-thru entity, the determination of when a sale or exchange has occurred shall be made at the entity level.

"(B) PASS-THRU ENTITY DEFINED.—For purposes of subparagraph (A), the term 'pass-thru entity' means—

"(i) a regulated investment company,

"(ii) a real estate investment trust,

"(iii) an S corporation,

"(iv) a partnership,

"(v) an estate or trust, and

"(vi) a common trust fund.

"(6) SPECIAL RULES FOR CARRYOVERS, ETC.—

"(A) CERTAIN CARRYOVERS.—For purposes of this subsection—

"(i) any amount treated as a loss under section 1212(b) for any taxable year beginning after October 1, 1989, shall be treated as a loss from a sale or exchange occurring after such date, and

"(ii) any such loss described in section 1212(b)(1)(B) shall be treated as a loss from the sale or exchange of a capital asset held for more than 1 year but not more than 2 years.

A similar rule shall apply to any loss carried to such a taxable year under section 465(a)(2) or 469(b).

"(B) RECAPTURE OF NET ORDINARY LOSS UNDER SECTION 1231.—For purposes of this subsection, if any amount is treated as ordinary income under section 1231(c) for any taxable year—

"(i) the amount so treated shall be allocated proportionately among the section 1231 gains (as defined in section 1231(a)) for such taxable year, and

"(ii) the amount so allocated to any such gain shall reduce the amount of such gain.

"(7) ORDERING RULES.—This section shall be applied separately (and in the following order) with respect to the following net capital gain:

"(A) Qualified venture capital stock net capital gain.

"(B) Net capital gain determined by taking into account only gain or loss from the sale or exchange of assets the holding period of which begins after October 1, 1989."

(b) TREATMENT OF COLLECTIBLES.—

(1) IN GENERAL.—Section 1222 is amended by inserting after paragraph (11) the following new paragraph:

"(12) SPECIAL RULE FOR COLLECTIBLES.—

"(A) IN GENERAL.—Any gain or loss from the sale or exchange of a collectible shall be treated as a short-term capital gain or loss (as the case may be), without regard to the period such asset was held. The preceding sentence shall apply only to the extent the gain or loss is taken into account in computing taxable income.

"(B) TREATMENT OF CERTAIN SALES OF INTEREST IN PARTNERSHIP, ETC.—For purposes of subparagraph (A), any gain from the sale or exchange of an interest in a partnership, S corporation, or trust which is attributable to unrealized appreciation in the value of collectibles held by such entity shall be treated as gain from the sale or exchange of a collectible. Rules similar to the rules of section 751(f) shall apply for purposes of the preceding sentence.

"(C) COLLECTIBLE.—For purposes of this paragraph, the term 'collectible' means any capital asset which is a collectible (as defined in section 408(m) without regard to paragraph (3) thereof)."

(2) CHARITABLE DEDUCTION NOT AFFECTED.—

(A) Paragraph (1) of section 170(e) is amended by adding at the end thereof the following new sentence: "For purposes of this paragraph, section 1222 shall be applied without regard to paragraph (12) thereof (relating to special rule for collectibles)."

(B) Clause (iv) of section 170(b)(1)(C) is amended by inserting before the period at the end thereof the following: "and section 1222 shall be applied without regard to paragraph (12) thereof (relating to special rule for collectibles)".

(c) MINIMUM TAX.—Section 56(b)(1) is amended by adding at the end thereof the following new subparagraph:

"(F) CAPITAL GAINS DEDUCTION DISALLOWANCE.—The deduction under section 1202 shall not be allowed."

(d) PASSIVE ACTIVITY.—Subsection (j) of section 469 (relating to special rules for passive activities) is amended by adding at the end thereof the following new paragraph:

"(13) COORDINATION WITH SECTION 1202.—In the case of the disposition of any interest in a passive activity, any gain from such interest shall be reduced by the amount of any unused deduction or credit allocable to such interest before such gain is taken into account in computing the net capital gain of the taxpayer."

(e) CONFORMING AMENDMENTS.—

(1) Section 62(a) is amended by inserting after paragraph (13) the following new paragraph:

"(14) CAPITAL GAINS DEDUCTION.—The deduction allowed by section 1202."

(2) Clause (ii) of section 163(d)(4)(B) is amended by inserting ", reduced by the amount of any deduction allowable under section 1202 attributable to gain from such property" after "investment".

(3)(A) Section 170(e)(1)(B) is amended by inserting "the nondeductible percentage" before "the amount of gain".

(B) Section 170(e)(1) is amended by adding at the end thereof the following new sentence: "For purposes of subparagraph (B), the term 'nondeductible percentage' means 100 percent minus the applicable percentage with respect to such property under section 1202(b), or, in the case of a corporation, 100 percent minus the deduction equivalent of the applicable percentage of section 1201.

(4)(A) Section 172(d)(2) (relating to modifications with respect to net operating loss deduction) is amended to read as follows:

"(2) CAPITAL GAINS AND LOSSES OF TAXPAYERS OTHER THAN CORPORATIONS.—In the case of a taxpayer other than a corporation—

"(A) the amount deductible on account of losses from sales or exchanges of capital assets shall not exceed the amount includible on account of gains from sales or exchanges of capital assets; and

"(B) the deduction provided by section 1202 shall not be allowed."

(B) Subparagraph (B) of section 172(d)(4) is amended by inserting ", (2)(B)," after "paragraph (1)".

(5)(A) Section 221 (relating to cross reference) is amended to read as follows:

"SEC. 221. CROSS REFERENCES.

"(1) For deduction for net capital gains in the case of a taxpayer other than a corporation, see section 1202.

"(2) For deductions in respect of a decedent, see section 691."

(B) The table of sections for part VII of subchapter B of chapter 1 is amended by striking "reference" in the item relating to section 221 and inserting "references".

(6) Paragraph (4) of section 642(c) is amended to read as follows:

"(4) ADJUSTMENTS.—To the extent that the amount otherwise allowable as a deduction under this subsection consists of gain from the sale or exchange of capital assets held for more than 1 year, proper adjustment shall be made for any deduction allowable to the estate or trust under section 1202 (relating to deduction for net capital gain). In the case of a trust, the deduction allowed by this subsection shall be subject to section 681 (relating to unrelated business income)."

(7) Paragraph (3) of section 643(a) is amended by adding at the end thereof the following new sentence: "The deduction under section 1202 (relating to deduction for net capital gain) shall not be taken into account."

(8) Paragraph (4) of section 691(c) is amended by striking "1201, and 1211" and inserting "1201, 1202, and 1211".

(9) The second sentence of paragraph (2) of section 871(a) is amended by inserting "such gains and losses shall be determined without regard to section 1202 (relating to deduction for net capital gain) and" after "except that".

(10) Section 1402(i)(1) is amended to read as follows:

"(1) IN GENERAL.—In determining the net earnings from self-employment of any options dealer or commodities dealer—

"(A) notwithstanding subsection (a)(3)(A), there shall not be excluded any gain or loss (in the normal course of the taxpayer's activity of dealing in or trading section 1256 contracts) from section 1256 contracts or property related to such contracts, and

"(B) the deduction provided by section 1202 shall not apply."

(11)(A) Sections 7518(g)(6)(A) is amended by striking the last sentence.

(B) Section 607(h)(6)(A) of the Merchant Marine Act, 1936, is amended by striking the last sentence.

(f) CLERICAL AMENDMENT.—The table of sections for part I of subchapter P of chapter 1 is amended by adding at the end thereof the following new item:

"Sec. 1202. Reduction in capital gains tax for noncorporate taxpayers."

(g) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by subsections (a) and (c) shall apply to taxable years ending after October 1, 1989.

(2) TREATMENT OF COLLECTIBLES.—

(A) IN GENERAL.—The amendment made by subsection (b) shall apply to taxable years beginning after October 1, 1989.

(B) SPECIAL RULE FOR 1989 TAXABLE YEAR.—In case of any taxable year which includes October 1, 1989, for purposes of sections 1201 and 1202 of the Internal Revenue Code of 1986 and section 1(g) of such Code, any gain or loss from the sale or exchange of a collectible shall (within the meaning of section 1222(12) of such Code) be treated as gain or loss from a sale or exchange occurring on or before October 1, 1989.

SEC. 102. NET CAPITAL GAIN NOT TAKEN INTO ACCOUNT UNDER PHASEOUT OF 15-PERCENT RATE AND PERSONAL EXEMPTIONS.

(a) GENERAL RULE.—Subparagraph (A) of section 1(g)(1) is amended to read as follows:

"(A) taxable income reduced by the excess (if any) of—

"(i) the qualified net capital gain, over

"(ii) the deduction allowed under section 1202, over".

(b) QUALIFIED NET CAPITAL GAIN.—Subsection (g) of section 1 is amended by adding at the end thereof the following new paragraph:

"(5) QUALIFIED NET CAPITAL GAIN.—The term 'qualified net capital gain' means the lesser of—

"(A) the net capital gain for the taxable year, or

"(B) the net capital gain for the taxable year determined by taking into account only gain or loss from sales or exchanges after October 1, 1989.

For purposes of the preceding sentence, the rules of paragraphs (4) and (5) of section 1202(c) shall apply."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending after October 1, 1989.

SEC. 103. RECAPTURE UNDER SECTION 1250 OF TOTAL AMOUNT OF DEPRECIATION.

(a) GENERAL RULE.—Subsections (a) and (b) of section 1250 (relating to gain from disposition of certain depreciable realty) are amended to read as follows:

"(a) GENERAL RULE.—Except as otherwise provided in this section, if section 1250 property is disposed of, the lesser of—

"(1) the depreciation adjustments in respect of such property, or

"(2) the excess of—

"(A) the amount realized (or, in the case of a disposition other than a sale, exchange, or involuntary conversion, the fair market value of such property), over

"(B) the adjusted basis of such property, shall be treated as gain which is ordinary income. Such gain shall be recognized notwithstanding any other provision of this subtitle.

"(b) DEPRECIATION ADJUSTMENTS.—For purposes of this section, the term 'depreciation adjustments' means, in respect of any property, all adjustments attributable to periods after December 31, 1963, reflected in the adjusted basis of such property on account of deductions (whether in respect of the same or other property) allowed or allowable to the taxpayer or to any other person for exhaustion, wear and tear, obsolescence, or amortization (other than amortization under section 168 (as in effect before its repeal by the Tax Reform Act of 1976), 169, 185 (as in effect before its repeal by the Tax Reform Act of 1986), 188, 190, or 193). For purposes of the preceding sentence, if the taxpayer can establish by adequate records or other sufficient evidence that the amount allowed as a deduction for any period was less than the amount allowable, the amount taken into account for such period shall be the amount allowed."

(b) LIMITATION IN CASE OF INSTALLMENT SALES.—Subsection (i) of section 453 is amended—

(1) by striking "1250" the first place it appears and inserting "1250 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1989)", and

(2) by striking "1250" the second place it appears and inserting "1250 (as so in effect)".

(c) CONFORMING AMENDMENTS.—

(1) Subparagraph (E) of section 1250(d)(4) is amended—

(A) by striking "additional depreciation" and inserting "amount of the depreciation adjustments", and

(B) by striking "ADDITIONAL DEPRECIATION" in the subparagraph heading and inserting "DEPRECIATION ADJUSTMENTS".

(2) Subparagraph (B) of section 1250(d)(6) is amended to read as follows:

"(B) DEPRECIATION ADJUSTMENTS.—In respect of any property described in subparagraph (A), the amount of the depreciation adjustments attributable to periods before the distribution by the partnership shall be—

"(i) the amount of gain to which subsection (a) would have applied if such property had been sold by the partnership immediately before the distribution at its fair market value at such time, reduced by

"(ii) the amount of such gain to which section 751(b) applied."

(3) Subparagraph (D) of section 1250(d)(8) is amended—

(A) by striking "additional depreciation" each place it appears and inserting "amount of the depreciation adjustments", and

(B) by striking "ADDITIONAL DEPRECIATION" in the subparagraph heading and inserting "DEPRECIATION ADJUSTMENTS".

(4) Paragraph (8) of section 1250(d) is amended by striking subparagraphs (E) and (F) and inserting the following:

"(E) ALLOCATION RULES.—For purposes of this paragraph, the amount of gain attributable to the section 1250 property disposed of shall be the net amount realized with respect to such property reduced by the greater of the adjusted basis of the section 1250 property disposed of, or the cost of the section 1250 property acquired, but shall not exceed the gain recognized in the transaction."

(5) Subsection (d) of section 1250 is amended by striking paragraph (10).

(6) Section 1250 is amended by striking subsections (e), (f), and (g) and by redesignating subsections (h) and (i) as subsections (e) and (f), respectively.

(7) Paragraph (5) of section 48(q) is amended to read as follows:

"(5) RECAPTURE OF REDUCTION.—For purposes of sections 1245 and 1250, any reduction under this subsection shall be treated as a deduction allowed for depreciation."

(8) Clause (i) of section 267(e)(5)(D) is amended by striking "section 1250(a)(1)(B)" and inserting "section 1250(a)(1)(B) (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1989)".

(9)(A) Subsection (a) of section 291 is amended by striking paragraph (1) and redesignating paragraphs (2), (3), (4), and (5) as paragraphs (1), (2), (3), and (4), respectively.

(B) Subsection (c) of section 291 is amended to read as follows:

"(c) SPECIAL RULE FOR POLLUTION CONTROL FACILITIES.—Section 168 shall apply with respect to that portion of the basis of any property not taken into account under section 169 by reason of subsection (a)(4)."

(C) Section 291 is amended by striking subsection (d) and redesignating subsection (e) as subsection (d).

(D) Paragraph (2) of section 291(d) (as redesignated by subparagraph (C)) is hereby repealed.

(E) Subparagraph (A) of section 265(b)(3) is amended by striking "291(e)(1)(B)" and inserting "291(d)(1)(B)".

(F) Subsection (c) of section 1277 is amended by striking "291(e)(1)(B)(ii)" and inserting "291(d)(1)(B)(ii)".

(10) Subsection (d) of section 1017 is amended to read as follows:

"(d) RECAPTURE OF DEDUCTIONS.—For purposes of sections 1245 and 1250—

"(1) any property the basis of which is reduced under this section and which is neither section 1245 property nor section 1250 property shall be treated as section 1245 property, and

"(2) any reduction under this section shall be treated as a deduction allowed for depreciation."

(11) Paragraph (5) of section 7701(e) is amended by striking "(relating to low-income housing)" and inserting "(as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1989)".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to dispositions after October 1, 1989, in taxable years ending after such date.

Subtitle B—Alternative Capital Gains Rate for Corporations

SEC. 111. ALTERNATIVE CAPITAL GAINS RATE FOR CORPORATIONS.

(a) IN GENERAL.—Section 1201 is amended to read as follows:

"SEC. 1201. ALTERNATIVE TAX FOR CORPORATIONS.

"(a) GENERAL RULE.—If, for any taxable year, a corporation has an applicable net capital gain, then, in lieu of the tax imposed by sections 11, 511, and 831 (a) or (b), there is hereby imposed a tax (if such tax is less than the tax imposed) in an amount equal to the sum of—

"(1) a tax computed on the taxable income reduced by the sum of the applicable net capital gain, at the rate and in the manner as if this subsection had not been enacted, plus

"(2) a tax equal to the applicable percentage of the applicable net capital gain.

"(b) APPLICABLE PERCENTAGE.—For purposes of this section—

"(1) IN GENERAL.—The applicable percentage shall be the percentage determined in accordance with the following table:

"In the case of:	The applicable percentage is:
3-year gain	33
6-year gain	32
9-year gain	31
12-year gain	30
15-year gain	29.

"(2) QUALIFIED VENTURE CAPITAL STOCK NET CAPITAL GAIN.—Paragraph (1) shall be applied by substituting '29 percent' for the applicable percentage with respect to 6-year, 9-year, and 12-year gain.

"(c) TERMS RELATING TO GAIN.—For purposes of this section—

"(1) APPLICABLE NET CAPITAL GAIN.—The term 'applicable net capital gain' means 3-, 6-, 9-, 12-, or 15-year gain.

"(2) 3-year gain.—The term '3-year gain' means the lesser of—

"(A) the net capital gain for the year, or

"(B) the net capital gain for the taxable year determined by taking into account only gain or loss from the sale or exchange after October 1, 1989, of assets with a holding period of more than 3 years but not more than 6 years.

"(3) 6-YEAR GAIN, ETC.—The terms '6-, 9-, and 12-year gain' mean the amounts determined under paragraph (2)—

"(A) by reducing the amount of the net capital gain under subparagraph (A) thereof by the amount of net capital gain determined by taking into account only gain or loss from the sale or exchange of assets with a holding period less than the minimum holding period for any such category, and

"(B) by substituting 6, 9, or 12 years for 3 years and 9, 12, or 15 years for 6 years, respectively, in subparagraph (B) thereof.

"(4) 15-YEAR GAIN.—The term '15-year gain' means the lesser of—

"(A) the net capital gain for the taxable year, reduced by the 3-, 6-, 9-, and 12-year gain, or

"(B) the net capital gain for the taxable year determined by taking into account only gain or loss from the sale or exchange after October 1, 1989, of assets with a holding period of more than 15 years.

"(5) QUALIFIED VENTURE CAPITAL STOCK NET CAPITAL GAIN.—The term 'qualified venture capital stock net capital gain' has the meaning given such term by section 1202.

"(6) SPECIAL RULE.—For purposes of this subsection, the rules of paragraphs (4), (5), and (6) of section 1202(c) shall apply.

"(d) CROSS REFERENCES.—For computation of the alternative tax—

"(1) in the case of life insurance companies, see section 801(a)(2),

"(2) in the case of regulated investment companies and their shareholders, see section 852(b)(3) (A) and (D), and

"(3) in the case of real estate investment trusts, see section 857(b)(3)(A)."

(b) CONFORMING AMENDMENT.—Clause (iii) of section 852(b)(3)(D) is amended by striking "66 percent" and inserting "66 percent (or in the case of applicable net capital gains, 100 percent minus the applicable percentage under section 1201(b))".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending after October 1, 1989.

Subtitle C—Indexing of Certain Assets for Purposes of Determining Gain

SEC. 121. INDEXING OF CERTAIN ASSETS FOR PURPOSES OF DETERMINING GAIN.

(a) IN GENERAL.—Part II of subchapter O of chapter 1 (relating to basis rules of general application) is amended by inserting after section 1021 the following new section:

"SEC. 1022. INDEXING OF CERTAIN ASSETS FOR PURPOSES OF DETERMINING GAIN.

"(a) GENERAL RULE.—

"(1) INDEXED BASIS SUBSTITUTED FOR ADJUSTED BASIS.—If an individual elects not to have the provisions of section 1201 apply for any taxable year, then, solely for purposes of determining gain on the sale or other disposition during such taxable year by such individual of an indexed asset which has been held for more than 2 years, the indexed basis of the asset shall be substituted for its adjusted basis.

"(2) SPECIAL RULE FOR RECAPTURE GAIN.—

"(A) IN GENERAL.—Paragraph (1) shall not apply for purposes of determining the amount of recapture gain on the sale or other disposition of an indexed asset, but the amount of any such recapture gain shall increase the adjusted basis of the asset for purposes of applying paragraph (1) to determine the amount of other gain on such sale or other disposition.

"(B) RECAPTURE GAIN.—For purposes of subparagraph (A), the term 'recapture gain' means any gain treated as ordinary income under section 1245, 1250, or 1254.

"(b) INDEXED ASSET.—

"(1) IN GENERAL.—For purposes of this section, the term 'indexed asset' means—

"(A) any stock in a corporation, and

"(B) any tangible property (or any interest therein),

which is a capital asset or property used in the trade or business (as defined in section 1231(b)).

"(2) CERTAIN PROPERTY EXCLUDED.—For purposes of this section, the term 'indexed asset' does not include—

"(A) CREDITOR'S INTEREST.—Any interest in property which is in the nature of a creditor's interest.

"(B) COLLECTIBLES.—Any collectible (as defined in section 408(m)(2) without regard to section 408(m)(3)).

"(C) OPTIONS.—Any option or other right to acquire an interest in property.

"(D) NET LEASE PROPERTY.—In the case of a lessor, net lease property (within the meaning of subsection (i)(3)).

"(E) CERTAIN PREFERRED STOCK.—Stock which is fixed and preferred as to dividends and does not participate in corporate growth to any significant extent.

"(F) STOCK IN FOREIGN CORPORATIONS.—Stock in a foreign corporation.

"(G) STOCK IN S CORPORATIONS.—Stock in an S corporation.

"(3) EXCEPTION FOR STOCK IN FOREIGN CORPORATION WHICH IS REGULARLY TRADED ON NATIONAL OR REGIONAL EXCHANGE.—Paragraph (2)(F) shall not apply to stock in a foreign corporation the stock of which is listed on the New York Stock Exchange, the American Stock Exchange, or any domestic regional exchange for which quotations are published on a regular basis or is authorized for trading on the national market system operated by the National Association of Securities Dealers other than—

"(A) stock of a foreign investment company (within the meaning of section 1246(b)),

"(B) stock in a passive foreign investment company (as defined in section 1296), and

"(C) stock in a foreign corporation held by a United States person who meets the requirements of section 1248(a)(2).

"(c) INDEXED BASIS.—For purposes of this section—

"(1) INDEXED BASIS.—The indexed basis for any asset is—

"(A) the adjusted basis of the asset, multiplied by

"(B) the applicable inflation ratio.

"(2) APPLICABLE INFLATION RATIO.—The applicable inflation ratio for any asset shall be determined by dividing—

"(A) the CPI for the calendar year preceding the calendar year in which the disposition takes place, by

"(B) the CPI for the later of—

"(i) the calendar year preceding the calendar year in which the taxpayer's holding period for such asset began, or

"(ii) 1990.

The applicable inflation ratio shall not be taken into account unless it is greater than 1. The applicable inflation ratio for any asset shall be rounded to the nearest one-hundredth.

"(3) CONVENTIONS.—For purposes of paragraph (2), if any asset is disposed of during any calendar year—

"(A) such disposition shall be treated as occurring on the last day of such calendar year, and

"(B) the taxpayer's holding period for such asset shall be treated as beginning in the same calendar year as would be determined for an asset actually disposed of on such last day with a holding period of the same length as the actual holding period of the asset involved.

"(4) CPI.—For purposes of this subsection, the CPI for any calendar year shall be determined under section 1(f)(4).

"(d) SHORT SALES.—

"(1) IN GENERAL.—In the case of a short sale of an indexed asset with a short sale period in excess of 2 years, for purposes of this title, the amount realized shall be an amount equal to the amount realized (determined without regard to this paragraph) multiplied by the applicable inflation ratio. In applying subsection (c)(2) for purposes of the preceding sentence, the date on which the property is sold short shall be treated as the date on which the holding period for the asset begins and the closing date for the sale shall be treated as the date of disposition.

"(2) SHORT SALE OF SUBSTANTIALLY IDENTICAL PROPERTY.—If the taxpayer or the taxpayer's spouse sells short property substantially identical to an asset held by the taxpayer, the asset held by the taxpayer and the substantially identical property shall not be treated as indexed assets for the short sale period.

"(3) SHORT SALE PERIOD.—For purposes of this subsection, the short sale period begins on the day after property is sold and ends on the closing date for the sale.

"(e) TREATMENT OF REGULATED INVESTMENT COMPANIES AND REAL ESTATE INVESTMENT TRUSTS.—

"(1) ADJUSTMENTS AT ENTITY LEVEL.—

"(A) IN GENERAL.—Except as otherwise provided in this paragraph, the adjustment under subsection (a) shall be allowed to any qualified investment entity (including for purposes of determining the earnings and profits of such entity).

"(B) EXCEPTION FOR CORPORATE SHAREHOLDERS.—Under regulations—

"(i) in the case of a distribution by a qualified investment entity (directly or indirectly) to a corporation—

"(I) the determination of whether such distribution is a dividend shall be made without regard to this section, and

"(II) the amount treated as gain by reason of the receipt of any capital gain dividend shall be increased by the percentage by which the entity's net capital gain for the taxable year determined without regard to this section exceeds the entity's net capital gain for such year determined with regard to this section, and

"(ii) there shall be other appropriate adjustments (including deemed distributions) so as to ensure that the benefits of this section are not allowed (directly or indirectly) to corporate shareholders of qualified investment entities.

For purposes of the preceding sentence, any amount includible in gross income under section 852(b)(3)(D) shall be treated as a capital gain dividend and an S corporation shall not be treated as a corporation.

"(C) EXCEPTION FOR QUALIFICATION PURPOSES.—This section shall not apply for purposes of sections 851(b) and 856(c).

"(D) EXCEPTION FOR CERTAIN TAXES IMPOSED AT ENTITY LEVEL.—

"(i) TAX ON FAILURE TO DISTRIBUTE ENTIRE GAIN.—If any amount is subject to tax under section 852(b)(3)(A) for any taxable year, the amount on which tax is imposed under such section shall be increased by the percentage determined under subparagraph (B)(i)(II). A similar rule shall apply in the case of any amount subject to tax under paragraph (2) or (3) of section 857(b) to the extent attributable to the excess of the net capital gain over the deduction for dividends paid determined with reference to capital gain dividends only. The first sentence of this clause shall not apply to so much of the amount subject to tax under section 852(b)(3)(A) as is designated by the company under section 852(b)(3)(D).

"(ii) OTHER TAXES.—This section shall not apply for purposes of determining the amount of any tax imposed by paragraph (4), (5), or (6) of section 857(b).

"(2) ADJUSTMENTS TO INTERESTS HELD IN ENTITY.—

"(A) IN GENERAL.—Stock in a qualified investment entity shall be an indexed asset for any calendar month in the same ratio as the fair market value of the assets held by such entity at the close of such month which are indexed assets bears to the fair market value of all assets of such entity at the close of such month.

"(B) RATIO OF 90 PERCENT OR MORE.—If the ratio for any calendar month determined under subparagraph (A) would (but for this subparagraph) be 90 percent or more, such ratio for such month shall be 100 percent.

"(C) RATIO OF 10 PERCENT OR LESS.—If the ratio for any calendar month determined under subparagraph (A) would (but for this subparagraph) be 10 percent or less, such ratio for such month shall be zero.

"(D) VALUATION OF ASSETS IN CASE OF REAL ESTATE INVESTMENT TRUSTS.—Nothing in this paragraph shall require a real estate investment trust to value its assets more frequently than once each 36 months (except where such trust ceases to exist). The ratio under subparagraph (A) for any calendar month for which there is no valuation shall be the trustee's good faith judgment as to such valuation.

"(3) QUALIFIED INVESTMENT ENTITY.—For purposes of this subsection, the term 'qualified investment entity' means—

"(A) a regulated investment company (within the meaning of section 851), and

"(B) a real estate investment trust (within the meaning of section 856).

"(f) OTHER PASS-THRU ENTITIES.—

"(1) PARTNERSHIPS.—

"(A) IN GENERAL.—In the case of a partnership, the adjustment made under subsection (a) at the partnership level shall be passed through to the partners (but only for purposes of determining the income of partners who are individuals).

"(B) SPECIAL RULE IN THE CASE OF SECTION 754 ELECTIONS.—In the case of a transfer of an interest in a partnership with respect to which the election provided in section 754 is in effect—

"(i) the adjustment under section 743(b)(1) shall, with respect to the transferor partner, be treated as a sale of the partnership assets for purposes of applying this section, and

"(ii) with respect to the transferee partner, the partnership's holding period for purposes of this section in such assets shall be treated as beginning on the date of such adjustment.

"(2) S CORPORATIONS.—In the case of an S corporation, the adjustment made under subsection (a) at the corporate level shall be passed through to the shareholders. This section shall not apply for purposes of determining the amount of any tax imposed by section 1374 or 1375.

"(3) COMMON TRUST FUNDS.—In the case of a common trust fund, the adjustment made under subsection (a) at the trust level shall be passed through to the participants (but only for purposes of determining the income of participants who are individuals).

"(g) DISPOSITIONS BETWEEN RELATED PERSONS.—This section shall not apply to any sale or other disposition of property between related persons (within the meaning of section 465(b)(3)(C)) if such property, in the hands of the transferee, is of a character subject to the allowance for depreciation provided in section 167.

"(h) TRANSFERS TO INCREASE INDEXING ADJUSTMENT.—If any person transfers cash, debt, or any other property to another person and the principal purpose of such transfer is to secure or increase an adjustment under subsection (a), the Secretary may disallow part or all of such adjustment or increase.

"(i) SPECIAL RULES.—For purposes of this section—

"(1) TREATMENT AS SEPARATE ASSET.—In the case of any asset, the following shall be treated as a separate asset:

"(A) A substantial improvement to property.

"(B) In the case of stock of a corporation, a substantial contribution to capital.

"(C) Any other portion of an asset to the extent that separate treatment of such por-

tion is appropriate to carry out the purposes of this section.

"(2) ASSETS WHICH ARE NOT INDEXED ASSETS THROUGHOUT HOLDING PERIOD.—The applicable inflation ratio shall be appropriately reduced for periods during which the asset was not an indexed asset.

"(3) NET LEASE PROPERTY DEFINED.—The term 'net lease property' means leased property where—

"(A) the term of the lease (taking into account options to renew) was 50 percent or more of the useful life of the property, and

"(B) for the period of the lease, the sum of the deductions with respect to such property which are allowable to the lessor solely by reason of section 162 (other than rents and reimbursed amounts with respect to such property) is 15 percent or less of the rental income produced by such property.

"(j) REGULATIONS.—The Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of this section."

(b) GAINS AND LOSSES FROM INDEXED ASSETS NOT TAKEN INTO ACCOUNT UNDER LIMITATION ON INVESTMENT INTEREST.—Subparagraph (B) of section 163(d)(4) (defining investment income) is amended by adding at the end thereof the following new sentences:

"Gain from the sale or other disposition of an indexed asset (as defined in section 1022) held for more than 2 years shall not be taken into account for purposes of the preceding sentence. The preceding sentence shall not apply to gain from the sale or other disposition of any such asset if the taxpayer elects to waive the benefits of section 1022 in determining the amount of such gain."

(c) REPEAL OF SECTION 1(j).—

(1) IN GENERAL.—Subsection (j) of section 1 is hereby repealed.

(2) CONFORMING AMENDMENTS.—

(A) Paragraph (4) of section 691(c) is amended by striking "1(j)".

(B)(i) Subparagraph (B) of section 904(b)(2) is amended by striking so much of such subparagraph as precedes clause (i) and inserting the following:

"(B) SPECIAL RULE WHERE CORPORATE CAPITAL GAIN RATE DIFFERENTIAL.—In the case of a corporation for any taxable year for which there is a capital gain rate differential—".

(ii) Subparagraph (D) of section 904(b)(3) is amended to read as follows:

"(D) CAPITAL GAIN RATE DIFFERENTIAL.—There is a capital gain rate differential for any taxable year in the case of a corporation if any rate of tax imposed by section 11, 511, or 831 (a) or (b) (whichever applies) exceeds the alternative rate of tax under section 1201(a) (determined without regard to the last sentence of section 11(b)(1)).".

(iii) Subparagraph (E) of section 904(b)(3) is amended by striking clauses (ii) and (iii) and inserting the following:

"(ii) HIGHEST APPLICABLE TAX RATE.—For purposes of clause (i), the term 'highest applicable tax rate' means the highest rate of tax specified in section 11(b).

"(iii) ALTERNATIVE TAX RATE.—For purposes of clause (i), the term 'alternative tax rate' means the alternative rate of tax under section 1201(a)."

(d) CLERICAL AMENDMENT.—The table of sections for part II of subchapter O of chapter 1 is amended by inserting after the item relating to section 1021 the following new item:

"Sec. 1022. Indexing of certain assets for purposes of determining gain."

(e) EFFECTIVE DATE.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply to any disposition of property in any taxable year beginning after December 31, 1991.

(2) SUBSECTION (c).—The amendments made by subsection (c) shall apply to taxable years beginning after December 31, 1989.

TITLE II—INDIVIDUAL RETIREMENT PLUS ACCOUNTS

SEC. 201. ESTABLISHMENT OF INDIVIDUAL RETIREMENT PLUS ACCOUNTS.

(a) IN GENERAL.—Subpart A of part I of subchapter D of chapter 1 (relating to pension, profit-sharing, stock bonus plans, etc.) is amended by inserting after section 408 the following new section:

"408A. INDIVIDUAL RETIREMENT PLUS ACCOUNTS.

"(a) GENERAL RULE.—Except as provided in this section, an individual retirement plus account shall be treated for purposes of this title in the same manner as an individual retirement plan.

"(b) INDIVIDUAL RETIREMENT PLUS ACCOUNT.—For purposes of this title, the term 'individual retirement plus account' means an individual retirement plan which is designated at the time of the establishment of the plan as an individual retirement plus account. Such designation shall be made in such manner as the Secretary may prescribe.

"(c) CONTRIBUTION RULES.—

"(1) NO DEDUCTION ALLOWED.—No deduction shall be allowed under section 219 for a contribution to an individual retirement plus account.

"(2) CONTRIBUTION LIMIT.—

"(A) IN GENERAL.—Except in the case of rollover contributions, the aggregate amount which may be accepted as contributions to an individual retirement plus account shall not be greater than the excess (if any) of—

"(i) the nondeductible limit with respect to the individual for the taxable year under section 408(o) (after application of subparagraph (B)(ii) thereof), over

"(ii) the designated nondeductible contributions made by the individual for such taxable year to 1 or more individual retirement plans.

"(B) $1,000 INCREASE AFTER 1994.—In the case of any taxable year beginning after December 31, 1994, the amount determined under subparagraph (A)(i) (without regard to this subparagraph) shall be increased by $1,000.

"(C) SPECIAL RULE FOR MARRIED INDIVIDUALS.—The nondeductible limits under subparagraph (A) for an individual and for such individual's spouse shall be an amount equal to the excess (if any) of—

"(i) $2,000, over

"(ii) the sum of the amount allowed as a deduction under section 219 for contributions on behalf of such individual or such spouse, plus the amount determined under subparagraph (A)(ii) with respect to each.

In no event shall the sum of such limits exceed an amount equal to the sum of the compensation includible in the individual's and spouse's gross income for the taxable year, reduced by the sum of the amounts determined under clause (ii).

"(3) CONTRIBUTIONS AFTER AGE 70½.—Contributions may be made by an individual to an individual retirement plus account after such individual has attained the age of 70½.

"(4) LIMITATIONS ON ROLLOVER CONTRIBUTIONS.—No rollover contributions may be made to an individual retirement plus account unless such rollover contribution is a contribution of a distribution or payment out of—

"(A) another individual retirement plus account, or

"(B) an individual retirement plan which is not allocable to any amount transferred to such plan which represented any portion of the balance to the credit of an employee in a qualified trust (or any income allocable to such portion).

"(d) DISTRIBUTION RULES.—For purposes of this title—

"(1) IN GENERAL.—Except in the case of a qualified distribution, the rules of paragraphs (1) and (2) of section 408(d) shall apply to any distribution from an individual retirement plus account.

"(2) TREATMENT OF QUALIFIED DISTRIBUTION.—In the case of a qualified distribution from an individual retirement plus account—

"(A) the amount of such distribution shall not be includible in gross income; and

"(B) section 72(t) shall not apply.

"(3) QUALIFIED DISTRIBUTION.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'qualified distribution' means any distribution—

"(i) made on or after the date on which the individual attains age 59½,

"(ii) made to a beneficiary (or to the estate of an individual) on or after the death of the individual,

"(iii) attributable to the employee's being disabled (within the meaning of section 72(m)(7)), or

"(iv) which is a qualified special purpose distribution (within the meaning of subsection (e)).

"(B) DISTRIBUTIONS WITHIN 5 YEARS.—No distribution shall be treated as a qualified distribution if—

"(i) it is made within the 5-taxable year period beginning with the 1st taxable year in which the individual made a contribution to an individual retirement plus account, or

"(ii) in the case of a distribution properly allocable to a rollover contribution (or income allocable thereto), it is made within 5 years of the date on which such rollover contribution was made.

"(4) SPECIAL RULES RELATING TO ROLLOVERS FROM REGULAR INDIVIDUAL RETIREMENT ACCOUNTS.—

"(A) IN GENERAL.—Except as provided in this paragraph, any amount paid or distributed out of an individual retirement plan on or before the earlier of—

"(i) the date on which the individual attains age 55, or

"(ii) January 1, 1992,

shall not be included in gross income (and section 72(t) shall not apply to such amount) if the individual receiving such amount transfers, within 60 days of receipt, the entire amount received to an individual retirement plus account.

"(B) TREATMENT OF TAX-FAVORED AMOUNTS.—

"(i) IN GENERAL.—Notwithstanding subparagraph (A), there shall be included in gross income (but section 72(t) shall not apply to) the portion of any amount transferred which bears the same ratio to such amount as—

"(I) the aggregate amount of contributions to individual retirement plans with respect to which a deduction was allowable under section 219, bears to

"(II) the aggregate balance of such plans.

"(ii) TIME FOR INCLUSION.—Any amount described in clause (i) shall be included in gross income ratably over the 4-taxable year period beginning with the taxable year in which the amount was paid or distributed out of the individual retirement plan.

"(e) QUALIFIED SPECIAL PURPOSE DISTRIBUTION.—For purposes of this section—

"(1) IN GENERAL.—The term 'qualified special purpose distribution' means—

"(A) a qualified first-time homebuyer distribution, or

"(B) an applicable medical or educational distribution.

"(2) 25 PERCENT ACCOUNT LIMIT.—A distribution shall not be treated as a qualified special purpose distribution to the extent it exceeds the amount (if any) by which—

"(A) 25 percent of the sum of—

"(i) the aggregate balance of individual retirement plus accounts established on behalf of an individual, plus

"(ii) the aggregate amounts previously treated as qualified special purpose distributions, exceeds

"(B) the amount determined under subparagraph (A)(ii).

"(3) DISTRIBUTIONS USED TO PURCHASE A HOME BY FIRST-TIME HOMEBUYER.—For purposes of paragraph (1)—

"(A) IN GENERAL.—The term 'qualified first-time homebuyer distribution' means any payment or distribution received by a first-time homebuyer from an individual retirement plan to the extent such payment or distribution is used by the individual before the close of the 60th day after the day on which such payment or distribution is received to pay qualified acquisition costs with respect to a principal residence for such individual.

"(B) BASIS REDUCTION.—The basis of any principal residence described in subparagraph (A) shall be reduced by any amount excluded from the gross income of such first-time homebuyer by reason of this section.

"(C) RECOGNITION OF GAIN AS ORDINARY INCOME.—

"(i) IN GENERAL.—Notwithstanding any other provision of this subtitle, except as provided in clause (ii)—

"(I) gain (if any) on the sale or exchange of a principal residence to which subparagraph (A) applies shall, to the extent of the amount excluded from gross income under this section, be treated as ordinary income by such individual, and

"(II) section 72(t) shall apply to such amount.

"(ii) EXCEPTION.—Clause (i) shall not apply to any taxable year to the extent of any amount which, before the due date (without extensions) for filing the return for such year, the taxpayer contributes to an individual retirement plus account. Such amount shall not be taken into account for purposes of any provision of this title relating to excess contributions.

"(iii) COORDINATION WITH OTHER PROVISIONS.—In the event all or part of the gain referred to in clause (i) is treated as ordinary income under any other provision of this subtitle, such provision shall be applied before clause (i).

"(D) SPECIAL RULE WHERE DELAY IN ACQUISITION.—If—

"(i) any amount is paid or distributed from an individual retirement plus account to an individual for purposes of being used as provided in subparagraph (A), and

"(ii) by reason of a delay in the acquisition of the residence, such amount cannot be so used,

the amount so paid or distributed may be paid into an individual retirement plus account as provided in section 408(d)(3)(A)(i) without regard to section 408(d)(3)(B), and, if so paid into such other plan, such amount shall not be taken into account in determining whether section 408(d)(3)(A)(i) applies to any other amount.

"(E) DEFINITIONS.—For purposes of this paragraph—

"(i) QUALIFIED ACQUISITION COSTS.—The term 'qualified acquisition costs' means the costs of acquiring, constructing, or reconstructing a residence. Such term includes any usual or reasonable settlement, financing, or other closing costs.

"(ii) FIRST-TIME HOMEBUYER.—The term 'first-time homebuyer' means any individual if such individual (and if married, such individual's spouse) had no present ownership interest in a principal residence during the 3-year period ending on the date of acquisition of the principal residence to which this paragraph applies.

"(iii) PRINCIPAL RESIDENCE.—The term 'principal residence' has the same meaning as when used in section 1034.

"(iv) DATE OF ACQUISITION.—The term 'date of acquisition' means the date—

"(I) on which a binding contract to acquire the principal residence to which subparagraph (A) applies is entered into, or

"(II) on which construction or reconstruction of such a principal residence is commenced.

"(4) APPLICABLE MEDICAL DISTRIBUTIONS.—For purposes of paragraph (1), the term 'applicable medical distributions' means any distributions made to an individual (not otherwise taken into account under this subsection) to the extent such distributions do not exceed the amount allowable as a deduction under section 213 for amounts paid during the taxable year for medical care (without regard to whether the individual itemized deductions for the taxable year).

"(5) DISTRIBUTIONS FROM INDIVIDUAL RETIREMENT PLUS ACCOUNTS FOR EDUCATIONAL EXPENSES.—

"(A) IN GENERAL.—For purposes of paragraph (1), the term 'applicable educational distributions' means distributions to an individual to the extent that the amount of such distributions (not otherwise treated as qualified special purpose distributions, determined after application of paragraph (4)) does not exceed the qualified higher education expenses of the individual for the taxable year.

"(B) QUALIFIED HIGHER EDUCATION EXPENSES.—For purposes of subparagraph (A)—

"(i) IN GENERAL.—The term 'qualified higher education expenses' means tuition, fees, books, supplies, and equipment required for the enrollment or attendance of—

"(I) the taxpayer,

"(II) the taxpayer's spouse, or

"(III) the taxpayer's child (as defined in section 151(c)(3)) or grandchild,

at an eligible educational institution (as defined in section 135(c)(3)).

"(ii) COORDINATION WITH SAVINGS BOND PROVISIONS.—The amount of qualified higher education expenses for any taxable year shall be reduced by any amount excludable from gross income under section 135.

"(f) ROLLOVER CONTRIBUTIONS.—For purposes of this section, the term 'rollover contributions' means contributions described in sections 402(a)(5), 402(a)(7), 403(a)(4), 403(b)(8), and 408(d)(3).

"(g) DETERMINATIONS.—For purposes of this section, any determinations with respect to aggregate contributions to, or the balance of, individual retirement plus accounts shall be made as of the close of the calendar year preceding the calendar year in which the taxable year begins."

(b) MINIMUM TAX.—Section 56(b) is amended by adding at the end thereof the following new paragraph:

"(4) EXCLUSIONS ON INDIVIDUAL RETIREMENT PLUS ACCOUNTS.—Section 408A(d)(2) shall not apply to any qualified distribution from an individual retirement plus account."

(c) CONFORMING AMENDMENT.—The table of sections for subpart A of part I of subchapter D of chapter 1 is amended by inserting after the item relating to section 408 the following new item:

"Sec. 408A. Individual retirement plus accounts."

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1989.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. PACKWOOD. Mr. President, I yield myself such time as I may need.

The PRESIDING OFFICER. The time for debate on this amendment is limited to 3 hours to be equally divided and controlled between the two leaders or their designees.

The Senator from Oregon.

Mr. PACKWOOD. I thank the Chair.

Mr. President, this is the capital gains bill which lowers the capital gains rate from the current maximum 28-percent rate that exists in the Code.

When we vote at 5:15 p.m. this afternoon, make no mistake we are not voting on the Polish bill or budget reconciliation or an amalgam that has a half a dozen different subjects in it. While the vote is on the subject of cloture, it will be on the capital gains bill alone. This is not a procedural vote. This is a vote as to whether or not you favor or oppose the capital gains differential.

Having said that, Mr. President, let me explain, if I might, what this amendment does. It basically has a differential rate for capital gains. The longer you hold the asset, the lower the rate.

Individual capital gains: If you hold the asset 1 year, your top tax rate will be 26.6 percent. If you hold it 2 years, it will be 25.2 percent. And so on, until you hold it 7 years, the rate drops down to an 18.2 percent rate.

Corporate capital gains: The amendment reduces the corporate capital gains rate by 1 percent for each 3 years the corporation holds an asset up to a maximum of 15 years' ownership. Thus, the corporate tax rate goes from a top rate of currently 34 percent to 29 percent for assets held over 15 years.

Venture capital: The amendment includes an even more favorable capital

gains rate for new venture capital investments. Frankly, this is an idea we picked up from Senator BUMPERS.

Individual retirement accounts: The amendment includes Senator ROTH's IRA Plus proposal.

It is a simple bill, straightforward; it is not hard to understand.

The real issue to be debated today is twofold. One, does the bill raise or lose money? We have heard from economists all over the country. Depending on the way a capital gain proposal is structured, some would say it would gain money or lose money. But, fortunately, the way this amendment is now written, everyone, the Joint Tax Committee, Congressional Budget Office, Treasury all say that over the 5-year period this bill raises rather than loses money. It raises money in some parts and loses in others, but in the amalgam, overall the bill raises money.

So the argument cannot be made in attacking this bill over the 5-year period does it lose money. There is no one now that says it does.

To attempt to go beyond 5 years in predicting revenue effects is almost impossible. It is almost impossible because we have no idea of how the economy is going to grow, and with the economy growing whether or not we will raise more money or lose money.

I can give you an example. If the economy did nothing but grow at 4 percent a year rather than 3 percent a year—that is real growth, not growth at the rate of inflation. Just that 1 percent is a difference of about $260 billion in revenue collections to the Federal Government over 5 years, roughly $50 billion a year, on average.

Now, you tell me how fast the economy may grow in 1991, 1992, 1993. Honest people differ. So when we try to guess 8, 9, 10, 11, 12, 15 years out, is this bill going to raise money or lose money, we are best to confine ourselves to the 5-year period. And it raises money.

The second issue to ask yourself is, does this bill, even though it raises money, so disproportionately favor the rich as to offend our sense of fairness? And you have heard the arguments. I have heard different statistics cited, but it will be a figure something like this, 80 percent of the benefits go to people who make over $100,000.

You want to be careful with those kinds of statistics, because you can often be comparing apples and oranges. Some people who issue those statistics count as your income in that year the value of the capital asset that you sell. Let me give you an example.

You have worked all of your life. You and your spouse together have made $40,000, $45,000 a year maximum. You bought a house 15 years ago. You paid $40,000 for the house. Now you are going to retire. If you are in one of these real estate markets that boomed, the house is now worth $240,000. You will sell it. You are counted by some people who issue these statistics as someone who earns over $200,000 a year. They have you in the rich person's category.

You do not think of yourself as rich. You and your spouse have never made over $40,000, $45,000 a year in your life, and you are selling the one asset that you have. And in that year, you are counted as making over $200,000.

You can tell that until you are blue in the face to the barber, the person who owns the hardware store, or somebody else that owns a house. They do not think of themselves as rich.

A better way to look at the statistics is this. In 1987, even though we had abolished a capital gains differential rate in the 1986 tax reform bill, we kept in the law the classification of income as capital gains. So we can look at tax returns and see where people would have fallen had we had a capital gains rate.

In 1987, 72 percent of all the returns that would have claimed capital gains came from people who made $50,000 or less not counting their capital gains. And 47 percent of all of capital gains, all of the cash that is capital gains, comes from people who make under $50,000 of other income, not counting their capital gains. That is a fair way to look at it, not how much did you make in 1 year when you sold your house or in 1 year when you sold your beauty shop or hardware store.

You have worked all your life. You worked 70 hours a week. You finally are 65, employing 16 people in the hardware store, and you sell it for $300,000 or $400,000, and you are going to retire.

Well, you do not make $300,000 or $400,000 a year. You are lucky if you made $50,000 or $60,000 at the maximum as the owner of that hardware store, and you work and work to do it. If you sell your beauty shop and you have nine employees, same situation. Those people are not rich.

I want to emphasize the figure again; 72 percent of all the people who would have claimed capital gains had we had special capital gains treatment are people making $50,000 or less of other income; 47 percent of all of the capital gains, cash that would have been claimed, came from people that made $50,000 or less. This is not, Mr. President, a rich person's bill.

Second, I am intrigued with those who attack this as being a rich person's bill. Some of the other things that they will vote for really do favor the rich, comparatively speaking. They justify this by saying the objective to be obtained by allowing the rich to do something is sufficiently worthwhile; it is all right for the rich to have a lower tax rate. Example: Low-income housing.

Mr. President, I feel happy that when we passed the tax reform bill, I said there were three areas that I was not sure was going to work. One was capital gains; one was low-income housing; one was historic renovation, the old building where you keep the facade and rebuild the building.

So when we passed the tax reform bill, we were worried about low-income housing. We enacted a new tax credit to encourage investment in low-income housing. Also in the current law is a provision that limits deductions of passive losses. People who make under $250,000 a year generally cannot deduct passive losses from their other income. However, if they invest in low-income housing, they are entitled to take a maximum of $7,000 in tax credits, a maximum of $25,000 in what we would call passive losses, offsetting their passive losses against active income. We almost eliminated that for everyone else.

There are those who oppose the capital gains bill who are currently supporting a provision to change that law to take off the $250,000 cap and allow anybody, no matter how much money they make, to take these low-income housing credits. This is included in the budget reconciliation bill. The reason this is a peculiar benefit to the rich is that all of the States now operate under what are known as housing caps. They can only sell so much in the way of low-income housing credits. Almost all the States are up against those caps and all the credits are being sold under the present law to people who make under $250,000 a year.

When we take off the $250,000 lid, we are not increasing the cap of the credits the State can sell. There is not going to be one more dollar available for low-income housing. But it does mean that people who make over $250,000 can now take that credit. If they do, there will be somebody with income under $250,000 who cannot buy a credit because there is only so many to sell.

I understand the argument. Maybe one day we will lift the State housing caps and there will be more low-income housing credits to be sold, and because it is such a good program, we should not mind if the rich benefit tremendously. That is a fair argument.

But the people that make that argument will also make the argument that the rich are benefiting by capital gains, and what they have to be saying in that case is the benefit to society is not sufficiently worthwhile to allow the rich to make some money.

Mr. President, I yield without losing my right to the floor to Senator HEINZ, who would like to introduce an interparliamentary group who are guests of the Senate.

The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. HEINZ. Mr. President, I thank my friend and colleague, the distinguished Senator from Oregon, for yielding very briefly, and I thank the chairman of the Finance Committee, Senator BENTSEN.

VISIT TO THE SENATE BY MEMBERS OF THE GLOBAL LEGISLATORS FOR A BALANCED ENVIRONMENT

Mr. HEINZ. It is my privilege to welcome to the floor of the Senate, Mr. President, an interparliamentary delegation, principally from the European Community, but also from the Japanese diet, representing an organization of parliamentarians from a variety of nations and political parties. The organization is the Global Legislators for a Balanced Environment.

We are privileged to have this very well-informed and now well-traveled group of legislators with us. I thank the Senate for its courtesy in welcoming them here to the Senate floor this afternoon.

Mr. PACKWOOD. Does the Senator want 2 or 3 minutes to meet them?

Mr. HEINZ. That would be very nice.

RECESS

Mr. PACKWOOD. Mr. President, I ask unanimous consent that the Senate stand temporarily in recess while we might go over and meet the delegation, and that the time be charged equally against both sides so we still vote at the appointed time.

The PRESIDING OFFICER. Without objection, it is so ordered.

Thereupon, the Senate, at 2:29 p.m., recessed until 2:31 p.m., when called to order by the Presiding Officer [Mr. SANFORD].

TEMPORARY REDUCTION IN CAPITAL GAINS TAX FOR NONCORPORATE TAXPAYERS

The Senate continued with the consideration of the bill.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. PACKWOOD. I have only a few more remarks, and then I will yield the floor.

Mr. President, let us take a worst-case scenario. Some say this bill unduly favors the rich and therefore should not be enacted for that reason. Let us take an example.

Let us say you are a wealthy individual; you are making $200,000 a year in salary; you are a highly paid corporate executive.

Under the present tax law you are paying at the top tax rate—28 percent. So on your $200,000 of income you are paying $56,000 in taxes.

Now, in addition, Mr. President, you have a piece of commercial property that you bought a number of years ago for $100,000 and today it is worth $200,000. You have not sold it. You have it, and it is worth $200,000.

You are thinking to yourself, maybe it will go up to $250,000 or maybe it will go up to $300,000. Maybe I will hold onto this property for a while. If we pass a capital gains tax that assesses capital gains at 20 percent instead of 33 percent, then you say to yourself, "I do not know how long this capital gains tax will remain in effect, I think I will sell it." You sell it for $200,000 and have a $100,000 capital gain upon which you pay $20,000 capital gains tax to the Federal Government.

That is in contrast to the situation where we had an individual who was making $200,000 and was paying $56,000 to the Federal Government. This individual has now made his $200,000 salary and he has made $100,000 selling his piece of property. Of the $100,000 he has paid $20,000 of that to the Federal Government. Now, instead of paying $56,000 in taxes he has paid $76,000 and he gets to keep $80,000 of the $100,000 increase in value of the property.

I say, "What is wrong with that?" The Federal Government has realized $20,000 that we would not otherwise have gotten and we can spend on programs for the poor.

Why should we care? It happens to come from this person who had a piece of property that would not have otherwise been sold and would not have otherwise had any income from. And we would not otherwise have had any additional taxes. Where is the loser?

The person has more money, but he does not have the whole $100,000. The Government has more revenues than it would have had if we had not passed the capital gains tax. And that is the theory of the capital gains tax. We cut the rates, the Government will realize more revenue.

I want to emphasize again I used that point for an example because I would say we could justify this, even if the only ones who received any benefit were those who made above $200,000, if the Federal Government collected more money that we can use for the poor. But I want to conclude with the statistics I used at the start, Mr. President.

Seventy-two percent of the tax returns that claim capital gains benefits come from people who have $50,000 or less of income other than the capital gain. And 47 percent of all capital gains are realized by people who make $50,000 or less, not counting their capital gain.

Mr. President, this is not a rich person's bill. There are bills that float around this Senate that are rich persons' bills. Taking the $250,000 cap off the current low-income housing credit is an amendment that can favor only those people who make over $250,000.

But this bill is a bill that many, many people will take advantage of when they sell their homes, when they sell their small businesses. People who never made over $20,000, $30,000, $40,000 a year in their life. And the Federal Government will receive more money that can be used for programs for the poor.

I very much hope, therefore, the Senate will adopt this amendment after we invoke cloture later this afternoon.

I thank the Chair.

The PRESIDING OFFICER. Who yields time?

Mr. PACKWOOD. Mr. President, I yield 15 minutes to the Senator from Delaware.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. ROTH. Mr. President, the most serious problem our Nation faces is the question of becoming competitive in the emerging global economy. This is the age of technology and, if we are to effectively compete, it is essential that our industrial facilities be the most modern in the world; that they continue to incorporate the latest technology. That, in turn, means it is essential that this country have adequate capital at reasonable cost.

Unfortunately, it is well recognized that the United States is disadvantaged, that we are losing out because we do not have adequate domestic savings, domestic capital at reasonable prices. And that, in turn, means a loss of jobs, a loss of a higher standard of living and a loss of a future for our children.

So critically important is this matter that just last month, about 2 weeks ago, on the front page of the New York Times, one of the leading articles was talking about how Japan leads the United States in raising capital for corporations. In this article it points out that, "At a time when volatile swings and uncertainty on Wall Street have made it increasingly tough for American companies to raise money, the comparatively stable and strong Japanese stock market has been churning out record levels of fresh capital for Japanese corporations."

"The boom," it goes on, "in raising capital in Japan, carries a profound message for competition between American and Japanese banks and corporations. Japanese companies are finding it easier to raise relatively cheap capital to modernize, increase productivity, and expand. That could benefit them as they prepare for increasingly tough competition in the global marketplace."

Mr. President, in a recent article, Peter Drucker has pointed out that the cost of American capital is four times higher than it costs the Japa-

nese. As he points out in his article, that means we are unable to entertain opportunities because of the high cost of capital.

Likewise, this point is underscored in a MIT study, a major study by that venerable institution, as to what we need to do if we are to do something about productivity.

And there, again, the MIT study points out that the importance of the cost of capital in determining the rational time horizon for decisions is easily illustrated. As imagined, two corporations, A and J, similar except that for one firm, the cost of capital is 10 percent, while J pays only 3 percent.

If we assume that they will pay back the capital at the end of 2 years, A can invest $100 now only if the investment will return $121, while J can profitably undertake an activity if it only takes $106; $106 compared with $121. But the disparity is even greater if it is a 20-year investment. In a 20-year investment, A can afford to undertake only those investments that will yield more than $673, while J needs only $181.

Unfortunately, J is Japan, which would only need $181, whereas the United States would need $673. So the clear message is that we are handicapping ourselves unless we do something to make it possible to obtain capital at a reasonable cost.

That is exactly what the Packwood-Roth amendment seeks to do, to provide an answer, an approach of providing the capital necessary for the future growth and prosperity of this Nation. Our IRA-plus will promote private savings, provide a reservoir of individual savings. That means in turn we become less dependent on foreign capital, on foreign savings. And while I think we must be thankful for those foreign investments in view of our own shortage, here is an opportunity to do something about it.

Mr. President, IRA's do promote new savings. As a matter of fact, in 1986, the last year before the IRA's were modified, the IRA's provided something like $38 billion in savings. After Congress, regretfully, cut back on those who were eligible or limited their rights, that savings dropped to $14 billion per year. But this $38 billion was a tremendous reservoir of new capital. As I shall point out, it represented, according to most economists, new savings. As a matter of fact, testimony before the Finance Committee showed that of that $38 billion, 80 percent was new savings.

Let me mention that putting capital gains and IRA's together are so critically important. Capital gains unlocks resources, thereby helping to ensure the best utilization of capital. It helps promote investment in new entrepreneurships, critically important if we are to become competitive, in new products and in new businesses. Japan today is investing heavily in R&D, and it has the capital with which to exploit that R&D. We must make certain that the same is true here in the United States as well.

Just let me point out with respect to capital gains that many countries have no—or very little—capital gains taxes, and that includes Japan. Until recently, Japan had no capital gains tax. Currently, it is something between 2 and 5 percent. The same is true in West Germany and South Korea.

Mr. President, these countries represent the new industrial superpowers of this world. If we want the United States to continue to be an economic power, this problem, indeed, must be addressed. As I said, the IRA's have been a successful means of saving. In 1986, they brought about a total savings of $38 billion.

Some have questioned whether or not this has been a successful, desirable kind of savings to promote. But recently we had some hearings in the Finance Committee and there we had a number of economists testify as to the desirability of IRA's. For example, Mr. Skinner, a professor at the University of Virginia and National Bureau of Economic Research, testified that the IRA's enjoyed tremendous success by 1986 with new contributions amounting to $38 billion. He pointed out, or asked the question: Why were IRA's written out of existence in the 1986 Tax Act? He said the backlash against IRA's reflected a widely held and, I believe, incorrect view in Washington that IRA's provided no new savings, just a tax windfall to the wealthy.

But then he goes on to point out that as studies were made by distinguished professors, like Steven Venti of Dartmouth and David Wise of Harvard, they found that only 8 cents of every dollar were shuffled from previous savings. Of the remaining 92 cents, it represented new savings. These results, he said, have been confirmed by Professor Hubbard at Columbia University.

He then said he went out to disprove the Venti and Wise results, but after his careful study of the matter he, too, came to the conclusion that IRA's were, indeed, a great source of new private savings.

Mr. President, what we are proposing is an IRA-plus which is sometimes called a back-ended IRA because it allows contributions to be made to IRA's from after-tax income but, most important, allows the savings over time to remain tax free, and it does not tax permitted distributions at all.

The IRA-plus is a deficit-reducing Federal incentive to stimulate personal savings and to encourage retirement planning. In fact, the IRA-plus would raise $11 billion over the next 5 years. The net return of an IRA-plus is greater than a deductible IRA. For example, if a couple each contributes $2,000 a year from age 30 to 60 and receives an 8-percent yield on the account, from the age of 60 to 80, they could withdraw $23,076 each year in after-tax dollars. Under the Bentsen proposal, the same couple would only be able to withdraw $19,614 each year in after-tax dollars, assuming that they are in the 15-percent tax bracket. If they are in a higher tax bracket, then annual withdrawals are reduced considerably.

Because the number of tax brackets have been reduced from 14 to 3, the assumption that upon retirement individuals will be in a lower tax bracket may not be true. In addition, because of marginal tax rates and the Social Security surtax, many retirees are currently in a marginal tax bracket approaching 50 percent. Thus taxes at retirement could be higher than the taxes paid during working years, a real disincentive for front-loaded IRA's.

The IRA-plus, it is important to point out, does not discriminate against nonworking spouses. Under present law, a nonworking spouse could only contribute $250 to their IRA. Under our proposal, we would let them have a full IRA. We think this is only proper. The housewife or househusband contributes to the welfare of this country and in these days of divorce it would help provide some solvency, some protection to the housewife.

Under our IRA plus, individuals with existing IRA's would be allowed to convert their IRA's to the new account by paying a voluntary tax on their previously deductible contributions. This feature is what allows the Government to reap significant revenues on a voluntary basis without raising taxes. The Joint Committee on Taxation has estimated that this proposal could raise about $11 billion over the next 5 years.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. ROTH. May I have 5 minutes?

Mr. PACKWOOD. I yield 5 minutes to the Senator from Delaware.

Mr. ROTH. I would point out, Mr. President, the IRA-plus would allow withdrawals of up to 25 percent without the imposition of any tax. In other words, under the IRA-plus these qualified expenses include the first-time purchase of your primary home. It would permit the IRA holder to withdraw for college education for himself, for his children, or grandchildren. We would also provide for major medical expenses, those that exceeded 7.5 percent.

These are very attractive aspects of the IRA because it means that the IRA takes care of many needs of the typical American family. By permitting withdrawal for these purposes, it becomes clear that it is desirable for

the young to put funds aside for their own welfare.

Finally, let me point out that the debate over IRA's has been on whether there should be an IRA or a capital gains tax. It is our view that the IRA-plus and the capital gains tax cut are both positive steps toward the end result of increasing personal savings. Though not dependent upon each other, a permanent capital gains cut in combination with a redesigned IRA would net the Treasury significant revenues as well as put into place effective incentives which are critical to national economic policy.

I believe both are needed as measures to ensure adequate capital at reasonable costs. So I hope that the Senate today will enact our legislation as the first step in making us competitive in this emerging global economy.

Mr. President, I ask unanimous consent that a paper titled "The IRA-Plus: Myths and Realities" be printed in the RECORD.

There being no objection, the paper was ordered to be printed in the RECORD, as follows:

THE IRA-PLUS: MYTHS AND REALITIES

The IRA-Plus is a new and innovative proposal designed to increase personal saving in this country. Under the proposal, individuals would be permitted to contribute up to $2,000 per year to an IRA-Plus account. Taxpayers would be allowed to withdraw their IRA contribution and internal build-up tax free rather than taking a deduction on the contribution. Taxpayers would be given an option to use either the IRA-Plus or the current law IRA. The IRA-Plus would be a powerful saving incentive, a potent weapon for addressing both the Nation's need for more savings and investment capital and the individual's need for increased personal saving.

The following are a number of frequently asked questions and answers regarding the need for and effectiveness of this new IRA proposal.

WHY SHOULD WE EVEN CONSIDER REVIVING THE IRA'S?

Federal Reserve Board Chairman Alan Greenspan said recently that the lack of savings is "our greatest national economic failure," a failure which could soon become an economic crisis. As a recent Joint Economic Committee study states, the "savings shortfall has pushed real interest rates to record highs, causing U.S. capital costs to soar well above those abroad and limiting investment and productivity."

Our national savings rate is now among the lowest in the industrialized world, and we must increase it if we are to remain a leader in the competitive world economy. Our major competitors all use their tax codes to encourage savings and investment, and their saving rates are three, four, and five times higher than ours. If we do not increase our savings, the fuel for economic growth and expansion, we run the risk of becoming a second-rate economic power, inducing wage and job stagnation and further burdening future generations with the debts of today.

In addition, individuals must begin preparing for the economic ramifications of longer lives. As society ages and life expectancy improves, people will require increased economic means to finance their retirement needs. Current personal saving is woefully short of providing for this future and as a result we are facing a demographic time bomb when the baby boom generation retires.

BUT ISN'T IT TRUE THAT IRA'S DO NOT REALLY INCREASE SAVING?

One of the largest myths about IRAs is that they do not increase personal saving but instead just shifted other savings. This is an incorrect assertion which has been refuted by a series of recent academic studies. In fact, the economic research literture is now overwhelmingly in support of the view that IRAs generate new savings. As economist Lawrence Summers recently stated, the "evidence strongly suggests that IRAs have a significant impact on savings." Studies by Boskin, Feldstein, Venti and Wise, Feenberg and Skinner, Carrol and Summers, the Joint Economic Committee, IRET, and Lewin/ICF all conclude that IRAs generate new savings for the economy.

When IRAs were curtailed in 1986, annual contributions dropped from nearly $38 billion in 1986—almost one-third of personal saving—to only $14 billion in 1987. The personal saving rate fell to 3.2 percent in 1987, the lowest rate since 1947. The personal saving rate has averaged 3.7 percent since 1986, compared to the average 5.3 percent saving rate when full IRA eligibility existed.

Finally, the international experience confirms the view that saving incentives do matter, as Carroll and Summers have concluded. As they point out, most of our competitors have higher savings rates than we do and most also have more generous saving incentives. Dramatic evidence comes from Canada, where a retirement saving plan went into effect in the mid-1970s. The Canadian saving rate, which for decades was similar to the U.S. saving rate, has increased dramatically to an average rate of better than 11 percent a year.

BUT DON'T IRA'S PRIMARILY BENEFIT THE RICH?

IRAs are clearly not a rich man's saving vehicle. According to the IRS Statistics of Income, two-thirds of IRA users were middle or lower income individuals, and they contributed nearly two-thirds of the funds added to IRAs in 1986. Of the more than 15 million tax returns with IRA contributions, 67 percent were of families and individuals with an adjusted gross income of $50,000 or less. These returns showed nearly 60 percent of the total dollars contributed to IRAs. Eighty-seven percent of all IRA contributors had adjusted gross income of $75,000 or less, and 83 percent of all IRA contributions came from these returns.

WHAT IS A BACK-END IRA AND HOW DOES IT DIFFER FROM A DEDUCTIBLE IRA?

Deductible IRAs and back-end IRAs (referred to as an IRA-Plus by Packwood and Roth) offer equivalent saving incentives to the individual. Only the timing of the tax benefit is changed. With deductible IRAs, the benefit is derived at the time of contribution in the form of a tax deduction. However, the contributions and the internal build-up are taxed when withdrawn at retirement. Back-end IRAs offer no tax deduction at the time of contribution, but the contributions and the earnings in the account are not taxed when withdrawn at retirement.

The equivalence of the two IRAs assumes the full deductibility of IRA contributions and that the taxpayer faces the same marginal rate before and after retirement. The back-end IRA would be a better savings incentive for taxpayers facing higher tax rates in the future.

THE IRA-PLUS CONTAINS A ROLLOVER PROVISION—HOW DOES IT WORK AND WHAT ARE THE BENEFITS?

The rollover provision would allow individuals who had previously contributed to deductible IRAs the option to convert to the IRA Plus by paying taxes on the amount previously contributed (and deducted). The tax rate would depend on the individual's tax bracket and, according to the Joint Committee on Taxation, would raise $11.5 billion through fiscal 1994. The benefits of this rollover provision are obvious. The Treasury will receive billions of dollars in revenue it would not otherwise have had on a voluntary basis. Furthermore, the rollover provision should encourage individuals with basically dormant IRAs to resume making contributions, increasing personal savings.

WITHOUT AN UP-FRONT TAX DEDUCTION, WHY WOULD INDIVIDUALS CONTRIBUTE TO A BACK-END IRA?

Recent tax changes have greatly enhanced the value and attraction of a back-end IRA and reduced the value of an up-front contribution. Under the old tax law, the value of an up-front tax deduction was considerably greater than it is now and the probability of being in a lower tax bracket at retirement was also greater.

For example, a $2,000 contribution used to save a taxpayer in the top bracket (50%) $1,000 in taxes. Today, a $2,000 contribution would save a taxpayer in the 28 percent bracket only $560. A 50 percent deduction would save the taxpayer only $280. So instead of receiving one dollar back for every two dollars contributed, a taxpayer would receive back only 28 cents for every two dollars contributed under the proposal to partially restore the deduction.

In addition, with only three tax brackets and Social Security earnings taxes in retirement, people can no longer be assured of facing lower taxes in retirement. Some studies have shown that up to 60 percent of all taxpayers face the same or higher marginal tax rates in retirement. Also, a large portion (87 percent according to one poll) of consumers are convinced that tax rates will be higher in the future when they retire.

As a result, people would be willing to contribute after-tax dollars now (and even forego a modest tax break if given the choice) in order to ensure a steady, dependable stream of tax-free retirement income. The back-end IRA clearly would provide greater economic value to an individual in retirement than would a deductible IRA, particularly a partially deductible IRA. Though people may not readily see the advantages, the institutions marketing IRAs will make the advantages well known.

Finally, the notion that back-end IRAs will provide little incentive to save is not supported by people's reaction to similar tax incentives. For example, premiums paid for individual annuities (after-tax investments for retirement income) totalled $77 billion for 1986–1988. Also, $6 billion in nondeductible IRA contributions have been made since 1986. Merrill Lynch, the institution with the largest share of IRA accounts, notes that one out of five IRA account holders made nondeductible contributions in 1988. Clearly, there is a constituency that already contributes after-tax dollars to saving vehicles. Adding the back-end incentive only promises to swell the saving pool further.

WHAT ABOUT THE REAL WORLD—WILL CONSUMERS ACTUALLY UNDERSTAND AND USE A BACK-END IRA?

One financial company, Merrill Lynch, has done consumer market research to test the back-end concept. Their findings conclude that consumers readily perceive the benefits of the back-end IRA, and felt that it would allow them to plan more effectively for their future retirement needs. According to the research, seven out of ten participants said they would be interested in a back-end IRA.

WON'T THE IRA-PLUS RESULT IN LARGE LONG-TERM REVENUE LOSSES?

The revenue "estimate" study prepared by the CBO is seriously flawed. After admitting that it was unable to produce revenue estimates beyond 1994, it proceeded to estimate a long-term revenue loss.

The long-term revenue loss estimates are flawed on two basic counts.

First, the estimate assumes that virtually all of the savings put into an IRA Plus would have been saved anyway, and in some taxable form. This is a totally unrealistic assumption, and results in a great overstatement of any revenue loss. While there is no doubt that some portion of the savings would be shifted from other forms of taxable saving, most of the IRA Plus savings would be net new saving. The research literature indicates that up to 80 percent of IRA contributions represent new saving. According to a study by the Institute of Research on the Economics of Taxation (IRET), it is highly likely that contributions to an IRA Plus will be at least 75 percent net new saving, with no more than 25 percent saving that would otherwise have been done in taxable form.

Clearly, that portion of IRA Plus saving which is new saving would not result in a revenue loss to the government. That is because earnings on net new savings are earnings that would not otherwise have occurred, and no tax would have been collected in any event.

Second, the revenue estimates do not take into account the positive economic effect of new saving on the overall economy. Any reasonable study of the revenue effects of IRAs should include at least some increased tax revenues from the increased savings, investment, employment, and economic growth which would surely occur.

WOULDN'T CUTTING THE BUDGET DEFICIT BE THE BEST WAY TO INCREASE SAVING?

Although cutting the budget deficit would help reduce our savings deficit, it would not be nearly enough to provide the saving our economy needs. As the Joint Economic Committee has noted, our "startling historic decline in national savings and the international disparities in savings are not due entirely to the widening budget deficits." According to economist Lawrence Summers, about three-fourths of the decline in the national saving rate since the 1970s is the result of the decline in private saving, while about one-fourth is the result of an enlarged public sector deficit.

As Summers notes, these statistics "make it very clear that even if the United States balanced its budget, U.S. national savings would be woefully inadequate by either historical or international standards. This reality combined with the apparent inability of the political process to produce balanced budgets suggest the importance of policies which stimulate private saving, of which personal savings is the most important component."

WON'T THE COMING DEMOGRAPHIC CHANGES SOLVE OUR SAVING PROBLEM?

As economist Summers has noted, "there is little evidence to support the idea that the changing age composition of the population will have a large impact on personal saving." According to a study conducted by Carroll and Summers, only a negligible fraction of the personal saving decline can be attributed to demographic changes, and the aging of "the yuppie generation" is unlikely to appreciably increase personal saving. A recent study by Merrill Lynch Research confirms their study, finding that the "empirical evidence provides little support for the hope that demographic trends will lead to a higher savings rate." The research report found that during the past 40 years, the saving rate has shown no link to demographic trends and that specific policy actions must be taken to increase the saving needed for economic growth and retirement. As the report concludes, "from a public policy perspective, the growth needs of the economy and the retirement needs of the baby boomers coincide: both point to a need for stronger incentives to save and invest."

One demographic trend is clear, and that is that there is a demographic tidal wave rolling through the American population. When the 75 million baby boomers become pensioners rather than earners, the strains on our benefit systems will be enormous. We must begin now to defuse this demographic time bomb by taking steps to encourage people to save for their retirement needs.

WHAT DIFFERENCE DOES IT MAKE IF OTHER COUNTRIES SAVE MORE THAN WE DO?

The dismal U.S. savings rate over the last few years has a direct bearing on our high interest rates, poor productivity growth rate, weak investment levels, and high cost of capital, and it will lead ultimately to a lower standard of living for all Americans. The U.S. national saving rate is less than half that of major industrialized countries and about one-fifth of the saving rate of Japan, and as a result our economic performance has lagged behind our foreign competition. As the Joint Economic Committee has noted, over the past decade, we had the lowest productivity growth rate of any G-7 nation, and the cost of capital in the U.S. is considerably higher than in Japan, the U.K. and West Germany.

The increased level of foreign investment in the U.S. is directly related to other countries' high savings rate and our low savings rate. These countries have the ability to export capital while we must import capital to cover our savings deficit.

Although foreign investment in the U.S. should not be discouraged, a reliance of foreign capital to finance high levels of consumption will ultimately have dire consequences.

As the Joint Economic Committee has noted, "the already diminished long-term U.S. economic prospects will continue to be eroded by Japan and other high savings societies until steps are taken to boost savings here."

And as economist Summers recently wrote, "the United States is a wealthy nation and so it can finance a high rate of consumption by selling off assets for a long time—but not forever. Unless our national saving rate is restored at least to its former level in the 7 percent range it is very likely that we will be overtaken by a number of our competitor nations in the next few years."

Mr. ROTH. Mr. President, I yield back the floor, asking whatever time I have not utilized be returned to Senator PACKWOOD.

Mr. BENTSEN. Mr. President, I yield myself 10 minutes.

Mr. President, there appears to be some sensitivity on the other side to the idea that this might be called a tax break for the wealthy. In response to their concern, let me cite a 1985 study by the Treasury Department under the Reagan administration. That study was probably the most comprehensive study on cutting the capital gains tax that they could do. Their conclusion was after 50 years, income for American workers would be one-tenth of 1 percent higher. What does the rest of America get for a tax break averaging $25,000 for the relatively few Americans making over $200,000? What does the average family of four get in return for this tax break for a select few? About $30. Dinner at McDonald's twice a year. That is what we are talking about. And that is a study done by the Reagan administration—the supply siders most likely to find a benefit, if there was one to be found.

It's interesting to see how they have crafted this particular approach. It is very creative. They are trying to push the actual costs of these two tax breaks beyond the 5-year budget window. So they have brought in a back-end, back-loaded IRA. Where are they going to get the money to help pay for that capital gains cut that the Joint Tax Committee says over 5 years is going to cost over $10 billion? Joint Tax estimates that the capital gains proposal alone may cost up to $37 billion over a 10-year period and a back-end IRA could cost up to $100 billion.

How are they going to pay for it over the 5-year budget period? One of the ways they are going to pay for it is to shift savings. That is one of the biggest criticisms that was made about IRA's, that it was not creating new savings; it was shifting savings, and that is why so many economists opposed it.

Now their proposal would allow tax payers who have money in an IRA account, to shift it into a back-end IRA. The taxpayer would be allowed to spread his other tax payments over a 4-year period. However, from then on, no tax—zero. Whatever you earn on it—interest, dividends, appreciation—is tax free even if it's 25 or 30 years from now. No tax.

Well, that is not an increase in savings. That is a shift in savings—a gimmick.

What is going to motivate people? A promise in the distant future? I don't think so. Most Americans don't know what the Congress is going to do on taxes 20 years from now. How much confidence do you think there would

be in this proposal? Think about how often we have changed the tax law over the last 10 years.

In the 1986 Tax Reform Act, the distinguished Senator from Oregon played a major role. It did away with the capital gains rate differential. I can recall how when we talked about eliminating the capital gains rate differential. The Treasury Department argued that we could pick up $22 billion over 5 years if we would increase the rate. Now this administration contends that if we drop that rate, we could pick up $16 billion. You just cannot have it both ways.

I am one who has fought time and time again to reduce the rate on capital gains, but I tell you I was much more enthusiastic about it when I saw the top tax rate on personal income at 90 and 70 and then 50 percent. Now Americans who make the most in this country are paying tax at the 28 percent rate.

The proponents for capital gains say that we need to stimulate the venture capital market. Well, how much incentive do you need then for venture capital? How does venture capital work? Most of the money that is going into venture capital today does not come from individuals. A great deal of it comes from pension funds that pay no taxes. So it is not a question of incentives. If you go out and invest in venture capital, you will find that those lemons mature very quickly; in the first 3, 4, 5 years you find the lemons in which you have invested. Then maybe you will have a couple of them that will be comatose and maybe another one making a little money. But what you have really invested for is the bell ringer. You are looking for the Apple computer. You are trying to hit the big one. And you really aren't concerned about paying a little more tax at that point.

Or you might invest in venture capital because your wife says you really ought to put some money in your brother-in-law's business. These are the types of incentives that really drive the venture capital market.

Now, let's look at the back-end IRA again. When the Secretary of the Treasury was testifying before the Finance Committee, he said that the back-end IRA just pushed off the cost to future generations. Oh, this is a cleverly crafted deal. You put together this kind of a capital gains proposal and you put together a back-end IRA and hope that carries it for the 5 years. But then you get an explosion of debt and a large loss to the Treasury. That has to be our concern and our principal motivation in this kind of a situation.

I listened to my friend from Delaware. He was talking about the need for savings in this country, and I could not agree more. I saw a picture in Fortune magazine—a man smiling, leaning up against a fast-food counter next to the FAX machine. He had FAX'd in his order down in Houston, TX, my hometown. Interesting—that FAX machine was invented in this country. It is not manufactured in this country. The color TV—RCA developed it. It was invented here. A vast majority of them are manufactured in other places today. In addition, the VCR was invented in this country and now is manufactured someplace else. Microwaves, invented in this country—almost all of them are manufactured someplace else.

Creativity in America—you bet we have it. Convertibility of that technology to commercial product, however, is slipping. One of the major reasons is because of cost of money in this country. Interest rates are too high. We are paying 10 percent prime now, and the rate has been dropping but it's still 10 percent. While the Germans are paying 8.5 percent and the Japanese are paying 4.8 percent. Of course we have to have an accumulation of savings in this country. That is why we need an IRA. We need the kind of classical IRA that I recently proposed. It would give taxpayers an immediate deduction and expand the use of deposited funds.

I congratulate my colleagues for having adopting some of those additional uses in their proposal. The young couple that wants to buy that first home need some help, so my proposal would let you take that money out without penalty to help make that down payment. We are finding more and more that young couples will not be able to live in the kind of housing their parents owned. Some of them want be able to live as well as their older brothers and older sisters. Many of those kids now have to live with mom and dad. They really want to be out on their own. Mom and dad think that is a pretty good idea, too—but they can't afford to move.

What is the other big problem? The other big problem is trying to pay for that college education.

Mr. President, I yield myself an additional 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BENTSEN. Trying to pay for that college education is getting tougher and tougher to do, but being able to pull those IRA funds out will help to pay for that college education.

How do people use the IRA? Do you really seriously think they are going to contribute because 20 years from now they will be able to take it out tax free? Or do they contribute to an IRA because they are going to get a deduction on April 15 when they make out their tax return? They say, "I am not going to send that part of it in. This part is for me. This is for my family. I will put it in an IRA account and I am going to get my deduction now and credit now. I am not going to worry what Congress is going to do 20 years from now, and what the tax laws are then. I want it now in my savings account."

That is the principal motivation. That is why Money magazine conducted a poll on IRA's and they found overwhelmingly that people prefer the conventional IRA. That is the type of IRA that is going to bring the contributions.

Now, let's turn to the international competition we face. I do not care how smart American management is, how geared to the long term they are, or how much they try to do on R&D. I do not care how long the hours are that the labor force puts in, how well-trained they are, or how well-motivated they are. If you take a manufacturing plant that is building widgets, or whatever the product might be, and it has to pay over twice as much for its capital, as does its competition then that firm faces severe disadvantage. Those are the realities today. With this competition abroad you start out at an incredible disadvantage in international trade. That is one reason why we have seen the change in our country's, competitiveness.

Our budget deficits continue to keep our interest rates high. This proposal would result in an explosion of deficits and debt outside the 5 year budget estimating window. If we get those deficits down, that helps lower interest rates and the cost of capital the most.

Second, we must encourage people to save in this country—if we could get people in this country to save another $20 a week, you would have an increase of savings of almost 30 percent by individuals. That is what we ought to be encouraging, and that is what the kind of IRA I have proposed would accomplish, not this backloaded one that says someday off in the future we'll forgive your taxes if you shift your savings into it.

So, Mr. President, I feel very strongly that this particular provision should be defeated, that we ought to take another look at this next year and see what we can put together to truly accomplish the kind of objectives that we are talking about—that gets this deficit down, that sees us increase savings in our country, and that gets increase rates down. That is what would make this country more competitive in international trade. And if we do that, we will continue to have the standard of living that makes us an example for the rest of the world. We will continue to be that shining light for democracy that has helped erode a Russian empire, and is helping lead toward its decolonization. We see the rays of democracy is shining in Eastern Europe and into the Far East. But it has to be a policy that is not dependent on nownowism.

29-059 O-90-27 (Pt. 20)

I listened to Mr. Darman. I heard his statement where he said one of our problems is this idea of instant gratification in our country, now-nowism, not wanting to wait. I think this is a prime example, you get a capital gains cut now and set up situation where you have now-nowism and an explosion of debt and revenue loss in the future. The cost would be charged to our kids. I think that would be a serious mistake.

Mr. President, I yield the remainder of my time to our side.

The PRESIDING OFFICER (Mr. LIEBERMAN). Who yields time?

Mr. BENTSEN. I yield to the distinguished Senator from Tennessee, the chairman of the Budget Committee, 10 minutes.

Mr. SASSER. Mr. President, I thank this distinguished chairman of the Finance Committee for yielding to me.

May I inquire as to the time situation?

The PRESIDING OFFICER. Yes.

The Senator from Texas has 73 minutes and 9 seconds remaining; the Senator from Oregon has 55 minutes and 6 seconds.

Mr. SASSER. I request of the Senator from Texas if he would yield to me 15 minutes at this time?

The PRESIDING OFFICER. Will the Senator from Texas yield 15 minutes to the Senator from Tennessee?

Mr. SASSER. Mr. President, I renew my request to my distinguished friend from Texas and ask if he will yield me 15 minutes at this time.

Mr. BENTSEN. Mr. President, I yield 15 minutes to the distinguished Senator.

THE PRESIDING OFFICER. The Senator from Tennessee is recognized.

Mr. SASSER. I thank the distinguished chairman of the Finance Committee.

Mr. President, I rise today to oppose the bill. In my view, the Packwood-Roth capital gains tax cut is bad tax policy, it is bad fiscal policy, and it is bad policy in general at this time in the fiscal history of the United States.

Make no mistake about it, this proposal will increase the deficit. It benefits the wealthiest Americans at the expense of middle-class taxpayers. it effects a giveaway of precious resources precisely at a time when they are critically needed to fund this Nation's fiscally constrained agenda, and certainly it breaks faith with the 1986 Tax Reform Act, and it will not, as is often claimed, increase savings and investment.

How often have we heard that siren song of supply side? Simply cut taxes enough and this is going to increase investment and increase savings. We saw that supply side cut in 1981, and, according to the figures of Reagan's Office of Management and Budget, the tax cut of 1981, the Economic Recovery Act of 1981, called earlier the Kemp-Roth tax cut, deprived the Federal Treasury of $1.8 billion in revenue from 1982 through 1988.

And there, Mr. President, is the story of the explosion of the Federal deficit in the decade of the 1980's, a time that saw the country go from the greatest creditor Nation on the face of this Earth in the space of just a few short years to the greatest debtor Nation on the face of this Earth.

So, Mr. President, what we are seeing here today is another big revenue loser. The enormous losses in revenue are initially disguised by a rollover gimmick that allows for the creation of a so-called IRS plus.

According to the estimates of the nonpartisan Joint Tax Committee, the capital gains aspect of the Packwood-Roth proposal will lose $10.2 billion between fiscal year 1990 and fiscal year 1994. But cleverly, the IRA-plus component has been tailored to offset this loss by raising some $11.5 billion over the same period.

And how is this done? As the distinguished Senator from Texas has outlined, it simply allows people to take their IRA's out of their own accounts, pay their taxes on them now, get the revenues in now, and then put the funds away and let them accumulate, and the taxes in the future are excused.

Once again, we are confronted with a proposal much like the grasshopper of the fable who eats everything in the summer, saves nothing for the winter, and perishes in the first frost.

Once again, we are living for today without a thought for tomorrow or without a thought for the tab that is going to come due on future generations.

The truth is that the IRA-plus is nothing more than a very artful way to mask and conceal the revenue losses created by a capital gains tax cut because, after fiscal year 1994, the contrived revenue neutrality of this package simply evaporates.

The Congressional Budget Office indicates that beyond fiscal year 1994, the rollover concept just rolls over and dies. The IRA-plus actually flips from being a revenue raiser to a revenue loser, at which time both components of the Packwood-Roth proposal will be contributing in full measure to our deficit problem.

And the result will be an even worse fiscal state of affairs than we are confronting at the present time. Ultimately, the Packwood-Roth proposal, the capital gains tax cut, geared and operating in concert with the IRA-plus concept, will team up in what amounts to a two-fisted pummeling of the Treasury of the United States.

In concrete terms, the Congressional Budget Office says that every dollar that the Federal Treasury collects in short-term tax receipts under this plan would cost $9.83 in lost future revenues out to the year 2000.

Mr. President, I will submit that this is budget gimmickry in its purest from, pushing receipts forward, taking the receipts now but incurring the far greater costs for the future. It is on a grand scale, almost a breathtaking scale, exactly the kind of shift maneuver that the administration is currently denouncing in the budget reconciliation package.

In fact, in the concept and in the context of the administration's born-again budgetary purity, this proposal would make absolutely no sense.

Once again, the undeniable fact is that a capital gains tax cut, like the tax cut that I alluded to earlier in 1981, is going to create massive deficit problems for the future.

In short, Mr. President, I submit to my colleagues that a tax cut now, just after this body has voted to extend the debt or the borrowing authority of the U.S. Government over $3 trillion, would be an act of gross irresponsibility.

I would submit it is also an act of social injustice. A capital gains rate cut is fundamentally unfair to the average American taxpayer, and it is not class rhetoric to come out and say it. We hear a lot of discussion these days about let us not talk about class, let us not raise the class issue, and perhaps some who are raising that argument remember the statements made 50 years ago by President Franklin Delano Roosevelt when he pointed his finger at the economic royalists who came close to destroying the economy of the country and called them what they were.

If it is class rhetoric to say that 80 percent of the benefits of capital gains legislation would flow to the Nation's wealthiest taxpayers, then so be it, because it would flow to those with annual income in excess of $200,000 per year.

I submit to my colleagues that it is simply inequitable to give the wealthiest Americans in the country a $24,000 tax cut.

The Congressional Budget Office indicates that the incomes of the richest 1 percent of Americans have gone up by 45 percent during the decade of the 1980's and these same people who have seen their incomes go up by 45 percent since 1980 are the same people who own 60 percent of the stock held by individuals in this country. They are doing quite nicely, thank you, without additional assistance from the Federal Government.

I had an interesting conversation a couple of days ago with two nationally known pollsters who just completed a very large sample or a very large poll conducted in all areas of this country including various so-called focus groups discussions. They indicated

that wherever they went in discussing what is occurring in this country now with middle-class Americans of all sexes, of all races, what they found was an enormous anxiety, an enormous frustration, a feeling that their lives were not getting any better, a feeling that they could not afford a home, their children could not afford one, a feeling that they could not afford an education for their children.

These same middle-class voters had a sense of absolute powerlessness. They felt that their Government and their country was in the hands of the wealthy and that only those who could afford the lobbyists and only those who could afford to compete for the attention of those who run the Government, whether in the executive branch or the legislative branch, by virtue of their economic strength were being listened to.

Well, the great middle class of this country should feel that way because, if this capital gains tax cut should pass this body and if it should be signed into law, then we will certainly be confirming, in my view, their worse suspicions about their Government.

Let us not delude ourselves about this, the revenues forfeited to a capital gains tax cut are not expendable. The resulting deficits are going to be paid by middle-class taxpayers one way or another. It is bad enough to offer a gift to those who need it least, but, in my judgment, it is unconsicionable to pass the bill on to average middle-class working Americans and their children.

With a deficit this year of $155 billion and with the national debt pushing upwards to $3 trillion, the resources of the Federal Government have never been scarcer. Yet we are considering a giveaway of these resources and giving them away to those who need them the very least.

In my judgment, Mr. President, that policy absolutely overturns the fundamental promise of the 1986 tax reform law. I well remember the earnest arguments that were made by the then chairman of the Finance Committee in 1986, the distinguished Senator from Oregon, and I would suggest to my colleagues that his arguments at that time were eloquent and they had the ring of authenticity and truth to them.

And not just 3 years ago an overwhelming majority of this body cast their votes for tax equity and they cast their votes for tax simplification. But if we take this action today or tomorrow or during this session of Congress to restore this so-called capital gains tax cut, I do not think any middle-class citizen will ever again believe that Congress can implement a tax code that is fair.

Mr. President, in 1986, we committed ourselves to lower the tax rate for the wealthiest Americans in this country in exchange for an elimination of the so-called tax loopholes, the so-called gimmicks that favored the wealthy. There were cynics who said the gimmicks would be back in 5 years. Well, they are back now in 3.

Having lowered the tax responsibility of the wealthiest Americans to 28 percent, there is simply no longer any equity in providing preferential treatment for any kind of investment or income.

If we return to that kind of preferential treatment, how in the world are we going to look the working people in this Nation in the face and tell them that our promise of fairness, of equal sharing of the tax burden in 1986, had been kept? How can we tell them that this is not a giveaway to the rich—a giveaway that the average American will in the long run have to pay for?

Finally, Mr. President, proponents of a capital gains cut make the same old supply-side argument that this tax cut will stimulate the economy, increase savings, increase investments and add to the Treasury in the long run.

Well, as I said earlier, we bought that bill of goods in 1981. The American people bought it in 1981 and have seen a tripling of the national debt. It took this country 200 years to build up an indebtedness of a trillion dollars. During that time we fought every major war in our history. And make no mistake about it, wars are very expensive. The majority of that trillion-dollar debt was incurred in fighting World War I, World War II, the Korean war and the war in Vietnam. It took us 200 years to build-up that trillion dollar deficit. But in the short space of less than 9 years, we have increased that less than $1 trillion deficit in 1980 to $3 trillion now.

This country is in hock up to its eyeballs. If the Japanese do not show up the next time we offer United States securities for sale, I say to my colleagues, we are in real trouble.

The Treasury's own analysis concludes that a capital gains tax cut poses a very small likelihood of increase in savings or spurring investment.

Moreover, a truly effective plan for national savings would induce middle-income Americans to save more. That is where the savings have to come from. Conversely, a capital gains cut is targeted to those who already have a high rate of savings, namely the wealthiest in this country. It is not an incentive for new savings, but merely rewards the highest income group for doing what they would have done anyway.

Studies have shown that the savings rate of upper-income people is twice that of those with middle incomes. A serious national savings initiative must tap the enormous savings potential of middle income Americans. A capital gains cut excludes these people from the outset.

A capital gains reduction is also an initial reward for divesting with no guarantee of reinvestment. There is the strong possibility that we could end up with bigger yachts in our marinas, not more capital deployed in productive ways. The Congressional Research Service estimates that a capital gains cut will actually reduce the amount of capital stock.

And the IRA component isn't much better. It will not promote more savings.

Let us recognize Packwood-Roth IRA-plus for what it is—a tax break on old assets, not an incentive to new investment.

If it is a savings plan we are looking for, the chairman of the Finance Committee, Senator BENTSEN, has a far superior plan—one that will offer a savings incentive to a much wider range of taxpayers than this proposal. And it will do so in a far more responsible way in terms to the Treasury.

But let us face it, Mr. President, this issue isn't about savings or investment. It's about handing out a political gift at the expense of billions to the Treasury, neglected national priorities, and untold pain for future generations.

We simply cannot afford it.

This Nation is in a fragile fiscal condition as it is. We cannot afford to gamble that revenues lost to a capital gains rate cut will be covered by increases in economic growth. There is simply no substantial evidence to justify the massive revenue losses that a rate reduction will generate.

Mr. President, we have made that mistake before, and we have been paying for it throughout the decade of the 1980's. Now is the time to acknowledge the mistakes of the past rather than blindly seeking to repeat them.

The PRESIDING OFFICER (Mr. BURDICK). Who yields time?

Mr. BRADLEY. Mr. President, I ask unanimous consent that I may yield 1 minute to the distinguished Senator from Hawaii on another matter.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. INOUYE. Mr. President, I ask that the pending matter be temporarily set aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

NATIONAL MUSEUM OF THE AMERICAN INDIAN ACT

Mr. INOUYE. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 978.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 978) entitled "An Act to authorize the establishment within the Smithsonian Institution of the National Museum of the American Indian, to establish a memorial to the American Indian, and for other purposes," do pass with the following amendments:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Museum of the American Indian Act".

SEC. 2. FINDINGS.

The Congress finds that—

(1) there is no national museum devoted exclusively to the history and art of cultures indigenous to the Americas;

(2) although the Smithsonian Institution sponsors extensive Native American programs, none of its 19 museums, galleries, and major research facilities is devoted exclusively to Native American history and art;

(3) the Heye Museum in New York, New York, one of the largest Native American collections in the world, has more than 1,000,000 art objects and artifacts and a library of 40,000 volumes relating to the archaeology, ethnology, and history of Native American peoples;

(4) the Heye Museum is housed in facilities with a total area of 90,000 square feet, but requires a minimum of 400,000 square feet for exhibition, storage, and scholarly research;

(5) the bringing together of the Heye Museum collection and the Native American collection of the Smithsonian Institution would—

(A) create a national institution with unrivaled capability for exhibition and research;

(B) give all Americans the opportunity to learn of the cultural legacy, historic grandeur, and contemporary culture of Native Americans;

(C) provide facilities for scholarly meetings and the performing arts;

(D) make available curatorial and other learning opportunities for Indians; and

(E) make possible traveling exhibitions to communities throughout the Nation;

(6) by order of the Surgeon General of the Army, approximately 4,000 Indian human remains from battlefields and burial sites were sent to the Army Medical Museum and were later transferred to the Smithsonian Institution;

(7) through archaeological excavations, individual donations, and museum donations, the Smithsonian Institution has acquired approximately 14,000 additional Indian human remains;

(8) the human remains referred to in paragraphs (6) and (7) have long been a matter of concern for many Indian tribes, including Alaska Native villages, and Native Hawaiian communities which were determined to provide an appropriate resting place for their ancestors;

(9) identification of the origins of such human remains is essential to addressing that concern; and

(10) an extraordinary site on the National Mall in the District of Columbia (U.S. Government Reservation No. 6) is reserved for the use of the Smithsonian Institution and is available for construction of the National Museum of the American Indian.

SEC. 3. NATIONAL MUSEUM OF THE AMERICAN INDIAN.

(a) ESTABLISHMENT.—There is established, within the Smithsonian Institution, a living memorial to Native Americans and their traditions which shall be known as the "National Museum of the American Indian".

(b) PURPOSES.—The purposes of the National Museum are to—

(1) advance the study of Native Americans, including the study of language, literature, history, art, anthropology, and life;

(2) collect, preserve, and exhibit Native American objects of artistic, historical, literary, anthropological, and scientific interest;

(3) provide for Native American research and study programs; and

(4) provide for the means of carrying out paragraphs (1), (2), and (3) in the District of Columbia, the State of New York, and other appropriate locations.

SEC. 4. AUTHORITY OF THE BOARD OF REGENTS TO ENTER INTO AN AGREEMENT PROVIDING FOR TRANSFER OF HEYE FOUNDATION ASSETS TO THE SMITHSONIAN INSTITUTION.

The Board of Regents is authorized to enter into an agreement with the Heye Foundation, to provide for the transfer to the Smithsonian Institution of title to the Heye Foundation assets. The agreement shall—

(1) require that the use of the assets be consistent with section 3(b); and

(2) be governed by, and construed in accordance with, the law of the State of New York.

The United States District Court for the Southern District of New York shall have original and exclusive jurisdiction over any cause of action arising under the agreement.

SEC. 5. BOARD OF TRUSTEES OF THE NATIONAL MUSEUM OF THE AMERICAN INDIAN.

(a) IN GENERAL.—The National Museum shall be under a Board of Trustees with the duties, powers, and authority specified in this section.

(b) GENERAL DUTIES AND POWERS.—The Board of Trustees shall—

(1) recommend annual operating budgets for the National Museum to the Board of Regents;

(2) advise and assist the Board of Regents on all matters relating to the administration, operation, maintenance, and preservation of the National Museum;

(3) adopt bylaws for the Board of Trustees;

(4) designate a chairman and other officers from among the members of the Board of Trustees; and

(5) report annually to the Board of Regents on the acquisition, disposition, and display of Native American objects and artifacts and on other appropriate matters.

(c) SOLE AUTHORITY.—Subject to the general policies of the Board of Regents, the Board of Trustees shall have the sole authority to—

(1) lend, exchange, sell, or otherwise dispose of any part of the collections of the National Museum, with the proceeds of such transactions to be used for additions to the collections of the National Museum or additions to the endowment of the National Museum, as the case may be;

(b) purchase, accept, borrow, or otherwise acquire artifacts and other objects for addition to the collections of the National Museum; and

(3) specify criteria for use of the collections of the National Museum for appropriate purposes, including research, evaluation, education, and method of display.

(d) AUTHORITY.—Subject to the general policies of the Board of Regents, the Board of Trustees shall have authority to—

(1) provide for restoration, preservation, and maintenance of the collections of the National Museum;

(2) solicit funds for the National Museum and determine the purposes to which such funds shall be applied; and

(3) approve expenditures from the endowment of the National Museum for any purpose of the Museum.

(e) INITIAL APPOINTMENTS TO THE BOARD OF TRUSTEES.—

(1) MEMBERSHIP.—The initial membership of the Board of Trustees shall consist of—

(A) the Secretary of the Smithsonian Institution;

(B) an Assistant Secretary of the Smithsonian Institution appointed by the Board of Regents;

(C) 8 individuals appointed by the Board of Regents; and

(D) 15 Individuals, each of whom shall be a member of the board of trustees of the Heye Museum, appointed by the Board of Regents from a list of nominees recommended by the board of trustees of the Heye Museum.

(2) SPECIAL RULE.—At least 7 of the 23 members appointed under subparagraphs (C) and (D) of paragraph (1) shall be Indians.

(3) TERMS.—The trustee appointed under paragraph (1)(B) shall serve at the pleasure of the Board of Regents. The terms of the trustees appointed under subparagraph (C) or (D) of paragraph (1) shall be 3 years, beginning on the date of the transfer of the Heye Foundation assets to the Smithsonian Institution.

(4) VACANCIES.—Any vacancy shall be filled only for the remainder of the term involved. Any vacancy appointment under paragraph (1)(D) shall not be subject to the source and recommendation requirements of that paragraph, but shall be subject to paragraph (2).

(f) SUBSEQUENT APPOINTMENTS TO THE BOARD OF TRUSTEES.—

(1) MEMBERSHIP.—Upon the expiration of the terms under subsection (e), the Board of Trustees shall consist of—

(A) the Secretary of the Smithsonian Institution;

(B) an Assistant Secretary of the Smithsonian Institution appointed by the Board of Regents; and

(C) 23 individuals appointed by the Board of Regents from a list of nominees recommended by the Board of Trustees.

(2) SPECIAL RULE.—At least 12 of the 23 members appointed under of paragraph (1)(C) shall be Indians.

(2) TERMS.—The trustee appointed under paragraph (1)(B) shall serve at the pleasure of the Board of Regents. Except as otherwise provided in the next sentence, the terms of members appointed under paragraph (1)(C) shall be 3 years. Of the members first appointed under paragraph (1)(C)—

(A) 7 members, 4 of whom shall be Indians, shall be appointed for a term of one year, as designated at the time of appointment; and

(B) 8 members, 4 of whom shall be Indians, shall be appointed for a term of 2 years, as designated at the time of appointment.

(4) VACANCIES.—Any vacancy shall be filled only for the remainder of the term involved.

(g) QUORUM.—A majority of the members of the Board of Trustees then in office shall constitute a quorum.

(h) EXPENSES.—Members of the Board shall be entitled (to the same extent as provided in section 5703 of title 5, United States Code, with respect to employees serving intermittently in the Government service)

to per diem, travel, and transportation expenses for each day (including travel time) during which they are engaged in the performance of their duties.

SEC. 6. DIRECTOR AND STAFF OF THE NATIONAL MUSEUM.

(a) IN GENERAL.—The Secretary of the Smithsonian Institution shall appoint—

(1) A Director who, subject to the policies of the Board of Trustees, shall manage the National Museum; and

(2) other employees of the National Museum, to serve under the Director.

(b) OFFER OF EMPLOYMENT TO HEYE FOUNDATION EMPLOYEES.—Each employee of the Heye Museum on the day before the date of the transfer of the Heye Foundation assets to the Smithsonian Institution shall be offered employment with the Smithsonian Institution—

(1) under the usual terms of such employment; and

(2) at a rate of pay not less than the rate applicable to the employee on the day before the date of the transfer.

(c) APPLICABILITY OF CERTAIN CIVIL SERVICE LAWS.—The Secretary may—

(1) appoint the Director, 2 employees under subsection (a)(2), and the employees under subsection (b) without regard to the provisions of title 5, United States Code, governing appointments in the competitive service;

(2) fix the pay of the Director and such 2 employees without regard to the provision of chapter 51 and subchapter III of chapter 53 of such title, relating to classification and General Schedule pay rates; and

(3) fix the pay of the employees under subsection (b) in accordance with the provisions of chapter 51 and subchapter III of chapter 53 of such title, relating to classification and General Schedule pay rates, subject to subsection (b)(2).

SEC. 7. MUSEUM FACILITIES.

(a) NATIONAL MUSEUM MALL FACILITY.—The Board of Regents shall plan, design, and construct a facility on the area bounded by Third Street, Maryland Avenue, Independence Avenue, Fourth Street, and Jefferson Drive, Southwest, in the District of Columbia to house the portion of the National Museum to be located in the District of Columbia. The Board of Regents shall pay not more than ⅔ of the total cost of planning, designing, and constructing the facility from funds appropriated to the Board of Regents. The remainder of the costs shall be paid for non-Federal sources.

(b) NATIONAL MUSEUM HEYE CENTER FACILITY.—

(1) LEASE OF SPACE FROM GSA.—

(A) TERMS.—Notwithstanding section 210(j) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 490(j)), the Administrator of General Services may lease, at a nominal charge, to the Smithsonian Institution space in the Old United States Custom House at One Bowling Green New York, New York, to house the portion of the National Museum to be located in the city of New York. The lease shall be subject to such terms as may be mutually agreed upon by the Administrator and the Secretary of the Smithsonian Institution. The term of the lease shall not be less than 99 years.

(B) REIMBURSEMENT OF FEDERAL BUILDINGS FUND.—The Administrator of General Services may reimburse the fund established by section 210(f) of the Federal Property and Administrative Service Act of 1949 (40 U.S.C. 490(f)) for the difference between the amount charged to the Smithsonian Institution for leasing space under this paragraph and the commercial charge under section 210(j) of such Act which, but for this paragraph, would apply to the leasing of such space. There are authorized to be appropriated to the Administrator such sums as may be necessary to carry out this subparagraph for fiscal years beginning after September 30, 1990.

(2) CONSTRUCTION.—

(A) MUSEUM FACILITY.—The Board of Regents shall plan, design, and construct a significant facility for the National Museum in the space leased under paragraph (1).

(B) AUDITORIUM AND LOADING DOCK FACILITY.—The Administrator of General Services shall plan, design, and construct an auditorium and loading dock in the Old United States Customs House at One Bowling Green, New York, New York, for the shared use of all the occupants of the building, including the National Museum.

(C) SQUARE FOOTAGE.—The facilities to be constructed under this paragraph shall have, in the aggregate, a total square footage of approximately 82,500 square feet.

(3) REPAIRS AND ALTERATIONS.—After construction of the facility under paragraph (2)(A), repairs and alterations of the facility shall be the responsibility of the Board of Regents.

(4) REIMBURSEMENT OF GSA.—The Board of Regents shall reimburse the Administrator for the Smithsonian Institution's pro rata share of the cost of utilities, maintenance, cleaning, and other services incurred with respect to the space leased under paragaph (1) and the full cost of any repairs or alterations made by the General Services Administration at the request of the Smithsonian Institution with respect to the space.

(5) COST SHARING.—

(A) GENERAL RULES.—The Board of Regents shall pay 1/3 of the costs of planning, designing, and constructing the facility under paragraph (2)(A) from funds appropriated to the Board of Regents. The remainder of the costs shall be paid from non-Federal sources.

(B) RESPONSIBILITIES OF NEW YORK CITY AND STATE.—Of the costs which are required to be paid from non-Federal sources under this paragraph, the city of New York, and the State of New York have each agreed to pay $8,000,000 or an amount equal to 1/3 of the costs of planning, designing, and constructing the facility under paragraph (2)(A), whichever is less. Such payments shall be made to the Board of Regents in accordance with a payment schedule to be agreed upon by the city and State and the Board of Regents.

(C) LIMITATION ON OBLIGATIONS OF FEDERAL FUNDS.—Federal funds may not be obligated for actual construction of a facility under paragraph (2)(A) in a fiscal year until non-Federal sources have paid to the Board of Regents the non-Federal share of such costs which the Board of Regents estimates will be incurred in such year.

(6) DESIGNATION.—The facility to be constructed under paragraph (2)(A) shall be known and designated as the "George Gustav Heye Center of the National Museum of the American Indian".

(c) MUSEUM SUPPORT CENTER FACILITY.—The Board of Regents shall plan, design, and construct a facility for the conservation and storage of the collections of the National Museum at the Museum Support Center of the Smithsonian Institution.

(d) MINIMUM SQUARE FOOTAGE.—The facilities to be constructed under this section shall have, in the aggregate, a total square footage of at least 400,000 square feet.

(e) AUTHORITY TO CONTRACT WITH GSA.—The Board of Regents and the Administrator of General Services may enter into such agreements as may be necessary for planning, designing, and constructing facilities under this section (other than subsection (b)(2)(B)). Under such agreements, the Board of Regents shall transfer to the Administrator, from funds available for planning, designing, and constructing such facilities, such amounts as may be necessary for expenses of the General Services Administration with respect to planning, designing, and constructing such facilities.

(f) LIMITATION ON OBLIGATION OF FEDERAL FUNDS.—Notwithstanding any other provision of this Act, funds appropriated for carrying out this section may not be obligated for actual construction of any facility under this section until the 60th day after the date on which the Board of Regents transmits to Congress a written analysis of the total estimated cost of the construction and a cost-sharing plan projecting the amount for Federal appropriations and for non-Federal contributions for the construction on a fiscal year basis.

SEC. 8. CUSTOM HOUSE OFFICE SPACE AND AUDITORIUM.

(a) REPAIRS AND ALTERATIONS.—The Administrator of General Services shall make such repairs and alterations as may be necessary in the portion of the Old United States Custom House at One Bowling Green, New York, New York, which is not leased to the Board of Regents under section 7(b) and which, as of the date of the enactment of this Act, has not been altered.

(b) AUTHORIZATION OF APPROPRIATION.—There is authorized to be appropriated to the Administrator of General Services $25,000,000 from the fund established pursuant to section 210(f) of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 490(f)) to carry out this section and section 7(b)(2)(B).

SEC. 9. AUDUBON TERRACE.

(a) IN GENERAL.—The Board of Regents shall—

(1) assure that, on the date on which a qualified successor to the Heye Foundation at Audubon Terrace first takes possession of Audubon Terrace, an area of at least 2,000 square feet at that facility is accessible to the public and physically suitable for exhibition of museum objects and for related exhibition activities;

(2) upon written agreement between the Board and any qualified successor, lend objects from the collections of the Smithsonian Institution to the successor for exhibition at Audubon Terrace; and

(3) upon written agreement between the Board and any qualified successor, provide training, scholarship, technical, and other assistance (other than operating funds) with respect to the area referred to in paragraph (1) for the purposes described in that paragraph.

(b) DETERMINATION OF CHARGES.—Any charge by the Board of Regents for activities pursuant to agreements under paragraph (2) or (3) of subsection (a) shall be determined according to the ability of the successor to pay.

(c) DEFINITION.—As used in this section, the terms "qualified successor to the Heye Foundation at Audubon Terrace", "qualified successor", and, "successor" mean an organization described in section 501(c)(3) of the Internal Revenue Code of 1986, and exempt from tax under section 501(a) of

such Code, that, as determined by the Board of Regents—

(1) is a successor occupant to the Heye Foundation at Audubon Terrace, 3753 Broadway, New York, New York;

(2) is qualified to operate the area referred to in paragraph (1) for the purposes described in that paragraph; and

(3) is committed to making a good faith effort to respond to community cultural interests in such operation.

SEC. 10. BOARD OF REGENTS FUNCTIONS WITH RESPECT TO CERTAIN AGREEMENTS AND PROGRAMS.

(a) PRIORITY TO BE GIVEN TO INDIAN ORGANIZATIONS WITH RESPECT TO CERTAIN AGREEMENTS.—In entering into agreements with museums and other educational and cultural organizations to—

(1) lend Native American artifacts and objects from any collection of the Smithsonian Institution;

(2) sponsor or coordinate traveling exhibitions of artifacts and objects; or

(3) provide training or technical assistance;

the Board of Regents shall give priority to agreements with Indian organizations, including Indian tribes, museums, libraries, and archives. Such agreements may provide that loans or services to such organizations may be furnished by the Smithsonian Institution at minimal or no cost.

(b) INDIAN PROGRAMS.—The Board of Regents may establish—

(1) programs to serve Indian tribes and communities; and

(2) in cooperation with educational institutions, including tribally controlled community colleges (as defined in section 2 of the Tribally Controlled Community College Assistance Act of 1978), programs to enhance the opportunities for Indians in the areas of museum studies, management, and research.

(c) INDIAN MUSEUM MANAGEMENT FELLOWSHIP.—The Board of Regents shall establish an Indian Museum Management Fellowship program to provide stipend support to Indians for training in museum development and management.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated $2,000,000 for each fiscal year, beginning with fiscal year 1991, to carry out subsections (b) and (c).

SEC. 11. INVENTORY, IDENTIFICATION, AND RETURN OF INDIAN HUMAN REMAINS AND INDIAN FUNERARY OBJECTS IN THE POSSESSION OF THE SMITHSONIAN INSTITUTION.

(a) INVENTORY AND IDENTIFICATION.—The Secretary of the Smithsonian Institution, in consultation and cooperation with traditional Indian religious leaders and government officials of Indian tribes, shall—

(1) inventory the Indian human remains and Indian funerary objects in the possession or control of the Smithsonian Institution; and

(2) using the best available scientific and historical documentation, identify the origins of such remains and objects.

(b) NOTICE IN CASE OF IDENTIFICATION OF TRIBAL ORIGIN.—If the tribal origin of any Indian human remains or Indian funerary object is identified shall so notify any affected Indian tribe at the earliest opportunity.

(c) RETURN OF INDIAN HUMAN REMAINS AND ASSOCIATED INDIAN FUNERARY OBJECTS.—If any Indian human remains are identified by a preponderance of the evidence as those of a particular individual or as those of an individual culturally affiliated with a particular Indian tribe, the Secretary, upon the request of the descendants of such individual or of the Indian tribe shall expeditiously return such remains (together with any associated funerary objects) to the descendants of tribe, as the case may be.

(d) RETURN OF INDIAN FUNERARY OBJECTS NOT ASSOCIATED WITH INDIAN HUMAN REMAINS.—If any Indian funerary object not associated with Indian human remains is identified by a preponderance of the evidence as having been removed from a specific burial site of an individual culturally affiliated with a particular Indian tribe, the Secretary, upon the request of the Indian tribe, shall expeditiously return such object to the tribe.

(e) INTERPRETATION.—Nothing in this section shall be interpreted as—

(1) limiting the authority of the Smithsonian Institution to return or repatriate Indian human remains or Indian funerary objects to Indian tribe or individuals; or

(2) delaying actions on pending repatriation requests, denying or otherwise affecting access to the courts, or limiting any procedural or substantive rights which may otherwise be secured to Indian tribes or individuals.

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated $1,000,000 for fiscal year 1991 and such sums as may be necessary for succeeding fiscal years to carry out this section.

SEC. 12. SPECIAL COMMITTEE TO REVIEW THE INVENTORY, IDENTIFICATION, AND RETURN OF INDIAN HUMAN REMAINS AND INDIAN FUNERARY OBJECTS.

(A) ESTABLISHMENT; DUTIES.—Not later than 120 days after the date of the enactment of this Act, the Secretary of the Smithsonian Institution shall appoint a special committee to monitor and review the inventory, identification, and return of Indian human remains and Indian funerary objects under section 11. In carrying out its duties, the committee shall—

(1) with respect to the inventory and identification, ensure fair and objective consideration and assessment of all relevant evidence;

(2) upon the request of any affected party or otherwise, review any finding relating to the origin or the return of such remains or objects;

(3) facilitate the resolution of any dispute that may arise between Indian tribes with respect to the return of such remains or objects; and

(4) perform such other related functions as the Secretary may assign.

(b) MEMBERSHIP.—The committee shall consist of five members, of whom—

(1) three members shall be appointed from among nominations submitted by Indian tribes and organizations; and

(2) the Secretary shall designate one member as chairman.

The Secretary may not appoint to the committee any individual who is an officer or employee of the Government (including the Smithsonian Institution) or any individual who is otherwise affiliated with the Smithsonian Institution.

(c) ACCESS.—The Secretary shall ensure that the members of the committee have full and free access to the Indian human remains and Indian funerary objects subject to section 11 and to any related evidence, including scientific and historical documents.

(d) PAY AND EXPENSES OF MEMBERS.—Members of the committee shall—

(1) be paid the daily equivalent of the annual rate of basic pay payable for grade GS-18 of the General Schedule under section 5332 of title 5, United States Code; and

(2) be entitled (to the same extent as provided in section 5703 of such title, with respect to employees serving intermittently in the Government service) to per diem, travel, and transportation expenses;

for each day (including travel time) during which they are engaged in the performance of their duties.

(e) RULES AND ADMINISTRATIVE SUPPORT.—The Secretary shall prescribe regulations and provide administrative support for the committee.

(f) REPORT AND TERMINATION.—At the conclusion of the work of the committee, the Secretary shall so certify by report to the Congress. The committee shall cease to exist 120 days after the submission of the report.

(g) NONAPPLICABILITY OF THE FEDERAL ADVISORY COMMITTEE ACT.—The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the committee.

(h) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated $250,000 for fiscal year 1991 and such sums as may be necessary for succeeding fiscal years to carry out this section.

SEC. 13. INVENTORY, IDENTIFICATION, AND RETURN OF NATIVE HAWAIIAN HUMAN REMAINS AND NATIVE HAWAIIAN FUNERARY OBJECTS IN THE POSSESSION OF THE SMITHSONIAN INSTITUTION.

(a) IN GENERAL.—The Secretary of the Smithsonian Institution shall—

(1) in conjunction with the inventory and identification under section 11, inventory and identify the Native Hawaiian human remains and Native Hawaiian funerary objects in the possession of the Smithsonian Institution;

(2) enter into an agreement with appropriate Native Hawaiian organizations with expertise in Native Hawaiian affairs (which may include the Office of Hawaiian Affairs and the Malama I Na Kupuna O Hawai'i Nei) to provide for the return of such human remains and funerary objects; and

(3) to the greatest extent practicable, apply, with respect to such human remains and funerary objects, the principles and procedures set forth in sections 11 and 12 with respect to the Indian human remains and Indian funerary objects in the possession of the Smithsonian Institution.

(b) DEFINITIONS.—As used in this section—

(1) the term "Malama I Na Kupuna O Hawai'i Nei" means the nonprofit, Native Hawaiian organization, incorporated under the laws of the State of Hawaii by that name on April 17, 1989, the purpose of which is to provide guidance and expertise in decisions dealing with Native Hawaiian cultural issues, particularly burial issues; and

(2) the term "Office of Hawaiian Affairs" means the Office of Hawaiian Affairs established by the Constitution of the State of Hawaii.

SEC. 14. GRANTS BY THE SECRETARY OF THE INTERIOR TO ASSIST INDIAN TRIBES WITH RESPECT TO AGREEMENTS FOR THE RETURN OF INDIAN HUMAN REMAINS AND INDIAN FUNERARY OBJECTS.

(a) IN GENERAL.—The Secretary of the Interior may make grants to Indian tribes to assist such tribes in reaching and carrying out agreements with—

(1) the Board of Regents for the return of Indian human remains and Indian funerary objects under section 11; and

(2) other Federal and non-Federal entities for additional returns of Indian human remains and Indian funerary objects.

(b) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated $1,000,000 for fiscal year 1991 and such sums as may be necessary for succeeding fiscal years for grants under subsection (a).

SEC. 15. GRANTS BY THE SECRETARY OF THE INTERIOR TO ASSIST INDIAN ORGANIZATIONS WITH RESPECT TO RENOVATION AND REPAIR OF MUSEUM FACILITIES AND EXHIBIT FACILITIES.

(a) GRANTS.—The Secretary of the Interior may make grants to Indian organizations, including Indian tribes, museums, cultural centers, educational institutions, libraries, and archives, for renovation and repair of museum facilities and exhibit facilities to enable such organizations to exhibit objects and artifacts on loan from the collection of the Smithsonian Institution or from other sources. Such grants may be made only from the Tribal Museum Endowment Fund.

(b) INDIAN ORGANIZATION CONTRIBUTION.—In making grants under subsection (a), the Secretary may require the organization receiving the grant to contribute, in cash or in kind, not more than 50 percent of the cost of the renovation or repair involved. Such contribution may be derived from any source other than the Tribal Museum Endowment Fund.

(c) TRIBAL MUSEUM ENDOWMENT FUND.—

(1) ESTABLISHMENT.—There is established in the Treasury a fund, to be known as the "Tribal Museum Endowment Fund" (hereinafter in this subsection referred to as the "Fund") for the purpose of making grants under subsection (a). The Fund shall consist of (A) amounts deposited and credited under paragraph (2), (B) obligations obtained under paragraph (3), and (C) amounts appropriated pursuant to authorization under paragraph (5).

(2) DEPOSITS AND CREDITS.—The Secretary of the Interior is authorized to accept contributions to the Fund from non-Federal sources and shall deposit such contributions in the Fund. The Secretary of the Treasury shall credit to the Fund the interest on, and the proceeds from sale and redemption of, obligations held in the Fund.

(3) INVESTMENTS.—The Secretary of the Treasury may invest any portion of the Fund in interest-bearing obligations of the United States. Such obligations may be acquired on original issue or in the open market and may be held to maturity or sold in the open market. In making investments for the Fund, the Secretary of the Treasury shall consult the Secretary of the Interior with respect to maturities, purchases, and sales, taking into consideration the balance necessary to meet current grant requirements.

(4) EXPENDITURES AND CAPITAL PRESERVATION.—Subject to appropriation, amounts derived from interest shall be available for expenditure from the Fund. The capital of the Fund shall not be available for expenditure.

(5) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Fund $2,000,000 for each fiscal year beginning with fiscal year 1992.

(d) ANNUAL REPORT.—Not later than January 31 of each year, the Secretary of the Interior, in consultation with the Secretary of the Treasury, shall submit to the Congress a report of activities under this section, including a statement of—

(1) the financial condition of the Fund as of the end of the preceding fiscal year, with an analysis of the Fund transactions during that fiscal year; and

(2) the projected financial condition of the Fund, with an analysis of expected Fund transactions for the six fiscal years after that fiscal year.

SEC. 16. DEFINITIONS.

As used in this Act—

(1) the term "Board of Regents" means the Board of Regents of the Smithsonian Institution;

(2) the term "Board of Trustees" means the Board of Trustees of the National Museum of the American Indian;

(3) the term "burial site" means a natural or prepared physical location, whether below, on, or above the surface of the earth, into which, as a part of a death rite or ceremony of a culture, individual human remains are deposited;

(4) the term "funerary object" means an object that, as part of a death rite or ceremony of a culture, is intentionally placed with individual human remains, either at the time of burial or later;

(5) the term "Heye Foundation assets" means the collections, endowment, and all other property of the Heye Foundation (other than the interest of the Heye Foudnation in Audubon Terrace) described in the Memorandum of Understanding between the Smithsonian Institution and the Heye Foundation, dated May 8, 1989, and the schedules attached to such memorandum;

(6) the term "Heye Museum" means the Museum of the American Indian, Heye Foundation;

(7) the term "Indian" means a member of an Indian tribe;

(8) the term "Indian tribe" has the meaning given that term in section 4 of the Indian Self-Determination and Education Assistance Act;

(9) the term "National Museum" means the National Museum of the American Indian established by section 3;

(10) the term "Native American" means an individual of a tribe, people, or culture that is indigenous to the Americas and such term includes a Native Hawaiian; and

(11) the term "Native Hawaiian" means a member or descendant of the aboriginal people who, before 1778, occupied and exercised sovereignty in the area that now comprises the State of Hawaii.

SEC. 17. AUTHORIZATION OF APPROPRIATIONS.

(a) FUNDING.—There is authorized to be appropriated to the Board of Regents to carry out this Act (other than as provided in sections 7(b)(1)(B), 8, 10, 11, 12, 14, and 15(c)(5))—

(1) $10,000,000 for fiscal year 1990; and

(2) such sums as may be necessary for each succeeding fiscal year.

(b) PERIOD OF AVAILABILITY.—Funds appropriated under subsection (a) shall remain available without fiscal year limitation for any period prior to the availability of the facilities to be constructed under section 7 for administrative and planning expenses and for the care and custody of the collections of the National Museum.

Amend the title so as to read: "An Act to establish the National Museum of the American Indian within the Smithsonian Institution, and for other purposes.".

Mr. INOUYE. Mr. President, as chairman of the Select Committee on Indian Affairs, I am most gratified and pleased to rise today to request the Senate's final consideration of S. 978, a bill to establish the National Museum of the American Indian within the Smithsonian Institution.

Mr. President, as you know, this legislation was conceived 2 years and 7 months ago, when the Secretary of the Smithsonian Institution, and Honorable Robert McCormick Adams, and I visited the Museum of the American Indian, Heye Foundation, and met with the chairwoman of the Heye board of trustees, Mrs. Wilmot H. Kidd III, in New York. Since that time, many people have been involved in the formulation, negotiation, and finally the realization of the long sought-after objective.

I have been inspired by the commitment of many, including officials of the State and city of New York, the Board of Regents of the Smithsonian Institution, the board of trustees of the Museum of the American Indian, Heye Foundation, and most recently, my colleagues in the House of Representatives, for their expeditious action on this historic measure.

When history records this event, the names of illustrious Members of the Congress will undoubtedly be honored, in the manner that history customarily treats events of this kind. All of us know that a measure of this magnitude entails the concerted effort of many people, some of whom are major contributors and some who are no less important. And so while we are engaged in making a record of the moment, I am going to take the dangerous step of singling out a few people who deserve to be recognized, a group that does not include any Member of the Congress.

First and foremost are the sometimes forgotten people—the Indian people. Without them, we would not be celebrating this great event. It is their extraordinary talent and magnificent works that we will honor—their art, their music, their culture, their religion, their scholarly works, their beauty, and their sensitivity will be forever memorialized in this great museum. The names of Indian artists known only to the creator will be commemorated in this memorial to American Indians.

Second, I want to recognize those who collected and guarded this collection so carefully over the years, and preserved it so well, that it will be capable of being enjoyed and appreciated by generations to come. Mrs. Julie Kidd, and her foundation, and Christian A. Johnson Endeavor Foundation, with no fanfare and at times even abuse, kept the collection alive for many years. The sometimes maligned curator of the Museum of the American Indian, Heye Foundation, Dr. Roland Force, whose care and concern for the Heye collection was both personal and professional.

Ms. Suzan Shown Harjo, in her dual role as executive director of the National Congress of American Indians and as a member of the board of trustees of the Museum of the American Indian, Heye Foundation, played a key and vital role in working with Smithsonian Secretary Adams to effect a resolution to the sensitive and significant matter of the repatriation of the human remains of native Americans that are currently in the possession of the Smithsonian Institution. Mr. Walter Echo-Hawk of the native American rights fund is also to be commended for the role he played in resolving the repatriation issue with the Smithsonian.

The lovely and persuasive representative of New York City Mayor Koch, Mrs. Diane Mulcahy Coffey, whose perseverance and whose vision that this museum could become a reality, and that any obstacle could be surmounted in achieving this goal was inspiring.

The capable and effective representative of the people of New York, whose great skills in negotiating a resolution to the legal issues, Mrs. Pamela Mann, should be commended, as should the attorney general of the State of New York, Mr. Robert Abrams, whose political leadership enabled a breakthrough at a time of impasse in negotiations.

Mr. David Rockefeller, who in his gentle way kept prodding everyone forward toward an objective that he believed could be accomplished, by opening his offices and lending his gracious statesmanship to the enterprise, has my highest respect. As does his capable and caring assistant, Mr. Peter Johnson, who facilitated so many important meetings in New York.

Mr. Edward Costikyan, the attorney representing the board of trustees of the Museum of the American Indian, Heye Foundation, for his tenacity and his spirit in forging an agreement between the two great museums should receive well-deserved recognition.

Seldom do lobbyists get praised, but there is one whose indefatigable efforts helped resolve the insoluable, and who was one of the best sources of information that the parties in interest relied upon throughout the long days of negotiation, Mr. Dale Snape of the Wexler, Reynolds, Fuller, Harrison and Schule firm of Washington.

Ms. Margaret Gaynor, whose efforts on behalf of the Smithsonian Institution were tireless and inspiring, has my deepest gratitude. And of course, I want to recognize Smithsonian Secretary Robert McCormick Adams, whose leadership and vision throughout the process enabled us to reach this point.

Then there are the staff, who are often times ignored by history, but whom we all know are integral to the process—the staff of Senator MOYNIHAN, the Senate Committee on Rules and Administration, the Select Committee on Indian Affairs, the House Interior and Insular Affairs Committee, the House Committee on Public Works and Transportation, and the House Committee on Administration.

As always happens, there are a few who spend more than the required time and who go far beyond what the task demands because they are dedicated and committed to the cause—Ms. Nan Stockholm of Senator MOYNIHAN's staff, Ms. Pablita Abeyta and Mr. Frank Ducheneaux of House Interior Committee Chairman Mo UDALL's staff, Mr. Peter Rutledge of House Administration Subcommittee on Libraries and Memorials Chairman CLAY's staff, Mr. John Cullifer of the House Public Works staff, and Dr. Patricia Zell, chief counsel of the Senate Select Committee on Indian Affairs.

Hundreds could be recognized, but I think these people that I have referred to should be singled out, because without them, we would not be here today.

I am certain that if the great Indian leaders of the past could express their feelings today, they would convey their gratitude to all of the Members of the Congress for recognizing the magnificence of their culture and the significant contributions the native people of this country have made to our Nation.

This is a proud day for all Americans.

Mr. MOYNIHAN. Mr. President, I would like to add my support for the National Museum of the American Indian Act. This bill represents years of negotiation about the future of the majestic Heye collection, which contains 1 million American Indian artifacts. Never in our history has there been a gift so grand to the Smithsonian. It is the greatest ethnological collection in the world. And as such, is priceless in its significance. If it were possible to assign a monetary value, it would certainly be in the billions.

George Gustav Heye, the son of a German immigrant, made his fortune in Standard Oil, and began over a half-century of collecting in 1897. Heye employed scores of anthropologists to collect artifacts from all over the Western Hemisphere. He continued with this passion until his death in 1957. The collection has remained since 1918 at Audubon Terrace, located in the Washington Heights section of Manhattan. It is also true that for almost as long we have recognized the site as being inadequate for this magnificent collection. And after a generation of efforts, New York City failed to find the means to establish a new and appropriate site for it. We now look to the Federal Government to do justice to Heye's genius.

The 1 million artifacts in the collection represent more than just the heritage of American Indians in the United States. It includes artifacts whose origin extends from Point Barrow to Tierra Del Fuego: the entire Western Hemisphere. While more than two-thirds of the collection has its origins in the continental United States, 11 percent is from Central America, 11 percent is from South America, 8 percent is from the Caribbean Islands, and 3 percent from Canada and the Arctic. This is a collection of all the Americas.

This bill establishes a National Museum of the American Indian on the Mall in Washington to display the largest part of the Heye collection. A significant part will remain in New York just as its founder George Gustav Heye desired. The U.S. Custom House, a splendid Beaux-Arts building located at One Bowling Green in Manhattan, will be home to the Heye collection of New York. A fitting one, might I add.

This bill also recognizes the unique relationship of Audubon Terrace to the Museum of the American Indian. In 1918, with the vision of establishing a cultural center, philanthropist Archer Huntington offered Mr. Heye space at Audubon Terrace for his treasure. While the collecton is now leaving Audubon Terrace, the Museum of the American Indian Act requires the Smithsonian to loan exhibits and provide technical assistance to the successor of the Heye Foundation at Audubon Terrace. Thus, the legacy of the collection at Audubon Terrace will be preserved.

The establishment of a National Museum of the American Indian is long overdue. We may all anticipate the day that George Gustav Heye's gift to the world will be displayed in a manner reflective of the great and living culture of the American Indian.

Mr. INOUYE. Mr. President, I move that the Senate concur in the House amendments.

The PRESIDING OFFICER. The question is on agreeing to the motion.

The motion was agreed to.

Mr. INOUYE. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. BRADLEY. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BRADLEY. Mr. President, before I make comments on the pending matter, let me simply thank the distinguished Senator from Hawaii for being persistent in achieving this goal which is enormously important to all Native Americans. As an original cosponsor, I think 15, or 20 years from now when people come to Washington and go to that museum, I hope there will be a plaque there with the Senator's name on it.

TEMPORARY REDUCTION IN CAPITAL GAINS TAX FOR NONCORPORATE TAXPAYERS

The Senate continued with the consideration of the bill.

Mr. BRADLEY. Mr. President, the pending matter before us is, of course, the infamous or famous capital gains IRA, back-end loading provision.

I find it helpful, from time to time, when we begin debate about taxes, a debate that is full of a lot of important issues, to focus on who we are really talking about; who the taxpayers are, how much income they have.

I propose, today, to try to provide the Senate with a profile of who the taxpayers are and some of the facts that relate to the taxpayers that are directly affected by the pending measure; to deal with a few economic arguments and political arguments, and then lastly with the current proposal as it is now drawn.

Mr. President, we sometimes forget who the taxpayers of this country are, how much income they make. So let me remind everyone that 30 percent of all the taxpayers in this country have adjusted gross incomes below $10,000.

Mr. President, 81 percent of all taxpayers in this country have adjusted gross incomes below $40,000; and 96 percent of all taxpayers in this country have adjusted gross incomes below $75,000.

Mr. President, we sometimes make the assumption that this income levels of Americans is higher than it is. And the debate on this floor sometimes makes those assumptions to the extreme. So let us remember who those taxpayers are.

For purposes later in this argument, less than 2 percent of all taxpayers make more than $100,000 a year.

Mr. President, we are not dealing only with numbers, and I will try to limit the amount of numbers I refer to, but sometimes we have to deal with numbers to make our points. So who are some of these people?

Not so long ago I was up in New Jersey, outside a Pathmark supermarket, shaking hands, campaigning for various politicians. An elderly woman came up to me and said, "Senator BRADLEY, could I talk to you a moment?"

I said, "Sure." She said, "You know, I am really worried. I have a fixed income. I make less then $10,000 a year. My utility bills are going up. This town is developing. Rents are going up; food prices are going up. How am I going to make it, Senator? Can you help me?"

Mr. President, that 30 percent of the taxpayers in this country who earn under $10,000 a year are not too dissimilar from the lady who stopped me outside the supermarket, saying, "How am I going to make it, Senator?"

Then, what about those people who are in the so-called middle-income categories, making $30,000, $35,000 a year? In many cases, those are families where both parents work; who do not have much leisure time activity; who do not get new clothes very often; who come home from work and maybe watch television. They usually only have one television.

Mr. President, those families are the backbone of this country.

And what about the 8 percent of the taxpayers who earn between $50,000 and $75,000 in this country? They are often young couples, professionals just beginning their careers. Both of them have jobs. They each bring home $25,000, $30,000, maybe $35,000. But the main point to be made once again is that 96 percent of the taxpayers in this country earn under $75,000 a year.

So, Mr. President, if that is the profile of the American taxpayers, let us think about the debate a little bit. This is a debate to cut the capital gains rate.

Who does this effect, really? Who, among the 107 million taxpayers, does this debate really effect? Taking 1987 data, there were 107 million tax returns. Of those 107 million tax returns, about 14 percent reported capital gains.

So, Mr. President, 85 percent of the tax returns did not report and capital gains; 85 million to 90 million taxpayers are not affected by this debate. It affects the 15 million taxpayers who, on an average basis, report a capital gain.

Mr. President, what was the value of all capital gains taken in 1987, the most recent year for which data is available? The value of all capital gains reported was about $133 billion.

Out of the $133 billion in capital gains, who reported them? Who got those capital gains? Well, Mr. President, about 6 percent of all capital gains went to people earning under $20,000 a year. They usually got $50, $80. That is about the size of their capital gain. And 6 percent of all capital gains went to them.

Ten percent of all capital gains went to those people earning between $20,000 and $50,000 a year; that hard-working two-earner couple.

About 15 percent of all capital gains went to people earning between $50,000 and $100,000 a year.

What about taxpayers with adjusted gross income over $100,000 a year, Mr. President? Remember, that represents less than 2 percent of all taxpayers. People who earn over the $100,000 a year took 68 percent of all the capital gains; only 2 percent of the taxpayers took 68 percent of all the capital gains.

So, Mr. President, let me make the point once more. When we talk about these issues and we are trying to identify the 14 percent of the taxpayers who actually reported capital gains, not to deal with the income levels that reported capital gains because we do not want to play polarization politics puts us into another category, which is a conspiracy of silence.

What, are we not going to talk about who reported capital gains? Mr. President, we simply have to get the facts out on the table so we can discuss them and decide what is the best way to go.

So, in sum, only about 14 percent of all taxpayers actually reported capital gains. And 68 percent of the value of all the capital gains went to 2 percent of the taxpayers, who made more than $100,000 a year.

I have heard the argument made on the other side by the proponents of this position that these numbers do not really reflect reality. They do not really reflect reality.

The usual point made by the opponents is what I call the smalltown hardware store argument, which is: The smalltown hardware store has been in the family all their life. They finally sell it. It is the only asset they have. That year they sell it, their income goes up and they have to pay tax on that capital gain.

I mean, that is a very touching story for the hardware store, the drug store, all the smalltown merchants who might have a once in a lifetime capital gain.

Is that the reality we are dealing with in this amendment, Mr. President? I do not really think so. But let us check some of the data. And one of the clues is, well, I mean, if you are that smalltown hardware store owner and you are selling your store, you are probably going to take the capital gain, and you only have one capital gain on your return. You do not have a lot of trades in stock or a lot of trades in land or a lot of trades in collectibles, or in a lot of others things. If you sell that one little hardware store, you will have only one capital gain on your return.

But, Mr. President, according to the Treasury Department, taxpayers who realized only one capital gain, represent less than 18 percent of all gains. Less than 18 percent.

So it is possible that only a relatively small number of Americans, out of 107 million taxpayers, fit into that category.

Mr. President, another argument made by the proponents of this capital gains cut is: Oh, but you do not understand. When you take that capital gain, that pushes your income above the $100,000 level, or above the $200,000 level, and if you did not have that capital gain, you probably would be back with that little lady outside the supermarket who asked me, "How am I going to make it through the week?"

Mr. President, let us take a look at the data. Again, the statistics are

there. What about those individuals who had noncapital gains income over $100,000: salary, interest, dividends, whatever. What percent of the capital gains did those people report?

Well, Mr. President, they took 58 percent of all capital gains.

(Mr. LIEBERMAN assumed the chair.)

Mr. BRADLEY. Mr. President, 58 percent of all capital gains, taken by individuals who had had noncapital gains income over $100,000. Mr. President, it is true, that is down from 68 percent. Remember, 68 percent of all capital gains go to people with adjusted gross income over $100,000. If you say noncapital gains income of $100,000 that figure drops to 58 percent, but the indisputable fact is there, Mr. President, and that is that fully 58 percent of all capital gains go to individuals with noncapital gains income of over $100,000.

So that we might just shed a little more light on these numbers and on this whole subject, the proponents of this measure like to say that 70 percent of all tax returns that report capital gains, earn under $50,000. I am not disputing that number. Let us assume it is right. How big a capital gain do these people report and how does that compare to the capital gains reported by people in higher income levels? The average capital gain realized by the lowest income families who report capital gains is about of $60, $70. Those hard-working families in the $35,000 category report an average capital gain of about $300. The top 1 percent of the population, Mr. President, people earning over $125,000 or $150,000, their average capital gain is over $100,000. So there's a big difference between middle-income families and people at the highest income levels.

Mr. President, a very interesting statistic, somewhat irrelevant and inflammatory perhaps, but it is important to get everything on the record. In 1985, the richest 100 taxpayers got an average tax benefit from the capital gains preference that was in the law then of $13 million each. Let us try to keep clear the profile of the population that this amendment addresses. First, in summary, it does not affect a lot of people. On average, about 14 percent of all taxpayers report capital gains. For some of them, this is a one-time event, but the bulk of them realize capital gain every year. So this amendment affects a relatively small number of people. It primarily benefits, with all due respect to the proponents of the measure, people who are not doing badly; people who are in fact pretty well off. That number, once more: people with noncapital gains income over $100,000, get 58 percent of all capital gains.

Again, what about the low-income individual who gets that $50 capital gain, $70 capital gain? You can maybe take your wife to dinner on that. Maybe you cannot in some restaurants. But how does that compare to some other things that benefit that low-income taxpayer? We increased the earned income tax credit in the 1986 tax reform bill. The increase in the earned income tax credit, to a family of three with a single parent is worth about $1,300 a year. So let us not confuse the issue by characterizing the capital gains cut as a boon for people who are not making a whole lot of money.

There is no mystery to this. These are just facts. I do not want to inflame this at all, but we want to have the facts out here. There is no mystery as to why this is so. There is no mystery why people in the upper income levels benefit the most from a capital gains preference. The top 10 percent of the population owns 90 percent of the stock and 80 percent of the bonds. It is almost axiomatic. It flows from that ownership pattern. A provision that would benefit those individuals would naturally benefit them disproportionately to the population that holds few if any, of these assets.

Mr. President, now that we have a clear picture of who the taxpayers are and who benefits from capital gains, let us move on to the 1986 Reform Act which the distinguished Senator from Oregon was absolutely staunch in support of and the leader in the Senate who made it happen. We knew that sooner or later we were going to have to deal with capital gains when we considered tax reform. The Senator from Oregon and I sat through, I do not know how many, 25, 30, 38 hearings. I only made 37, and the people would come in and he would ask them the same question, which is, What about capital gains? They largely fell into two categories. One category said, "Well, Mr. Chairman, if you can get the overall rate low enough, then maybe we do not need capital gains."

The distinguished Senator from Oregon would say or, if he was not there, I would say, how low does the rate have to go before you are willing to give up capital gains? They said, "Well, 25, 26, 27, 28 percent. Twenty-eight percent was where capital gains was in 1981. If you get the overall rate on wages, interest, and dividends down to 28 percent, we will give up the exclusion." That group I call the pragmatists.

Then we had another group that came before the committee. They said, "We do not care if the rate goes to 10 percent, 8 percent, 6 percent. We still need a differential." Mr. President, those are the individuals who I call the ideologs. As with anything when you move through a legislative process, you cannot always win with the pragmatists. You sometimes have to deal with the ideologs. They sometimes are decisive, particularly in committee situations and conference situations.

So, Mr. President, we dealt with the ideologs in the 1986 Tax Act. I would like to quote from the report: "The prior statutory structure for capital gains is retained in the code to facilitate reinstatement of a long-term capital gains rate differential if there is a future tax rate increase." There it is; right there in the act. That was to reassure those ideologs that if that rate went up from 28 percent to 35, 38 percent, they would automatically have their capital gains differential. It was reassuring to them, Mr. President. It was also laying a marker. It was saying very clearly, let us not touch this legislation. Let us let it go for a couple of years. Let us see how the economy responds. Do not come back in and try to stick something back in or raise the rates. Let us let it sit for a while. But if somebody comes in with an amendment and if we are going to raise the rate to 35, 40 percent, you automatically have your capital gains rate differential.

Mr. President, the flip side of that argument is equally plausible and that is, who is going to throw the first stone at the glass house? If the capital gains proponents throw the first stone at the glass house and shatter the fragile agreement that holds things together, you know what is going to happen: If rates go up, the differential comes back; if the differential comes back, the rates go up.

It is just that simple. And I do not believe anyone wants to make the argument for higher rates of tax.

So, Mr. President, that was what the distinguished Senator from Oregon wrought in 1986. I happen to think it was a good deal. And that is why I certainly hope the Senate would not throw the rock at the fragile house that will produce higher tax rates and, parenthetically, increase the deficit.

So, Mr. President, we have covered the profile of who the taxpayers are and who benefits from capital gains, and we have had a little rerun of the 1986 act. And now if I could just touch on a few of the economic arguments that have been made and that will inevitably be made whenever we debate capital gains.

Mr. SYMMS. Will the Senator yield for a question?

Mr. BRADLEY. I prefer to finish, and I will be pleased to answer any questions.

Now the question is, What is the economic rationale for this legislation? Why do we want to change the existing law?

Well, somebody says, "Because we need more investment and more economic growth, that's why we are going to change the 1986 act."

I see the Senator from Idaho nodding, a strong proponent of investment and growth, right? We want more investment and growth.

Mr. SYMMS. Amen.

Mr. BRADLEY. Mr. President, the 1986 act might be working better than the Senator from Idaho knows. Business investment is up 6 percent since 1986. In the previous 5 years, 1981 to 1986, it only rose 2 percent a year. It is up 6 percent annually since 1986. Investment in industrial equipment, that dropped in the previous 5 years by 8 percent, is now up 19 percent.

So, Mr. President, the Reform Act is actually working. It is producing more investment. It is producing more growth. We should not tinker around with it.

Another reason is when you have reformed the code, you have increased the efficiency of the economy. Increasing the efficiency of the economy is a very central component to improving productivity. Productivity improvement is central to America's long-term ability to compete.

So I say let us not go back to wasteful, inefficient tax shelters, the core element of which is capital gains. Let us keep tax rates low and let us allow the overall efficiency of the economy to improve our productivity and make us more competitive.

Other people are going to say, "Well, we have got to put back in capital gains to boost savings and economic growth. And what about venture capital?"

Mr. President, the pool of venture capital has never been bigger. In the first year of tax reform, there was more venture capital than ever. That was after we eliminated capital gains. The venture capital pool in this country is now $30 billion. Ten years ago it was $3 billion.

So this economy is not hurting for venture capital.

The Senator might say, "Well, but let us push ahead. I am an ideologue and I believe. I believe, that if we put back in a capital gains differential, there will be even more venture capital." You might believe that, but a lot of players in the venture capital market—pensions, universities, foreigners—are not going to be affected by the capital gains differential because they are not subject to taxes.

Mr. President, I hope that we will look long and hard at some of the arguments that have been made on the economic rationale for this.

The cost of capital argument which we have heard made today and which will be made again and again and again as this issue is revisited, the cost of capital is a very small part of overall productivity, point No. 1. And of cost of capital, taxes are only a small part.

Inflation rates are enormously important. If we put back in some giant tax subsidy to drain taxpayers' dollars into the pockets of a relatively few people and fuel inflation in the process our cost of capital has not been improved.

Exchange rates—the dollar moves one way or another. In an hour it can wipe out the value of anything you have put in the Tax Code. Interest rates. They go up. They wipe out the value of any subsidy you put back in the Tax Code.

Mr. President, I hope that we would at least hold back on this amendment until we have had a chance to allow the 1986 act to produce more evidence on which to base our judgment. Under certain circumstances, a capital gains differential might be important but not now. This is the wrong time.

This kind of leads to the political question: Why are we doing this? I do not get a lot of calls from my constituents saying cut the capital gains rate. I do not even get a lot of calls from Wall Street saying cut the capital gains rate. In fact, in candid moments some of my friends on Wall Street say to me, "Senator, what are you doing?"

Mr. PACKWOOD. The hardware store owner.

Mr. BRADLEY. "What are you doing? Do you not know the deficit is important? Do you not know we want you to reduce the budget deficit?" They say, "Senator, do not put the capital gains preference back in because we know what will happen to rates next year. They will go up and we like low rates. So keep the low rates, please. Do not change the code."

How many times have you heard that in town meetings: "What you people in politics ought to do is allow the Tax Code to stay the way it is and not change it next year on a midyear or quarter basis."

So what they tell me is, "We like the low rates; we want you to reduce the deficit; do not change the Tax Code."

Mr. President, the political advantage the proponents hope to wrest with this amendment baffles me to say the least. I am puzzled. I really am puzzled. I am sure that there are answers. But that now brings us to the present proposal.

Whatever one might want to say on the capital gains side—and I have been on both sides of that issue—I can deal with it under certain circumstances. In fact, on this floor I proposed to lower the capital gains tax rate to 15 percent when tax rates were 70. I got 14 votes. So I have lost a few as well as won a few on this issue.

But this proposal is not just capital gains. It has another side to it. The distinguished Senator from Delaware has, what does he call it, the back-end loaded IRA. I have heard of people, who wanting to get to a noble objective, take a path that sometimes prevents them from ever achieving their objective, and while I might say some positive things on capital gains under certain circumstances, it is not possible, I am sorry to say to the distinguished Senator from Delaware, for me to say anything positive about his back-end loaded IRA.

Mr. President, remember the IRA, the way we increase savings in America? That was in the early eighties. Increase savings in America. Put an IRA in the Tax Code and everybody is going to go home free and we are going to live happily ever after. That is what they said.

Well, to remind people, the IRA was to let you put up to $2,000 in a savings account, for which you got a tax deduction and your $2,000 builds up with no tax until you retire. You get older, your income is smaller, you take the money out of your IRA and, you pay tax at a lower rate.

That was the argument. Pay less tax now so your savings accumulate and they pay tax at a lower rate when you retire. This is supposed to encourage savings for your retirement.

Now, the Senator from Delaware has taken this proposal and turned it on its head. He say pay your tax on that IRA now and then when you take your money out you do not pay any tax on that accrued buildup.

And by the way, if you happen in the last 4 to 5 years to have put $2,000 into that IRA, from 1982 to 1986, you can pay the tax on what you put in now and you will never have to pay in the future. Mr. President, I think the distinguished Senator from Oregon in moments of greater—well, let me just say I think the distinguished Senator from Oregon would agree with me when I say why can I not pay all my taxes that way. I would like to settle now with the Federal Government on all the taxes I pay from this day until I die.

The distinguished majority leader has said that there are many others, 53 Democratic Senators who want to come to this floor and speak on this issue. So as soon as one comes, I will tell the leader, I am prepared.

So, Mr. President, let me say that the proposal of the distinguished Senator from Delaware does not merit adoption—far from it. It merits a little more scrutiny than I have been able to generate today.

I yield the floor.

Mr. PACKWOOD. Mr. President, I yield 5 minutes to the Senator from Idaho.

Mr. SYMMS. Mr. President, I thank the Senator from Oregon for yielding. I have to say I have been entertained by my colleagues on the floor here and appreciate their opinions on this issue.

I must say that I had not realized until today—according to my good friend from New Jersey—that somehow voting to reduce the capital gains is the same as voting to raise the per-

sonal income tax rate. I had not quite gotten that connection. I will look forward to his bill next year to increase the income tax rates on wages when we finally win this vote.

I think that the Senator from New Jersey was absolutely correct, however, when he said, and he quoted from the law, there is a differential, that the capital gains rate was kept in the bill so that in the event, in the future, the ordinary rates do go up, the rate on capital gains would remain lower. The capital gains rate would not be changed, the way I interpreted it, so we could keep it down, so we could have continued growth, and better jobs and more economic activity for people.

Mr. President, I have learned all kinds of things here today. I am sorry my good friend from Tennessee is not on the floor, for he was talking about all this "supply-side poppycock" that has happened, or words to that effect—I do not want to put words in his mouth—but pooh-poohing what has been achieved in economic policy.

We have had 83 months of uninterrupted economic growth in the United States of America. We have created 20 million new jobs since 1982, of which over half of those jobs are in the high-paying occupations.

Mr. President, the other thing that has happened is that the Berlin Wall, the Iron Curtain, and the Bamboo Curtain are crumbling around the world because of their exposure to our modern technology, to awaken the rest of the world to what is happening here and in other countries where people are allowed to keep most of the money that they earn. That is really what is happening. We are seeing a revolution take place worldwide.

The reason this is happening is there is a fellow named George Bush who ran for President—he started out in 1987, ran all through 1987, all through 1988, and this proposal was one of the cornerstones of his economic program. The American people said yes, we want the capital gains rate reduced.

I say to my friend from New Jersey that I do not have my friends from Wall Street asking me to lower this tax rate either, but I sure have the loggers, the farmers, the miners, and other people in my State asking for it because their grandmother has a house she wants to sell, or their Uncle Fred wants to sell the farm. The modest income, man-in-the-street is in favor of the President's proposal.

But even if it were rich people that are going to be able to benefit somewhat from the lower capital gains rate, why is it that the distinguished Senator finds fault with that? Somehow this Congress has decided the people who have more money are morally inferior to the rest of us that may have less. We shouldn't adopt laws that treat people equitably because somehow the people with assets don't deserve them.

In my view, if we can get them to roll over their assets, to buy and sell them without regard to tax rates that will generate more economic activity, restore more confidence to the future of this country, and in the process more revenue will flow into Treasury. I do not see what all the fuss is about.

I would like to point out that the so-called Bentsen IRA proposal actually has an income distribution where it is the higher-income people in this country who are going to benefit from it. Yet the capital gains rate is pretty evenly distributed across economic groups; 16 percent of the people who declared capital gains in 1986 had less than $10,000; in ordinary income; 16 percent, $10,000 to $20,000; 16 percent, $20,000 to $30,000; 25 percent, from $30,000 to $50,000; and it tapers down to only 1.8 percent of the people with ordinary incomes over $200,000 benefit from it.

Let there be no mistake about this vote today. Anyone who votes against cloture with the majority leader on this is saying to the American people they are against reducing the capital gains rate. I know that is going to cause some Senators here to perhaps have to correct the letters they have in their typewriters and in their computers because they have been writing to their constituents saying they want to reduce the capital gains rate.

We are going to get a chance here this afternoon to vote to reduce the capital gains rate. So do not believe that you can somehow come in here and vote on a procedural vote, and then have people out in the country believe you stand for their interests.

Last week when we were debating the minimum wage law, I drafted an amendment to enact the rural health care package, which my State and most of the rural areas of America so very badly need. I also had, as part of that proposal, this capital gains and IRA measure that we are debating here today.

I was asked by my colleagues not to offer that amendment at that time because we were negotiating then to have this time today to deal with the subject of capital gains taxation.

I want to say to all of my colleagues, we will be voting in a few minutes on some procedural measures. There are Senators here today who will vote against an opportunity to cut the capital gains tax, but the vote will be a technical vote on cloture.

This vote later today, however, Mr. President, is the vote the American people will be watching. This is the vote that will count as favoring an improvement in our tax laws. There is no way to dodge this issue, Mr. President. Either we repair the damage that was done to the savings and investment rates by the 1986 Tax Code today, or we will have to revisit this issue next year.

It is simply a wrong system to tax the proceeds of the sale of assets the same way we tax income from wages and salaries. We should have a tax system that would let a person who sells an asset calculate the average rate of increase, and pay a tax only on 1 year's increase during the year of sale. We would have to have a different way to fill income tax forms, of course, and I am not suggesting here any particular amendment that I would propose. My point is simply that our concepts of income from wages and salaries and from the sale and exchange of assets are confused.

My point is that when anyone sells an asset, all they are doing is exchanging one form of wealth for another, with no real gain in their total wealth. The increase in wealth had to have occurred earlier than the sale—sometimes years and years earlier. I am often reminded of the situation with timber. It takes decades for a stand of timber to grow, and yet the people who harvest and sell it have to declare all of that increase in wealth—all of the years of growing for those trees—as if they had all been planted in January and cut down in December of one year.

A new economic study issued by the National Center for Policy Analysis, demonstrates how much the working people of America would be helped by fixing the mistake in the 1986 tax bill that the President has campaigned on. We need to fix the way we levy income taxes on the proceeds from the sale and exchange of assets.

The President's proposal is a win-win proposal, because the treasury will gain more money in the long run as well as in the short run. The people who currently own assets will gain, of course, because they will be able to move their wealth into new places—they will be able to create more new wealth when they make their current wealth more useful. The gain they make, however, has already built up inside their assets. Simply allowing them to sell them and take cash and send less of the cash to the Treasury is not a giveaway to the rich, it is an act of mercy: to let people keep a little bit more of the wealth they have accumulated over their lifetimes, slowly.

Indeed, Mr. President, I am strongly in favor of indexing for capital assets. This single feature is probably the most important thing in the capital gains proposal we are debating. Most sales of capital assets are made by elderly people—people whose other income, not counting the proceeds of the sales of their assets, are in fact quite modest. Most people who take capital gains are not wealthy in the same way that an executive of a major

corporation is wealthy, with current earnings.

Most people who invest in assets, which they certainly hope will go up in value, do not actually perform much better than inflation. Therefore, when we tax their nominal gains as if these were real gains, we perform a double injustice—we rob them of their principal.

I believe the reason why our national savings rate is so low is because our tax laws and our inflationary, unstable monetary system, actually set up people who save and invest for a fall—and everybody knows it works that way. Why should anyone save and invest for the long run when they suspect the game is rigged by inflation and the tax collector to discriminate against the long-run investor?

In conclusion, Mr. President, let me just add that I want every Senator to know that the so-called Holy Grail that is being worshiped around here is the doctrinaire idea that some people are inferior—morally inferior—and I strongly object to the idea that anyone is inferior. People who happen to possess wealth are not morally inferior to those who do not; indeed, if they have gotten it through the grace of God, they are certainly not morally inferior in His eyes.

Therefore I concur with Warren Brookes it is just putrid green smoke to make the argument that fixing the capital taxation mistake in the 1986 tax bill is some kind of wrong or mean-spirited giveaway to the rich.

The PRESIDING OFFICER. The Senators time has expired.

Mr. PACKWOOD. Mr. President, I yield to the majority leader for a unanimous-consent request.

ORDER OF PROCEDURE

Mr. MITCHELL. Mr. President, I ask unanimous consent that the 40 minutes immediately prior to the vote be reserved for the two leaders, with the Republican leader in control of the first 20 minutes, and the majority leader in control of the last 20 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. PACKWOOD. Mr. President, I yield 5 minutes to the Senator from Pennsylvania.

The PRESIDING OFFICER. The Senator from Pennsylvania is recognized for 5 minutes.

Mr. HEINZ. Mr. President, 5 minutes is not much time, but let me try to sort out very briefly what I think this debate is and is not about.

We have heard it is a debate that was started in 1988, and George Bush won. We have heard this was part of the President's budget submission. We heard that the majority of both the House and the Senate favor a cut in the capital gains rate of one kind or another.

And those are all perhaps valid points, but I do not think it is the key point, at least to this Senator. We heard at some length of the question as to who does a capital gains change help? Does it help the wealthy; middle-income people? We ought to know who it helps.

According to the Treasury Department, some 50 percent of all capital gains will be realized by taxpayers with less than $50,000 in adjusted gross income.

But I submit whether or not anyone chooses to take those particular figures into acccount, that is not the relevant issue either.

The questions in sum that we ought to ask are, first, what are we talking about; and second, how does it benefit the country? What we are really talking about, although it is described somewhat differently, is really a somewhat more sophisticated form of indexation of capital gains than in the Tax Code.

And I say that because based on the length of the holding period, there is an increase in the exempt portion from taxation, rising over 7 years to some 35 percent, in the way of an exclusion. It is interesting to note that in the 1986 Tax Reform Act we retained indexing for a lot of things. We retained indexing for the, the standard deduction, and for the threshold amount between 15-percent rate and the 28-percent rate; that bracket moves up as inflation moves up. We indexed a lot of things, but we did not index capital gains. Why do we index? We indexed because we did not want to tax illusory gains that have been created by inflation. Therefore, I suggest that there is no good reason not to index capital gains, unless we want to tax illusory gains, those that are produced by inflation.

I think there are two additional reasons to bear in mind what we are doing here. The tax rates of other countries on capital gains are much lower than in this country. In Japan, there is a 20-percent rate; in Canada, a 17.5-percent rate; in Germany and Korea, capital gains are not taxed, they are exempt, at least if held for any reasonable length of time.

It is also, I think, critical to look at this as an item of unfinished business from the 1986 Tax Reform Act. I remember in that debate, and since, that both the Senator from Oregon and the Senator from New Jersey have said—

> Let me tell you what one of the central principles in tax reform is; it is about making the Tax Code economically neutral. We do not want people to make the decision on how, what, or when they invest based on the Tax Code. It should be based on economics. Do not make the tax considerations a factor.

By and large we did that, but with one exception, and that exception is the treatment of capital gains. I say that because right now we have an incentive in our Tax Code to spend money and to make deals and to not hold assets for any length of time. It is better to cash them in and then consume them just as quickly as possible. Why? Because our Tax Code, as now structured, still does tax inflation. I ask unanimous consent to proceed for 1 additional minute.

Mr. PACKWOOD. I yield for 1 additional minute.

The ACTING PRESIDENT pro tempore. The Senator is recognized for 1 additional minute.

Mr. HEINZ. Ironically, our failure to index capital gains, as proposed by the Packwood-Roth substitute, creates exactly the kind of bias as in the Tax Code that the two authors of the 1986 Tax Reform Act say they did not want. So I say it is time to get on with the business of that 1986 act and correct the flaws in it. This remains a major flaw.

The ACTING PRESIDENT pro tempore. Who yields time?

Mr. MOYNIHAN. I yield 5 minutes to the Senator from Arkansas.

The ACTING PRESIDENT pro tempore. Only 27 seconds remain on the time not covered by the unanimous consent.

Mr. MOYNIHAN. I yield 5 minutes of the majority leader's time to the Senator from Arkansas.

The ACTING PRESIDENT pro tempore. Is there objection? Without objection, the Senator from Arkansas is recognized for 5 minutes on the time originally reserved for the majority leader.

Mr. BUMPERS. I thank the distinguished floor manager for yielding that time.

Mr. President, there is not much to be said on capital gains that has not already been said. The only thing I can do is perhaps say it a little differently and, hopefully, a little more forcefully in some areas.

Everybody here knows that the capital gains bill is going nowhere. Everybody is just making a record, which is a fine thing, because, obviously, this issue is going to resurface next year.

The last time this supply-side snake oil was sold to the U.S. Senate was in 1981. You will all recall the argument that we could cut taxes by 25 percent, and it was going to generate all this tremendous economic activity and was going to increase Government revenue. Now, Mr. President, right here is a chart which shows the revenue impact of the 1981 Tax Act. I ask unanimous consent that two charts and two tables be printed at this point in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Chart 1

REVENUE LOSS FROM 1981 "SUPPLY-SIDE" TAX CUT

Total revenue loss: $2.5 trillion.
Average annual revenue loss: $229 billion.
Average budget deficit: $180 billion.
Budget deficits accounted for: 127 percent.

Chart 2

REVENUE LOSS FROM ALL TAX MEASURES

[Includes 13 tax increases]

Total revenue loss: $1.6 trillion.
Average annual revenue loss: $141 billion.
Average budget deficit: $180 billion.
Budget deficits accounted for: 78 percent.

TABLE 1.—REVENUE LOSS FROM 1981 "SUPPLY-SIDE" TAX CUT

[Figures from annual Presidential budget submissions to Congress; in billions of dollars]

	Revenue loss	Grand total
Fiscal year:		
1982	36	36
1983	91	127
1984	136	263
1985	170	433
1986	210	643
1987	242	885
1988	264	1,149
1989	291	1,440
1990	323	1,763
1991	358	2,121
1992	398	2,522

[1] Estimate.

Note.—Average annual revenue loss: $229,000,000,000; average budget deficits run from 1982 through 1988: $180,000,000,000; percent of these budget deficits accounted for by 1981 tax cut: 127 percent.

TABLE 2.—NET REVENUE LOSS FROM ALL MEASURES (1981–89)

[Figures from annual Presidential budget submissions to Congress; in billions of dollars]

	Revenue loss	grand total
Fiscal year:		
1982	36	36
1983	73	109
1984	92	201
1985	111	312
1986	132	444
1987	118	562
1988	143	705
1989	171	[1]876
1990	195	[1]1,071
1991	220	[1]1,291
1992	258	[1]1,549

[1] Estimate.

Note.—Average annual revenue loss: $141,000,000,000; average budget deficits run from 1982 through 1988: $180,000,000,000; percent of these budget deficits accounted for by net tax cut: 78 percent.

Mr. BUMPERS. As chart 1 and table 1 indicate, the supply-side tax cut will cost the U.S. Treasury $2.5 trillion through 1992. The average annual revenue loss from that tax cut will be $229 million. If this were DALE BUMPERS, Senator from Arkansas, saying this, I would not expect anybody to pay much attention. But this estimate comes from President Bush and President Reagan as submitted to us in their annual budget messages. That is what they say the 1981 tax cut has lost in revenue.

Then, when some of the more noble members of the opposite party went to the White House and said, "Mr. President, we have an unmitigated disaster on our hands; we have to do something about this enormous tax cut, or the deficits are going to absolutely drown us," he did not like the idea of raising taxes. But, grudgingly he agreed to some tax increases. As you know, we then had 13 tax increases in the last 9 years. But even when we mitigated the damage that was done by the 1981 tax cut by increasing taxes, chart 2 and table 2 show us that we were still left with a $1.6 trillion reduction in revenue from the supply-side tax cut of 1981. The average annual revenue loss will be $141 million.

Do you want to know why the national debt has gone up $2 trillion in the last 9 years? Right there are President Reagan's and President Bush's explanations.

Mr. President, my party has been taking a pretty bad trashing in the 1980's. Last Tuesday there were a lot of elections, and Democrats got rhapsodic about it. I was elated, too. But before these recent successes I must say some of the things that offended me most was when I read these articles about how our Democratic Party is bankrupt for new ideas. Maybe that is a legitimate complaint in some areas, but I want to make this observation: Because an idea is new does not make it a good idea. Here was a new idea, the so-called Reagan revolution in motion. And you now have a $3 trillion national debt, which you are imposing on my 4-month-old grandson, who was not even invited to the party. Yet, he is being asked to pick up the tab.

What is the purpose of a capital gains preference? I have a farm down in Arkansas and it is for sale. I have slowed down the sale. I do not want to sell it quite yet. I was prepared to pay a 28-percent tax on my gains from my investment in this farm. My wife paid a 28-percent tax on her gains on a farm we sold last year that her father left her. She was not very happy about paying this tax. I am not particularly happy about paying a 28-percent tax, but I am prepared to do it.

If this capital gains tax cut passes I stand to reap quite a windfall. I have owned that farm for 20 years and I bought it expecting to pay a capital gains tax of nearly 50 percent. But, instead of paying 28 percent, under the Packwood amendment I am going to pay an 18.2-percent tax. And I am going to put about $30,000 in my pocket that I did not anticipate, free, gratis, a gift, a pure windfall, thanks to the U.S. Senate. That is what this is all about. This amendment is retroactive to capital investments made with no expectation of an 18.2 percent gains tax rate.

I did not buy that farm in 1966 hoping that the distinguished Senator from Oregon would come to my rescue and enrich me to the tune of $30,000. I bought it because I thought it was a good investment and I wanted to own it.

Here is the Joint Tax Committee saying this capital gains tax amendment—standing alone—is going to lose $10.2 billion the first few years and $37 billion over 10 years. I am not voting for anything that exacerbates that condition.

I ask unanimous consent that a third table appear at this point in the RECORD.

There being no objection the table was ordered to be printed in the RECORD, as follows:

TABLE 3.—REVENUE EFFECTS OF SENATOR PACKWOOD'S CAPITAL GAINS PROPOSAL—FISCAL YEARS 1990–99

[In billions of dollars]

Item	1990	1991	1992	1993	1994	1995	1996	1997	1998	1999	1990–99
I. Individuals: 35 percent sliding scale, option to index	.4	.3	−2.1	−2.5	−3.0	−3.2	−2.9	−3.9	−4.8	−6.1	−27.9
II. Adjusted corporate capital gains proposal	−.4	−.6	−.7	−.8	−.8	−.9	−1.0	−1.1	−1.2	−1.3	−8.8

Joint Committee on Taxation, October 20, 1989.

Mr. PACKWOOD. Will the Senator from Arkansas yield for a question on my time?

Mr. BUMPERS. I will be happy to yield.

Mr. PACKWOOD. In July 1981, what did the Congressional Budget Office predict would be the budget surplus in 1985?

Mr. BUMPERS. Mr. President, I cannot answer that question.

Mr. PACKWOOD. Here were the CBO projections in the summer of 1981: For 1981, a $48 billion deficit; for 1982, a $30 billion deficit; for 1983, an $18 billion surplus; and the projected surplus climbed to $76 billion for 1984, $138 billion for 1985, and $209 billion in 1986. These were the baseline projections by the Congressional Budget Office, which is the group we listen to, before the Reagan tax cuts. Alice Rivlin was the CBO Director from 1975 to 1983, hired by the Democrats when they controlled both Houses. Second——

Mr. BUMPERS. Do not count me in the "we." I am 1 of the 11 Senators who stood on this floor and said the 1981 Tax Act would create deficits that would "choke a mule."

Mr. PACKWOOD. All I want to say is when we made those tax cuts in 1981 the Reagan administration was faced with the likelihood that if we did not make the cuts, we would spend the money. Indeed that is what Congresses do and executive branches do.

So the Congressional Budget Office's baseline, assuming no change in the law, showed a $209 billion surplus by 1986. When the Treasury came forward and recommended the 1981 tax cuts, they projected almost a dollar-for-dollar loss for the tax cuts.

I do not mind if the Senator from Arkansas wants to argue about supply side or not supply side, but he is completely erroneous when he comes before this body and attempts to tell us that the tax cuts are the reasons for the deficits. We made the tax cuts because we knew or we thought we were going to have immense surplus and the Reagan Treasury Department said when we make these cuts there will be almost a dollar-for-dollar reduction of that surplus. We wanted to do it to get the deficit down to zero rather than having a $209 billion surplus.

Those, Mr. President, are the facts.

Mr. BUMPERS. Mr. President, since he asked me to yield on his time I will ask him for an additional 15 seconds to go ahead.

Mr. PACKWOOD. Go ahead.

Mr. BUMPERS. I did not believe Alice Rivlin and CBO in 1981. I certainly did not believe the Reagan administration. I was one of the Senators who voted against the supply side snake oil.

Now the figures I am giving—the $2.5 trillion revenue loss—that does not come from CBO; that comes from Ronald Reagan and George Bush. That is the estimate they have submitted to us. If these were my figures, I would not expect anybody to believe them.

This estimate is not what somebody is saying is going to happen in the future. This is what has happened in the past based on those promises in 1981 which I did not buy then and do not buy for your capital gains bill either.

The PRESIDING OFFICER (Mr. LIEBERMAN). The Senator's time has expired.

Who yields time?

Mr. PACKWOOD. I yield 5 minutes to the Senator from Maine. When he is finished, I am going to yield to the Senator from Montana.

The PRESIDING OFFICER. The Senator from Maine is recognized for 5 minutes.

Mr. COHEN. Mr. President, the proponents of this measure claim this is the vote on capital gains. I would like to indicate for the record it is not the vote for me. The vote for me is going to come on final passage of a measure to reduce capital gains. Until that time I would classify this as procedural and not substantive.

President Bush made capital gains reduction an issue in his campaign and now a major issue in his administration. As I recall, the capital gains issue did not occupy nearly as high a profile as did Willie Horton or the issue of a strong national defense. Nonetheless, it was an issue and I believe that the President is entitled to have a vote on the merits of this particular measure.

We should not delude ourselves, however, on the size of this vote. I suspect that there are a number of Senators who are going to support the majority leader today who want to vote for a capital gains rate reduction and who will vote for one next year. Similarly, there may be some who will vote in the support of the minority leader and the President today, but who may want to change several of the provisions in the measures when it comes before us on the merits.

My concern is that we struck a bargain in passing the Tax Reform Act of 1986. There was a lot of political bloodshed during that debate, and the Senator from Oregon was right in the center of that particular battle.

That major tax reform was less than 3 years ago, and yet, the statements that we heard on this floor during the passage of the Tax Reform Act of 1986 have already faded from our memories. At that time, a bipartisan coalition agreed to establish lower tax rates and close tax loopholes in order to bring more equity to our tax laws and to stimulate savings and investment. Tough choices were made, some of which were unpopular because they scaled back tax loopholes and benefits that certain groups and industries had enjoyed for years and had come to expect. The goal of a fairer tax code, however, and one that would result in improved investment decisions based on economic reasons rather than tax-avoidance reasons, was worth the loss of some tax preferences, and we passed, on the whole, a workable tax reform law.

Taxing capital gains at ordinary income rates was a major part of that bargain. So, too, was the restriction of other tax benefits, even some restrictions on individual retirement accounts for persons already covered by other pension plans. I have especially strong concerns about breaking the compact made by the Tax Reform Act of 1986 so soon. I share the concerns of those who believe that if a lower capital gains rate is reinstated, we will quickly see the return of tax-avoidance schemes and inefficient tax shelters. As Charles Krauthammer wrote in a recent op-ed piece:

> The principle that underlay the Tax Reform of 1986 was that the best tax code is that which gets the government off the backs of the people and out of the minds of investors. Once that principle is undermined, there is no stopping the loophole writers. The capital gains plan will kill tax reform.

I hope this is not the case, but certainly that is a clear possibility.

I recognize the benefits of a lower capital gains rate for certain segments of the economy. I believe that strong arguments exist for a special capital gains rate for timber, due to the peculiarly long growing time for trees. I also recognize the plight of middle-income persons who are faced with a large capital gains tax upon selling a real estate or small businesses that he or she owns, simply because the property has appreciated dramatically due to inflation. I have yet to be satisfied that it is wise to reduce the capital gains rate on all assets. There is broad disagreement on the effects of a capital gains reduction on the deficit, and on which income classes will benefit most from such a cut.

Certainly, the Tax Reform Act of 1986 was not perfect. Inequities persist, such as those that provide the taxpayer with an approximate income level of between $45,000 and $104,000, with a marginal tax rate of 33 percent, while taxpayers at income levels above this level pay a marginal rate of 28 percent. Overall, however, we should not return to the days of tax-avoidance schemes and loopholes.

Mr. President, as I indicated before, this vote is procedural as far as I am concerned. I believe the President ought to have an opportunity to have the matter considered fully, and open to amendment. Indeed, I would suspect that when the measure does come before the Senate, there will be a number of amendments that will improve upon this proposal.

I yield back the remainder of my time.

Mr. PACKWOOD. I thank my good friend from Maine and yield 2 minutes to the Senator from Montana.

The ACTING PRESIDENT pro tempore. The Senator is recognized for 2 minutes.

Mr. BURNS. I thank the Senator for the opportunity.

Mr. President, I want to make just a couple of points.

Although there will be a lot of things said about capital gains, let us look at it from this. I am wondering if we are not missing the real point here of people who want to invest in the American economy. And they say the low-income earners will not benefit from this legislation. I am saying they will.

What if we give them the incentive; maybe they want to become high-income earners. If we do not give them the incentive to do that they will not.

I am not worrying about saving a rancher that bought a farm or ranch back in 1965 looking for this legislation to bail him out. He has not made any money anyway. So I do not worry about that.

What I am interested in is the investment capital that drives this economy and nothing forms venture capital faster than this kind of tax legislation.

People in wooded lots, cattle producers that have to run cow herds a long time and then are taxed when they sell them, they are taxed on the income that they make then. This just makes good sense for the heart of America and especially in agriculture, and agriculture has taken enough strife in the last 8 years. I will tell you, if you look at the heartland of this country, you would really understand that.

I just want to make that point, that we have to produce incentive for people to participate in the free enterprise system. And I really believe that this is the way you do it, give them incentive to do so.

Mr. President, since my arrival here in the U.S. Senate, I have been witness to a number of positive changes. This is especially true in light of the activities of the Senate last week to repeal section 89. I did not come here today to discuss these changes. I would, however, like to focus attention to the issue of investment strategy and the continued growth in the Nation's economy. Not a day goes by that we do not read about how competitive the world marketplace is. The Japanese, Koreans, and West Germans, to name a few, are constant reminders that the competitive edge we once enjoyed is in many instances no longer the case. There are many different arguments as to why we are not the overwhelmingly dominate economic force in the world today. Mr. President, I cannot provide the definitive answer. I do know, however, that we need to promote a sound policy conducive to economic expansion and development.

One of the more positive steps that could be taken would be to reduce the rate at which capital gains are taxed. By doing this, Mr. President, we are restoring incentives for long-term investment, spurring job creation, economic growth, and global competitiveness for the United States. As far as the U.S. investment growth rate is concerned, it has been one of the lowest in the industrialized world during the course of the 1980's. On the other side of the ocean, however, Japanese growth rates were among the highest and are projected to be about twice the level of the United States investment growth rate this year. I am in no way suggesting that by lowering our capital gains rate will we be able to immediately close this gap. However, I am strongly convinced that it will significantly enhance our long-term investment growth rate, placing us in a more competitive position not only with the Japanese, but with the rest of the world as well.

Turning to our other trading partners, I am astounded by the fact that of the industrial countries with which we compete, only Australia and the United Kingdom have higher capital gains rates than the United States. And these, Mr. President, are indexed for inflation. Furthermore, Germany, South Korea, Taiwan, and Hong Kong, levy no tax on long-term gains. How are we to compete effectively against these countries when their tax codes promote economic growth and expansion while ours chokes it to death?

Mr. President, far too often we have heard how a reduction in the capital gains tax will benefit only the wealthy. Frankly, I am confused. We must all be made aware that cutting capital gains increases the total amount of taxes paid by the more affluent. In fact, capital gains taxes paid by the wealthy more than doubled from $8.7 billion in 1979 to $18.4 billion in 1985.

I do not know about anybody else, but when we can decrease taxes and increase revenues to pay for earned-income tax credits for low-income working families, R&D tax credits to foster increased spending on research and development, and low-income housing credits to encourage the building of low-income housing, this represents a sound policy that not only encourages investment but also raises revenues to pay for programs for the less fortunate.

Mr. President, I have spoken with Al Koelzer of Billings, MT, who has informed me that a package they are attempting to put together is being jeopardized due to high capital gains taxes. They are attempting to buy 120 acres of land from a group of farmers for a development project which will consist of an office complex. Mr. President, the farmers have indicated that they do not intend to sell because of the outlandishly high taxes they would have to pay on their gains. They have informed him they are not as interested as they once thought. I believe this is a clear example of how economic growth and development can come to a halt because of excessively high taxes.

And how about all the cattlemen and ranchers in the State of Montana. Cattlemen in particular, who oftentimes must keep their stock for extended periods of time, are not only adversely affected by a high capital gains tax rate but are further hurt by the fact that no indexing on such gains occur. Mr. President, the same case can be made for the timber industry as well. As we all know it takes anywhere from 30 to 100 years for one single crop rotation to occur. In other words, if we would harvest and subsequently plant lodgepole pines today, they would not be ready for another 100 years. For the approximately 20,000 private woodlot owners in my State a reduction in the capital gains tax and, more importantly, the fact it will be indexed for inflation, provides a vital incentive to go forward with the President's "Greening of America" initiative.

Mr. President, small businesses make up 90 percent of business in Montana. It is through the hard work and dedication of the many individuals and families that has made this Nation prosper. We have built wealth by utilizing natural resources, labor, and capital. We have a willing and productive labor force. To make the best use of our labor and natural resources and to compete successfully in the 1990's, we must have an adequate supply of capital to promote small business development and growth in the private sector. It is through economic growth and development that will allow us to move forward.

Mr. President, I think one of the most important things I have learned since arriving is that this country must attempt to maintain a consistent policy on taxation. This body has plenty of other matters to address than to always be preoccupied with changing the Tax Code. Now I realize this will be no easy task but if we are to plan for long-term investments, we cannot continue to change course in the middle of the journey.

Mr. President, I strongly urge my colleagues to look at the capital gains debate in the context of what effects it will have upon the economic growth and development of this Nation and not upon the political advantages of choosing one side over the other.

Mr. President, I yield the floor.

I thank the floor manager and the Senator from Oregon. I appreciate that very much, and I yield the remainder of my time.

The ACTING PRESIDENT pro tempore. Who yields time?

Mr. PACKWOOD. I yield 5 minutes to the Senator from Alabama.

The ACTING PRESIDENT pro tempore. The Senator from Alabama is recognized for 5 minutes.

Mr. SHELBY. Mr. President, today I rise in support of the reinstatement of the capital gains preference. It is my opinion that a rate reduction on the taxation of long-term capital gains will play a vital and instrumental role in the continued health of the economy, and I believe in our ability to compete competitively in the future.

To maintain and to upgrade our competitive edge, I believe it is necessary to implement a fiscal policy that encourages long-term investments. The benefits of such a policy includes,

but is not limited to, a greater infusion of capital into the domestic economy, enhanced consumer welfarism, increased wages and psychological reward on gains in saving itself.

The debate here over the capital gains issue has been healthy for the country. Views have been articulated and debated here regarding the procapital gains schools, and it is not composed of conservatives or just Republicans. Democrats—I am one of those—have contributed to the debate arguing over a reinstatement of the capital gains preference. Some of the more liberal economists in this country have also stated that a tax cut in the capital gains rate would be beneficial to the whole economy.

Mr. President, in addressing the capital gains issue there are several areas that I would like to discuss briefly. They include timber assets in capital gains preference proposals, increasing the U.S. savings rate, providing for corporate capital gains, and assisting the venture capital industry and the indexing of capital gains.

For many of our States, forestry is integral in its economic stability and development. My State of Alabama is no exception. Forests occupy two-thirds of Alabama land area and forest products compose Alabama's leading manufacturing industry. In terms of fairness, timber assets should be part of any capital gains proposal. The inclusion of timber assets would benefit the Pacific Northwest as well as my area of the Southeastern part of the United States.

Mr. President, to deny timberland owners benefits of a capital gains preference on gain that is many times illusory is punitive. Because of the long-term commitment that timber owners must make to each crop, the lack of providing a capital gains tax cut serves as a disincentive to efficient timber management. In the long run such disincentive will reduce future supplies of timber.

I am especially concerned about the current economic situation for small timberland owners. I am an original cosponsor of S. 1692. I believe that timberland owners should be able to return to the practice of deducting their business expenses as incurred, which will allow the timber owners to efficiently manage timber stands.

The bill does more than provide relief for timberland owners; it addresses a policy issue of securing a timber supply and very important policy of insuring conservation.

To deny small timberland owners the right to currently offset their cash expenditures against other sources of income requires these owners to capitalize at timber management expense until they sell their trees. I hope this legislation receives favorable treatment here.

INCREASING THE U.S. SAVINGS RATE

As a matter of public policy, assisting individuals to achieve financial objectives for the years ahead is a necessary and proper task for government. I believe that the satisfaction one receives from saving hard-earned money is enormous. The prudent role of Government, therefore, is to aid the American people in rediscovering the financial and psychological benefits of savings.

Since 1980 there has been a marked downward trend of the savings rate in the major industrial countries. We are not in a singular position per se. However, our savings rate is lower than the other group of seven countries. The marked downward trend is the result of several factors. From a macro-economic perspective, the downward trend is due to adverse effects on business and consumer confidence caused by the financial markets' concern about the prospects for effective action to deal with the imbalances facing the world economy.

One part of the solution to curtail Government dissaving is to reduce the budget deficit. A balanced budget amendment to the Constitution, with the adequate prudential measures, could ameliorate the negative consequences of the deficit. This is another area that must be discussed. In addition to curtailing Government dissavings, steps to increase private savings are also needed. Reduction of the tax rate on capital gains is a dispositive component of a fiscal policy to increase savings and capital accumulation.

Empirical evidence shows that savers do respond positively to higher aftertax rates of return. The capital gains tax increase of the Tax Reform Act of 1986 reduced aftertax rates of return to investors and, therefore, made savings considerably less attractive. This increase took place in the context of an increasingly competitive world where most nations tax capital gains more lightly than we did even before the 1986 Tax Act.

At this point in the discussion, I must emphasize that the capital gains tax is a voluntary tax. Taxpayers alone can decide if and when to realize their capital gains. Since capital gains taxes are voluntary, higher capital gains tax rates do not necessarily result in greater revenues to the Government because taxpayers may choose not to realize their gains if the tax is too high.

To the extent that a lower capital gains tax encourages the realization of gains that would otherwise not be triggered, the effective tax rate on that particular income rises from zero to the preferential tax rate for capital gains that maximizes revenue.

Involved in the savings aspect of preferential treatment of capital gains is a determination of what are the positive tax consequences for low and moderate income taxpayers. Many have stated that a capital gains tax cut will only benefit the wealthy. I disagree with this conclusion. It is not true that only high income taxpayers would benefit from a capital gains tax rate differential. In 1985, the latest year for which detailed tax return data have been analyzed, one-third of all tax returns with long-term capital gains reported other—noncapital gain—income of less than $20,000. Nearly three-fourths of all tax returns with capital gains had other income of less that $50,000. And less than 2 percent had other income of $200,000 or more.

It is true that economic studies of the behavioral reactions of individuals to changes in the taxation of capital gains suggest that lower income individuals are less responsive than higher income taxpayers to capital gains tax rate changes. However, this behavior can be altered by providing an extra measure of incentive to lower income taxpayers.

For example, individuals with ordinary income of $20,000 or less could be entitled to a 100-percent exclusion from capital gains.

I believe that a preferential tax rate for capital gains is an important part of a policy to keep America in the first rank of industrial powers. We must consciously adopt strategies to encourage companies and individuals to set aside more to invest in the future.

PROVIDING FOR CORPORATE CAPITAL GAINS

Corporate capital gains restoration would be highly beneficial to the economy. Corporate capital gains would improve U.S. productivity. A lower corporate capital gains tax rate is a key motivator to modernize plant and equipment. Competitiveness on the international playing field today is keyed directly to an ability to respond quickly and efficiently to change. As our international competitors have so clearly illustrated, the ability to make such responses is tied directly to flexibility in one's productivity capacity—and that requires state-of-art machinery and equipment.

It is instructive to notice that in 1988, Japan invested 22.3 percent of its GNP—$470 billion—on capital spending. During this same period, the United States invested 10.79 percent of its GNP—$430 billion. Incentives such as a capital gains tax reduction would encourage a reversal of this trend.

In 1987, roughly $203 billion of trade or business assets were sold by durable equipment manufacturers to the corporate sector, representing about two-thirds of total sales of this category. Clearly, availability of corporate capital gains treatment will enhance modernization of this substantial asset pool.

Additionally, since all taxes of corporations are ultimately paid by individuals, a reduction in the corporate capital gains rate is an incentive for individual equity investment in corporations. Thus, such a change would further reduce the United States cost of capital.

Corporations are responsive to tax rate changes. The potential level of corporate responsiveness is documented by recent data on tax returns filed in anticipation of the rate changes under the 1986 Tax Reform Act. With full knowledge that the corporate capital gains tax was about the increase 6 full percentage points January 1, 1987—from 28 to 34 percent, corporations responded with a 94-percent increase in capital gains realizations in 1986. This increase was identical to the capital gains response by individuals in that year.

Corporate/individual rate disparities force inefficient asset shifting. There is ample evidence that the rate of tax imposed on economic activity strongly influences the business form in which the activity is conducted. For example, the 6-point differential between corporate and individual rates created by the 1986 Tax Reform Act has resulted in an unprecedented level of disincorporation, the shifting of assets from corporate to noncorporate form. Preliminary tax return data from the Department of the Treasury confirms this trend. While total business return filings since the new rates were put in place are expected to increase by 5.2 percent in 1988, regular corporate returns will decrease by 2.4 percent, a record in recent years. It is also noteworthy that sub-S corporation passthrough entity filings are expected to increase by 25 percent.

To summarize, it is vital to the broad interests of the U.S. economy to include corporations in any proposal to extend capital gains tax relief. It is important to restore a level of rationality and logic to the treatment of various taxpayers under our Tax Code.

ASSISTING THE VENTURE CAPITAL INDUSTRY

Restoring a capital gains tax differential would have a particularly powerful impact on the entrepreneurial sector of the American economy, making possible new technological breakthroughs, new startup companies, and new jobs. Venture capital is a process requiring a number of participants; entrepreneurs, informal investors, venture capital funds, and finally healthy public markets. All of these participants are sensitive to aftertax rates of return. The key to successful venture capital investment is the ability to attract and motivate the entrepreneur. By taxing the entrepreneur's potential gain at a higher rate, either the pool of qualified entrepreneurs will be reduced or the investors will have to accept a lower rate of return. In either case, the implications for the American economy are clearly negative.

It is true that a portion of the organized venture capital pool comes from tax exempt entities but the informal pool is equally important. Data collected by the National Venture Capital Association documents the fact that private taxable investors, including corporate venture capital funds, provide on an informal basis, as much funding as does the organized venture capital industry.

Most importantly, it is the taxable investors who, more often than not, provide the seed corn for the new firms, with tax exempt pension funds and formal venture capital pools entering the funding process at a later stage. The willingness of tax exempt entities to participate in the venture capital process is also dependent, to a very large extent, on a vibrant stock market which is directly affected by the level of capital gains taxes.

Venture capital funds have fueled the development of new business and technologies in the United States. They have been the trend setters in capital investment, providing the initial driving source of capital for the new ideas and new enterprises that have changed American life. Venture capital funds help get these new developments out of an entrepreneur's garage and into a factory and the marketplace.

Venture capital funds are an integral part of the funding process for new developments in semiconductors, superconductors, supercomputers, biotechnology, and health care delivery. The venture capital entrepreneurial process contributes to America's quality of life and our strength in the international marketplace.

Making the entrepreneurial process work and flourish is dependent on the strengths and abilities of the various individuals involved, but their activities are greatly affected by government policy. The capital gains tax has a significant impact on the individual, group, and corporate decisions to invest in the venture capital entrepreneurial process. The historical record has been that when the capital gains tax is raised, the entrepreneurial process suffers.

There is a need for a tax incentive to encourage these investments. These investments do involve real and substantial risk. These are investments which investors are reluctant to make, but these are investments which must be made if we are to compete in international markets. A fiscal policy that provides a reduction in the tax rate on long term capital gains would be beneficial for the competitiveness of American business.

INDEXING FOR INFLATION

One unfair aspect of the Tax Code is the taxation of inflationary gain when capital assets are sold or exchanged. It is grossly unfair when illusory profits created by inflation are taxed at ordinary rates. In essence, a taxpayer is being penalized for making a long-term investment. I find this fiscally ironic in a period when many individuals are stressing the need for long-term investments and capital accumulation.

I believe that we should remove the effects of inflation on capital gains by allowing the tax base of eligible assets to be adjusted by the amount of inflation that has occurred since those assets were purchased. Indexation is a rational approach. Indexation protects investors from the value-eroding effects of high inflation in the future. The investors will have more incentive to save in capital assets today, instead of channeling their income into consumption.

With indexation there does not exist the misperception that one economic group is receiving preferential treatment at the expense of other economic groups. Nor does indexation allow for special interest exclusions which would redirect investment dollars toward certain categories of investments. Indexation, therefore, is an equitable solution to the current taxation of gain that is solely due to inflation.

CONCLUSION

In conclusion, it is my opinion that a reduction in the tax rate on long-capital gains is in the best interest of the economy. A reduction is responsible fiscal policy. Aiding and assisting U.S. businesses to strengthen their competitive edge vis-a-vis foreign competitors must be an integral part of any long-term economic policy. Encouraging individuals to save and reduce consumption has to be a part of a national economic agenda.

We know, based on empirical evidence, that because the capital gains tax is a voluntary tax, a reduction on the taxation of realization on capital gains will alter taxpayers' behavior so that more capital assets are sold or exchanged when the tax rate is reduced. The beneficial consequences of the rate reduction include more revenue for the Government, a lowering of capital costs, and an increase in the national savings rate. Lower marginal tax rates increase realizations. The reduction is good for the economy.

Attractive capital gains treatment can stimulate the economy and benefit both corporate America and individuals. Sound economic reasons exist for capital gains treatment. I will support a carefully crafted proposal that provides for the reinstatement of a capital gains preference.

Mr. DURENBERGER. Mr. President, in the past 3 years, we in the Congress have passed, on a bipartisan basis, several pieces of legislation that directly affects our Nation's competi-

tiveness in the global economy. Three years ago, we rewrote our tax laws with an eye toward leveling the competitive playing field for our Nation's industries so as to facilitate their worldwide competitiveness. Last year, we rewrote our trade laws from A to Z with the goal of opening and expanding the global marketplace.

Mr. President, I believe that the debate over capital gains should not take on the overtones of a partisan fight between the President and the Congress. I think the decision on capital gains should be viewed in the same perspective as we judged the 1986 tax bill and the 1988 trade bill. And the question to be asked then is how a capital gains differential will affect America's competitiveness in the global market.

In that vein, I would preliminarily note that nearly all of our major trading partners, including West Germany, Japan, Canada, Taiwan, South Korea and most of the EC countries, either exempt long-term gains from taxation, or impose a tax far lower than the United States tax. Although it would not be fair to attribute our short-term trade problems to how we tax long-term gains, I believe the issue is very important to the overall long-term health of our economy.

Mr. President, last year I introduced legislation that would have provided a sliding-scale long-term capital gains differential with a minimum 4-year holding period. I introduced that bill because I believed, and still believe, that a real long-term capital gains differential will help to encourage a shift in investment strategy away from the short-term and toward the long-term.

I believe the capital gains proposal now under consideration will go a long way toward achieving that goal for it would provide a very strong incentive for investors to hold investments for the long-term rather than churning assets for quick short-term gains.

Mr. President, I think it is important to point out that the current Tax Code makes almost no distinction between the entrepreneur who risks his capital on an unproven new-frontier technology and the arbitrage speculator who gets in the middle of the latest corporate takeover. In fact, our current system penalizes the long-term investor and entrepreneur because it does not factor in the impact of inflation on assets held for a substantial period of time. By allowing a sliding-scale exclusion for truly long-term gains, and providing an indexing option, this proposal diminishes the impact of inflation on asset values, and reduces the possibility that investors will be taxed on phantom gains.

Furthermore, establishing a differential for long-term gains will help to alleviate the current bias in the Tax Code which favors debt instead of equity, and encourages companies to saddle themselves with far more debt than I think is prudent. Although a capital gains differential will not completely eliminate this bias, it will reduce the cost of capital for American companies, while increasing the after-tax rate of return on equity. That, in itself, should lessen the pressure on corporate managers to focus on the short-term at the expense of long-term planning.

Mr. President, I hope that my colleagues will consider the positive long-term effects that this proposal will have, and will shed partisanship and vote to invoke cloture on this important issue.

Mr. HATCH. Mr. President, I rise today to express my support for the capital gain and IRA amendment of the Senator from Oregon.

Mr. President, this Nation is witnessing a tremendous debate over the issue of whether our Tax Code should differentiate between ordinary income and capital gains income. I congratulate President Bush for his leadership in making this issue an important part of his administration's agenda, and I applaud Senators PACKWOOD and ROTH for their work in developing this proposal and bringing it to the floor of the Senate. The capital gains debate seems to be focused on three key points of disagreement—fairness, economic benefit, and revenue effect. I would like to address each of these points.

Mr. President, some of my colleagues from the other side of the aisle have strongly stated that a cut in the capital gains tax rate would unfairly benefit this Nation's wealthiest taxpayers at the expense of middle and lower income taxpayers. They point to studies that purportedly demonstrate that more than 90 percent of the benefits of a capital gains tax reduction will be claimed by taxpayers with income of more than $100,000 per year. Many of the statements I have heard that are based on such studies are downright misleading, Mr. President. The income figures used in these studies are comprised of the entire income of the taxpayer, including the capital gains.

Let me give you an example. An elderly couple living in Cache Valley, UT has been farming on land they have owned for 40 years. The land was purchased for $50,000 in 1950. Because of health problems, they have decided to sell the farm and retire to St. George, a city in the State with a warmer climate. They sell the farm for $250,000. This couple has never reported more than $35,000 of gross income on their tax returns. But in the year of the sale, they report more than $200,000 of gross income. Are these people among the very wealthiest income earners of our Nation? Of course not. But opponents of the capital gains tax cut say that this family is extremely wealthy. This one-time capital gains represents the effects of inflation and the urbanization of our country. It is totally misleading to classify this couple as being in the upper income brackets simply because, for this 1 year only, they sold their major asset.

A far more accurate study of the distribution of capital gains benefits would include only recurring, or ordinary, income. One study using such methodology shows that 74 percent of taxpayers with capital gains have ordinary income of under $50,000, and that 49 percent of taxpayers with capital gains have ordinary income of under $30,000. Does this sound as though only the wealthy are able to take advantage of a capital gains tax reduction? It is the average American taxpayer who is, to a large degree, paying taxes on capital gains. I'll repeat, Mr. President, studies that indicate that a reduction in the capital gains rate will only benefit high income taxpayers are misleading.

I ask my colleagues who believe that a capital gains tax rate reduction is not fair this question: Is it fair to tax the effects of inflation? The capital gains tax is an additional tax on the rewards of saving and investing. The investor of a capital asset has paid tax once on the income used to purchase the asset. The gains accruing to a capital asset represent the reward to the investor and the effects of inflation. It is not fair to treat these gains the same as income earned through salaries or wages.

A second point of contention on this issue, Mr. President, is that of economic benefit. Opponents of the capital gains rate reduction do not believe that such a reduction will result in an economic benefit to the Nation commensurate to the loss of revenue. In all candor, the facts show otherwise. Investing in capital assets is a form of saving. Capital gains are the rewards investors receive for the risks of their investment. Taxing those capital gains creates a bias against saving and toward consumption. This, of course, discourages saving and encourages consumption. Most economists agree that one of our Nation's greatest needs is to encourage a higher savings rate. One way to do this is to reduce the capital gains tax.

Increasing the Nation's saving rate reduces the cost of capital. This leads to a greater amount of capital available for the formation of new ventures. New ventures lead to new jobs, and new jobs generate new revenues.

Another way the reduction in the capital gains tax rate will benefit the economy is by reducing the lock-in effect created by the capital gains tax. Because investors only pay the tax on capital gains when they sell their assets, the capital gains tax creates a disincentive to sell. Assets that would

otherwise be exchanged more freely are locked in because the owner doesn't wish to pay the tax. This impedes investors from moving their investments into other ventures that may offer a higher return and contribute more to the Nation's gross national product. The higher the capital gain tax, the greater the disincentive.

Mr. President, it is no secret that our major trading partners tax capital gains more lightly than we do. These nations generally enjoy a significantly higher savings rate than does the United States. By reducing the disincentive to saving, these nations find that capital is more readily available. I ask my colleagues, are we not being shortsighted by encouraging consumption rather than saving?

The crux of the debate capital gains, Mr. President, is the long-term revenue effect of lowering the rate. Opponents of lowering the rate contend that the proposal loses revenue over the long run. They cite studies that back up this contention. However, history indicates otherwise. After the capital gain rate cuts of both 1979 and 1982, the Treasury received large increases in revenue from capital gains transactions. The Joint Committee on Taxation estimated that President Bush's capital gain reduction proposal would produce a revenue loss in the 1989 to 1994 period. This estimate, however, does not take all relevant factors into consideration. The methodology employed in estimating the revenue effects of a lower capital gain tax only considers the unlocking effect produced when investors are induced to sell their assets because of a lower tax.

There are at least two other factors that would increase revenue to the government, yet are not considered in the Joint Committee's study. One is referred to by economists as the valuation effect. Because all capital assets obtain their value from the income they generate, the valuation effect increases the value of all capital assets when the tax rate is reduced. This is only common sense, Mr. President. By decreasing the tax rate, the cash flow to the investor is increased. Increasing the cash flow from an asset is going to increase that asset's value, which, in turn, increases the sales price and the amount of capital gain that is realized.

The second effect which will increase revenue from a capital gains rate reduction is the base broadening that would occur as a result of the increase in economic activity that comes from more accessible and cheaper capital. This economic activity will lead to more jobs and more jobs will lead to higher revenues.

Mr. President, a reduction in the capital gain tax rate makes good economic sense for our Nation. It benefits all of us, not just the rich. It promotes fairness; it enhances our economic well being; and it will increase revenue in both the short and long term.

We are experiencing the longest peacetime economic expansion in our history. This expansion is no accident. It is the direct result of lower taxes which have broadened our economic base and created jobs at an unprecedented rate. Federal revenues have greatly increased as a result of this economic expansion. Our budget deficit would be far worse than it is had not this revenue growth outpaced our out-of-control spending growth. We must keep this economic expansion going, Mr. President. A cut in the capital gains rate, in conjunction with an increased emphasis on saving, will help us reach this goal.

Mr. President, I would also like to comment briefly on the second part of the amendment before us, the IRA-plus account. I was very unhappy when the restrictions upon individual retirement accounts were passed as part of the 1986 Tax Reform Act. This is one of the reasons I voted against that legislation. The IRA was and is a sound policy, both for individuals in planning for retirement, and for the Nation in increasing the saving rate. I must admit, though, Mr. President, that the long-term benefits of the traditional IRA concept are not as great as they once were. The IRA concept began with a simple premise: Allow taxpayers to put away a modest amount of their annual earnings on a before tax basis and allow that money to grow tax deferred. The funds can be withdrawn when the indivdiual has reached retirement age and the tax on both the initial deposit and the earnings is paid at that time, when the individual is likely to be in a lower tax bracket. Unfortunately, this concept does not work as well as it used to. Because of the lower rates now in effect, combined with the taxation of part of their Social Security benefits, retiring taxpayers are likely to find themselves in a tax bracket as high as when they were working. So even for those taxpayers still eligible for the deduction of IRA contributions, the incentive to use the IRA has been diminished.

One of the reasons I am impressed with the IRA-plus concept introduced by the Senator from Delaware is that the taxpayer can withdraw his or her initial deposits plus earnings tax free. I believe, Mr. President, that this idea will induce more American taxpayers to plan for his or her retirement. The IRA-plus account will appeal to younger workers who will see the long-term benefits of this plan and increase their savings. As I mentioned before, Mr. President, an increased saving rate will help stimulate economic growth. Our economy will expand because of a lower cost of capital. This will lead to new jobs and new revenue for the Treasury.

Sustained economic growth is a key to our fiscal problems, Mr. President. I see the capital gain rate reduction, combined with the IRA-plus plan, as a solid step in the direction of sustaining our economic growth through increasing the saving rate. At the same time, this proposal promotes fairness to taxpayers and encourages them to plan for their future. I strongly urge my colleagues to support this amendment.

The ACTING PRESIDENT pro tempore. Who yields time?

Mr. PACKWOOD. What is the time situation?

The ACTING PRESIDENT pro tempore. The Senator has 7 minutes and 42 seconds on the unallocated portion of the unanimous-consent order.

Mr. PACKWOOD. I will allocate such of that time to myself as I need.

Mr. President, I ask unanimous consent to add Senator HELMS as a cosponsor of the amendment.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. PACKWOOD. Mr. President, I want to take issue with some of the statements of my good friend from New Jersey, Senator BRADLEY, who, indeed, was one of the staunch supporters of tax reform. In my judgment, he attempted to give an impression when he cited the income categories in this Nation that this capital gains bill unfairly affects the rich, because he said a certain percentage are below $10,000. I think he said only 1 percent of the income earners above $100,000, $200,000, I cannot remember which, were the ones that would unduly benefit.

As a matter of interest, a year ago, I asked the Joint Committee on Taxation—that is the professional group that advises the Ways and Means and Finance Committees—to do an estimate for me of how much money we could raise if we confiscated all of the income of all of those who made above $200,000. They would be subject to a 100-percent tax rate. Well, the Joint Committee sent me a letter. Here is what they projected.

If you were to do it late in the year, so it is too late for people who have already made the money, the Joint Committee said we would rasie $104 billion in 1989 if we imposed a 100-percent tax on incomes over $200,000. In 1990, we would raise $204 billion. In 1991, $232 billion; in 1992, $263 billion; and in 1993, $299 billion.

So I called the Joint Committee's chief of staff back and I said, "Wait a minute. Do you mean to tell me that even at a 100-percent tax rate you think we will keep getting these increased quantities of money?" They sent me another letter that has the same revenue projections but with a new footnote. The footnote says that these estimated taxes do not account

for any behavioral response. It assumes people will work if they have to pay all their money to the Government. They will work forever and pay all of the money to the Government, when clearly anyone in their right mind will not.

Of course, there will be a behavioral response. And here is where this country is indebted to Art Laffer and the Laffer curve, because his theory is correct. Here is what Professor Laffer says: There is a point, an elliptical curve, where there is an optimum level of taxation that produces the greatest amount of revenue for the Government. That is how he explains it. It is quite simple.

At a zero rate of taxation, the Government does not realize very much money; namely, zero. At a 100-percent rate of taxation, we do realize very much money because not many people are going to work if they have to give it all to the Government. So someplace between zero and 100 is a level of taxation that produces the most amount of money.

Now, let us take this example I have given you. We are really trying to reduce the deficit and today we pass a 100-percent rate of taxation on incomes of over $200,000. We would raise $104 billion this year. Next year, however, we do not raise the $204 billion that we had hoped. My hunch is we might get a little from people who simply could not get out of earning money next year. Maybe we would get $20 billion. My hunch is the third year we would get nothing.

So we would say to the Joint Committee on Taxation: "You told us we would raise all of this money; you included no behavioral change." But say; "There appears to have been a behavioral change. People are not working."

So we think to ourselves: We have this existing 100-percent tax rate on incomes of over $200,000. Perhaps we should cut it a bit. Maybe we could collect some money. Let us say the tax rate is 50 percent on incomes over $100,000, 75 percent on incomes over $150,000, and it is 100 percent on incomes over $200,000. We say to ourselves: let us cut that tax rate on incomes over $200,000 to 80 percent. Maybe we will get some money. Maybe some people will work if they only get to keep $40,000 and give $160,000 to the Government. So we get it to 80 percent and, lo and behold, we raise some money. Some people will work.

Some people will work, even if they only get to keep $40,000 out of the $200,000. Do you know what a critic might say? "Do you know who the only beneficiaries of that tax bill are? Those who make over $200,000. It does not affect anybody else. Only those who make over $200,000 are getting the only benefit from this bill because we have cut the tax rate from 100 percent to 80 percent."

Of course they are the only ones who benefit. They are the only ones who were paying a 100-percent tax rate. That is the theory of the capital gains tax cut and you can have an honest difference of opinion as to where the point on that curve is, at 100 percent, 80 percent, 60 percent, 40 percent, 20 percent, or zero; if you go below the optimum rate, you will lose money.

The Treasury Department says that on individual capital gains if we cut the tax rate from the present 28-percent rate to 20 percent we will raise money. Not just next year, not just the year after that, but for 5 years and beyond. We will raise money because there will be sufficient additional realizations of people making capital gains, that it will make up for the reduced rate.

I think they are right. And, if they are right, there is no question but what people who have greater capital gains will realize greater savings than people who have less capital gains.

Senator BRADLEY said the 10 richest people would have average gains of $13 million or something like that. Let us take the example I used earlier. Let us say you are a salaried employee of a corporation; they are paying you $200,000 a year and you are in the 28-percent tax bracket. You are paying $56,000 a year in taxes.

You have a piece of property that you bought for $100,000 some years ago. It is now worth $200,000 but you have not sold it. You are kind of hoping maybe there will be a capital gains rate decrease or the property will go up a bit in value. At any rate you have not sold it.

When you have not sold it, you have not made any money. You have a paper profit but you have not made any money because you have not sold it, and the Government has not collected any taxes on it because you have not sold it.

Now let us say the capital gains rate is reduced to 20 percent. And you, Mr. $200,000 a year income earner, decide to sell your property. You have a $100,000 capital gain; you keep $80,000 of it and the Government takes $20,000 of it.

Now, instead of paying the Government $56,000, on your $200,000 salary, you have paid them $76,000. The Government has collected $20,000 they would not have collected but for the passage of the capital gains differential.

Mr. President, Senator DOLE and I have agreed to split the 20 minutes that he has on his side so I will take another 5 minutes at the moment, if I might.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered. The Senator is recognized for an additional 5 minutes.

Mr. PACKWOOD. On the sale, the Government has now realized $20,000 in income. Mr. $200,000 a year earner has paid $20,000 more of taxes; money that the Government would not have had but for the passage of the capital gains reduction. He gets to keep $80,000 of the gain—money he would not have otherwise have gotten had he not sold the property.

Now let us consider someone earning $20,000 a year. He has a piece of property that is worth $10,000 when he bought it and it is now worth $20,000 and he has not sold it. But we cut the capital gains tax rate. He decides to sell it. And on his $10,000 profit he gets to keep $8,000 and the Government takes $2,000.

Now, Mr. $200,000 gets to keep $80,000 and is giving the Government $20,000. Mr. $20,000 gets to keep $8,000 and gives the Government $2,000. A demogog can say, "Do you know who is getting the biggest benefit out of this bill? The person who makes $200,000 a year." Well, what has the person who makes $20,000 lost? Nothing.

If we did not have a capital gains differential, Mr. $200,000 would not have sold his property and Mr. $20,000 would not have sold his property, and the Government would have nothing. They would have pieces of property they choose not to sell.

So, in cutting the rate it is a win/win/win situation. Mr. $200,000 wins; Mr. $20,000 wins, and the Government picks up an additional $22,000 in revenue we can spend on poverty programs, programs for the poor.

But there are some people, so all-fired mad that somebody earning over $200,000 might realize some money, that they do not want Mr. $20,000 to get it and they do not want the Government to get it. Instead they are going to go out and borrow to pay for the poverty programs. That is what I find the opponents of this bill are saying.

I am going to yield in just a moment to Senator DOMENICI and Senator KASTEN, but I hope we will put to rest this rich/poor argument. This is one where everyone gains: Rich, middle income, poor, and the Government. We are not trying to get many deal better than that.

I yield 2 minutes to the Senator from New Mexico.

Mr. DOMENICI. May I have 5?

Mr. PACKWOOD. What I am up against is this: If someone can check with Senator DOLE how much time he wants, there is a unanimous consent. He wants a fair amount of time. Why does my colleague not start with 3.

The ACTING PRESIDENT pro tempore. The Senator from New Mexico is recognized for 3 minutes.

Mr. DOMENICI. Mr. President, I congratulate the distinguished Sena-

tor, Senator PACKWOOD, from Oregon, on this issue. I think he is right on.

Let me suggest, I do not think the United States and her policy leaders will ever learn. Let me paraphrase Peter Drucker, for starters: The cost of capital in the United States is four times higher than it is in Japan.

Instead of complaining about how the Japanese are beating us in every market and in every new product line, instead of claiming unfair competition—some of which may be true—why do we not decide to go see what the competition is to make capitalism work better than we are.

For example consider the cost of capital.

The Japanese have found that if you want this system of democratic capitalism to work efficiently, make the cost of capital as cheap as you can.

How in the world can the United States compete with Japan when it is capital that drives American industry, and when it takes capital for American modernization? What does cheaper capital, modern plants and equipment and higher productivity do? They produce jobs for American people.

I will leave the argument of equity among taxpayers to those who have made it so well here today. I will just suggest to my colleagues that instead of wringing our hands about how we are being beaten by the competition, we should take a few basic lessons from them. We should go see how Germany is doing it and how Japan is doing it.

Mr. President, what they have done to the United States is utterly simple. They have taken a democratic capital model and, where we are doing it wrong, they are doing it right. We sit back and say, if we could only get them to be fair. Why do we not have some policy that is authentically calculated to help us do our own thing?

When the 1986 tax reform package was passed, there was a big, thick book from which the then-distinguished chairman worked. I have it. It is the report the Treasury Department did on tax simplification. And in it, when it got to capital gains, the tax policy experts unequivocally said: If you want one rate, that is fine, but eventually you must index for inflation for capital investment.

We have not even done that. That means, if we put $10,000 in equity in an American corporation, small or large, back in 1971 and if in 1989 you sold it for $30,000 you would owe taxes on the entire gain. This is true even though the entire gain was attributable to inflation.

Why would you invest it in a risky investment that creates jobs? Why would you not put it in a savings account and take the interest each year and still have the capital exactly as you had it before, with no risk? If there is anything we need, it is capital, and investors who will invest it.

We need small investors, who get to keep capital, from selling a house, to reinvest in business in the United States.

Mr. President, there are a lot of economic arguments for a capital gains differential. There are numerous injustices and inefficiencies caused by taxing capital gains. There is concern about the overtaxation that results from inflation and a high capital gains tax. There is the competitive disadvantage of our high cost capital as it pertains to our ability to compete internationally. And of course, there is the ever present debate on the revenue effect.

I am going to talk about these economic arguments later, but I think the debate should focus on people.

A cut in the capital gains rate would fulfill the American dream of many citizens. A permanent capital gains reduction will benefit more than half or all Americans. It would benefit farmers, small businessmen, and entrepreneurs.

For example, I know a farmer in New Mexico, Carl Fabian. In 1950, Carl bought a modest sized farm in the Mesilla Valley. Each planting season since that time, he has worked from dawn to dusk in the fields. He has invested much more than money, he has invested his life. His farm is his American dream.

In 1989, he is getting on in years and he wants to reap the benefits of those many years of sweat and labor. His land was his investment for retirement and he has been ready to sell the farm and settle into retirement for a couple of years. He wants a capital gains tax cut and he thinks we ought to index for inflation. Otherwise he cannot afford to retire after paying the capital gains taxes from the sale.

His many years of tending the land should afford him a small measure of comfort. He should not be taxed on the difference in 1950 purchasing power and 1990 purchasing power.

If Congress does not enact a capital gains tax cut, we will be waking Carl Fabian up in the middle of his American dream.

I have heard from an entrepreneur whose firm is aggressive enough to export his medical instruments on the world market. What chance does that firm have against Japanese, West German, or South Korean firms which sell the same product but operate under much lower capital gains rates?

Innovation is the driving force behind economic growth, and the entrepreneur is the agent behind innovation. It is the entrepreneur who moves resources from the old to the new, and from the obsolete to the productive. Unfortunately, it is the entrepreneur and the small businessman who suffers the most from our adversely high taxes on capital gains.

In New Mexico, we have an abundance of great scientists inventing exciting technologies. The sad fact is that there is a shortage of venture capital. Instead of hundreds of spinoff companies locating in New Mexico, we are exporting the technological ideas. And we are exporting jobs.

I tried to help several new companies. Most are high tech companies started to spinoff various technologies developed at Sandia and Los Alamos National Laboratories. In one case the entrepreneur wanted his company to grow in the State.

Unfortunately, he needed venture capital and eventually had to move his plant and the job opportunities to the west coast where the venture capitalists would finance his business.

Eighty percent of future job creation will come from these smaller, newer entreprises. There would be more venture capital for firms like these if Congress enacts a capital gains differential. Americans would be more willing to invest in venture capital if they paid a lower capital gains tax.

And it is a good investment in our economy and our ability to compete.

A recent National Venture Capital Association and the American Electronics Association Study documents the benefits to our economy of companies that have received an investment of these larger pools of capital. The study examined 200 companies financed by venture capital investment between 1981 and 1985, and found that they had created 38,616 jobs—an average of 193 jobs per company. Every $100 invested in these companies generated $22 in research, $12 in taxes and $34 in export sales.

Innovation is the driving force behind economic growth, and the entrepreneur is the agent behind innovation. For it is the entrepreneur who moves resources from the old to the new, and from the obsolete to the productive. Unfortunately, not only do the entrepreneurs and the small business persons suffer from our adversely high taxes on capital gains, big companies suffer too.

Earlier this year Intel, one of the biggest employers in New Mexico, announced a new, $400 million plant that it is going to build in Ireland. It will eventually employ 2,600 people at good jobs. There are people in Albuquerque, and Belen and Espanola who would like the opportunity to work at a new Intel plant.

But Intel is in the world market. It has to be aggressive and pay strict attention to its cost of capital. What chance do workers in Belen and Espanola have for jobs when Ireland, Japan, South Korea provide good

workers and a much lower capital gains rate?

Our factories are working smarter and harder to improve productivity and quality, diversity of product, but they are bumping hard against the cost of capital, a cost of production that they cannot control and a burden that their counterpart workers in other nations do not carry.

The overwhelming consensus among economists is that the optimum rate for maximizing capital formation and revenues into the Federal Treasury is a capital gains tax rate between 15 and 22 percent.

A capital gains rate in this range will keep risk-taking and job creation in America. This is what competitiveness is all about.

Americans need to focus on the long term rather than the next quarterly report. This is policy behind a long-term capital gains differential.

OMB Director Darman has criticized our current tax policy because it encourages the phenomenon he calls now-nowism. Sacrifice everything for the short term. Maximize profits. Think short term.

On Wall Street, analysts have little tolerance for long-term objectives. A project having a 5-year payout is in effect heavily discounted by investors because it will be of direct benefit to shareholders 7 to 10 generations in the future.

When I say generations I refer to the fact that most U.S. companies turn over their entire equivalent stock ownership in a matter of months. For semiconductor companies, the stock ownership turns over every 6 to 9 months. A company like Boeing does a little better with a turnover rate of 13.9 months. General Motors is on the stable side and turns over every 30.8 months—still a very short time.

The benefits of a capital gains differential have little to do with who claims a capital gain on their 1040 tax return. For some it might mean a new job. For others it might means a better job. Still for others it might mean better equipment and increased productivity leading to higher wages. In short, every American has much to gain from the reduction in the capital gains tax rate.

But since we will hear a lot during the debate about who a capital gains differential benefits, let me run through the numbers.

According to the most recent IRS data—1987—72.2 percent of the taxpayers who claimed capital gains on their tax returns had less than $50,000 of other income.

One-third of the taxpayers who report capital gains have other income of less than $20,0000.

The elderly file 11 percent of all tax returns, but the elderly file 26 percent of all tax returns reporting capital gains.

One senior in five would get a tax cut in the first year, giving them more for their retirement years.

Ten to fifteen percent of all taxpayers—14 million taxpayers—would benefit in the first year alone.

New Mexicans conform to the national pattern.

Mr. President, I hope the Senate will enact a meaningful capital gains differential.

The ACTING PRESIDENT pro tempore. The Senator's 3 minutes have expired.

Mr. DOMENICI. Are we finished?

Mr. PACKWOOD. I have to give a couple of minutes to the Senator from Wisconsin.

Mr. DOMENICI. I ask unanimous consent that two charts be printed in the RECORD. These charts compare the 5-year revenue estimate on capital gains to Chairman BENTSEN's IRA proposal; the child care proposal in reconciliation; and the new Medicaid proposal which was in in the reconciliation. You will see that they all exceed the cost of capital gains to the Treasury of the United States many times over.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CONGRESSIONAL DEMOCRATIC PROPOSALS WITH LARGE OUT-YEAR COSTS

[By fiscal year; in billions of dollars]

	1990	1991	1992	1993	1994	5-yr total
Senate Finance reconciliation:						
IRA (Bentsen)	0.2	1.6	3.3	3.6	4.1	12.7
Child care		.2	2.7	2.7	2.8	8.4
Extension of tax credits	1.8	2.9	2.6	2.5	3.1	12.8
Miscellaneous tax modifications	.5	1.0	1.2	1.4	1.5	5.6
Finance reconciliation total	2.5	5.6	9.8	10.2	11.5	39.5
Medicaid (House reconciliation) [1]	.7	2.0	3.0	3.7	4.7	14.1
FHA eligibility expansion (Senate appropriations) [2]	−.2					

[1] OMB estimate.
[2] Increases loan guarantee commitments by $5.7 billion.
Notes.—Joint Tax Committee and CBO estimates.

PACKWOOD AMENDMENT

[By fiscal year; in billions of dollars]

Proposal	1990	1991	1992	1993	1994	5-yr total
Capital gains (individuals)	−0.4	−0.3	2.1	2.5	3.0	6.9
Capital gains (corporate)	.4	.6	.7	.8	.8	3.3
IRA plus	−(1)	−1.5	−3.4	−3.3	−3.3	−11.5
Venture capital initiative				+(1)	+(1)	+.1
Total	−(1)	−1.2	−.6	−.1	.6	−1.2

[1] Less than $50 million.
Notes.—A minus indicates a gain in revenues and a reduction in the deficit. Joint Tax Committee estimates.

The ACTING PRESIDENT pro tempore. Who yields time?

Mr. PACKWOOD. I yield 3 minutes to the Senator from Wisconsin.

The ACTING PRESIDENT pro tempore. The Senator from Wisconsin is recognized for 3 minutes.

Mr. KASTEN. Mr. President, 2 months ago the House of Representatives, on a bipartisan vote of 239 to 190, struck a major blow for economic growth and opportunity by approving a reduction in the capital gains tax.

Mr. President, I believe it is incumbent upon the Senate to followup on the House's action, and approve the Packwood amendment. Cutting the capital gain tax should be our No. 1 economic priority. Although our economy is in its 83d consecutive month of expansion, there are signs of trouble ahead. The stock market is weak, auto sales are soft, the durable goods sector is experiencing a profits recession and manufacturing employment is off by 133,000 since April.

Now more than ever, the U.S. economy needs a shot in the arm. America needs the economic stimulus that this tax cut would bring. Without it, the economy may tip into a recession.

In proposing a 19-percent capital gains tax rate, President John F. Kennedy argued that

> The tax on capital gains directly affects investment decisions, the mobility and flow of risk capital from static to more dynamic situations, the ease or difficulty experienced by new ventures in obtaining capital and thereby the strength and potential for growth of the economy.

President Kennedy's argument for a capital gains tax cut is as sound and applicable today as it was in 1961.

Investment, competitiveness, and jobs are the real issues in the capital gains debate. Unfortunately, much of today's debate over capital gains tax cuts has been clouded in a fog of class warfare rhetoric. Instead of dividing the American people, let us unite the American people behind a plan that will create economic opportunity for all.

I believe such a plan should include both a capital gains tax cut and a properly crafted expansion of IRA's. Contrary to the claims made by Senator BENTSEN, I believe we can afford both of these measures. Together, they would constitute a big step toward the elimination of the Tax Code's bias against savings and investment.

The key to the long-term health of the U.S. economy is investment. Unfortunately, our tax code today rewards consumption over investment and dims our long-term economic prospects. The reason is multiple taxation of investment. Income from salary and wages is not taxed when it is used for consumption. If, on the other hand, this money is saved and invested, it is subject to even more layers of Federal taxation. For example, parents who have already been taxed on income when they first earned it will be taxed on it again when they invest it and then cash in on that investment to pay for their children's education.

A capital gains tax cut is necessary to stem this antiinvestment bias—and more importantly, to provide more economic opportunity for all Ameri-

cans. A little over 200 years ago, America was a relatively unimportant colony mired in economic dependence on a global superpower.

Over the years since, America has transformed herself into a political and economic superpower. How did this happen. The answer is freedom—freedom which encourages political, social and economic mobility and progress. America has welcomed change and encouraged it, and thus benefited greatly from it.

A country that rides on its past reputation is a country that is surely headed for decline. America became a wealthy superpower because it was open to new people, new ideas, and new economic opportunities.

In economics, being open to change means increasing access to capital. Capital is the box of tools we use to create things our society wants and needs. Capital is the source of any increase in the amount of wealth produced by our society. Capital is essential to make each individual more productive, and thus more prosperous. The more individuals have access to this toolbox of capital the more likely it is that our society will be a creative, prosperous, fully employed and competitive one.

If access to capital is limited, people and companies who are wealthy—that is, who already have capital—will be able to avoid competition from new American businesses. They will stay wealthy but the country as a whole will suffer because of the countless opportunities denied to new people with new ideas—that is, those who are still looking for capital.

If the rich stay rich, the country will stand still. But if the nonrich get rich, the whole country will get wealthier. To make the nonrich better off, and thus make America wealthier, we have to give Americans who are not rich some access to the capital toolbox. Capital is the ticket these Americans need if they are going to be admitted to economic opportunity.

So the key to prosperity is the expansion of supply and accessibility of capital. The more hands into which we can distribute the capital, the better for our national prospect. How do we do it?

A significant cut in the capital gains tax would increase the availability of capital, and thus promote wealth creation, job growth, and a dramatic increase in the productivity and innovativeness of our businesses. The lower the tax rate on capital gains, the more incentive investors have to make risky investments in new and untested ventures—just the kind of ventures that built America from a colony into a superpower, and can make America reach greater height in the future.

The direct beneficiaries of a capital gains tax cut are those entrepreneurs who have difficulty raising capital under the current high tax rate. Clearly, a wealthy individual seeking capital for his business venture is more likely to find the funds he needs than a lower or middle income entrepreneur who's armed with little more than a new idea and a burning desire to succeed.

For the lower income entrepreneurs who are competing with the rich and powerful for a limited supply of capital, a lower capital gains tax rate spells the life-and-death difference between success and failure.

Which makes me very suspicious of the claim some have made that capital gains tax cuts are a giveway to the rich. Those who make this argument are more interested in punishing the successful than they are in creating opportunities for all Americans. A lower capital gains tax rate helps the nonrich entrepreneur compete with the rich businessman in the marketplace.

Also, economic history proves that when the tax rate on capital gains is cut, the rich realize more gains, and thus pay more taxes. From 1978 to 1985, the top capital gains tax rate was reduced from just under 50 percent to 20 percent. According to the Treasury Department, capital gains realized by the top 1 percent of all taxpayers increased from $31 billion in 1979 to $92 billion in 1985—and as a result, capital gains taxes paid by the wealthy more than doubled from $8.7 billion in 1979 to $18.4 billion in 1985.

The more Americans we can encourage to become entrepreneurs and help create our economic future, the more dynamic, competitive, and creative our economy will be. That is not a giveaway to the rich—it is a gameplan to make all Americans richer citizens of a richer and more hopeful country.

Mr. President, another important issue in the capital gains debate is the issue of fairness.

When are capital gains really gains? Most capital gains are due to purely inflationary increases. When adjusted for inflation, these so-called gains do not turn out to be gains at all—and in some cases they turn out to be real losses.

Since 1971, the price level has tripled. An asset purchased in 1971 for $1,000 and sold today for $3,000 would leave its owner no worse off in real terms. Yet, under current law, the investor would owe the Federal government as much as $660 in taxes despite the fact that there has been no real economic gain.

Mr. President, taxing gains due to inflation is fundamentally unfair. It is particularly unfair to America's family farmers who have seen their property values driven up by inflation. And it is unfair to America's elderly who purchased stock for their retirement only to see a significant portion of their investment taxed for illusory gains.

That is why any capital gains proposal must include inflation indexing. And the pending amendment would give taxpayers a choice between a tax rate differential and inflation indexing.

CAPITAL GAINS CRITICS ARE WRONG

Mr. President, opponents of a capital gains tax cut have made several misleading statements that I would like to correct.

First, opponents claim that the budget deficit has a more direct impact on the cost of capital for U.S. businesses than taxes levied on investment income. The budget deficit crowds out private spending and raises the cost of capital through the interest rate mechanism in financial markets. However, the relationship between deficits and interest rates is not well established.

In fact, in over a century of U.S. history, large deficits have never been associated with high interest rates. Postwar data offer little support for a positive relationship between deficits and interest rates. In the 1980's, the budget deficit and interest rates moved in opposite directions: From 1981 to 1986, the deficit from 2.6 percent of GNP to 5.3 percent of GNP and short-term interest rates fell from 14 percent in 1981 to 6 percent in 1986.

Mr. President, given the empirical evidence, it would seem that the impact of the budget deficit on the cost of capital via the interest rate mechanism is well established. On the other hand, taxes directly—and powerfully—raise the cost of capital which reduces resources available for the private sector to create investment goods.

The current high capital gains tax in particular raises the cost of capital for U.S. businesses because it raises the hurdle rate which new investment is required to meet in order for it to be profitable. If the capital gains tax is reduced, then the after-tax return required by investors for new investment is increased—and the pre-tax return required by investors is decreased. Lower pre-tax returns means a lower hurdle rate and a lower cost of capital for new investment.

For new investment in venture capital projects, the capital gains tax is the most important aspect in the cost of capital. Dr. J. Gregory Ballentine, an economist with Peat, Marwick, Main & Co., estimates that the cost of capital for investments yielding capital gains increased by 12 percent after the 1986 changes relative to investment yielding ordinary income.

Mr. President, the most effective and direct way to reduce the cost of capital in the United States and to improve U.S. competitiveness is to reduce the capital gains tax. We must also reduce the budget deficit—not by increasing taxes—but by reducing the growth rate of Government spending.

Mr. President, a capital gains tax cut will increase Federal tax revenue and to the extent that we can hold the line on spending, it will actually reduce the budget deficit.

The Packwood amendment would cut the top capital gains tax rate to 18.2 percent. Mr. Gary Robbins, a former Treasury Department revenue analyst under President Carter and Reagan, has produced the first dynamic estimate of a capital gains tax cut. The study was conducted under the auspices of the National Center for Policy Analysis, the Dallas-based think tank which produced the widely quoted study on high tax rates faced by the elderly.

Specifically, the NCPA study estimates that a permanent 19.6-percent tax rate would raise $31 billion in tax revenue over the next 10 years. Therefore, we can conclude that the Packwood proposal to cut the tax to 18.2 percent will reduce the budget deficit by more than $31 billion.

The NCPA capital gains study contradicts the Joint Committee on Taxation's static estimates which show a revenue gain in the first year followed by substantial revenue losses in the outyears. Joint tax estimates are flawed because they ignore how a reduction in capital gains tax rates will lead to a larger stock of capital.

Furthermore, the NCPA estimate is more in line with historical experience. When we cut capital gains taxes in 1978 and 1981, tax revenues from capital gains rose for 7 consecutive years—from $9.1 billion in 1978 to $24.5 billion in 1985.

Mr. President, the charge that a capital gains tax cut will lose revenue is not in line with historical experience. I believe that we should use history as a guide rather than the Joint Tax Committee's estimates which have been wrong on this issue time and time again.

Finally, Mr. President, the majority leader has said that it is highly misleading to make selective comparisons of capital gains tax rates between countries. Yet when all taxes are considered, the overall cost of capital in the United States is considerably higher than the cost of capital in countries with which we compete.

Mr. President, the cost of capital in the United States for equipment and machinery with a 20-year life is 22 percent higher than in Britain, 56 percent higher than in Japan, and 60 percent higher than in Germany. Most academic studies on the cost of capital suggest that our trading partners have an advantage.

The lower cost of capital in countries with which we compete suggest that our taxes on investment income—particularly the taxes on capital gains—are still too high. The current tax on capital gains discourages capital accumulation, slows the growth of worker productivity, and lowers the future wages of all U.S. workers.

Mr. President, here is a list of some of our competitors and how they tax long-term capital gains:

Canada, 17.51 percent; France, 16 percent; Sweden, 18 percent; Japan, 5 percent; Belgium, zero; Germany, zero; Italy, zero; Netherlands, zero; Hong Kong, zero; Malaysia, zero; Singapore, zero; South Korea, zero; Taiwan, zero.

United States, 33 percent, practically the highest in the world. This simply does not make any sense.

As Americans, our choice is clear. We can leave our capital gains tax as high as it is, and condemn America to keep on losing ground steadily in international competition, or we can cut that tax rate and pledge that America is as ready as any country to play on the competitive battlefield of the 21st century.

Keeping our capital gains tax rate as high as it is amounts to an export of jobs to other countries like West Germany, Japan, and others who are outcompeting us in the global marketplace because they impose little or no capital gains tax.

Mr. President, everyone else in the industrialized world recognizes that a cut in the capital gains tax is good economics. One of the most respected international journals the Economist recently stated that "the case for reforming America's capital gains tax is strong." They go on to say that a tax cut "would also encourage investors to take risks, and thus provide more welcoming financial climate for small, fast-growing companies. By doing that, it might well broaden the tax base and, in the long term as well as the short term, raise overall revenues."

Mr. President, I ask unanimous consent that the article be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

REFORM THEM, AGAIN—A PERMANENT CUT IN THE CAPITAL-GAINS TAX COULD BE GOOD ECONOMICS; A TEMPORARY CUT IS JUST BAD POLITICS

Politicians in democracies find it harder to talk sense about taxes than about any other subject. In no other area of policy is there such a direct link between speeches and votes. Taking this into account, the debate in Congress over the capital-gains tax has still been surprisingly inept. Intellectual honesty has been even scarcer than it was during the big tax-reform debates in 1985 and 1986—and that is saying a lot.

Cutting capital-gains tax from its present maximum rate of 33% (the same rate as applied to ordinary income) to 20% for just two years, it has been claimed, would raise tax revenues, not lower them, thus helping to cut the budget deficit. Not only that. It would also deliver more investment, lower interest rates, less reliance on debt finance, a higher rate of national savings. Critics say it would lose revenue (making the budget deficit even harder to crack), hand a windfall to the rich, start to unravel the tax reforms of 1986, and twist the tax system away from the "neutrality" beloved of economists.

Of these claims, only one is sure to be true. A capital-gains tax cut would indeed give the rich a windfall by encouraging them to cash in any unrealised capital gains. For a while, tax receipts would almost certainly rise; later, especially if the tax rate was raised again, there would be fewer asset sales than before, with tax receipts to match.

Supporters of the tax cut shrug innocently at any mention of the windfall; some even try to deny it. But their critics are equally unreliable. They think the windfall reason enough to rule out reform. Few manage to swallow their anger at lower taxes for the rich and go on to discuss the idea on its broader merits.

In fact, the case for reforming America's capital-gains tax is strong. Although the present system taxes capital gains at the same rate as income, it is not neutral between the two. To approach neutrality, this rate would need to apply only to real gains (that is, to gains in excess of inflation) after deducting any losses. Britain's capital-gains tax of 40% applies only to real gains; most other industrial countries, flinching at the difficulty of allowing for inflation, have set a lower tax rate for capital gains instead. The first Treasury blueprint of the American tax reforms enacted in 1986 included inflation allowances for capital gains; this was dropped.

On top of that, America's tax system, like most others has a strong bias against savings. People save out of income which has already been taxed, but then also have to pay tax on the interest, dividends, or capital gains that their savings generate. When investing in equities, savers indirectly surrender yet another slice to the taxman, because companies pay taxes on their profits. (In America, unlike in Britain, there is no tax relief to offset this double taxation of profits and dividends.) So America's tax system not only favours consumption over saving, it also favours debt over equity in the financing of companies. This second bias is powerfully reinforced by the tax-deductibility of interest payments.

These defects explain why many economists are unhappy with America's present tax code, and why they do not wish to see all talk of further changes smothered for fear of spoiling the far-from-perfect 1986 reforms.

A permanent cut in the capital-gains tax, other things being equal, would address some of the anti-saving, anti-equity distortions. It would also encourage investors to take risks, and thus provide a more welcoming financial climate for small, fast-growing companies. By doing that, it might well broaden the tax base and, in the long term as well as the short term, raise overall revenues. Against this, a lower capital-gains tax would invite tax avoidance through the use of shelters that disguise income as capital gains. The 1986 reforms closed many of the loopholes that could have been used to this end, so a lower capital-gains tax is now less of a gift to the tax-avoidance industry than it used to be. But a gift it still is.

There is no case at all for a temporary cut. Far from shifting attention to the long term, which should be the goal of any tax reform that aims to promote savings and investment, it would shrink horizons to a once-and-for-all opportunity to cash in assets. Since the reforms would not be ex-

pected to last, none of the supply-side advantage (more equity, less debt, more saving, more new ventures) would come through.

The best solution to the acknowledged defects of America's new tax code would be to undertake another radical reform, and move towards taxes on income that is spent (an expenditure tax) instead of taxes on all income indiscriminately. An expenditure tax has the great virtue of exempting savings from the first cut of the taxman's knife; later, when the savings (together with any interest and capital gains they have generated) are spent, they are taxed like any other sort of spent income.

That would be wonderful, but politically difficult. A second-best solution, perhaps easier to achieve, would be to leave the capital-gains tax at its present rate but apply it only to real gains, with full allowance for losses. If, however, politics insists on a choice between the present system with the present rate, or the present system with a permanently lower rate, better to cut regretfully than not at all.

Mr. KASTEN. Mr. President, there are several other myths about a capital gains tax cut which need to be addressed.

Myth: The poor and the middle-class will have to pay for a cut in the capital gains tax.

Fact: Under the Packwood proposal, all Americans would be allowed to exclude from income tax 35 percent of the gain from the sale of stocks, homes, farms, and small businesses; and tax statistics indicate that middle-income Americans will benefit greatly from this cut.

Half of all capital gains go to people earning less than $60,000 in ordinary income; 21 percent go to people earning under $10,000. Most capital gains are one-time, nonrecurring events that temporarily increase a taxpayer's income, like a small businessman selling his business, or a retiree cashing in his lifetime investments.

Myth: Preferential treatment of capital gains induces investors to convert ordinary income to capital gains in order to shelter their income from the tax collector.

Fact: In the past, tax sheltering was caused by three factors: high marginal tax rates, generous depreciation write-offs for long-lived assets, and inflation-induced hikes in asset values. Together, these factors led to low—and in some cases negative—effective tax rates on certain kinds of investment. Today, as a consequence of the 1981 and 1986 tax reforms and low inflation, these forces leading investors to tax shelters rather than profit-driven investments no longer exist.

Allowing investors to pay a lower rate of tax on long-term capital gains will thus not result in an increase of tax-sheltering activity. A lower capital gains rate simply mitigates the double taxation of capital income, and abates the taxation of purely inflationary capital gains.

Myth: Despite the 1986 increase in capital gains rates, tax revenues have been running well ahead of projections—which means that the higher capital gains tax hasn't discouraged investment.

Fact: An economic study by Victor A. Canto and Arthur B. Laffer found that the increase in the capital gains tax rate effective in 1987 created an incentive among investors to realize capital gains under the lower rates of 1986. Supply-side economists recognized the power of these incentives—and predicted a one-time surge in capital gains tax revenues. Conventional economic theorists understandably failed to foresee this effect, so they assumed that the subsequent increase was a permanent development—and projected higher capital gains tax revenues far into the next decade.

However, since the special incentives to realize capital gains no longer existed after 1986, the higher revenues did not materialize, Governors in over a dozen States faced budget deficits last year because of the "surprise" drop in capital gains tax receipts.

Myth: Capital gains still enjoy an unfair tax advantage, because investors can choose when to realize their gains—a privilege not granted to wage earners.

Fact: Wages and capital gains are fundamentally different. In general, funds for investment come from income that has already been taxed at ordinary income tax rates. This income is taxed once again when the investment produces income—the capital gain. Thus, taxing the capital gain amounts to adding a second layer of income tax to the same income.

Myth: Venture capital for risky new business start-ups accounts for only a small fraction of total capital gains. And most of this risk capital comes from investors like pension funds, which are not subject to U.S. taxes.

Fact: The amount of venture capital is small only because the capital gains tax is so high. The high tax rate reduces the after-tax return to risky investments; if the rate is reduced, venture capital will increase.

History proves this. After the capital gains tax cuts of 1978 and 1981, venture capital soared; but after the 1986 capital gains rate increase, it leveled off and then declined slightly. The 1978 cut is thus the basic cause of the resurgence in venture capital in the past decade.

If the capital gains tax not been cut in 1978, pension fund money would not have flowed into venture capital investments. The managers of this money have only one aim: to achieve the highest possible rate of return on investment. When the capital gains tax was cut in 1978, the market prices for growth stocks increased, and returns on investing in growth stocks increased substantially.

Pension fund investment, then, is far from a given on the venture capital landscape; it too must be fostered and encouraged by tax measures that ensure the health of risk capital.

Myth: A preferential tax rate for capital gains distorts investment decisions and impedes free-market efficiency.

Fact: A capital gains tax is a Government-imposed barrier to free market activity. This tax discourages investors from making prudent and timely adjustments in their asset holdings. It instills a tax motive for adjusting holdings less frequently than sound business sense would dictate—and thus impedes the effectiveness of market incentives in directing investment toward its most productive uses.

Clearly, a revenue-winning capital gains tax cut is necessary to spark upward mobility and expand the overall economic pie. But a tax break for IRA's would also be beneficial, resulting in a flood of savings and investment. The long-term result will be more jobs for Americans, more financial security, and more resources for America's future.

Critics will say the Federal Government simply can't afford both plans. And the Bentsen IRA proposal, which provides a 50-percent tax deduction for IRA contributions up to $2,000, actually would lose roughly $9 billion over the first 3 years after it is enacted.

The pending amendment offered by Senator PACKWOOD cuts the capital gains tax and provides for an alternative IRA plan. It would allow most of the tax benefits at the time of withdrawal, as opposed to the largely up-front tax deduction proposed by the Democrats. The money saved in this new IRA account, as well as all interest earnings, will be tax free upon retirement—thus protecting retirees from the scandalously high taxes they currently pay on retirement income. In addition, funds could be withdrawn tax free to buy a new home, pay for a college education, or cover the cost of catastrophic illness.

This proposal will not cost the Treasury any short-term revenues, and it may even gain revenue if current IRA holders choose to transfer their funds into this new kind of account. IRA's will not expand future deficits. IRA's are designed to increase saving and capital formation which, in turn, will expand the tax base.

Mr. President, I reject CBO's argument that the IRA-plus plan will enlarge the deficit over the long run. First of all, CBO assumes that IRA-plus will not increase overall saving. As with the Joint Committee on Taxation's estimates of capital gains, CBO assumes away the major reason that IRA-plus will result in long-term deficit savings.

As the chairman of the Finance Committee has stated in support of

his plan, IRA's create new savings. According to a recent National Bureau of Economic Research study by Professors Venti and Wise, most of the IRA saving was new saving. Venti and Wise also concluded that, "The data show almost no substitution of IRA's for other saving."

To the extent IRA's shift income that would otherwise be used for consumption to saving, no revenue loss should result. That is because the income that is consumed or invested in IRA-plus will result in no future Federal taxable income stream.

Furthermore, if new IRA-generated saving increases annual GNP growth by just one-quarter of 1 percent over the next 30 years, revenues would be $50 billion higher at the end of 30 years than it would otherwise be without IRA's.

Mr. President, the IRA-plus helps the middle-income earners much more than the Bentsen proposal. According to the Treasury Department, a full 84 percent of the benefits under the Bentsen plan would accrue to taxpayers earning over $50,000 per year. This is because most middle-income taxpayers already enjoy full deductibility of their IRA's.

Mr. President, the Packwood-Roth capital gains-IRA proposal is a better way to keep our economy sparking than the Bentsen IRA plan alone. The Bentsen proposal alone would confer a smaller benefit at a higher short-term cost to the Treasury.

Mr. President, I support the restoration of full deductibility for IRA's. However, I believe that we should enact a capital gains tax cut first—and expand IRA's in a way that does not increase the short-term deficit. I urge the Senate to vote for the Packwood-Roth plan to give America's small savers and investors the capital gains and IRA tax breaks our economy needs.

Mr. President, 5 years ago I introduced a tax reform bill with Representative Jack Kemp that lowered tax rates, broadened the tax base, and retained progrowth saving and investment incentives for capital gains and IRA's. Unfortunately, the final version of tax reform struck these incentives from the Tax Code. I voted for the bill with the hope that these incentives could be restored in the future.

In opposing a capital gains tax cut, Senator BILL BRADLEY has argued that it would unravel his vision of tax reform. In many respects, that vision was shared by Jack Kemp and myself when we introduced the Republican version of tax reform: the application of lower rates to a broader base in order to stimulate work, savings, and investment, and make the tax system more fair as well.

The differences between the Bradley-Gephardt and Kemp-Kasten tax reform plans boiled down to a difference of opinion on how tax reform would boost economic growth. By reducing tax benefits that distort investment decision, Bradley-Gephardt struck down the capital gains differential, IRA's, and other investment tax incentives. But Bradley-Gephardt missed a larger problem in the Tax Code: the multiple taxation of income that is saved and invested. While Kemp-Kasten also tried to reduce the distortion of investment decisions, we focused on reducing the overall tax bias against saving and investment—and we did this by retaining a capital gains differential and expanding IRA's.

Unfortunately, the final version of tax reform largely adopted the Bradley-Gephardt approach. The efficiency gains that flowed from the 1986 Tax Reform Act have been more than offset by the dramatic increase in the tax bias against saving and investment. President Reagan's last economic report estimated that the tax rate on investment rose 10 percent after tax reform. If not for the significantly lower income tax rates, tax reform would have been a complete disaster for the economy.

Expanding tax benefits for IRA's and enacting a permanent capital gains tax cut would reduce much of this tax bias against investment—and move America toward a truly progrowth tax system. Mr. President, while enacting these pro-growth measures might well be considered a departure from the spirit of 1986, I would respectfully suggest that Congress has never passed a measure that cannot be improved.

Two years ago this month, I introduced then-candidate George Bush's proposal to cut the capital gains tax to 15 percent. Earlier this year, I introduced S. 171, the first capital gains bill that combined a permanent tax cut and inflation-indexing.

Soon after, President Bush unveiled a similar capital gains plan. Last month, the House of Representatives approved a temporary reduction in the capital gains tax and permanent inflation-indexing. Today, we have before us an amendment that adopts the basic concepts of my original legislation. I am proud to have played a role in the capital gains tax cut debate. This proposal will strike a major blow for America's workers, investors, family farmers, savers, and small businesses. I urge the Senate to vote to invoke cloture and then adopt the Packwood amendment.

I yield the floor.

Mr. PRYOR. Mr. President, the Senate is aware of my constituent interest in a capital gains differential. In many ways, the timber growers in my State, personify the taxpayers you want to help with a capital gains rate: Risk-takers with their eyes toward the future—long-term investments with sometimes low net profits.

When a timber grower plants a seedling, he or she has no chance of recouping their investment for at least 15 years under the best growing conditions. Meanwhile, they risk drought, flood, pestilence, and fire. Not to mention inflation and price fluctuations. Any one of these can completely destroy their investment.

I believe that these sort of risk-takers in America should be encouraged. For these reasons, I want to one day support lowering the capital gains rate for certain investments. But, Mr. President, this is not the day.

The President has sent a capital gains proposal to the Congress to fulfill a campaign promise. He and his aides have spent the better part of this year lobbying Congress for a tax cut, ignoring most other domestic issues.

At this moment, as the White House lobbyists walk the Halls of Congress, the irrational knife of budget sequestration is cutting our defense forces and slicing up basic services for our constituents, like Social Security phone lines and agricultural programs.

At this moment, while the Secretary of the Treasury makes last minute calls to Senators on this vote, the budget deficit is forcing the Treasury to go out and borrow another $250 billion from foreign investors in order to finance the largest deficit in our Nation's history.

At this very moment, while the OMB Director figures out new ways of cooking the budget numbers to finance this tax cut, the Federal bureaucracy goes unmanaged. The agencies under his watch waste billions of dollars on high paid beltway consultants and on military hardware that does not work.

Yes, Mr. President, I may support a capital gains cut next year. But, only if it is part of a comprehensive economic and budget package. President Bush told the American people he was going to offer solutions to the budget deficit, the drug war, the educational system, and the environment. Instead, he has spent the resources of his administration in the last year trying to sell a tax cut.

There may come a time when this Congress will pass a capital gains money cut. But, Mr. President, this is not the time.

Mr. KOHL. Mr. President, President Bush is right on target when he says that we need to save and invest more in this country. Our productivity has sagged for 15 years. And our pool of savings is inadequate for the capital demands of the next decade.

The President is also correct in believing that the Federal Government can play an active role in stimulating savings and investment. The package

before us today contains the germ of some good ideas along these lines. However, in the final analysis this proposal is the wrong package and it's being offered at the wrong time. I cannot support it.

There is room for debate on the effect of a capital gains tax cut. I happen to believe that indexing offers the most promise, but even indexing has tremendous practical problems to overcome. Senator PACKWOOD's proposal is a clear improvement over earlier versions but it still runs the risk of imposing unrealistic burdens on investors.

And it is not just the investor who accepts a risk under this proposal. The whole country does. Let me spell out some of the problems I see.

First, this legislation would cost the Treasury billions of dollars over the long run. At a time when deficit reduction is—or at least should be—the No. 1 priority of our economic policy, it is simply irresponsible to enact such a policy. The losses caused by this legislation would have to be made up somehow, most likely by increased taxes or reduced services for middle-income families in Wisconsin and throughout the country. I was not elected to add that burden to their load.

Second, at a time when we are cutting back on vital, fundamental services for middle- and low-income families, it is hard to justify creating a tax break for the wealthiest among us.

One-fifth of all children live in poverty. Funding for education has not kept pace with inflation. Our roads and bridges are in dramatic disrepair. Drugs flow across our borders by the ton because we are so understaffed at the Customs and Drug Enforcement Agencies. And we even claim not to have enough money to provide prenatal care for pregnant women who live below the poverty line. How can we let all of these important needs go unmet and then turn around and spend billions of dollars on a tax break that disproportionately benefits the wealthy?

Third, even though I believe that the equity argument makes adoption of this proposal difficult, I might be willing to do it if I really thought it would help create the kinds of economic growth that benefits all of us. But the plain truth is that it will not. This approach to easing the tax on capital gains cannot stand on its own two feet. Instead of stimulating investment, this bill will only stimulate tax shelters and may actually hurt overall capital formation. Most economists agree that the most important factor that affects capital formation is interest rates. Tax considerations are way down the list.

And what is the best way to reduce interest rates? Just ask Mr. Greenspan: lower the deficit. By aggravating the deficit, then, restoring a tax break for capital gains could ultimately hurt capital formation.

In addition, we should ask which investments would benefit under this plan. Not all investments would benefit equally. Are timber producers in this one? Is real estate covered? What about assets held 364 days versus the same asset held 366 days? This bill makes many arbitrary choices on these issues. How were those decisions made? Who decides how these tax breaks are distributed?

By politicians, Mr. President, by politicians. We will cover some sorts of investments in this bill and exclude others. I recognize that politicians have to make many decisions; but we should stay out of decisions that are better made in the marketplace. Enactment of this capital gains proposal would put control back in the politicians' hands over where investment flows. That is a problem that the Tax Reform Act of 1986 addressed and we should not retreat from that position.

Finally, Mr. President, this package contains a peculiar version of the Individual Retirement Account Program. It is a very confusing proposal, but its bottom line is clear: a tax benefit will go to the current generation, while our children pick up the tab. The Congressional Research Service estimates that the IRA proposal contained in this bill will lose the equivalent of $20 billion in today's dollars. But most of this money will be paid in the late 1990's.

There is a stiff price to pay for even the best proposal. The problem here is that this "Backloaded IRA" won't even help stimulate savings. Study after study showed the importance of the immediate deduction for IRA's. The IRA contained in this bill allows no such deduction. The failure of this proposal to allow an immediate deduction is a fatal flaw.

Mr. President, not every money losing proposal is bad. Not every capital gains proposal is bad. But the cost of this package is just not justified by its merits. Over the coming months, I hope we take a long, careful look at these issues and devise more sensible approaches. I will work toward that end.

Mr. CONRAD. Mr. President, I plan to vote against cloture. The amendment before us is a curious hybrid: it would reduce taxes on capital gains and pay for the revenue losses in the short run by establishing a new type of individual retirement account. As economic policy, the proposals are seriously flawed; as budget policy, they are blatantly irresponsible.

Mr. President, the budget deficit for fiscal 1990 is estimated to be $141 billion. We should be doing everything possible to bring that deficit down. Instead, with this amendment, we would only make our job harder—and we make a mockery of the deficit reduction goals we're committed to reach under present law.

The key proposals in this amendment are both major revenue losers, although sponsors have constructed the IRA proposal in a way that they claim will produce some revenue in the near term. There should be absolutely no doubt, however, that both proposals will lose substantial revenue once we are beyond the 5-year budget window for which the estimates are made.

On capital gains, the Packwood-Roth amendment would:

Provide a new exclusion for individuals on a sliding scale, increasing in steps from 5 percent for assets held 1 year to 35 percent for assets held as long as 7 years;

Provide a capital gains differential for corporations on a more gradual sliding scale;

Allow the exclusion for gains on old assets as well as newly acquired assets, and give individuals the option of choosing indexing rather than the exclusion.

Provide special lower rates on gains received by investors in small companies—assets of less than $20 million—making new venture capital investments.

The revenue estimates from the Joint Tax Committee show the individual rate cut picking up some revenue at the outset, reflecting increased realizations of gains. But after fiscal 1991 the estimates show steady and growing losses: $2.1 billion in fiscal 1992, $2.5 billion in fiscal 1993, and $3 billion in fiscal 1994. By fiscal 1999, the annual revenue loss is $6.1 billion. The corporate rate cut reduces revenue right from the start, with losses growing from $400 million in fiscal 1990 to $1.3 billion in fiscal 1999. From 1990 to 94, the net effect of the capital gains proposal is a loss of $10.2 billion. Over the next 10 years, the loss is $36.7 billion: $27.9 billion from the individual rate cuts and $8.8 billion from the corporate rate cuts.

The main effect of the capital gains proposal is to alter the timing of tax collections: some investors will sell earlier than they otherwise might have, resulting in a higher initial volume of realizations. No one is arguing, however, that these higher realization levels continue indefinitely, and the revenue losses do mount steadily during the next decade. In addition, the 7-year holding period could produce some locking-in effects, which will reduce revenues in the longer term. The Packwood proposal is structured to give a significant break to people who've already held assets for at least 7 years—which doesn't strike me as an efficient way to encourage new investment.

The IRA proposal, which sponsors contend will offset the acknowledged

revenue losses from the capital gains tax cuts, works like this. People under the age of 55 can contribute non-deductible amounts of up to $2,000 a year to the new IRA-plus accounts. The interest in these accounts would accumulate tax free, and withdrawals from the IRA-plus accounts at retirement, age 59.5, taxpayers could choose to make tax-free and penalty-free withdrawals of 25 percent of the funds from these accounts at any age if used for education, catastrophic health expenses, or to buy a first home.

The amendment further allows taxpayers to convert conventional IRA's into IRA-plus accounts by paying tax on their deductible contributions. That's the source of the initial revenue gains, but this conversion feature also produces a significant new loophole later on. That's because earnings from conventional IRA's—which would normally have been taxed at the time of withdrawal—will escape tax altogether if this amendment becomes law.

The IRA-plus proposal works like this: Taxpayers can reduce their taxes in the future by paying some greater tax now when they roll-over conventional IRA's into the new accounts. A key question is why people who qualify for deductible IRA's would want to convert. If they have enough cash on hand to pay the tax due on their deductible contributions, they could save a lot of money later.

Some calculations by the Congressional Research Service show that a taxpayer who made the maximum deductible contributions to an IRA each year from 1975–89 would stand to owe more than $24,000 in taxes if he would have withdrawn from the IRA at retirement in 1995. However, by converting to an IRA-plus account, this same taxpayer would have to pay only $7,400 in taxes, spread out over the next 4 years. Taxpayers who have made nondeductible contributions to an IRA since 1987 can roll over these accounts to IRA-plus accounts, pay nothing in taxes now, and avoid tax on all the appreciation.

Another inducement could be the ability to make early withdrawals for education, homebuying, and health expenditures. If so, the future revenue losses will be greater. People who convert for this reason would be certain to withdraw money from the new accounts—costing the Treasury the tax on the buildup that would otherwise have been owed when people withdraw from conventional IRA's at retirement.

It's also possible that people in their fifties could find IRA-plus accounts an appealing alternative to ordinary savings accounts, since they could withdraw the money tax-free a few years later instead of having to pay tax each year on the interest buildup. The IRA-plus proposal cleverly avoids an immediate revenue loss from this feature by requiring people to be under the age of 55 to use the new accounts. Thus, the first revenue losses from the provision don't show up until 5 years later, when such taxpayers reach the age of 59.5.

According to a Congressional Budget Office study dated October 25, 1989, the long-term revenue losses from the IRA-plus proposal are explosive. Under existing law, substantial taxes would be paid on the $400 billion now in IRA's at the time of withdrawal: CBO calculates that the present value of such tax obligations is $84 billion. Assuming that all of these accounts were converted to IRA-plus accounts, CBO computes that the present value of the tax liability that results from these transfers is $39.4 billion. Thus, the proposal would lose more than $2 of future tax revenue for every $1 gained during 1990–94.

Based on its own assumptions about usage of IRA-plus accounts, the Joint Tax Committee estimated that the proposal would generate a short-term revenue gain of $11.5 billion. But again, CBO notes that in present value terms, this revenue "comes at the expense of about $22 billion in future revenues * * * so that the net revenue effect is a loss of about $10 billion in present value."

No close examination of these proposals can fail to detect their underlying cynicism. Sponsors have combined two tax cuts in a way that obscures the true costs—and once again shifts enormous costs to future generations. The issue of who will pay may be greeted with indifference at the White House, but I maintain the bill will come due. If this amendment passes, we will have to pay for it: either by raising other taxes to offset the inevitable revenue losses or by imposing larger cuts in defense and domestic spending programs or by watching the budget deficit veer even further out of control. I urge my colleagues to join me in voting against cloture and getting on with what should be our main responsibility at this point: to get the deficit reduced.

I thank the Chair and yield the floor.

Mr. THURMOND. Mr. President, I rise today in support of the motion to invoke cloture on the capital gains amendment offered by the distinguished Senator from Oregon [Mr. PACKWOOD]. This amendment provides for a permanent reduction in the capital gains tax on individuals and corporations and also establishes an individual retirement account plus which would encourage personal savings. I was pleased to cosponsor similar legislation that was previously introduced and I am pleased that this issue is before the Senate today.

Mr. President, it is imperative that the Congress act without further delay to reduce the capital gains tax for those hardworking Americans who deserve it. In a discussion of capital gains, it is often argued that a reduction would benefit only the rich. However, such a statement does not give the full picture. Over the past few months, I have received numerous calls from people in South Carolina strongly urging my support for a change like the one that is being proposed today. These people are concerned about selling their houses they have owned for a lifetime and having something left over for their support. Also, some are seeking to sell businesses that have taken a lifetime to build in hopes of providing for their retirement. These are not people who would stand to make a large profit. However, they are concerned that all of their hard-earned profits gained from these investments not be taken away by the Government.

A reduction in the capital gains rate would also apply to many industries and would generally encourage investment. Specifically, such a reduction would benefit the timber industry which is unique in its operation. In the normal course of business, it takes anywhere from 20 to 25 years to grow timber. However, extensive capital must be invested at the beginning for planting and growers are continually subject to high risks of bad weather, disease, insects and fire. A reduced capital gains tax encourages investment of capital in such businesses as timber. Without such treatment, investors are likely to turn to other crops thereby decreasing the supply of timber which may lead to increased prices.

Reduction of the capital gains tax will stimulate growth which will in turn strengthen the economy. This is an important vote and I ask my colleagues to vote to invoke cloture.

Mr. CRANSTON. Mr. President, regrettably, Mr. President, I rise to oppose cloture on this amendment. As a long-time supporter of a capital gains differential, I do not enjoy taking this position. I remain committed to a responsible capital gains proposal that emphasizes new, long-term investment—particularly in risky ventures. But it is clear that this debate has gotten out of hand and the capital gains issue cannot be considered in an objective way at this time.

We all know a lowering of the capital gains tax is not going to happen this year. The President and Republican leadership have admitted as much. Why then are we debating this?

We are debating this because the President wants a test vote. Why? What purpose does it serve? I am one of the leading advocates of a lower capital gains tax; I have been for over a decade, and I will continue to be. Nonetheless, I'm voting against the

President today. This vote today does not mean anything. We are simply engaging in a futile exercise to help the White House politically. But since many Senators such as myself are not voting as we would on the substance, little has been gained, and frankly, much good will has been lost.

Before we vote on capital gains, we should have a serious, substantive debate. We should have hearings and we should try to make sense of the drastically different revenue estimates. We should also take a close look at the specific package it is part of. Although I am a strong supporter of individual retirement accounts, important questions have been raised about the IRA-plus approach in this amendment. Does it help lower income families? Does it contribute to new savings? Is the conversion feature simply a budget gimmick? Before we enact legislation that could impose a severe financial hardship on future generations, we must answer these serious questions.

Mr. President, let me say one more time that I continue to support a well structured gains proposal, and my vote today should not be interpreted as a vote against capital gains. However, I believe we would be best served by lowering the rhetoric on both sides, letting the dust settle, and taking up this debate early next year when it can be considered under normal procedures and as part of the budget process.

Mr. DODD. Mr. President, I rise in somewhat reluctant opposition to the motion to invoke cloture on the Packwood-Roth capital gains/IRA-plus amendment.

Clearly, there is a strong and compelling need to increase capital formation in this country. Between our low personal savings rate—it is a third that of Germany and a quarter that of Japan—and our huge Federal deficit—which absorbs enormous quantities of what we do save—we have inadequate and overly costly resources to finance our economic growth.

However, there are different ways to address this problem. For example, on September 7, Senator D'AMATO and I introduced S. 1588, the Savings and Capital Formation Act of 1989. That bill would have restored the benefits of IRA's but in the form of a tax credit instead of a deduction. Shortly thereafter, Senator BENTSEN announced his plan to establish a 50-percent tax deduction for IRA's and I joined him on that legislation.

Another way to address capital formation, of course, is through restoration of a capital gains differential. In theory, there is much to commend such an approach, particularly as it relates to the financing of new ventures and to the creating of incentives for long-term investment.

If capital formation is so vital to our country, isn't the Packwood-Roth bill worthy of support? My answer, as I indicated earlier, is a reluctant "No." The reasons for my opposition involve the failure of the proposal to address other important national issues, most particularly the need to reduce our Federal budget deficit and to avoid putting off more expenses on future generations.

These problems stem from the financing mechanism the authors have chosen to avoid a negative budget impact over the next 5 years, Thus, while the capital gains provisions are estimated by the Joint Tax Committee to cost about $10.2 billion over the next 5 years, the IRA-plus provisions would generate about $11.5 billion, resulting in a net gain of about $1.5 billion. The main reason is that the bill would permit existing IRA accountholders, most of whom have already received tax deductions, to convert to IRA-plus accounts by paying taxes on the contributions which were previously made on a deductible basis, over a 4-year period. Taxpayers who avail themselves of this conversion opportunity would never have to pay taxes on the earnings that have already accrued in the IRA and would also not be obligated to pay taxes on all future earnings.

While the proposal would generate income over the next 5 years, it would be a long time loser, with CBO estimating "an expense of about $22 billion in future revenues in present value, so that the net revenue effect is a loss of about $10 billion in present value." Put another way, if one assumes that the average withdrawal will take place in 20 years, in nominal dollars the Federal Government would be losing over $114 billion in the long term in order to get an $11.5 billion revenue gain in the short term.

Thus, my first objection is that the proposal does not have a real financing mechanism. The lost future revenue would, therefore, undercut much of the benefit of the proposal. If one of the objectives of capital formation is for U.S. citizens to finance our own Federal budget deficit, then a capital formation proposal that would increase that deficit is self-defeating.

Second, all IRA's are not created equal. An IRA deduction or credit could be called a front-end IRA because its costs—and, I assume, an appropriate offset—would be borne by this generation. Moreover, a front-end IRA trades a tax break today for taxes at retirement, which would generate revenue in the future. By contrast, an IRA-plus type proposal, which would collect taxes today but provide for no taxes on the amount contributed to IRA's and the interest earned, is a back-end IRA. In return for a small short-term gain, it would saddle our future generations with enormous lost revenues.

I have other concerns about the Packwood-Roth bill. Its retroactive application to existing investments would generate significant revenue losses without creating any incentives for capital formation. Those investors already made their decisions, based on today's tax law. What societal benefit would there be to giving them a tax break? I think the answer is "none at all."

Finally, I think there are serious questions about whether the IRA-plus approach would work as well as my approach or Senator BENTSEN's approach. Studies of people's behavior between 1982 and 1986, when the old IRA law was in effect, showed that approximately 40 percent of the people who put money into IRA's did so in the year they filed their taxes rather than the taxable year for which they were claiming a deduction. This behavior is strong evidence that many people chose to put money into IRA's in lieu of paying taxes on those dollars. It is unclear whether as many people will put money into IRA's if they will not see the benefits for many years to come.

Mr. President, for the reasons I have outlined above, I will oppose the Packwood-Roth amendment. I hope that after the passions have cooled, sometime next year we can devise a carefully targeted bipartisan package that will improve capital formation in this country without worsening the budget deficit.

I urge defeat of the motion to invoke cloture.

Mr. JEFFORDS. Mr. President, when Congress passed the Tax Reform Act of 1986, it sought to bring fairness to a Tax Code widely perceived as unfair. The Tax Reform Act reduced tax rates in exchange for the elimination of credits, deductions, and loopholes that previously allowed wealthy taxpayers to avoid paying their fair share. Tax reform eliminated the remaining excesses of the 1981 tax cuts and brought greater progressivity and fairness to the Tax Code.

I swallowed hard at the elimination of some credits and deductions that I felt were important to the country and worth keeping. However, I believed that restoring fairness and uniformity to the Tax Code was more important than retaining certain desirable tax preferences, and I cast my vote in favor of the Tax Reform Act.

The law has been a success. Millions of lower income working Americans have been removed from the income tax rolls or had their taxes reduced. Wealthy Americans can no longer shelter their income and avoid paying taxes—the alternative minimum tax has seen to that.

An important part of the tax reform compromise was the decision to tax capital gains as ordinary income. The bill reduced the top marginal rate on ordinary income from 50 percent to 28 percent—33 percent for some upper-income taxpayers—thereby eliminating the need to provide preferential rates for capital gains. Ending preferential treatment of capital gains increased the top from 20 to 28 percent.

I supported this compromise, and I continue to believe that capital gains should be treated the same as ordinary income, provided that the current rate structure is retained, and provided that the asset basis is adjusted for inflation.

Under the law, however, capital gains income is not the same as ordinary income in one very important respect. The basis—cost—of an asset is not indexed for inflation. As a result, taxpayers are required to pay tax on gains that they never realized in real terms. The asset appreciation due to inflation is not a gain of income in real terms. Yet it is fully taxed. This is not fair.

Prior to the Tax Reform Act, a taxpayer was allowed to deduct 60 percent of the capital gain on a sale. This exclusion compensated for much or all of the inflationary impact on the gain. The Tax Reform Act repealed this exclusion.

I have long been a supporter of indexing income tax rates to prevent "bracket creep." In 1978, while serving in the House of Representatives, I cosponsored one of the first bills aimed at preventing "bracket creep" by indexing tax rates for increases in the cost of living. "Bracket creep" caused an increase in a person's taxes because their income was forced into a higher tax bracket solely due to inflation.

This indexing provision became law in 1981 as part of the Economic Recovery Tax Act, the so-called Kemp-Roth tax cut bill. Although I voted against this bill because of some excessive tax breaks and its budget implications, I was pleased that indexing was included.

The issue of indexing has been lost in the debate over the various proposals to reduce the rate of taxation on capital gains. Fairness dictates that a small business owner, farmer or landowner should not be taxed on the inflationary appreciation of his or her asset. Indexing rewards Americans who hold assets for a long period of time, not speculators who buy property or other assets and then sell them at a profit soon afterward. For many small business owners, particularly farmers, their assets provide retirement income. Taxing the inflationary appreciation of their assets is simply not fair.

Both the House bill and the Packwood-Roth amendment provide indexing for future inflationary gains on the basis of the asset. I strongly support indexing and would be willing to support a temporary capital gains rate cut to get permanent indexing provisions into the tax code. I am not willing to support a permanent capital gains rate differential in order to get indexing. Therefore, while I support the temporary House rate cut, I cannot support the Packwood-Roth proposal.

In addition to my concerns about the permanent capital gains differential in the Packwood-Roth amendment, I am even more troubled by the IRA-plus proposal. As politically popular as this proposal may be, I believe this proposal moves Federal tax and retirement policy in the wrong direction.

The IRA-plus provision would create a new type of individual retirement account. Taxpayers would be permitted to contribute up to $2,000 annually to this new type of IRA. Unlike current IRA's, interest earned on an IRA-plus account could be withdrawn tax free upon retirement—age 59½. IRA-plus funds could also be withdrawn to purchase a first home, pay college expenses, or meet catastrophic health care expenses. Current law IRA's could be converted into an IRA-plus account before January 1, 1992.

This proposal is politically popular, no question about it, and some proposals for penalty-free early withdrawls have merit. The Roth proposal would provide new savings opportunities for some Americans and reduce their taxes at the same time. In addition, the conversion of current law IRA's to the new IRA-plus would produce significant revenue in the short term. However, the proposal would create a large revenue loss in future years. It would make our job of reducing the Federal deficit even more difficult.

Retirement policy in this country is driven primarily through the use of tax incentives for employer-provided pensions and individual retirement savings. These private savings plans are supplemented by Social Security. As we seek ways to increase the number of Americans covered by employer-provided pensions, we are limited by budget constraints from providing additional tax expenditures. These constraints on tax expenditures make it very important that tax incentives are targeted and not duplicative.

Tax benefits and other Federal policies designed to increase retirement savings must first target those who are not already covered by pension or retirement plans, or those who are not adequately covered. In view of the serious need to provide pension coverage to those not currently covered, we cannot afford proposals such as the Roth IRA plan that provide new tax benefits to those who are already covered.

Mr. President, I will support the cloture motion today because I support the underlying House bill and believe it deserves to be considered by the Senate. However, should the cloture motion receive the necessary 60 votes, I will vote against the Packwood-Roth substitute.

Mr. LEVIN. Mr. President, I support taxing the gains from the sale of assets held for a long period of time at a lower rate than other income. I believe that a difference in the treatment of capital gains income and other income can be a useful tool in promoting the increased long-term investment that is necessary to enhance our Nation's productive capacity. The elimination of such a capital gains differential is one of the reasons that I voted against the Tax Reform Act of 1986.

I also support expanded eligibility for people who wish to establish individual retirement accounts. Expanded eligibility would have the doubly beneficial effect of providing individuals with additional ways of preparing in financial terms for their retirement and of providing the Nation with an increased pool of savings which can be used to promote productive investments and reduce our reliance on foreign capital. The imposition of new restrictions that were placed on IRA participation by the Tax Reform Act of 1986 was another reason that I voted against that legislation.

Today, we are asked to shut off debate on the Packwood-Roth proposal which has stated purpose of increasing investment and personal savings, but which has too many flaws in it to permit it to come to a vote at the present time.

First, this proposal will add to the deficit over the long run. This result, with its adverse impact on interest rates, would be inconsistent with the goal of promoting economic growth and investment. On its face, the proposal reduces the deficit by a small amount during the first 5-year period. From 1990 to 1994, the capital gains portion of this proposal, which would give up to a 35-percent exclusion from income for assets held for up to 7 years, would lose a little over $10 billion. During the same time frame, the so-called IRA-plus proposal would gain about $11 billion.

However, the 5-year revenue gain from the IRA provision results from the incentive in the legislation to convert existing IRA's, the contributions to which were tax deductible at the time they were made and the withdrawals from which were subject to taxation, into IRA's which would be exempt from taxation at the time that money is withdrawn for retirement. Under this IRA conversion proposal, the taxpayers would be required, in effect, to pay back the IRA deduction

they received in prior years. This payback period would be 4 years. In fact, this proposal requires that the newly converted IRA be held for 5 years prior to being withdrawn, thereby conveniently assuring that there will be no revenue loss during the 1990-94 time frame. In other words, during this 5-year period there would be a revenue gain as a result of the taxpayer's, in effect, paying back of the previously taken IRA deduction, but there would be no revenue loss resulting from newly tax free withdrawals because tax free withdrawals would not be permitted during that time frame.

Mr. President, let's recognize this IRA proposal for what it really is. It essentially takes revenues from the future into the present in order to offset the revenue loss resulting from the capital gains portion of the overall Packwood-Roth proposal. Also, unlike current law, this proposal would give tax-free treatment upon withdrawal to the interest earned on the IRA contribution. This change would further reduce revenues to the Treasury in the future from the levels currently anticipated. In the words of a report by the Congressional Research Service of the Library of Congress, "Thus, the IRA-plus conversion option shares a characteristic with many of the other proposals that have been suggested—and adopted—to meet the Gramm-Rudman-Hollings deficit targets; it would raise revenue in the near-term budget years at the expense of sacrificing more revenue in future years." Similarly, according to the Congressional Budget Office, "In summary, the IRA-plus proposal would lose revenue, on net, over the long term."

Second, this proposal will not add to overall national savings. The IRA conversion option does not increase savings. It only encourages a shift in savings from one kind of IRA to another. The color of the house may change from blue to yellow, but it is still only one house. In the words of the Congressional Research Service study, it is clear that the IRA conversion option of the Packwood-Roth proposal, "would not be expected to stimulate additional savings by taxpayers because it provides benefits to prior contributions, rather than future contributions, to IRA accounts."

Also, the current IRA allows for a deduction at the time that the contribution is made. Substantial evidence suggests that it is this immediate tax deduction that provides much of the incentive for people to contribute to IRA's. The IRA-plus proposal holds out a very real tax break for people down the road. However, reality requires that if we are to provide a meaningful and effective tax incentive for individuals to contribute to IRA's, that incentive must be visible in the near term. The Packwood-Roth proposal provides no near-term incentive, and therefore, it is very likely to have little impact on promoting new savings.

Third, the capital gains provision of the Packwood-Roth proposal represents a significant improvement over the bill passed by the House of Representatives. For example, it does not include a temporary sharp drop in the capital gains tax rate, which is a gimmick to generate a quick infusion of revenues for budgetary purposes. However, it could still be fine-tuned. But, it would be difficult to do that under the constrained procedural situation which would exist if cloture were invoked. It might not be possible to consider proposals to provide greater capital gains incentives for new investments, or to link a reduction in the capital gains rates with an increase in the maximum tax rate on other income earned by the wealthiest 1 percent of the taxpayers. A capital gains tax rate reduction should only be part of a broader revenue package that would address the tax inequities which would result from only reducing the capital gains tax rate.

Mr. President, it is possible to pass legislation to improve the tax treatment of capital gains and to improve the law relating to individual retirement accounts. However, the legislation before us today is not that legislation. In 1981, when talking about the tax bill passed that year, Richard Darman, who is now the Director of the Office of Management and Budget, was reported to have said, "We win it now, we fix it later." I think it is better for us to pass the legislation right the first time. That is why I will oppose the legislation before us today.

Mr. MACK. Mr. President, I think the question of who pays capital gains taxes and who doesn't miss the point of why a reduction in the capital gains tax is important. At the moment, the United States has by far the highest effective capital gains tax rate in the free industrial world. In a global economy, pushing the cost of capital up by a high capital punitive tax makes the United States less competitive. American industry currently pays from 55 percent to as much as 90 percent more for their capital investment in equipment, factories, and research than either Japan or Germany according to a study by economists Robert McCauley and Steve Zimmer of the New York Federal Reserve Bank. Encouraging captial investment in U.S. businesses and lowering the cost of capital to bring it more into line with the capital costs of our global competitors is an important product of a lower capital gains tax.

The indexing feature of this proposal is especially important because it eliminates the fundamental unfairness of taxing the phantom gains of inflation. When a capital investment is sold after being held for a number of years, part of the increase in value is due to inflation and the income associated with the sale is worth less in constant dollars than it would have been in the year of the investment. The part of the gain associated with the inflation is just a phantom gain and has not contributed to the wealth of the investor and should not be taxed as such.

Another point worth noting is the studies that were conducted by CBO and the Joint Tax Committee essentially assume that a reduction in capital gains will not have an effect on behavior and people will act the same after a tax cut as they did before it. This is outrageous and has nothing to do with our dynamic world. Estimates that show a capital gains tax cut losing revenue are based on the same faulty assumptions used in 1978 when Treasury Secretary Blumenthal predicted that a cut in the gains rate would cost the Treasury $2 billion per year. What actually happened was that revenues from capital gains climbed by over $2.5 billion.

The current level of capital gains taxation discriminates against capital income, discourages venture capital formation, impedes job creation. A capital gains differential will promote technological innovation, create new opportunities and raise revenue by stimulating economic growth and increasing capital gains realizations. I strongly urge the adoption of this amendment.

The ACTING PRESIDENT pro tempore. The time of the Senator has expired. All time is reserved for the majority and Republican leaders.

Under the previous order, the Republican leader has 10 minutes remaining on his time, and 15 minutes is reserved for the majority leader. The Republican leader is recognized.

Mr. DOLE. I thank the Presiding Officer. I want to first commend all my colleagues, particularly my colleague from Oregon, Senator PACKWOOD, for their efforts.

I want to congratulate the President of the United States for this initiative. I want to assure Members on both sides of the aisle that this is a real vote on capital gains. It has been a long time in coming. I know probably what the outcome will be, but I think we can demonstrate to the American people that a majority in this Senate support a capital gains rate reduction.

I believe we have the question properly framed. This is not capital gains on some Polish aid bill or reconciliaton; it is a capital gains amendment devised by the distinguished Senator from Oregon, the Senator from Delaware, and others, on a House-passed so-called Jenkins proposal on capital gains which, in my view, is not a very

good proposal. But we have a much-improved proposal.

I want to indicate, as I think the President has on a number of occasions, that this is something that has been around for some time. President Bush carried 40 States. There was not any secret about it during the election; he supported a capital gains rate reduction. It was not something that came along to upset the 1986 tax reform bill, but he campaigned on a pledge to reduce our excessive double tax on savings and investment. At last we have this before the U.S. Senate.

I also want to commend the House of Representatives for the bipartisan support they had on the House side. Nearly every Republican but one, and 60-some Democrats, joined together in a smashing victory for capital gains rate reduction. So this is not partisanship. There is strong bipartisan support.

A vote for capital gains will not threaten the U.S. Treasury with default as it might have on the debt limit. We had a lot of talk about that. Some people criticized some on this side for not offering it on the debt limit. I might say, to keep the record straight, the White House does not want this on the debt limit. They did not want us to default for the first time in history. They did not want some extended debate on extending the debt ceiling.

So it seems to me this is the right place and the right time. If we can get 60 votes, we can wrap this up this afternoon. We will still be out of here before Thanksgiving. I think once we get 60 votes, we will probably end up with many more than that.

This is a procedural vote. We are only going to have two votes on this issue this year. I think, in fact, we have had more debate on this without ever having it up than any other matter I know of in recent memory. So everybody is pretty familiar with the issue.

We have heard it on the Senate floor; we heard it from the House; we heard it on the talk shows; we heard it from experts on both sides of the issue. This is a procedural vote. In every other respect, this vote is a vote on the merits of capital gains and no Senator should claim that he supports a reduction in capital gains tax rates if he votes against this today. Either you are for it or against it.

Mr. President, a compromise, a temporary reduction in the capital gains tax rate passed the House with a clear 50-vote margin. Under every economic analysis, the proposal which is before us today is far superior. The rate reduction is permanent, allowing the incentive to have its intended effect on capital formation. It is tied to the length and time that the asset is held, reserving the maximum benefit for the long-term investment this country so desperately needs.

Since 1986, the last year that our tax law provided a capital gains incentive, the amount of new equity capital raised by American business has fallen from a high of $68 billion in 1986, more than twice the amount raised in Japan, to $20 billion in 1988, less than one-fifth the amount raised in Japan.

Without the permanent "patient" capital which only equity investment provides, American business cannot make the commitments to plant, equipment and research necessary to compete in a global economy. Yesterday, Lee Iacocca responded to a television interviewer asking about the impact of foreign competition on the U.S. auto industry: If we can lower it, the problem would be solved.

That is what we are attempting to do, lower our cost of capital, become more competitive, create more jobs for more people. Reducing the punitive second tax on equity capital will meet the first of these criteria.

The United States is alone among its trading partners in imposing a full second tax on corporate earnings. Japan, West Germany, France and the United Kingdom all integate their corporate and individual tax regimes. In addition, the United States imposes the highest tax on capital gains of all these countries. No wonder our corporations are drowning in debt.

Mr. President, make no mistake about it, a vote against cloture today is a vote against capital gains tax relief this year. It is a vote for increased debt financing of American business and for a contribution of the current short-term profit orientation. It is a vote to deny assistance to Chrysler and other U.S. corporations which are trying to meet foreign competition head on.

Finally, Mr. President, I will say this: This is not a contest between the President of the United States and the majority leader of the U.S. Senate. We are talking about a very vital issue, an issue that transcends party lines.

As others have done more eloquently today, we are talking about competition, cost of capital, creating jobs, business expansion, all the things that all of us talk about when we are out on the stump somewhere.

Finally and finally and finally, we get an opportunity today to cast a vote. My view is it ought to be clear. There ought to be enough votes for cloture. Then we ought to go on and finish what we have started in the Senate, and go to conference with the House and yet this year provide capital gains tax relief.

This will not be the end, whether or not we are successful this year. We will be back again next year. It seems to me this is an opportunity, something we can do and do very quickly. There is not much controversy about it. This should not be a partisan issue.

I recall in earlier days when we reduced the capital gains rate, it was bipartisan: Senator Long and Senator Hansen on the Finance Committee, one Democrat and one Republican; the same was true on the House side.

I urge my colleagues to cast aside partisan politics; cast aside whatever you may think about what the President said in the campaign, but think about businesses in your State, about opportunities for jobs in your State, about lower cost of capital in your State, about creating more opportunities everywhere in America. And if you consider that on an objective basis, you will support us on the cloture vote.

Mr. WILSON. Will the Senator from Kansas yield for a question?

Mr. DOLE. Do I have any time remaining?

The PRESIDING OFFICER (Mr. KOHL). The Republican leader has 2 minutes, 12 seconds remaining.

Mr. DOLE. I will be happy to yield.

Mr. WILSON. I ask my friend if it does not strike him as somewhat ironic that among the many people who have taken the floor in opposing the Packwood-Roth proposal, there have been included many who have repeatedly chastised those who would seek foreign investment?

The ironic thing is they have been among some of the most eloquent Japan bashers, and yet here this afternoon they are saying we do not need capital gains because there is a flood of capital. On other occasions I have heard them be very eloquent, saying we really cannot be dependent upon foreign investment.

I think they ought not to be able to have it both ways. The fact is, if they do not like Japanese investment in Rockefeller Center, are they suggesting that there will be adequate Japanese or foreign investment for the small businesses that are the startups, the celebrated California garage, with a good idea? It strikes me as highly ironic, and I am just curious as to whether or not my friend, the Republican leader, sees that in the same light.

Mr. DOLE. I think all those who are quick to criticize President Bush for whatever he does and probably about what we do with Japan ought to think twice before they cast a vote against cloture. If we want to be competitive, we have to give our businessmen and women in America the tools to be competitive. We have to reduce the cost of capital. We cannot just bash the President.

As I pointed out, when we had the rate reduction, we raised more capital than the Japanese by a big margin, but not since that time. And so I agree with the distinguished Senator from

29-059 O-90-28 (Pt. 20)

California. Sooner or later there is going to be a capital gains rate reduction; hopefully sooner than later. I think the groundwork has been laid for the argument stated by the Senator from California and many others I may have missed earlier today. I hope we have broad bipartisan support when it comes. It should not be a partisan issue. We all have opportunities in our States that ought to be expanded, and this is one way to do it.

Mr. WILSON. Mr. President, I agree, It seems to me we want to encourage American investment and not be dependent upon foreign investment. Here is our opportunity to do so.

Mr. DOLE. I yield back the remainder of my time.

Mr. WILSON. I thank the Chair.

The PRESIDING OFFICER. The majority leader controls the remaining time.

Mr. MITCHELL. I favor a differential in the rate at which capital gains are taxed, as compared to ordinary income. In a fair and progressive tax system, a properly crafted differential can provide a modest benefit, especially if targeted to new and small business. That can and should occur only in a manner that does not have a serious adverse effect on the budget deficit.

I hope that next year we can consider a proposal that achieves those objectives. The amendment before us achieves none of them. It is not fair. It is not targeted. It will significantly increase the budget deficit.

That is why I oppose the amendment.

This amendment symbolizes the excesses of the last decade—especially the unprecedented irresponsibility in Federal fiscal policy.

This amendment is designed to hide its true effect on the deficit by delaying most of the revenue losses beyond the 5-year period used for budget purposes. After that point, however, the amendment will add billions of dollars to the Federal budget deficit. Those deficits don't seem to trouble the sponsors of this amendment because they will occur in the future. But they will deeply trouble, and adversely affect, our children and grandchildren.

There is no better example of short term thinking—"now nowism" as the President's budget director calls it—than and amendment which hides all of its cost beyond the budget window; an amendment which adds billions of dollars to Federal budget deficits, just beyond the horizon.

It is erroneous, even misleading, that this amendment is proposed in the name of encouraging long-term investment.

This amendment evinces no concern about investment or with the future. It is concerned only with the present and the political benefits that may flow from cutting taxes.

Why should this amendment, which will substantially increase the deficit, be seriously considered at all this year?

Because every so often in this process rationality takes flight. Reason is tossed out the door, and the public interest becomes irrelevant; and the obsession with short term political benefit takes precedence over the national interest. It is a time when otherwise intelligent people succumb to catchy slogans and misleading statistics.

Now is such a time. This is such an amendment.

Many Members of Congress in both parties will vote for a capital gains tax cut even though they are uncomfortable with that vote.

Republicans feel great pressure to support the President on an issue which has become the single most important domestic policy initiative of his administration. They know that fiscal responsibility rarely wins votes. But everyone likes a tax cut.

Democrats are tired of being on the wrong side of the public's strong feelings against taxes. They sorely want to be supportive of any proposal that cuts taxes.

But the American economy demands more. The American people deserve more.

We must look beyond the short-term political interest and consider the national interest.

It is important that the American people understand what this debate is really about.

It is not about economic growth and investment. Despite the rhetoric of its proponents, this is virtually irrelevant to that question. It is rather about fairness in Government, the values of our Nation, and whether during this period of enormous Federal budget deficits, when there are so many unmet needs in our society, we are going to give an enormous tax break to the very wealthiest of our citizens.

Proponents of a capital gains cut like to portray this issue in simple and misleading terms. You are either for economic growth or you are opposed to it. That is nonsense.

Every single Member of Congress, from both parties and from every part of the Nation, places the highest priority on policies which establish an environment that encourages productive investment to promote economic growth, create jobs, and improve the international competitiveness of U.S. industry.

Every Member of Congress is vitally concerned about these issues. So special interest groups realize that by using the right slogans—like "savings", or "investment" or "competitiveness"—the likelihood that Congress will give favorable consideration to a particular proposal is vastly increased, no matter how misguided the proposal.

Of course, Congress has a difficult time resisting any proposal to cut taxes. We all know taxes are unpopular. We all know that tax cuts are politically popular. We all agree that the level of taxes imposed on the American people should be as low as possible to fund necessary Government programs. The only thing more popular for a politician to proclaim than opposition to a tax increase is support for a tax cut.

It's even better if the politician can claim that this tax cut will benefit the economy.

And the allure of this tax cut becomes irresistible if the argument can then be made that the tax cut actually raises revenues to the Government.

There is only one problem with these arguments. They're false. Indeed, they're fantasy.

Especially with proposals that have such a substantial adverse effect on future budget deficits, Congress must look beyond the rhetoric to determine the true impact of major changes in tax policy.

The proponents of this amendment subscribe to the theory that if only the well-off don't have to pay as much in taxes, everyone else will be better off. To support this argument selective statistics, dubious comparisons, and irrelevant points are made. They seek to justify a proposal to increase the deficit by billions of dollars so that a type of income earned primarily by the wealthy is subject to a lower rate of taxation.

That the overwhelming beneficiaries of this proposed capital gains tax cut are the wealthiest persons in America is clear and indisputable. That these wealthy persons are the only Americans to have enjoyed real tax relief during this decade makes this proposal repugnant. That it will inevitably be the middle class and the poor who will pay for this tax break for the wealthy through higher deficits or increased taxes makes this amendment totally unacceptable.

Of course, proponents of a capital gains cut do not openly advocate tax cuts for the wealthy. Predictably, they cite a higher calling—that a lower tax on capital assets will increase savings and investment, leading to a stronger economy.

But there is no evidence that this proposed capital gains cut will have a major effect on the economy. And what effect it has will be negative—from the resulting higher deficits.

Proponents of a capital gains tax cut often make the argument that U.S. tax policy severely disadvantages business investment compared to the policies of other nations. Typically, comparison is made of the alleged lower cost of capital in other nations and their lower capital gains tax rates.

There have been many studies on the cost of capital, most suggesting our trading partners have an advantage. But, most economists also agree that our current tax system narrows the advantage other nations may have.

While it is true that some capital assets in Japan and Germany are subject to lower capital gains tax rates, many other capital assets are subject to far higher tax rates—as high as 53 percent in Germany and 50 percent in Japan. The overall level of taxation in both countries is higher than in the United States.

Businesses in the United States have a far lower tax burden than corporations in Japan and West Germany. They are subject to lower tax rates and have more beneficial cost recovery allowances. This difference alone gives us a cost of capital advantage. But the advantages of our tax system are more than offset by other factors, the most important of which is our fiscal policies which, by incurring a huge budget deficit, encourage a low level of savings and higher real interest rates than those of our major trading partners.

The single most important thing we can do to reduce the cost of capital in this country and make the United States more competitive is to reduce our annual budget deficits.

If the President and his economic advisers put half as much time and energy into an effort to reduce the budget deficit as they are now putting into this effort to reduce capital gains taxes, then they would truly be doing something to make American business more internationally competitive.

If the President proposed to spend half as much Federal money on infrastructure improvement, education, or basic research, as he proposes in this tax cut, then he would truly be doing something to increase U.S. productivity and make American business more internationally competitive.

PACKWOOD-ROTH IRA TRANSFER

It is particularly important to review for a moment the specific design of this amendment and why it would be such a mistake for the Senate to approve it.

In order to give President Bush a political victory on capital gains regardless of the cost, the sponsors of this amendment are attempting to hide the cost of this amendment from the Federal budget. Everyone in this Chamber should understand that the IRA part of this proposal will not increase savings. It is not intended to; it has only one purpose—to manipulate the budget process to hide the true cost of the capital gains tax cut.

This amendment includes a permanent cut in the capital gains tax rate and the establishment of a new individual retirement account. The IRA-plus provides for tax free accumulation of interest earnings rather than the upfront deduction of the IRA contribution provided under current law. Taken together, these two proposals will dramatically increase the Federal budget deficit. The capital gains cut will increase the deficit by about $4 billion a year. The IRA proposal will increase the deficit by even more when it is fully effective.

The sponsors of this amendment know that it would be politically difficult to propose, by itself, a capital gains tax cut that will add billions of dollars to the deficit. So they created this proposal to deal with their problem—not by cutting spending or raising revenue to pay for their capital gains tax cut—but by pushing the cost off to future generations and hiding its magnitude beyond the 5-year period within which Federal budget estimates are prepared.

This amendment does that by permitting taxpayers to prepay future taxes at a discount. In return for paying a tax over the next 4 years only on the amount originally deducted when the IRA contribution was made, the taxpayer will be relieved of paying any tax on the interest accumulated in the account. This will cause an increase in revenue over the 4-year period, followed by a much greater decline in revenue thereafter.

This tax benefit is intended to encourage the transfer of funds from existing savings accounts to savings and consumption accounts, from which a portion of the funds could be withdrawn to pay education, health care, or first time home purchase costs. This arrangement will confer substantial tax benefits on individuals. But it will reduce—not increase—savings because taxpayers will be given a substantial tax subsidy to convert from an existing account that is exclusively a savings account to an account that can be used for savings and consumption.

This is simply a method of paying for a new Government program by offering taxpayers a discount if they prepay their taxes. It is a flagrant budget gimmick. It is, in plain words, stealing from the future to pay for the present. Federal revenues will temporarily rise so the costs of this multibillion program can be hidden from the public. But then the revenue loss will begin and Federal deficits will shoot up.

The Congressional Budget Office has prepared an analysis of the Packwood-Roth proposal. It has quantified the true cost of this tax prepayment scheme. According to CBO, the proposal to encourage the transfer of IRA funds will lose substantial revenue over the long term because the typical individual transferring IRA funds will be given a discount on future taxes of approximately 53 percent. The Joint Tax Committee estimates that the revenue gain from transferring existing IRA's will be $11.5 billion over the 1990 to 1994 period. But, according to CBO calculations, this short-term revenue gain will eventually cost the Federal Government $22 billion, in present value. So the net revenue effect of this tax prepayment scheme is an increase in the deficit of about $10 billion in present value.

In other words, this amendment would spend $10 billion to purchase nothing more than a cover up of the cost of the capital gains tax cut. And remember, that is simply the revenue cost of the proposal to allow individuals to transfer existing IRA funds to an IRA-plus account. Much greater revenue losses will eventually occur from the proposals to cut capital gains taxes and establish the IRA-plus.

This is budget fraud that is astonishing in its audacity and irresponsibility.

It will not increase savings. It will not increase investment. It is designed to do only one thing: give President Bush a political victory on capital gains, no mater what the long term cost to the American people.

CONCLUSION

In his inaugural address to the Nation last January, President Bush spoke eloquently about the problems that face our Nation. He said "we have work to do." He went on:

> There are homeless, lost and roaming; there are the children who have nothing, no love, no normalcy; there are those who cannot free themselves of enslavement, to whatever addiction—drugs, welfare, the demoralization that rules the slums. There is crime to be conquered, the rough crime of the streets. There are young women to be helped who are about to become mothers of children they can't care for and might not love. They need our care, our guidance, and our education.

Then the President said we cannot solve these problems because we "have a deficit to bring down. Our will is greater than our wallet," he said.

President Bush was correct in his inaugural address. There are many unmet needs in our Nation that the Federal Government simply cannot now address.

Given our circumstances, when so many in our Nation are without decent housing, cannot afford an education, lack health insurance, it is a travesty that the Senate should now be seriously considering a huge tax cut for the very wealthy with no evidence that it will assist the economy.

Given our budget deficits, which can so adversely affect our Nation, it is wrong for the President to place a higher priority on cutting capital gains taxes than on reducing the Federal budget deficit.

This amendment is about the future of our Nation. It is also about the immediate past. That has been a period marked by unprecedented fiscal irresponsibility by a Federal Government bent on short-term political gratifica-

tion at the expense of our Nation's long-term interests.

It has been a period of enormous budget deficits fueled by disproportionate tax relief for the wealthy while so many other American needs have gone unaddressed. And it has been a period when America's politicians failed to provide the leadership necessary to prepare our Nation for the future.

I hope that changes. I look forward to a future when this Government no longer bends to the will of every special interest group out to get a benefit from the Government.

I look forward to a day when Government leaders are honest with the American people and admit that if we are really serious about encourging savings and investment that produce economic growth it will require the discipline to make the difficult choices that reduce the Federal budget deficit.

This amendment does not do that. It does just the opposite. We are struggling to reduce the deficit. This amendment will increase the deficit. It has been suggested by proponents of this amendment that this vote on cloture is a test of sentiment on capital gains. I suggest that it is a test of sentiment on the deficit.

A vote for cloture is a vote for fiscal irresponsibility. A Senator who votes for cloture cannot thereafter credibly claim concern over the budget deficit. A Senator who votes for cloture cannot with a straight face claim to be for reducing the deficit, since that Senator will have voted for a huge increase in the deficit.

A vote against cloture is a vote for fairness. A vote against cloture is a vote for fiscal responsibility. A vote against cloture is the right vote, for the Senate and the Nation.

DISTRIBUTION OF CAPITAL GAINS TAX CUT

When the Senate considered the Tax Reform Act of 1986, it had a choice between preserving the then existing 60 percent exclusion for capital gains with a top tax rate of approximately 40 percent on ordinary income, or repealing the capital gains exclusion and establishing a maximum tax rate of 27 percent on ordinary income. It chose the latter and now, 3 years later, Congress is contemplating a proposal that would destroy the compromise reached in tax reform by giving the rich both a low tax rate on ordinary income and a low rate on capital gains.

This should be viewed in the context of the trend in tax policy over the last 12 years which has been to increase or maintain existing tax levels for most Americans while reducing tax burdens for higher income households.

Contrary to much of the rhetoric we hear about the Reagan Presidency, the Federal tax burden on the American people is almost the same today, as a share of GNP, as it was in the year Ronald Reagan was elected President. The major difference, however, is that while most Americans pay a little more in taxes or about the same, the very wealthy pay much less as a result of recent tax policies.

According to a recent study by the Congressional Budget Office, compared to 1980 total Federal tax burdens today are either higher or about the same for the bottom 90 percent of the population by income. The top 10 percent of the population, however, pays about 10 percent less on average. The degree of tax relief increases with income such that the tax burden on the wealthiest 1 percent of the population is now about 15 percent below what it was in 1980.

A cut in capital gains tax rates will accelerate this trend because capital gains are overwhelmingly concentrated among those with the highest income. According to the Joint Tax Committee, 80 percent of the benefits of a capital gains cut will go to the 3 percent of all taxpayers with incomes in excess of $100,000. Thus, of the $67 billion in lost revenue that would be spent over the next decade if the President's proposal were enacted, $54 billion would be spent on the wealthiest 3 percent of all taxpayers; those with incomes in excess of $100,000.

In 1986, 71 percent of all capital gains were claimed by the 0.7 percent of all taxpayers with incomes in excess of $200,000. In 1985, less than one-tenth of 1 percent of all tax returns showed income in excess of $1 million. These taxpayers accounted for about 2.5 percent of total realized income for tax purposes, yet they accounted for fully 23 percent of all capital gains income.

The reason this amendment is so heavily tilted to the wealthy is that much of their income is from capital gains while middle-income families receive most of their income from wages and interest. For example, in 1985 the average family with income under $50,000 realized about 2 percent of their income in the form of capital gains. But for families with incomes between $200,000 and $500,000 capital gains accounted for about 30 percent of their income. For families with incomes over $1 million, capital gains accounted for almost 60 percent of their income on average. It follows, of course, that a cut in capital gains will be especially beneficial to those taxpayers who earn more of their income in the form of capital gains—that is the rich.

This effect shows up in the figures for 1986 returns which show that the capital gains deduction was worth an average of almost $42,000 to taxpayers with incomes in excess of $200,000, while it was worth less than $20 on average to taxpayers with incomes less than $50,000.

To be sure, millions of middle-income Americans will benefit from a reduction in capital gains taxes. From year to year, they will occasionally have capital gains income and I join many of my colleagues in Congress in a desire to reduce their tax burden.

A number of misleading references have been made on this floor about the number of middle-income Americans that benefit from a capital gains tax cut. For example, reference is made to a Joint Tax Committee estimate that 58 percent of all taxpayers who claim capital gains have incomes under $50,000. That's about 4½ million taxpayers; 4 percent of all tax returns filed.

But while many of the beneficiaries of a capital gains tax cut are middle class, their average benefit from this kind of tax cut is minimal compared to benefit for the wealthy. That this is so should be obvious when one considers that the President is choosing one type of income—income from capital gains—for favorable treatment. This particular type of income is the province of the rich. Most Americans earn their income from wages. In contrast, the rich earn most of their income from selling stocks, bonds, and real estate.

For example, for the typical middle-income family, capital gains comprise about 3 percent of their total income. But for the typical millionaire capital gains comprise on average about 60 percent of total income.

While taxpayers with incomes under $50,000 make up fully 82 percent of all taxpayers, they would receive only 8 percent of the benefit of this tax reduction.

The top 3 percent of the population is wealthy, they have a disproportionate share of national income, and currently pay a disproportionate share of total taxes; about 42 percent. Yet they would take 80 percent of this tax benefit.

We are asked in this amendment to single out one type of income—and income primarily earned by the rich—and give it special, preferential treatment even though there is almost no evidence that channeling investment into this area will produce better economic results. That is wrong. It is poor economic policy and even worse social policy.

VENTURE CAPITAL

One of the major claims by proponents of a capital gains cut is that it will encourage risk taking and productive investment increasing the flow of venture capital to startup companies. But if that is the aim, it is difficult to conceive of a more poorly targeted incentive because only a miniscule fraction of total capital gains is generated by startup companies.

In 1985, the Treasury Department released a study, "Report to Congress

on the Capital Gains Tax Reductions of 1978," which concluded that only 0.1 percent of outstanding corporate equity is associated with venture capital operations and that at least half of that amount is supplied by nontaxable entities, such as pension funds and foreign investors, unaffected by capital gains taxes. It is difficult to justify spending billions of tax dollars to encourage an activity that accounts for a miniscule fraction of total capital gains.

According to a study by MIT professor, James Poterba, there is little evidence that the 1978 and 1981 reductions in capital gains tax rates had a significant effect on the supply of venture capital funds. In fact, most of the growth of venture capital between 1978 and 1987 can be traced to foreign investors, corporations, pension funds, and nonprofit institutions. Individuals accounted for fully 32 percent of all venture capital in 1978. Yet, notwithstanding two capital gains tax rate reductions, individuals accounted for only 12 percent of all venture capital funding by 1987.

SAVINGS AND INVESTMENT

There is considerable question about the overall effect of a capital gains tax cut on the level of savings and investment in the economy and little reason to expect a more favorable economic response to this tax cut than to the 1981 tax cuts. In a recent study, Donald Kiefer, a senior specialist in economic policy with the Congressional Research Service, identifies three reasons why a capital gains tax cut will have only a very indirect and small effect on savings and hence investment.

First, only about a third of household savings are held in forms that are subject to capital gains taxes. Second, for many assets subject to capital gains tax, capital appreciation only represents a portion of the return on the asset so that less than one-third of the percentage cut in taxes flows through to increase the real after-tax return. Third, there is no agreement among economists that increasing the rate of return on savings will increase the amount of savings. A higher rate of return makes it more beneficial to save, but it also reduces the amount of savings necessary to have a given sum of money. An excellent illustration of this is the experience of the 1980's where the level of personal savings reached a postwar low in spite of the combination of the 1981 tax cuts and record high real interest rates.

LEVERAGED BUYOUTS

It would be ironic if the Congress, which began the year so consumed with exploring means to restrict leveraged buyouts [LBO's], ended the year with major legislation that will further encouraged LBO's. Yet that is what many economists believe will occur if a cut in capital gains taxes is approved.

Proponents of a capital gains tax cut make the argument that a reduction in the tax on corporate stock will increase stock values because investors with lower tax rates would be willing to pay more for the possible appreciation in the value of the stock. While there will be that effect, there are many factors that influence stock values that prevent a capital gains tax cut flowing through to stock market values. Certainly, the general confidence investors have in the economy and in the direction of interest rate and Federal budget deficits are far more important influences on the market. The Dow Jones index declined following the 1981 rate cut. In the 21 months since the capital gains exclusion was repealed as of January 1, 1988, the Dow Jones index has risen almost 800 points; or 40 percent in value.

But regardless of the indirect effect a capital gains tax will have on stock values overall, economists believe a capital gains cut will directly encourage LBO's. There are two influences at work here. The first, described in study by Jane Gravelle of the Congressional Research Service, is the effect a capital gains cut has on current holders of corporate equity. Because a capital gains tax increases their after-tax return when selling their stock, they are willing to accept a lower price premium above current market value when a tender offer is made in connection with an LBO takeover of a corporation. With reference to LBO's, Ms. Gravelle says "if the objective is to discourage these types of activities, one of the most important policies which can be undertaken is to maintain the full taxation of capital gains."

The second influence is a corollary of the first. An acquiring firm will be willing to offer a higher premium above market price for corporate stock because a cut in capital gains taxes will increase the after-tax yield of the investment. When an LBO firm such as KKR bids $109 for RJR Nabisco, twice what the stock was trading for on the New York Stock Exchange, part of the calculation in determining what price to pay involves an assumption about the after-tax return that will be obtained when RJR Nabisco stock is later sold by KKR through a public offering. If a cut in capital gains taxes permits KKR to keep more of price appreciation of the stock, it will be willing to pay a higher premium for the stock above market value.

The combination of stockholders willing to tender their shares for a smaller price premium, and LBO firms willing to pay a higher price premium, will increase LBO activity if capital gains taxes are reduced.

COMPARATIVE TAX BURDENS

Misleading comparisons are often made by looking at only selected tax policies in other nations. For example, we are told Japanese and German companies have a competitive advantage because those nations have a lower capital gains tax rate than the United States. The problem with this argument is that both Japan and Germany, or for that matter any nation, have a range of tax laws and other policies, some of which are more favorable and others which are less favorable. It is misleading to make selective comparisons.

Even if we were to assume that the United States imposes a high capital gains tax than that applied in Germany or Japan, we still must look at other tax policies. And it just so turns out that both nations impose far higher tax rates on all other income. Both nations impose far higher tax burdens on corporations. Both nations' tax policies have a greater effect on the cost of capital than tax policies in the United States.

The overall level of taxation in Germany is higher than in the United States while the overall level in Japan is about the same.

These are the facts but unfortunately facts tend to get lost in a debate such as this. Every American is vitally concerned about our ability to compete in international trade. We in Congress are suckers for any claim, no matter how ridiculous, that if we only spend a few billion dollars reducing someone's taxes, America will become competitive.

Most of our major trade partners have a higher level of overall taxation than the United States and almost all have higher maginal tax rates. While many of these nations do have lower capital gains tax rates on some categories of capital assets, it is not clear that the overall burden of taxation on all capital assets is lower.

The maximum tax rate in the United States is 28 percent. In contrast, the maximum rate in Japan is 50 percent; in Germany it is 53 percent; France, 57 percent; Taiwan, 50 percent; Korea, 64 percent; and the United Kingdom, 40 percent.

Total tax revenue as a percentage of gross domestic product is about 29 percent in the United States; almost identical to the level of taxation in Japan. In contrast, Canadian burdens are about 15 percent higher, German tax burdens are about 30 percent higher, British tax burdens are about 35 percent higher, and French tax burdens are about 53 percent higher.

It is particularly interesting to look at the trend in tax burdens over the last several years. From 1976 to 1986, Japanese tax burdens increased about 32 percent, French burdens were up about 14 percent, and British tax bur-

dens increased about 12 percent. In contrast, total tax burdens in the United States increased only about 2 percent.

U.S. tax policy is often criticized for encouraging consumption over investment. Yet taxes on consumption account for a far higher percentage of total tax revenue in this country than in Japan, about 30 percent higher. And at the same time, business taxes are far steeper in Japan—about 20 percent of total revenue compared to about 7 percent in the United States.

Since Japan is inevitably thrown up as a comparison of the nation whose tax policies we should emulate, a closer look at their tax system is in order. We have heard it mentioned repeatedly on this floor that Japan does not tax capital gains. That is simply untrue.

The Congressional Research Service recently examined the capital gains tax policies of Japan. It found that with respect to capital assets held less than 5 years, the capital gains tax burden is higher in Japan than in the United States. The maximum tax rate in Japan is 50 percent on these capital assets compared to 28 percent in the United States. For assets held longer than 5 years, the actual tax burden in Japan is probably higher, at least for higher income families. In the case of real estate held less than 10 years, the tax burden in Japan is unquestionably far higher. The capital gains tax rates on this property ranges from 40 to 55 percent. Only in the case of real estate held longer than 10 years and most stock transactions is the capital gains tax rate lower than in the United States. And then with respect to stock, the maximum tax rate is 20 percent.

While some of our trading partners have lower marginal capital gains tax rates on some assets, it is less clear that the actual effective tax rate on capital in the United States differs very much. For example, a study by Don Fullerton, a former Treasury Department Assistant Secretary in the Reagan administration, found that the effective tax rate on capital gains in the United States is less than 6 percent. This arises because of the ability to defer gains, to receive step-up basis at death, and because of the substantial corporate equity holdings by tax-exempt institutions. While Japan does not tax capital gains at death, it does require that the basis be carried over so that the tax is only deferred; not forgiven as in the United States.

Mr. President, is my time completed?

The PRESIDING OFFICER. There are 4 minutes and 10 seconds remaining.

Mr. MITCHELL. Mr. President, I reserve the balance of my time.

The Senator from Arkansas had expressed an interest in addressing the Senate briefly and I would like to yield that time to him, if I can.

Mr. WILSON. Mr. President, the Packwood-Roth proposal protects investors from the effects of inflation—and this encourages long-term investing.

The 5-percent exclusion per year—up to 7 years, totaling possible 35 percent exclusion—provides an incentive to hold investments. Without the exclusion, investors will demand instant gratification—instant returns. The Packwood-Roth proposal insulates capital investments from inflation, thus making it more attractive to hold them rather than turn them over for a quick buck. This is in the overall interests of the U.S. economy.

The Packwood-Roth proposal is also beneficial to small, startup companies—from which many of our country's best ideas were spawned. By granting a larger exclusion to gains from investments in small businesses, we are helping small business and helping maintain our international competitiveness.

Despite what some have said about startup companies, it takes more than a good idea and a garage in California to start a high-technology company; it takes money, too—and an enlightened Tax Code helped inventors generate the capital they needed in years past to start what are now major U.S. companies competing successfully worldwide. Companies such as Hewlett-Packard.

We still have good ideas being devised and developed in garages in California and elsewhere in the United States, but the entrepreneurs operating in them need capital to bring their ideas to market here and throughout the world. The Packwood-Roth proposal will help them get that capital. Are we going to rely upon Japan, Inc., to provide American small business the capital it requires?

Mr. President, in my colloquy with the distinguished Republican leader, I have noted the irony of bashing Japanese investment in one breath and arguing in the next that capital gains differential is not needed because we are flooded with foreign capital. Let us indeed encourage American investment in the United States and American saving.

The Packwood-Roth IRA proposal will benefit our economy greatly by encouraging savings.

Should full IRA deductibility be reinstated? Yes, but Packwood-Roth is a good start to encourage long-term savings.

The IRA proposal will not simply serve the national economic interests, but also the individual economic interests of families throughout the country at all levels of income. This is true, as the expanded IRA under the Packwood-Roth proposal is more flexible than the current IRA rules: Money may accumulate tax-free and be withdrawn without penalty not only for retirement, but also to fund education and the purchase of a home in a time when housing prices call for all the help we can give the home buyer in making a downpayment.

The IRA and capital gains tax provisions in the Packwood-Roth proposal also serve our international trade interests: Earlier this year we demanded talks with the Japanese over their "structural impediments" to our entering their markets. When they relented to sit down and talk, they presented their own agenda, including their demand that we change our Tax Code to encourage savings and investment—not consumption.

A capital gains reduction and an expanded IRA will encourage savings and investment. In response, the Japanese should make more of an effort to open their markets. The Packwood-Roth proposal is in our own domestic interests, but enactment can also help our negotiators in the trade talks with Japan.

Finally, Mr. President, the constituents who have most frequently, earnestly, and urgently pressed me to support the Packwood-Roth proposal are middle-income Californians who have or anticipate the need to sell some long-held major asset—a home, a farm, a small business. They are not a small coterie of high rollers. They are not the special interests against whom the opponents of this legislation have inweighted in such righteous demagoguery so often and again today. No, they are decent Americans entitled to a decent break. Let's give it to them.

Mr. MITCHELL. Mr. President, has all the time expired on the part of the proponents?

The PRESIDING OFFICER. Yes.

Mr. MITCHELL. I am advised that the Senator from Arkansas has left the floor. Accordingly, Mr. President, if the Senate is prepared to vote, I will yield back the remainer of my time.

Mr. President, I yield back the remainder of my time.

The PRESIDING OFFICER. All time is yielded back.

CALL OF THE ROLL

The PRESIDING OFFICER. By unanimous consent, the quorum call has been waived.

VOTE

The PRESIDING OFFICER. The question is, is it the sense of the Senate that debate on the substitute amendment to H.R. 3628, relative to capital gains, shall be brought to a close? The yeas and nays are required and the clerk will call the roll.

The legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Hawaii [Mr. MATSUNAGA] is absent because of illness.

Mr. PELL (when his name was called). Mr. President, on this vote, I have a pair with the distinguished Senator from Hawaii [Mr. MATSUNAGA]. If he were present and voting, he would vote "nay." If I were at liberty to vote, I would vote "yea." I withhold my vote.

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 51, nays 47, as follows:

[Rollcall Vote No. 295 Leg.]

Pell, for

NOT VOTING—1

Matsunaga

The PRESIDING OFFICER. On this vote, the yeas are 51, the nays are 47. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected.

Mr. MITCHELL. Mr. President, I move to reconsider the vote.

Mr. DIXON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. NUNN. Mr. President, I voted against the cloture motion on the Packwood-Roth capital gains-IRA proposal. I did so with some regret, given my long-held view that a capital gains differential encourages investment. In fact, I voted against the Tax Reform Act of 1986 in part because of my concern about the elimination of the capital gains rate. It was my belief then, and it remains my belief now, that a lower rate of taxation on the gains realized from sales of capital investments stimulates economic growth.

However, I cannot support the proposal before us today, or even its active consideration by the Senate, because it at best evades, and at worst actually undermines, the discharge of the most important responsibility we have before us in the closing days of this session. At this moment, the Federal Government is facing an imminent permanent sequester of funds under the Gramm-Rudman-Hollings procedure, due to our complete failure thus far to follow our own self-imposed goals for reducing the budget deficit. If it occurs, this across-the-board cut could have far-reaching implications for our defense program, for our education and housing efforts, for health care—indeed, for the entire national agenda. Institutionally, the sequester would represent an admission that we do not know how to raise the revenues sufficient to pay for the Federal initiatives we support.

At this low point in our fiscal history, it simply makes no sense to me that we should be seriously debating a measure, however worthy, and however well meaning, that does not contribute to deficit reduction, and that may on the contrary actually widen the gap between expenditures and revenues.

Proponents of the Packwood-Roth plan argue that any short-term loss of revenues created by a new capital gains rate will be offset by the revenues windfall produced by the amendment's IRA provisions.

Unfortunately, this argument reflects still more of the short-term fiscal perspective that has bedevilled our every effort to get the Federal budget under control. Perhaps the IRA provision of Packwood-Roth will generate some revenue in the first year or two, but the long-term revenue loss could be much more significant. Under certain assumptions, the Congressional Budget Office estimates the IRA-plus proposal could cost approximately $9.93 in lost future revenues for every dollar the Government collects in short-term tax receipts. I cannot imagine a worse signal we could send to financial markets or to the American people than to couple abandonment of our responsibility to manage the Federal budget with a measure that might make future management even more difficult.

There is much in the Packwood-Roth amendment that I find valuable, and that I hope we can act upon at the right time, and in the right manner. For example, I strongly support Senator PACKWOOD's concept of a graduated capital gains rate that reserves the strongest incentives for the most long-range investments.

But precisely because it is the long-range economic strength of this country that is at issue in the capital gains debate, we should consider it in the context of a comprehensive look at our economic policy. Next year, I hope that the President and the congressional leadership will jointly address the questions we have to address to get our country back on track: What is the best way to encourage savings and long-term investment? How can we responsibly offset any revenue loss from a capital gains or an IRA proposal? What do we need to do over the next 5 years to make meaningful reductions in the deficit while we encourage capital formation and long-term economic planning?

I urge those many Americans who support restoration of the capital gains tax to support this comprehensive look at our economic policy, while resisting the current effort to rush through a politically charged and fiscally uncertain proposal.

Many Members of Congress have spent much of the last year bewailing the inability of both the administration and of Congress to set priorities for our Nation. The only priority we can responsibly set right now is to avoid the mindless approach of a budget sequester, and deal with the Federal budget deficit before we adjourn. Then next year, we should take off the blinders and address all of our fiscal and economic policies in an intelligent and far-reaching manner.

SUPPORT FOR FAST EUROPEAN DEMOCRACY ACT

The Senate continued with the consideration of the bill.

AMENDMENT NO. 1121

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Delaware. On this question, the yeas and nays have been ordered, and the clerk will call the roll.

The bill clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Hawaii [Mr. MATSUNAGA] is absent because of illness.

The PRESIDING OFFICER. Is there any other Senator in the Chamber desiring to vote?

The result was announced—yeas 36, nays 63, as follows:

[Rollcall Vote No. 296 Leg.]

YEAS—36

NOT VOTING—1

Matsunaga

So the amendment (No. 1121) was rejected.

Mr. MITCHELL. Mr. President, I move to reconsider the vote.

Mr. EXON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ORDER OF PROCEDURE

Mr. MITCHELL. Mr. President, the vote about to occur will be the last rollcall vote this evening. We will continue, Senator DOLE and I, hopefully, to act on some measures which do not require rollcall votes and the Senate will return to consideration of one of the appropriations conference reports or authorization conference reports at 10 a.m. tomorrow morning.

I remind Senators, those who wish to attend the joint meeting to hear Mr. Walesa should be present in the Senate at 10:40 a.m. tomorrow morning when Senators will depart for the House Chamber. I thank my colleagues and I thank the managers of the Poland-Hungary aid bill for their patience and persistence.

The PRESIDING OFFICER. The question is on agreeing to the committee amendment in the nature of a substitute as amended.

The committee amendment in the nature of a substitute, as amended, was agreed to.

The PRESIDING OFFICER. The question is on the engrossment and the third reading of the bill.

The bill (S. 1582) was ordered to be engrossed for a third reading, was read the third time.

The PRESIDING OFFICER. Under the previous order, the clerk will now report the House companion bill. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 3402) to promote political and economic democracy in Poland and Hungary as those countries develop and implement programs of comprehensive economic reform.

The PRESIDING OFFICER. Under the previous order, all after the enacting clause of H.R. 3402 is stricken and the text of S. 1582, as amended by the Senate, is substituted in lieu thereof and the bill is deemed read a third time.

The bill having been read the third time, the question is, Shall it pass?

The yeas and nays have been ordered. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Hawaii [Mr. MATSUNAGA] is absent because of illness.

The PRESIDING OFFICER (Mr. KERREY). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 99, nays 0, as follows:

[Rollcall Vote No. 297 Leg.]

YEAS—99

Adams	Fowler	McClure
Armstrong	Garn	McConnell
Baucus	Glenn	Metzenbaum

NAYS—0

NOT VOTING—1

Matsunaga

So the bill (H.R. 3402), as amended, was passed.

TITLE AMENDMENT

Mr. SIMON. Mr. President, I send to the desk an amendment to the title of the bill and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

Amend the title so as to read "An act to promote political democracy and economic pluralism in Poland and Hungary by assisting those nations during a critical period of transition and abetting the development in those nations of private business sectors, labor market reforms, and democratic institutions; to establish, through these steps, the framework for a composite program of Support for East European Democracy (SEED).".

Mr. SIMON. Mr. President, the title amendment is self-explanatory.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment was agreed to.

Mr. SIMON. Mr. President, I move to reconsider the vote by which the bill, as amended, was passed.

Mr. MITCHELL. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. MITCHELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

DRUG-FREE SCHOOLS AND COMMUNITIES ACT OF 1989, AMENDMENTS TO PUBLIC HEALTH SERVICE ACT, DRUG SPECIAL FORFEITURE FUND, AND COMBATING INTERNATIONAL NARCOTICS PRODUCTION AND TRAFFICKING

Mr. MITCHELL. Mr. President, I ask unanimous consent that when the Senate receives H.R. 3614, the Drug-Free Schools and Communities Act of 1989, H.R. 3630, a bill to amend the Public Health Service Act with respect to the prevention of treatment of substance abuse, H.R. 3550, a bill with respect to the drug special forfeiture fund, and H.R. 3611, a bill to combat international narcotics production and trafficking, all after the enacting clause of each bill be deemed stricken; that the text of S. 1735, as passed the Senate on October 5, be inserted in lieu thereof; that each bill be considered as having been read for the third time, passed and the motion to reconsider each bill respectively be laid upon the table.

I further ask unanimous consent that the Senate insist on its amendments, request a conference with the House and that the Chair be authorized to appoint conferees on the part of the Senate.

Mr. DOLE. Mr. President, reserving the right to object——

Mr. MITCHELL. Mr. President, I ask that action by the Chair on my request be withheld pending discussion with one further Senator, and I suggest the absence of a quorum.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CHAFEE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CLOSING OF SCHOOLS IN THE WEST BANK

Mr. CHAFEE. Mr. President, it is with deep regret that I report the Is-

raeli Government is closing all the schools in the occupied West Bank today until January 10.

The Israeli Government has offered no explanation for this new order to shut down the schools, which have been open only since July 22—a brief 3½ months. Before that, the schools had been closed for a period of 18 months. I join our State Department in registering my profound dismay over this development.

My colleagues will remember that on July 20, this body approved an amendment that I offered to the State Department authorization bill regarding this issue. The amendment read:

The United States Congress commends Israel's decision to open the schools on the West Bank beginning on July 22, 1989. The Congress expresses the hope that all schools will be opened at an early date and will remain open, will not be closed or caused to be closed for political purposes, and will be respected and regarded as centers of education.

This was the word of the Senate on Israel's policy of closing schools. As the distinguished junior Senator from Kansas [Mrs. KASSEBAUM] said during debate on this amendment, of which she was also a sponsor, "Just as we so often argue in this body that food should not be used as a weapon, nor should education be used as a weapon."

On May 22, Secretary of State James Baker called on both the Palestinians and Israel to take steps "to move toward a serious negotiating process, to create the atmosphere for a renewed peace process." "Allow schools to reopen," he exhorted Israel.

And the Israelis did so, but for a period of only a little more than 3 months. And that was after the 320,000 Palestinian students in the West Bank had lost out on nearly 2 full academic years. Now it appears that they will be held back another 2 months, at least.

Now it appears that they will be held back another 2 months at least. As I have argued before, Mr. President, school closings are far more than a preventive measure on the part of the Israelis. They are a punitive measure. Loss of literacy and scholarship is a devastating blow to a people that prides itself on its high level of education.

I will make the point again that school closures controvert international law. It appears that the school closings violate the Geneva Convention which prohibit collective punishment. It is against the conventions to deny education to a kindergartener who has never thrown a stone. Indeed, not even South Africa has engaged in a systematic closure of schools in a particuliar area.

Further, article 50 of the Geneva Convention relative to the protection of civilian persons in time of war, Convention IV, states:

The occupying power shall, with the cooperation of the local and national authorities, facilitate the proper working of all institutions devoted to the care and education of children.

Clearly, Israel has chosen once again to disregard this important protection. The timing of the closure renewal is a sharp rebuff to the United States on the eve of the Israeli Prime Minister's visit to this country.

I urge my colleagues to make clear to our friend Israel that education, which is prized by Americans and Israelis alike, has no place in the middle of a political dispute. When Mr. Shamir arrives in Washington on Thursday, we must tell him in no uncertain terms that school closures are repugnant and intolerable. Schools should be reopened immediately and should stay open.

We must stand fast by our principles, and communicate vigorously our distress when our values are trampled upon.

I want to thank the Chair.

Mr. KOHL. Mr. President, I ask unanimous consent to speak as if in morning business for not to exceed 10 minutes.

The PRESIDING OFFICER. Without objection it is so ordered.

The Senator from Wisconsin is recognized.

Mr. KOHL. I thank the Chair.

(The remarks of Mr. KOHL pertaining to the introduction of S. 1876 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

The PRESIDING OFFICER. The Chair notes the absence of a quorum. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MITCHELL. Mr. President, I renew my unanimous-consent request as last stated regarding H.R. 3614, H.R. 3630, H.R. 3550, and H.R. 3611.

The PRESIDING OFFICER. Without objection, it is so ordered.

So, the bills, H.R. 3614, H.R. 3630, H.R. 3550, and H.R. 3611, as amended, were passed.

Pursuant to the above order, the Chair appointed Mr. KENNEDY, Mr. DODD, Mr. PELL, Mr. HOLLINGS, Mr. INOUYE, Mr. BIDEN, Mr. SARBANES, Mr. HATCH, Mr. COATS, Mr. DANFORTH, Mr. THURMOND, Mr. HELMS, and Mr. GRAMM conferees on the part of the Senate.

Mr. DOLE. Mr. President, I indicate for the RECORD that we may have a change in conferees tomorrow. If it is all right with Senator THURMOND, I am going to ask Senator WILSON to serve as a conferee in his stead.

CONFERENCE REPORT—H.R. 3015

Mr. MITCHELL. Mr. President, I ask that the Chair lay before the Senate the conference report on H.R. 3015, the Transportation appropriations bill.

The PRESIDING OFFICER. The Chair lays before the Senate a message from the House.

The assistant legislative clerk read as follows:

The House recedes and concurs with an amendment to Senate amendment No. 136.

Mr. MITCHELL. Mr. President, I move that the Senate concur in the amendment of the House to the amendment of the Senate numbered 136.

Mr. HOLLINGS. Mr. President, I rise today to lend my strong support for the passage of the conference report on H.R. 3015, the fiscal year 1990 Transportation appropriations bill, which includes urgently needed moneys to accelerate the war on drugs.

As my colleagues will recall, immediately after the President outlined his plan to combat illegal drug use in this country, the Subcommittee on Commerce, Justice, State, and the Judiciary approved my amendment to mount a real attack on drugs. I am pleased that this amendment, totaling $1,916,940,000 in additional funding for drug law enforcement programs, is included in title IV of the conference report now before us.

This additional funding for the Department of Justice, the judiciary, and the State Justice Institute, exceeds by $186 million the amounts requested by the administration to combat violent crime and illegal narcotics trafficking during fiscal year 1990. More specifically, my amendment fully funds President Bush's national drug control strategy for programs under the jurisdiction of Commerce, Justice, State, and the Judiciary Appropriations Subcommittee, while also restoring budget cuts he proposed in certain law enforcement programs, including the Juvenile Justice and Delinquency Prevention Program and the regional information sharing system—programs critical to an effective crackdown on drug use in this country.

Mr. President, title IV of H.R. 3015, now before the Senate for final approval, is $1.1 billion more than the total amount requested in the President's national drug control strategy and represents weeks of bipartisan negotiations between the White House, Senate, and House of Representatives. As a member of the task force appointed by our distinguished leader, Senator MITCHELL, I am particularly delighted to see the drug agreement includes substantially more than the President requested to combat drugs—particularly in the key areas of prevention, treatment, and interdiction.

The drug amendment which emerged from these negotiations is truly comprehensive across all fronts and represents a war of action, rather than simply a war on words. I urge the Senate's prompt adoption of this conference report.

Mr. LAUTENBERG. Mr. President, I want to clarify the intent of the conference committee with regard to eligibility guidelines for communities receiving subsidies under the Essential Air Service Program.

It is the intent of this committee that these guidelines, including the subsidy cap and mileage limitations specified in the conference report, are not to be applied beyond fiscal year 1990. Further, it is our intention that those airports listed in the report, because they meet the specified guidelines, should continue to receive EAS service for all of fiscal year 1990.

Should an airport's subsidy requirement rise above the $200 per passenger guideline during fiscal year 1990, it is our intention that the community will not lose service.

Mr. CRANSTON. Mr. President, I would like to take this opportunity to congratulate the distinguished Senator from West Virginia [Mr. BYRD] for his extraordinary efforts to secure passage of this legislation which markedly increase the appropriations for antidrug activities. In particular, close to $1 billion in new money will go for a variety of drug treatment, prevention, and research activities. Thousands more addicts will be able to receive treatment with the funding provided by this legislation, and we will be making substantial progress toward the goal of treatment on demand.

Mr. President, this legislation would also begin to reverse what I believe has been a period of neglect of critical drug prevention activities. During the 8 years of the Reagan administration we poured billions of dollars into drug interdiction and law enforcement efforts while only a small fraction of all antidrug funds and efforts have been devoted to drug prevention and education for our kids and our communities.

If we are going to succeed, we must provide our kids with real alternatives to the drug culture and the profitable criminal activities of drug-trafficking gangs. We must expose our children to positive role models and give them something to reach for and the tools to get there.

Over the last year, I have been holding public forums and meeting with community leaders throughout California on how best to reduce the demand for drugs. Working at the grassroots level, these parents, teachers, and community leaders are truly the foot soldiers in the war on drugs. But they need help. They need the financial assistance to put together comprehensive, effective and communitywide drug prevention programs. And they need the technical assistance to develop the strategies most likely to succeed.

I am delighted that the conference agreement before us would provide $40 million for comprehensive community substance abuse prevention activities. Together with the $10 million provided for these activities in the fiscal year 1990 Labor-HHS appropriations conference report, a total of $50 million will go directly to communities struggling to find ways to keep their kids off of drugs.

NATIONAL DRUG CONTROL STRATEGY LEGISLATION

Mr. President, enactment of this legislation makes passage of certain provisions of S. 1711, the national drug control strategy bill, even more imperative. That bill, as passed by the Senate on October 5, includes an amendment I authored that would provide a blueprint for implementing the $50 million for community substance abuse prevention efforts. The amendment was based on legislation I had introduced earlier, S. 1233, the Comprehensive Community Substances Abuse Prevention Act, that was inspired by the community forums I have been holding.

The amendment would require the Office of Substance Abuse Prevention to develop model programs for community prevention activities and to support coalitions consisting of public and private organizations that represent law enforcement, schools, health and social service agencies, community-based organizations and substance abuse prevention specialists in their efforts to develop substance abuse prevention programs; representatives from among the clergy, academia, business, parents, youth, the media, civic and fraternal groups would also be included in the community coalitions.

Mr. President, the House has not yet taken up its counterpart to our drug bill. I urge that provisions regarding community prevention efforts be included in the final package and that such action be taken expeditiously.

Mr. President, I firmly believe that whether the war on drugs will ultimately be won or lost depends on the success or failure of local grassroots efforts to decrease the demand for drugs. This legislation will provide much needed support for community efforts. I again thank and congratulate all Senators who were involved in conferencing the Byrd amendment and, most especially, the distinguished chairman of the Appropriations Committee, Mr. BYRD, the chairman of the Subcommittee on Labor-HHS, Mr. HARKIN, and the chairman of the Subcommittee on Transportation, Mr. LAUTENBERG, who is the manager of the bill.

Mr. BYRD. Mr. President, title IV of the conference agreement on H.R. 3015, the fiscal year 1990 Department of Transportation appropriation bill, contains antidrug funding for fiscal year 1990 totaling $3.183 billion. Senators will recall that this is the bill in which the Senate agreed, by a vote of 97 to 2, to include these additional antidrug funds.

I am pleased that the conference agreement contains virtually the same level of funding as passed by the Senate; it also retains the same funding ratio of 69:31 for supply versus demand. This compares to a 73:27 supply/demand ratio proposed by the President in his antidrug amendment. In order to offset the costs of the increased antidrug funding, the conference agreement contains the necessary reductions for each Appropriations Subcommittee. Entitlement programs are not reduced.

The antidrug outlay increases for fiscal year 1990 are fully offset by these cuts throughout the Government so that there is no increase in the fiscal year 1990 deficit.

Mr. President, the Senate also included 57 pages of antidrug legislation in H.R. 3015. These legislative provisions were included in the transportation appropriation bill pursuant to the bipartisan task force agreement, because the members of the task force felt that they were closely associated with the antidrug funding contained in the transportation appropriation bill.

The House insisted that their authorizing committees should be allowed to take up these legislative provisions. When it became clear that the House would not name conferees on the transportation appropriation bill because of these legislative provisions in the Senate-passed bill, the Senate (with the agreement of the leadership) passed these exact same provisions as a freestanding authorization bill, S. 1735.

The House then named conferees to the Transportation appropriation bill and the conference was completed.

In order to assure the Senate that the House intended to expeditiously consider the provisions of S. 1735, on October 20, the Speaker and the majority leader of the House wrote a letter to Senator MITCHELL providing such assurances and committing themselves to quick House action on these antidrug legislative provisions and to a reconciliation of the differences between the House and Senate on them before adjourning for the year.

Mr. President, based on the assurance by the House that they would take up these important antidrug legislative provisions, the Senate conferees on the transportation bill agreed to delete them from this bill.

Yesterday, November 13, 1989, the House took up and passed four measures that deal with these antidrug leg-

islative provisions: H.R. 3611, International Drug Trafficking; H.R. 3614, Drug-Free Schools; H.R. 3550, Drug Forfeiture Fund; and H.R. 3630, House Energy and Commerce Committee's issues.

So, Mr. President, the House leadership has met its commitment. We have also named conferees from the appropriate Senate legislative committees and can now go to conference and settle any differences between the two Houses.

It is my understanding that the relevant Senate committees—Labor, Judiciary, Foreign Relations, and Commerce—are prepared to go to conference on these measures and to complete those conferences quickly.

I want to express my appreciation to the majority and minority leaders, as well as all Senators who participated in the bipartisan task force that enabled us to provide these additional antidrug funds, and I urge the Senate to adopt the remaining amendment numbered 136 so that this measure may be sent to the President this evening. In addition, I want to again thank the chairman of the Transportation Appropriation Subcommittee, Senator LAUTENBERG, as well as the ranking Republican Senator D'AMATO for their excellent work in bringing this conference agreement to the Senate in a form that meets the transportation needs of this Nation in a balanced and effective way while still remaining within the budgetary constraints placed upon them. The conference report on the appropriation for the Department of Transportation for fiscal year 1990 requires the Secretary of Transportation to provide a report to the Congress annually, with updates every 6 months, on the exact nature of foreign participation in all airline acquisitions or mergers in the previous year, and their impact on our national security as well as on the goal of continued control of our airlines by Americans. The report is straightforward and simple, but it will provide us with a systematic data base on the question of foreign penetration of our civilian aviation industry, at a time when most major U.S. carriers are apparently the targets of various takeover efforts by speculators.

Mr. President, such data are needed by the Congress on a regular basis.

Every month we focus on the trade figures, the deficits between America and our foreign trading partners in merchandise and in services. The figures are precise, the trend lines charted, and attempts to correct it a matter of deep interest to all Senators. The omnibus trade bill which passed last year addressed this issue and, among other things, set into motion a process, known as Super 301 dealing with unfair trading practices by other nations. Less well understood, with no reliable regular data, is the steady acquisition of American companies by citizens and companies of other nations. Just recently, it was the cash purchase of Columbia pictures for over $3 billion by the Sony Corp. of Japan. Then, it was the computer business of the Zenith Corp. by a French Co. We do not know the long-term impacts of these various acquisitions. Without data it is impossible to evaluate the specific impact of such purchases of valuable American assets.

These assets are now being bought on the cheap, because the dollar is low in order to allow us to compete more effectively in the global market. My concern is that by the time the dollar's devaluation has the effect of making us once again truly competitive and our trade balances get back into the black ink, Americans will no longer own the crown jewels of the economy of the United States. A report just issued by the Treasury Department, according to a story in the Washington Post on October 28, 1989, projected continued high negative trade flows in 1990.

There are some controls over the acquisition of American companies in some sectors, but they are sporadic, without real rationality. The Congress does not even have the basic data to make judgments about the ownership of our economy—where the dangers of foreign ownership are, where the benefits are, how we control the mix, and what kinds of measures we should be taking when things have gone too far in one industry or another.

The airline industry is a very specific, timely case in point. Our airlines are under pressure by speculators carrying very large debt, in so-called leveraged buyouts. Airlines do have some regulatory framework, but it is vague and needs to be sorted out with the American national interest in mind. The authority of the Secretary of Transportation to act to refashion, limit, otherwise restrict, approve or disapprove such acquisitions is in doubt. The distinguished Senator from Kentucky has drafted legislation to clarify and expand the Secretary of Transportation's authority in this area. But even if the Secretary has the authority to act, we are still wrestling with the specific standards that he should be using, that he should be basing his actions upon. The purpose of this regular reporting provision is to develop an ongoing database so that we have a better understanding of what is happening and what we should be doing on both ends of Pennsylvania Avenue to protect our national economic interest.

Foreign airlines are being used to provide up-front cash in the buyouts of U.S. carriers. For instance, an American investor group recently bought Northwest Airlines and most of the upfront cash was put up by a Dutch airline, KLM. United Airlines was recently being pursued by an American employee-management group, with most of the up-front cash, or equity, provided by British Airways. Other airlines, such as Delta, are acquiring interests in foreign carriers in exchange for those foreign carriers' acquisition of parts of U.S. carriers. Where does all this lead us? How do we differentiate among these acquisitions? Which ones are good, which should be curtailed, which should be encouraged?

I would note, Mr. President, that the severe downturn and panic selling on the stock market on October 13, 1989, was precipitated by the collapse of the United Airlines buyout attempt, and that the deal was reported to have collapsed largely because Japanese banks pulled out of the financing arrangements. It was then reported that the Wall Street panic did not become a full-fledged stock market disaster because the Japanese markets remained calm. The report, in the New York Times of October 22, 1989, said:

> Had it not been for the Japanese, the recent 190-point drop in the Dow Jones Industrial Average could have gone from a scary market aberration to a disastrous financial freefall, with global exchanges now linked, as trading closed in New York that Friday, all eyes were on how Tokyo would open the following Monday. But because Japan remained calm, disaster was averted.

These events lead me to question the amount of control Japanese institutions have over our economy. First our markets are thrown into a panic partly as a result of decisions by Japanese banks, then we are to be grateful when the panic is calmed down by who?—by Japanese investors and traders. This does not say a lot for the extent of basic American control over the ebbs and flows of our own economy. When does the preponderance of foreign control, be it through various forms of ownership or leverage, become dangerous? Where are the thresholds signifying dangers? I believe that we do not have the answers to these questions. And I suggest we begin to find them.

The purpose of this amendment is to bring some coherence and develop sound policy standards into an area of increasing concern and fundamental national importance. I would hope that, in the long run, the data collected by the Department of Transportation will help chill the current takeover frenzy now gripping the airlines, and ensure that the ownership, control, and management of our carriers will be American, stay American, be economically healthy, and promote airline safety, service, and the American economy.

Mr. President, I ask unanimous consent that the aforementioned articles be printed in the RECORD at this point.

There being no objection, the articles were ordered to be printed in the RECORD, as follows:

[From the Washington Post, Oct. 28, 1989]

ADMINISTRATION PESSIMISTIC ABOUT CUTTING TRADE DEFICIT

(By Dave Skidmore)

In a pessimistic assessment of trade prospects, the Bush administration said yesterday it is unclear the trade deficit can be shrunk further and warned it may grow next year.

The current account deficit, the broadest measure of U.S. trade measuring investment flows as well as payments for goods and services, narrowed sharply in 1988 to $126.6 billion, down from a record $143.7 billion in 1987.

But progress has stalled this year, with the gap running at only a slightly better $122.8 billion annual rate from January through June.

The administration, in a report prepared by the Treasury Department, warned that the current account deficit may start widening again unless the Group of Seven industrial nations—the United States, Japan, West Germany, Britain, France, Canada and Italy—do a better job of coordinating economic policies, including currency rates.

"It would appear further improvement in the U.S. current account position in 1990, if any is to occur at all, is likely at best to be very modest," the Treasury said in its semiannual "Report to the Congress on International Economic and Exchange Rate Policy."

"Furthermore, the possibility of deterioration in the current account next year cannot be excluded," the report said.

A key element in the fight to reduce the U.S. trade deficit has been Group of Seven efforts this year to check an increase in the value of the dollar. A strong dollar can hurt the trade deficit by making American goods more expensive overseas and foreign imports cheaper on U.S. markets.

The Treasury report acknowledged that skepticism among currency traders is hindering the effort. Most private analysts believe that sales of dollars by central banks—the Federal Reserve System and its counterparts—can do less and less to buck market trends because they are increasingly a smaller proportion of total trading.

Group of Seven "cooperation has frequently come into question in the market during short periods of strong one-way exchange rate movements," the report said. "Such doubts appear to minimize the cumulative impact of G-7 operations."

The Group of Seven launched a new effort to contain the dollar in mid-September, which included dollar selling and interest rate increases in Japan and West Germany. However, the report noted that it took the Oct. 13 stock sell-off in the United States to subdue the dollar.

In light of that, the report said longer-term and broader efforts to coordinate economic policy by reducing U.S. demand for imports and bolstering foreign economic growth "will play a critical role."

The report was prepared under a provision of the Trade Act of 1988 that requires the administration to look for cases of currency manipulation by American competitors in world trade and to negotiate to halt such practices.

Under the law, the administration has singled out South Korea and Taiwan. Yesterday's report expressed approval of Taiwan's effort to boost its currency and lower its trade surplus, but sharply criticized South Korea. The two countries have for many years used some of the money earned through their trade surpluses to buy and sell currencies on the open market to keep their own currencies weak in relation to the dollar, marking their products cheaper for Americans than they would otherwise be.

However, the report noted that the Taiwanese dollar has appreciated 12 percent over the past year against the U.S. dollar. It said Taiwan put in place a new exchange rate system in April and took other significant steps to curb its trade surplus, which has been declining this year and is expected to continue falling. "We are encouraged by [these] significant steps," the report said.

Despite an appreciation of the South Korean won in 1988, the report rebuked Seoul for the 0.75 percent fall in the value of that currency since April. "We are quite concerned that Korea avoid any depreciation of the won," the report said.

[From the New York Times, Oct. 22, 1989]

THE REALITIES OF "FRIDAY THE 13TH"

(By Leslie Wayne)

Thank you, Tokyo.

Had it not been for the Japanese, the recent 190-point drop in the Dow Jones industrial average could have gone from a scary market aberration to a disastrous financial freefall. With global exchanges now linked, as trading closed in New York that Friday, all eyes were on how Tokyo would open the following Monday. But because Japan remained calm, disaster was averted. "If it weren't for Japan holding up, I'd say that internationalization was a disaster," said Barton M. Biggs, a managing director at Morgan Stanley & Co.

But the fact that Japan held firm illustrates the benefits—and the risks—of continued market globalization. Financial theory teaches that there are no returns without risk and greater stock market links give investors the opportunity to make more money in more places. With that, however, comes new risks: of a system that is far more vulnerable to sudden jolts and of individual central banks that are increasingly unable to do anything about it.

"The danger of globalization is that if everyone goes crazy at the same time, you've got a bigger problem than before," said Hans Stoll, director of financial markets research at the Owen Graduate School of Management at Vanderbilt University. Said Richard Levich, a finance professor at New York University's Stern School of Business: "You've got more eyes focused and when news comes out you've got more people running through a small door."

And that rush is what almost took place when the Dow plunged 190 points in the last 45 minutes before the New York Stock Exchange closed on Oct. 13. The Federal Reserve Board took advantage of the weekend, when most markets were closed, to try to calm the markets by promising liquidity.

Financial experts say the event adds several points to the debate about the impact of greater market internationalization:

The appetite for foreign equities will increase despite such terrifying market plunges because these securities help provide diversification that reduces portfolio risk.

On any single day, except for times of worldwide panic, most stock exchanges generally act independent of one another. In general, they respond to specific economic, cultural and regulatory environments in their countries—differences that keep the various equity markets from marching in lock step. A rise in prices in London doesn't automatically spell a rise that day in Tokyo.

Over time, globalization will reduce the power governments have over their nation's economy. The increased ease with which money can flow across borders means policy makers can no longer assume that their nation's capital is captive. Because of this, some say financial markets will play a larger role in overriding, or even setting, economic policy.

When a worldwide market panic sets in, globalization can take a bad situation in one market and create an international crisis. This took place during the stock market plunge in October 1987 when "hot money" from investors seeking to liquidate their positions at any price circled the globe.

Investors have less of a safety net than they once had because there is now no single lender of last resort. In the past, jittery American markets could be calmed by assurances of ample liquidity from the Federal Reserve. While such assurances are still powerful, globalization lessens their impact. This is because central banks all have different national interests and cannot be expected to act as a united front during a crisis.

"It doesn't really matter whether globalization is good or bad," said James Rogers, a finance professor at the Columbia University Business School. "Nothing can be done about it. Electronics and communications are changing the world. There's lots of money sloshing around the world and it's got to go somewhere. Many of the economies are closely linked and that means their markets will closely linked. Now, everyone has to worry."

CROSS-BORDER CRAZE

Certainly, nothing appears to be halting the trend toward greater cross-border equity trading. As American firms set up shop overseas and foreign investment houses settle here, it has become increasingly easy for investors to buy the stocks of other nations.

Since 1980, foreign trading in United States securities has increased by 19 percent annually to reach $384 billion at the end of 1988. American purchases of foreign equities have increased by about 30 percent annually, reaching about $151 billion in 1988, according to the Securities Industry Association.

From an investment perspective, globalization provides investors a safe way to get greater portfolio diversification without reducing their expected returns. The notion is that investing in many countries provides safety since as one country's market goes up, another's may go down.

As a result, overseas investments are becoming a standard part of most institutional portfolios. And, increasingly, mutual funds made up of stocks from a single country or geographic region are being bought by retail investors. Since 1985, global equity funds have grown faster than the mutual fund industry in general. With about $20 billion in assets, they now represent about 10 percent of the total mutual fund market, according to the Investment Company Institute.

Years of returns can be wiped out in one terrifying moment if investors panic. While long-term investors may be fine, those with short-term focus can be devastated.

"This time we saw the Frankfurt market drop after our market dropped," said John J. Phelan, chairman of the New York Stock Exchange. "But that seemed to be a local condition rather than enormous amounts of hot money running around the world. Hot money makes the markets riskier, more volatile, for short periods of time. What we

saw after 1987, is that if you hung on, in most markets in the world you would have been better off than before 1987 occurred."

Ironically, for all the market linkages, studies show that exchanges generally perform independently of one another. "The evidence shows that markets are driven by what happened in local economies," said Gary P. Brinson, president of Chicago-based Brinson Partners, which manages about $12.5 billion.

Of course, there are global economic trends that can affect many markets similarly. For instance, most world markets have rebounded since the 1987 crash, largely due to sustained global economic growth. The tendency of markets to respond to different cues, while still keeping an eye on one another, was also evident in the Dow's recent 190-point plunge. New York fell on Friday and then recovered on Monday. London and Tokyo remained firm on Monday.

JAPANESE COMPOSURE

"When the Japanese market didn't overreact, other markets sensed what was happening and came back into synch," said Joseph R. Hardiman, president of the National Association of Securities Dealers Inc.

The events also reflect the influence that investor psychology affects the markets. For instance, Japanese investors are generally less sensitive to risk considerations and are more likely to ride out a storm. "They have been through an ebullient period of their economy," he said. "Their currency and their markets are strong. It's given the Japanese a great deal of self-confidence about their situation."

Likewise, the unexpectedly steep decline of 13 percent in the Frankfurt exchange reflected unique West German attitudes. "We were flabbergasted that the German market went down as far as it did," Mr. Brinson said. "German investors are almost hyper risk-averse and if any global event takes place, it is amplified within the minds of the German people."

In fact, these differing responses to the 190-point drop in New York has turned some notions about the German and Japanese markets on their heads. Theoretically, the underpriced German market should be considered a less risky investment than the Japanese market, where stocks are considered overpriced. But that theory did not hold in the most recent drop.

"German individuals panicked because of what was happening in the United States," said Mr. Biggs of Morgan Stanley. "After what happened last week, the risk premium for Germany should go up, and for Japan it should go down. What all professionals agree is that Japan, the most overpriced market in the world, consistently understands panic better than anyone else."

Increased market globalizaton is also bringing about shifts in power between financial markets and their home governments. "The most significant implication of globalization is that a domestic government cannot really control the economic destiny of a country because the capital will leave," said Michael A. Petrino, president of Matric Capital Management in Greenwich, Conn. "For instance, if you have a disadvantageous tax policy, the capital will leave, unemployment will go up and you get thrown out of office. This means that markets will determine economic policy to a larger degree than they did when we had highly segmented markets."

And this means a new role for the central banks. Steven Einhorn, chairman of the investment policy committee at Goldman Sachs, said that increased market links have brought about heightened international economic policy coordination, with the Group of Seven's attempts to stabilize foreign exchange rates one prominent example. After October 1987, virtually all major central banks provided liquidity to their economies. "They acted like our central bank, and going forward, they would continue to do that," Mr. Einhorn said.

But others aren't so sure. "Averting a crisis requires coordination of central banks; and when there are national interests that diverge, you may not be able to assure that," said William L. Silber, a professor of finance at New York University's Stern School of Business. "A crisis in Japan, for instance, may lead the Japanese central bank to do something that may not be in the best interest of all other countries. You do not have the safety net of a single central bank except to the extent that central banks agree to cooperate. That's a safety net, with holes."

GLOBAL LIMITATIONS

Still, for all these links, barriers remain that prevent the world's exchanges from becoming more fully integrated. The limitations are real: back-office operations are often cumbersome and time-consuming, settlements in different currencies can be problematic and regulations vary significantly among countries, as do corporate accounting standards.

"The major barrier to greater globalization is regulation," said Morris Mendelson, a professor of finance of the Wharton School of business. "America doesn't like Americans being taken for a ride on foreign exchanges. And there are significant clearing and settlement problems. Let's say you want to trade Jananese securities in Tokyo. You've got to ship them off to Tokyo and convert your money to yen. That's a lot of delays."

But Steven H. Reynolds, managing director of the investment group at the Bankers Trust Company, noted that many of these barriers are falling. "Ten years ago, the limitations were infinite," he said. "Day by day, they are being broken down. The world is changing rapidly toward a more unified system."

What is more, informal contacts among traders and bankers are solidifying. Mr. Reynolds said that after the October 1987 crash, "there was little cooperation and coordination among market participants." But, this time; "principals in this country contacted people overseas and exchanged knowledge so that investors didn't act irrationally."

GROUP FAILS TO FINISH UAL DEAL—NEW TERMS SOUGHT BY BANKS TO FINANCE $6.75 BILLION BUYOUT

(By Agis Salpukas)

The group seeking to acquire the UAL Corporation, the parent of United Airlines, said yesterday that it had failed to complete the financing of its $6.75 billion buyout. But the group said its banks had advised that the deal could be financed "on revised terms."

The announcement by the group, which includes United's pilots' union, UAL executives and British Airways P.L.C., helped bring on a plunge in the stock market yesterday.

The New York Stock Exchange halted trading of UAL stock shortly after 3 P.M. While the stock was down $3.50 a share, to $285.25, at the halt of trading, the West Coast brokerage firm Jefferies & Company, which trades stock after the markets close in New York, said UAL stock was trading at $230 a share in London, down more than $55, late yesterday. The buyout price is $300 a share.

The problems with financing and the sharp drop in the market could put pressure on buyout proposals like Donald J. Trump's offer to buy the AMR Corporation, parent of American Airlines, for $120 a share. Jefferies said AMR stock was trading at $81 a share in after-hours markets yesterday, down from $98.625 at closing on the New York Stock Exchange.

Financial advisers to unions and Wall Street analysts said several factors about financing the UAL deal troubled potential lenders, particularly the Japanese. One was the fierce opposition to the buyout by the machinists' union at United Airlines, which has argued that the buyout would put UAL too heavily in debt that it had been based on overly optimistic projections and that it could threaten the viability of the union's pension plans.

TOUGH NEGOTIATIONS

Another factor, they said, was the tough stance taken by UAL management in negotiating with lender banks on interest rates and terms for the financing. A third was attempts in Congress and the Administration to put more controls on leveraged buyouts.

The UAL buyout appeared to be moving toward completion until two days ago, when the machinists asked the Labor Department to review the proposed deal.

The buyout group had a letter of commitment that Citibank and the Chase Manhattan Bank had agreed to provide $3 billion in financing for the transaction and that they would make their best efforts to secure an additional $4.2 billion. Both banks had said they were confident that they could find the rest of the financing.

* * * * *

LENDERS SPURN FINANCING FOR UAL BUYOUT

"Lenders are getting more chary," said Robert A Joedicke, a securities analyst with Shearson Lehman Hutton.

Although no one involved would comment on what aspect of the deal had torpedoed the arrangement, there was widespread speculation that the key to the collapse may have been a reported decision by Japanese banks not to participate in the financing.

Japanese lenders were leading participants in the recent takeover of NWA Inc., the parent of Northwest Airlines, but in the case of the UAL deal, sources speculated that they may have declined to participate.

The UAL deal has been challenged by the International Association of Machinists, the largest union at United, and is facing scrutiny by the U.S. Department of Transportation, which has raised concerns about foreign investment in airline transactions.

* * * * *

In addition, some analysts have questioned the underlying assumptions used to demonstrate that the deal could work without undermining the airline's financial viability—even in the event of a recession. At the same time, Congress is pursuing legislation that would make the UAL transaction and similar deals harder to complete.

"My speculation is that the bankers got cold feet at the last minute," said Raymond E. Neidl, a junk bond analyst with Dillon, Read & Co.

Even so, hardly anyone was willing to bet that the wave of restructuring in the airline industry was over.

"The airline companies are still a very attractive investment opportunity for a number of reasons," said Rep. James Oberstar (D-Minn.).

Oberstar's aviation subcommittee of the House Public Works Committee will meet Monday to consider a bill that would give DOT more authority to review proposed airline buyouts before they take place.

Despite its impact on the rest of the market, UAL's stock price was not as hard hit as others, evidence to some analysts that there is still investor interest in the airline stocks. UAL dropped 5½ to 279¾; Delta fell 7¾ to 69¼; AMR was off ⅛ to close at 98⅝. * * *

The PRESIDING OFFICER. The question is on agreeing to the motion.

The motion was agreed to.

Mr. MITCHELL. Mr. President, I move to reconsider the vote.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

UNANIMOUS-CONSENT AGREEMENT ON CONFERENCE REPORT—H.R. 2461

Mr. MITCHELL. Mr. President, I ask unanimous consent that the majority leader, after consultation with the Republican leader, may turn to the consideration of the conference report accompanying the Department of Defense authorization bill, H.R. 2461, and that it be considered in the following time limitation:

Two and a half hours on the conference report to be divided as follows:

One hour under the control of Senator NUNN; 50 minutes under the control of Senator WARNER; 10 minutes under the control of Senator WALLOP; and 30 minutes under the control of Senator GLENN.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. MITCHELL. Mr. President, I ask unanimous consent that there now be a period for morning business with Senators permitted to speak therein.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE MAKING OF THE TWO DAKOTAS

Mr. DASCHLE. Mr. President, Rand McNally may not know where the two Dakotas are located, but Helen Graham Rezatto definitely does.

Helen was born and raised in Ellendale, ND, and now resides with her husband in Rapid City, SD.

Her book, "The Making of the Two Dakotas," is a superb centennial history of our two States. It recounts the frontier foundation of States whose values to this day underpin the very best our Nation has to offer.

Helen's abilities and her perceptive understanding of the Dakotas are underscored both by publication of her works in the New York Times, Reader's Digest, and elsewhere, and by her selection of my State over its northern neighbor as her adult residence.

I commend this fine book to my colleagues and congratulate Helen Rezatto on her achievement.

CORRECTING RUMOR CONCERNING IRS ACTIVITY

Mr. BENTSEN. Mr. President, many of my colleagues in the Senate and in the other body are receiving communications from their constituents asserting that the Internal Revenue Service is planning to impose income tax on accrued, but unpaid, vacation pay and sick leave benefits.

This is totally incorrect. As chairman of the Finance Committee, I authored legislation, which was enacted into law last year as part of the Technical and Miscellaneous Revenue Act of 1988, to ensure that these accrued, but unpaid, benefits are not taxed before they are paid.

Somehow, a rumor has started which has confused and upset a large number of Federal, State, and local employees. I ask unanimous consent to have printed in the RECORD some information from the IRS which should clear up this matter.

There being no objection, the information was ordered to be printed in the RECORD, as follows:

INTERNAL REVENUE SERVICE,
Washington, DC, October 13, 1989.

Mr. TERRY ROGERS,
Director, Legislative Affairs, American Federation of Government Employees, Washington, DC.

DEAR MR. ROGERS: This is in response to a memorandum circulated by Chapter 495 of the American Federation of Government Employees among the employees of a number of governmental entities claiming that the Internal Revenue Service intends to tax governmental employees on vacation and sick pay which has been earned but not yet paid out. This memo, a copy of which is attached, is totally incorrect. It has caused unnecessary concern to many recipients and has prompted numerous phone calls and letters to us from members of Congress concerning the federal income tax treatment of accrued but unused sick and vacation pay earned by governmental employees. For your information, we have enclosed a copy of a fact sheet we have prepared in response to this memo, explaining the basic rules regarding the taxation of vacation and sick pay.

Although we cannot determine the source of the incorrect information being circulated, the confusion regarding the taxation of accrued but unpaid vacation and sick pay apparently originated from a misreading of a notice issued by the Service in 1987 regarding the tax treatment of nonelective deferred compensation under section 457, as amended by the Tax Reform Act of 1986. Upon becoming aware of concerns expressed by some governmental employees that they would be taxed on these benefits when they were earned rather than when they were received or paid, the Service issued a revised notice in June 1988, which was essentially codified in the Technical and Miscellaneous Revenue Act of 1988 (TAMRA). This notice and the TAMRA provision specify that certain bona fide benefit plans, including vacation leave and sick leave plans, are not deferred compensation plans subject to the section 457 requirements. Furthermore, we should emphasize that section 457, by its terms, is applicable to employees of state and local governmental units and of tax-exempt organizations, but not to employees of the Federal government. Therefore, any concern about the taxation, under section 457, of accrued but unpaid vacation and sick pay (which was resolved in 1988 as explained in the fact sheet) is completely inapplicable to Federal employees.

The memorandum also refers to an "H.R. 4221" which is said to be designed to overturn the (nonexistent) IRS decision to tax unpaid vacation and sick pay. Our research indicates that this bill was introduced in 1988 during the second session of the 100th Congress and died without action at the end of that Congressional session. As explained above and in the attached fact sheet, this bill was not necessary to prevent the taxation of unpaid vacation and sick pay in light of the recently enacted TAMRA provision regarding bona fide vacation and sick leave plans.

We hope that you will find the information in the enclosed fact sheet helpful, and we request that your office immediately inform your local chapters, particularly Local 495, regarding the current state of the law. This may help to allay the fears of many employees about taxation of their benefits. If you have further questions on this matter, you may contact John Tolleris of my staff at 566-3060.

Sincerely,

MARY E. OPPENHEIMER,
Acting Assistant Chief Counsel (Employee Benefits and Exempt Organizations).

EXAMPLE OF ERRONEOUS FLYER

The Internal Revenue Service has declared that government (State and Federal) employees benefits are taxable. The IRS will begin taxing the cost of employer-paid benefits such as Health, Welfare, and disability payments. Also, the IRS will tax all unused sick leave and vacation at the end of each year at the appropriate value.

Example: If you earn $10.00 per hour and work an 8 hour day, each work day is worth $80.00. If you have 20 sick days and 20 vacation days accumulated at the end of the year they would have a total value of $3200. You would have to add this amount to your total income before paying your taxes.

(Reprint from Pennsylvania Postmaster Newsletter)

All employees alert! The above article is fact. The decision by the IRS to tax our sick, annual, and disability, payments has already been made an will affect your income taxes this year. Only you can stop this outrage. H.R. 4221 (House of Representatives Bill 4221) is an attempt to overturn this unfair treatment. It is strongly urged that all public employees write their Senators and Representatives to ask their support for H.R. 4221 to overturn this ruling by the IRS.

INTERNAL REVENUE SERVICE,
Washington, DC, November 6, 1989.

DEAR MEMBER OF CONGRESS: This is in response to your communication requesting clarification of the federal income tax treatment of accrued but unused sick and vacation pay earned by governmental employees. Incorrect information is being circulated which claims that the Internal Revenue Service intends to tax governmental employees on such benefits when earned but not yet used or paid out.

Let me begin by explaining that vacation and sick pay of federal, state and local governmental employees falls under the basic income tax rule for compensation for service. That is, vacation and sick pay is includible as gross income for the year in which it is received. Thus, payments for annual or sick leave are taxed when the leave is actually used or when employees are paid for the accumulated but unused leave, usually upon retirement.

The misinformation concerning the taxation of accrued but unpaid vacation and sick pay apparently stems from the mistaken notion that the benefits are subject to section 457 rules regarding nonelective deferred compensation. Let me emphasize that section 457, by its terms, does not apply at all to federal employees. In any event, vacation and sick leave plans are not considered deferred compensation plans covered by section 457. Therefore, the same tax treatment discussed above applies to vacation and sick pay for all governmental employees. These benefits are not taxed when earned, but, rather, when the employee receives the benefit by using it or being paid for it.

Some confusion existed following the amendment of section 457 by the Tax Reform Act of 1986. A clarification was eventually codified in section 6064 of the Technical and Miscellaneous Revenue Act of 1988 (TAMRA). That legislation excepted from section 457 any bona fide vacation leave, sick leave, and certain other, benefit plans.

A Legislative Fact Sheet explaining this in some detail is enclosed. We hope that you will find this information helpful in responding to your constituents. Copies of the referenced documents are available from Legislative Affairs Division. Requests may be forwarded to Debbie Palomino at 566-3914.

For further information, you may contact A. Thomas Brisendine of the Office of Assistant Chief Counsel (Employee Benefits and Exempt Organizations) at 566-3050.

With best regards,

Sincerely,

GAYLE G. MORIN,
Assistant to the Commissioner
(Legislative Liaison).

Enclosure

LEGISLATIVE FACT SHEET

TAXATION OF GOVERNMENTAL EMPLOYEES' VACATION AND SICK PAY

The Internal Revenue Service has been made aware of ongoing confusion regarding the tax treatment of accrued but unpaid vacation and sick pay earned by governmental employees. Some taxpayers mistakenly believe that such benefits are subject to taxation as deferred compensation under section 457 of the Internal Revenue Code, and, thus, must be included in income before being paid. This fact sheet explains the rules for taxation of vacation and sick pay; and clarifies that section 457 does not apply to vacation and sick pay earned by governmental employees.

The longstanding basic income tax rule is that compensation for service in any form is generally includible in gross income for the year in which it is actually or constructively received, under sections 61(a)(1) and 451(a) of the Internal Revenue Code and applicable regulations. Certain fringe benefits and other compensatory items are exempt from federal income tax under specific Code provisions. Payments for annual or sick leave, however, are not exempted under any such provision. Bona fide annual or sick leave, therefore, is not taxed when it is earned, but when the leave is actually used or when employees are paid for the accumulated but unused leave, usually right after their retirement.

Section 457 of the Code, entitled "Deferred Compensation Plans of State and Local Governments and Tax-Exempt Organizations," allows the deferral of a limited amount of compensation for services rendered to a state or local government or a tax-exempt organization. If certain requirements are satisfied, the deferred compensation is includible in gross income when it is actually received or is made available (usually after separation from service). If these requirements are not satisfied, the amounts deferred are subject to taxation under section 457(f) when the employee has a nonforfeitable right to receive them, even though the actual payment may be delayed until a later date.

Section 457, by its terms, applies only to state and local governmental units and to tax-exempt organizations, not to the federal government. Accordingly, vacation and sick pay earned by federal employees remains subject to the general rule for taxation of compensation for service discussed above. Payments for annual or sick leave for such employees are taxed when the leave is used or when payment is made for accumulated but unused leave, not when such benefits are earned.

There was some early uncertainty regarding state and local employees when section 457 was amended by Section 1107 of the Tax Reform Act of 1986 (P.L. 99-514). Guidelines were issued by the IRS in January 1987 with the publication of Notice 87-13. The notice did not specifically discuss vacation or sick leave with regard to nonelective deferred compensation, but governmental employees expressed concerns that they would be taxed on these benefits under section 457, that is, when they were earned rather than when they were received or paid. In response to these concerns, the IRS issued subsequent guidelines, Notice 88-8 and Notice 88-68, that further explained that bona fide vacation and sick leave benefits were not subject to section 457 and that they would continue to be treated in the same way they had previously been treated.

This IRS position was codified by section 6064(a)(1) of the Technical and Miscellaneous Revenue Act of 1988 (TAMRA), enacted on November 10, 1988. As amended by TAMRA, section 457 now contains a statutory exception for any "bona fide vacation leave, sick leave, compensatory time, severence pay, disability pay, or death benefit plan". These benefits are not subject to the section 457 requirement for deferred compensation plans. Instead, vacation and sick pay earned by state and local governmental employees, like that of federal employees, remains subject to the general rule for taxation of compensation for service discussed above. Payments for annual or sick leave for such employees are taxed when the leave is used or when payment is made for accumulated but unused leave, not when such benefits are earned.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Kalbaugh, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

REPORT ON NATIONAL EMERGENCY WITH RESPECT TO IRAN—MESSAGE FROM THE PRESIDENT—PM 75

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States; which was referred to the Committee on Banking, Housing, and Urban Affairs:

To the Congress of the United States:

I hereby report to the Congress on developments since the last report of May 23, 1989, concerning the national emergency with respect to Iran that was declared in Executive Order No. 12170 of November 14, 1979, and matters relating to Executive Order No. 12613 of October 29, 1987. This report is submitted pursuant to section 204(c) of the International Emergency Economic Powers Act, 50 U.S.C. 1703(c), and section 505(c) of the International Security and Development Cooperation Act of 1985, 22 U.S.C. 2349aa-9. This report covers events through September 6, 1989, including those that occurred since the last report under Executive Order No. 12170, dated May 23, 1989. That report covered events through March 28, 1989.

1. Since the last report, there have been no amendments to the Iranian Assets Control Regulations, 31 C.F.R. Part 535 (the "IACR"), or the Iranian Transactions Regulations, 31 C.F.R. Part 560 (the "ITR"), administered by the Office of Foreign Assets Control ("FAC"). The major focus of licensing activity under the ITR remains the importation of certain non-fungible Iranian-origin goods, principally carpets, which were located outside Iran before the embargo was imposed, and where no payment or benefit accrued to Iran after the effective date of the embargo. Since March 28, 1989, FAC has made 151 licensing determinations under the ITR.

During the reporting period, the Customs Service has effected numerous detentions and seizures of Iranian-origin merchandise, primarily carpets, caviar, and pistachios, for violations of the Iranian Transactions Regulations. FAC and Customs Service investigations of these violations have resulted in forfeiture actions and imposition of civil monetary penalties amounting to more than $2.6 million. Numerous additional forfeiture and civil penalties actions are under review.

In the case of *United States v. Benham Tahriri*, the defendant (who is also subject to forfeiture and civil penalty actions) was sentenced to 90 days in a halfway house and 2 years' probation. Criminal proceedings in eleven (11) additional cases involving several individuals and corporate entities are pending in various jurisdictions. One arrest warrant is outstanding. Indictments have been issued in the case of *United States v. Ahmad Elyasian*, which is now pending in the United States District Court for the Western District of North Carolina.

Finally, FAC has issued a Directive License to the Federal Reserve Bank of New York ("FRBNY") authorizing disbursement to the Iran-United States Claims Tribunal by FRBNY of $316,361.17, plus accrued interest. This amount represents an award granted by the Tribunal in December 1987 in favor of a U.S. national. An FAC investigation revealed the award had been obtained by fraudulent means. The return of this award to the Tribunal demonstrates to Iran the commitment of the United States to the continued viability of the Tribunal as a legal forum for the resolution of claims arising from the Iranian hostage crisis.

2. The Iran-United States Claims Tribunal (the "Tribunal"), established at The Hague pursuant to the Algiers Accords, continues to make progress in arbitrating the claims before it. In the period since the last report through September 6, 1989, the Tribunal has rendered 20 awards, for a total of 438 awards. Of that total, 321 have been awards in favor of American claimants: 197 of these were awards on agreed terms, authorizing and approving payment of settlements negotiated by the parties, and 124 were decisions adjudicated on the merits. The Tribunal has dismissed a total of 26 other claims on the merits and 59 for jurisdiction reasons. Of the 32 remaining awards, two were withdrawn, and 30 were in favor of Iranian claimants. As of September 6, 1989, awards to successful American claimants from the Security Account held by the NV Settlement Bank stood at $1,282,257,009.20.

As of September 6, 1989, the Security Account has fallen below the required balance of $500 million 30 times. Iran has replenished the account 29 times, as required by the Algiers Accords, by transferring funds from the separate account held by the NV Settlement Bank in which interest on the Security Account is deposited. Iran has also replenished the account once when it was not required by the Accords, for a total of 30 replenishments. The total amount in the Security Account as of September 6, 1989, was $496,118,287.84. The amount in the interest account as of September 6, 1989, was $112,138,515.00. The aggregate amount that has been transferred from the interest account to the Security Account is $667,998,999.39.

On July 7, 1989, Mohammad K. Eshragh resigned from his position as Iranian agent to the Tribunal. He had served as the Iranian agent since the Tribunal's inception. He was replaced by Ali Heyrani-Nobari, who had been serving as Iran's deputy agent.

3. The Tribunal continues to make progress in the arbitration of claims of U.S. nationals for $250,000 or more. Over 70 percent of the nonbank claims have now been disposed of through adjudication, settlement, or voluntary withdrawal, leaving 153 such claims on the docket. The largest of the large claims, the progress of which has been slowed by their complexity, are finally being decided, sometimes with sizable damage awards to the U.S. claimant. Since the last report, 16 large claims have been decided. One U.S. company received a judgment of $110 million.

4. The Tribunal continues to process claims of U.S. nationals against Iran of less than $250,000 each. As of September 6, 1989, a total of 394 small claims have been resolved, 32 of them since the last report, as a result of decisions on the merits, awards on agreed terms, or Tribunal orders. Four contested claims have been decided since the last report, raising the total of contested claims decided to 28, 17 of which favored the American claimant. These decisions will help in establishing guidelines for the adjudication or settlement of similar claims. To date, American claimants have also received 56 awards on agreed terms reflecting settlements of claims under $250,000.

The Tribunal's current small claims docket includes approximately 160 active cases. It is anticipated that the Tribunal will issue new scheduling orders later this fall to bring its active docket to approximately 225 active cases.

5. In coordination with concerned Government agencies, the Department of State continues to present U.S. Government claims against Iran, as well as responses by the U.S. Government to claims brought against it by Iran. Since my last report, the Department has filed pleadings in ten government-to-government claims. The Department defended a claim brought by an Iranian individual against the United States in a hearing before the Tribunal. In addition, two claims have been settled.

6. Between March 28, 1989, and October 17, 1989, seven bank syndicates have completed negotiations which Bank Markazi Jomhouri Islami Iran ("Bank Markazi," Iran's central bank) and have been paid a total of $2,016,007.17 for interest accruing for the period of January 1-18, 1981 ("January Interest"). These payments were made from Dollar Account No. 1 at the Federal Reserve Bank of New York ("FRBNY"). Moreover, under the April 13, 1988, agreement between the FRBNY and Bank Markazi, the FRBNY returned $2,961,225.28 of Iranian funds to Bank Markazi. That transfer represents the excess of amounts reserved in Dollar Account No. 1 to pay off each bank syndicate with a claim for January Interest against Bank Markazi.

7. Since the last report, there have been no amendments to the Iranian Assets Control Regulations, 31 CFR Part 535, administered by the Office of Foreign Assets Control. There have been no amendments to the Iranian Transactions Regulations, 31 CFR Part 560, since their publication on November 17, 1988.

8. The situation reviewed above continues to implicate important diplomatic, financial, and legal interests of the United States and its nationals and presents an unusual challenge to the national security and foreign policy of the United States. The Iranian Assets Control Regulations issued pursuant to Executive Order No. 12170 continue to play an important role in structuring our relationship with Iran and in enabling the United States properly to implement the Algiers Accords. Similarly, the Iranian Transactions Regulations issued pursuant to Executive Order No. 12613 continue to advance important objectives in combatting international terrorism. I shall continue to exercise the powers at my disposal to deal with these problems and will continue to report periodically to the Congress on significant developments.

GEORGE BUSH.

THE WHITE HOUSE, *November 14, 1989.*

MESSAGES FROM THE HOUSE

At 11:45 a.m., a message from the House of Representatives, delivered by Ms. Goetz, one of its reading clerks, announced that the House has passed the following bill, with amendments, in which it requests the concurrence of the Senate:

S. 978. An act to authorize the establishment within the Smithsonian Institution of the National Museum of the American Indian, to establish a memorial to the American Indian, and for other purposes.

The message also announced that the House has passed the following

bill, in which it requests the concurrence of the Senate:

H.R. 2459. An act to authorize appropriations for the Coast Guard for fiscal year 1990, and for other purposes.

At 6:15 p.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 1465. An act to establish limitations on liability for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes.

MEASURES PLACED ON THE CALENDAR

The following bill was read the first and second times by unanimous consent, and placed on the calendar:

H.R. 2459. An act to authorize appropriations for fiscal year 1990, and for other purposes.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, which were referred as indicated:

EC-1921. A communication from the Director of the Defense Security Assistance Agency, transmitting, pursuant to law, a report on the Department of the Air Force's letter of offer to Korea for defense articles estimated to cost in excess of $50 million; to the Committee on Armed Services.

EC-1922. A communication from the Secretary of Housing and Urban Development, transmitting, pursuant to law, a report entitled "Providing Supportive Services to the Frail Elderly in Federally Assisted Housing"; to the Committee on Banking, Housing, and Urban Affairs.

EC-1923. A communication from the Administrator of the Federal Aviation Administration, transmitting, pursuant to law, the semiannual report on the effectiveness of the Civil Aviation Security program for the period July 1 to December 31, 1989; to the Committee on Commerce, Science, and Transportation.

EC-1924. A communication from the Deputy Associate Director for Collection and Disbursements, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report on the refund of certain overpayments of offshore lease revenues; to the Committee on Energy and Natural Resources.

EC-1925. A communication from the Acting Administration of General Services, transmitting, pursuant to law, an informational copy of a lease prospectus for the Federal Emergency Management Agency and the Federal Labor Relations Authority in Washington, D.C.; to the Committee on Environment and Public Works.

EC-1926. A communication from the Acting Administrator of General Services, transmitting, pursuant to law, informational copies of certain prospectuses; to the Committee on Environment and Public Works.

EC-1927. A communication from the Acting Administrator of General Services, transmitting, pursuant to law, an informational copy of a Building Project Survey Report for Nashville, Tennessee; to the Committee on Environment and Public Works.

EC-1928. A communication from the Acting Administrator of the General Services Administration, transmitting, pursuant to law, an informational copy of a lease prospectus for Anchorage, Alaska; to the Committee on Environment and Public Works.

EC-1929. A communication from the United States Trade Representative, transmitting, pursuant to law, a report on recent developments regarding implementation of section 301 of the Trade Act of 1974; to the Committee on Finance.

EC-1930. A communication from the Assistant Secretary of State (Legislative Affairs), transmitting, pursuant to law, language to authorize $200 million for assistance to Poland; to the Committee on Foreign Relations.

EC-1931. A communication from the Chairman of the Council of the District of Columbia, transmitting, pursuant to law, copies of D.C. Act 8-105 adopted by the Council on October 10, 1989; to the Committee on Governmental Affairs.

EC-1932. A communication from the Chairman of the Council of the District of Columbia, transmitting, pursuant to law, copies of D.C. Act 8-107 adopted by the Council on October 24, 1989; to the Committee on Governmental Affairs.

EC-1933. A communication from the Chairman of the Council of the District of Columbia, transmitting, pursuant to law, copies of D.C. Act 8-108 adopted by the Council on October 24, 1989; to the Committee on Governmental Affairs.

EC-1934. A communication from the Secretary to the Postal Rate Commission, transmitting for the information of the Senate, notice of the promulgation of procedures for consideration of contract rates; to the Committee on Governmental Affairs.

EC-1935. A communication from the Chairman of the National Credit Union Administration, transmitting, pursuant to law, notice of the establishment of an Office of Inspector General within the National Credit Union Administration; to the Committee on Governmental Affairs.

EC-1936. A communication from the Chairman of the Federal Communications Commission, transmitting, pursuant to law, a report on compliance with the Inspector General Act Amendments of 1988; to the Committee on Governmental Affairs.

EC-1937. A communication from the Chairman of the Board of Directors of the Corporation for Public Broadcasting, transmitting, pursuant to law, a report on compliance with the Inspector General Act Amendments of 1988; to the Committee on Governmental Affairs.

EC-1938. A communication from the Comptroller General of the United States, transmitting, pursuant to law, a report entitled "General Services Administration—Sustained Attention Required to Improve Performance"; to the Committee on Governmental Affairs.

EC-1939. A communication from the Chairman of the Administrative Conference of the United States, transmitting, pursuant to law, a report on compliance with the Inspector General Act Amendments of 1988; to the Committee on Governmental Affairs.

EC-1940. A communication from the Chairman of the Interstate Commerce Commission, transmitting, pursuant to law, a report on the establishment of an Office of Inspector General within the Commission; to the Committee on Governmental Affairs.

EC-1941. A communication from the Chairman of the Board for International Broadcasting, transmitting, pursuant to law, a report on compliance with the Inspector General Act Amendments of 1988; to the Committee on Governmental Affairs.

EC-1942. A communication from the Director of the Peace Corps, transmitting, pursuant to law, a report on compliance with the Inspector General Act Amendments of 1988; to the Committee on Governmental Affairs.

EC-1943. A communication from the Director of Selective Service, transmitting, pursuant to law, a report on compliance with the Inspector General Act Amendments of 1988; to the Committee on Governmental Affairs.

EC-1944. A communication from the General Counsel of the Department of the Treasury, transmitting a draft of proposed legislation to raise the authorized pay level of the Treasurer of the United States to Executive Level IV; to the Committee on Governmental Affairs.

EC-1945. A communication from the General Counsel of the Department of the Treasury, transmitting a draft of proposed legislation to change the statutory authority for the pay level of the Director of the United States Mint to Executive Level V; to the Committee on Governmental Affairs.

EC-1946. A communication from the Chairman of the Securities and Exchange Commission, transmitting, pursuant to law, a report on compliance with the Inspector General Act Amendments of 1988; to the Committee on Governmental Affairs.

EC-1947. A communication from the Chairman of the Federal Communications Commission, transmitting, pursuant to law, notice of the resignation from government service of the Commission's Inspector General; to the Committee on Governmental Affairs.

EC-1948. A communication from the Secretary of Education, transmitting, pursuant to law, final regulations for the Income Contingent Loan Program, Subpart E—Due Diligence; to the Committee on Labor and Human Resources.

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-375. A joint resolution adopted by the Legislature of the State of California; to the Committee on Commerce, Science, and Transportation.

"ASSEMBLY JOINT RESOLUTION NO. 51

"Whereas, The National Rail Passenger Corporation (AMTRAK) continues to serve California residents with alternative transportation at an increasingly efficient level, thereby reducing the harmful environmental effects of smog-producing automobile transportation; and

"Whereas, Section 306(i) of the Rail Passenger Service Act (45 U.S.C. Sec. 546(i)) exempts AMTRAK from the sanitation regulations of the United States Surgeon General adopted under Section 361 of the Public Health Service Act (42 U.S.C. Sec. 264); and

"Whereas, One effect of this exemption is to permit AMTRAK to discharge human waste from its trains and to prevent the states from controlling that situation; and

"Whereas, This discharge creates a health and safety problem for both railway employees and the general public who come in direct contact with or in close proximity to the railroad right-of-way; and

"Whereas, This practice causes pollution of streams and rivers, thereby adversely impacting our precious natural resources and the environment; and

"Whereas, This problem could be solved if AMTRAK were to install proper holding tanks for human waste on its trains and to discharge these tanks only at terminal areas for proper waste disposal; now, therefore, be it

"Resolved by the Assembly and Senate of the State of California, jointly, That the California Legislature respectfully memorializes the President and Congress to require the installation of proper holding tanks on AMTRAK trains to eliminate the problem of the discharge of human waste on the right-of-way and to make available the necessary funding, separate from and exclusive of federal funding otherwise provided for AMTRAK operations and subsidies, for AMTRAK to retrofit its trains with the necessary equipment in this regard; and be it further

"Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the National Railroad Passenger Corporation."

POM-376. A resolution adopted by the 1989 Older Iowans' Legislature relative to further taxation of Social Security benefits; to the Committee on Finance.

POM-377. A resolution adopted by the 1989 Older Iowans' Legislature favoring the repeal of the surtax on the Medicare Catastrophic Act of 1988; to the Committee on Finance.

POM-378. A resolution adopted by the 1989 Older Iowans' Legislature favoring actions by all Americans to complete and return the 1990 census form to assure the most accurate census count possible; to the Committee on Governmental Affairs.

POM-379. A resolution adopted by the 1989 Older Iowans' Legislature favoring the implementation of an adequate national health care program; to the Committee on Labor and Human Resources.

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. PELL, from the Committee on Foreign Relations:

Treaty Doc. 101-4. United Nations Convention Against Illicit Traffic in Narcotic Drugs and Psychotropic Substances (Exec. Rept. No. 101-15).

Treaty Doc. 101-2. ILO Convention No. 160 (Exec. Rept. No. 101-16).

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. EXON (for himself and Mr. KERREY):

S. 1875. A bill to redesignate the Calamus Dam and Reservoir authorized under the Reclamation Project Authorization Act of 1972 as the Virginia Smith Dam and Calamus Lake Recreation Area; to the Committee on Environment and Public Works.

By Mr. KOHL (for himself, Mr. HATCH, Mr. HARKIN, Mr. BUMPERS, Mr. BOSCHWITZ, and Mr. KERREY):

S. 1876. A bill to amend the Internal Revenue Code of 1986 to provide a refundable tax credit for the costs of small businesses in providing accessibility for disabled individuals; to the Committee on Finance.

By Mr. KENNEDY (for himself and Mr. HATCH):

S. 1877. A bill to improve the operational efficiency of the James Madison Memorial Fellowship Foundation, and for other purposes; placed on the calendar.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon) as indicated:

By Mr. MITCHELL (for himself and Mr. DOLE):

S. Res. 208. A resolution to authorize testimony and document production by Senate employee in *Springfield Terminal Railway Co.* v. *United Transportation Union*, No. 88-0117P; considered and agreed to.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mrs. KASSEBAUM:

S. 1874. A bill to amend the Public Health Service Act to provide for the establishment of a national program for tropical medicine and infectious disease, and for other purposes; to the Committee on Labor and Human Resources.

INFECTIOUS DISEASE CONTROL ACT OF 1989

Mrs. KASSEBAUM. Mr. President, I rise today to introduce legislation aimed at improving our Nation's ability to cope with the potentially devastating threat of infectious viruses imported from abroad. Despite growing evidence that diseases from the world's virus-rich tropical regions pose a serious danger to U.S. citizens, Federal efforts to better understand and control such infections remain meager and disorganized.

Long dismissed as distant afflictions of faraway populations, tropical diseases have in recent years begun to show resurgent strength in the United States, as well as in other developed nations. The AIDS epidemic, with its probable origins in the tropics of central Africa, is perhaps the most dramatic illustration of this threat—but it is certainly not the only one. Facilitated by the ever-increasing volume of international travel and commerce, tropical diseases of many varieties are surfacing within our borders with increasing frequency.

Though malaria was eradicated from the United States in 1946, the Centers for Disease Control estimate that it now afflicts about 1,000 persons in this country every year. Two outbreaks have occurred in southern California within the past 4 years, and health officials in New York have reported new strains of the disease which are resistant to existing treatments.

Another point of concern to tropical disease scientists is the resurgence of dengue fever, a viral disease often fatal to children. Though it was eradicated in most of this hemisphere by the mid-1950's, dengue has now reappeared in southern Texas, and its mosquito carrier has been reported in 17 States.

In addition to malaria and dengue, epidemiologists also worry that other, newly recognized tropical viruses such as lassa, rift valley, marburg, and ebola fevers pose serious potential hazards to American citizens. As Nobel laureate Dr. Joshua Lederberg has put it, "The microbe that felled one child in a distant continent yesterday can reach yours today and seed a global epidemic tomorrow."

Mr. President, despite the potent health threat posed by tropical viruses, U.S. research and prevention efforts remain badly splintered and dangerously underfunded. A number of Federal agencies do support tropical disease research of one kind or another, but nowhere does there exist a central clearinghouse for the coordination of these efforts. Furthermore, despite the involvement of agencies as varied as the National Institute of Allergy and Infectious Diseases, the Centers for Disease Control, and the Department of Defense, Federal spending on tropical disease research adds up to less than 2 percent of our total biomedical research budget.

In 1987, the Institute of Medicine at the National Academy of Sciences published a report examining the state of United States efforts against tropical disease. Noting a critical shortage of trained experts in the field, the report concluded that the current system of tropical disease research and prevention is "insufficient to ensure U.S. ability to cope with more than occasional domestic cases of [such] diseases."

Mr. President, the legislation I am introducing today authorizes the creation of a National Program for Tropical Medicine within the Department of Health and Human Services. The chief function of the program will be to act as an interagency coordinating body for the various Federal agencies involved in tropical disease research and prevention. In addition, the program's director will be charged with submitting a plan to Congress outlining an efficient allocation of resources and responsibilities among the various affected agencies.

The legislation also authorizes the establishment of an expert committee to provide guidance to the program's

director. Members of the committee, to be appointed by the Secretary of Health and Human Services, will include tropical disease researchers, family physicians and internists, State and local health officials, Members of Congress, and representatives of Federal agencies involved in tropical disease research and control.

Introduced in the House by Representative RALPH REGULA and the late Representative Claude Pepper, this bill has won the unanimous support of the Federal agencies currently involved in tropical disease research, including the National Institutes of Health, the Centers for Disease Control, and the Department of Defense. It has also been endorsed by the American Society of Tropical Medicine and Hygiene, as well as the National Foundation for Infectious Diseases.

Mr. President, this is a modest proposal designed to provide the basic organizational framework for more effective United States efforts against tropical infectious diseases. Combined with enhanced appropriations for tropical disease research and prevention, the changes authorized in this bill will significantly improve America's ability to respond to emerging viral threats, both at home and abroad.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1874

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Infectious Disease Control Act of 1989".

SEC. 2. ESTABLISHMENT OF NATIONAL PROGRAM FOR TROPICAL INFECTIOUS DISEASES.

(a) IN GENERAL.—The Public Health Service Act is amended by inserting after title XI (42 U.S.C. 300b-1 et seq.) the following new title:

"TITLE XII—TROPICAL DISEASES

"SEC. 1201. ESTABLISHMENT OF NATIONAL PROGRAM FOR TROPICAL MEDICINE.

"The Secretary shall establish a National Program for Tropical Medicine to achieve optimal prevention of human infectious diseases originating in the tropics and to plan and coordinate governmental and nongovernmental activities including research, epidemiology, data collection and sharing, drug and vaccine evaluation and licensing, professional training, and public education. The program shall be administered by a Director (hereinafter referred to in this title as the Director) who shall be appointed by the Secretary.

"SEC. 1202. PROGRAM RESPONSIBILITIES.

"(a) IN GENERAL.—The Director shall, through the plan established under section 1201—

"(1) coordinate and provide direction to the agencies of the Public Health Service, the Department of Defense, and the Agency for International Development on training of clinicians and scientists for the development and maintenance of national expertise to prevent or avert infectious diseases on a national and worldwide basis;

"(2) coordinate and provide direction to the agencies of the Public Health Service, the Department of Defense, and the Agency for International Development to increase and maintain global epidemic intelligence sufficient to ensure prevention of the spread of tropical infectious diseases;

"(3) coordinate and provide direction for research carried out in or through the National Institutes of Health, the Centers for Disease Control, the Food and Drug Administration, the Department of Defense, and the Agency for International Development on all research and clinical studies aimed at reducing tropical infectious diseases;

"(4) coordinate and provide direction for activities carried out in or through the National Institutes of Health, the Centers for Disease Control, the Food and Drug Administration, the Department of Defense, and the Agency for International Development to develop the techniques needed to produce and test safe and effective drugs and vaccines to be used against tropical infectious disease, and to ensure speedy licensing of those products and techniques proven safe and effective;

"(5) coordinate and provide direction to the agencies of the Public Health Service, the Department of Defense, and the agency for International Development on the needs for production, procurement and distribution of medicines and related products to prevent and to control the spread of tropical infectious diseases that threaten the United States or the global economy, that shall include efforts to encourage public acceptance and use of drugs, vaccines and techniques to prevent and control such diseases;

"(6) facilitate the appropriate exchange of information between Federal agencies involved in the implementation of this title and nongovernmental entities engaged in research and the development and production of products for tropical medicine, and encourage the investment of nongovernmental resources complementary to the government activities under this subchapter; and

"(7) make funds and technical assistance available to Federal agencies involved in the implementation of this title to supplement the funds otherwise available to such agencies for such purposes.

"(b) CONSULTATION.—In implementing the responsibilities of subsection (a) the Director shall consult with all Federal agencies involved in research and training in the area of tropical medicine.

"SEC. 1203. PLAN.

"The director shall prepare and issue a plan for the implementation of the responsibilities of the Director as described in section 1202(a). The plan shall establish priorities in training, research, development, testing, licensing, procurement, and distribution of products related to tropical medicine. The plan shall identify resources and describe how each of the various Federal agencies will carry out their functions in consultation and coordination with the program and in conformity with the plan's priorities and within their own resources. The initial plan under this section shall be prepared not later than January 1, 1991, and shall be revised not later than January 1, of each succeeding year.

"SEC. 1204. REPORT.

"Not later than January 1, 1991, and biennially thereafter, the Director shall prepare and submit, to the appropriate Committees of Congress, a report concerning the implementation of the program and plan as established under this title.

"SEC. 1205. NATIONAL COMMITTEE ON TROPICAL MEDICINE.

"(a) ESTABLISHMENT.—The Secretary shall establish a National Committee on Tropical Medicine. The members of such Committee shall be appointed by the Secretary, in consultation with the director of the National Institute of Medicine, and shall include individuals who are engaged in tropical medicine research or training, family physicians and internists, State or local health agencies, Federal agencies, and Members of Congress.

"(b) DUTIES.—The Committee established under subsection (a) shall—

"(1) recommend training and career opportunities regarding tropical medicine to ensure an adequate supply of trained clinicians;

"(2) recommend research priorities and other measures to the Director regarding tropical medicine;

"(3) advise the Director on opportunities for public education needed to prevent the spread of tropical diseases within the United States;

"(4) identify annually for the Director those areas of government and nongovernmental cooperation that should be considered in imlementing this title; and

"(5) advise the director concerning the implementation of this title.

"SEC. 1206. AUTHORIZATION OF APPROPRIATIONS.

"There are authorized to be appropriated to carry out this title, such sums as may be necessary for each of the fiscal years 1991 through 1993.".

By Mr. KOHL (for himself, Mr. HATCH, Mr. HARKIN, Mr. BUMPERS, Mr. BOSCHWITZ, and Mr. KERREY):

S. 1876. A bill to amend the Internal Revenue Code of 1986 to provide a refundable tax credit for the costs of small businesses in providing accessibility for disabled individuals; to the Committee on Finance.

SMALL BUSINESS REHABILITATION RELIEF ACT

Mr. KOHL. Mr. President, I rise to introduce legislation that would provide a refundable tax credit to help small businesses defray the cost of making their establishments accessible to the disabled.

I am introducing this bill on behalf of myself and Senators HATCH, HARKIN, BOSCHWITZ, and BUMPERS. In addition, Congressman MOODY is introducing parallel legislation in the other body.

The Senate recently passed the Americans with Disabilities Act. I support that legislation. Under the ADA, business will be required to make their premises accessible to disabled employees and customers. Our economy needs the contribution of the disabled. The ADA should facilitate that contribution.

All of society will benefit by the renovations that business undertakes. As a consequence, we believe it is proper that society shares in the costs of those renovations. We should not

force business to shoulder the entire cost of the ADA.

The bill we are introducing today addresses this concern. The proposal builds on an amendment offered by Senator HATCH during debate on the Americans with Disabilities Act. That approach has since been embodied in legislation introduced by Senators PRYOR and HATCH and others.

While both of our approaches utilize tax credits, this bill employs a different structure for that credit. I base this change on two principles.

First, providing access to the disabled is, at least in part, a cost of doing business. Second, any credit should encourage the most economical renovations possible

Our bill incorporates those principles. Under the bill, business would receive a refundable 80-percent tax credit for eligible expenditures between $250 and $4,000. This amounts to a maximum annual refundable credit of $3,000. After spending $250, businesses would be eligible for a tax credit amounting to 80 cents on every dollar spent.

Businesses eligible for the credit would have a choice over what to do with expenditures exceeding the $4,000 cap. They can carry forward these excess amounts and apply them against the tax credit in future years—again, subject to the annual $4,000 cap. Or, they can deduct expenditures over $4,000 as already allowed under section 190 of the Internal Revenue Code.

In addition, our tax credit is targeted to small businesses for whom the costs of renovations would be most onerous. A business qualifies for the tax credit if it has fewer than 30 full-time employees or less than $4 million in annual gross receipts.

In addition, the tax credit is refundable so it can help even those start-up businesses that are not yet profitable. These features should insure that businesses most strained by the expenses of renovation are the ones we help.

Finally, we think the bill complements and furthers the goals of the ADA. While ADA would require many businesses to undergo renovations, some businesses are not covered by the act. Our bill's tax credit would be available even to these noncovered businesses. The bill thus provides an incentive for business to make worksites accessible to and usable by the disabled even when the ADA imposes no such requirement.

This legislation has been developed in cooperation with many people. I would like to introduce in the RECORD letters from the Wisconsin Restaurant Association, the Wisconsin Merchants Federation, the Wisconsin Independent Businesses, Inc., the Wisconsin Grocers Association, the Wisconsin Manufacturers, and Commerce Association, the National Federation of Independent Businesses, the Small Business Legislative Council and the National Small Businesses United, and I ask unanimous consent that the letters be printed in the RECORD, at the end of my statement.

The National Restaurant Association has also endorsed the bill. Other organizations, including the National Federation of Independent Businesses—Wisconsin, the Independent Business Association of Wisconsin and the National Grocers Association, have also been very helpful in putting this legislation together and I thank them.

Mr. President, we face a very competitive world economy. If we are to succeed in that marketplace, we must all pull together. We cannot afford to allow anyone to stand on the sidelines. The Americans with Disabilities Act will help by bringing the disabled into the game. Our bill, the Small Business Rehabilitation Act, will in turn help small business as they bring these important workers into our economy.

Thank you, Mr. President. I ask unanimous consent that this legislation be printed at the close of my remarks.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1876

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Small Business Rehabilitation Relief Act of 1989".

SEC. 2. REFUNDABLE TAX CREDIT FOR COSTS ASSOCIATED WITH PROVIDING ACCESSIBILITY FOR DISABLED INDIVIDUALS.

(a) IN GENERAL.—Subpart C of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 (relating to refundable credits) is amended by redesignating section 35 as section 36 and by inserting after section 34 the following new section:

"SEC. 35. COSTS OF PROVIDING ACCESSIBILITY TO DISABLED INDIVIDUALS.

"(a) ALLOWANCE OF CREDIT.—In the case of an eligible small business, there shall be allowed as a credit against the tax imposed by this subtitle for the taxable year an amount equal to 80 percent of so much of the eligible access expenditures for the taxable year as exceed $250 but do not exceed $4,000.

"(b) CARRYFORWARDS.—If a taxpayer has eligible access expenditures for any taxable year exceeding $4,000, such excess expenditures shall be considered eligible access expenditures in the succeeding taxable year.

"(c) ELIGIBLE SMALL BUSINESS.—For purposes of this section, the term 'eligible small business' means a person which elects the application of this section for the taxable year, and—

"(1) which has gross receipts for the preceding taxable year not exceeding $4,000,000, or

"(2) in the case of a person with such receipts exceeding $4,000,000, which employs not more than 30 full-time employees during such year.

For purposes of paragraph (2), an employee shall be considered full-time if such employee is employed at least 30 hours per week for 20 or more calendar weeks in the taxable year.

"(d) ELIGIBLE ACCESS EXPENDITURES.—For purposes of this section—

"(1) IN GENERAL.—The term 'eligible access expenditures' means amounts paid or incurred—

"(A) for the purpose of removing architectural, communication, physical, or transportation barriers which prevent an eligible small business from being accessible to, or usable by, an individual with a disability,

"(B) to provide qualified interpreters or other effective methods of making aurally delivered materials available to individuals with hearing impairments,

"(C) to provide qualified readers, taped texts, or other effective methods of making visually delivered materials available to individuals with visual impairments,

"(D) to acquire or modify equipment or devices for individuals with disabilities, and

"(E) to provide other similar services and actions for individuals with disabilities.

"(2) EXPENSES IN CONNECTION WITH NEW CONSTRUCTION ARE NOT ELIGIBLE.—The term 'eligible access expenditures' shall not include expenses described in paragraph (1)(A) which are paid or incurred in connection with the design and construction of any facility the first occupancy of which occurs after December 31, 1989.

"(e) OTHER DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) DISABILITY.—The term 'disability' means, with respect to an individual—

"(A) a physical or mental impairment that substantially limits one or more of the major life activities of such individual,

"(B) a record of such an impairment, or

"(C) being regarded as having such an impairment.

"(2) CONTROLLED GROUPS.—

"(A) IN GENERAL.—All members of the same controlled group of corporations (within the meaning of section 52(a)) and all persons under common control (within the meaning of section 52(b)) shall be treated as 1 person for purposes of this section.

"(B) DOLLAR LIMITATION.—The Secretary shall apportion the dollar limitation under subsection (a) among the members of any group described in subparagraph (A) in such manner as the Secretary shall by regulations prescribe.

"(3) PARTNERSHIPS AND S CORPORATIONS.—In the case of a partnership, the limitation under subsection (a) shall apply with respect to the partnership and each partner. A similar rule shall apply in the case of an S corporation and its shareholders.

"(4) NO DOUBLE BENEFIT.—No deduction or credit shall be allowed under this chapter with respect to any amount for which a credit is allowed under subsection (a).

"(f) REGULATIONS.—The Secretary shall prescribe regulations necessary to carry out the purposes of this section, including regulations for determining what expenditures are to be treated as eligible access expenditures."

(b) CONFORMING AMENDMENT.—The table of sections for subpart C of part IV of subchapter A of chapter 1 of such Code is amended by striking the item relating to section 35 and inserting:

"Sec. 35. Costs of providing accessibility to disabled individuals.

"Sec. 36. Overpayments of tax."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1989.

WISCONSIN MANUFACTURERS & COMMERCE,
November 14, 1989.

Hon. Senator HERBERT KOHL,
Hart Senate Office Building, Washington, DC.

DEAR SENATOR KOHL: It is our understanding that you are about to introduce a bill entitled "The Small Business Rehabilitation Act of 1989" regarding a refundable tax credit to small businesses to help them provide greater accessibility for disabled individuals. The WMC Small Business Committee would support such a bill.

This bill takes on greater importance in light of the Americans with Disabilities Act, which was recently passed by the Senate. Most changes required by the Act can be made fairly easily, while others may be very expensive for small businesses to carry out. Your bill will lessen the burden for these small businesses.

WMC believes the Small Business Rehabilitation Act of 1989 balances the needs of the disabled with the concerns of small businesses. We support your bill and wish you success.

Sincerely,

NICK GEORGE, Jr.,
Director, Legislative Relations.

NATIONAL SMALL BUSINESS UNITED,
November 14, 1989.

Hon. HERBERT KOHL,
U.S. Senate, Hart Senate Office Building, Washington, DC.

DEAR SENATOR KOHL: National Small Business United is very pleased to have learned of your intention to introduce legislation designed to provide relief to small businesses attempting to comply with a future Americans with Disabilities Act (ADA). We are not supportive of this Act because of its potential to place extraordinary financial burdens on the small businesses owners who can least afford it—which is why we support your approach; it recognizes the need to shield many of our smallest, most financially strapped businesses from bearing the full costs of this bill alone.

The plan you are introducing (along with Representative Moody in the House) institutes a tax credit for small businesses who must undergo reconstruction of their facilities in order to comply with the ADA. We believe that it is only appropriate for society at large, through its government, to take some responsibility for helping small businesses accommodate the disabled—rather than simply requiring those businesses to meet the requirements as best they can. Otherwise, many work-places would not always be able to comply with the coming law.

We want to take the opportunity to thank you for introducing this much-needed legislation and commit ourselves to working with you to win its final passage.

Sincerely yours,

JOHN PAUL GALLES,
Executive Vice President.

SMALL BUSINESS LEGISLATIVE COUNCIL,
November 2, 1989.

Hon. HERB KOHL,
U.S. Senate, Washington, DC.

DEAR SENATOR KOHL: On behalf of the Small Business Legislative Council (SBLC), I wish to express our support for your efforts to provide an incentive to small firms to provide access to disabled individuals. Specifically, we believe pursuit of a tax credit for expenses incurred by small firms for providing access is a step in the right direction.

While we have expressed concern about the impact of the American with Disabilities Act upon small business, we have asserted with equal vigor that Congress can, and must find opportunities to create a positive environment for compliance. We applaud your initiative to introduce a bill to provide a credit as the kind of leadership on small business matters Congress can provide.

As you know, the Small Business Legislative Council (SBLC) is a permanent, independent coalition of nearly one hundered trade and professional associations that share a common commitment to the future of small business. Our members represent the interests of over four million small businesses in manufacturing, retailing, distribution, professional and technical services, construction, transportation and agriculture. While our policies are developed through consensus among our membership, we respect the right of individual associations to express their own views. For your information, a list of our members is enclosed.

Sincerely,

JOHN S. SATAGAJ,
President.

NATIONAL FEDERATION OF INDEPENDENT BUSINESS
November 8, 1989

SENATOR HERB KOHL,
Hart Senate Office Building, Washington, DC.

DEAR SENATOR KOHL: On behalf of the 570,000 business owner members of the National Federation of Independent Business, I want to commend you for your bill entitled "Small Business Rehabilitation Act of 1989". It would provide a much needed refundable tax credit to small businesses to help them provide greater accessibility for disabled individuals.

The Senate recently passed the Americans with Disabilities Act which will require business owners to make changes in their facilities to accommodate the disabled. While many accommodations can be made fairly easily, others can be very expensive, particular to smaller businesses where additional costs can have serious consequences for the stability of a business.

As I read your bill, no tax credit would be available if the alterations, equipment, or services to provide access cost less than $250. However if the expenses exceed $250, the bill would provide a tax credit of 80% of the costs up to a maximum of $4,000.

The bill is targeted to help small businesses by limiting the credit to those businesses grossing less than $4,000,000 per year in revenues and which employ no more than 30 employees.

Currently, the Internal Revenue Code includes a provision to permit a $35,000 tax deduction for making structural alterations to accommodate the disabled. The bill would leave in place the deduction for larger businesses, but would give small businesses the option to decide whether the deduction or the credit best suits the needs of the particular business. This is particularly important because many businesses do not make enough money to take advantage of a tax deduction.

Your tax credit bill seeks to balance the needs for the disabled with the ability of businesses to meet those needs. The bill and other similar measures recognize that small businesses cannot meet the burdens of the ADA bill alone.

I urge your colleagues to cosponsor the Small Business Rehabilitation Act of 1989. It is a fair, thoughtful and balanced approach to increasing accessibility.

Sincerely yours,

JOHN J. MOTLEY III,
Director, Federal Government Relations.

WISCONSIN INDEPENDENT BUSINESSES, INC.
November 9, 1989.

Hon. HERBERT KOHL,
U.S. Senate, Hart Senate Office Building, Washington, DC.

DEAR SENATOR KOHL: Wisconsin Independent Businesses enthusiastically endorses your proposal provide a small business tax business tax credit for small businesses that make their workplaces accessible to disabled employees and customers. Your proposal is a major step forward in the fight to increase accessbility for disabled Americans and to enhance our nation's economy by bringing still more disabled persons into good quality jobs.

As Wisconsin's largest representative of small businesses, with over 13,000 members, Wisconsin Independent Businesses has long recognized the desire of many small firms to make their places of business more accessible. Your new bill, if it becomes law, will turn that desire into reality.

On a personal note, as a longtime volunteer with the Easter Seal Society of Wisconsin I am excited about this legislative opportunity for disabled Americans. I am confident the Washington office of the National Easter Seal Society will share this enthusiasm. I look forward to sharing details of your proposal at the convention of the National Easter Seal Society in Nashville November 16-18 and with the board of directors of the Easter Seal Society of Wisconsin in January.

Please let me know of any way Wisconsin Independent Businesses can assist.

Very truly yours,

WAYNE COREY,
Executive Director.

WISCONSIN MERCHANTS FEDERATION,
November 9, 1989.

U.S. SENATOR HERB KOHL,
Senate Office Building, Hart 708, Washington, DC.

DEAR SENATOR KOHL: The Wisconsin Merchants Federation supports your proposal to provide small business a tax credit for expenditures to make their worksites accessible to and usuable by the disabled. Legislation sensitive to the problems of Wisconsin's small business community is necessary in constructing responsible cost effective solutions addressing the needs of the disabled. Your proposal is just that and has earned our support.

Thank you. Keep in touch.

Best personal regards,

CHRIS C. TACKETT,
President.

DOUGLAS Q. JOHNSON,
Vice President and General Counsel.

WISCONSIN RESTAURANT ASSOCIATION,
November 8, 1989.

U.S. SENATOR HERB KOHL,
Senate Office Building, Hart 708, Washington, DC.

RE: Wisconsin Restaurant Association Position on Senator Kohl's Proposal to Provide Refundable Tax Credit For Small Business in providing Accessibility for Individuals.

DEAR SENATOR KOHL: The Wisconsin Restaurant Association applauds your efforts on the above matter. Your proposal is certainly one that is very favorable to small business and should provide a stimulus to creating incentives for small business to provide accessibility for handicapped individuals.

Having said this, we wish to make two comments:

1. The refundable tax credit available will be extremely useful to businesses who are not actually making profits or not likely to be showing a profit anytime in the near future. This will encourage all small businesses, not just the very profitable ones, to modify their businesses to increase accessibility for the disabled.

2. Even with this act in place the Wisconsin Restaurant Association would still not be able to support the current language in the proposed American Disabilities Act.

Thank you for providing us an opportunity to have input and thank you for your support of small business. If you have any question, please feel free to contact us again.

Sincerely,

ED LUMP,
Executive Vice President.

WISCONSIN GROCERS ASSOCIATION, INC.,
November 14, 1989.

SENATOR HERB KOHL,
U.S. Senate, 702 Hart Senate Office Building, Washington, DC.

HELLO SENATOR KOHL: The Wisconsin Grocers Association is the statewide trade association for all segments of our food industry. Our membership includes over 1,500 food stores, warehouse distribution firms and industry-related businesses.

Our association supports the ADA Tax Credit Bill to provide small business a tax credit for expenditures to make their worksites accessible to and usable by the disabled. We are committed to this bill to also provide some additional financial support to the eligible small businesses.

We are pleased to lend our support to this important piece of legislation and we recognize your important role in sponsoring it.

Sincerely,

JOHN H. ELLINGSON,
President.

ADDITIONAL COSPONSORS

S. 511

At the request of Mr. INOUYE, the name of the Senator from Oklahoma [Mr. NICKLES] was added as a cosponsor of S. 511, a bill to recognize the organization known as the National Academies of Practice.

S. 672

At the request of Mr. HEINZ, the name of the Senator from Mississippi [Mr. COCHRAN] was added as a cosponsor of S. 672, a bill to increase and extend the authorization of appropriations for highway bridge replacement and rehabilitation, and for other purposes.

S. 856

At the request of Mr. MURKOWSKI, the name of the Senator from Oregon [Mr. HATFIELD] was added as a cosponsor of S. 856, a bill to amend title 13, United States Code, and the International Investment and Trade in Services Survey Act to improve the quality of data on foreign investment in the United States.

S. 891

At the request of Mr. REID, the name of the Senator from North Dakota [Mr. BURDICK] was added as a cosponsor of S. 891, a bill to provide for the modernization of testing of consumer products which contain hazardous or toxic substances.

S. 1245

At the request of Mr. MITCHELL, the name of the Senator from Colorado [Mr. WIRTH] was added as a cosponsor of S. 1245, a bill to amend the Federal Meat Inspection Act to expand the meat inspection programs of the United States by establishing a comprehensive inspection program to

ensure the quality and wholesomeness of all fish products intended for human consumption in the United States, and for other purposes.

S. 1651

At the request of Mr. McCAIN, the name of the Senator from Connecticut [Mr. DODD] was added as a cosponsor of S. 1651, a bill to require the Secretary of the Treasury to mint coins in commemoration of the 50th anniversary of the United Services Organization.

S. 1653

At the request of Mr. SPECTER, his name was added as a cosponsor of S. 1653, a bill to preserve the solvency of the railroad retirement system.

S. 1779

At the request of Mr. BENTSEN, the name of the Senator from New York [Mr. MOYNIHAN] was added as a cosponsor of S. 1779, a bill to change the tariff treatment of certain brooms wholly or in part of broom corn.

S. 1782

At the request of Mr. KENNEDY, the name of the Senator from South Carolina [Mr. HOLLINGS] was added as a cosponsor of S. 1782, a bill to amend the Public Health Service Act to provide for the establishment of an AIDS treatment assistance program for low income individuals, and for other purposes.

S. 1791

At the request of Mr. ROCKEFELLER, the names of the Senator from Washington [Mr. ADAMS] and the Senator from Oklahoma [Mr. BOREN] were added as cosponsors of S. 1791, a bill to amend the International Travel Act of 1961 to assist in the growth of international travel and tourism into the United States, and for other purposes.

S. 1804

At the request of Mr. LAUTENBERG, the name of the Senator from Oregon [Mr. PACKWOOD] was added as a cosponsor of S. 1804, a bill to amend title 23, United States Code, to reduce the amount of Federal highway funds allocated to any State that does not provide for the revocation or suspension of the driver's license of any individual convicted of a drug offense.

S. 1835

At the request of Mr. WILSON, the names of the Senator from South Carolina [Mr. THURMOND], the Senator from Rhode Island [Mr. CHAFEE], the Senator from Alaska [Mr. MURKOWSKI], the Senator from Colorado [Mr. WIRTH], the Senator from Nevada [Mr. REID], and the Senator from Alabama [Mr. SHELBY] were added as cosponsors of S. 1835, a bill to amend the Drug-Free Schools and Communities Act of 1986 to provide for the awarding of grants for drug abuse resistance education instruction for students, and for other purposes.

S. 1858

At the request of Mrs. KASSEBAUM, the names of the Senator from Alabama [Mr. SHELBY] and the Senator from Iowa [Mr. GRASSLEY] were added as cosponsors of S. 1858, a bill to amend the Federal Aviation Act of 1958 relating to bankruptcy transportation plans.

S. 1869

At the request of Mr. NICKLES, the name of the Senator from North Carolina [Mr. HELMS] was added as a cosponsor of S. 1869, a bill to provide for a statement of costs for congressional mass mailings, and that no more mass mailings of franked mail may be mailed by a Member of the Congress, if necessary additional funds are not appropriated, and for other purposes.

SENATE JOINT RESOLUTION 205

At the request of Mr. BIDEN, the names of the Senator from Idaho [Mr. SYMMS], the Senator from Utah [Mr. HATCH], the Senator from Montana [Mr. BURNS], and the Senator from Alaska [Mr. STEVENS] were added as cosponsors of Senate Joint Resolution 205, a joint resolution designating December 3 through 9, 1989, as "National Cities Fight Back Against Drugs Week."

SENATE JOINT RESOLUTION 223

At the request of Mr. GARN, the names of the Senator from Alaska [Mr. STEVENS], the Senator from Michigan [Mr. LEVIN], and the Senator from Indiana [Mr. COATS] were added as cosponsors of Senate Joint Resolution 223, a joint resolution to authorize and request the President to issue a proclamation designating May 1990 as "Neurofibromatosis Awareness Month."

SENATE JOINT RESOLUTION 224

At the request of Mr. BYRD, the names of the Senator from Virginia [Mr. ROBB] and the Senator from Rhode Island [Mr. CHAFEE] were added as cosponsors of Senate Joint Resolution 224, a joint resolution to designate the month of May 1990 as "National Trauma Awareness Month."

AMENDMENT NO. 1127

At the request of Mr. HELMS, his name was added as a cosponsor of amendment No. 1127 proposed to H.R. 3628, a bill to temporarily reduce the capital gains tax for noncorporate taxpayers, and for other purposes.

SENATE RESOLUTION 208—AUTHORIZING TESTIMONY AND DOCUMENT PRODUCTION BY A SENATE EMPLOYEE

Mr. MITCHELL (for himself and Mr. DOLE) submitted the following resolution; which was considered and agreed to:

S. RES. 208

Whereas, in the case of Springfield Terminal Railway Co. v. United Transportation Union, No. 88-0117 P, pending in the United States District Court for the District of Maine, counsel for the plaintiff has served a deposition subpoena for testimony and the production of documents on Mary Anne Marsh, an employee on the staff of Senator John F. Kerry;

Whereas, by the privileges of the Senate of the United States and Rule XI of the Standing Rules of the Senate, no evidence under the control or in the possession of the Senate can, by the judicial process, be taken from such control or possession but by permission of the Senate;

Whereas, when it appears that evidence under the control or in the possession of the Senate is needed for use in any court for the promotion of justice, the Senate will take such action as will promote the ends of justice consistent with the privileges of the Senate: Now, therefore, be it

Resolved, That Mary Anne Marsh is authorized to testify and to produce records, including telephone records of the Senate Telecommunications Office pertaining to the office of Senator John F. Kerry, relevant to the case of Springfield Terminal Railway Co. v. United Transportation Union, except concerning matters for which a privilege should be asserted.

AMENDMENTS SUBMITTED

ASSISTANCE TO POLAND

HUMPHREY (AND SIMON) AMENDMENT NO. 1128

Mr. HUMPHREY (for himself and Mr. SIMON) proposed an amendment to the bill (S. 1582) to amend the Foreign Assistance Act of 1961 to provide for certain forms of assistance to Poland to ensure the success of freedom and democracy in Poland, as follows:

On page 18, after line 21, in section 201 of the amendment, insert at the appropriate place the following new subsection and renumber all succeeding subsections accordingly:

"( ) Not less than 10 percent of the funds expended pursuant to this section during fiscal year 1990 shall be provided to the Economic Foundation of NSZZ Solidarnosc and the Confederacy of Independent Poland (KPN), for investment in private enterprise, providing that the Economic Foundtion of NSZZ Solidarnosc and Confederacy of Independent Poland (KPN) meet all criteria established by the Polish-American Enterprise Fund."

DANFORTH (AND OTHERS) AMENDMENT NO. 1129

Mr. DANFORTH (for himself, Mr. HEINZ, Mr. BOND, Mr. D'AMATO, Mr. MCCAIN, Mr. COHEN, Mr. BOREN, Mr. DURENBERGER, MR. WARNER, Mr. HEFLIN, Mr. CHAFEE, and Mr. SYMMS) proposed an amendment to the bill S. 1582, supra, as follows:

At the end add the following new title:

TITLE —TEMPORARY EXTENSION OF EXPIRING TAX PROVISIONS

SEC. 00. AMENDMENT OF 1986 CODE.

Whenever in this title an amendment or repeal is expressed in terms of an amend-

ment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

Subtitle A—Temporary Extension of Expiring Tax Provisions

SEC. 01. EXTENSION OF EMPLOYER-PROVIDED EDUCATIONAL ASSISTANCE.

(a) IN GENERAL.—Subsection (d) of section 127 (relating to educational assistance programs) is amended by striking "December 31, 1988" and inserting "June 30, 1990".

(b) CERTAIN OTHERWISE TAXABLE EMPLOYER-PROVIDED EDUCATIONAL ASSISTANCE MAY BE EXCLUDABLE AS WORKING CONDITION FRINGE.—Subsection (h) of section 132 (relating to certain fringe benefits) is amended by adding at the end thereof the following new paragraph:

"(9) APPLICATION OF SECTION TO OTHERWISE TAXABLE EMPLOYER-PROVIDED EDUCATIONAL ASSISTANCE.—Amounts which would be excludable from gross income under section 127 but for subsection (a)(2) thereof or the last sentence of subsection (c)(1) thereof shall be excluded from gross income under this section if (and only if) such amounts are a working condition fringe."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1988.

SEC. 02. EXTENSION OF EMPLOYER-PROVIDED GROUP LEGAL SERVICES.

(a) IN GENERAL.—Subsection (e) of section 120 (relating to group legal services plans) is amended by striking "ending after December 31, 1988" and inserting "beginning after June 30, 1990".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years ending after December 31, 1988.

SEC. 03. EXTENSION AND MODIFICATION OF TARGETED JOBS CREDIT.

(a) 6-MONTH EXTENSION.—Paragraph (4) of section 51(c) (relating to termination) is amended by striking "December 31, 1989" and inserting "June 30, 1990".

(b) EXTENSION OF AUTHORIZATION.—Paragraph (2) of section 261(f) of the Economic Recovery Tax Act of 1981 is amended by striking "and 1989" and inserting "1989 and 1990".

(c) MODIFICATION OF REQUEST FOR CERTIFICATION.—

(1) IN GENERAL.—Paragraph (16) of section 51(d) is amended by adding at the end thereof the following new subparagraph:

"(C) EMPLOYER REQUEST MUST SPECIFY POTENTIAL BASIS FOR ELIGIBILITY.—In any request for a certification of an individual as a member of a targeted group, the employer shall—

"(i) specify each subparagraph (but not more than 2) of paragraph (1) by reason of which the employer believes that such individual is such a member, and

"(ii) certify that a good faith effort was made to determine that such individual is such a member."

(2) EFFECTIVE DATE.—The amendments made by this subsection shall apply to individuals who begin work for the employer after December 31, 1989.

SEC. 04. ALLOCATION OF RESEARCH AND EXPERIMENTAL EXPENDITURES.

Section 864 (relating to definitions and special rule) is amended by adding at the end thereof the following new subsection:

"(f) ALLOCATION OF RESEARCH AND EXPERIMENTAL EXPENDITURES.—

"(1) IN GENERAL.—For purposes of sections 861(b), 862(b), and 863(b), qualified research and experimental expenditures shall be allocated and apportioned as follows:

"(A) Any qualified research and experimental expenditures expended solely to meet legal requirements imposed by a political entity with respect to the improvement or marketing of specific products or processes for purposes not reasonably expected to generate gross income (beyond de minimis amounts) outside the jurisdiction of the political entity shall be allocated only to gross income from sources within such jurisdiction.

"(B) In the case of any qualified research and experimental expenditures (not allocated under subparagraph (A)) to the extent—

"(i) that such expenditures are attributable to activities conducted in the United States, 64 percent of such expenditures shall be allocated and apportioned to income from sources within the United States and deducted from such income in determining the amount of taxable income from sources within the United States, and

"(ii) that such expenditures are attributable to activities conducted outside the United States, 64 percent of such expenditures shall be allocated and apportioned to income from sources outside the United States and deducted from such income in determining the amount of taxable income from sources outside the United States.

"(C) The remaining portion of qualified research and experimental expenditures (not allocated under subparagraphs (A) and (B)) shall be apportioned, at the annual election of the taxpayer, on the basis of gross sales or gross income, except that, if the taxpayer elects to apportion on the basis of gross income, the amount apportioned to income from sources outside the United States shall at least be 30 percent of the amount which would be so apportioned on the basis of gross sales.

"(2) QUALIFIED RESEARCH AND EXPERIMENTAL EXPENDITURES.—For purposes of this section, the term 'qualified research and experimental expenditures' means amounts which are research and experimental expenditures within the meaning of section 174. For purposes of this paragraph, rules similar to the rules of subsection (c) of section 174 shall apply. Any qualified research and experimental expenditures treated as deferred expenses under subsection (b) of section 174 shall be taken into account under this subsection for the taxable year for which such expenditures are allowed as a deduction under such subsection.

"(3) SPECIAL RULES FOR EXPENDITURES ATTRIBUTABLE TO ACTIVITIES CONDUCTED IN SPACE, ETC.—

"(A) IN GENERAL.—Any qualified research and experimental expenditures described in subparagraph (B)—

"(i) if incurred by a United States person, shall be allocated and apportioned under this section in the same manner as if they were attributable to activities conducted in the United States, and

"(ii) if incurred by a person other than a United States person, shall be allocated and apportioned under this section in the same manner as if they were attributable to activities conducted outside the United States.

"(B) DESCRIPTION OF EXPENDITURES.—For purposes of subparagraph (A), qualified research and experimental expenditures are described in this subparagraph if such expenditures are attributable to activities conducted—

"(i) in space,

"(ii) on or under water not within the jurisdiction (as recognized by the United States) of a foreign country, possession of the United States, or the United States, or

"(iii) in Antarctica.

"(4) AFFILIATED GROUP.—

"(A) Except as provided in subparagraph (B), the allocation and apportionment required by paragraph (1) shall be determined as if all members of the affiliated group (as defined in subsection (e)(5)) were a single corporation.

"(B) For purposes of the allocation and apportionment required by paragraph (1)—

"(i) sales and gross income from products produced in whole or in part in a possession by an electing corporation (within the meaning of section 936(h)(5)(E)), and

"(ii) dividends from an electing corporation,

shall not be taken into account, except that this subparagraph shall not apply to sales of (and gross income and dividends attributable to sales of) products with respect to which an election under section 936(h)(5)(F) is not in effect.

"(C) The qualified research and experimental expenditures taken into account for purposes of paragraph (1) shall be adjusted to reflect the amount of such expenditures included in computing the cost-sharing amount (determined under section 936(h)(5)(C)(i)(I)).

"(D) The Secretary may prescribe such regulations as may be necessary to carry out the purposes of this paragraph, including regulations providing for the source of gross income and the allocation and apportionment of deductions to take into account the adjustments required by subparagraph (C).

"(E) Paragraph (6) of subsection (e) shall not apply to qualified research and experimental expenditures.

"(5) APPLICATION OF SUBSECTION.—This subsection shall apply to taxable years beginning after August 1, 1989, and beginning before July 1, 1990."

SEC. 05. EXTENSION OF QUALIFIED SMALL ISSUE BONDS.

Subparagraph (B) of section 144(a)(12) is amended by striking "substituting '1989' for '1986'" and inserting "substituting 'June 30, 1990' for 'December 31, 1986'".

SEC. 06. EXTENSION OF SPECIAL RULES FOR HEALTH INSURANCE COSTS OF SELF-EMPLOYED INDIVIDUALS.

(a) GENERAL RULE.—Paragraph (5) of section 162(1) (relating to special rules for health insurance costs of self-employed individuals) is amended by striking "December 31, 1989" and inserting "June 30, 1990".

(b) SPECIAL RULE FOR CERTAIN S CORPORATION SHAREHOLDERS.—Subsection (1) of section 162 (as amended by subsection (a)) is amended by redesignating paragraph (5) as paragraph (6) and by inserting after paragraph (4) the following new paragraph:

"(5) TREATMENT OF CERTAIN S CORPORATION SHAREHOLDERS.—This subsection shall apply in the case of any individual treated as a partner under section 1372(a), except that—

"(A) for purposes of this subsection, such individual's wages (as defined in section 3121) from the S corporation shall be treated as such individual's earned income (within the meaning of section 401(c)(1)), and

"(B) there shall be such adjustments in the application of this subsection as the Secretary may by regulations prescribe."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1989.

SEC. 07. ENERGY INVESTMENT CREDIT FOR SOLAR, GEOTHERMAL, AND OCEAN THERMAL PROPERTY.

The table contained in section 46(b)(2)(A) (relating to energy percentage) is amended by striking "Dec. 31, 1989" in clauses (viii), (ix), and (x) and inserting "June 30, 1990".

SEC. 08. QUALIFIED MORTGAGE BONDS.

(a) IN GENERAL.—Paragraph (1) of section 143(a) (defining qualified mortgage bond) is amended by striking "December 31, 1989" in the text and heading and inserting "June 30, 1990".

(b) MORTGAGE CREDIT CERTIFICATES.—Section 25(h) is amended by striking "calendar year after 1989" and inserting "period after June 30, 1990".

(c) SUSPENSION OF MORTGAGE CREDIT CERTIFICATES TIME LIMIT.—With respect to bond authority exchanged before August 15, 1986, but not issued as of such date, the 2-year period under section 25(e)(3)(B) of the Internal Revenue Code of 1986 shall begin on the date of the enactment of this subsection.

SEC. 09. EXTENSION OF TRANSFER TO RAILROAD RETIREMENT ACCOUNT.

Subsection (c)(1)(A) of section 224 of the Railroad Retirement Solvency Act of 1983, as amended by section 9034 of the Omnibus Budget Reconciliation Act of 1987, is amended by striking "October 1, 1989" and inserting "July 1, 1990".

SEC. 10. EXTENSION OF LOW-INCOME HOUSING CREDIT; MODIFICATIONS TO CREDIT.

(a) 6-MONTH EXTENSION OF CREDIT.—Section 42(n) (relating to termination of low-income housing credit) is amended—

(1) by striking "calendar year after 1989" and inserting "period after June 30, 1990", and

(2) by striking "1989" and inserting "June 30, 1990".

(b) 1-YEAR CARRYOVER OF UNUSED CREDIT AUTHORITY.—

(1) IN GENERAL.—Section 42(h)(3) (relating to housing credit dollar amount for agencies) is amended by redesignating subparagraphs (D), (E), and (F) as subparagraphs (E), (F), and (G), respectively, and by striking subparagraph (C) and inserting the following new subparagraphs:

"(C) STATE HOUSING CREDIT CEILING.—The State housing credit ceiling applicable to any State for any calendar year shall be an amount equal to the sum of—

"(i) $1.25 multiplied by the State population,

"(ii) the unused State housing credit ceiling (if any) of such State for the preceding calendar year,

"(iii) the amount of State housing credit ceiling returned in the calendar year, plus

"(iv) the amount (if any) allocated under subparagraph (D) to such State by the Secretary.

For purposes of clause (ii), the unused State housing credit ceiling for any calendar year is the excess (if any) of the amount described in clause (i) over the aggregate housing credit dollar amount allocated for such year. For purposes of clause (iii), the amount of State housing credit ceiling returned in the calendar year equals the housing credit dollar amount previously allocated within the State to any project which does not become a qualified low-income housing project within the period required by this section or the terms of the allocation or to any project with respect to which an allocation is cancelled by mutual consent of the housing credit agency and the allocation recipient.

"(D) UNUSED HOUSING CREDIT CARRYOVERS ALLOCATED AMONG CERTAIN STATES.—

"(i) IN GENERAL.—The unused housing credit carryover of a State for any calendar year shall be assigned to the Secretary for allocation among qualified States for the succeeding calendar year.

"(ii) UNUSED HOUSING CREDIT CARRYOVER.—For purposes of this subparagraph, the unused housing credit carryover of a State for any calendar year is the excess (if any) of the unused State housing credit ceiling for such year (as defined in subparagraph (C)(ii)) over the excess (if any) of—

"(I) the aggregate housing credit dollar amount allocated for such year, over

"(II) the amount described in clause (i) of subparagraph (C).

"(iii) FORMULA FOR ALLOCATION OF UNUSED HOUSING CREDIT CARRYOVERS AMONG QUALIFIED STATES.—The amount allocated under this subparagraph to a qualified State for any calendar year shall be the amount determined by the Secretary to bear the same ratio to the aggregate unused housing credit carryovers of all States for the preceding calendar year as such State's population for the calendar year bears to the population of all qualified States for the calendar year. For purposes of the preceding sentence, population shall be determined in accordance with section 146(j).

"(iv) QUALIFIED STATE.—For purposes of this subparagraph, the term 'qualified State' means, with respect to a calendar year, any State—

"(I) which allocated its entire State housing credit ceiling for the preceding calendar year, and

"(II) for which a request is made (not later than May 1 of the calendar year) to receive an allocation under clause (iii)."

(2) CONFORMING AMENDMENTS.—

(A) Subparagraph (E) of section 42(h)(5) is amended by striking "subparagraph (E)" and inserting "subparagraph (F)".

(B) Paragraph (6) of section 42(h) is amended by striking subparagraph (B) and by redesignating subparagraphs (C), (D), and (E) as subparagraphs (B), (C), and (D), respectively.

(c) BUILDINGS ELIGIBLE FOR CREDIT ONLY IF MINIMUM LONG-TERM COMMITMENT TO LOW-INCOME HOUSING.—

(1) IN GENERAL.—Section 42(h) (relating to limitation on aggregate credit allowable with respect to projects located in a State) is amended by redesignating paragraphs (6) and (7) as paragraphs (7) and (10), respectively, and by inserting after paragraph (5) the following new paragraph:

"(6) BUILDINGS ELIGIBLE FOR CREDIT ONLY IF MINIMUM LONG-TERM COMMITMENT TO LOW-INCOME HOUSING.—

"(A) IN GENERAL.—No credit shall be allowed by reason of this section with respect to any building for the taxable year unless an extended low-income housing commitment is in effect as of the end of such taxable year.

"(B) EXTENDED LOW-INCOME HOUSING COMMITMENT.—For purposes of this paragraph, the term 'extended low-income housing commitment' means any agreement between the taxpayer and the housing credit agency—

"(i) which requires that the applicable fraction (as defined in subsection (c)(1)) for the building for each taxable year in the extended use period will not be less than the applicable fraction specified in such agreement,

"(ii) which allows individuals who meet the income limitation applicable to the building under subsection (g) (whether prospective, present, or former occupants of the building) the right to enforce in any State court the requirement of clause (i),

"(iii) which is binding on all successors of the taxpayer, and

"(iv) which, with respect to the property, is recorded pursuant to State law as a restrictive covenant.

"(C) ALLOCATION OF CREDIT MAY NOT EXCEED AMOUNT NECESSARY TO SUPPORT COMMITMENT.—

"(i) IN GENERAL.—The housing credit dollar amount allocated to any building may not exceed the amount necessary to support the applicable fraction specified in the extended low-income housing commitment for such building, including any increase in such fraction pursuant to the application of subsection (f)(3) if such increase is reflected in an amended low-income housing commitment.

"(ii) BUILDINGS FINANCED BY TAX-EXEMPT BONDS.—If paragraph (4) applies to any building the amount of credit allowed in any taxable year may not exceed the amount necessary to support the applicable fraction specified in the extended low-income housing commitment for such building. Such commitment may be amended to increase such fraction.

"(D) EXTENDED USE PERIOD.—For purposes of this paragraph, the term 'extended use period' means the period—

"(i) beginning on the 1st day in the compliance period on which such building is part of a qualified low-income housing project, and

"(ii) ending on the later of—

"(I) the date specified by such agency in such agreement, or

"(II) the date which is 15 years after the close of the compliance period.

"(E) EXCEPTIONS IF FORECLOSURE OR IF NO BUYER WILLING TO MAINTAIN LOW-INCOME STATUS.—

"(i) IN GENERAL.—The extended use period for any building shall terminate—

"(I) on the date the building is acquired by foreclosure (or instrument in lieu of foreclosure), or

"(II) on the last day of the period specified in subparagraph (I) if the housing credit agency is unable to present during such period a qualified contract for the acquisition of the low-income portion of the building by any person who will continue to operate such portion as a qualified low-income building.

Subclause (II) shall not apply to the extent more stringent requirements are provided in the agreement or in State law.

"(ii) EVICTION, ETC. OF EXISTING LOW-INCOME TENANTS NOT PERMITTED.—The termination of an extended use period under clause (i) shall not be construed to permit before the close of the 3-year period following such termination—

"(I) the eviction or the termination of tenancy (other than for good cause) of an existing tenant of any low-income unit, or

"(II) any increase in the gross rent with respect to such unit, except if such tenant's income exceeds 100 percent of the income limitation under subsection (g)(1), then only to the extent such increase does not exceed 30 percent of such tenant's income.

"(F) QUALIFIED CONTRACT.—For purposes of subparagraph (E), the term 'qualified contract' means a bona fide contract to acquire (within a reasonable period after the contract is entered into) the low-income portion of the building for an amount not less

than the applicable fraction (specified in the extended low-income housing commitment) of—

"(i) the sum of—

"(I) the outstanding indebtedness secured by, or with respect to, the building,

"(II) the adjusted investor equity in the building, plus

"(III) other capital contributions not reflected in the amounts described in subclause (I) or (II), reduced by

"(ii) cash distributions from (or available for distribution from) the project.

The Secretary shall prescribe such regulations as may be necessary or appropriate to carry out this paragraph, including regulations to prevent the manipulation of the amount determined under the preceding sentence.

"(G) ADJUSTED INVESTOR EQUITY.—

"(i) IN GENERAL.—For purposes of subparagraph (E), the term 'adjusted investor equity' means, with respect to any calendar year, the aggregate amount of cash taxpayers invested with respect to the project increased by the amount equal to—

"(I) such amount, multiplied by

"(II) the cost-of-living adjustment for such calendar year, determined under section 1(f)(3) by substituting the base calendar year for 'calendar year 1987'.

An amount shall be taken into account as an investment in the project only to the extent there was an obligation to invest such amount as of the beginning of the credit period and to the extent such amount is reflected in the adjusted basis of the project.

"(ii) COST-OF-LIVING INCREASES IN EXCESS OF 5 PERCENT NOT TAKEN INTO ACCOUNT.—Under regulations prescribed by the Secretary, if the CPI for any calendar year (as defined in section 1(f)(4)) exceeds the CPI for the preceding calendar year by more than 5 percent, the CPI for the base calendar year shall be increased such that such excess shall never be taken into account under clause (i).

"(iii) BASE CALENDAR YEAR.—For purposes of this subparagraph, the term 'base calendar year' means the calendar year with or within which the 1st taxable year of the credit period ends.

"(H) LOW-INCOME PORTION.—For purposes of this paragraph, the low-income portion of a building is the portion of such building equal to the applicable fraction specified in the extended low-income housing commitment for the building.

"(I) PERIOD FOR FINDING BUYER.—The period referred to in this subparagraph is the 1-year period beginning on the date (after the 14th year of the compliance period) the taxpayer submits a written request to the housing credit agency to find a person to acquire the taxpayer's interest in the low-income portion of the building.

"(J) SALES OF LESS THAN LOW-INCOME PORTION OF BUILDING.—In the case of a sale or exchange of only a portion of the low-income portion of the building, only the same portion (as the portion sold or exchanged) of the amount determined under subparagraph (F) shall be taken into account thereunder.

"(K) EFFECT OF NONCOMPLIANCE.—If, during a taxable year, there is a determination that an extended low-income housing agreement was not in effect as of the beginning of such year, such determination shall not apply to any period before such year and subparagraph (A) shall be applied without regard to such determination if the failure is corrected within 1 year from the date of the determination.

"(L) PROJECTS WHICH CONSIST OF MORE THAN 1 BUILDING.—The application of this paragraph to projects which consist of more than 1 building shall be made under regulations prescribed by the Secretary."

(2) CONFORMING AMENDMENT.—Subparagraph (C) of section 42(b)(3) is amended by striking "subsection (h)(6))" and inserting "subsection "(h)(7)".

(d) CREDIT FOR ACQUISITION OF EXISTING BUILDING TO APPLY ONLY IF BUILDING TO BE REHABILITATED; INCREASE IN REQUIRED REHABILITATION EXPENDITURES.—

(1) IN GENERAL.—Subparagraph (B) of section 42(d)(2) (relating to eligible basis of existing buildings) is amended by striking "and" at the end of clause (ii), by striking the period at the end of clause (iii) and inserting ", and", and by adding at the end thereof the following new clause:

"(iv) a credit is allowable under subsection (a) by reason of subsection (e) with respect to the building."

(2) CREDIT PERIOD FOR EXISTING BUILDINGS NOT TO BEGIN BEFORE REHABILITATION CREDIT ALLOWED.—Section 42(f) (relating to definition and special rules relating to credit period) is amended by adding at the end thereof the following new paragraph:

"(4) CREDIT PERIOD FOR EXISTING BUILDINGS NOT TO BEGIN BEFORE REHABILITATION CREDIT ALLOWED.—The credit period for an existing building (other than a federally-assisted building with respect to which a waiver is granted under subsection (d)((6)(C)) shall not begin before the 1st taxable year of the credit period for rehabilitation expenditures with respect to the building."

(3) INCREASE IN REQUIRED REHABILITATION EXPENDITURES.—Paragraph (3) of section 42(e) (relating to rehabilitation expenditures treated as separate new building) is amended—

(A) by striking "$2,000" in the text of subparagraph (A) and inserting "$3,000", and

(B) by striking "$2,000" in the heading and inserting "$3,000".

(e) RENT RESTRICTION DETERMINED ON BASIS OF NUMBER OF BEDROOMS, ETC.—

(1) Section 42(g)(2) is amended by redesignating subparagraph (C) as subparagraph (D) and by inserting after subparagraph (B) the following new subparagraph:

"(C) IMPUTED INCOME LIMITATION APPLICABLE TO UNIT.—For purposes of this paragraph, the imputed income limitation applicable to a unit is the income limitation which would apply under paragraph (1) to individuals occupying the unit if the number of individuals occupying the unit were as follows:

"(i) In the case of a unit which does not have a separate bedroom, 1 individual.

"(ii) In the case of a unit which has 1 or more separate bedrooms, 1.5 individuals for each separate bedroom.

In the case of a project with respect to which a credit is allowable by reason of this section and for which financing is provided by a bond described in section 142(a)(7), the imputed income limitation shall apply in lieu of the otherwise applicable income limitation for purposes of applying section 142(d)(4)(B)(ii)."

(B) Subparagraph (A) of section 42(g)(2), as amended by paragraph (1), is further amended by striking "the income limitation under paragraph (1) applicable to individuals occupying such unit" and inserting "the imputed income limitation applicable to such unit".

(f) ADDITIONAL BUILDINGS ELIGIBLE FOR WAIVER OF 10-YEAR PERIOD APPLICABLE TO ACQUISITIONS OF EXISTING BUILDINGS.—

(1) IN GENERAL.—Subparagraph (A) of section 42(d)(6) (relating to credit allowable for certain federally-assisted buildings acquired during 10-year period described in paragraph (2)(B)(ii)) is amended by striking "or" at the end of clause (i), by striking the period at the end of clause (ii) and inserting a comma and "or", and by adding at the end thereof the following new clause:

"(iii) to facilitate the sale of the building if—

"(I) the mortgage loan on the building is held by the Department of Housing and Urban Development,

"(II) the building is owned by such Department following its acquisition (by such Department or the mortgage loan lender) by foreclosure (or by instrument in lieu of foreclosure), or

"(III) the building is owned by the Farmers Home Administration."

(2) LOW-INCOME BUILDINGS WHERE MORTGAGE MAY BE PREPAID.—Section 42(d)(6) is amended by adding at the end thereof the following new subparagraphs:

"(C) LOW-INCOME BUILDINGS WHERE MORTGAGE MAY BE PREPAID.—A waiver may be granted under subparagraph (A) (without regard to any clause thereof) with respect to a federally-assisted building described in clause (ii) or (iii) of subparagraph (B) if—

"(i) at any time within 1 year after the date of the application by the taxpayer for such a waiver, the mortgage on such building is eligible for prepayment under subtitle B of the Emergency Low Income Housing Preservation Act of 1987 or under section 502(c) of the Housing Act of 1949, and

"(ii) the appropriate Federal official certifies to the Secretary that it is reasonable to expect that if the waiver is not granted such building will cease complying with its low-income occupancy requirements.

If a waiver is granted under subparagraph (A) with respect to such building, no person shall be eligible to prepay such mortgage without the approval of the appropriate Federal official."

"(D) BUILDINGS ACQUIRED FROM INSURED DEPOSITORY INSTITUTIONS IN DEFAULT.—A waiver may be granted under subparagraph (A) (without regard to any clause thereof) with respect to any building acquired from an insured depository institution in default (as defined in section 3 of the Federal Deposit Insurance Act) or from a receiver or conservator of such an institution."

(3) CERTAIN MULTI-FAMILY HOUSING.—Subparagraph (B) of section 42(d)(6) is amended by adding at the end thereof the following new sentence: "Such term also includes any building which has more than 4 residential rental units and the mortgage on which was originated by, or is insured or guaranteed by, the Federal Government."

(g) INCREASE IN CREDIT FOR BUILDINGS IN HIGH COST AREAS.—Paragraph (5) of section 42(d) (relating to eligible basis) is amended by adding at the end thereof the following new subparagraph:

"(D) INCREASE IN CREDIT FOR BUILDINGS IN HIGH COST AREAS.—

"(i) IN GENERAL.—In the case of any building located in a qualified census tract or difficult development area which is designated for purposes of this subparagraph—

"(I) in the case of a new building, the eligible basis of such building shall be 130 percent of such basis determined without regard to this subparagraph, and

"(II) in the case of an existing building, the rehabilitation expenditures taken into account under subsection (e) shall be 130 percent of such expenditures determined without regard to this subparagraph.

"(ii) QUALIFIED CENSUS TRACT.—

"(I) IN GENERAL.—The term 'qualified census tract' means any census tract in which 50 percent or more of the households have an income which is less than 60 percent of the area median gross income.

"(II) LIMIT ON MSA'S DESIGNATED.—The portion of a metropolitan statistical area which may be designated for purposes of this subparagraph shall not exceed an area having 20 percent of the population of such metropolitan statistical area.

"(III) DETERMINATION OF AREAS.—For purposes of this clause, each metropolitan statistical area shall be treated as a separate area and all nonmetropolitan areas in a State shall be treated as one area.

"(iii) DIFFICULT DEVELOPMENT AREAS.—

"(I) IN GENERAL.—The term 'difficult development areas' means any area designated by the Secretary of Housing and Urban Development as an area which has high construction, land, and utility costs relative to area median gross income.

"(II) LIMIT ON AREAS DESIGNATED.—Only 20 percent of the metropolitan statistical areas in the United States may be designated for purposes of this subparagraph and only 20 percent of nonmetropolitan areas in the United States may be so designated.

"(iv) SPECIAL RULES AND DEFINITIONS.—For purposes of this subparagraph—

"(I) population shall be determined on the basis of the most recent decennial census for which data are available,

"(II) area median gross income shall be determined in accordance with subsection (g)(4),

"(III) the term 'metropolitan statistical area' has the same meaning as when used in section 143(k)(2)(B), and

"(IV) the term 'nonmetropolitan area' means any county (or portion thereof) which is not within a metropolitan statistical area."

(h) CHANGES IN RULES RELATING TO BUILDINGS FOR WHICH CREDIT MAY BE ALLOWED.—

(1) SINGLE-ROOM OCCUPANCY UNITS RENTED ON A MONTHLY BASIS.—Subparagraph (B) of section 42(i)(3) (relating to low income unit) is amended by adding at the end thereof the following new sentence: "For purposes of the preceding sentence, a single-room occupancy unit shall not be treated as used on a transient basis merely because it is rented on a month-by-month basis."

(2) SPECIAL NEEDS HOUSING.—

(A) CONSIDERATION OF REQUIRED FEES FOR SUPPORTIVE SERVICES IN CALCULATION OF GROSS RENT.—Subparagraph (B) of section 42(g)(2) (relating to gross rent) is amended—

(i) in clause (i), by striking "and" at the end,

(ii) in clause (ii), by striking the period at the end and inserting ", and", and

(iii) by adding at the end the following:

"(iii) includes any fee assessed for a supportive service (as defined in paragraph (8)) if payment of the fee is required as a condition of occupancy, unless the fee is paid to the owner of the unit by any governmental program of assistance or by a qualified nonprofit organization (as defined in subsection (h)(5)(C)).

If the fee described in clause (iii) is included in gross rent, the gross rent limitation under subparagraph (A) shall be increased by 20 percent."

(B) ELIGIBILITY OF SPECIAL NEEDS HOUSING.—Section 42(g) (relating to qualified low-income housing project) is amended by adding at the end the following new paragraph:

"(8) ELIGIBILITY OF SPECIAL NEEDS HOUSING.—

"(A) IN GENERAL.—A residential rental property shall not be treated as failing to be a qualified low-income housing project for purposes of this section solely because individuals occupying residential units in the property are provided supportive services. The preceding sentence shall not apply if section 7872 does not apply to any individual occupying a residential unit in the property (or such individual spouse) by reason of subsection (g) thereof.

"(B) SUPPORTIVE SERVICE.—For purposes of this paragraph, the term 'supportive service' means any service provided under a planned program of services designed to enable residents of a residential rental property to remain independent and avoid placement in a hospital, nursing home, or intermediate care facility for the mentally or physically handicapped."

(3) SCATTERED SITE PROJECTS.—Section 42(g) (relating to qualified low-income housing project) is further amended by adding at the end thereof the following new paragraph:

"(9) SCATTERED SITE PROJECTS.—Buildings which would (but for their lack of proximity) be treated as a project for purposes of this section shall be so treated if all of the dwelling units in each of the buildings are rent-restricted (within the meaning of paragraph (2)) residential rental units."

(4) OWNER-OCCUPIED BUILDINGS HAVING 4 OR FEWER UNITS ELIGIBLE FOR CREDIT WHERE DEVELOPMENT PLAN.—Section 42(i)(3) (defining low-income unit) is amended by adding at the end thereof the following new subparagraph:

"(D) OWNER-OCCUPIED BUILDINGS HAVING 4 OR FEWER UNITS ELIGIBLE FOR CREDIT WHERE DEVELOPMENT PLAN.—

"(i) IN GENERAL.—Subparagraph (C) shall not apply to the acquisition or rehabilitation of a building pursuant to a development plan of action sponsored by a State or local government or a qualified nonprofit organization (as defined in subsection (h)(5)(C)).

"(ii) LIMITATION ON CREDIT.—In the case of a building to which clause (i) applies, the applicable fraction shall not exceed 80 percent of the unit fraction.

"(iii) CERTAIN UNRENTED UNITS TREATED AS OWNER-OCCUPIED.—In the case of a building to which clause (i) applies, any unit which is not rented for 90 days or more shall be treated as occupied by the owner of the building as of the 1st day it is not rented."

(5) BUILDINGS RECEIVING SECTION 8 MODERATE REHABILITATION ASSISTANCE OR SIMILAR ASSISTANCE NOT ELIGIBLE FOR CREDIT.—Section 42(b)(1) (relating to applicable percentage for buildings placed in service during 1987) is amended by adding at the end thereof the following new flush sentence:

"A building shall not be treated as described in subparagraph (B) if, at any time during the credit period, moderate rehabilitation assistance is provided with respect to such building under section 8(e)(2) of the United States Housing Act of 1937."

(i) ELIGIBLE BASIS FOR NEW BUILDINGS TO INCLUDE EXPENDITURES BEFORE CLOSE OF 1ST YEAR OF CREDIT PERIOD.—

(1) NEW BUILDINGS.—Paragraph (1) of section 42(d) (relating to eligible basis for new buildings) is amended by inserting before the period "as of the close of the 1st taxable year of the credit period".

(2) EXISTING BUILDINGS.—Subparagraph (A) of section 42(d)(2) (relating to eligible basis for existing buildings) is amended by striking "subparagraph (B)" and all that follows through the end of clause (i) and inserting "subparagraph (B), its adjusted basis as of the close of the 1st taxable year of the credit period, and".

(3) CONFORMING AMENDMENTS.—

(A) Subparagraph (C) of section 42(d)(2) is amended by striking "ACQUISITION COST" in the heading and inserting "ADJUSTED BASIS" and by striking "cost" in the text and inserting "adjusted basis".

(B) Paragraph (5) of section 42(d), as amended by subsection (g), is further amended by striking subparagraph (A), by redesignating subparagraphs (B), (C), and (D) as subparagraphs (A), (B), and (C), respectively, and by striking the paragraph heading and inserting the following:

"(5) SPECIAL RULES FOR DETERMINING ELIGIBLE BASIS.—".

(C) Paragraph (5) of section 42(e) is amended by striking "subsection (d)(2)(A)(i)(II)" and inserting "subsection (d)(2)(A)(i)".

(j) HOUSING CREDIT MAY BE ALLOCATED ON PROJECT BASIS.—

(1) IN GENERAL.—Section 42(h)(1) (relating to credit may not exceed credit amount allocated to building) is amended by adding at the end thereof the following new subparagraph:

"(F) ALLOCATION OF CREDIT ON A PROJECT BASIS.—

"(i) IN GENERAL.—In the case of a project which includes (or will include) more than 1 building, an allocation meets the requirements of this subparagraph if—

"(I) the allocation is made to the project for a calendar year during the project period,

"(II) the allocation only applies to buildings placed in service during or after the calendar year for which the allocation is made, and

"(III) the portion of such allocation which is allocated to any building in such project is specified not later than the close of the calendar year in which the building is placed in service.

"(ii) PROJECT PERIOD.—For purposes of clause (i), the term 'project period' means the period—

"(I) beginning with the 1st calendar year for which an allocation may be made for the 1st building placed in service as part of such project, and

"(II) ending with the calendar year the last building is placed in service as part of such project."

(2) CONFORMING AMENDMENT.—Subparagraph (B) of section 42(h)(1) is amended by striking "or (E)" and inserting "(E), or (F)".

(3) PROJECTS WITH MORE THAN 1 BUILDING MUST BE IDENTIFIED.—Section 42(g)(3) (relating to date for meeting requirements) is amended by adding at the end thereof the following new subparagraph:

"(D) PROJECTS WITH MORE THAN 1 BUILDING MUST BE IDENTIFIED.—For purposes of this section, a project shall be treated as consisting of only 1 building unless, before the close of the 1st calendar year in the project period (as defined in subsection (h)(1)(F)(ii)), each building which is (or will be) part of such project is identified in such form and manner as the Secretary may provide."

(k) CHANGES IN RULES RELATED TO DEEP RENT SKEWED PROJECTS.—

(1) Clause (iii) of section 142(d)(4)(B) (relating to deep rent skewed project) is amended by striking "⅓" and inserting "½".

(2) Section 42(g)(4) (relating to certain rules made applicable) is amended by striking "(other than section 142(d)(4)(B)(iii))".

(l) HOUSING CREDIT AGENCIES MUST ADOPT PLANS FOR ALLOCATION OF CREDIT AMONG PROJECTS.—Subsection (h) of section 42 (relating to limitation on aggregate credit allowable with respect to projects located in a State), as amended by subsection (c), is further amended by inserting after paragraph (7) the following new paragraph:

"(8) HOUSING CREDIT AGENCIES MUST ADOPT PLANS FOR ALLOCATION OF CREDIT AMONG PROJECTS.—

"(A) IN GENERAL.—Notwithstanding any other provision of this section, the housing credit dollar amount with respect to any building shall be zero unless such amount was allocated pursuant to a qualified allocation plan of the housing credit agency which is approved by the governmental unit (in accordance with rules similar to the rules of section 147(f)(2) (other than subparagraph (B)(ii) thereof)) of which such agency is a part.

"(B) QUALIFIED ALLOCATION PLAN.—For purposes of this paragraph, the term 'qualified allocation plan' means any plan—

"(i) which sets forth selection criteria to be used to determine housing priorities of the housing credit agency which are appropriate to local conditions, and

"(ii) which gives preference in allocating housing credit dollar amounts among selected projects to—

"(I) projects serving the lowest income tenants, and

"(II) projects obligated to serve qualified tenants for the longest periods.

"(C) CERTAIN SELECTION CRITERIA MUST BE USED.—The selection criteria set forth in a qualified allocation plan must include—

"(i) project location,

"(ii) housing needs characteristics,

"(iii) project characteristics,

"(iv) sponsor characteristics,

"(v) participation of local tax-exempt organizations,

"(vi) encouragement of mixed-use housing,

"(vii) tenant populations with special housing needs, and

"(viii) project financial feasibility and viability as described in paragraph (9).

"(D) APPLICATION TO BOND FINANCED PROJECTS.—Paragraph (4) shall not apply to any project unless the project satisfies the requirements for allocation of a housing credit dollar amount under the qualified allocation plan applicable to the area in which the project is located."

(m) CREDIT ALLOCATED NOT TO EXCEED AMOUNT NECESSARY TO ASSURE PROJECT FEASIBILITY.—Subsection (h) of section 42 is further amended by inserting after paragraph (8) the following new paragraph:

"(9) CREDIT ALLOCATED TO BUILDING NOT TO EXCEED AMOUNT NECESSARY TO ASSURE PROJECT FEASIBILITY.—

"(A) IN GENERAL.—The housing credit dollar amount allocated to a project shall not exceed the amount the housing credit agency determines and certifies is necessary for the financial feasibility of the project and its viability as a qualified low-income housing project throughout the compliance period or such longer period as such agency determines to be appropriate.

"(B) AGENCY EVALUATION.—In making the determination under subparagraph (A), the housing credit agency shall consider—

"(i) the sources and uses of funds and the total financing planned for the project, and

"(ii) any proceeds or receipts expected to be generated by reason of tax benefits.

Such a determination shall not be construed to be a representation or warranty as to the feasibility or viability of the project.

"(C) DETERMINATION MADE WHEN CREDIT AMOUNT APPLIED FOR AND WHEN BUILDING PLACED IN SERVICE.—

"(i) IN GENERAL.—A determination under subparagraph (A) shall be made as of each of the following times:

"(I) The application for the housing credit dollar amount.

"(II) The allocation of the housing credit dollar amount.

"(III) The date the building is placed in service.

"(ii) CERTIFICATION AS TO AMOUNT OF OTHER SUBSIDIES.—Prior to each determination under clause (i), the taxpayer shall certify to the housing credit agency the full extent of all Federal, State, and local subsidies which apply (or which the taxpayer expects to apply) with respect to the building.

"(D) APPLICATION TO BOND FINANCED PROJECTS.—Paragraph (4) shall not apply to any project unless the governmental unit which issued the bonds (or on behalf of which the bonds were issued) makes a determination under rules similar to the rules of subparagraphs (A) and (B)."

(n) APPLICATION OF AT-RISK RULES WITH RESPECT TO CERTAIN FINANCING PROVIDED BY QUALIFIED NONPROFIT ORGANIZATIONS.—Subparagraph (D) of section 42(k)(2) (relating to application of at-risk rules) is amended by adding at the end thereof the following new flush sentence:

"In the case of a qualified nonprofit organization which is not described in section 46(c)(8)(D)(iv)(II) with respect to a building, clause (ii) of this subparagraph shall be applied as if the date described therein were the 90th day after the earlier of the date the building ceases to be a qualified low-income building or the date which is 15 years after the close of a compliance period with respect thereto."

(o) TIME FOR CERTIFICATION.—Section 42(l)(1) (relating to certification with respect to 1st year of credit period) is amended—

(1) by striking "Not later than the 90th day following" and inserting "Following", and

(2) by inserting "at such time and" before "in such form".

(p) CERTAIN PURCHASE OPTIONS DISREGARDED.—Section 42(i) (relating to definitions and special rules) is amended by adding at the end thereof the following new paragraph:

"(7) CERTAIN PURCHASE OPTIONS DISREGARDED.—

"(A) IN GENERAL.—For purposes of this title, the determination of whether any qualified low-income building is owned by the taxpayer shall be made without regard to any qualified purchase option by a qualified nonprofit organization (as defined in subsection (h)(5)(C)) or a limited equity cooperative or resident management group recognized by the Department of Housing and Urban Development to acquire such building at less than fair market value after the close of the compliance period if no financing with respect to such building is provided during such period by such organization (or a related person (as defined in subsection (d)(2)(D)(iii)) to such organization) or such cooperative group.

"(B) QUALIFIED PURCHASE OPTION.—For purposes of subparagraph (A), the term 'qualified purchase option' means an option exercisable at the price which equals or exceeds an amount equal to the sum of—

"(i) the principal amount of outstanding indebtedness secured by the building (other than indebtedness incurred within the 5-year period ending on the date of the sale), and

"(ii) all Federal, State, and local taxes attributable to such sale.

Except in the case of Federal income taxes, there shall not be taken into account under clause (ii) any additional tax attributable to the application of clause (ii)."

(q) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as otherwise provided in this subsection, the amendments made by this section shall apply to determinations under section 42 of the Internal Revenue Code of 1986 with respect to housing credit dollar amounts allocated from State housing credit ceilings for calendar years after 1989.

(2) BUILDINGS NOT SUBJECT TO ALLOCATION LIMITS.—Except as otherwise provided in this subsection, to the extent paragraph (1) of section 42(h) of such Code does not apply to any building by reason of paragraph (4) thereof, the amendments made by this section shall apply to buildings placed in service after December 31, 1989.

(3) 1-YEAR CARRYOVER OF UNUSED CREDIT AUTHORITY.—The amendments made by subsection (b) shall apply to calendar years after 1989, but clauses (ii), (iii), and (iv) of section 42(h)(3)(C) of such Code (as added by this section) shall not apply to unused allocations for 1989 or any preceding year.

(4) ADDITIONAL BUILDINGS ELIGIBLE FOR WAIVER OF 10-YEAR RULE.—The amendments made by subsection (f) shall take effect on the date of the enactment of this Act.

(5) CERTIFICATIONS WITH RESPECT TO 1ST YEAR OF CREDIT PERIOD.—The amendment made by subsection (o) shall apply to taxable years ending on or after December 31, 1989.

(6) CERTAIN RULES WHICH APPLY TO BONDS.—Paragraphs (8)(D) and (9)(D) of section 42(h) of such Code, as added by this section, shall apply to obligations issued December 31, 1989.

(7) CLARIFICATIONS.—The following amendments shall apply as if included in the amendments made by section 252 of the Tax Reform Act of 1986:

(A) Paragraph (1) of subsection (h) (relating to units rented on a monthly basis).

(B) Subsection (i) (relating to eligible basis for new buildings to include expenditures before close of 1st year of credit period).

(8) REGULATIONS ON DIFFICULT DEVELOPMENT AREAS.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Housing and Urban Development shall prescribe initial regulations on the designation of difficult development areas under section 42(d)(5)(C) of such Code, as added by this section.

SEC. 11. EXTENSION OF RESEARCH CREDIT; MODIFICATIONS TO CREDIT.

(a) 6-MONTH EXTENSION.—

(1) IN GENERAL.—Section 41(i) (relating to termination) is amended—

(A) by striking "December 31, 1989" each place it appears and inserting "June 30, 1990", and

(B) by striking "January 1, 1990" each place it appears and inserting "July 1, 1990".

(2) CONFORMING AMENDMENT.—Subparagraph (D) of section 28(b)(1) is amended by striking "December 31, 1989" and inserting "June 30, 1990".

(b) CHANGES IN COMPUTATION OF INCREMENTAL CREDIT.—

(1) IN GENERAL.—Subsection (c) of section 41 is amended to read as follows:

"(c) BASE AMOUNT.—

"(1) IN GENERAL.—The term 'base amount' means the product of—

"(A) the fixed-base percentage, and

"(B) the average annual gross receipts of the taxpayer for the 4 taxable years preceding the taxable year for which the credit is being determined (hereinafter in this subsection referred to as the 'credit year').

"(2) MINIMUM BASE AMOUNT.—In no event shall the base amount be less than 50 percent of the qualified research expenses for the credit year.

"(3) FIXED-BASE PERCENTAGE.—

"(A) IN GENERAL.—Except as otherwise provided in this paragraph, the fixed-base percentage is the percentage which the aggregate qualified research expenses of the taxpayer for taxable years beginning after December 31, 1983, and before January 1, 1989, is of the aggregate gross receipts of the taxpayer for such taxable years.

"(B) START-UP COMPANIES.—

"(i) TAXPAYERS TO WHICH SUBPARAGRAPH APPLIES.—The fixed-base percentage shall be determined under this subparagraph if there are fewer than 3 taxable years beginning after December 31, 1983, and before January 1, 1989, in which the taxpayer had both gross receipts and qualified research expenses.

"(ii) FIXED-BASE PERCENTAGE.—In a case to which this subparagraph applies, the fixed-base percentage is 3 percent.

"(iii) TREATMENT OF DE MINIMIS AMOUNTS OF GROSS RECEIPTS AND QUALIFIED RESEARCH EXPENSES.—The Secretary may prescribe regulations providing that de minimis amounts of gross receipts and qualified research expenses shall be disregarded under clauses (i) and (ii).

"(C) MAXIMUM FIXED-BASE PERCENTAGE.—In no event shall the fixed-base percentage exceed 16 percent.

"(D) ROUNDING.—The percentages determined under subparagraph (A) be rounded to the nearest 1/100th of 1 percent.

"(4) CONSISTENT TREATMENT OF EXPENSES REQUIRED.—

"(A) IN GENERAL.—Notwithstanding whether the period for filing a claim for credit or refund has expired for any taxable year taken into account in determining the fixed-base percentage, the qualified research expenses taken into account in computing such percentage shall be determined on a basis consistent with the determination of qualified research expenses for the credit year.

"(B) PREVENTION OF DISTORTIONS.—The Secretary may prescribe regulations to prevent distortions in calculating a taxpayer's qualified research expenses or gross receipts caused by a change in accounting methods used by such taxpayer between the current year and a year taken into account in computing such taxpayer's fixed-base percentage.

"(5) GROSS RECEIPTS.—For purposes of this subsection, gross receipts for any taxable year shall be reduced by returns and allowances made during the taxable year. In the case of a foreign corporation, there shall be taken into account only gross receipts which are effectively connected with the conduct of a trade or business within the United States."

(2) CONFORMING AMENDMENTS.—

(A) Subparagraph (B) of section 41(a)(1) is amended to read as follows:

"(B) the base amount, and".

(B) Clause (ii) of section 41(e)(7)(C) is amended by striking "base period research expenses" and inserting "base amount".

(C) Paragraph (1) of section 41(f) (relating to aggregation of expenditures) is amended by striking "proportionate share of the increase in qualified research expenses" each place it appears and inserting "proportionate shares of the qualified research expenses and basic research payments".

(D) Subparagraph (A) of section 41(f)(3) is amended—

(i) by striking "June 30, 1980" and inserting "December 31, 1983", and

(ii) by inserting before the period ", and the gross receipts of the taxpayer for such periods shall be increased by so much of the gross receipts of such predecessor with respect to the acquired trade or business as is attributable to such portion".

(E) Subparagraph (B) of section 41(f)(3) is amended—

(i) by striking "June 30, 1980" and inserting "December 31, 1983", and

(ii) by inserting before the period ", and the gross receipts of the taxpayer for such periods shall be decreased by so much of the gross receipts as is attributable to such portion".

(F)(i) Subparagraph (C) of section 41(f)(3) is amended by striking "for the base period" and all that follows and inserting "for the taxable years taken into account in computing the fixed-base percentage shall be increased by the lesser of—

"(i) the amount of the decrease under subparagraph (B) which is allocable to taxable years so taken into account, or

"(ii) the product of the number of taxable years so taken into account, multiplied by the amount of the reimbursement described in this subparagraph."

(ii) The heading for such subparagraph (C) is amended to read as follows:

"(C) CERTAIN REIMBURSEMENTS TAKEN INTO ACCOUNT IN DETERMINING FIXED-BASE PERCENTAGE.—".

(G) Paragraph (4) of section 41(f) is amended by inserting "and gross receipts" after "qualified research expenses".

(b) TRADE OR BUSINESS REQUIREMENT DISREGARDED FOR IN-HOUSE RESEARCH EXPENSES OF CERTAIN STARTUP VENTURES.—Subsection (b) of section 41 (defining qualified research expenses) is amended by adding at the end thereof the following new paragraph:

"(4) TRADE OR BUSINESS REQUIREMENT DISREGARDED FOR IN-HOUSE RESEARCH EXPENSES OF CERTAIN STARTUP VENTURES.—In the case of in-house research expenses, a taxpayer shall be treated as meeting the trade or business requirement of paragraph (1) if, at the time such in-house research expenses are paid or incurred, the principal purpose of the taxpayer in making such expenditures is to use the results of the research in the active conduct of a future trade or business—

"(A) of the taxpayer, or

"(B) of 1 or more other persons who with the taxpayer are treated as a single taxpayer under subsection (f)(1)."

(c) FULL DISALLOWANCE OF DEDUCTION FOR QUALIFIED RESEARCH EXPENSES.—

(1) Subsection (c) of section 280C, as amended by subtitle H, is further amended by striking "50 percent of" each place it appears.

(2) Paragraph (2) of section 196(d) is amended by inserting before the period "for a taxable year beginning before January 1, 1990".

(d) ONLY REASONABLE RESEARCH EXPENDITURES ELIGIBLE FOR SECTION 174.—Section 174 is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following new subsection:

"(e) ONLY REASONABLE RESEARCH EXPENDITURES ELIGIBLE.—This section shall apply to a research or experimental expenditure only to the extent that the amount thereof is reasonable under the circumstances."

(e) EFFECTIVE DATE.—The amendments made by this section (other than subsection (a)) shall apply to taxable years beginning after December 31, 1989.

SEC. 12. EXTENSION OF WAIVER OF EARLY WITHDRAWAL TAX FOR ESOPS.

Subparagraph (C) of section 72(t)(2) is amended by striking "January 1, 1990" and inserting "July 1, 1990".

Subtitle B—Acceleration of Deposit Requirements

SEC. 13. ACCELERATION OF DEPOSIT REQUIREMENTS.

(a) IN GENERAL.—Section 6302 (relating to mode or time for collection) is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following new subsection:

"(e) DEPOSITS OF SOCIAL SECURITY TAXES AND WITHHELD INCOME TAXES.—

"(1) IN GENERAL.—If, under regulations prescribed by the Secretary, a person is required to make deposits of taxes imposed by chapters 21 and 24 on the basis of eight-month periods, such person shall, for the year specified in paragraph (2), make deposits of such taxes on the applicable banking day after any day on which such person has an amount equal to or exceeding the threshold amount of such taxes for deposit. Rules similar to the rules of section 5061(e)(3) shall apply to the threshold amount in the preceding sentence.

"(2) SPECIFIED YEARS.—For purposes of paragraph (1)—

"In the case of:	"The applicable banking day is:
1990	1st
1991	3rd
1992	3rd
1993	1st
1994	2d.

"In the case of:	"The threshold amount is:
1990	$1,950,000
1991	$1,500,000
1992	$1,600,000
1993	$1,700,000
1994	$1,775,000."

(b) EFFECTIVE DATE.—

(1) GENERAL RULE.—Except as provided in paragraph (2), the amendment made by subsection (a) shall apply to amounts required to be deposited after July 31, 1990.

(2) RULE FOR 1995 AND THEREAFTER.—For calendar year 1995 and thereafter, the Secretary of the Treasury shall prescribe regulations with respect to the date on which deposits of such taxes shall be made in order to minimize the unevenness in the revenue effects of the amendment made by subsection (a).

NOTICES OF HEARINGS

SPECIAL COMMITTEE ON AGING

Mr. PRYOR. Mr. President, I would like to announce for the public the Senate Special Committee on Aging has changed the time for the Novem-

ber 15, 1989, scheduled hearing on how the drug crisis is affecting the elderly, particularly poor and minority elderly in both urban and rural settings.

The hearing has now been set to start at 1:30 p.m.

For further information, please contact Christopher Jennings at (202) 224-5364.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. MITCHELL. Mr. President, I ask unanimous consent that the full committee of the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate, November 14, 1989, 9:30 a.m. to receive testimony on alternative energy fuels (sequel to October 17 hearing) such as compressed natural gas, reformulated gasoline, ethanol, and electricity (electric vehicles).

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON GOVERNMENTAL AFFAIRS

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Committee on Governmental Affairs be authorized to meet on Tuesday, November 14, at 9:30 a.m. for a hearing on the subject: DOE's 5-year plan.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation and the National Ocean Policy Study, be authorized to meet during the session of the Senate on November 14, 1989, at 9:30 a.m. to hold a hearing on global warming and U.S. atmospheric policy.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON ANTITRUST, MONOPOLIES, AND BUSINESS RIGHT

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Subcommittee on Antitrust, Monopolies, and Business Rights, of the Committee on the Judiciary, be authorized to meet during the session of the Senate on November 14, 1989, at 9:30 a.m., to hold a hearing on sports programming and cable television.

The PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INTELLIGENCE

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate on Tuesday, November 14, 1989, at 9 a.m. to hold a closed meeting on intelligence matters and at 2 p.m. to hold a closed hearing on intelligence matters.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON LABOR AND HUMAN RESOURCES

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Committee on Labor and Human Resources be authorized to meet during the session of the Senate Tuesday, November 14, 1989, at 10 a.m. for a hearing on "American Math, Science, and Engineering Education."

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be allowed to meet during the session of the Senate on Tuesday, November 14, 1989, to conduct hearings on whether the American economy is in decline relative to our major competitors, and, if so, the implications this has for America's position in the world.

The PRESIDING OFFICER. Without objection, it is so ordered.

SELECT COMMITTEE ON INDIAN AFFAIRS

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Select Committee on Indian Affairs be authorized to meet on November 14, 1989, beginning at 9:30 a.m., in 485 Russell Senate Office Building, to consider for report to the Senate S. 1096 (S. 1336), to provide for the use and distribution of funds awarded the Seminole Indians; S. 1781, the Native American Language Act and S. 1846, to make miscellaneous amendments to Indian laws, and for other purposes, and to meet on Indian veterans.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FINANCE

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on November 14, 1989, at 10 a.m. to hold a hearing on S. 712, a bill allowing Puerto Rico to hold a referendum on its political status.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON SUPERFUND, OCEAN AND WATER PROTECTION

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Subcommittee on Superfund, Ocean and Water Protection, Committee on Environment and Public Works, be authorized to meet during the session of the Senate on Tuesday, November 14, beginning at 9:30 a.m., to conduct a markup of S. 657, the Indoor Air Quality Act of 1989.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON ENVIRONMENTAL PROTECTION

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Subcommittee on Environmental Protection, Committee on Environment and Public Works, be authorized to meet during the session of the Senate on Tuesday, November 14, beginning at 10 a.m., to conduct a markup of a committee print concerning acid rain.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

TRIBUTE TO LEO SUMNER

● Mr. SHELBY. Mr. President, it is with great pleasure that I ask my colleagues in the Senate to join with me in paying tribute to a great Alabamian. Leo Sumner of Tuscaloosa is a compassionate and caring man, a good friend and a concerned citizen.

On October 29, 1989, the Cosmetology Building at Shelton State Community College in Tuscaloosa was named the Leo Sumner Cosmetology Building. Leo was granted this honor as a result of his 15 years of service to Shelton State Community College.

A native of Moundville, AL, Leo received his early education from the Hale County School system. In 1951, he received a bachelor of science degree from the University of Alabama, and in 1956, he received a masters degree from the same university. In 1983 Leo received an honorary doctorate of laws degree from Livingston State University.

A World War II Navy veteran, Leo possesses a deep love for his country and a strong commitment to our Government. Leo served his country for 33 months in the U.S. Navy.

Leo's connection with Shelton State Community College began in 1973 when he became dean of instruction. In 1976, Leo became president of Shelton State Technical College, and in 1979, he was appointed as president of Shelton State Community College.

In 1985, Leo was honored by the city of Moundville when the town celebrated "Leo Sumner Day." The athletic area of Hale County High School has also been named in his Honor. The Shelton State Community College Foundation honored Leo in 1986 with a dinner and portrait unveiling. Leo's portrait now hangs in the conference room at the junior college division of Shelton State Community College.

During his 36 years in education, Leo touched the lives of many people. He has been instrumental in decisionmaking and funding for the State of Alabama. Known as a compassionate and caring man and a concerned citizen, Leo has left a remarkable legacy with the many students he touched throughout his career as an educator.

In addition to his work at Shelton State Community College, Leo's commitment to his community has extended to the realm of civic and charitable endeavors. He is a member of the

Tuscaloosa Rotary Club, the Tuscaloosa Chamber of Commerce, the Alabama Vocational Association, the Moundville Masonic Lodge, the Moundville Quarterback Club, and the Alabama Education Association. Leo also serves on the board of directors of West Alabama Rehabilitation Services and the board of trustees for Forest Lake United Methodist Church.

Mr. President, I know I join Leo's wife, Rebecca, his three children and their families in sharing pride in Leo's accomplishments at Shelton State Community College. I am proud to serve as one of Leo's representatives in Washington and even prouder to call him my friend.●

TRIBUTE TO WALTER JUDD

● Mr. BOSCHWITZ. Mr. President, I rise today to pay tribute to a former Congressman from Minnesota, the Honorable Walter Judd.

Walter Judd served with distinction in the U.S. Congress for 18 years, and was revered by both colleagues and constituents as an honorable, highly principled representative.

This year Walter celebrated his 91st birthday, and to recognize that occasion, I would like to enter into the RECORD a commemorative written by another Minnesotan, Mr. Ralph Marlatt, whom I regard with great admiration, and about whom I'd like to speak for a moment.

Ralph Marlatt's story is a shining example of the American dream. Ralph Marlatt grew up around public service, and that experience has helped shape his life. His father served as Walter Judd's administrative assistant for several years, and instilled in Ralph a sense of public service. That sense of public service has stayed with him.

After graduating from St. Bonaventure University, Ralph served his country in the U.S. Army. Then he brought his talents to Congress, serving Congressman William Stinson of Washington. Later, after becoming ordained as a Catholic priest, Ralph returned to Capitol Hill and delivered the opening invocation for a session of the House of Representatives.

Ralph's ties to Congress have remained through the years. He served as vice president of Government and Industry Affairs for the Professional Insurance Agents here in Washington. He currently serves as president of the Insurance Federation of Minnesota, and has continued his involvement in public affairs. It is with great pleasure that I ask that his tribute to Congressman Walter Judd be placed in the CONGRESSIONAL RECORD.

The tribute follows:

TRIBUTE TO THE HONORABLE WALTER JUDD

(By Ralph J. Marlatt)

Congressman Judd was probably one of the true statesmen ever to serve in the Congress of the United States, and one of the most admired persons in the country. He was a commanding speaker and in great demand everywhere.

Walter Judd was born in Rising City, Nebraska, September 25, 1898. He graduated from the University of Nebraska and from the Medical Department of that same school. He served in the United States Army during World War I, enlisting as a private and discharged as a Second Lieutenant. He was awarded a Fellowship in Surgery at Mayo Foundation in Rochester, Minnesota. He served as a medical missionary in China and left there after being forced out by the Communists in 1938, after a dramatic flight by Mrs. Judd and their newly-born daughter; he was imprisoned, actually facing execution at one point.

He returned to the United States to travel extensively around the United States at his own expense on a lecture tour. He warned against the menace of Japan's military expansion in the Far East and the threat of Communism in that part of the world. He later practiced medicine in Minneapolis. It is from that city he was drafted by a group of concerned citizens to run for Congress and was elected to the House of Representatives in 1942.

Walter Judd was an intensely dedicated man, unrelentless in fighting for what he believed to be right, with great compassion and understanding of all individuals. He was completely non-racist and while a devoted Christian, zealous in his conviction in the principle of religious freedom.

My father, Ralph H. Marlatt, was Walter Judd's Administrative Assistant from 1952 to 1955. I also worked part-time in the Judd Congressional Office while in high school. My father told me of a memorable occasion when a group of visiting students from Asia were gathered in a hotel room to meet informally with Dr. Judd, whose name was a byword throughout the Far East. The room was packed with young people from China, Japan, India, Malaysia and other Asian countries of many differing religions. The furniture had been pushed back against the walls and everyone, including the Congressman, was seated around on the floor. The discussion turned to religion and the intolerance of one sect for another. One particularly eloquent youth from India had just finished an impressive statement charging that American missionaries degraded the people in the lands where they came to spread the gospel of Christianity, by failing to acknowledge any truth or good in other forms of religion or other cultures, demanding full and immediate acceptance of Christian beliefs and the American culture.

When the young man finished, Dr. Judd acknowledged the wonders, beauty and wisdom contained in other cultures, and the deep inner meaning of many other religions as all human beings on earth, whatever their form of religious worship, turned instinctively to a single source of Power as the Supreme Force within us all. He concluded, "The key word is only," Dr. Judd declared. "All of us, and probably Americans more than most, feel that our beliefs and our ways are the only true beliefs and right ways. When in reality each man in every place must make his own individual decisions as to how he lives and to which god he prays to so that he may chart his own salvation and at the same time make his contribution to the world around him and leave his imprint on those who will follow."

In their lives, Dr. and Mrs. Judd practiced this kind of tolerance, quietly and without fanfare, but with lasting affect upon people in many lands and many stations in life.

He was a leading authority on the Orient and its people with a special knowledge of China from his many years of service there. He spoke all of the dialects and his Congressional mail was filled with requests for assistance, not only from Chinese in his own District, but throughout the country. He was a member of the House Committee on Foreign Affairs and frequent consultant to the White House and State Department, especially during the period John Foster Dulles was Secretary of State.

Congressman Judd was one of the first prominent Republicans to urge Dwight Eisenhower to run for President. He made a special trip to Paris to visit the General, and in a private meeting, pointed out the importance of his accepting the leadership of the Nation in the crucial period in which the Nation found itself engaged; the war in Korea was raging and the United States was sitll not fully recovered from World War II. Judd took an active role in the 1952 Republican Convention in Chicago, which nominated General Eisenhower as its candidate for President in a bitterly fought contest with Robert Taft of Ohio. He was principal speaker for the Republican ticket in the 1952 campaign, and introduced Eisenhower when he was in Minnesota.

Walter Judd was defeated by Don Fraser in 1960. Dr. Judd had served nine terms in the House of Representatives. At 91 Walter Judd continues to give speeches on foreign policy.●

NOTICE OF DETERMINATION BY THE SELECT COMMITTEE ON ETHICS UNDER RULE 35, PARAGRAPH 4, PERMITTING ACCEPTANCE OF A GIFT OF EDUCATIONAL TRAVEL FROM A FOREIGN ORGANIZATION

● Mr. HEFLIN. Mr. President, it is required by paragraph 4 of rule 35 that I place in the CONGRESSIONAL RECORD notices of Senate employees who participate in programs, the principal objective of which is educational, sponsored by a foreign government or a foreign educational or charitable organization involving travel to a foreign country paid for by that foreign government or organization.

The select committee has received a request for a determination under rule 35 for Mr. Dan Rich, a member of the staff of Senator CRANSTON, to participate in a program in the People's Republic of China, sponsored by the Chinese People's Institute of Foreign Affairs, from December 8 to 22, 1989.

The committee has determined that participation by Mr. Rich in the program in the People's Republic of China, at the expense of the Chinese People's Institute of Foreign Affairs, is in the interest of the Senate and the United States.

The select committee has received a request for a determination under rule 35 for Mr. J.D. Crouch, a member of the staff of Senator WALLOP, to participate in a program in West Germany, sponsored by the Konrad Adenau-

er Stiftung, from December 11 to 18, 1989.

The committee has determined that participation by Mr. Crouch in the program in West Germany, at the expense of the Konrad Adenauer Stiftung, is in the interest of the Senate and the United States.●

NICARAGUA'S ELECTIONS

● Mr. BOSCHWITZ. Mr. Speaker, in a little more than 3 months, on February 25 to be exact, the people of Nicaragua will be going to the polls. At that time, they will be presented with a stark choice. The electoral contest pits the ruling Marxist Sandinista candidate, Daniel Ortega, against a 14-party opposition coalition led by Violeta Chamorro, publisher of the newspaper La Prensa.

Mrs. Chamorro is the widow of the slain editor of La Prensa. Her husband was murdered in 1978 by assassins working for then dictator Anastasio Somoza. She originally supported the Sandinistas, and even participated in their first junta until 1980. But, like so many others, she became disillusioned with their cynical manipulation of the political system and their intimidation of freedom loving Nicaraguans.

Recently, Mrs. Chamorro was in Washington for talks with President Bush and congressional leaders. In connection with that visit, she wrote an article, which appeared in the Minneapolis Tribune, entitled "Nicaraguans Want Sandinistas Out." It eloquently discusses the situation in Nicaragua, the various ways in which the Sandinistas are attempting to distort the electoral process, and why she needs American help if she is to have a fair chance at winning the election. I ask that the article be placed in the RECORD and I commend it to my colleagues' attention.

The article follows:

NICARAGUANS WANT SANDINISTAS OUT

(By Violeta Chamorro)

WASHINGTON.—From Manila to Mexico, from Budapest to Berlin to Beijing, a great gale of democracy is blowing. But not on the Nicaraguans. What a cruel blast we've received from fate.

In 1979 we were all part of "the beautiful revolution," a great coalition that was to rid us of tyranny forever, of corrupt officials, of bullying soldiers and police, of grinding poverty, of foreign tutelage, of one-party, one-family rule.

For one brief moment in July of 1979 our people rose in joy to greet our brave muchachos returning victorious to Managua: Davids who had vanquished Goliath. How could we imagine that soon we would behold them behind armored personnel carriers and helicopter gunships? Soon enough the heroes of the revolution were slaughtering one another. Soon enough the workers who struck against autocracy could no longer strike or organize; the political parties that had united against the dictator could not assemble; the newspaper that had spread the word of freedom could not publish; the church that had preached liberation from the pulpit was bound and gagged.

How sad that Nicaraguans, instead of enjoying the blessings of equality and prosperity for which they risked their lives, now flee their homeland in the hundreds of thousands. How sad that the government of which I once formed a part has become as corrupt as its predecessor, as cruel, as hated.

But we've had our fill of hatred and of opinionated warriors who promise paradise and deliver inferno. Ten years of living dangerously has brought civil war, an exodus of a fifth of our countrymen, an annual inflation of 30,000 percent, 40 percent unemployment and, for the first time in our history, mass hunger. Our industry and agriculture are paralyzed. We have gone from being the breadbasket of Central America to being its basket case: an international beggar with the largest per-capita foreign debt in Latin America. Even a government-commissioned survey has found consumption to have fallen by 70 percent since the revolution. Of course the Sandinista media shout that all this is due to Ronald Reagan and now to George Bush. But we Nicarguans know full well that the shortages and the repression came before the war and the embargo.

Tired of war and warriors, of dogmas and slogans, we'd like to put our feet on the ground, our house in order. We want to be boring for a while—more like our neighbor to the south, Costa Rica, a country at peace with its neighbors where no family or party is above the law, with an army reduced to a minimum, with all parties allowed to compete freely at the ballot box. We do not look back: what has been positive in the revolution, we'd keep and extend. We would give peasants who farm nationalized lands clear title to them and would distribute all remaining state farms to those peasants who have no land. We would like to find common ground.

We in the opposition have been able to find common ground among ourselves. Today I am proud to say that the opposition coalition includes every group that united against Somoza in 1979, except the Sandinistas. The National Opposition Union (UNO) spans 14 parties of every political stripe: Communist, Socialist, Social Democratic, Populist, Liberal, Social Christian, Christian Democratic, Libertarian and Conservative. We are supported by all the independent labor unions, business organizations and professional groups. Anyone who knows Nicaragua will tell you that forging unity among our diverse groups and tendencies is no small achievement, especially because our organizations have been restricted and repressed. But we have united around a common program for national reconciliation, economic reconstruction and social justice through democratic institutions.

Our common effort found fertile ground. Last month, despite intimidation by Sandinista troops and myriad obstruction by government bureaucrats, a record 92 percent of eligible Nicaraguan voters formed long lines to register. As has been reported in the the New York Times, the Sandinista military even went so far as to stage a sham battle in an unsuccessful attempt to stop voters from registering. To frighten the people, President Daniel Ortega has called us "traitors" and "mercenaries" and "CIA agents," and has declared that a vote for us is "a vote for the enemy of the people." Pronouncing the Sandinistas "sure winners," he has emphasized that people would "not be so foolish as to vote for a loser"—intimating that after a Sandinista victory opposition voters will be treated as traitors. Our jails are filled already with "enemies of the people."

But the people remain steadfast. Despite the government's monopoly of television (we are allowed only 15 minutes per week on a feeble channel that cannot reach many areas), despite indiscriminate Sandinista use of state transport, telephones, offices, meeting places, telegraph and copiers, despite the fact that 50 percent of our desperately needed and profoundly appreciated donations are appropriated by the Sandinista-dominated electoral commission, the people are giving us their support. Just last week an independent survey showed us winning by a margin of nearly 2 to 1. Even though the Sandinistas have unleashed their mobs to disrupt our meetings, these meetings grow larger and larger. Recently even the Sandinista mayor of Managua acknowledged that his party is losing.

Accordingly, the Sandinistas have resorted to a new, more desperate and dangerous diversion. Again turning their backs on their solemn commitment to their people and to the Central American presidents, they have broken the cease-fire with the rebels. Their helicopter gunships and automatic artillery have opened fire. Their 90,000-man army sweeps through our villages on the preposterous pretext that tiny groups of poorly equipped contras constitute a "threat to national security." Lacking arguments to defend their misgovernment, the Sandinistas wish to spread fear, to chill the people into submission. This stratagem must raise grave doubts about the supposed Sandinista commitment to free elections.

In view of these alarming developments I have come to this country to ask for help. With the solidarity of all those who support our cause, I believe we may secure a relatively free vote; without it we may be doomed to elections in the style of the Sandinista's ally, Gen. Manuel Noriega.

Keep watch. Send observers from Congress, from state and federal government, from political parties, from labor unions, from professional and human-rights organizations. Send them now. They will be witnesses for democracy. Send journalists and cameras; let your news and polling organizations conduct independent voter surveys. Help give Nicaraguans the chance to feel again the breezes of democracy.●

BUDGET SCOREKEEPING REPORT

● Mr. SASSER. Mr. President, I hereby submit to the Senate the latest budget scorekeeping report for fiscal year 1990, prepared by the Congressional Budget Office in response to section 308(b) of the Congressional Budget Act of 1974, as amended. This report was prepared consistent with standard scorekeeping conventions. This report also serves as the scorekeeping report for the purposes of section 311 of the Budget Act.

This report shows that current level spending is under the budget resolution by $8 billion in budget authority, and over the budget resolution by $10.2 billion in outlays. Current level is under the revenue floor by $4.9 billion.

The current estimate of the deficit for purposes of calculating the maximum deficit amount under section

311(a) of the Budget Act is $120.5 billion, $20.5 billion above the maximum deficit amount for 1990 of $100 billion.

The report follows:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, November 13, 1989.

Hon. JIM SASSER,
Chairman, Committee on the Budget, U.S. Senate,
Washington, DC.

DEAR MR. CHAIRMAN: The attached reports shows the effects of Congressional action on the budget for fiscal year 1990 and is current through November 9, 1989. The estimates of budget authority, outlays, and revenues are consistent with the technical and economic assumptions of the 1990 Concurrent Resolution on the Budget (H. Con. Res. 106). This report is submitted under Section 308(b) and in aid of Section 311 of the Congressional Budget Act, as amended, and meets the requirements for Senate scorekeeping of Section 5 of S. Con. Res. 32, the 1986 First Concurrent Resolution on the Budget.

Since my report dated October 31, 1989, the President has signed into law the Statutory Debt Limit Increase (P.L. 101-140) and the Veterans, HUD Appropriations Bill (P.L. 101-144). These actions changed the current level estimate of budget authority, outlays, and revenues.

Sincerely,

ROBERT D. REISCHAUER,
Director.

CBO WEEKLY SCOREKEEPING REPORT FOR THE U.S. SENATE, 101ST CONG., 1ST SESS. AS OF NOV. 9, 1989

[In billions of dollars]

	Current level [1]	Budget resolution H. Con. Res. 106	Current level +/− resolution
Budget authority	1,321.4	1,329.4	−8.0
Outlays	1,175.4	1,165.2	10.2
Revenues	1,060.6	1,065.5	−4.9
Debt subject to limit	2,861.0	3,122.7	−261.7
Direct loan obligations	17.9	19.3	−1.4
Guaranteed loan commitments	110.8	107.3	3.5
Deficit	120.5	[2] 100.0	[3] 20.5

[1] The current level represents the estimated revenue and direct spending effects (budget authority and outlays) of all legislation that Congress has enacted in this or previous sessions or sent to the President for his approval and is consistent with the technical and economic assumptions of H. Con Res. 268. In addition, estimates are included of the direct spending effects for all entitlement or other mandatory programs requiring annual appropriations under current law even though the appropriations have not been made. The current level of debt subject to limit reflects the latest U.S. Treasury information on public debt transactions. In accordance with Sec. 102(a) of the Balanced Budget and Emergency Deficit Control Reaffirmation Act (101 Stat. 762) the current level deficit amount compared to the maximum deficit amount does not include asset sales.

[2] Maximum deficit amount [MDA] in accordance with section 3(7)(E) of the Congressional Budget Act, as amended.

[3] Current level plus or minus MDA.

U.N. POPULATION FUND

● Ms. MIKULSKI. Mr. President, on Tuesday President Bush indicated in his press conference that he would veto the foreign aid appropriations bill if it includes funding for the United Nations Population Fund [UNFPA].

It is not clear to me if the President fully understands what the UNFPA provision does and the implications for world population if we continue to turn our back on our responsibility to global population efforts.

My amendment to the foreign aid bill earmarks $15 million for the U.N. Population Fund. Because of reports of forced abortions and sterilizations by some local officials in China, my amendment specifically prohibits the transfer of even $1 to the UNFPA Program in China. Further, it mandates the establishment of a separate account for United States funds to make sure that our money stays out of China.

But President Bush and some Members of Congress are determined to keep the United States out of the UNFPA whether or not our presence affects the China program. They have made the following arguments:

We should not aid and abet the abuses which take place in China. I agree. The reports of forced abortions are repugnant, and such occurrences are totally objectionable to me. That is why no United States funds would go to China under my amendment.

Because the UNFPA has a presence in China, it may be assisting in these abuses. Wrong. The UNFPA does not promote or assist in abortion in China or anywhere else. UNFPA has exactly four employees in China, and its program consists of education on and distribution of contraceptives, education on maternal and child health care, and training of demographers.

By training demographers UNFPA helps the Chinese Government track people who are having too many children. This is pretty farfetched. An accurate national census is important to all nations, which is why the United States Census Bureau has been helping the Chinese.

If the United States fails to fund UNFPA the $15 million will still be used in population programs. True, but UNFPA has a presence in 141 countries around the world; in many of those there is no U.S. program. The fund is in 43 African countries, where the population problem is critical, while the Agency for International Development has a bilateral program in only a handful.

If the United States withholds its funds, it will force the UNFPA out of China. The United States has withheld its funding since 1986, and UNFPA has just extended its China program to 1994. Besides, forcing out UNFPA's small presence will not en-

courage Chinese officials to make any changes in their program.

Money is fungible, and the United States will free up other funds which can be channeled to China. In June, the UNFPA formally voted to fund its China program for 1991-94 at the level of $57 million. Thus, we have an official spending figure for China as of today. If the UNFPA spends at a rate over and above this level, we will know about it and will be justified in withdrawing our funding.

This is an abortion issue. UNFPA does not promote or assist in abortion in China or anywhere else as a matter of policy; therefore, a United States contribution to the fund will not fund abortions.

In fact, the fund's education on and distribution of contraceptives will reduce the number of abortions. One estimate indicates that recent population programs in China have reduced the number of abortions there by 50 percent.

This is a critical point—restrictions on family planning programs like UNFPA's increase the number of abortions around the world.

Half a million women die every year from complications of pregnancy and childbirth. An estimated 200,000 women die every year in the Third World as a result of botched abortions. Every year 10 million children fail to reach their first birthday due to poor prenatal care, unsafe delivery and poor care after birth. We need to care about children after they are born as well as before. The United States can help reduce these terrible statistics if only it will meet its responsibilities in international family planning programs.

Mr. President, I ask to include in the RECORD at this point several recent editorials dealing with U.S. funding for the U.N. Population Fund.

The material follows:

[From the New York Times, Oct. 23, 1989]

ABORTION AND THE REAL GEORGE BUSH

In 1980, private citizen, George Bush said he opposed Federal funds for abortion except in cases of rape, incest or threats to the mother's life. In 1984, Vice Presidential candidate George Bush couldn't recall having said that; indeed, he said he opposed exceptions. A week ago, President George Bush repeated that opposition but left "room for flexibility." The man who told America to read his lips on taxes seemed to be asking America to read his mind on abortion.

Mr. Bush's real instincts are now all too clear. On Saturday he vetoed a bill that would have permitted the use of Federal money to pay for the abortions of poor, pregnant victims of rape and incest. He also is prepared to block United States participation in the United Nations Fund for Population Activities.

In both cases, he seems out of step with a growing number of Americans. But he is certainly in tune with the restive right-to-lifers he courted in his campaign. Mr. Bush seems to place greater value on their tranquility than on the peace of mind of cruelly abused women who are too poor to afford wholly legal medical help.

Some pro-choice advocates had found hope in Mr. Bush's years of waffling. They convinced themselves that his inconsistencies arose from a temporary need to tailor his public utterances to political demands, and that once he had finally unhitched himself from Ronald Reagan's star, he would act differently.

He has not. Whether from conviction or political fear, he seems determined to convince the right-to-lifers that he is one of them. The veto is one sign of that determination; another is his opposition to the modest proposal to use foreign aid funds to teach family planning abroad. This is less controversial than using Medicaid funds to help poor women get abortions, but it is still a litmus test for right-to-lifers.

The amendment to the foreign aid bill sponsored by Senator Barbara Mikulski of Maryland would restore America's participation in the U.N. population fund. The U.S. withdrew from the program three years ago after a conservative outcry over abortion in China.

Under the amendment, none of the U.S. contribution—it would amount to only $15 million, down from $46 million—would go to China. Furthermore, the agency's new China program concentrates on contraceptive research and maternal and child health. Mr. Bush says he'll veto the legislation anyway, thus joining Mr. Reagan in rejecting a global consensus that the U.S. helped forge: that galloping population growth is everybody's concern.

When the Supreme Court upheld Missouri's restrictions on abortion this summer, it returned the issue to the political arena—and put a lot of politicians out on limbs. The right-to-life forces still carry political clout but the pro-choice groups stirred by the Court's decision may carry even more. Mr. Bush's rigid fealty to the right could leave him on a dangerous limb of his own.

[From the Miami Herald, Nov. 9, 1989]

FAMILY-PLANNING BILL, GO!

Congressman William Lehman of Dade has engineered the rescue—at least for now—of a sensible strategy by which the United States might resume funding an important international family-planning program. Then-President Reagan ended funding for the United Nations Population Fund in 1986, to the detriment of poor people in 140 countries who urgently need help spacing their children. The program was accused of supporting China's birth-control efforts, which allegedly included forced abortions and sterilizations.

The Senate recently adopted an amendment from Sen. Barbara Mikulski, Democrat of Maryland, earmarking $15 million for the program. The amendment stipulated that no U.S. money would go to China.

On Monday, Representative Lehman urged a House-Senate conference commitee to support the Mikulski amendment despite the House committee chairman's and its ranking Republican's objections. The Lehman motion passed, 8-3. The full House would be remiss not to pass it next week.

Mr. Lehman says that there are enough votes in Congress to fund the program. But to assure enough votes to override a threatened veto, he asks the women's lobby to flex its political muscle. That it should. Poor women need this family-planning help.

[From the Burlington (VT) Free Press, Oct. 3, 1989]

FIVE BILLION AND COUNTING

By 2020, 8.5 billion humans will crowd the planet. Millions and millions of them will be starving. They will have burned enough forest to cover more than 40 Californias and exterminated more than 10,000 species of plants and animals. Hunger, poverty and inhuman crowding will raise the threat of violent mass migrations.

Yet the explosive growth of population was absent from President Bush's list when he talked to the United Nations last week about "urgent challenges—the global challenges of the 21st century."

Bush talked about war, the environment and economic growth in the Third World. He talked, in other words, about the symptoms of illness, not the virus.

Population growth, for example, is expected to touch off new regional conflicts in the 21st century, as the unbearably crowded countries of Asia, Latin America and Africa struggle for room to grow. By 2025, Nigeria's population will nearly triple, from 105 million to 301 million. Mexico's will nearly double, from 85 million to 150 million.

Bush's Task Force on Combatting Terrorism noted in 1986 that half the population of the Third World is under 20. "These population pressures create a volatile mixture of youthful aspirations that when coupled with economic and political frustrations help form a large pool of potential terrorists," the report said.

Population growth may be the single greatest danger to Earth's environment. By 2000, one-half the world's population will be cutting fuelwood faster than the forests can grow back. Human pollution of the air and water may make megacities like Calcutta and Cairo uninhabitable. Human hunger will destroy fertile farmland through too-intensive farming; hunger will destroy the tropical rain forest.

Population growth makes economic growth more difficult—in some countries, impossible. In sub-Saharan Africa, the population is doubling every 25 years and per capita food production has declined in the last 20 years.

With its combination of riches and power, the United States bears a particular responsibility. Washington must help Third World countries struggling to control their birth rates. Ronald Reagan abdicated that responsibility.

In 1986, he cut off all U.S. money to the U.N. Fund for Population Activities. Washington had provided 20 percent of the program's funds. Under pressure from the right-to-life movement, Reagan objected on grounds that China, one recipient of aid, used forced abortions as a population control tool. China strongly denies the allegation and has satisfied other contributors to the Fund.

But Bush need not resolve the China question in order to restore U.S. support. The Fund assists 130 countries where coercive family planning is not an issue; birth control, in fact, deters abortion. U.S. aid can be earmarked for those nations.

As ambassador to the United Nations in 1971, Bush described exponential population growth as "a prescription for tragedy and chaos." He urged that the Population Fund grow rapidly "to a point where it will be making an important impact on world population."

Tragedy and chaos are closer now than they were then. Population assistance is no

longer a matter of compassion or good planning alone. Moderating the global birth rate is a matter of national security.

[From the Dallas Morning News, Oct. 8, 1989]

FAMILY PLANNING—U.S. SHOULD CONTRIBUTE TO U.N. POPULATION FUND

The population of the world is growing by 90 million people every year, and there is good reason to be concerned. To some observers, population growth is a net plus because a skyrocketing population can translate into more markets and more workers. Baby booms imply vibrancy and dynamism. Yet the tragic flip side of unbridled population growth is to be found in Africa or Bangladesh, where mass starvation and disease are increasing because more and more people are competing for limited resources.

In truth, experts point out that there are dozens of countries in the world that will double their populations in 30 years, even though they cannot feed their own populations today. Sen. Patrick Leahy, R-Vt., asks: "How will the world feed that many people, at the same time that we are losing 24 billion tons of topsoil every year? This is not just a Third World problem. Our own way of life is at stake." He is correct to cite the potential for conflict as the number of hungry, impoverished people in the world multiplies. And what about the threat to democracy and the environment?

It is against this backdrop that the U.S. Senate will soon vote on whether to resume its funding of the U.N. Population Fund, the largest multilateral family planning organization in the world. As Sen. Leahy points out, the U.S. ceased contributing to the fund when Congress passed a law prohibiting U.S. support for any organization that participates in the management of coercive abortion or involuntary sterilization. Yet the bill now before the Senate expressly prohibits U.S. funds from being used for those purposes.

Other critics are trying to turn the vote into a referendum on China. But he bill specifically says that U.S. funds will not be used in China. In fact, the bill requires the U.N. Population Fund to keep U.S. money in a separate account.

The bill before the Senate has therefore addressed all legitimate issues of concern, while the tangible good that the U.N. Population Fund does for the entire world is indisputable. The Senate has every reason to vote for this important piece of legislation; it is in the interests of the United States and the entire world.

[From the Lubbock Avalanche-Journal, Oct. 12, 1989]

GLOBAL FAMILY PLANNING—U.S. SHOULD CONTRIBUTE

Americans should not fool themselves into thinking that the overpopulation problems of the Third World countries don't affect them as well.

U.S. Senators should remember this as they prepare to vote on whether to resume funding of the U.N. Population Fund, the largest multilateral family planning organization in the world.

At the current growth rates, today's world population of 5.2 billion people is expected to double by the year 2028. With a huge portion of that population explosion occurring between the Rio Grande and Panama, refugees will head north in masses.

Not only will they be looking for places to live, but also they—and the entire world—will be faced with food shortages of major proportions.

Werner Fornos, president of The Population Institute, says that the brewing environmental crises of the 21st century, including enormous loss of forest lands and vanishing water supplies, are tied directly to rapid world population growth.

Fornos noted also that the faster populations grow, the more environmental problems are aggravated. "These problems can be directly traced to declining forests with 70 percent of Third World families dependent on wood for their fuel."

Solutions will require bold and imaginative actions, Fornos said; actions that may include industrial countries forgiving debts of Third World nations that adopt sound environmental policies, efforts calling for a speedy halt to all new chlorofluorocarbon production worldwide, and the promotion of alternative sources of energy rather than the burning of fuel.

This Congress must make a firm commitment to support population control activities worldwide.

The U.S. stopped contributing to the U.N. Population Fund during the Reagan administration, when Congress passed a law prohibiting support for any organization that participates in the management of coercive abortion or involuntary sterilization.

The current bill before the Senate specifically prohibits U.S. funds from being used for those purposes.

In fact, the bill requires the U.N. Population Fund to keep U.S. money in a separate account. Our contributions will not be used to fund abortions, but could support education and methods of family planning.

The U.S. again must assume its responsibility for educating people regarding family planning. It is in the highest interest of this generation of Americans and those yet to come.

[From the Milwaukee Journal, Sept. 28, 1989]

U.S. GETTING REAL AGAIN ON POPULATION CONTROL

Family planning agencies abroad, under attack since 1984 by an American government increasingly hostile to population control, have learned to content themselves with small successes. Recently, however, they scored a major triumph when the Senate voted to restore aid to the United Nations Population Fund, which lost its US subsidy four years ago in a dispute over abortion.

Opponents of the subsidy charge that the UN agency is too involved in China's family planning program, which they say coerces couples into having abortions. They make the point that any US contribution to the agency frees up the same amount within the fund for use in China.

That may have been the case in the past, but it isn't now. The fund already has made its grant to China for the year, and any US contribution at this point wouldn't alter the amount available to that nation. Moreover, language in the legislation, which earmarks $15 million for the fund, specifically bars its use for abortion activities, in China or elsewhere. In fact, none of the money may be sent to China at all.

Clearly, the US contribution to UN population control activities should be restored. It still must be approved by the House, where a subcommittee headed by Wisconsin Rep. David Obey can point the way by concurring with the Senate's recommendation.

Even if the subsidy is defeated, the renewal of congressional interest in family planning is a good sign. It suggests that Congress perceives the Bush administration to be less doctrinaire on population control than was its predecessor, which argued foolishly that an expanding economy and free marketplace were the best checks on population growth. The Senate, as shown by its vote, knows better. Surely the House must, too.

[From the Seattle Post-Intelligencer, Oct. 1, 1989]

GLOBAL BIRTH CONTROL

The U.S. Senate has voted by a narrow margin to end a rather strait-laced and ill-advised administration stricture on American aid to the United Nations Population Fund.

Spurred by high-volumed anti-abortion lobbyists, the Reagan administration in 1985 began to withdraw support of the fund. Ostensibly, the fund ban was based on reports that the U.N. agency bankrolled draconian Chinese population controls, including coerced abortions. The United Nations has denied those allegations.

In any event, administration objections to the funding likely had far more to do with what was going on in the United States than in China. Zealous anti-abortion elements in this country simply opposed any birth control funding that might go toward abortions, forced or voluntary. Indeed, one suspects that among those elements were those who opposed U.S. support of any sort of international birth control.

The Bush administration is apparently content to continue the funding ban. Hence, the Senate vote sets the stage for an ideological battle in the House.

In the developing countries of the world especially, struggling people's own fertility can be their own worst enemy. In broad global terms, excessive population and attendant demands upon resources and risk to the environment pose a direct effect on all residents of this fragile planet. The United States would seem to have a clear obligation to support any safe, fair and legitimate global efforts to limit the world's population. This $15 million to the United Nations Population Fund is a worthy contribution toward fulfilling that obligation.

[From the Kansas City Star, Oct. 3, 1989]

HOPEFUL SIGNS OF A RETURN TO SANITY

There is hope for a return to reason regarding the United States' role as a leader in international family planning. The Senate has approved restoration of some funding of the United Nations Fund for Population Activities, which was cut off in 1985 by the Reagan administration following a flap over abortion in China.

It did not seem to matter to Congress at the time, however, that no money was being spent by the U.N. fund for abortion—in China or anywhere else. The appeasement of the anti-abortion constituency had to be made.

It was made at the expense of population control in the poorest countries of the world and the U.S. role as an example and leader for other countries in international family planning. For years, the industrialized nations looked to the U.S. in determining what their own efforts would be in providing contraceptive services and help to underdeveloped nations. The message which was sent under Reagan set back unified effort.

Under the Senate action, none of the money can be used in China, and the fund must be kept in a segregated account so they can be monitored. These safeguards mean there is absolutely no reason for any legislator to vote against this proposal. The money could not be used for any program which included abortion. Despite this, Sen. Nancy Kassebaum of Kansas was the only Kansan or Missourian in the Senate to see the importance of this move to the world population control effort.

The world adds people at the rate of 1 billion every 10 years. Most of these come in the places which can least afford it, and the consequences are maternal and child deaths and ill health, poverty, malnutrition and hunger, ravaged natural resources, illiteracy and despotism. By voting to restore at least $15 million of U.S. funding to UNFPA, the Senate has put this country back as part of the team effort to help needy countries develop their own plans to fight this worldwide disaster.

[From the Minneapolis Star-Tribune, Sept. 29, 1989]

A BRAVE STROKE FOR WORLD FAMILY PLANNING

The U.S. Senate has just produced a pleasant little surprise of earth-shaking implication. The surprise was the approval last week of a foreign-aid bill that includes $15 million for the U.N. Fund for Population Activities (UNFPA). The earth-shaker was the setback to anti-abortion forces which had succeeded four years ago in ending U.S. support for the international family-planning agency. While $15 million isn't much, we'll take it as a sign of better things to come. And we applaud the political courage that voting for UNFPA required.

By daring to restore U.S. support for UNFPA, the Senate took a priceless stand against a powerful right-wing political constituency that has exercised a reign of terror over Congress in recent years. Frustrated by court decisions at home, these determined, well-organized forces used a sympathetic Reagan administration and cowardly Congress to export their antiabortion agenda overseas. UNFPA was on the hit list for providing information and contraceptive services to China's birth-control program, which was accused of forcing women to undergo abortion or sterilization.

China insisted its family-planning program was voluntary and took steps to prevent abuses, but coercion happens in a coercive society. The irony was that weakening U.S. support for family planning left millions of desperate women in China and other developing countries with no alternative to abortion. Worldwide, some 55 million unwanted pregnancies end in abortion every year; botched abortion is a leading cause of death among Third World women of childbearing age.

The UNFPA amendment, sponsored by Maryland Sen. Barbara Mikulski, only partially undoes the damage. No. U.S. money can be spent in China. Nor will UNFPA's spending in China increase as a result of the U.S. contribution. The American dollars will go only to help people in other Third World countries obtain the information and services they need to control the size of their families.

That much is progress. But the Senate faces strong opposition from the House and the Bush administration, which favors continuing the regressive policy of the past four years. The Senate should stand firm. The $15 million will help UNFPA do a little more good work in the world. Finding the courage to do what's right on this issue may set a precedent for Congress on the tough decisions to come.

[From the Ithaca Journal, Sept. 30, 1989]

GOOD SENSE RETURNS TO FAMILY PLANNING

Sometimes good news travels slowly. Generally unnoticed amid this week's flurry of happenings was a Senate vote, 52 to 48, to resume aid to the United Nations family planning programs. In one of President Reagan's more myopic decisions, U.S. aid was canceled two years ago.

The Senate earmarked $15 million for the United Nations Population Fund. This must still pass muster with the House and President Bush. But there's reason to hope that good sense will return to the government's position on this crucial issue.

The Population Fund helps nations around the world provide contraceptives, education about birth spacing, and maternal and child health services. The work is essential: Without it, populations would soar far beyond the earth's ability to sustain them, especially in the Third World countries.

From its start 20 years ago, the fund had strong U.S. support. But U.S. aid was partially withdrawn several years ago, in reaction to rumors that the People's Republic of China used coercion in population control. Later President Reagan cut off all aid to the fund to please the right-to-life movement.

Yet the Population Fund does not support abortion and has never sanctioned coercion as methods of family planning. Grant applicants are screened and use of the funds is watched to assure that its money is not channeled into financing such programs.

Recent evidence indicates that China's official policy is not coercive. But to allay lingering doubts among members of Congress and the Bush administration, the Senate bill requires that the $15 million be set up in a separate account and does not allow any of the money to be sent to China.

How badly is the money needed? The world population, now at 5 billion, is expected to reach 6.2 billion in the year 2000 and 8.5 billion by 2025. And in many of the poorest and hungriest nations, populations are likely to double in the next 30 years.

Aid to family planning is not only humanitarian, but vital to the preservation of life on this planet. We trust that all three of our congressmen, McHugh, Houghton and Boehlert, will support the refunding of the United Nations Population Fund when the issue reaches the House floor.

[From the Sacramento Bee, Sept. 22, 1989]

DEMOGRAPHIC COMMON SENSE

The United Nations Fund for Population Activities has increased its budget by about 20 percent since 1986, no thanks to U.S. churlishness. The Reagan administration that year cut off $25 million in annual support for family planning programs through the U.N. agency, and the Bush administration has continued that myopic policy. Yet despite the fact that UNFPA, with help from others, has survived, Washington's return to the fold would be salutary, both financially and to give a morale boost to global efforts to control population growth.

Last week, the Senate took a modest step in that direction by approving $15 million for UNFPA as part of a mammoth foreign aid bill. Unfortunately, the measure must still survive a House-Senate conference committee and win the assent of President Bush, neither of which is certain.

Congress acted in 1985 to deny U.S. funds to any country or agency that coerces women into having abortions, a response to reports that China, as a means of implementing its one-child-per-family policy, was doing just that. Independent researchers found that, to the extent that China has engaged in such practices, it was as a consequence of unauthorized actions at the local level by overzealous officials. Morever, UNFPA finances barely 1 percent of China's family planning budget and bars the use of its funds to pay for abortions. But with anti-abortion hawks like Sen. Jesse Helms breathing down its neck, the Reagan administration disregarded all of that and cut off UNFPA without a penny.

Family planning experts say one reason U.S. support for UNFPA is so vital is the timidity of many smaller countries in the face of such controversial questions as the use of condoms or birth control pills, without the protective cover that U.S. leadership can provide. The Senate has recognized that obligation in seeking to reverse a shortsighted and harmful policy.

[From the Pittsburgh (PA) Post-Gazette, Oct. 13, 1989]

A TEST ON POPULATION CONTROL

It is unfortunate that President Bush has informed congressional leaders that he will veto a foreign-aid bill that includes a renewal of support for the the United Nations Population Fund. If he does, Congress should override the veto.

The president's threat is designed to persuade an eventual House-Senate conference committee to scotch a Senate vote that for the first time since 1985 challenged the Reagan-Bush bias against international family-planning programs. At a time when the mushrooming growth of population in many Third World countries is overtaking economic-development efforts, that action was highly significant.

What the Senate did was to uphold an amendment to the foreign-assistance appropriations bill (HR 2939) calling for restoration of U.S. contributions to the U.N. Population Fund. That action came a week after the Appropriations Committee adopted by a 15-12 vote the controversial amendment offered by Sen. Barbara Mikulski, a Maryland Democrat, providing $15 million to the U.N. agency in the fiscal year that began Oct. 1.

The Mikulski amendment was conditioned on a prohibition against the use of any of the $15 million in China because of that country's controversial one-child-per-family program. Opponents have charged that China uses abortion as one component of that program. But Sen. Mikulski insisted, "It is clear to me that the Fund does not engage in, or support forced abortions, sterilization or coercive family planning."

Family-planning proponents contend that pressures from anti-abortion forces have caused the Reagan and Bush administrations to use China as a straw man to block any U.S. participation in the international effort to contain the population explosion. That world total now has passed the 5 billion mark, with another 85 million people being added each year for an expected total of 6.1 billion by the year 2000.

UNFPA has been in the distressing position of being punished for alleged action by China over which UNFPA has no control. Fortunately, other countries have picked up America's financial slack in recent years. But the Reagan-Bush recalcitrance on the issue has made it harder to persuade gov-

ernments to push population-control programs.

Congress finally has seen the folly of this shortsighted approach. Now citizens who support this breakthrough for America's obligation to help stem the population tide so perilous for the developing world should contact their senators and representatives, asking continued support for the Mikulski amendment, including a veto override attempt it if comes to that.

[From the Atlanta (GA) Constitution, Oct. 12, 1989]

BUSH KOWTOWS TO LOBBY

Never mind that both polling and work-a-day politics are making it clear that Americans reject the marxiamalist goals of anti-abortion militants. The extremists still dominate the Republican Party and thus the presidency.

So President Bush has told congressional leaders he will veto the foreign aid bill if it includes renewed support for the United Nations Population Fund.

The fund is a crucial part of international efforts to promote birth control and reduce runaway birthrates that are literally eating up economic and social progress, dooming millions to malnutrition and even starvation and overpopulating Earth in ways that degrade the ecosphere dangerously.

The Senate apparently had thought, and certainly hoped, that Mr. Bush had shaken Reaganism at least enough to let the United States rejoin this important international program, but that is not so. The anti-abortion lobby has persuaded the president to throw the barriers up once again, because the fund has, not direct relationships with abortion, but some secondhand ones.

That noise you just heard was the sound of the United States shooting itself in the foot.

[From the Charleston (WVA) Gazette, Oct. 1, 1989]

BUSH THREAT

Events of this week have shown that America generally supports a woman's right to choose abortion, and that extreme abortion foes are a minority.

Why, then, is President Bush still threatening to veto the entire U.S. foreign aid package because of a far-right abortion complaint so erroneous that it is ridiculous?

For years, the Reagan and Bush administrations have refused to support the U.N. Population Fund because some extremists think the fund aids abortions in China. This isn't true. The fund works for birth control, not abortion. Its guidelines specifically prohibit spending on abortion. But that hasn't prevented the one-issue religious fanatics from attacking the fund, nor has it prevented the White House from bowing to the fanatics.

When the $14 billion foreign aid bill was before the Senate last month, Sen. Barbara Mikulski, D-Md., succeeded in tacking on $15 million for the U.N. fund. Her amendment specified that none of the money may be used in China for any reason.

Now the foreign aid bill is before a House-Senate conference committee, and Sen. Robert C. Byrd, D-W.Va., is one of the conferees. There is speculation that the committee will scuttle the U.N. Money to avoid a Bush veto.

We hope not. Overpopulation is one of the worst threats facing the human race. Many poor nations are breeding themselves into disaster. The only cure is birth control, and the U.N. fund is the chief instrument to achieve it.

We hope that Byrd and fellow conferees retain the U.N. money—and that Bush finally breaks free from the extremist minority and signs the foreign aid bill.●

SEVENTY YEARS OF FACILITATING INTERNATIONAL UNDERSTANDING

● Mr. SIMON. Mr. President, the Institute of International Education is now celebrating its 70th anniversary. On October 25, the Institute presented President George Bush with an award for his contributions to international education. The award was presented by Dr. Henry Kaufman, Chairman of the Institute's Board of Trustees and also included remarks by Richard M. Krasno, the president of the Institute of International Education.

The IIE works at fostering mutual understanding, promoting both economic and social developments abroad, and also strengthening the international capabilities of U.S. citizens. IIE works through universities, corporations, both the United States and foreign governments, international agencies and other organizations to achieve these goals.

The Institute administers almost 250 noteworthy exchange programs that enable over 10,000 men and women to study internationally each year. They serve foreign graduate students, U.S. students, professionals and international visitors, artists, musicians, and other individuals who benefit greatly from the experience.

The award is being presented to the President in recognition of his longtime support of international education, beginning in the 1950's, when the President and Mrs. Bush served as a volunteer host family for IIE's Houston Office. The award acknowledges the President's international efforts as reflected in his foreign service in China, and as Ambassador to the United Nations.

I congratulate the IIE on their 70 years of achievement. International education has had a vital role to play in the past and will certainly be important to generations to come. The programs which IIE administers have long-term benefits in many areas. For these reasons I commend the institute of International Education and I request that the remarks made at this awards presentation be submitted in full in the RECORD.

The Material follows:

REMARKS BY RICHARD M. KRASNO, PRESIDENT, INSTITUTE OF INTERNATIONAL EDUCATION

Mr. President and friends of International Education. This had indeed been an informative hour, and the Institute is grateful for the opportunity to learn more about the administration's policies with regard to educational exchange.

I must say that being here evokes fond memories for me. It was in this building, in December of 1981, that I brought 107 young men and women from developing countries—all of them participants in the USIA's Hubert Humphrey North-South Fellowship Program—to meet with you. Because of your busy schedule, you were, I recall, a little late and the original 10 minutes allocated for this meeting was reduced to 5 minutes by your conscientious staff. When you arrived, the multilingual chattering became a hush as the fellows awaited their brief encounter with the Vice President of the United States.

Forty-five minutes later you were still in that room. You discussed community health care with a young Tanzanian woman who is now the head of a U.S. NGO in Tanzania and a professor of pediatrics. You discussed development planning with a young man from Pakistan who is now his country's Consul General for Quebec Province and Trade Commissioner for all of Canada. You inquired about nutrition programs when speaking with a Guatemalan who is now chief of planning and development for the Institute of Nutrition of Cental America. And you discussed the importance of volunteerism with the woman who now heads policy planning for the Government of Thailand.

Frankly, Mr. President, you dazzled this somewhat skeptical group with your knowledge. And more than that, you demonstrated, at the highest levels of Government, that the United States stands solidly behind efforts to promote mutual understanding and the sharing of knowledge throughout the world through educational exchange.

There are currently 366,000 foreign students studying in U.S. colleges and universities. The future leaders you met that day are representative of the young men and women who come here to study. In addition to developing the skills to build their respective home countries, these students get to know Americans better and gain exposure to—and appreciation of—our free and democratic society. They have the opportunity to experience the most previous virtues of our country, including an educational system that values open academic inquiry and the highest standards of scholarship. Moreover, the knowledge these future leaders gain of our ways of doing business and of the high quality of our technology provides a solid foundation for productive economic and commercial ties.

We are equally aware that programs that send U.S. students abroad help strengthen international competence among our own citizens and our ability to function more competitively in an integrated global economy.

Mr. President, we believe that international educational exchange will become even more important as we move into the 1990's. We look to you and to the energetic people in your administrative, such as Bruce Gelb, to join with corporations, foundations educational institutions, not-for-profit agencies, and the thousands of dedicated volunteers who work in international education to provide leadership and support to our efforts. Working together, we can meet head on the educational challenges of the new decade.

Now, I would like to introduce Dr. Henry Kaufman, Chairman of the board of IIE.

REMARKS BY HENRY KAUFMAN, CHAIRMAN OF THE BOARD, INSTITUTE OF INTERNATIONAL EDUCATION

Mr. President, your support of international education—going back to your years

in Houston in the 1950's when you and Mrs. Bush served as a host family for IIE's Houston office—is deeply appreciated.

Your own internationalism—serving as Ambassador to the U.N. and to China—and your awareness of the importance of international experience in shaping an individual's life stand as important symbols to young people around the world.

It is a great honor for the Institute, in its 70th anniversary year, to present you with this award for your contributions to international education. The eagle represents the leadership and strength of the United States; the globe, the worldwide nature of our challenges.

International education—by training future leaders, developing international competence among our own citizens, and encouraging mutual understanding and cooperation among nations—is a wise investment in our future. Mr. President, you have indicated your wish to be known as the "education president." It is the Institute's hope, and the hope of those gathered in this room and of countless others around the globe, that you will also be known as the "International Education President."

REMARKS BY PRESIDENT BUSH TO INSTITUTE OF INTERNATIONAL EDUCATION

Thank you all very much. It's eight years later and I'm still 10 minutes late. (Laughter). But thank you very much, Dick, and distinguished Dr. Henry Kaufman. And I know I should say thank you to one of our own, Sichan Siv, over here—your former manager of Asian and Pacific programs, and now a key member of our administration. And let me also say it's a delight to be among the supporters of the—I recognize many of you—of the Institute, the IIE. And then I had opportunity to greet some of the students that are here from foreign lands.

Let me tell you how I came to know of your achievements and, through that, appreciate what you do. Barbara and I were—we moved down to Houston from Midland and were raising our family. And we have many fond memories of those days. But among our fondest is the delight of having young men and women from so many countries joining us for conversation and supper at our home.

And we became involved with the Institute as a host family through Alice Pratt, whose dedicated work there is now being carried on by Fentress Bracewell down in Houston. I don't know whether Fentress is here, so I haven't spotted—oh, here he is, right here in front. Delighted to see you.

But it was Alice who taught us how rewarding it is to show a young foreign friend the way through the academic, business and social maze of a vibrant American city. And because of Alice, we learned that by seeing our country through another's eyes, we could almost be like tourists in our own home.

And today at the White House, when Barbara and I dine with foreign visitors, our guests are rarely students. Rather, they are often foreign leaders and presidents and prime ministers and foreign secretaries and ambassadors. But we've notice something that makes us think back to our Houston days. Many of our foreign guests once worked and studied in the United States. I was most impressed, Dick, by just that menu you read off there of how these kids come and then move into positions of leadership. And this is bound to be of benefit not just to the United States, but to the other countries, as well.

But you do more than bring the world to America. You open the cultures of the world to our people as well. Mark Twain said that the "broad, wholesome, charitable views of men and things cannot be acquired by vegetating in one little corner of the Earth all one's lifetime."

Thomas Jefferson, our magnificent education president, enhanced such a broad, wholesome and charitable view when he left Piedmont, his beloved Piedmont of Virginia, to represent the American cause in France. And in more recent times, many Americans have had the liberating experience of living abroad. Certainly, Barbara and I felt transformed by the time that we spent living in China; a time when we sometimes traveled those dusty streets, always on our bicycles. But it was tremendous experience, days we'll never forget. And of course, we learned a lot about the Chinese people. Most of all, we learned an awful lot more about ourselves. And every American who lives abroad returns home with a new perspective and I believe a deeper feeling for our own country.

Your Institute promotes just exactly this kind of understanding through 249 programs, assisting more than 10,000 people from 155 countries every year. Innumerable are the new friendships made; incalculable the goodwill that is generated.

When your organization was founded 70 years ago, there was a belief that the exchange of students, scholars and professionals from country to country would promote peace and understanding. Some regarded that ideal as hopelessly naive. Well, now we know that that's not true. It is true that international exchanges are not a great tide to sweep away all differences. But they will slowly wear away at the obstacles to peace as surely as water wears away a hard stone.

And I am honored to be here. I would simply add, keep it up. We are living in perhaps the most exciting time of change certainly in the nuclear age, and maybe in terms of the entire history of the United States as we look at what's happening, particularly in Eastern Europe, as we see what's happening in Asia, see what's happening, indeed, in the Soviet Union itself. And I can tell you that the interaction that we had with this wonderful organization makes me feel a little more confident as I wrestle with these problems. But far more important than that I think is that the insight that the kids that come here get into our great, free, wonderful country.

So I'm grateful to you. I wanted to come and thank you all very, very much for what you're doing. Please keep it up. And God bless you all. Thank you. (Applause.)●

'89 SCHOOL REPORT CARDS SHOW SPENDING CAN PAY

● Mr. SIMON. Mr. President, the other day the Chicago Tribune ran an exceptionally fine story titled, "'89 School Report Cards Show Spending Can Pay" written by Casey Banas, an education writer for the Tribune.

The lead paragraph says something we tend to try to ignore:

Chicago area elementary schools with the top reading and mathematics scores on a state test are spending nearly 40 percent more money to educate their pupils than the schools with the lowest scores, according to the 1989 state-mandated report cards.

Later in the same story are these three paragraphs:

A Tribune computer analysis of the report cards shows that in the six-county Chicago metropolitan area, school districts with the 10 lowest scores in the 3rd, 6th, and 8th grade statewide reading and mathematics tests spent an average of $4,098 per pupil in the 1987-88 school year.

The 10 districts scoring highest on the same tests spent an average of $5,722 on each pupil, 39.7 percent more.

But in nearly all of the highest-scoring districts, less than 5 percent of the pupils come from low-income families. Many of the lowest-scoring districts have more than 50 percent of their children from poverty-level homes.

I appreciate the fact that there is now a report card, and we can make these analyses.

Also, I appreciate a journalist who is doing the kind of solid job that should stimulate some reflection and some action.

I ask to insert the article into the RECORD at this point.

The article follows:

1989 SCHOOL REPORT CARDS SHOW SPENDING CAN PAY

(By Casey Banas)

Chicago area elementary schools with the top reading and mathematics scores on a state test are spending nearly 40 percent more money to educate their pupils than the schools with the lowest scores, according to the 1989 state-mandated report cards.

This finding gives ammunition to the fledgling campaign of Robert Leininger, state superintendent of education, to reduce funding disparities in Illinois public schools.

"We need to bring the bottom up," Leininger said. "We do not need to bring the top down."

The report cards, required by state law to be issued by Illinois public schools every year by Oct. 31, also show that:

The Chicago school reform movement faces a monumental challenge because city high school performance on the American College Test continues to be extremely low. Among the city's 64 high schools, 31 scored in the bottom 1 percent of the nation.

All Chicago high schools should reach the state average score, now 18.8, in 10 years, believes G. Alfred Hess Jr., executive director of the Chicago Panel on Public School Policy and Finances, a leader in the school reform push. But right now, he said, "it should be a goal that not one school be in the bottom 1 percent."

Glenbard South High School in Glen Ellyn has the top ACT score, 22.7, among the 200 Chicago area public high schools issuing report cards. In the four years of the report cards, five high schools have been in the top 10 every year. The five are Glenbarb South, Wheaton North, Naperville North, Deerfield and New Trier in Winnetka.

A perfect score is 35 on the 219-question ACT exam, which many colleages use to determine entrance eligibility.

The report cards provide statistics for debate on school funding and student achievement throughout Illinois.

In June the legislature added $475 million in state school aid for 1989-90, bring the total state package for school operations to $2.988 billion. Schools are financed primarily by local property taxes.

Over the years, the fight over state aid has concerned adequacy—whether there is enough money.

But Leininger is mounting a campaign for equity, in addition to adequacy, by stumping the state and highlighting funding disparities between school districts. A chief reason for the inequity is that some districts have far higher property values than others.

Spending per pupil ranges from a high of $12,866 in McAuley Elementary School near West Chicago—the charming "little red schoolhouse" with 22 children—to $2,085 in Dalzell Grade School, a Bureau County school with an enrollment of 98.

Of 958 Illinois school districts, 133 spend more than $5,000 for each pupil and 186 spend less than $3,000. Many of the higher-spending districts are in the Chicago area, and many of the lower-spending districts are outside the metropolitan area.

A Tribune computer analysis of the report cards shows that in the six-county Chicago metropolitan area, school districts with the 10 lowest scores in the 3d, 6th and 8th grade statewide reading and mathematics tests spent an average of $4,098 per pupil in the 1987-88 school year.

The 10 districts scoring highest on the same tests spent an average of $5,722 on each pupil, 39.7 percent more.

But in nearly all of the highest-scoring district, less than 5 percent of the pupils come from low-income families. Many of the lowest-scoring districts have more than 50 percent of their children from poverty-level homes.

Courts in Kentucky and Texas this year have struck down school finance systems in those states because of inequities and have ordered them to develop new ways to pay for the schools.

Leininger is calling for statewide debate on the equity question, not endorsing any solution. He is urging discussion on possible changes such as a statewide property tax for schools and distribution of local property taxes on a countywide basis instead of to individual school districts.

Though equity is surfacing as the new school finance issue in Illinois, one school district has shown that reading scores can be improved dramatically by a shift in instruction methods without a big infusion of cash.

The top 8th grade reading score in the Chicago area is 363 in Antioch, up from 260 last year; the state average is 255. Spending per pupil in Antioch, a northwest community just beyond the suburban belt, was $3,063, far below the state average of $4,215.

The reason for the big gain in score, said Antioch School Supt. Donald Skidmore, is that Antioch changed its reading curriculum last year.

National reading exams test a child's ability to read a passage and find the right answer among four or five possibilities in a multiple-choice format. But the Illinois reading test is different. Youngsters must find the "best" answers when others may be partially correct. It takes analytical thinking, a skill that state school officials are emphasizing.

Skidmore said Antioch teachers now focus on analytical thinking as well as basic reading instruction. "We want to teach our kids to think in these kinds of patterns," he said.

The report cards show that Antioch 8th graders outperformed their counterparts in the affluent North Shore communities of Kenilworth, Highland Park, Wilmette and Glencoe, which spent more than twice as much money per child as Antioch.

The report cards also dramatize the uphill battle for Chicago school reform forces.

Students at the Illinois Mathematics and Science Academy in Aurora had an average ACT score of 29.5, tops in the nation. The Aurora school is under the jurisdiction of the Illinois Board of Higher Education and is not required to issue a report card.

Glenbard South has the highest average ACT score, 22.7, among Illinois public high schools under the report card mandate.

But four private schools with selective admission policies topped that score: St. Ignatius College Preparatory High School, Chicago, 24.9; Benet Academy, Lisle, 24.5; University of Chicago Laboratory High School, 23.4; and Loyola Academy, Wilmette 22.9.

Though Glenbard South and all of the other 20 Du Page County public high schools have ACT scores above the state average, only two of the 64 Chicago public high schools do. They are Lane Tech, 20.3, and Young, 19.9. Both choose their students from a large pool of high achievers.

Even worse, 31 Chicago public high schools where 40 or more students took the ACT scored in the bottom 1 percent of schools in the nation. Six more would have been at the 1 percent level but had fewer than 40 students taking the test, thus distorting the average score.

Also, 57 of the 64 high schools scored in the bottom 4 percent in the nation.

Hess believes all 64 can reach the state average, but this will take at least 10 years. "I'm not sure, given the problems of many students, it would ever be possible to bring Chicago schools up to the level of suburban schools," he said.

The problems—so familiar to observers of inner city schools—include deteriorated housing, drugs, gangs and violence in communities, poor nutrition, local unemployment, no quiet place to do homework and no role models for young children.

"They see adults who are dropouts driving Cadillacs because they make money selling drugs," Hess said.

He emphasized that the only way for masses of Chicago public school students to move toward their suburban counterparts in school performance is a two-pronged strategy of improving schools and communities at the same time.

That approach has yet to surface as a serious public policy issue in Chicago. Instead, politicians and community leaders are joyous over last month's elections of local school councils, trumpeting that this alone provides the framework for improving Chicago schools.

Hess is optimistic that the new councils, which have authority to design school improvement plans, will have some impact on improving student achievement. This year each council will have an average of $95,000 to allocate as it chooses for changes, though some will have more and some less.

James Coleman, University of Chicago professor of sociology, said one reason why many students in Catholic schools excel is that their parents create "a sense of community" by establishing and reinforcing standards and values that support teachers and bring good results in the classrooms.

Suburban educators say their students perform well partly because of this same sense of schools as being a place "where excellence is tradition." That is the motto of the Glenbard High School district, which includes Glenbard South, this year's ACT pacesetter.

Educators warn that ACT scores alone cannot be used to rank schools. They say one should look also at the quality of teachers and student performance in academic competitions and music, debate and speech contests, as several examples.

However, the only common performance indicator for Illinois high schools on the report cards is the ACT score.

The 1985 School Reform Act specifies that beginning next year, every Illinois public high school must give the same state-developing reading test to all juniors, and in 1991 the first statewide mathematics test will be given to high school students, as it was this year for the first time to all elementary school pupils.

The report cards, required annually by the school reform law, also include other student achievement, demographic and financial data. Every school must give a copy of its report card to any citizen upon request by Oct. 31 each year.●

THE TRIUMPH OF FREEDOM

● Mr. McCAIN. Mr. President, there is such eloquence in the economy of newspaper headlines. At moments when the course of history is profoundly affected and its great lurch forward visible to even the casual observer, newspapers will herald the occasion in simple, unadorned language. The images that the understated language evokes are so common and unremarkable that they contrast dramatically with the gravity of the event as we witness it on television. This is a natural and, in its own way, quite lyrical approach to rendering achievements that surpass our imagination easier to understand.

"Men Walk on Moon." That is how the New York Times proclaimed that singular accomplishment of American will and ingenuity. Beautiful in its simplicity and effective in its depiction of an event too fateful and complex to fully comprehend.

Now, comes a moment in history that is easily as difficult to comprehend as that first lunar landing was 20 years ago. And no matter how often we in the West proclaimed our desire for and our expectation of its ultimate arrival, the shock of this moment is overwhelming and only barely softened by the prosaic headlines of our newspapers: "The Wall Is Gone"; "East Germany Opens Berlin Wall and Borders"

Only the large type of the headlines conveys the importance and urgency of the story. In America, we often take our freedom for granted. We may leave our country freely and reenter our country freely. We are free men and women and we come and go as we please. To us there is nothing remarkable about such an exercise of our civil rights.

However, for East Germans, stepping a single foot outside their country may be the most transforming event of their lives.

For the first time in the history of that artificial state, East Germany's Government acquiesced to popular

sentiment and, thus, the starkest symbol of the betrayal endured by half a continent—the sacrifice of Eastern Europe for the sake of postwar stability—is no more. The wall in its fragments now represents communism in its fragments unable to stand beyond 40 years as an obstacle to the determination of Eastern Europeans' to be liberated from the control of a succession of tyrants and to exercise the freedoms that should have been theirs many long years ago.

The Berlin wall has been breached.

In consequence, all nations are less divided and all peoples are closer to freedom. The United States long ago answered President Kennedy's call to come to Berlin to watch the triumph of freedom. And we stayed in Berlin throughout "the long twilight struggle" that followed as the ultimate guarantor of peace and freedom for West Germans. We are still standing with them as they welcome their countrymen from the East. We will stand with them tomorrow as we begin a new era in world history.

For now we join all of Germany in the celebration of the consequence of our mutual steadfastness—freedom.

Mr. President, the Berlin wall has been breached.●

THE 50TH AND 40TH ANNIVERSARY OF CERTAIN VOLUNTEERS IN CROTON HOSE COMPANY 3, OWEGO FIRE DEPARTMENT

● Mr. D'AMATO. Mr. President, I rise today to pay recognition to five outstanding members of the Croton Hose Company No. 3 who have been active members for 40 and 50 years.

Mr. Thomas Smith has been a dedicated, reliable, and trustworthy member since 1939. Mr. Richard Franz, Mr. Kenneth Haeling, Mr. Patrick Panetti, and Mr. Myron Van Housen have been outstanding members for 40 years demonstrating the same qualities as Mr. Smith. Along with being ready volunteers, each has held a position vital to the running of the company such as captain of the emergency squad held by Dick Franz and lieutenant of the fire police held by Tom Smith.

Volunteer firefighters are essential to every community. With limited funding available for professional firefighters, the all-volunteer staff becomes increasingly more valuable. It is always a pleasure to salute fellow firefighters for their community service.

I would like to congratulate these fine volunteers on their years of service and wish them continued good luck for the future.●

S. 1270, TO ESTABLISH AN INDIAN MENTAL HEALTH DEMONSTRATION GRANT PROGRAM

● Mr. McCAIN. Mr. President, I rise today in support of the passage of S. 1270, a bill to establish an Indian Mental Health Demonstration Grant Program. Today, I ask unanimous consent that S. 1270 be adopted by the Senate.

I introduced S. 1270 on June 23, 1989, with Senators MURKOWSKI and DECONCINI as cosponsors. I want to express my appreciation to Mr. MURKOWSKI and Mr. DECONCINI for their support and assistance on this bill. I also want to express my gratitude to the chairman of the Select Committee on Indian Affairs, Senator INOUYE, for his leadership and assistance on this bill.

S. 1270 was approved by a unanimous vote of the Select Committee on Indian Affairs on November 9 with a recommendation for approval by the full Senate. This bill was the subject of a hearing in the Select Committee on Indian Affairs on September 14, 1989. At that time we received testimony from Indian tribes, mental health professionals, and Federal officials. These witnesses provided many excellent suggestions for improving and strengthening S. 1270. Those suggestions have now been incorporated into the bill.

S. 1270 authorizes 10 demonstration grants during the 3 years following enactment. Each grantee will be expected to develop a community based comprehensive mental health program. Traditional Indian and native healing practices can be combined with modern clinical practices. The problem of alcohol and substance abuse can be addressed as part of a comprehensive program. At the end of the 3-year demonstration period, the grantees and the Director of the Indian Health Service will report to the Congress on the results of these programs.

Mr. President, we have not done nearly enough over the years to assist the tribes and native communities in developing effective programs to meet their mental health needs. I believe that S. 1270 will provide us with the information we need to find ways to better assist tribes and native communities in this vital area.

I thank my colleagues for their support.●

S. 1783, TO REGULATE CHILD PROTECTION AND PREVENT CHILD ABUSE ON INDIAN RESERVATIONS

● Mr. McCAIN. Mr. President, I am pleased to rise in support of the passage of S. 1783, which was introduced by myself and Senator DECONCINI on October 24, 1989. I want to thank Senators INOUYE, COCHRAN, BURDICK, and HATCH for their cosponsorship and support on this bill.

On November 9, 1989, the Select Committee on Indian Affairs unanimously approved S. 1783 and recommended approval by the full Senate. Today, I am asking unanimous consent that S. 1783 be adopted by the Senate.

Mr. President, S. 1783 is aimed at correcting one of the most terrible problems ever uncovered in the administration of Indian affairs. In many hours of public hearings and private interviews the Select Committee on Indian Affairs and the Special Committee on Investigations found a pervasive pattern of abuse, including sexual abuse, of Indian children. Most disturbing to me is the fact that all too often the abuse was perpetrated by Federal employees. Over a period of several years the Bureau of Indian Affairs demonstrated a lack of ability or willingness to deal with this problem. Those of us here in the Congress have waited too long to provide clear direction on this issue. I believe that S. 1783 provides the needed direction.

I also want to say that I am aware that this is a very complex and emotional issue. I have heard concerns from some who say this bill goes too far. At the same time, I have heard from some who say that the bill does not go far enough to address the problems of child abuse in Indian country. In our hearings, we have heard from dozens of witnesses including parents, law enforcement officials, children, social workers, and mental health professionals. This bill is based on the best recommendations of these witnesses.

I fully expect that S. 1783 will undergo revisions and be the subject of further hearings in the House. I look forward to continuing to work on this issue to fashion the best possible legislative solution. For now, I believe that it is imperative that we adopt this bill so that we may reasonably expect to secure final passage of legislation during the second session of this Congress. We can no longer sit idle while Indian children are victimized on a daily basis.

I thank my colleagues for your support.●

APPOINTMENT OF A COMMITTEE TO ESCORT THE HONORABLE LECH WALESA

Mr. MITCHELL. Mr. President, I ask unanimous consent that the President of the Senate be authorized to appoint a committee on the part of the Senate to join with a like committee on the part of the House of Representatives to escort the Honorable Lech Walesa into the House Chamber for the joint meeting.

The PRESIDING OFFICER. Without objection, it is so ordered.

DEEP SEABED HARD MINERAL RESOURCES ACT AUTHORIZING

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar Order No. 356, H.R. 2120 a bill to reauthorize the Deep Seabed Hard Mineral Resources Act of 1980.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 2120) to amend the Deep Seabed Hard Mineral Resources Act to authorize appropriations to carry out the provisions of the Act for fiscal years 1990, 1991, 1992, 1993, and 1994.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Maine?

There being no objection, the Senate proceeded to consider the bill.

The PRESIDING OFFICER. Without objection, the bill is considered read a third time and passed.

So the bill (H.R. 2120) was passed.

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. CONRAD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ORDER TO CHANGE THE ENGROSSMENT OF S. 1838

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate engrossment of S. 1838, the agricultural products bill reflect the change I now send to the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

MEASURE PLACED ON THE CALENDAR—S. 1877

Mr. MITCHELL. Mr. President, I ask unanimous consent that S. 1877, a bill to improve the operational efficiency of the James Madison Foundation be placed on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

AUTHORIZING TESTIMONY AND DOCUMENT PRODUCTION BY A SENATE EMPLOYEE

Mr. MITCHELL. Mr. President, on behalf of myself and the distinguished Republican leader, Senator DOLE, I send to the desk a resolution on authorization of testimony and document production by a Senate employee and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A resolution (S. Res. 208) to authorize testimony and document production by Senate employee in *Springfield Terminal Railway Co.* v. *United Transportation Union*, No. 88-0117 P.

The PRESIDING OFFICER. Is there objection to the request of the Senator from Maine?

There being no objection, the Senate proceeded to consider the resolution.

Mr. MITCHELL. Mr. President, the plaintiff in this civil action, a railroad seeking to overturn an arbitration award in a railway labor safety dispute, has served a deposition subpoena for testimony and documents on a member of Senator JOHN F. KERRY's staff named Mary Anne Marsh. Ms. Marsh was assigned by Senator KERRY to monitor for him this railway labor safety dispute, which had a serious impact on New England transportation.

In October 1988 the Senate agreed to Senate Resolution 494 of the 100th Congress, which authorized the Senate legal counsel to represent Senator KERRY and his staff in connection with this matter. The district court granted in part a motion filed by the legal counsel to issue a protective order limiting the scope of discovery pertaining to Senator KERRY's office in connection with this dispute. However, the court declined to grant the legal counsel's request that the subpoena be quashed entirely. The court held that a deposition should be held and that the legal counsel should raise objections on behalf of Senator KERRY and Ms. Marsh in the context of specific questioning at the deposition.

At Senator KERRY's request, this resolution would authorize the subpoenaed employee on Senator KERRY's staff to testify and to produce documents, including records of the Telecommunications Office pertaining to Senator KERRY's office, at a deposition, consistently with the court's order. The resolution authorizes the provision of relevant testimony and documents only to the extent consistent with the privileges of the Senate.

The PRESIDING OFFICER. Without objection, the resolution is agreed to and the preamble is agreed to.

So the resolution (S. Res. 208) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 208

Whereas, in the case of Springfield Terminal Railway Co. v. United Transportation Union, No. 88-0117 P, pending in the United States District Court for the District of Maine, counsel for the plaintiff has served a deposition subpoena for testimony and the production of documents on Mary Anne Marsh, an employee on the staff of Senator John F. Kerry;

Whereas, by the privileges of the Senate of the United States and Rule XI of the Standing Rules of the Senate, no evidence under the control or in the possession of the Senate can, by the judicial process, be taken from such control or possession but by permission of the Senate;

Whereas, when it appears that evidence under the control or in the possession of the Senate is needed for use in any court for the promotion of justice, the Senate will take such action as will promote the ends of justice consistent with the privileges of the Senate: Now, therefore, be it

Resolved, That Mary Anne Marsh is authorized to testify and to produce records, including telephone records of the Senate Telecommunications Office pertaining to the office of Senator John F. Kerry, relevant to the case of Springfield Terminal Railway Co. v. United Transportation Union, except concerning matters for which a privilege should be asserted.

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. MITCHELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR WEDNESDAY, NOVEMBER 15, 1989

RECESS UNTIL 10 A.M. AND MORNING BUSINESS

Mr. MITCHELL. Mr. President, I ask unanimous consent that when the Senate completes its business today it stand in recess until 10 a.m. tomorrow, Wednesday, November 15, and that following the time for the two leaders there be a period for morning business until 10:40 a.m. with Senators permitted to speak therein for up to 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECESS FROM 10:40 A.M. TO 12 NOON

Mr. MITCHELL. Mr. President, I ask unanimous consent that on tomorrow the Senate stand in recess from 10:40 a.m. to 12 noon so that the Senate may attend a joint meeting with the House to hear an address by Lech Walesa.

The PRESIDING OFFICER. Without objection, it is so ordered.

SCHEDULE

Mr. MITCHELL. Mr. President, following consultation with the distinguished Republican leader, it is my intention that at 12 noon, when the Senate returns to session, it will take up the Defense authorization bill which has just been the subject of a

unanimous-consent agreement regarding time, and that on tomorrow we will dispose of that matter. Hopefully, we will be able to take up the foreign operations appropriation conference report and dispose of that matter, as well as complete action on the second cloture vote on the Packwood-Roth substitute on capital gains and IRA's.

So Senators should expect votes during the day on tomorrow.

We may also act on defense appropriations, and of course the continuing resolution expires at midnight tomorrow. So we will have to act with respect to that. So Senators should expect the possibility of several votes tomorrow and, if necessary, a session continuing into the evening.

RECESS UNTIL 10 A.M. TOMORROW

Mr. MITCHELL. Mr. President, if the distinguished Republican leader has no further business, and if no further Senator is seeking recognition, I now ask unanimous consent that the Senate stand in recess under the previous order until 10 a.m. on Wednesday, November 15, 1989.

There being no objection, the Senate, at 6:55 p.m., recessed until Wednesday, November 15, 1989, at 10 a.m.

NOMINATIONS

Executive nominations received by the Senate November 14, 1989:

DEPARTMENT OF AGRICULTURE

LA VERNE G. AUSMAN, OF WISCONSIN, TO BE ADMINISTRATOR OF THE FARMERS HOME ADMINISTRATION, VICE VANCE L. CLARK, RESIGNED.

IN THE ARMY

THE FOLLOWING-NAMED OFFICER FOR APPOINTMENT TO THE GRADE OF LIEUTENANT GENERAL WHILE ASSIGNED TO A POSITION OF IMPORTANCE AND RESPONSIBILITY UNDER TITLE 10, UNITED STATES CODE, SECTION 601(A):

To be lieutenant general

MAJ. GEN. JAMES W. CRYSEL, 422-42-6710, U.S. ARMY.

IN THE MARINE CORPS

THE FOLLOWING-NAMED BRIGADIER GENERALS OF THE MARINE CORPS FOR PROMOTION TO THE PERMANENT GRADE OF MAJOR GENERAL, UNDER THE PROVISIONS OF TITLE 10, UNITED STATES CODE, SECTION 624:

MARTIN L. BRANDTNER
GEORGE L. CATES
NORMAN E. EHLERT
WILLIAM P. ESHELMAN
FRANCIS X. HAMILTON, JR.
RICHARD D. HEARNEY
HARRY W. JENKINS, JR.
ROBERT B. JOHNSTON
JOHN J. SHEEHAN
CLYDE L. VERMILYEA
DUANE A. WILLS

HOUSE OF REPRESENTATIVES—*Tuesday, November 14, 1989*

The House met at 12 noon and was called to order by the Speaker pro tempore [Mr. GEPHARDT].

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
November 14, 1989.

I hereby designate the Honorable RICHARD A. GEPHARDT to act as Speaker pro tempore on today.

THOMAS S. FOLEY,
Speaker of the House of Representatives.

PRAYER

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

Give us, we pray, O God, a new appreciation for the gift of truth, not a truth that seeks to distract, but a truth that illuminates where it is dark, and points the way to justice. Temper, O God, our natural enthusiasm to describe truth with our own mark or with a color that gives us profit and gain, but let us speak and live the truth that surely makes us free. In Your name, we pray. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. SOLOMON. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker's approval of the Journal.

The SPEAKER pro tempore. The question is on the Chair's approval of the Journal.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. SOLOMON. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 300, nays 106, not voting 27, as follows:

[Roll No. 348]

So the Journal was approved.

The result of the vote was announced as above recorded.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore (Mr. GEPHARDT). The Chair will ask the gentleman from California [Mr. LANTOS] if he would kindly come for-

ward and lead the membership in the Pledge of Allegiance.

Mr. LANTOS led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed without amendment bills and a joint resolution of the House of the following titles:

H.R. 215. An act to amend title 5, United States Code, with respect to the method by which premium pay is determined for irregular, unscheduled overtime duty performed by a Federal employee;

H.R. 3544. An act to authorize the transfer of a specified naval landing ship dock to the Government of Brazil under the leasing authority of chapter 6 of the Arms Export Control Act; and

H.J. Res. 278. Joint resolution to designate the period commencing on November 20, 1989, and ending on November 26, 1989, as "National Adoption Week."

The message also announced that the Secretary be directed to return to the House of Representatives its message informing the Senate that the House had passed the joint resolution (S.J. Res. 216) "Joint resolution designating November 12 through 18, 1989, as 'Community Foundation Week'," in compliance with a request of the House for the return thereof.

HISTORIC OPPORTUNITY FOR AMERICA, FREEDOM AND THE WORLD

(Mr. SMITH of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Florida. Mr. Speaker, in just a matter of days the President of the United States is going to meet with Mr. Gorbachev on a military ship off Malta in the Mediterranean. This new Yalta-to-Malta conference, as it is now being called, is of grave importance for the future not only of the United States and the Soviet Union but the whole world.

Back in the 1940's when the Yalta Conference was held, they split up and divided Europe and made the Iron Curtain and the Eastern bloc under the sway of the Soviet Union. That has now been shattered. That fabric is gone. It is laying in ruins.

We have now an opportunity to knit back a Europe that is democratic, free, provides human rights and has governments that are democratically and freely elected.

The President of the United States has a unique, historic opportunity. So far he has been sitting on the sidelines. This is the time he must come out and provide the kind of leadership that he was elected to provide.

This is a historic opportunity for America, for freedom, and for the world.

REPORT ON H.R. 3566, DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 1990

Mr. NATCHER, from the Committee on Appropriations, submitted a privileged report (Rept. No. 101-354) on the bill (H.R. 3566) making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies, for the fiscal year ending September 30, 1990, and for other purposes, which was referred to the Union Calendar and ordered to be printed.

Mr. CONTE reserved all points of order on the bill.

REQUEST TO MAKE IN ORDER ON WEDNESDAY, NOVEMBER 15, 1989, OR ANY DAY THEREAFTER CONSIDERATION OF H.R. 3566, DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS ACT 1990

Mr. NATCHER. Mr. Speaker, I ask unanimous consent that it may be in order at any time on Wednesday, November 15, 1989, or any day thereafter, to consider the bill H.R. 3566, making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 1990, and for other purposes, as reported from the Committee on Appropriations.

The SPEAKER pro tempore (Mr. LEVIN of Michigan). Is there objection to the request of the gentleman from Kentucky?

Mr. WALKER. Mr. Speaker, I object.

The SPEAKER pro tempore. Objection is heard.

PERSONAL EXPLANATION

Mr. SYNAR. Mr. Speaker, yesterday I was absent when two rollcall votes were taken on H.R. 3614, Drug-Free Schools and Communities Act of 1989 and H.R. 3550, drug forfeiture amendments. Had I been present, I would have voted yea on both of these bills. Both are important steps to assist in the drug war.

HELP UNITED NATIONS VOLUNTARY FAMILY PLANNING PROGRAMS

(Mr. PORTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PORTER. Mr. Speaker, today we will consider a motion renewing our country's commitment to voluntary family planning through support for the United Nations Population Fund.

Opponents will attempt to portray this as a vote for China's Population Control Program. It is not. All $15 million of U.S. funds will go to the 120 other member countries where the United Nations supports voluntary family planning, none of which is alleged to have coercive programs. Not a single dollar goes to China, nor releases other funds for China.

Opponents will say this is an abortion vote. It is not. No one favors coercive abortion. Though I am prochoice, I have consistently opposed Government funding for abortion. Abortion is not an acceptable birth control method. But voluntary family planning is. Support for voluntary family planning—contraception—helps to obviate the abortion question. Regardless of one's position on abortion, we should all support voluntary family planning.

Mr. Speaker, the issue is whether the United States will provide $15 million in funding to help the United Nations voluntary family planning programs in 120 countries who desperately need the help, and who are not conducting coercive programs of any type. The answer should be a resounding yes.

REPORT ON H.R. 3610, DISTRICT OF COLUMBIA APPROPRIATIONS ACT, 1990

Mr. DIXON, from the Committee on Appropriations, submitted a privileged report (Rept. No. 101-355) on the bill (H.R. 3026) making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 1990, and for other purposes, which was referred to the Union Calendar and ordered to be printed.

Mr. GALLO reserved all points of order on the bill.

REQUEST TO MAKE IN ORDER ON WEDNESDAY, NOVEMBER 15, 1989, OR ANY DAY THEREAFTER CONSIDERATION OF H.R. 3610, DISTRICT OF COLUMBIA APPROPRIATIONS ACT, 1990

Mr. DIXON. Mr. Speaker, I ask unanimous consent that it may be in order at any time on Wednesday, November 15, 1989, or any day thereafter, to consider the bill H.R. 3610, making appropriations for the District of Columbia and other activities

chargeable in whole or in part against the revenues of said District for the year ending September 30, 1990, and for other purposes, as reported from the Committee on Appropriations.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

Mr. WALKER. Mr. Speaker, I object.

The SPEAKER pro tempore. Objection is heard.

WE ARE AT THE HINGE OF HISTORY—WESTERN UNITY IS ESSENTIAL

Mr. LANTOS. Mr. Speaker, we are at the hinge of history. Europe is being reshaped before our very eyes. The President of France has invited all of the leaders of the European Economic Community to meet this Saturday to formulate an EC position on these historic events.

I am calling on President Bush to extend an invitation to these same leaders who will gather in Paris this weekend to meet with him so we can jointly formulate a strategy before the summit meeting that will take place in December between Mr. Gorbachev and Mr. Bush.

There is growing resentment in Europe. Europeans do not want another summit meeting between the United States and the Soviet Union to determine the fate of Europe. The President must invite the leaders of Europe if we are to continue a united front in the turbulent and difficult times that lie ahead.

This is a historic opportunity—it will be missed if we are not united.

□ 1230

NAVY EXPLOSIVES ACCIDENTS

(Mr. SCHULZE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHULZE. Mr. Speaker, why is the U.S. Navy having such horrible problems with their own explosives?

On April 17, a gun turret blast killed 47 men aboard the U.S.S. *Iowa.* On October 11, the U.S.S. *El Paso* fired at the U.S.S. *Iwo Jima*—one officer died. On October 30, a Navy fighter dropped a 500-pound bomb on the U.S.S. *Reeves.* On October 31, 4 million dollars' worth of bombs were swept overboard the U.S.S. *Eisenhower.* On November 11, two Navy attack jets dropped 12 bombs on a campsite in California.

Now we find out that for 30 years, the Navy has been dropping bombs on public lands used by hikers and sportsmen in Nevada. Some bombs never exploded, and have sat dormant on these lands for several years. Even worse, the Navy never warned State officials or the public of the potential danger.

Mr. Speaker, a mother doesn't let her child play with matches. Perhaps this Congress should keep the Navy from playing with explosives for the same reason.

ADMINISTRATION SHOULD EXERT LEADERSHIP FOR FREE WORLD

(Mrs. SCHROEDER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SCHROEDER. Mr. Speaker, as the Berlin Wall and the Iron Curtain get reduced to a mere speed bump, the time has come for bold action by the President. We have not seen such bold action.

Today I am sending the President a letter recommending that we propose to reduce our troops in Europe and they reduce theirs on the Eastern bloc side. I think that would make everything much healthier.

We saw today the French are no longer going to wait for the United States to decide to leave. They are going to move forward and leave.

Mr. Speaker, we just saw on this House floor what kind of leadership the President is engaged in as members of his party moved literally to stop both Labor-HHS and District of Columbia appropriations from coming to this floor over the issues of rape and incest.

I think we look very silly and the world must be laughing at us as we tie ourselves in knots and threaten to stop the entire Government on those issues, and are missing the whole arena where we should be playing. We should be exerting our leadership for the free world.

THANK YOU, RONALD REAGAN: WITHOUT YOU IT NEVER WOULD HAVE HAPPENED

(Mr. SOLOMON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SOLOMON. Mr. Speaker, isn't it funny that while liberals in this Congress and in the media are trying to rub out every trace of the Reagan years, millions of people all over Eastern and Central Europe are reaping the benefits of the Reagan vision.

Mr. Speaker, we ought to view the recent events in Berlin against the backdrop of President Reagan's 1987 speech, in which he challenged Mikhail Gorbachev to tear down that Berlin Wall.

Mr. Speaker, that speech was reprinted in last Friday's Wall Street Journal, and I hope you all saw it.

My colleagues, some of you will rush to say that dismantling of the Berlin Wall, and other signs of perestroika, refute Mr. Reagan's description of the Soviet Union as the "evil empire." If so, then you know nothing about cause and effect, in this case, between Mr. Reagan's statements, his defense buildup, his liberation of Grenada, his bombing of Libya, his deployment of intermediate range missiles, and the retreat of communism all over the world.

Mr. Speaker, on behalf of those slaves of communism who are now enjoying a measure of freedom, let me say "thank you Ronald Reagan." Without you, it never would have happened.

PASS COP KILLER DEATH PENALTY BILL

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, yesterday a prisoner by the name of Tony Harrison in New York was taken to a district attorney's office in Queens. He was there to discuss a plea bargain. He is a suspect for murder and had once bit off the ear of one of his girlfriends. Pretty rough customer.

While he was there, he stole a gun from a police locker. When he was being transported back by two detectives, he brought out the gun, he ordered them to pull to the side of the road, and he then methodically executed them both, shooting them in the back of the head.

Why not? Statistically a cop killer is back on the street in America in less than 6 years. Every second day a police officer is killed in America.

Congress should start protecting the rights of innocent people and victims and stop worrying about murderers like Harrison. It is time to pass a cop killer death bill and a death penalty bill for anybody who murders American citizens.

PROMOTE EXPORTS AS A NATIONAL PRIORITY

(Mr. RIDGE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RIDGE. Mr. Speaker, I had the opportunity to participate recently in a trade forum sponsored by the National Association of Manufacturers. I also had the good fortune of sharing the podium with Fred Bergsten, a former Treasury official and now director of the Institute for International Economics. During our discussions, Mr. Bergsten laid out a frightening scenario for the future of America's international economic position. It is one we should not take lightly.

The news is not good. Based on current policies, Mr. Bergsten predicts a steady increase in our trade deficit to

over $200 billion by 1992. That's right, $200 billion—a sum that is as unthinkable as it is unsustainable.

This scenario is not inevitable and it need not be self-fulfilling prophecy. We have that ability to halt a deterioration in our trade posture. This nation has the tools to turn the trade numbers around. The key in a word is exports.

For it is exports that have been the very strength behind our progress to date in trade deficit reduction. It is exports that have come to be an important factor in economic growth and job expansion. It is exports that can make America the truly competitive trading nation that it needs to be.

My colleagues, we must get about the serious business of promoting exports as a national priority. The choice is ours.

IN SUPPORT OF VOLUNTARY FAMILY PLANNING

(Mr. McHUGH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McHUGH. Mr. Speaker, while I have supported a woman's right to choose abortion, I have opposed the expenditure of Federal Funds to pay for abortions unless the mother's life is in jeopardy.

Later this afternoon we will vote on a motion that some may characterize as a vote to fund abortions. It's not that at all. The motion, if passed, will appropriate a $15 million U.S. contribution to the United States Fund for Population Activities [UNFPA]. UNFPA is the largest provider of voluntary family planning services in the world. UNFPA does not fund abortions, and none of the funds we are recommending for UNFPA can be used for abortions. In fact, the programs it funds are alternatives to abortion.

Some opponents of the motion will claim that our contribution to UNFPA will fund family planning activities in China. That is also not true. None of our funds can be used in China, nor will they free up other funds for use in that country.

I therefore urge my colleagues to support the motion to fund UNFPA. It is not a vote on abortion or on China. It is, rather, a vote to support alternatives to abortion in countries other than China.

VOTE TO RESTORE U.S. CONTRIBUTION FOR UNFPA

(Mrs. MORELLA asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. MORELLA. Mr. Speaker, I urge my colleagues to vote today to restore the U.S. contribution to the United Nations Fund for Population Activities [UNFPA]. The conference agreement earmarks $15 million for this vital voluntary family planning organization. The United Nations Fund for Population Activities provides family planning services to over 140 developing nations, 90 of which have populations expected to double over the next 30 years. In last year alone, the world's population grew by 92 million.

This funding issue has nothing to do with abortion—UNFPA has never funded abortions in any of its programs. Instead, its population programs have resulted in fewer abortions, as a result of its education efforts in birth control, health care, and other solutions. In addition, none of the $15 million can be used in China. The United States contribution will not even result in indirect funding for China.

In view of our most serious world population problems, it is imperative that we support voluntary international family planning programs. These efforts save lives, and contribute substantially to population control by providing women who want assistance to limit the size of their families.

UNITED STATES MUST LEAD IN EASTERN EUROPE

(Mr. VISCLOSKY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. VISCLOSKY. Mr. Speaker, as the son of Slovak and Croatian parents, I've attended lodge meetings, banquets, and annual ceremonies for over 40 years during which the Soviet Union's actions to deprive whole nation's of their basic rights were decried.

Recent events in Eastern Europe were but hollow dreams.

But dreams have become tangible as Eastern Europe awakens from the long night of Soviet oppression.

We must not lose this opportunity. The United States must lead.

As Representative LEE HAMILTON said in a speech, last month, "The President should not just await Gorbachev's next dramatic gesture, but should himself exercise leadership." The greater risk for U.S. policy is not that it will be too bold, but not bold enough.

In Eastern Europe we must not lose this awesome historical opportunity. We are beginning to achieve the goals there that we have sought since 1945—free elections, free markets, and free countries.

We have compelling interest that requires the leadership of President Bush.

Mr. President, history is in the making. Be a player, not a spectator.

PASS BALANCED BUDGET AMENDMENT

(Mr. DANNEMEYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DANNEMEYER. Mr. Speaker, sometime this week the House is said to take up the issue of ethics reform, also involving a pay adjustment for Members of Congress. We also are witnessing the fact that this Nation this year authorized the national debt to exceed over $3 trillion.

One of the ways I think we can indicate to the American people that we are deserving of an adjustment of our compensation is to pass the balanced budget amendment to the Constitution which would require that we have a balanced budget, currently offered by 243 of our colleagues.

□ 1240

I firmly believe that if we can produce 300 Members of this House to adjust our compensation, we should be able to produce 300 Members of the House to pass a balanced-budget amendment of the Constitution, which is supported by three-fourths of the American people.

If the Congress approves the constitutional amendment for the balanced budget, this Member would then be inclined to support the adjustment of our compensation.

I intend to go to the Rules Committee to get an amendment in order which would condition the adjustment of our compensation on the production by Congress of a balanced-budget amendment to the Constitution.

THE ISSUE IS FAMILY PLANNING

(Mrs. BOXER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BOXER. Mr. Speaker, today we have a chance to come together to prevent abortions worldwide. What an opportunity we have from all sides of the issue to come together and support the Senate language and concur with the Senate that we can finally begin making a contribution again, albeit a small one, to the U.N. Population Fund. By teaching family planning all over the world, we will save countless lives in 120 countries.

Now, not 1 penny of the United States contribution may go to China. It is very clearly stated. It may not go for abortion, it may not go to China.

So for those who use that argument, it is a completely phony issue. I would urge my colleagues to read the language.

The issue is family planning. If you are for preventing abortions, please let us come together on all sides of this issue, Republicans and Democrats, and

support the motion to recede and concur to the Senate language.

FROM YALTA TO MALTA

(Mr. DORNAN of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DORNAN of California. Mr. Speaker, what exciting times to think that we are alive to see the time when the East bloc Communist countries may castrate Castro and thereby make eunuchs of the Ortega brothers.

Will the East bloc cut off his trade? Well, Castro, in the paper yesterday, says that he is very, very sad. He says what is happening in the other socialist nations can cause serious difficulties for Cuba.

Around the fringes of the Communist empire people are still dying. The bullets that Mr. Gorbachev authorized to go to Cuba last year and Cuba sent them to Nicaragua and Nicaragua pumped them up to the FMLN in El Salvador, the net result is 300 dead people.

Yalta-schmalta, if our President does not bring up this murder on the edges of the decaying and dying Soviet Union, Mr. Speaker, then Malta will be no more than Yalta.

Look at this great front page, Mr. Speaker. I never thought I would live to see it.

Hallelujah, hallelujah.

UNFPA DOES NOT FUND ABORTIONS

(Mr. ATKINS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ATKINS. Mr. Speaker, later today the House will consider the conference report to the Foreign Operations appropriations bill, which sets aside $15 million for the United Nations fund for population activities. Some will insist that this is an abortion vote and that a vote of UNFPA funding is a vote for coercive family planning practices in China. They are wrong on both counts.

The issue before us today is family planning, not abortion. UNFPA does not fund abortions.

Its guidelines specifically preclude such finding. None of UNFPA's assistance is used for abortion services and no United States money goes to family planning programs in China.

The UNFPA has never been found to participate in coercive family planning practices in China or anywhere else.

The U.S. Agency for International Development, which administers family planning assistance, went looking for proof that UNFPA took part in coercive practices, but it had to admit that it could not find it.

DEPARTMENT OF LABOR AUDITS OF 1,533 PENSION PLANS

(Mr. STEARNS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STEARNS. Mr. Speaker, I bring to the attention of my fellow colleagues here the recent audit by the Department of Labor of 1,533 American pension plans. There are violations in 492 of these pension plans, almost one-third. The Government is the final insurer of many of these private pension plans. If these pension plans go bust, taxpayers have to pay for it, just like the S&L crisis, just like the HUD crisis.

I am providing a warning today to my colleagues that the Department of Labor has provided us warnings about the American pension plan violations. Let us not ignore them. The cost to American taxpayers and to our economy could be staggering.

WE NEED TO BE WATCHING ROMANIA

(Mr. WOLF asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WOLF. Mr. Speaker, Romania is one of the last Stalinist bastions in the Warsaw Pact. Last week we watched in amazement the opening of the Berlin Wall in East Germany. In Romania, meanwhile, the regime of Nicolae Ceausescu was trying desperately to suppress the news of this historic event by not reporting it and cutting off telephone lines to Bucharest.

The Ceausescu regime's export of basic food staples has caused severe food shortages. The destruction of churches and entire villages continues. Human rights abuses are directed against the few outspoken dissidents, religious believers, and members of Romania's Hungarian minority. Religious repression alone covers a litany of recent abuses: several Romanian Orthodox priests have faced severe beatings, and at least one has been killed, at the hands of plainclothes securitate agents; a Hungarian reformed pastor has been attacked and threatened with removal to a remote village; the congregation of a Baptist church bulldozed last May remains under heavy pressure from authorities; the Eastern Rite Catholic Church remains outlawed altogether.

What about Romania, Mr. Speaker? In Bulgaria, the aging Communist leader has been replaced following public protests. Massive demonstrations have taken place in Czechoslovakia. But Romania, plagued with starvation, repression, and all pervasive despair, finds its aspirations comatose under the rubble. The regime holds the line on dissent and stops all attempts to create organized opposition groups. The dictator Ceausescu treats the whole Romanian nation and the country's resources as his personal belongings. He has flouted the United Nations Human Rights Commission, the Helsinki human rights process, and direct United States appeals.

The Romanian people have been betrayed by a regime that once enjoyed most-favored-nation status from the United States when its Warsaw Pact allies were perceived as the East block scourges.

Mr. Speaker, we need to be watching Romania.

Mr. Speaker, the administration, Congress, and the free world should focus attention back on Romania.

THOSE REMARKABLE EVENTS IN EASTERN EUROPE

(Mr. LAUGHLIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAUGHLIN. Mr. Speaker, it is a pleasure to speak to the remarkable events in Eastern Europe, in particular, the destruction of the Berlin Wall.

It is also my fervent wish that the United States play a role in deciding the new future of Europe.

In fact, history tells us that we must play a role.

Last week, I helped dedicate a statue of a doughboy in my district, and the lessons from that time were obvious.

American soldiers were called upon to end World War I, and they did.

President Woodrow Wilson opposed the harsh measures in the Versailles Treaty, but he was ignored. We lost the peace.

Twenty years later, Adolph Hitler unleashed World War II, and again American GI's were called on to put Europe's house in order, and they did.

Mr. Speaker, America must have a voice in shaping the peace, or else we all know that we will be called on again to win the war, at great cost and sacrifice.

I understand President Bush's desire to proceed with caution, but America must have a place at the table now.

We must put forth our vision of the future now.

Because we know that if our voice is not heard, and the new solution to Europe fails, America will be called on again to restore order.

The time for leadership is now.

And I think I speak for the generations of America's veterans when I urge a strong role for America in shaping the peace.

□ 1250

THE KEMP-KASTEN-INOUYE LAW SETS UP A TEST

(Mr. SMITH of New Jersey asked and was given permission to address

the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of New Jersey. Mr. Speaker, Members should be aware, before they vote today, that the Kemp-Kasten-Inouye law that we seek to retain does not in and of itself deny the U.N. population fund, or any organization, from receiving funds. It does, however, set up an important test.

The test is this: No organization that supports or comanages coercive programs may be eligible for U.S. funds. Current law, which is the House position, then requires the President to make a determination as to whether or not the anticoercion criterion applies. If it does and the President determines that an organization comanages or supports coercion, that organization then becomes ineligible for U.S. funds.

Based on the evidence, Mr. Speaker, the U.N. population fund has been found in violation. Starting in 1985, and each year since, the President through the USAID, after a great deal of study and investigation, has determined that UNFPA has clearly violated the law, the anticoercion law, and thus rendered itself ineligible for U.S. contributions.

MAKING FAMILY PLANNING AVAILABLE TO THE POOREST COUNTRIES IN THE WORLD

(Mr. LEHMAN of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LEHMAN of Florida. Mr. Speaker, there has been so much disinformation about the issue of international family planning, but today, when we take up in the House the conference report on foreign operations appropriations, we will have an opportunity to vote for making available family planning services for men and women who voluntarily request them in the poorest countries of the world. In many sub-Saharan African countries where population and the diseases associated with famine and starvation are rampant, the United States has no bilateral family planning program. The only organization that works in these countries and in over 140 countries is the United Nations population fund.

Unfortunately, Mr. Speaker, due to allegations that abuses had occurred in rural areas of China, those who oppose family planning have punished the UNFPA because it continued to give assistance to China. Guilt by association is not the American way. The UNFPA provides a safe alternative for women who would otherwise use ineffective, even dangerous, birth control methods.

In the final analysis this is an amendment for the poorest women in the world and for child health in the Third World. Do not pay a phony China card to trump this program.

THE TREMENDOUS DEVELOPMENTS IN THE EASTERN BLOC ARE OVERSHADOWED BY WHAT IS HAPPENING IN EL SALVADOR

(Mr. DREIER of California asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DREIER of California. Mr. Speaker, how wonderful it is that we were able to celebrate freedom weekend as we saw the Berlin Wall crumble. We also saw a number of other developments which have not gotten a great deal of play. Not everyone knows that in Lithuania the announcement was made that they are going to be changing their currency, moving away from the ruble. We saw the resignation of Todor Zhivkov in Bulgaria, and then just this morning we got the news that Czechoslovakia has announced that they are going to allow people to leave that country without visas.

Mr. Speaker, these are tremendous developments which we are seeing in the Eastern bloc, but tragically this has all been overshadowed by the developments in Central America and, of course, El Salvador, the news that over 300 people have been killed since we celebrated Veterans Day just in the last couple of days, clearly the worst battle over one weekend in the history of El Salvador.

It is obvious where all this has come from. I stood earlier this year over a huge cache of weapons which had come from actually munitions factory 13. They were produced in 1988 in Cuba. This flow of weapons has got to stop, and we must do everything that we can to support our important ally, the duly elected government of Alfredo Cristiani.

WHY NOT "GEORGE, GEORGE," INSTEAD OF "GORBY, GORBY"?

(Mr. WISE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WISE. Mr. Speaker, events are moving at breakneck speed in Eastern Europe. The mayors of East and West Berlin reached across breaches in the Berlin Wall to clasp hands. Democracy races across the barren wasteland of communism.

Exciting times, Mr. Speaker, but where is the United States? One and a half million East Germans take to the streets chanting, "Gorby, Gorby." The President meets with Mr. Gorbachev in a few weeks. This meeting off Malta may well be another Yalta. But are we prepared?

The United States must take a more active role. As Europe rearranges itself, the United States cannot sit idly by.

We know these winds of freedom blow from the United States 200 years of democracy, but history alone will not do it. President Bush must be more active now. When Eastern Europe is linking a tradition of freedom with a modern-day personality, I have to ask, "Why aren't those hundreds of thousands marching in the streets of Leipzig—why aren't they chanting, 'George, George' instead of 'Gorby, Gorby'?"

VOTING FOR UNFPA IS VOTING IN FAVOR OF COERCIVE ABORTION

(Mr. WALKER asked and was given permission to address the House for 1 minute.)

Mr. WALKER. Mr. Speaker, today on the House floor we will discover how radical the agenda of the proabortionists really is. Today they will go much further than suggesting that their agenda consists of only doing something about rape and incest to victims. Today they will suggest to us that, at least insofar as the world is concerned, they are willing to countenance coercion abortions, and just in case my colleagues think this is an issue which is raised out of something other than whole cloth, I have before me information that relates to the aid review of what takes place within the Chinese program.

Mr. Speaker, what this indicates is that the kind of quality of assistance provided by UNFPA contributed significantly to China's ability to manage and implement a population program in which coercion was pervasive.

In other words, if my colleagues vote for funding for UNFPA, they are voting in favor of coercive abortion. I do not think that is a stand that this country should countenance in any way.

MR. BUSH AND MR. GORBACHEV SHOULD REMOVE TROOPS FROM EUROPE

(Mr. APPLEGATE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. APPLEGATE. Mr. Speaker, Jack Kennedy said that the most powerful force in the world is not the hydrogen bomb or the guided missile. It is man's eternal desire to be free.

Mr. Speaker, the desire for freedom has torn down many barriers over the years, and it is now tearing down walls. Eastern Europe is crying out to be free. The doors opened, the wall is coming down, and, yes, there are some skeptics. There are people who say,

"Well, I don't trust the Communists," and this and that, but we do not have any choice, and we ought to be thankful that Gorbachev is there.

Mr. Speaker, we have got to start worrying when Gorbachev is not there, but the people's momentum is there, and I think that when Mr. Bush and Mr. Gorbachev meet there should be momentum to the degree that they should talk about this peace in Europe. They should talk about helping to set people free, to breaking all barriers, and one way they can start is by both sides removing all troops from Europe.

SUPPORT VOLUNTARY FAMILY PLANNING

(Mr. KOSTMAYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KOSTMAYER. Mr. Speaker, we will, later this afternoon, take up the conference report on the foreign aid appropriations bill.

When we do, Chairman OBEY will offer a motion to recede and concur with a Senate provision appropriating $15 million to the United Nations population fund, or UNFPA.

The Senate language provides that these funds shall be held in a special segregated account in order that they not go to China, whose population program has been the subject of serious allegations.

This is similar to the method by which U.S. funds are provided to the United Nations relief and works agency for relief work on the West Bank while being withheld from the PLO.

None of these funds will go to China. Not a single dime, Mr. Speaker, further, the Helms language prohibiting any U.S. funds from being used for abortions remains in the law and in force. This vote is not about China or its controversial population program. It is about providing voluntary family planning assistance to the poorest women in the Third World.

WE NEED TO DEVELOP A STRATEGY FOR THE MEETING BETWEEN BUSH AND GORBACHEV

(Mr. HOAGLAND asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HOAGLAND. Mr. Speaker, we are truly witnessing extraordinary events around the world. We are seeing in our lifetime, we are seeing in this year, the collapse of Stalin's empire, the empire Stalin so diligently put together over 40 years ago, and we in America can be proud of what is happening now because without our stalwart defense of freedom in Europe in the last 40 years these events very likely would not be happening.

But we also have to capitalize; no pun intended, on these events to be sure that we do not have a return to communism in these countries to be sure that these Eastern European countries are indeed successful in establishing democratic institutions permanently, and in order to do that we clearly need leadership. We need leadership from the United States. We need to develop a comprehensive strategy for assuring that these changes in Eastern Europe are permanent.

Most of all, Mr. Speaker, we need to develop a strategy for the meeting between the President and the General Secretary early next month because, unless we are fully equipped with a well-thought-through proposal, yes, we could be taken to the cleaners at that meeting, and we do not want that to happen.

□ 1300

A TRIBUTE TO LILLIAN HART

(Mr. HUBBARD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HUBBARD. Mr. Speaker, last Thursday night 230 Kentuckians attended a retirement dinner to honor Mrs. Lillian Hart of Falmouth, KY. Mrs. Hart, a very talented, efficient and attractive lady, has served for the past 8½ years as Kentucky's State director of the Agricultural Stabilization and Conservation Service.

I had planned to be among those paying tribute to Mrs. Hart last Thursday night in Lexington, KY, but I could not miss the final votes in this Chamber on the oilspill liability bill late Thursday afternoon.

Lillian Hart, who has served in various ASCS positions in Kentucky over a 30-year period, was the first female ASCS district director in the United States, representing 12 northern Kentucky counties.

Lillian Hart was the second female ASCS State director in the Nation when she was appointed in early 1981.

Lillian Hart, in her third term as State ASCS director, served longer than any State director in Kentucky history.

In 1986, here in Washington, DC, Lillian Hart was awarded the Distinguished Service Award, one of only eight presented that year nationwide. It was pointed out at that ceremony that Lillian Hart, over 20 years, had averaged traveling 100 miles a workday serving ASCS and the many Kentuckians she assisted.

It's obvious I admire Lillian Hart. But so do thousands of Kentuckians who know this outstanding public official.

Best of everything to Lillian Hart as she begins to enjoy retirement and a lighter schedule.

EL SALVADOR NO LONGER A COUNTRY, BUT A BATTLEFIELD

(Mr. MOAKLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MOAKLEY. Mr. Speaker, El Salvador is no longer a country, it is a battlefield.

The latest news accounts estimate that there have been over 400 deaths as a result of the most recent fighting and there seems to be no end to the violence.

That means more tragedy, more suffering and more pain, for the people of El Salvador.

Mr. Speaker, 3 weeks ago this House overwhelmingly passed a bill I sponsored that would temporarily halt the deportation of Salvadoran nationals currently in the United States. Similar legislation is now pending before the Senate.

Today, in light of the escalated violence, I again call upon the administration to use its discretionary powers, and promptly halt Salvadoran deportations.

Failure to provide protection to the war refugees from El Salvador—could very well mean adding to the death toll.

We must act now. Lives are literally in the balance.

CONDEMNING VIOLENT AND BLOODY MILITARY OFFENSIVES IN EL SALVADOR

(Mr. McCURDY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McCURDY. Mr. Speaker, I rise today to condemn the violent and bloody military offensives begun over the weekend by the Marxist guerrillas in El Salvador and which are continuing today. These actions taken against the democratically elected Government of El Salvador represent a dangerous threat to the prospects for a negotiated settlement to that country's civil war and deserve only our contempt.

The most recent reports of those killed run as high as 340, including an American teacher, and over 400 wounded. These military actions reveal, once again, that the FMLN is a desperate and violent organization that hopes to achieve through terror in the cities what it cannot achieve at the ballot box.

Mr. Speaker, as we condemn the FMLN, we should also take this opportunity to convey support to the Cristiani government, which appears, so

far, to be handling the situation with considerable restraint. It is because of incidents such as these, Mr. Speaker, that we should continue our current policy of supporting President Cristiani as long as he attempts to bring El Salvador out of its present mess and negotiate with the FMLN.

These provocations also strengthen the argument that we should continue our efforts to train El Salvador's security forces to respond with professionalism and restraint in the face of these extreme provocations.

Mr. Speaker, El Salvador is a fragile democracy under siege by extremes of both the right and the left. As long as the Government of El Salvador proves it is worthy of our support, we should offer our firm commitment to President Cristiani and demand that the FMLN stop shooting and start negotiating.

BEHIND THE HEADLINES

(Mrs. BENTLEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BENTLEY. Mr. Speaker, the third quarter figure on umemployment released by the Government last week was headlined in the Washington Post "Jobless Rate Held Steady in October at 5.3 Percent." Hooray.

However, when one reads farther into the article, it is obviously unexpected that the economy is doing that well and the reporter writes the "surprising economic strength" is for "continued local government hiring for the school year." And that "automobile manufacturing led the overall decline in the industrial sector."

Also, it is reported that "unexpected job growth and persistent wage inflation" will keep "the Federal Reserve from immediately easing its hold on credit, which in turn would have triggered lower interest rates."

The real downer is in the last paragraph which points out that the goods-producing sector lost 3,000 jobs in the quarter offset by modest gains in mining and construction softening the effect of a 13,000 drop in manufacturing employment.

This followed a revised drop of 88,000 factory jobs in September alone. In the last 5 months, the durable goods sector has lost more than 150,000 jobs.

Mr. Speaker, I think the headline writer should have more appropriately titled this story, "The U.S. Moves Ever Closer to Becoming the Servants of the World."

HELP FOR BANGLADESH

(Mr. MOODY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MOODY. Mr. Speaker, when I went to Bangladesh in 1961 with the Peace Corps, the population of that country was 45 million people, approximately tenfold that of my own State of Wisconsin with the same geographic square mile area.

Today the population of Bangladesh is approximately 110 million people, living in a state of virtual starvation, with the population size regulated only by weather and food supply, a kind of Malthusian existence. We have a chance to help relieve that problem here in that country and in many other countries today by restoring funds for the United Nations family planning activities.

That vote today to recede to the Senate language is not about two things. It is not about abortion, because the Helms language segregating any U.S. funds from any abortion activities still holds, and it is not about China, because all moneys under that would be totally separate from anything going to China; but it is about alleviating starvation, misery; it is about preventing abortion and that is also very important because most abortions, in fact, take place when there is no access to family planning.

So Mr. Speaker, help us prevent untold misery around the world by restoring these funds to that agency.

THE NEED FOR FAMILY PLANNING IN POVERTY STRICKEN COUNTRIES

(Ms. SLAUGHTER of New York asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SLAUGHTER of New York. Mr. Speaker, in the year since the United States has restricted the ability of family planning information to be given to poor women throughout the world, tens of thousands of them have died with unsafe medical procedures. Millions of children live below the poverty line, with an age expectation of not much above 5.

Those women would have been alive today had family planning information been available to them. We can stop that today.

CONFERENCE REPORT ON H.R. 2939, FOREIGN OPERATIONS, EXPORT FINANCING, AND RELATED PROGRAMS APPROPRIATIONS ACT, 1990

Ms. SLAUGHTER of New York. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 288 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H.J. RES. 288

Resolved, That upon the adoption of this resolution it shall be in order to consider the conference report on the bill (H.R. 2939) making appropriations for foreign operations, export financing, and related programs for the fiscal year ending September 30, 1990, and for other purposes, and all points of order against consideration of the conference report for failure to comply with the provisions of clause 2 of rule XXVIII are hereby waived. All points of order against the motions printed in the joint statement of the managers to dispose of Senate amendments numbered 22, 23, 44, 69, 122, 201, 289, and 295 for failure to comply with the provisions of clause 7 of rule XVI are hereby waived.

The SPEAKER pro tempore (Mr. LEVIN of Michigan). The gentlewoman from New York [Ms. SLAUGHTER] is recognized for 1 hour.

Ms. SLAUGHTER of New York. Mr. Speaker, I yield the customary 30 minutes, for the purposes of debate only, to the gentleman from New York [Mr. SOLOMON], and pending that I yield myself such time as I may consume.

Mr. Speaker, House Resolution 288 provides for the consideration of the conference report on H.R. 2939, making appropriations for foreign operations, export financing, and related programs for the fiscal year ending September 30, 1990.

This resolution waives clause 2 of rule XXVIII, which prohibits consideration of conference reports until the third day after the report has been printed in the CONGRESSIONAL RECORD. The waiver will allow the House to expeditiously consider this important measure.

In addition, the rule waives clause 7 of rule XVI, prohibiting nongermane amendments, against motions to dispose of specified amendments reported from the conference in disagreement. Without this waiver, motions to dispose the Senate amendments numbered 22, 23, 44, 69, 122, 201, 289, and 295 might be ruled out of order because language in the House amendments is not germane to the Senate amendments. These amendments in disagreement provide aid to Poland and Hungary and implement the recent agreement on antidrug funding.

The conference report on H.R. 2939 appropriates $14.6 billion to conduct the foreign assistance programs of the United States. These include bilateral programs to support nations of strategic and political importance to the United States, as well as multilateral assistance disbursed through international organizations. Our foreign assistance programs, while less than 2 percent of the fiscal year 1990 budget, enable the United States to strengthen our allies and friends around the world, promote democratic institutions, and assist with the development needs of the world's poorest people. H.R. 2939 also includes funding for those persecuted in their native countries who are seeking a better life here in the United States. All of these pro-

grams are critical to the implementation of American foreign policy.

Mr. Speaker, today we are 45 days into the 1990 fiscal year. As lawmakers we have a responsibility to act as expeditiously as possible on this and other overdue appropriations measures. This rule will allow the House to consider this important conference report, while protecting Members' rights to debate and vote on its provisions. I ask my colleagues to support the rule so that we may proceed with consideration of the merits of this legislation.

□ 1310

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I join the gentlewoman from New York in supporting this rule, which will facilitate the immediate consideration by the House of the conference report on H.R. 2939. This conference report authorizes fiscal year 1990 appropriations for foreign operations, export financing, and related programs.

Mr. Speaker, I support this rule because we have reached the point in the year when general appropriations bills are overdue and such legislation must be brought to the floor immediately if we are to avoid the embarrassment of still being in session when Santa Claus makes his appointed rounds.

Members of the House, the waivers contained in this rule apply to eight provisions with which the House is in technical disagreement with the Senate. The germaneness rule is being waived—and the House will be in the position of being able to recede to the Senate position, in some cases with a further amendment of our own, on issues involving international antidrug efforts and aid to Poland and Hungary.

Mr. Speaker, I normally would oppose waivers of this type, but, under these circumstances, they are necessary to move the process forward. And so I urge support of this rule.

Having said that, Mr. Speaker, I must advise Members back in their offices, that there are at least two serious problems with this conference report, problems serious enough to imperil the bill altogether. The administration is threatening a veto if either amendment 17 and/or amendment 255 stay in this conference report.

Amendment 17—with which, I would point out, the House is in technical disagreement with the Senate, provides $15 million in funding for the U.N. population fund. The amendment provides further, maybe I should say legislates further than the U.N. population fund is to keep these funds in a separate account and none are to be used in support of programs in mainland China.

This provision is, of course, a figleaf to cover the U.N. population fund's continuing complicity in the coercive population planning policies of the People's Republic of China, policies which feature millions of coerced abortions and which encourage such atrocities as female infanticide. Given the fact that the House is in disagreement with the Senate on this point, Members will have an opportunity to make a motion against receding to the Senate position in support of amendment 17.

The second problem which puts this bill at risk of veto is amendment 255. I think we should all pay attention to this. This provision is a new variation of the so-called Moynihan amendment, and it prohibits executive branch officials from undertaking activities to obtain support from non-American sources for policies or purposes which are prohibited under U.S. law.

In other words, to use an example, if U.S. law were to prohibit aid and investment to some country, either, let us say, because it is Communist or because it has defaulted on loans from the United States, our executive officials would be prohibited from encouraging some other country which receives U.S. aid from helping the country in question, even if providing that help was in our interest as well.

This, of course, is not the real intent of amendment 255. What this amendment is getting at is yet another nitpicking, unenforceable attempt by Congress to control the executive branch on the issue of Central America. We might call this amendment the great-great grandson of the Boland amendment because it does the exact same thing. There have been so many generations and variations on this theme, I have lost count.

Mr. Speaker, the intent may be concerning Central America, but amendment 255 is worded so loosely as to have a very dangerous and potentially chilling effect on the conduct of U.S. diplomacy generally, and it most certainly would have a devastating effect on the ability of any President of the United States to carry out his consitutional duty to conduct foreign policy.

As a part of our mania for mismicromanagement, this amendment would apply to all acts of executive branch personnel whether these acts are done in an official capacity or not. In short, Mr. Speaker, amendment 255 is unworkable, and it represents a crude slap in the face of this new administration which has tried so hard to cooperate with Congress on sensitive foreign policy issues.

For this reason, I cannot support passage of the conference report; if necessary, at the appropriate time I, or other Members, will offer a motion to recommit with instructions to knock out the Moynihan amendment No. 255.

Members should be advised again that we are running the risk of having this conference report vetoed if we do not clean it up. Let me tell the Members something else, and I think they all ought to pay attention to this: If this conference report goes ahead and the President vetoes this appropriation bill, and if he vetoes the bill coming right after it, the State Department authorization bill, my friends, we can kiss Thanksgiving goodbye, and we will be here in December singing Christmas Carols to each other.

Keeping that in mind, my colleagues, I urge support for this rule that is before us today even though it has some drawbacks. I think we ought to get right to the consideration of the bill.

Mr. Speaker, I reserve the balance of my time.

Ms. SLAUGHTER of New York. Mr. Speaker, I yield 5 minutes to the gentleman from Ohio [Mr. TRAFICANT].

Mr. TRAFICANT. Mr. Speaker, I think the President should veto this bill, not for the provision that was discussed earlier by the fine Member from New York, but simply because we here in America are having our family home foreclosed upon, and we are paying the rent bills of our neighbor.

In the last 10 years we have cut housing, education, revenue sharing, urban development action grants, Medicare, school lunches, Head Start, legal services, research and development. We have roads and bridges falling apart, we have water lines in our great cities that need repair, we have sewers that are ruptured, and we do not know what to do with our toxic wastes. We have trash problems on barges and railroad cars transported all around the country. No one has the money to take care of it.

No one wants to handle the problems, and we are spending now $14.6 billion in foreign aid. What bothers me though is we had a little bit of a cut when this authorizing bill came out of the House. The other body not only put that money back in, they added another $200 million. This turkey is $359 million more than it was.

If we really want to talk about foreign aid, there is a good article in the paper today. Ferdinand Marcos' skyscraper in New York was sold at auction for $77 million. Americans bought back a skyscraper from the Marcos estate that Marcos bought with foreign-aid money that was supposed to go to the Philippines, and that is about the bottom line around here.

□ 1320

We have got a country going bankrupt. Right now we are on automatic pilot. Everybody is trying to figure where to get the money, and we are adding more money in here for foreign aid.

I think it is time that Congress cuts the NATO subsidy, starts cutting foreign aid, and takes care of America first. I know there are not too many Members listening to me around here. That is evident by the way they vote.

So I think President Bush should veto this bill, not because of the family planning element, but because it is time we start earmarking and making a priority out of America first. How about some aid to Cleveland? Pittsburgh? Los Angeles? New York?

Mr. SOLOMON. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Ms. SLAUGHTER of New York. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The SPEAKER pro tempore. (Mr. LEVIN of Michigan). The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. SOLOMON. Mr. Speaker, I object to the vote on the ground that a quorum is not present and made the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 362, nays 45, not voting 26, as follows:

[Roll No. 349]

□ 1338

Mr. LAUGHLIN changed his vote from "nay" to "yea."

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

□ 1440

Mr. OBEY. Mr. Speaker, pursuant to the provisions of House Resolution 288, I call up the conference report on the bill (H.R. 2939) making appropriations for foreign operations, export financing, and related programs for the fiscal year ending September 30, 1990, and for other purposes.

The Clerk read the title of the bill.

Mr. OBEY. Mr. Speaker, I ask unanimous consent that the joint statement of the managers be read in lieu of the report, and that the conference report be considered as read and printed in the RECORD.

The SPEAKER pro tempore (Mr. LEVIN of Michigan). Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

(For conference report and statement, see proceedings of the House of Monday, November 13, 1989, at page 28571.)

The SPEAKER pro tempore. The gentleman from Wisconsin [Mr. OBEY] will be recognized for 30 minutes and the gentleman from Oklahoma [Mr. EDWARDS] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Wisconsin [Mr. OBEY].

GENERAL LEAVE

Mr. OBEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and that I may include tabular and extraneous material on the conference report on H.R. 2939, now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

Mr. OBEY. Mr. Speaker, I yield myself 17 minutes.

Mr. Speaker, before I begin the descriptioned bill, I would simply like to express my appreciation to the committee staff, both the committee corps staff, the associate staff, staff on both sides of the aisle, as well as a number of agency staff, especially Bob Lester from the Agency for International De-

velopment who helped with the technical work necessary to bring this bill before Members today. I would especially like to thank our staff, Lori Maes, Georgia Sambunaris, Bill Schourch, Mark Murray, Mike Marek, and Terry Peel. I would also like to express my appreciation to all members of the subcommittee, particularly the gentleman from New York [Mr. McHUGH] on our side of the aisle who has always spent a great deal of time on this bill, and the gentleman from Oklahoma [Mr. EDWARDS], the ranking Republican on the bill, who has worked with members very closely and very professionally.

Mr. Speaker, this bill is a bill which any Member can vote for. It cuts $514 million from the President's request. It contains new initiatives to provide assistance to Poland and Hungary to the tune of $533 million. It largely has resisted the budget gimmicks which the Senate added to the bill which would have added seriously to our budget problems for next year. There will be a straight vote on the amendment which relates to the United Nations' Population Control Program, and we can debate that later.

I would simply like to make two points in support of the conference report today. First of all, this bill is aimed at carrying our moral weight in attacking some of the incredible conditions of human poverty and wretchedness around the world; but in reality, this bill can do very little, so long as the Third World debt crisis continues to hang over the heads of the world economy.

There is an item in this bill which relates directly to that question. The administration asked the committee to provide $90 million in paid-in capital, and $2.2 billion in callable capital for the hard loan windows at the World Bank. Any Member, who knows me, understands that I have always regarded our international obligations to the World Bank as being among the highest priority items in this bill. Nonetheless, this year, the House declined to provide the money requested by the administration for a very simple reason: Much of the money contributed to the international bank would be used under the Baker, and now under the Brady plan, to guarantee payments by Third World countries to American money center banks, payments which would remain after those money center banks had negotiated debt reduction packages with American banks.

The problem, Mr. Speaker, is that in the commercial banks, in the 1970's, those banks made many bad loans. They had been collecting large amounts of interest on those loans since that time. At this point those loans are so huge that when the economies of many of the Third World recipients of those loans collapsed for a variety of reasons—some of which include their own economic mismanagement—the result has been that those Latin American countries, especially, have not been able to do very much more except repay those commercial loans. They have had to devote a large share of their foreign exchange to repayment of those commercial bank loans, and as a result, they have had very little left with which to either expand their own economies or to purchase American export goods.

The Baker plan was put in place several years ago to try to deal with that problem. It did not meet with much success. The Brady plan, which is now the policy being followed by the administration, has been a welcome change in the previously announced plan. However, very frankly, the commercial banks have still not demonstrated a sufficient degree of cooperation with Secretary Brady in order to justify the expenditure of public money by way of contribution to the World Bank at this time. The commercial banks were asked to reduce the paper value of their bad loans, to reduce the amount that would be required to be repaid to those commercial banks, under the Brady plan, and the World Bank would then guarantee repayment of those reduced loans. The problem is that if those banks do not sufficiently reduce the amount of outstanding loans or the amount of debt service which will be paid to those commercial banks, then the taxpayer, because of the guarantees which are going to be provided by the World Bank, the taxpayer runs the risk of having to foot large bills for these guarantees, because the bank did not accept sufficient risk to reflect their own bad judgment in the first place.

□ 1350

Mr. Speaker, that is why the House declined to fund the World Bank's hard loan window this year. The administration tried to get the commercial banks to cooperate, but so far they have not had sufficient cooperation. The conference report worked out a compromise which simply delays this decision.

Mr. Speaker, we provide $50 of the $90 million which the administration asked for for the direct contribution, but we have, for the moment, held the $2.2 billion in callable capital. The committee has agreed to place that callable capital appropriation in a supplemental next year, but we have not yet agreed to support it, and our position as to whether or not we will actually support the provision of that callable capital on the House floor will be determined by the performance of the commercial banks in cooperating with Secretary Brady in his efforts.

Second issue: Members need to know that even as we speak there are efforts being made to negotiate on a second issue which remains in this bill. The administration is suggesting that the President will be advised to veto this bill if language which it presently contains with respect to leveraging of foreign aid in an illegal way is retained.

Mr. Speaker, I want to read the language which the administration says it will veto. This is what the bill says:

None of the funds appropriated by this Act may be obligated or expended for the purpose of furthering any military or foreign policy activity which is contrary to United States law.

Second paragraph says:

None of the funds appropriated by this Act may be used to solicit the provision of funds by any foreign government including any instrumentality or agency thereof, foreign person or United States person, for the purpose of furthering any military or foreign policy objective which is contrary to United States law.

Mr. Speaker, why is that language in the bill? The language is here because our committee was told in April 1987 by witnesses testifying for the administration's foreign aid budget that the United States had never in any fashion linked foreign aid funds to any country to their support for the Contra activities in Central America.

But documents which were released in the North trial demonstrated that that simply was not a fact. Documents showed that in February 1985 a plan was hatched to provide the expedited release of economic support funds to Honduras as a direct incentive for them to support the Contras. Documents released in that trial also showed that Honduras did in fact received expedited delivery of some 109 million dollars' worth of foreign aid funds including economic support funds, military assistance funds, and CIA support. They received that in March 1985. Copies of those documents were initiated by officials of the administration including President Reagan, and the documents also showed that that plan was carried out despite administration awareness that the activity was contrary to congressional intent.

The documents also pointed out that United States military personnel in Salvador funded under the accounts in this bill were intimately involved in facilitating the use of the Ilipango Air Force base to supply arms to the Contras when that was prohibited by law, and the General Accounting Office concluded that 65,000 gallons of fuel paid for in this bill were then sold by the Salvadoran Air Force to the Contras in violation of FMS sales agreements, fuel costing the taxpayer $800,000.

Mr. Speaker, the language which we have in the bill simply is an effort to suggest that that will not happen again. This is not an effort to resurrect the Iran-Contra controversy. Let

us all hope that is behind us. But what we have here is a right of the Congress as an institution to determine that moneys spent in this bill will be spent in accordance with the U.S. law. That is all this language does.

This bill, I would point out, is very narrowly drawn. This language is very narrowly drawn. It makes no effort to limit the President's authority to conduct foreign policy. There is no effective limit on the President's authority to consult with any other nation about actions that that nation might wish to take. The President under this language can discuss anything he wants. So can most other officials within the administration.

Mr. Speaker, this language is very narrow. It simply says that, if the administration wants to use taxpayers' dollars to accomplish a purpose in conflict with U.S. law, that it must use funds other than those in this bill to accomplish that purpose. I do not think that is too much to ask.

In fact, Mr. Speaker, I am amazed at how little we are asking of the administration, and I would simply ask this question: If the American people cannot be assured that foreign aid dollars, which are appropriated today, will be expended for a lawful purpose, a purpose consistent with U.S. law, then why should they be expected to fork over any taxpayer dollars at all for foreign aid? If the administration wants to veto this language, I would ask my colleagues: What then becomes of the rule of law?

Mr. Speaker, there is one question I would ask the administration. "If you don't want this language, what laws are on the books that you intend to violate? What dollars in this bill do you want to spend for purposes which are contrary to U.S. law?"

Mr. Speaker, I think that is a legitimate question, and any legislative body worth its salt would insist on the right answer before we provide these funds.

Mr. Speaker, I should explain to Members of the House that even as we speak efforts are being made to try to negotiate this language. My staff went to State Department representatives seven different times and asked them whether they wanted to explore report language which would clarify the intent of this language so that the President's authority to conduct foreign policy was not inadvertently affected in any deleterious way. We heard nothing specific from the administration until about 20 minutes to noon today when I was informed that discussions were being held on language in another bill which might affect this limit that I am talking about right now.

□ 1400

Mr. Speaker, I would say that I still remain open to discussions on compromise language. If we could reach compromise language that would meet the approval of all parties, I would be willing on one of the subsequent amendments here yet today to offer a unanimous-consent request that that compromise language be included in lieu of or in addition to this language. If that does not happen, I would still be willing to explore, after this bill passes, compromise language which might be inserted in the Senate, provided that language had been precleared with the authorities on both sides of the aisle on our subcommittee, but I do not know if that is going to happen.

I would simply say that the reason this language is here is very simple. Because the Congress was lied to. And because we were lied to, we could not tell the people we represent, with accuracy, how money in previous foreign aid bills was spent.

I think we have an obligation to assure that in the future we will be able to tell our constituents that money expended under this bill, which is not a very popular bill, is being expended in a manner which is consistent with American law. That is all we are asking for. Any attempt at clarification, I welcome. Any attempt at subversion of this language, I simply will not support.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, bringing a freestanding foreign aid bill to the floor is never easy to do. This is only the second one to reach the floor on its own in a good many years. Because of the severe budget constraints that we face this year, the process has been especially difficult.

First of all, as the vice chairman of the subcommittee, I would like to compliment not only the subcommittee chairman, the gentleman from Wisconsin, but all the Members on both sides of the aisle who worked for so many hours to get us to this point. Our conference with the Senate lasted many hours late into the night and there was a good deal of effort by everybody who served on this subcommittee on a very difficult task, made even more difficult by the fact that we were in the process of trying to negotiate out a number of differences with the administration.

This bill contains funding for our very best allies around the world. For these nations, many of whom play a critical role in preventing the Soviet Union from gaining a military advantage and many of which allow United States forces access to forward bases, United States military aid is essential.

This bill also provides funding for fragile democracies in Central America, where in El Salvador, for example, the democratically elected government is currently under attack at this very moment by Communist guerrillas, and urgently needs our help. Among other things, this bill provides money for training of the police in El Salvador to help them maintain the human rights record that we hope will not only stay as it is, but continually improve, a human rights record which has improved drastically over recent years because of assistance from the United States.

This bill also provides for other areas of emerging importance. We stand here just one day before Lech Walesa's speech in this Chamber, and this bill provides more than $600 million in aid to Poland and Hungary, including $200 million for Poland's economic stabilization fund.

Passage of this conference report will send an important message to the people of Poland who are striving for freedom and democracy, as well as to all of Eastern Europe, that the United States stands behind them in this new quest for freedom and democracy behind the Iron Curtain.

This bill adds an additional $125 million for Peru, Colombia and Bolivia, to fight the international war on drugs.

This bill is not without its problems. The President has already said that he will veto the conference report if it contains money for the United Nations population fund, which provides assistance to China, which has a policy of coerced abortion. In a few minutes each Member of this body is going to have a chance to vote on this issue separately.

The House version that we passed earlier had very little money earmarked for the economic security fund and foreign military sales, areas in which we allow the President and his administration maximum flexibility. Unfortunately, the other body added a lot of earmarking, and while we got rid of some of it, there are now more earmarks than I would like to see or that the chairman would like to see, and I regret that.

This bill restricts the release of funds for the World Bank and it provides no new money for the callable capital fund of the World Bank. That is a restriction that I strongly support.

Finally, let me say a word about the so-called leveraging amendment in this bill which the chairman has just referred to and which prohibits the use of funds in this bill for the furthering of policies contrary to U.S. law. As the chairman pointed out, the administration has very strong disagreements with that language. At this moment there are attempts being made by the President and his representatives, along with myself and the chairman of subcommittee and Members of the other body who have worked on this bill, to work out compromise language that will be acceptable and allow the

President not to veto the bill on those grounds.

Having said that, I have to say also that I do not agree with the administration on this issue. I think the President is perfectly correct in trying to maintain as much control as he can over those areas which he believes the Constitution puts in his domain, the area of foreign policy, but the language that is in this bill, partially crafted by the chairman and with which I agree, merely says that none of the money, none of the taxpayers' funds that we are appropriating today, may be used to further a policy that is contrary to United States law.

I have read this language over and over and over again, and if there is something wrong with it, I cannot find it.

I would sincerely hope that our friends in the administration do not have any problem with the concept of following U.S. law, properly determined by the Congress of the United States in making their foreign policy determinations and setting their foreign policy actions.

Now, having said that, I have to repeat, as the chairman did, it is my hope that the negotiations which we are currently having with the administration will allow us later on the floor in this bill, or afterwards when the bill goes to the Senate for their consideration, to make the changes that will make it acceptable both to us and the administration. I hope that happens, but I regret that the administration chose this place to make a fight.

I would hope that as we proceed on this course and bring this bill to a vote that Members as they make their decisions about whether to vote for the conference report or not, and everybody will have a different view, partly based on their views of the U.N. funding program, that we will not lose sight of the fact that this bill for the second time in a row, and I might say as a Member of this body who does not have a long track record of supporting foreign assistance programs, that the reason I did not previously support foreign assistance programs is because they did not represent the priorities of the administration. This one does in terms of where the money goes, what programs it supports, what countries it aids, how much it provides assistance to our military allies, economic support funds, foreign military sales, things that strengthen our ability to promote freedom and democracy around the world, this bill strongly reflects the priorities of the administration. So I would hope that we are able to work something out so it can be signed into law. It would be a shame to lose this carefully crafted program and end up going back to a battle that may provide a bill that the administration will not like at all.

Mr. OBEY. Mr. Speaker, I yield 1 minute to the gentlewoman from New York [Mrs. LOWEY].

Mrs. LOWEY of New York. Mr. Speaker, I rise in strong support of the conference report. I strongly support this legislation and would stress the particular importance of the $3 billion aid package for Israel at this critical point in history.

Mr. Speaker, this funding is essential not only to the security of Israel, but also to the potential for real peace in the Middle East. Israel is our closest ally in the Middle East. In international forums, Israel has a long-standing record of being at our side. Likewise, our security interests and prospects for peace in the region are served by a strong Israel.

These are difficult times for Israel, but in the face of dramatic pressures, it has retained its democratic institutions. Israel has, from the beginning, been a democracy. As we know in the United States, a democratic system forces us to confront controversies and to reflect public sentiment in government policies. We also know that a democratic form of government fosters peace and long-range stability. Israel is a democracy surrounded by repressive regimes which have not been willing to subject their policies to the will of their people. This legislation clearly keeps the United States on the side of Israel and of its commitment to democratic principles.

In July, I joined a top-level congressional delegation that visited both Israel and Egypt. During this trip, Israeli leaders from both major parties detailed the threat to Israel's existence that is posed by a perilous new arms race throughout the Middle East. A helicopter trip to the Golan Heights provided a stark reminder of Israel's vulnerability to attack from Syria and other surrounding nations that remain committed to Israel's destruction. It made clear not only the essential nature of our alliance, but also the importance of giving Israel the flexibility to address geographic realities which it confronts every day.

Further, the threat of terrorism continues to be a daily fact of life throughout Israel. Despite the public pronouncements of PLO leaders, terrorist attacks continue on a routine basis in Israel. Moreover, rather than promote a peaceful resolution of the conflict in the West Bank and Gaza, the PLO initimidates and terrorizes moderate Arabs, prolonging the violence and bloodshed in these regions.

The fact of the matter is that Israel's security will never be assured so long as it is surrounded by threatening nations and exposed to the constant threat of terrorist violence. The people of Israel want peace. It should be our role to continue to provide a generous and fair aid package for this very special ally in support of peace.

This measure will help preserve Israel's security, and it will help guard the critical United States-Israeli alliance. In doing so, it will most certainly serve the cause of peace. I urge all of my colleagues to join in strong support of this measure today.

The United States Congress has established a long and very commendable record of strong support for Israel. Today, we should maintain that record, which is of crucial importance to the United States, to Israel, and to democratic nations everywhere. I urge my colleagues to strongly support this measure.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I yield 3 minutes to the gentleman from Illinois [Mr. PORTER], a member of the subcommittee.

Mr. PORTER. Mr. Speaker, I thank the gentleman from Oklahoma for yielding me this time.

Mr. Speaker, I rise in support of the conference report and urge its adoption.

This bill had made major strides in several areas. First, in this legislation we provided for voluntary family planning, both bilaterally and in the U.N. The bilateral support is up to $220 million. The committee also voted to support the Senate's decision to refund UNFPA. This will reestablish the United States historic role in support of voluntary family planning worldwide.

I was also pleased to see increased funding for the International Finance Corp. In one single debt-for-equity swap, the IFC reduced the debt of Mexico by as much as the entire Brady plan. The IFC promotes private sector growth in dozens of countries and has managed to turn a profit for its own account in even the poorest countries.

The bill also begins a "global warming initiative" in the private sector environment and energy account that will go a long way to beginning our efforts to combat this threat to our environment.

This bill also contains funding to combat the spread of the AIDS virus which is a fight we are only beginning to turn the corner on in Africa. Thanks to AID and WHO, blood is now screened in most large African hospitals for the virus. At least now, the virus is not being spread by the major health care systems of Africa.

This bill also promotes microenterprise activities in many countries and especially the Philippines. I will look forward to the progress of the new Philippine MAI in this field of small and microenterprise development.

Finally, this measure provides for the followthrough on our efforts in the Helsinki process to win freedom for Refusniks and Pentacostals for whom we have been working for so long. While the funding in this bill will have to be augmented soon, quick passage is needed to take care of the backlogs of refugees now waiting in Rome and Moscow.

Mr. Speaker, the chairman, Mr. OBEY, and our able ranking member, Mr. EDWARDS, and members of the subcommittee should be commended for their fine work. I also want to thank personally Terry Peel, Bill Schuerch, Mark Murray, Georgia Sambunaris, and Lori Maes of the majority staff, and Jim Fairchild and Chris Walker of the minority staff.

Mr. Speaker, this bill is a good piece of bipartisan work, including the provision on UNFPA, and I urge its adoption.

□ 1410

Mr. EDWARDS of Oklahoma. Mr. Speaker, I yield such time as he may consume to the gentleman from New Jersey [Mr. GALLO].

Mr. GALLO. Mr. Speaker, I rise in support of this conference agreement on the foreign aid bill.

I would like to commend both Chairman OBEY and the ranking member, MICKEY EDWARDS, for their hard work in crafting this compromise.

Mr. Speaker, I rise in support of the conference report on H.R. 2939, the Foreign Operations, Export Financing and Related Programs Appropriations bill for 1990. Chairman OBEY and ranking member, MICKEY EDWARDS, deserve a great deal of credit for managing this bill and for forging this compromise. This foreign aid bill is one of the least popular spending bills in Congress. Yet, it furthers some of our most important foreign policy goals.

In this bill, we have responded to the dramatic changes in Eastern Europe by providing $647 million in support for reforms in Poland and Hungary. We have also provided substantial moneys to combat the cultivation and importation of illegal drugs from South American countries.

I am also pleased that the conference committee agreed to provide $50 million for the general capital increase of the World Bank. Although I remain concerned about the lack of a callable capital contribution, it is important that we stand behind Secretary Brady's efforts to forge difficult agreements on Third World debt reduction.

Without this contribution, U.S. leadership in the international financial system would be at risk. The World Bank is a key player in implementing a sound debt reduction strategy, as is the case in Mexico and the Philippines. The World Bank is also expected to play an important role in economic reforms in Poland and failure to make our payments undermines our ability to influence these policies.

In general, the conference agreement maintains, if not strengthens, our economic and security commitments to United States allies, such as Israel, Egypt, Greece, Turkey, and Central American democracies. We continue the important humanitarian and development assistance provided through the Agency for International Development, as well as through such key international organizations as UNICEF. We further America's commitment to international environmental efforts and we continue our commitment to refugee assistance programs worldwide.

And, within very limited resources, we maintain export promotion programs of the Export Import Bank. With regard to the Ex-Im, I am disappointed that we were not able to provide the use of guarantee loan authority with the new I-Match Program. In future legislation, it is my hope that we can resolve this issue and allow this new initiative to proceed. I am also concerned about the limitation imposed on Ex-Im mid-term loans which could have an adverse impact on small- and medium-sized small businesses.

Overall, however, this conference report is a good compromise and deserves our support. I urge my colleagues to vote in favor of the conference report.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I yield 5 minutes to the gentleman from New York [Mr. SOLOMON].

Mr. SOLOMON. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, my colleagues, first I want to commend the gentleman from Wisconsin [Mr. OBEY] and the gentleman from Oklahoma [Mr. EDWARDS], because I know they have done yeoman work on this legislation. It is one of the more serious bills that we have to deal with every year, and as a former member of the Committee on Foreign Affairs, I know how difficult that can be.

I am, again, so concerned that the Congress is trying to micromanage the foreign policy of this Nation. If we read the language that is being proposed, which both the gentleman from Wisconsin [Mr. OBEY] and the gentleman from Oklahoma [Mr. EDWARDS] have spoken to so eloquently here, it says, "None of the funds appropriated by this act may be obligated or expanded for the purpose of furthering any," and here is where it gets a little crusty here, "for furthering any foreign policy activity which is contrary to U.S. law."

That sounds simple enough. We should not be doing anything that is contrary to U.S. law. But let me give the Members an example: Several years ago the gentleman fron Florida, Mr. Mica, and I sponsored a series of amendments which reduced funds to the United Nations as an incentive for the United Nations to put its fiscal house in order. If we want to carry this present bill technically to its logical conclusion, we come to the issue of what actions may be "contrary to U.S. law." If there were U.N. money in this bill, to pay our assessments, let us say, this language means that no one in the White House could go to Great Britain or France or Italy or any of the other U.N. member countries and say, "We are reducing aid to force them to put their house in order, but we do not want to bankrupt the United Nations, so why do you not continue? Why do you not continue funding the United Nations? Meanwhile, we will keep their nose to the grindstone." That is just one example.

Another example, there is money in this bill for Poland. Suppose Poland is in violation of the Brooke amendment on the Hickenlooper amendment, suppose they are doing things that are in violation of our law and we want to cut off Poland to make them tow the line, but we want to say, "Great Britain and France, Italy, West Germany, or anyone else, why do you not keep helping them? We cannot do it."

What we have not talked about here is the fact that this kind of language was originally intended to apply to Nicaragua, but now we are extending it across the board again. It says, "None of the funds appropriated by this act may be used to solicit the provision of funds by any foreign government which may be contrary to United States law."

Back in 1985, as a conferee on the foreign aid authorization, I contributed to report language which clarified these concerns as far as Nicaragua was concerned. That report language that we wrote to accompany the conference report said, "This section does not prohibit United States Government officials from discussing United States policy in Central America with recipients of United States assistance or purchasers of United States military equipment, nor does it prohibit recipients of United States assistance from furnishing assistance to any third party on their own volition, and from their own resources." I think that the language in this conference report here today negates this report language that we supported overwhelmingly with the support of the two gentlemen sitting on either side of me here; that is not what we are taking into consideration today.

That is what the administration is so concerned about. Otherwise, why would they be threatening a veto?

I call this to the Members' attention. I know that probably nothing is going to be done about it today.

I also criticize the administration a little bit, because I share the concern of the gentleman from Wisconsin [Mr. OBEY] and the gentleman from Oklahoma [Mr. EDWARDS] that the administration is not timely sometimes. They do not get out front and talk to us in advance, and this may be one of those times. Maybe the administration is getting what it deserves. Maybe we ought to teach them a lesson; that is, if this were not such an important measure, which really is going to hinder the President of the United States, whoever he may be in the future, from conducting the foreign policy which is delegated to him in the Constitution of the United States.

I would hope at some point this language could be dropped before it finally gets to the President's desk for a veto.

The issue here is whether or not Congress should continue to dictate nit-picking, unenforceable requirements to the executive branch. The fact that no report language explaining this provision in the conference report has been written suggests to me that this provision is, indeed, unexplainable.

We don't have to wait on the executive branch to write report language. This provision was cooked up in Congress, and it is incumbent on us to explain what we mean. At the very least, this new provision should have been accompanied by report language.

Otherwise, this provision is so vague—so diffuse in its implications—that any future Congress can interpret it any way it pleases. It becomes one more weapon to use against the executive branch.

Mr. OBEY. Mr. Speaker, I yield myself 2 minutes simply to respond to the statements made by the gentleman from New York which, in my judgment, are in significant error.

Mr. Speaker, let me point out that the example that he uses with respect to the United Nations is not a valid example, because we do not provide assessed contributions in this bill. The President would have the authority to do anything he wanted with the assessed contributions because they are not funded in this bill.

With respect to Poland, that question is moot. We are providing almost $600 million to Poland in this bill, so there is no problem with the President talking to anybody about providing aid to Poland.

As to the suggestion that he could not talk to Great Britain or France or Italy about providing aid to any country that was not supposed to receive aid, the fact is that Great Britain and France and Italy do not get money in this bill, so the President can talk to them until the cows come home. There is no illegality with respect to his talking to countries like that.

I would also point out that this bill does not apply to the President, because this President's salary is not paid for out of the AID bill. The President's salary is paid for out of, I believe, the Treasury, Post Office bill, and general Government bill, and so if we had a limitation on that bill, he then, indeed, would not be able to talk to the people talked about, but as a practical matter, this bill does not pay his salary. This bill does not pay the salary of the Secretary of State.

All that this bill says is that those two gentlemen are free to talk to whomever they want to talk to about whatever they want to talk about. They simply cannot promise the use of money in this bill to accomplish that other purpose. I think we need to keep that clear.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. DONALD E. "BUZ" LUKENS].

Mr. DONALD E. "BUZ" LUKENS. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I rise in strong support of H.R. 2929, this conference report, especially for those provisions that are being helpful economically in terms of long-term assistance and stabilization for Poland and Hungary.

□ 1420

The walls of Marxism are crumbling, both literally and figuratively. From the cocoon of the bureaucratically stifling environment of Marxism, we are seeing an openness in those countries that we previously thought of as unalterable.

I am particularly concerned that in some areas, such as the area of agricultural development, which is going to be in direct competition with our own farmers, and air and water quality, $3.3 million which they need desperately, and the Western world has led in terms of developing the technique and equipment to accomplish. Even clean coal, we are giving them $10 million to accomplish something which my own State of Ohio needs.

In spite of that, I think it is important we Americans particularly take a long look at the world today and realize we have an historic opportunity to help these islands of freedom manifest themselves into a world of freedom with the proper amount of help.

Some Members think it is not enough. It may not be enough money, but it certainly is a commendable initiative. It is a great start. It is enough money to see if they can really use the assistance that I know the rest of the world, the free world, is willing to give this former Marxist island of a police state.

Mr. Speaker, I am pleased to be part of the effort. Although I am not a member of this particular committee, in the Committee on Foreign Affairs we certainly have the same concern. Our authorization bill addressed the same matters.

Mr. Speaker, I am delighted to rise in strong support of this bill.

Mr. Speaker, I rise in strong support of this legislation, especially those provisions that supply economic assistance to Poland and Hungary.

The walls of Marxism are crumbling both literally and figuratively. From the cocoon of the bureaucratically stifling environment of Marxism, we are seeing a real openness even in those countries that we previously thought of as unalterable. We want to help our brothers and sisters in Eastern Europe who yearn for freedom of speech, freedom of assembly, freedom of religion, and other rights that we all take for granted every day.

Some would tell you that the amount of money contained in this bill is not enough, but we must realize that this is just the seed money for fostering islands of freedom in the socialist world. We welcome this perestroika or opening to the West and wish prosperity to these citizens under systems of their choosing.

Mr. Speaker, I am willing to withdraw my blanket opposition to foreign aid so that others can enjoy the freedom and economic success that we have had in this country for years.

I urge my colleagues to strongly support this bill.

Mr. OBEY. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. PANETTA], the chairman of the Committee on the Budget.

Mr. PANETTA. Mr. Speaker, I rise in support of the conference report accompanying H.R. 2939, the foreign operations, export financing and related program appropriations bill for fiscal year 1990. The conference agreement for this bill is within the 302(b) budget authority and outlay subdivisions of the Foreign Operations Subcommittee.

The conference report provides $13,852 billion for discretionary budget authority and $11,607 billion of discretionary outlays in 1990. These amounts are equal to the subdivision for discretionary budget authority and outlays. The discretionary direct loan programs in this bill are under the allocation by $31 million. However, I would like to note that the loan guarantee programs are over their allocation by $1.9 billion due to the refinancing provision for foreign military sales.

I would like to compliment subcommittee Chairman OBEY and ranking member EDWARDS on producing a bill that is within the budget authority and outlay subdivisions assigned to their subcommittee by the full Appropriations Committee, and, hence is consistent with the 1990 budget resolution budget authority and outlay totals.

HOUSE OF REPRESENTATIVES
COMMITTEE ON THE BUDGET,
Washington, DC., November 13, 1989.

DEAR COLLEAGUE: Attached is a fact sheet on the conference report to accompany H.R. 2939, Foreign Operations, Export Financing, and Related Programs Appropriations bill for fiscal year 1990. This conference report is scheduled to be considered on Tuesday, November 14.

I hope this information will be helpful to you.

Sincerely,

LEON E. PANETTA,
Chairman.

Attachment.

[Fact Sheet]

CONFERENCE REPORT TO ACCOMPANY H.R. 2939, FOREIGN OPERATIONS, EXPORT FINANCING AND RELATED PROGRAMS APPROPRIATIONS FOR BILL FISCAL YEAR 1990 (H. REPT. 101-344)

On Tuesday, November 14, 1989 the House is scheduled to consider the conference report to accompany H.R. 2939, the Foreign Operations, Export Financing and Related Programs Appropriations Bill for Fiscal Year 1990. The conference report was filed on Saturday, November 11, 1989 (H. Rept. 101-344).

COMPARISON TO THE 302(b) SUBDIVISION

This bill provides $13,852 million in discretionary budget authority and $11,607 million in discretionay budget outlays. Thus, enactment of this bill would result in a discretionary spending total for the subcommittee that is equal in budget authority and

equal in outlays to the subcommittee's subdivision.

COMPARISON TO SPENDING ALLOCATION

[In millions of dollars]

	Foreign Operations appropriations bill		Appropriations Committee 302(b) subdivision		Bill over (+)/ under (−) 302(b) subdivision	
	BA	O	BA	O	BA	O
Discretionary	13,852	11,607	13,852	11,607		
Mandatory [1]	805	805	805	805		
Total	14,657	12,412	14,657	12,412		

[1] Conforms to budget resolution estimates of existing law.

Note: BA—New budget authority; O—Estimated outlays.

The direct loan levels in the bill are $31 million under the discretionary subdivision for this subcommittee. The primary loan guarantees are $2 billion over the subdivision. This overage is not contained in the conference report, but rather in amendment #115, reported ir technical disagreement. A detailed comparison follows:

COMPARISON TO CREDIT ALLOCATION

[In millions of dollars]

	Foreign Operations appropriations bill		Appropriations Committee 302(b) subdivision		Bill over (+)/ under (−) 302(b) subdivision	
	DL	LG	DL	LG	DL	LG
Discretionary	1,040	8,373	1,071	6,414	−31	+1,959
Mandatory						
Total	1,040	8,373	1,071	6,414	−31	+1,959

Note: DL—New direct loan obligations; LG—New loan guarantee commitments.

Pursuant to Section 302(b) of the 1974 Budget Act as amended by P.L. 99-177 (Gramm-Rudman-Hollings), the Committees of the House are required to subdivide the spending authority and credit authority allocated to them in the Budget Resolution for Fiscal Year 1990 (shown in H. Rept. 101-50). The Appropriations Committee reported its current 302(b) subdivisions on October 24, 1989 (shown in H. Rept. 101-302). These subdivisions are the official scorekeeping targets for appropriations subcommittees.

The following are the major program highlights for the Foreign Operations, Export Financing and Related Programs Appropriations Bill contained in the conference report for H.R. 2939 for Fiscal Year 1990:

PROGRAM HIGHLIGHTS

[In millions of dollars]

	Budget authority	New outlays
Multilateral Economic Assistance	1,883	199
International Financial Institutions	(1,618)	(43)
International Organizations and Programs	(265)	(156)
Bilateral Economic Assistance	6,670	2,860
Economic Support Assistance	(3,173)	(1,774)
Military Assistance	5,504	2,662
Foreign Military Sales	(4,664)	(1,861)
Direct Loan	(406)	
Export Assistance	647	113
Export-import Bank	(615)	(85)
Direct Loan	(615)	
Primary Guarantees	(6,050)	

Mr. EDWARDS of Oklahoma. Mr. Speaker, I yield 5 minutes to the gentleman from Minnesota [Mr. WEBER].

Mr. WEBER. Mr. Speaker, I thank the gentleman for yielding.

First of all I do rise in support of the conference report. I want to commend the distinguished chairman and ranking member for the good work they have done.

Mr. Speaker, I support the work of the subcommittee. It is not always a popular bill to vote for. I think they do a good job with a difficult bill, and I am proud to say I support the bill.

I am rising because of one of the provisions I do not support right now, and that is the Senate amendment on the issue of the United Nations Fund for Population Activities.

Mr. Speaker, Members are going to have a separate opportunity to debate that issue. I want to take just a bit of time in the general debate to try to educate Members on exactly what the rather difficult issue is we are going to be facing in a few minutes.

First of all, it is important for Members to understand what we are going to be facing. After the conference report is passed we will go through the amendments in disagreement.

One of the amendments in disagreement is the Mikulski amendment from the Senate that has to do with the United Nations Fund for Population Activities.

It is our presumption that a Member on the other side of the aisle at that point will move to recede and concur to the Senate language, and we will be asking Members not to vote to recede and concur with the Senate on the issue of the Mikulski amendment, which again would permit $15 million in funding for the United Nations Funds for Population Activities.

Members need a understand what we are asking when we ask that they not vote to recede and concur to the Senate on the issue of UNFPA. First of all, we are asking Members not to change policy, not to embark in some radical new direction, but to maintain a policy that has been in effect basically since 1985.

This has been a much fought policy, but it has been developed over these many years. It is called the Kemp-Kasten language. Basically it says that the United States is not going to provide funds to international agencies that involve themselves in providing abortion and coercion abortion programs. That includes the United Nations Fund for Population Activities.

Second of all, we are asking Members to support a policy that basically has worked. At the time that this policy was enacted, the basic argument against Kemp-Kasten was that there would be no other alternative agencies available. In other words, we were told the only way that the Congress of the United States could provide support for population control activities in the Third World was to provide them through agencies that were deeply involved in many cases in the providing of abortions.

We now know after several years of experience with Kemp-Kasten that that simply is not the case. We have found it eminently possible to provide taxpayer funds to international agencies that do positive constructive work in the area of population control in Third World countries, but do not involve themselves in the practice of abortion.

One such agency is the International Planned Parenthood—Western Hemisphere, which conducts much of the planned parenthood activities through Central and South America, and which has basically removed itself from the practice of abortion, and continues to receive funds under this bill.

The point I want to make to Members is when they vote to not recede and concur to the Senate, they are not voting to cut one nickel, not one nickel, out of our country's commitment to family planning and population control activities in the Third World.

Those moneys will be provided to other well-respected, well-established agencies that have for many years been doing positive constructive work in Third World countries to enable them to pursue their own goals in terms of population control.

So there is no question of whether or not we are supporting or not supporting population control or family planning funding. If we wanted to do that, we would simply try to strike the money for family planning. There is no attempt to do that.

Members on both sides of this issue basically understand that we are going to be supporting international efforts to help Third World countries deal with their population control problems. The question is will we be supporting a brutal policy of coercion abortion in the People's Republic of China? That is exactly what the Senate is asking us to do.

This is a point that I think Members need to understand. We are being asked not to repeal Kemp-Kasten, not to say we are going to fund any population control activity across the planet, regardless of its involvement with the abortion issue. We are creating an exception. We are saying there is one program that we find so meritorious that we are going to create an exception to Kemp-Kasten, and we will allow the agency that funds that program to receive United States funds in contradiction to the policy of the last 5 years, and that agency is UNFPA, and that country we are making an exception for is China.

I would say that is offensive. I would say to Members on both sides of the issue, if you want to look at the worst possible example of a country's population control activities, the country

you would look at is the People's Republic of China.

Mr. Speaker, I ask Members to vote against the motion to recede and concur.

Mr. OBEY. Mr. Speaker, I yield myself 3 minutes.

Mr. Speaker, I would simply like to say there is one consideration I think all of us ought to keep in mind on this bill. We have heard a lot about what is happening in Eastern Europe. We are going to hear a whole lot more, because it is apparent that the world is undergoing the most fundamental change since the end of World War II.

We have a significant amount of funding in this bill for Poland and Hungary, which tries to in a small way affect the change which is now sweeping that part of the world.

Mr. Speaker, I would suggest that this bill really does not sufficiently reflect the change which is encompassing and engulfing us. I think we need to have significant new thinking applied to the question of what kind of foreign assistance the United States ought to be providing for the remainder of the century. I think that we are already late in seeing that new thinking applied.

□ 1430

The military threat which lies behind a significant portion of the money which we are providing for the Third World, in fact, has significantly changed and evaporated, and it seems to me that it is imperative that beginning with the next fiscal year the administration send down to us a foreign assistance bill which reflects the way the world is going to be, not the way the world used to be.

I would also say in that respect that I personally regret very much the fact that we have not been able to see the authorization process produce legislative changes which are needed in the Foreign Assistance Act.

Our committee is limited in what we can do because we are simply an appropriations committee, but I really do believe that Members of the other body, as well as the administration, have a special obligation because of the changing nature of the world with which we are trying to deal, to try to see to it that next year the authorization bill does in fact move forward because that is the proper vehicle in which to address the changing nature of the world which we will be experiencing over the next 5 to 10 years.

Mr. Speaker, I thought it important to state that before we vote on the conference report today.

Mr. MCHUGH. Mr. Speaker, I rise in support of H.R. 2939 and urge its adoption by the House. As with any conference report, this agreement reflects some difficult compromises and there are some items with which I disagree.

For example, I am disappointed that the conferees agreed to provide any funding for police training in El Salvador. On balance, however, the conference agreement is a good one and I commend the gentlemen from Wisconsin [Mr. OBEY] and Oklahoma [Mr. EDWARDS] for putting together a compromise all of us can support.

Mr. Speaker H.R. 2939 provides $14.6 billion in new budget authority. I am advised that it is precisely on target in terms of the 302(b) budget allocation provided to our Foreign Operations Subcommittee.

The conference report is also consistent with the budget summit agreement adopted by the administration and Congress earlier this year. Although I did not support the budget resolution reflecting that agreement because I did not believe that it dealt honestly or effectively with our massive Federal budget deficits, I believe we have an obligation to keep within the spending ceilings agreed to in the budget summit agreement. This conference agreement does so.

The bill includes funding for some new and very important initiatives. Most notably, it provides $200 million in economic support assistance for Poland, as well as an additional $200 million in trade credits for that nation. It also includes $40 million to guarantee United States investment in Poland through the Overseas Private Investment Corporation, and $50 million in enterprise funds for Poland and Hungary. Smaller amounts are provided under a number of other accounts to support the movement toward democracy in Poland and Hungary, a movement that we all enthusiastically support.

Mr. Speaker, I think that is appropriate that we are considering this conference report at the very time Lech Walesa is in the United States. He and his colleagues in Solidarity have done as much as anyone to initiate the process of change that is still unfolding in eastern Europe and for which all of us have such great hope. Passage of this bill will demonstrate in concrete terms United States support for this process.

Two other important new initiatives are funded in this bill as well. First, the conferees agreed to provide $140 million for the Enhanced Structural Adjustment Facility [ESAF] of the International Monetary Fund. This facility is designed to alleviate the debt problems of the world's poorest nations, particularly those in sub-Saharan Africa.

The conference report also includes $160 million for the Multilateral Assistance Initiative [MAI], which will be used to support democracy and economic reform in the Philippines. While the President requested $200 million for this initiative, budget constraints made it impossible to provide full funding this year. However, the conference agreement includes transfer authority that would allow the President to provide the full $200 million if he chooses to do so.

In terms of our regular accounts, I would note that funding for military assistance would be reduced modestly below the amounts we provided last year. In contrast, funding for development assistance programs would increase by more than $300 million. This reflects our continuing effort to insure a more balanced foreign assistance program.

I am particularly pleased that the conference report will substantially reduce our arrears to the multilateral development banks, and I am hopeful that the Bush administration will now respond by agreeing to support a replenishment of the International Development Association that maintains the value of the previous replenishment in real terms.

In addition, the conference report includes $35 million to fund the first installment of our contribution to the third replenishment of the International Fund for Agricultural Development [IFAD], and provides increased funding for UNICEF. Both of these programs have proven track records and enjoy broad bipartisan support in Congress. These increases deserve our support.

Funding for bilateral development programs is also increased, but whether the increase is sustained depends largely upon whether the administration goes forward with sequestration. If it does, the Agency for International Development could suffer substantial funding reductions from those recommended in this bill.

Finally, on the positive side, I am pleased to note that H.R. 2939 also includes an additional $20 million United States contribution to the International Fund for Ireland. This funding reflects our continuing support for those working to foster constructive change by peaceful means in Northern Ireland.

There are, of course, some shortcomings in this bill. As I mentioned, I am particularly disappointed that the bill includes $5 million for police training in El Salvador. While some important conditions must be met before these funds can be used, I think that events over the weekend should remind us that a purely military solution to the conflict in El Salvador is not possible. What is needed is a negotiated solution.

Unfortunately, a negotiated solution will elude us as long as abuses of human rights continue in El Salvador and as long as those responsible for those abuses are not brought to justice. To some, that might suggest the need for more police training. However, we have funded such training in the past and virtually no progress has been made in improving the criminal justice system in El Salvador.

In short, the issue is not one of imparting the necessary skills. The primary issue is one of political will, and unfortunately the Salvadoran Government seems to lack the will to take decisive steps to bring those responsible for human rights abuses to justice.

Despite these reservations, this conference report deserves the support of our colleagues, and I urge its adoption.

Mr. COLEMAN of Texas. Mr. Speaker, I rise in strong support of this conference agreement. It took a long time to produce this agreement. As a new member of the subcommittee, I will confine my remarks to a small number of subjects.

First, as the chairman has stated, the agreement keeps faith with the vast majority of House positions. On the Export-Import Bank, we have been able to retain the integrity of the programs despite the efforts of the administration and of the other body to make this another foreign military sales account. We have resisted earmarks wherever possible.

We have attempted to strike a reasonable compromise on El Salvador—and given the events of the last few days, I do not see how anyone can second guess the appropriate policy response at this point.

Members who have tried to make the case that this bill ties the President's hands on foreign policy are simply wrong. Our language says that the executive may not use the funds in this bill to break the law. This is hardly an unusual concept, but in light of revelations regarding funding for the Contras and our past policy in Honduras, it is obviously defensible and desirable.

This agreement makes good on this country's obligation to support the transformation toward democracy in Poland and Hungary. It does so while we wait for the other body to demonstrate its intentions with regards to authorizing legislation in behalf of those two nations. It offers a reasonable compromise on the new multilateral assistance initiative for the Philippines and it brings back to the House a bill which keeps faith with the budget summit agreement despite the other body's initial preference for budget scoring gimmickry.

On one issue, I want to go a little bit greater detail. This conference agreement contains a change from the original House position on our contribution to the World Bank. The bill we passed during the summer contained no funding for the U.S. general capital increase to the Bank. I strongly supported that position. Earlier this year, when the private commercial banks that are creditors of Mexico were offering resistance to the Brady plan, this House passed a resolution, House Concurrent Resolution 86. My resolution expressed the sense of the Congress that these creditor banks should recognize their obligation to an important ally and should conclude agreements to reduce Mexico's principal, reduce the interest payable on outstanding loans or provide new lending. It also said plainly that this House would not stand for putting U.S. taxpayers first in bearing the brunt of these costs.

In July, President Bush traveled to France for the economic summit and announced, along with President Salinas, that a Brady plan package had been negotiated and that the banks done right by Mexico. In August and September, we were told that negotiations had been concluded in the cases of Costa Rica and the Philippines. But disturbingly, President Salinas just 2 weeks ago stated that he was beginning to worry that the debt reduction and the new loans were not coming forward as they had been promised.

We should not pretend that the conference agreement solves all of our problems in this area. Every dollar provided in this bill for the multilateral banks could be "roundtripped" and repaid to the commercial banks. This money is fungible. There is simply no way to separate these funds. What this conference report says is that we agree with the Treasury Department that this account is an important one. We agree that if the United States wants to retain influence at the Bank, we need to be full participants. But in holding off on the callable capital contribution until a supplemental bill later in this fiscal year, it also says that we don't want to be manipulated by the creditors and our commercial banks.

I know that this conference agreement is not popular. There are already enough no votes on any foreign aid spending bill without controversy. There is already a sufficient amount of hyprocrisy here which says in effect "We need to spend money at home and not send it abroad, but if we're going to send it abroad I want to make sure it doesn't go here and it doesn't go there." I urge you to disregard that sort of rhetoric and to support this compromise.

Mr. DURBIN. Mr. Speaker, I rise today to express my concern that the moneys we are providng the Andean countries of Colombia, Bolivia, and Peru to combat the illegal drug trade may hurt, not help, the cause. I say this because the exclusive focus of our effort will be aiding the military and police forces in those countries, with no thought given to providing economic alternatives to those who are participating in the drug trade.

It is a well-established fact that the economies of the Andean countries depend heavily on the drug trade for economic growth, employment, and debt repayment. A report issued by the Department of Agriculture estimates that illegal drug exports represent between 20 and 40 percent of legal exports in the three countries. Other reports suggest that over 20 percent of GDP in these countries is attributable to coca production and processing.

As the statistics suggest, the real problem is that coca production is profitable for Andean farmers and processors, particularly compared to the alternatives. A farmer in Peru who needs to put food on the table for his family, or a middleman in Colombia who enjoys the social services provided by the drug cartels, will not stop his involvement until he is presented with other viable means of making a living.

Mr. Speaker, U.S. policy has been slow to recognize this economic reality. We have chosen to wield the stick without at the same time offering the carrot. We have sprayed dangerous herbicides on Andean coca fields in an effort to eradicate coca plants; given aid to police forces in these countries; sent our own Drug Enforcement Agency agents into the field to supervise narcotics interdiction efforts; and threatened a cut-off of foreign aid if these activities were interfered with. The one thing we have not tried is helping the Andean people to rid themselves of their economic dependence on the drug trade.

Apparently, President Bush wants to continue the failed policies of the past. While the "Andean Initiative" contemplates a 5-year commitment of $2 billion, including some economic assistance, his request for fiscal year 1990 asks only for an 11-fold increase in military and police aid—from $14.8 million to $159.5 million. Furthermore, his administration has loosened guidelines on dispensing this aid to permit United States soldiers to train Andean military and police forces outside secure areas.

Mr. Speaker, an exclusive focus on military and police aid will not work. With United States assistance, the Andean countries have destroyed thousands of acres of coca plants, confiscated thousands of kilograms of cocaine, and destroyed hundreds of processing labs and airstrips. The result: coca production has increased by 27 percent over the past 3 years and street prices in the United States have dropped by half since 1984.

Furthermore, there is a danger that such policies, because they offer no means for weaning these countries off their dependence on drugs, will be viewed simply as an attempt to force U.S. solutions to the drug problem. An exclusive focus on crop eradication and police aid will identify the U.S. with repressive policies, and will further complicate the delicate political situation in these countries.

Numerous reports have criticized this preoccupation with narcotics interdiction at the expense of economic assistance. A recent report of the House Foreign Affairs Committee notes the success of those economic development projects we have conducted in the Andean countries. Even the State Department, in its most recent International Narcotics Control Strategy Report, stated that "If we are to make a difference in cocaine control, a massive infusion of economic assistance will be needed."

Mr. Speaker, we need to hold the President to his word when it comes to providing greater economic assistance to the Andean countries. We also need to carefully monitor the administration's use of military and police aid. When the President proposes his budget for fiscal year 1991, we should examine it carefully to see whether he has presented a realistic strategy for reducing the drug trade in Colombia, Peru, and Bolivia.

If he has not presented such a plan, then I think we should push ahead with our own foreign aid strategy, one whose goal is to provide economic alternatives to the people living in the Andean countries. Specifically, we should consider providing Andean farmers with cash assistance if they agree to substitute other crops for coca, and technical assistance to help them grow new crops and locate markets for them. We should also think about allocating money to build roads from the growing regions in these countries to the large urban distribution centers. In all three countries, the price of producing and marketing crops is driven up by the lack of transportation networks; the drug cartels avoid this problem by using small planes.

Mr. Speaker, the problems facing this country and the three Andean countries in stemming the flow of illegal drugs are enormous. Any policy will be difficult to implement, and it may take some time before the results show. But we do know that our current policy of relying on military and police aid to win the day is a bust. It is time to admit that the roots of the problem are economic, and fashion a strategy to address them. I hope my colleagues will join me in working toward that end in the future.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. OBEY. Mr. Speaker, I have no further requests for time, and I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER pro tempore (Mr. HAYES of Louisiana). The question is on the conference report.

The question was taken, and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. SOLOMON. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 324, nays 93, not voting 16, as follows:

□ 1452

Messrs. MOLLOHAN, STUMP, BUNNING, GAYDOS, and STANGELAND changed their vote from "yea" to "nay."

Messrs. DOUGLAS, DREIER of California, THOMAS of Wyoming, Mrs. VUCANOVICH, and Mr. COX changed their vote from "nay" to "yea."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

AMENDMENTS IN DISAGREEMENT

The SPEAKER pro tempore (Mr. HAYES of Louisiana). The Clerk will designate the first amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 3: Page 3, line 4, strike out "$30,800,000" and insert "$26,250,000".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 3, and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert: "$24,544,000".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma.

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

Mr. OBEY. Mr. Speaker, I ask unanimous consent that Senate numbered amendments 4, 20, 21, 24, 25, 26, 33, 49, 64, 65, 66, 67,76, 79, 86, 87, 89, 97, 111, 113, 120, 124, 126, 127, 128, 131, 134, 135, 136, 139, 140, 142, 146, 149, 154, 156, 160, 161, 162, 163, 167, 168, 179, 180, 211, 215, 216, 221, 224, 233, 234, 257, 259, 260, 262, 263, 270, 281, be considered en bloc, and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The texts of the various Senate amendments referred to in the unanimous-consent request are as follows:

Senate amendment No. 4: Page 3, line 9, after "share" insert "of the paid-in share portion of the increase in capital stock, $31,617,983, and for the United States share".

Senate amendment No. 20: Page 12, after line 23 insert:

INTERNATIONAL AIDS PREVENTION AND CONTROL PROGRAM

For necessary expenses to carry out the provisions of chapter 1 of part I of the Foreign Assistance Act of 1961, $42,000,000, which shall be made available only for activities relating to research on, and the

treatment and control of, acquired immune deficiency syndrome (AIDS) in developing countries: Provided, That of the funds made available under this heading $21,000,000 shall be provided directly to the World Health Organiztion for its use in financing the Global Program on AIDS, including activities implemented by the Pan American Health Organization.

Senate amendment No. 21: Page 12, after line 23, insert:

CHILD SURVIVAL FUND

For necessary expenses to carry out the provisons of section 104(c)(2), $71,000,000.

Senate amendment No. 24: Page 12, after line 23, insert:

SCIENCE AND TECHNOLOGY, DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of section 106, $8,662,000.

Senate amendment No. 25: Page 12, after line 23, insert:

MICRO-ENTERPRISE DEVELOPMENT

Of the funds appropriated by this Act to carry out chapter 1 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961, not less than $75,000,000 shall be made available for programs of credit and other assistance for micro-enterprises in developing countries: *Provided,* That local currencies which accrue as a result of assistance provided to carry out the provisions of the Foreign Assistance Act of 1961 and the Agricultural Trade Development and Assistance Act of 1954 may be used for assistance for micro-enterprises: Provided further, That such local currencies which are used for this purpose shall be in lieu of funds earmarked under this heading and shall reduce the amount earmarked for assistance for micro-enterprises by an equal amount.

Senate amendment No. 26: Page 12, line 26, strike out all after "appropriated" over to and including "Assistance", "in line 1 on page 13 and insert "by this Act to carry out chapter 1 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961,".

Senate amendment No. 33: Page 14, line 22, strike out all after "Funds" down to and including "Assistance" " in line 25, and insert "appropriated to carry out chapter 1 of part I which are allocated for Zaire".

Senate amendment No. 49: Page 21, line 6, after "assistance" insert ": *Provided further,* That sufficient Egyptian pounds generated from funds made available under this heading or any other heading of this Act shall be made available to the United States pursuant to the United States-Egypt Economic, Technical and Related Assistance Agreements of 1978 (which provide for local currency requirement for programs of the United States in Egypt to be made available to the United States in the manner requested by the United States Government), to enable the United States Embassy in Cairo to restore the endowment entitled "U.S. Government Trustee" to the Egyptian pound equivalent level, at the commercial rate of exchange, of $50,000,000, the level of endowment established by Congress in Public Law 99-88: *Provided further,* That an additional 20,000,000 Egyptian pounds generated from the same sources shall be made available pursuant to the same agreements to enable the United States Embassy in Cairo to establish an endowment to support other United States educational programs in Egypt".

Senate amendment No. 64: Page 23, line 12, strike out all after "the" down to and including "to" in line 14 and insert: "regular notification procedures of".

Senate amendment No. 65: Page 24, line 2, strike out all after "procedures" down to and including "1961" in line 3 and insert: "of the Committees on Appropriations".

Senate amendment No. 66: Page 24, line 9, strike out all after "prior" down to and including "priations" in line 11 and insert: "foreign assistance appropriations".

Senate amendment No. 67: Page 24, line 13, after "1988" insert ": *Provided further,* That not less than $5,000,000 of the funds appropriated under this heading shall be made available, notwithstanding any other provision of law, for the humanitarian relief, medical treatment, education and vocational training of victims of the Armenian earthquake of December 7, 1988, which amount shall be channeled through United States private and voluntary organizations and other United States nongovernmental organizations".

Senate amendment No. 76: Page 26, line 5, strike out all after "dures" down to and including "1961" in line 6 and insert "of the Committees on Appropriations.".

Senate amendment No. 79: Page 28, line 3, after "principal" insert ": *Provided,* That not less than $40,000,000 of such amount shall be used for projects for Poland, notwithstanding any other provision of law".

Senate amendment No. 86: Page 30, line 1, after "Assistance" insert ": *Provided further,* That of the funds appropriated under this heading not less than $1,500,000 shall be made available for a Thailand-Cambodia border refugee protection program".

Senate amendment No. 87: Page 30, line 1, after "Assistance" insert ": *Provided further,* That of the funds appropriated under this heading not less than $1,500,000 shall be made available for the antipiracy program, none of which funds shall be used by any government to deny asylum to individuals seeking asylum".

Senate amendment No. 89: Page 30, line 1, after "Assistance" insert ": *Provided further,* That not less than $10,000,000 shall be made available to the Republic of Turkey for assistance for shelter, food and other basic needs to ethnic Turkish refugees fleeing the People's Republic of Bulgaria and resettling on the sovereign territory of Turkey".

Senate amendment No. 97: Page 33, line 8, strike out "Funds" and insert "Of the funds".

Senate amendment No. 111: Page 34, line 8, strike out all after "procedures" down to and including "1961" in line 9 and insert "of the Committees on Appropriations".

Senate amendment No. 113: Page 34, line after "heading" insert "*Provided further,* That section 515(d) of the Foreign Assistance Act of 1961 is amended by inserting immediately after the word "chapter" the phrase "or the Arms Export Control Act", and section 636(g) of that Act is amended by inserting immediately after the phrase "for the purposes of part II" the phrase "or the Arms Export Control Act" ".

Senate amendment No. 120: Page 38, line 14, after "purposes" insert "and $20,000,000 of the funds made available for interest subsidy payments".

Senate amendment No. 124: Page 43, line 11, after "Act" insert "for general costs of administering military assistance and sales".

Senate amendment No. 126: Page 44, line 23, after "Syria" insert ": *Provided,* That for purposes of this section, the prohibition on obligations or expenditures shall include direct loans, credits, insurance and guarantees of the Export-Import Bank or its agents".

Senate amendment No. 127: Page 44, line 23, after "Syria" insert ": *Provided further,* That such prohibition shall not apply to the Export-Import Bank or its agents if in the judgment of the President its application is not in the national interest of the United States and so reports to Congress".

Senate amendment No. 128: Page 45, line 11, after "appropriated" insert, unless the President, prior to the exercise of any authority contained in the Foreign Assistance Act of 1961 to transfer funds, consults with and provides a written policy justification to the Committees on Appropriations of the House of Representatives and the Senate. *Provided further,* That the exercise of such authority shall be subject to the regular notification procedures of the Committees on Appropriations".

Senate amendment No. 131: Page 46, line 1, strike out all after "with" down to and including "1961" in line 2 and insert "regular notification procedures of the Committees on Appropriations".

Senate amendment No. 134: Page 49, strike out all after line 20 over to and including "advance" in line 18 on page 50 and insert:

SEC. 523. For the purposes of providing the Executive Branch with the necessary administrative flexibility, none of the funds made available under this Act for "Agriculture, rural development, and nutrition, Development Assistance", "Population, Development Assistance", "Child Survival Fund", "Health, Development Assistance", "International AIDS Prevention and Control Program", "Education and human resources development, Development Assistance", "Private Sector, environment, and energy, Development Assistance", "Science and technology, Development Assistance", "Sub-Saharan Africa, Development Assistance", "International organizations and programs", "American schools and hospitals abroad", "Trade and development program", "International narcotics control", "Economic support fund", "Peacekeeping operations", "Operating expenses of the Agency for International Development", "Operating expenses of the Agency for International Development Office of Inspector General", "Anti-terrorism assistance", "Foreign Military Financing Program", "International military education and training", "Inter-American Foundation", "African Development Foundation", "Peace Corps", or "Migration and refugee assistance", shall be available for obligation for activities, programs, projects, type of materiel assistance, countries, or other operation not justified or in excess of the amount justified to the Appropriations Committees for obligation under any of these specific headings for the current fiscal year unless the Appropriations Committees of both Houses of Congress are previously notified fifteen days in advance.

Senate amendment No. 135: Page 50, line 23, strike out all after "defense" over to and including "ammunition" in line 1 on page 51, and insert "equipment, other than conventional ammunition, or other major defense items defined to be aircraft, ships, missiles, or combat vehicles".

Senate amendment No. 136: Page 51, line 4, strike out all after *"further,"* down to and including "lower" in line 20, and insert That this section shall not apply to any reprogramming for an activity, program, or project under chapter 1 of part I of the Foreign Assistance Act of 1961 of less than 20 per centum of the amount previously justified to the Congress for obligation for such

activity, program, or project for the current fiscal year".

Senate amendment No. 139: Page 52, line 18, strike out all after "procedures" down to and including "1961" in line 19 and insert "of the Committees on Appropriations".

Senate amendment No. 140: Page 52, after line 26, insert:

(b) The United States shall not make any voluntary or assessed contribution—

(1) to any affiliated organization of the United Nations which grants full membership as a state to any organization or group that does not have the internationally recognized attributes of statehood, or

(2) to the United Nations, if the United Nations grants full membership as a state in the United Nations to any organization or group that does not have the internationally recognized attributes of statehood,

during any period in which such membership is effective.

Senate amendment No. 142: Page 55, after line 22, insert:

(2) Section 530 of the Foreign Assistance and Related Programs Appropriations Act, 1985 (Public Law 98-473, 98 Stat. 1837).

Senate amendment No. 146: Page 56, line 2, strike out "1937" and insert "1987".

Senate amendment No. 149: Page 56, line 11, strike out "1988" and insert "1989".

Senate amendment No. 154: Page 59, line 25, after "projects" insert ", or projects with potential significant environmental impacts,".

Senate amendment No. 156: Page 60, line 12, after "proposed" insert "projects with significant potential environmental impacts, or".

Senate amendment No. 160: Page 61, after line 10, insert:

(9) seek the convening of a special seminar for board members and senior staff of each MDB concerning alternate energy investment opportunities and end-use energy efficiency and conservation.

Senate amendment No. 161: Page 63, after line 18, insert:

(4)(A) Section 119(b) of the Foreign Assistance Act of 1961 is amended by inserting ", notwithstanding section 660," after "this part".

(B) Not less than $10,000,000 of the funds appropriated to carry out the provisions of sections 103 through 106 of such Act (including funds for sub-Saharan Africa) shall be made available for biological diversity activities, of which $2,000,000 shall be made available for the Parks in Peril project, pursuant to the authority of section 119(b) and $1,000,000 shall be available for the National Science Foundation's international biological diversity program.

(C) Funds obligated in prior fiscal years pursuant to the authority of section 119(b) may be expended in fiscal year 1990 pursuant to the authority of such section as amended by subparagraph (A).

Senate amendment No. 162: Page 63, after line 18, insert:

(e) The Secretary of the Treasury shall—

(1) instruct the United States Executive Directors to the International Bank for Reconstruction and Development, the International Development Association, the Inter-American Development Bank, the African Development Bank, the Asian Development Bank, and the International Monetary Fund, to actively support lending portfolios which allow debtor developing countries to reduce or restructure debt in concert with the sustainable use of their natural resources. As a part of any such debt restructing program, the United States Executive Director should require a thorough review of opportunities this initiative may offer for providing additional financial resources for the management of natural resources. The Secretary shall submit a report to the Committees on Appropriations on the progress of this program by April 30, 1990;

(2) instruct the United States Executive Directors to the international financial institutions to seek the support of other donor countries in the implementation of this policy; and

(3) instruct the United States Executive Director to the International Bank for Reconstruction and Development to actively seek the implementation by the World Bank of the recommendations set forth in its April 1, 1988, report on "Debt-for-Nature swaps", including the setting up of a pilot debt-for-nature swap program in one or more interested countries. The Secretary shall submit a progress report on the implementation of this program to the Committees on Appropriations by April 1, 1990.

(f) The Secretary of the Treasury shall seek to incorporate natural resource management initiatives throughout the implementation of the Brady Plan. The Secretary shall submit to the Committees on Appropriations a report by April 15, 1990, describing how such initiatives have been incorporated into the Brady Plan and identifying any such initiatives undertaken to date.

(g) The Secretary of the Treasury shall instruct the United States Executive Director to the Inter-American Development Bank to—

(1) seek implementation of the environmental reform measures agreed to as part of the Bank's 7th Replenishment;

(2) seek adoption of Bank policies regarding indigenous people, relations with nongovernmental organizations, and the protection of wildlife and unique natural and cultural features;

(3) require the Bank to demonstrate how it has improved, and will improve, the monitoring of environmental and social components of loans; and

(4) within four months after the date of enactment of this Act report to the Commitees on Appropriations on the progesss the Bank has made in implementing each of these reforms.

Senate amendment No. 163: Page 63, after line 18, insert:

GLOBAL WARMING INITIATIVE

SEC. 534. (a) TROPICAL FORESTRY ASSISTANCE.—(1) In order to achieve the maximum impact from activities relating to tropical forestry, the Agency for International Development shall focus tropical forestry assistance programs on the key middle- and low-income developing countries (hereinafter "key countries") which are projected to contribute large amounts of greenhouse gases related to global warming as a result of industrialization and the burning of fossil fuels, and destruction of tropical forests.

(2) Funds appropriated to carry out the provisions of sections 103 and 106 of the Foreign Assistance Act of 1961, as amended, may be used by the Agency for International Development, notwithstanding any other provision of law, for the purpose of supporting tropical forestry programs aimed at reducing emissions of greenhouse gases with regard to the key countries in which deforestation makes a significant contribution to global warming, except that such assistance shall be subject to sections 116, 502B, and 620A of the Foreign Assistance Act of 1961.

(3) In providing assistance relating to tropical forests, the Administrator of that Agency shall, to the extent feasible and appropriate, assist countries in developing a systematic analysis of the appropriate use of their total tropical forest resources, with the goal of developing a national program for sustainable forestry.

(b) ENERGY ASSISTANCE.—(1) In order to achieve the maximum impact from activities relating to energy, the Agency for International Development shall focus energy assistance activities on the key countries, where assistance would have the greatest impact on reducing emissions from greenhouse gases. Such assistance shall be focused on improved energy efficiency, increased use of renewable energy resources and national energy plans (such as least-cost energy plans) which include investment in end-use efficiency and renewable energy resources.

(2) Funds appropriated to carry out the provisions of sections 103 and 106 of the Foreign Assistance Act of 1961, as amended, may be used by the Agency for International Development, notwithstanding any other provision of law, for the purpose of supporting energy programs aimed at reducing emissions of greenhouse gases related to global warming with regard to the key countries, except that such assistance shall be subject to sections 116, 502B, and 620A of the Foreign Assistance Act of 1961.

(3) It is the sense of the Congress that the Agency for International Development should increase its efforts in the fields of energy efficiency, renewable energy, and energy planning. Such increase should take place with respect to key countries and countries with large Economic Support Fund project assistance. Such efforts should include—

(A) an increase in the number of Agency for International Development staff with energy expertise, including staff with expertise in renewable energy technologies and end-use efficiency;

(B) assistance to develop analyses of energy-sector actions that could minimize emissions of greenhouse gases at least cost, while at the same time meeting basic economic and social development needs. Such assistance should include country-specific analyses which compare the economic and environmental costs of actions to promote energy efficiency and nonconventional renewable energy with the economic and environmental costs of investments to provide additional conventional energy supplies;

(C) assistance to develop energy-sector plans that employ end-use analysis and other techniques to identify the most cost-effective actions to minimize increased reliance on fossil fuels, ensuring to the maximum extent feasible that nongovernmental organizations and academic institutions are involved in this planning;

(D) insuring that AID energy assistance—including support for private-sector initiatives—is consistent with the analyses and plans described in subparagraphs (B) and (C) above, and that environmental impacts (including that on global warming) and alternatives have been fully analyzed;

(E) assistance to improve efficiency in the production, transmission, distribution and use of energy. Such assistance should focus on the development of institutions to (i) promote energy efficiency in all sectors of energy production and use, (ii) provide training and technical assistance to help energy producers and users identify cost-effective actions to improve energy efficiency, (iii) finance specific investments in energy efficiency in all sectors of energy production

and use, and (iv) improve local capabilities in the research, development, and sale of energy efficient technologies;

(F) assistance in exploiting nonconventional renewable energy resources, including wind, solar, small-hydro, geothermal, and advanced biomass systems. This assistance should also promote efficient use of traditional biomass fuels through improved fuelwood management and improved methods of charcoal production;

(G) expanding efforts to meet the energy needs of the rural poor through the methods described in subparagraphs (E) and (F). Specifically these efforts should promote improved efficiency in the use of biomass fuels for household energy, improved systems of fuelwood management, and the development of the non-conventional renewable energy systems described in subparagraph (F);

(H) encouraging host countries to sponsor meetings with officials from the United States utility sector who are leaders in energy efficiency and other United States experts to discuss the application of least-cost planning techniques;

(I) developing a cadre of United States experts from industry, academia, nonprofit organizations, and government agencies capable of providing technical assistance to developing countries concerning energy policy and planning, energy efficiency and renewable energy resources;

(J) in cooperation with the Department of Energy, the Environmental Protection Agency, the World Bank, and the Development Assistance Committee of the OECD, supporting research concerning the ways developing nations can meet their energy needs while minimizing global warming and how to meet those needs; and

(K) strengthening the Agency for International Development's partnership with the Department of Energy in order to ensure that the Agency's energy efforts take full advantage of United States expertise and technology.

(c) REPORTS AND AUTHORITIES.—(1) The Agency for International Development, in consultation with the Environmental Protection Agency (EPA), the Department of State, and other appropriate agencies, shall submit to Congress no later than April 15, 1990, a report which (1) examines the potential contributions of developing countries to future global emissions of greenhouse gases under different economic growth scenarios, (2) estimates the relative contributions of those countries to global greenhouse gas emissions, and (3) identifies specific key countries which stand to contribute significantly to global greenhouse gas emissions, and in which actions to promote energy efficiency, reliance on renewable energy resources, and conservation of forest resources could significantly reduce emissions of greenhouse gases. This report should utilize existing data, including the models and methodologies already developed by the EPA for their report to Congress on policy options for stabilizing global climate.

(2) Of the funds appropriated to carry out the provisions of sections 103 and 106 of the Foreign Assistance Act of 1961, as amended, the Agency for International Development may use such amounts as may be necessary to reimburse United States Government agencies, agencies of State governments, and institutions of higher learning for the full costs of employees detailed or assigned to the Agency for International Development for the purpose of carrying out activities relating to forestry and energy programs aimed at reducing emissions of greenhouse gases related to global warming. Personnel who are detailed or assigned for the purposes of this section shall not be included within any personnel ceiling applicable to any United States Government agency during the period of detail or assignment.

Senate amendment No. 167: Page 64, line 23, after "Act," insert "not less than".

Senate amendment No. 168: Page 64, line 23, strike out "may" and insert "shall".

Senate amendment No. 179: Page 67, line 12, after "Sudan," insert "Uganda,".

Senate amendment No. 180: Page 67, line 14, strike out all after "procedures" down to and including "1961" in line 15 and insert "of the Committees on Appropriations".

Senate amendment No. 211: Page 78, line 14, strike out all after "procedures" down to and including "1961" in line 15 and insert "of the Committees on Appropriations".

Senate amendment No. 215: Page 80, after line 11, insert:

(9) assistance necessary for the control and eradication of swine flu.

Senate amendment No. 216: Page 80, line 14, strike out all after "procedures" down to and including "1961" in line 16, and insert "of the Committees on Appropriations".

Senate amendment No. 221: Page 85, line 14, strike out "564(a)" and insert "561(a)".

Senate amendment No. 224: Page 87, line 1, strike out all after "procedures" down to and including "1961" in line 2 and insert "of the Committees on Appropriations".

Senate amendment No. 233: Page 89, line 8, after "to" insert any".

Senate amendment No. 234: Page 89, line 9, strike out "earmarked" and insert "provided".

Senate amendment No. 257: Page 100, strike out line 15 and insert:

DEBT-FOR-DEVELOPMENT

Senate amendment No. 259: Page 100, line 16, strike out "A" and insert "in order to enhance the continued participation of nongovernmental organizations in economic assistance activities under the Foreign Assistance Act of 1961, including debt-for-development and debt-for-nature exchanges, a".

Senate amendment No. 260: Page 100, line 20, after "used" insert ", including for the establishment of an endownment,".

Senate amendment No. 262: Page 100, line 23, strike out all after "act" over to and including "sistence"," in line 1 on page 101 and insert "to carry out chapter 1 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961".

Senate amendment No. 263: Page 101, line 2, after "Lebanon" insert ": *Provided,* That such funds may be provided in accordance with the general authorities contained in section 491 of the Foreign Assistance Act of 1961".

Senate amendment No. 270: Page 101, after line 20, insert:

(b) Section 514 of the Foreign Assistance Act of 1961 (22 U.S.C. 2321h) is amended—

(1) in subsection (b)(1), by striking out "greater than" and inserting in lieu thereof "that"; and

(2) in subsection (b)(2), by striking out "$77,000,000 for fiscal year 1989" and inserting in lieu thereof "$165,000,000 for fiscal year 1990."

Senate amendment No. 281: Page 102, after line 20 insert:

ELIGIBILITY OF POLAND AND HUNGARY FOR OVERSEAS PRIVATE INVESTMENT CORPORATION

SEC. 597. (a) PROGRAMS.—Section 239(f) of the Foreign Assistance of 1961 is amended by inserting "Poland, Hungary," after "Yugoslavia,".

(b) PARTICIPATION BY NONGOVERNMENTAL SECTOR.—(1) In accordance with its mandate to foster private initiative and competition and enhance the ability of private enterprise to make its full contribution to the development process, the Overseas Private Investment Corporation shall support projects in Poland and Hungary which will result in enhancement of the nongovernmental sector and reduction of state involvement in the economy.

(2) For purposes of this subsection, the term "nongovernmental sector" in Poland and Hungary includes private enterprises, cooperatives (insofar as they are not administered by the Governments of Poland or Hungary), joint ventures (including partners which are not the Governments of Poland or Hungary or instrumentalities thereof), businesses in Poland or Hungary that are wholly or partly owned by United States citizens, including those of Polish or Hungarian descent, religious and ethnic groups (including the Catholic Church), and other independent social organizations.

(c) DEFINITION OF ELIGIBLE INVESTOR.—Notwithstanding subsection (b), the term "eligible investor" with respect to OPIC's programs in Poland and Hungary has the same meaning as contained in section 238(c) of the Foreign Assistance Act of 1961.

(d) EFFECTIVE DATE.—The authority of the Overseas Private Investment Corporation to issue insurance, reinsurance, guarantees, and to provide any assistance under its direct loan and equity programs with respect to projects undertaken in Poland and Hungary shall take effect upon the date of enactment of this Act and shall remain in effect until September 30, 1992.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreements to the amendments of the Senate numbered 4, 20, 21, 24, 25, 26, 33, 49, 64, 65, 66, 67, 76, 79, 86, 87, 89, 97, 111, 113, 120, 124, 126, 127, 128, 131, 134, 135, 136, 139, 140, 142, 146, 149, 154, 156, 160, 161, 162, 163, 167, 168, 179, 180, 211, 215, 216, 221, 224, 233, 234, 257, 260, 262, 263, 270, 281, and concur therein.

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 6: Pages 3, lines 11 and 12, strike out : "*Provided,*" and insert ": *Provided,* That the funds made available under this heading shall be withheld from obligation until January 1, 1990: *Provided further,* That such funds withheld from obligation may be obligated after January 1, 1990, only if the President certifies that the Board of Governors of the Inter-American Development Bank has adopted a resolution providing that any recipient of any assistance provided by the institution must agree in writing that any procurement of goods or services to be procured with such assistance shall be conducted in a manner that does not discriminate against any United States person interested in providing such goods or services. *Provided further,* That should the Board of Governors of the Inter-American Development Bank fail to adopt such a resolution, the Secretary of the Treasury shall instruct the United States Executive Direc-

tor of the Inter-American Development Bank to use the voice and vote of the United States to oppose any assistance by the institution using funds appropriated or made available pursuant to this or any other Act unless the recipient of assistance agrees in writing that any procurement of goods or services to be procured with such assistance shall be conducted in a manner that does not discriminate against any United States person interested in providing such goods or services: *Provided further,*".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 6, and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert ": *Provided,* That the funds made available under this heading shall be withheld from obligation until the Secretary of the Treasury certifies that the Board of Executive Directors of the Inter-American Development Bank has adopted policies to ensure that all recipients of assistance must agree in writing that in general any procurement of goods or services utilizing Bank funds shall be conducted in a manner that does not discriminate on the basis of nationality against any member country, firm or person interested in providing such goods or services: *Provided further,* That the Secretary of the Treasury shall instruct the United States Executive Director of the Inter-American Development Bank to use the voice and vote of the United States to oppose any assistance by the Bank to any recipient of assistance who refuses to agree in writing that in general any procurement of goods or services utilizing Bank funds shall be conducted in a manner that does not discriminate on the basis of nationality against any member country, firm or person interested in providing such goods or services: *Provided further*".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 8: Page 5, after line 4, insert:

CONTRIBUTION TO THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT

For payment to the International Bank for Reconstruction and Development by the Secretary of the Treasury, for the United States share of the paid-in share portion of the increases in capital stock, for the General Capital Increase, $50,000,795, to remain available until expended: *Provided,* That no such payment may be made while the United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code: *Provided,* That no funds provided to El Salvador under this Act shall be conditioned on any requirement that El Salvador accept any settlement with the FMLN guerrillas which violates the democratic constitution of El Salvador of 1983.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 8, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

CONTRIBUTION TO THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT

For payment to the International Bank for Reconstruction and Development by the Secretary of the Treasury, for the United States share of the paid-in share portion of the increases in capital stock, for the General Capital Increase, $50,000,795, to remain available until expended: *Provided,* That no such payment may be made while the United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while the alternate United States Executive Director to the Bank is compensated by the Bank at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 12: Page 8, strike out lines 8 to 15.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 12, and concur therein with an amendment, as follows: Restore the matter stricken by said amendment, amended to read as follows:

CONTRIBUTION TO THE ENHANCED STRUCTURAL ADJUSTMENT FACILITY OF THE INTERNATIONAL MONETARY FUND

For payment to the Interest Subsidy Account of the Enhanced Structural Adjustment Facility of the International Monetary Fund, $140,000,000 to remain available until expended: *Provided,* That such funds are available subject to authorization: *Provided further,* That none of the funds made available by this paragraph shall be available for obligation or disbursement until the Secretary of the Treasury has assured the Committees on Appropriations in writing that the current policy of the International Monetary Fund (IMF) and the United States Government requiring that all congressional inquiries to IMF employees be cleared through the office of the United States Executive Director of the IMF has been reversed thereby allowing unmonitored and unfettered contact between Congress and IMF employees.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 13: Page 8, strike out all after line 16 over to and including line 18 on page 9 and insert:

For necessary expenses to carry out the provisions of section 301 of the Foreign Assistance Act of 1961, and of section 2 of the United Nations Environment Program Participation Act of 1983, $241,125,000: *Provided,* That no funds shall be available for the United Nations Fund for Science and Technology: *Provided further,* That the total amount of funds appropriated under this heading shall be made available only as follows: $109,630,000 for the United Nations Development Program; $65,000,000 for the United Nations Children's Fund; $980,000 for the World Food Program; $1,500,000 for the United Nations Capital Development Fund; $800,000 for the United Nations Voluntary Fund for the Decade for Women; $200,000 for the United Nations International Research and Training Institute for the Advancement of Women; $100,000 for the Intergovernmental Panel on Climate Change; $2,000,000 for the International Convention and Scientific Organization Contributions; $2,000,000 for the World Meterological Organization Voluntary Cooperation Program; $22,000,000 for the International Atomic Energy Agency; $10,000,000 for the United Nations Environment Program; $800,000 for the United Nations Educational and Training Program for Southern Africa; $500,000 for the United Nations Trust Fund for South Africa; $650,000 for the Convention on International Trade in

Endangered Species; $220,000 for the World Heritage Fund; $100,000 for the United Nations Voluntary Fund for Victims of Torture; $245,000 for the United Nations Fellowship Program; $400,000 for the United Nations Center on Human Settlements; $500,000 for the UNIDO Investment Promotion Service; $10,000,000 for the Organization of American States; and $13,500,000 for the United Nations Emergency Trust Fund for Afghanistan: *Provided further,* That funds appropriated under this heading may be made available for the International Atomic Energy Agency only if the Secretary of State determines (and so reports to the Congress) that Israel is not being denied its right to participate in the activities of that Agency.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 13, and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment insert the following:

For necessary expenses to carry out the provisions of sections 301 and 103(g) of the Foreign Assistance Act of 1961, and of section 2 of the United Nations Environment Program Participation Act of 1983, $265,115,000: *Provided,* That no funds shall be available for the United Nations Fund for Science and Technology: *Provided further,* That the total amount of funds appropriated under this heading shall be made available only as follows: $109,510,000 for the United Nations Development Program; $65,400,000 for the United Nations Children's Fund, of which amount 75 per centum (less amounts withheld consistent with section 307 of the Foreign Assistance Act of 1961 and section 526 of this Act) shall be obligated and expended no later than thirty days after the date of enactment of this Act and 25 per centum of which shall be extended within thirty days from the start of the United Nations Children's Fund fourth quarter of operations for 1990; $980,000 for the World Food Program; $1,500,000 for the United Nations Capital Development Fund; $800,000 for the United Nations Voluntary Fund for the Decade for Women; $200,000 for the United Nations International Research and Training Institute for the Advancement of Women; $100,000 for the Intergovernmental Panel on Climate Change; $2,000,000 for the International Convention and Scientific Organization Contributions; $2,000,000 for the World Meteorological Organization Voluntary Cooperation Program; $22,000,000 for the International Atomic Energy Agency; $12,000,000 for the United Nations Environment Program; $800,000 for the United Nations Educational and Training Program for Southern Africa; $110,000 for the United Nations Institute for Namibia; $500,000 for the United Nations Trust Fund for South Africa; $750,000 for the Convention on International Trade in endangered Species; $220,000 for the World Heritage Fund; $100,000 for the United Nations Voluntary Fund for Victims of Torture; $245,00 for the United Nations Fellowship Program; $400,000 for the United Nations Center on Human Settlements; $500,000 for the UNIDO Investment Promotion Service; $10,000,000 for the Organization of American States; and $35,000,000 for United States contributions to the third replenishment of the International Fund for Agricultural Development: *Provided,* That none of the funds appropriated under this heading shall be made available for the International Fund for Agricultural Development until agreement has been reached on the third replenishment of the Fund: *Provided further,* That funds appropriated under this heading may be made available for the International Atomic Energy Agency only if the Secretary of State determines (and so reports to the Congress) that Israel is not being denied its right to participate in the activities of that Agency.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY.]

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate Amendment No. 15: Page 10, strike out all after line 1, over to and including line 16 on page 11, and insert:

AGRICULTURE, RURAL DEVELOPMENT, AND NUTRITION, DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of section 103, $483,715,000: *Provided,* That up to $5,000,000 shall be provided for new development projects of private entities and cooperatives utilizing surplus dairy products: *Provided further,* That not less than $8,000,000 shall be provided for the Vitamin A Deficiency Program: *Provided further,* That, notwithstanding any other provision of law, up to $10,000,000 of the funds appropriated under this heading shall be made available, and remain available until expended, for agricultural activities in Poland which are managed by the Polish Catholic Church or other nongovernmental organizations.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 15, and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert:

AGRICULTURE, RURAL DEVELOPMENT AND NUTRITION, DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of section 103, $483,715,000: *Provided,* That up to $5,000,000 shall be provided for new development projects of private entities and cooperatives utilizing surplus dairy products: *Provided further,* That not less than $8,000,000 shall be provided for the Vitamin A Deficiency Program: *Provided further,* That, notwithstanding any other provision of law, up to $10,000,000 of the funds appropriated under this heading shall be made available, and remain available until expended, for agricultural activities in Poland which are managed by the Polish Catholic Church or other nongovernmental organizations: *Provided further,* That not less than $1,000,000 shall be available for a Farmer-to-Farmer program for Poland, notwithstanding any other provision of law.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 17: Page 11, line 25, after "zation" insert ": *Provided further,* That notwithstanding the previous proviso, not less than $15,000,000 of the funds appropriated under this heading shall be made available only for the United Nations Population Fund: *Provided further,* That the United Nations Population Fund shall be required to maintain these funds in a separate account and not commingle them with any other funds: *Provided further,* That none of the funds made available under this heading for the United Nations Population Fund shall be made available for programs for the People's Republic of China".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 17, and concur therein.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

Mr. WEBER. Mr. Speaker, I demand that the question be divided.

The SPEAKER pro tempore. The question will be divided.

The gentleman from Wisconsin [Mr. OBEY] will be recognized for 30 minutes, and the gentleman from Oklahoma [Mr. EDWARDS] will be recognized for 30 minutes.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I ask unanimous consent that the 30 minutes allotted to me may be controlled by the gentleman from New Jersey [Mr. SMITH].

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The gentleman from New Jersey [Mr. SMITH] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Wisconsin [Mr. OBEY].

Mr. OBEY. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, this issue is a close call. I have no doubt that the Chinese population program is a coercive program. I am frankly deeply troubled by the United Nation's description of it as noncoercive.

My instinct, however, would be that the most effective way for the United States to deal with the problem would be for us to pay our dues, weigh in, and exert leadership for change if we want to change the way the United Nations program affects the China program. That is what I would urge the President to consider as a more effective alternative come next year.

Meanwhile, I personally feel required to support the original position of the House, as an agent of the House, and so while the motion at the desk is to recede and concur, I will vote against receding when the motion comes.

Mr. SMITH of New Jersey. Mr. Speaker, I yield 3 minutes to the gentleman from Minnesota [Mr. WEBER].

Mr. WEBER. Mr. Speaker, I thank the gentleman from New Jersey for yielding me this time.

First of all, I want to commend the distinguished chairman of the subcommittee again for his good work on the bill and commend the gentleman for taking the position that he has just articulated.

I urge the rest of the membership to join the chairman and the ranking member of the subcommittee in voting against the motion to rescind to the Senate position on the question of the Mikulski amendment.

I have already had a chance to speak on this issue in general debate, so I will limit my comments rather considerably. The point that I want to make about this particular policy in China is that this ought to be a policy vote that unites Members. I understand that it will not be. This ought to be a vote that unites Members on different sides of the very difficult issue of abortion, although I realize that will not happen.

Prolife Members obviously are going to be opposed to the motion to recede because they are opposed to the China policy of coercive abortion.

My point is that Members on the other side of the issue, Members who articulate their position as a prochoice position, ought to find common ground with us in this one area, because the Chinese policy is anything but a choice policy. Millions of women, 50-some million women so far in China have been denied the choice that they would make of bringing their pregnancy to term and giving birth to the baby because of the coercive abortion policy of the Chinese.

In Tibet, the policy is that much more vicious because the Tibetan people do not cooperate with the Chinese Government, and so in many cases it has been verified that in Tibet the policy of coercive abortion of the Chinese Government becomes a policy of coercive infanticide, where the child is actually killed upon birth.

This is not a policy that anyone in this body wants to support, and yet the United Nations Fund for Population Activities not only continues to support it, but gave it its highest award, gave it an award for population control.

The Members should not be rewarding the United Nations Fund for Population Activities for, first, supporting this policy, and second, giving it an award for international excellence.

Finally, let me just say to the Members, the President's position on this is clear. Members who are concerned about expediting the passage and signature of this bill into law ought to be aware that the President has communicated to the ranking member on October 6, and I will quote from his letter to the gentleman from Oklahoma:

> As you know, on September 20th the Senate narrowly adopted the Mikulski Amendment to the Foreign Operations Appropriations bill for Fiscal Year 1990. The Mikulski Amendment would in effect exempt the UNFPA from the requirements of the Kemp-Kasten Amendment, and mandate a resumption of U.S. funding to the UNFPA, so long as U.S. funds are maintained in a segregated account.
>
> I strongly support family planning programs which do not condone or encourage abortion ro coercive measures. I believe that the current Kemp-Kasten law, along with the Mexico City Policy, must be maintained without dilution, in order to preserve both the pro-life and pro-human rights character of the population assistance program.
>
> Therefore, if the FY 1990 foreign operations bill as presented to me contains the Mikulski Amendment or any other language which would weaken the current Kemp-Kasten provision, or place the UNFPA or any other organization outside the full application of Kemp-Kasten, I will veto it.
>
> Sincerely,
>
> GEORGE BUSH.

For us to pass this bill in a responsible way, consistent with our policy on life and human rights, vote against the motion to recede.

Mr. OBEY. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. MCHUGH].

Mr. MCHUGH. Mr. Speaker, I urge my colleagues to support this motion to recede to the Senate and appropriate $15 million as a U.S. contribution to the United Nations Fund for Population Activities [UNFPA].

UNFPA is the largest provider of voluntary family planning services in the world. It works in about 120 developing countries where efforts to promote economic growth are often overwhelmed by rapid population growth. In 90 of those countries, including important countries to us like Mexico, the population is expected to double within 30 years. The United States has an interest in promoting stability, economic growth, and development in those countries, and therefore has an interest in supporting the work of UNFPA.

During this debate some may claim that our contribution to UNFPA will fund abortions. That is not true. I do not support the use of taxpayers' dollars to pay for abortions, and UNFPA does not fund abortions. In fact, the programs it does fund are alternatives to abortion.

During this debate some may claim that our contributions to UNFPA will fund programs in China. That is also not true. The legislation specifically prohibits the use of these funds in China.

Our contribution will also not free up other funds that can be used in China. That is because UNFPA has already set its funding level for China and nothing we do here today will change that.

In short, this is not a vote on abortion or on China. It is a vote to support voluntary family planning programs other than abortion in countries other than China. I urge a yes vote on this motion to recede.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself 30 seconds.

First of all, I want to say in response to the distinguished gentleman from New York that UNFPA recently awarded $57 million additional to the coercive program in the People's Republic of China. They have been notoriously the chief defenders of the Chinese program, most recently saying that it is totally voluntary, which is absurd. It is not voluntary.

Today this vote, and we will be urging Members to vote no on receding, stay with the House position, is on coercion and on the atrocities that are occurring in the People's Republic of China. That is the issue.

Family planning moneys are not disturbed one iota by this language and by insisting on the House position. They will remain intact dollar for dollar. Not a penny will be reduced by retaining that pro-human rights Kemp-Kasten language.

Mr. Speaker, I yield 2 minutes to the gentleman from Missouri [Mr. EMERSON].

Mr. EMERSON. Mr. Speaker, I hope that we do not in any way confuse this debate here today with our domestic national debate on the subject of abortion, in which we argue whether or not we should spend U.S. taxpayers' dollars to fund abortions, where we refer to the respective sides of the issue as prochoice or prolife.

□ 1510

Prolife or prochoice is not the issue in the measure before us here today. What we are talking about here, should the motion to stick with the

House's position fail, is providing funds, perhaps indirectly, but providing funds nonetheless, to a group that does, indeed, promote coercive abortion.

No one can absolutely assure us that the money in this bill, by a juggling of accounts, will not fund those coerced abortions. There is a big difference, a big difference between our domestic debate and coercive abortion. There is no choice in coercive abortion, and we do not have guarantees in the measure before us that the funds contained would be denied to entities that promote coercive abortion.

I strongly, strongly recommend a no vote, and that we stick with the House position opposing coercive abortion.

Mr. OBEY. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas [Mr. COLEMAN].

Mr. COLEMAN of Texas. Mr. Speaker, I rise in support of the conference report.

Mr. OBEY. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois [Mr. PORTER].

Mr. PORTER. Mr. Speaker, the world's population topped 5 billion last year and is adding another 80 million people annually. To respond, six Presidents, including Republicans and Democrats, strongly endorse an American policy of voluntary family planning through the United Nations.

Unbridled population growth depresses economic progress and degrades the environment. Over the last 40 years, India became the 10th largest industrial nation while the standard of living of the average Indian is no better than his grandfather's. As Brazilian population growth topped 148 million, experts predicted the Amazon rain forest will be a thing of the past in our children's lifetime.

In the Philippines, where family planning was not important, the civil war continues, their environment deteriorates and aid requests double. Meanwhile under the leadership of UNFPA, Thailand took family planning seriously and has since doubled per capita income and is phasing our United States foreign aid.

Our ability to help countries like Thailand was derailed in 1984 when we cut off funding for UNFPA because of China. As chairman of the human rights caucus, I stand second to none in condemning what happened in China, and have worked actively for years to advance the cause of human rights in Chna, in Tibet, and in Hong Kong.

But human rights violations in China cannot be used as an excuse to cut off funding for voluntary family planning in UNFPA's other 120 countries. UNFPA's charter prevents it from any funding of abortion. The bill clearly prohibits any funding for China. UNFPA assures that no additional dollars will go to China when we pass this measure. The funds will be used exclusively to support voluntary family planning in 120 countries where no reports of abuses exist. These programs will attack the problem of unintended pregnancy which is the root cause of abortion. Family planning not only prevents abortion, academics, and development experts agree it is the single most effective way to improve child and maternal health. This vital work must go on.

If you are concerned about Pakistan and Kenya, rapidly growing countries which serve our stragetic interests in Afghanistan and the Persian Gulf, then support UNFPA. If you are concerned about the stability of Mexico, then support UNFPA. If you are concerned about the most effective way to help mothers and children, support UNFPA.

I urge members to join the full Senate and House Appropriations Committee's decision to restart the important work of UNFPA for the sake of the world's women, children and environment.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentlewoman from New York [Mrs. LOWEY].

Mrs. LOWEY of New York. Mr. Speaker, today we are voting for voluntary family planning worldwide. The world is growing at the rate of 90 million people every year. Such rapid population growth has social, political, and environmental consequences that must be dealt with today, not sometime in the future.

Family planning services are still not available to one-half of the world's people. The poorest and least developed nations generally have the highest birth rates and the greatest need for family planning services, and they are least able to afford them.

This is not a vote for abortion. Not one penny of these funds will be used for abortion. The $15 million appropriation will be used for family planning, for education, for contraceptives, so that the number of abortions can be reduced.

This is not a vote for China's family planning policy; none of this $15 million will go to China. This money will go to the 140 other nations who so desperately need our leadership, our technology, and our willingness to teach.

We must restore our Nation's support for UNFPA and international family planning efforts. We must today vote for the conference agreement.

Mr. SMITH of New Jersey. Mr. Speaker, I yield 1 minute to the gentleman from Colorado [Mr. HEFLEY].

Mr. HEFLEY. Mr. Speaker, we keep seeming to want to couch this in the abortion-antiabortion terminology, and I do not think that is what we are talking about here at all.

People keep referring to voluntary family planning. There are very few of us who would not agree that voluntary family planning makes some sense, but the UNFPA does support China's program. The Members heard just a few moments ago that they did give an award to China's program that it is a program that is exemplary. They gave $57 million in the last grant, and I believe $50 million in the grant before that.

Just a week ago on the floor of this House of Representatives we had a chance to explore that exemplary program that China has for family planning, and we said on the floor of this House a week ago by a vote of 300 to 115 that we do not think that is a very good way to do it, to force people not only to have abortions but to be sterilized if they violate the rules about the number of pregnancies that they have.

Mr. Speaker, I would encourage a no vote on the motion.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 2 minutes to the gentlewoman from Rhode Island [Ms. SCHNEIDER].

Ms. SCHNEIDER. Mr. Speaker, I rise in strong support of the motion of the gentleman from Wisconsin [Mr. OBEY]. It is imperative that the United States reaffirm not only its commitment, but traditional leadership, to population stabilization.

World population growth is a timebomb. Every 13 months the world adds the population equivalent of a Mexico, every 13 years it adds a China. The tragedy is that 19 out of 20 of these new children are born into life-long poverty. UNFPA funding is a key step toward supporting universal family planning services, which is essential if we are to stabilize world population.

UNFPA funding is also consistent with title 11 of the Global Warming Prevention Act. Rapid population growth leads to depletion of natural resources, and makes reduction of poverty more difficult.

The UNFPA promotes maternal and child health. It helps provide for contraception production and increased availability. It also provides for women's education and training. The UNFPA does not and never has supported abortion as a method of family planning. Furthermore, the Mikulski amendment explicitly states that no funds will go to the UNFPA Program in China.

It saddens me that responsible funding for the UNFPA has been misrepresented as an abortion vote. It is not another referendum on reproductive rights. This vote is a vote for responsible global policy.

I strongly urge my colleagues to support the motion of the gentleman from Wisconsin [Mr. OBEY] to recede and concur.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself 15 seconds just

to respond. This vote today will be on coercion versus voluntarism.

The UNFPA, unfortunately, has allied itself with the forces in Beijing who are committed to coercion, compulsory abortion, compulsory sterilization, and that is what we are objecting to.

I urge the Members to vote no on the motion to recede.

Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania [Mr WALKER].

Mr. WALKER. Mr. Speaker, as the abortion issue has been discussed in recent weeks, it has been discussed as a difference between the pro-life position and the right-to-choose position. There has been a lot of talk during that time about extremism on both sides, but I think today we have a definition of extremism, because what we have here being debated is not the question of the right to choose but it is the question of the power to coerce.

If there is any doubt in anyone's mind about whether or not we are talking about coercive abortion in this particular funding, let me read to the Members from a report of the AID on what went on in the UNFPA programs in the past. The AID says flatly:

The kind and quality of assistance provided by UNFPA contributed significantly to China's ability to manage and implement a population program in which coercion was pervasive.

In other words, the money in this fund has, in fact, been used for coercive abortion.

To vote for this money is to say that we are on the extreme side of coercing people into abortions. I do not think that that is a position for which we ought to take the taxpayers' money. I do not even think it is a position that most Americans would agree should be taken in any kind of a policy position.

We really are down to a question here of voting on an extreme position. If we vote with the gentleman from New Jersey [Mr. SMITH], it seems to me what we are doing is saying, "Let us have a rational position here, no coercive abortion."

□ 1520

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentleman from Illinois [Mr. DURBIN].

Mr. DURBIN. Mr. Speaker, if the $15 million in amendment is given to the United Nations Family Planning Agency, not one penny will go to China. Not one penny will be spent on abortion. Not a single penny will be spent for coerced abortions.

What Members will do in denying these funds is deny family planning funds to other countries around the world.

One has to wonder who designs the legislative agenda for those on the side of the aisle who oppose abortion. How can Members who oppose abortion oppose family planning? It is the failure of family planning, it is the absence and failure of birth control, which leads to abortion.

I condemn what occurred in Tiananmen Square. I despise coerced abortion in China. But I am not prepared to cut off family planning funds to poor women in other countries all around the world to prove it.

Those who oppose abortion have a moral and political obligation to provide family planning alternatives.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself 30 seconds.

Mr. Speaker, I want to say that is a disingenuous argument to suggest that this money is not going to be used for family planning.

Every dollar that does not go to the UNFPA goes to other family planning programs in the developing world. I have a list of all the different programs to which it was reprogrammed, when they disqualified themselves by participating in the brutal coercive program in China. They have again put $100 million in the last decade, including the $57 million just approved, into that coercive program. Every dollar has been reprogrammed to family planning programs, including Planned Parenthood—Western Hemisphere, and including other programs throughout the world.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentlewoman from Colorado [Mrs. SCHROEDER].

Mrs. SCHROEDER. Mr. Speaker, as one of the senior women here in the House, I talked to women legislators all over the world. They constantly say to me, "Why does America let women down?" What they mean by that is our Mexico City policy of not supporting family planning.

Today we can say to people around the world, we are not letting you down. We understand how important family planning is. We understand that the United Nations family planning group is one that we should be out there for.

I think all the talk about China has nothing to do with the issue. The list of countries that the United Nations contributes to is all over the world. It is shameless that we are not part of that group. Shameless.

Today we can put that aside by supporting Senator BARBARA MIKULSKI's amendment, and I hope everybody votes aye to recede and concur and say to the people of the world, we do care.

Mr. Speaker, this is a very important environmental vote and women's vote and sensible vote.

Mr. SMITH of New Jersey. Mr. Speaker, I yield 2 minutes to the distinguished gentleman from California [Mr. DORNAN].

Mr. DORNAN of California. Mr. Speaker, if this U.N. organization, this Population Fund, were dealing with South Africa in some way, we would not be so generous about talking about fencing funds off and then letting the organization go ahead and deal with a State that is considered a pariah State.

Here is an example that I think should be read for the RECORD. It is the story of Dr. Kerr, who wrote in the Washington Post. They saw fit to publish it earlier this year.

Here is a story of what some of these mobile teams in China did with money, not United States' dollars, that was spent, but with their general fund. They trained these mobile teams to hold down population in Tibet.

Dr. Kerr quotes from two refugee Buddhist monks who witnessed a team in action descend on their village less than 2 years ago.

"The villagers were informed that all women had to report to the tent for abortions and sterilizations or there would be grave consequences. The women who refused were taken by force, operated on, and no medical care was given. Women 9 months pregnant had their babies taken out. We saw girls crying, heard their screams as they waited for their turn to go into the tent, and saw the growing pile of fetuses build outside the tent, which smelled horrible. Since 1987 there has been a tremendous increase in the number and frequency of the teams that move from town to town, and to nomad areas."

That was from an article entitled "Witness to China's shame," by Dr. Kerr.

Now, I again make the point if this somehow or other were a situation where we fenced United States' money, but let this United Nations Population Fund organization go on and deal with South Africa in some sort of far less heinous way, we would hear all sorts of righteous indignation from the liberals in this House.

I think that it is the United Nations Population Fund that has become a pariah organization, because they give money that facilitates this type of infanticide. That is what it is, and that is why I say no to this funding to this U.N. organization.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentleman from Pennsylvania [Mr. KOSTMAYER].

Mr. KOSTMAYER. Mr. Speaker, how many times must we say it? None of this money goes to China. What is happening in China is not the issue. This money does not go to China. Let us say it over and over and over again. This money is held in a separate segregated account.

I do not approve of what is happening in China either. This money does not go to China.

We fund other agencies of the United Nations in a similar way. The United Nations Relief and Works Agency does refugee work on the West

Bank. We make sure that none of that money goes to the PLO.

One hundred thirty countries will be denied these funds. The world's population grows by almost 2 million people a week. That is a Philadelphia a week. A Philadelphia a week is what we are adding to the world's population.

This vote is about voluntary family planning for the poorest women in the world. The population of Africa is growing at 3.1 percent. The food supply is growing at 1.1 percent. Anyone can see what is happening.

Mr. SMITH of New Jersey. Mr. Speaker, I yield 30 seconds to the gentleman from California [Mr. DORNAN].

Mr. DORNAN of California. Mr. Speaker, trying to pick up on the rhythm of the last speaker, the gentleman from Pennsylvania [Mr. KOSTMAYER], the United Nations gave the population prize to guess who? The United Nations gave the population prize to China.

Suppose the United Nations gave the crowd control prize to South Africa? Suppose the United Nations gave the crowd control prize to South Africa, with special note for skillful use of the jumba, the whip. The analogy is perfect. It is perfect. Population control prize to China; crowd control prize to South Africa. The same thing.

Mr. SMITH of New Jersey. Mr. Speaker, I yield 4 minutes to the distinguished gentleman from Illinois [Mr. HYDE].

Mr. HYDE. Mr. Speaker, I think we can understand this not-too-complicated situation in three steps.

First of all, I think all Members stipulate that the Chinese program is something Hitler would have done. It coerces pregnant women to either have an abortion, if they have more than one child, or they coerce them into being sterilized. They mutilate their body.

Those people who orchestrated the atrocity at Tiananmen Square are still at it in Tibet and elsewhere in China.

So, Mr. Speaker, all Members agree, I think. I have not heard anyone defend the Chinese coerced abortion, coerced sterilization program. So we concede that.

Second, the United Nations supports the China program, and these folks want us to support the United Nations.

Now, you do not have to be a rocket scientist, to understand money is fungible. If we give money to the United Nations but say none goes to China, we free up other United Nations money to go to China.

So it is like pushing in a water bed. You know what a water bed is? So it is fungible. If the United Nations is the friend of the Chinese program, why ask us to support the United Nations?

Fencing it off is like keeping a double set of books. You sure do not kid anyone.

Mr. MOODY. Mr. Speaker, will the gentleman yield?

Mr. HYDE. Mr. Speaker, I yield to my friend, the gentleman from Wisconsin.

Mr. MOODY. Mr. Speaker, the gentleman is generous for yielding to me.

As the gentleman knows, I hope he knows, the amount of money that will go to China under the title is totally independent of what we do today. That has been present for the fiscal year upcoming. It will not be affected. It does go the general revenues.

Mr. HYDE. Mr. Speaker, I will reclaim my time and suggest to the gentleman money is fungible. If we give the money, they are freed up to give their own money to support China.

□ 1530

Now the way to stop the Chinese program is for the United States, the big Uncle Sam who funds everything everywhere, to stop funding the United Nations Population Fund. They will get the message and stop funding the Chinese coercive program.

Now the great cause of family planning is not impaired, because other agencies will get every nickle of this money including the International Planned Parenthood Federation for the Western Hemisphere, the Population Council of New York, and some others.

So the cause of family planning will be funded with this money. But not to the United Nations. Why? Because the United Nations supports China which supports coercive abortion. Is that complicated?

Mr. MOODY. Mr. Speaker, will the gentleman yield?

Mr. HYDE. I yield to the gentleman from Wisconsin.

Mr. MOODY. I thank the gentleman for yielding.

Mr. Speaker, there is a list of 18 countries in Africa which will get nothing unless they get this through the United Nations Family Planning Association because that is the only family planning program there.

Mr. HYDE. Then take the money from China and give it to Africa then.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 2 minutes to the gentlewoman from Maine [Ms. SNOWE].

Ms. SNOWE. Mr. Speaker, I rise in support of the motion to recede and concur in the Senate's amendment to restore the contribution of the United States to the United Nations Fund for Population Activities.

Those who oppose this motion, Mr. Speaker, have but one, faulty premise for blocking these funds: UNFPA money, they seem to contend, is equivalent to abortion money. It is that simple; it is also simply wrong.

Let's cut through that rhetoric to the facts. We all agree that China's policy of coerced abortions is both appalling and contemptible. That's why our money is not going to China's program. That's why not one dime of UNFPA money goes for such heinous practices—and so we should not punish an outstanding organization for sins of which they are not guilty.

In fact, there is no documentation that UNFPA money goes for abortions. And here is no documentation that UNFPA money goes for coercive measures.

What we do have documentation for paints a vastly different picture than opponents would have us see.

We have the Executive Director of UNFPA stating unequivocally that—

> Our Guidelines on family planning stipulate that since abortion is not a method of contraception, the Fund does not extend assistance for supplies or services for this purpose . . . we are especially vigilant to ensure that none of our support is channelled into abortion programs.

And we have the program review by our own AID stating, again unequivocally, that "UNFPA neither funds abortions nor supports coercive family planning practices through its programs."

Further, the so-called "fungibility" question is moot: renewal of our contributions will not increase the availability of funds for China.

Mr. Speaker, one of the "dear colleagues" sent out by opponents of this motion cited a 1985 AID memo, which said, "the United States should take strong action to disassociate itself from the China program." Well, that is precisely what would occur under this motion—a sharp break from the China program.

So to say this debate is about abortion is either a red herring or a canard—take your pick.

What it is about is something quite different. It's about family planning. It's about a woman's access to safe and effective birth control methods. It's about babies born in Africa being 10 times likelier to die in infancy than babies born in the United States. It's about high maternal mortality, and children who manage to survive infancy growing up motherless.

It is also about the fact that populations of some 90 developing countries are expected to double within only 30 years.

Mr. Speaker, it is past time for the United States to resume our historical leadership on international family planning. We have the chance to do just that today. And it would be a cruel irony—cruel, Mr. Speaker—if we fail to support an institution which help reduce the likelihood of abortion, illness and poverty.

I urge adoption of this motion.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, I point out to my colleagues that it is incorrect to say that AID has found that UNFPA has not been involved with the coercive practices in China.

AID has said—in keeping with the Kemp-Kasten requirement for a Presidential determination—that each year since 1985 the UNFPA has comanaged the coercive population control program in the People's Republic of China.

They have been found guilty each and every year. To respond to that the opponents of this language want to repeal it.

I think we ought to force compliance and encourage compliance on the part of UNFPA in China.

I also point out, since it was noted by the previous speaker, that the Executive Director of UNFPA said that UNFPA firmly believes and so does the Government of the People's Republic of China that the program is totally voluntary. That is not true, it is simply not a voluntary program. It is unfortunate that the UNFPA is fronting for this terrible atrocity.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentlewoman from Kansas [Mrs. MEYERS].

Mrs. MEYERS of Kansas. Mr. Speaker, I rise in strong support of Chairman OBEY's motion. This is not an abortion vote. None of this money goes to China.

This is a family planning vote. If Members vote "no" on this they do not effect China. They take family planning money away from 120 countries. This is a vote about the lives of women in 120 countries.

Family planning saves the lives of women. An African woman's chances of dying as a result of childbirth are 1 in 14. In industrialized nations, the chances are 1 in 4,000 to 1 in 7,000. Pregnancy-related deaths account for one-fourth of all deaths among women aged 15 to 49 in developing countries.

In most of Africa, women average between six and eight pregnancies. In sub-Saharan Africa, one of the most desperately poor regions of the world, the average number of births per woman is 6.5.

Spacing births saves the lives of children. Infants born less than 2 years after their previous sibling have a much higher probability of dying—in some countries, as much as twice as high—in the first year of life.

A baby born in Africa is 10 times more likely to die in infancy than a baby born in the United States.

In Africa, less than one-fourth of women not wanting any more births are practicing contraception, 43 percent in Asia, and 57 percent in Latin America. If all women who said they wanted no more children were able to stop bearing children, the number of births would be reduced 27 percent in Africa, 33 percent in Asia, and 35 percent in Latin America (World Fertility Survey, 1972-84).

Save the lives of women and children.

Vote "yes" for Chairman OBEY's motion.

Mr. SMITH of New Jersey. Mr. Speaker, I reserve the balance of my time.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentlewoman from California [Mrs. BOXER].

Mrs. BOXER. Mr. Speaker, today we can stand up for family planning. Now what did George Bush say about family planning in 1973? These are his words which I am going to place in the RECORD. This is from a foreword by George Bush, U.S. Representative to the U.N., on World Population Crisis, the U.S. Response.

"I was impressed by the arguments that economic development overseas would be a miserable failure unless the developing countries have the knowledge and supplies their families needed to control fertility." This is George Bush 1973.

Let us not go backward, folks. These funds will not go to China. These funds will not go to China. They will go to more than 100 countries who desperately need this help.

Now this is not about China. This is not about coerced abortion, this is not about abortion. It is about family planning.

Now what do some of the groups say about family planning? I want to quote to you. Joseph Scheidler, director of Pro-Life Action League, "I think contraception is disgusting."

Now there are people on this floor who are carrying out that radical view.

Vote "yes."

The article referred to by George Bush, Jr., U.S. Representative to the United Nations, follows:

FOREWORD

(By George H. Bush, Jr.)

Few issues in the world have undergone such a rapid shift in public attitudes and government policies over the last decade as the problems of population growth and fertility control.

My own first awareness of birth control as a public policy issue came with a jolt in 1950 when my father was running for the United States Senate in Connecticut. Drew Pearson, on the Sunday before Election Day, "revealed" that my father was involved with Planned Parenthood. My father lost that election by a few hundred out of close to a million votes. Many political observers felt a sufficient number of voters were swayed by his alleged contacts with the birth controllers to cost him the election. The subject was taboo—not only because of religious opposition but because at that time a lot of people were unwilling to discuss in public what they considered a private matter.

Today, the population problem is no longer a private matter. In a world of nearly 4 billion people increasing by 2 percent, or 80 million more, every year, population growth and how to restrain it are public concerns that command the attention of national and international leaders. The per capita income gap between the developed and the developing countries is increasing, in large part the result of higher birth rates in the poorer countries.

World Population Crisis: The United States Response recounts and analyzes the events which mobilized the United States leaders to action. Dr. Piotrow presents a story of determined and sometimes disruptive advocates, of conscientious, careful scientists, of political leaders striving to reach a new consensus, of vigorous officials building action programs. It is, above all, a story of individuals and institutions struggling to solve a new kind of worldwide problem within the framework of individual choice and responsible government.

The population problem does not have easy answers. As a member of the U.S. House of Representatives in the late 1960s, I remember very well how disturbed and perplexed my colleagues and I were by this issue. Famine in India, unwanted babies in the United States, poverty that seemed to form an unbreakable chain for millions of people—how should we tackle these problems? I served on the House Ways and Means Committee. As we amended and updated the Social Security Act in 1967 I was impressed by the sensible approach of Alan Guttmacher the obstetrician who served as president of Planned Parenthood. It was ridiculous, he told the committee, to blame mothers on welfare for having too many children when the clinics and hospitals they used were absolutely prohibited from saying a word about birth control. So we took the lead in Congress in providing money and urging—in fact, even requiring—that in the United States family planning services be available for every woman, not just the private patient with her own gynecologist.

I remember another bill before the Ways and Means Committee. This one successfully repealed the prohibition against mailing information about birth control devices or sending the devices themselves through the mails. Until 1970 the mailing of this information had been heaped in with the mailing of "pornographic" material.

As chairman of the special Republican Task Force on Population and Earth Resources, I was impressed by the arguments of William H. Draper, Jr. that economic development overseas would be a miserable failure unless the developing countries had the knowledge and supplies their families needed to control fertility. Congress constantly pressed the rather nervous federal agencies to get on with the job. General Draper continues to lead through his tireless work for the UN Population Fund.

Congressional interest and support in population problems was remarkably bipartisan—including Jim Scheuer, Ernest Gruening, Bob Taft, Bill Fulbright, Joe Tydings, Bob Packwood, Alan Cranston, and many others from both parties and every section of the country. Presidents Johnson and Nixon both were seriously concerned about the problem, too. In fact, early in 1969 President Nixon delivered an official Message on Population to Congress. In the federal agencies there were at first only a few determined individuals like R.T. Ravenholt in AID and Philander P. Claxton, Jr. in the State Department who were willing to urge their superiors ahead. Now the recommendations of the Commission on Population Growth and the American Future, chaired by John D. Rockefeller 3rd, have urged many agencies to take on a larger role and have called for the U.S. government to adopt a national population policy.

When I moved to the United Nations in 1971 as United States Ambassador, I found that the population problem was high on the international agenda, though lacking some of the urgency the matter deserves. The General Assembly had designated 1974 as World Population Year with a major conference of governments scheduled. The UN Fund for Population Activities, which has raised some $50 million, now stands ready to help agencies and governments develop appropriate programs. It is quite clear that one of the major challenges of the 1970s, the Second United Nations Development Decade, will be to curb the world's fertility.

The United Nations population program, including the Fund and specialized agencies, stands today at the threshold of international impact. The problem has been recognized; the organizations exist; the resources are at hand. But policy making on the international level no less than on the national one is an educational process. In developing the programs needed, the public as well as government leaders learn from one another. New technologies lead to new policies and laws, new public and private values, new insights into our own problems as well as those of others. We all proceed by trial and error. Will we learn fast enough from one another and with one another how to defuse the population bomb?

One fact is clear: in a world of nearly 4 billion people, with some 150 independent governments, myriad races, religions, tribes and other organizations, major world problems like population and environmental protection will have to be handled by large and complex organizations representing many nations and many different points of view. How well we and the rest of the world can make the policies and programs of the United Nations responsive to the needs of the people will be the test of success in the population field. Success in the population field, under United Nations leadership, may, in turn, determine whether we can resolve successfully the other great questions of peace, prosperity; and individual rights that face the world.

Dr. Piotrow's study of evolving population policy, in the United States and in the United Nations, is necessarily a story without an ending, it is not a blueprint for the future, but rather a search for the meaning of the past, an exploration of the means, the arguments, the individuals and the events which did, in fact, influence U.S. policy making over the last decade and a half. But the lessons suggested here—about leadership, about innovation, about national and international organizations—surely have continuing application for the future. Dr. Piotrow was in a unique position to observe and even participate in many of the actions taken.

I worked with Phyllis Piotrow on some of these issues. This book is far too modest about her own efforts, for she has contributed significantly herself to public understanding and support of population activities through her work with the Population Crisis Committee. Certainly the private organizations, like the Population Crisis Committee, Planned Parenthood—national and international—the Population Council, the Population Reference Bureau, the Population Institute, Zero Population Growth, and others, have played a major role in assisting government policy makers and in mobilizing the United States response to the world population challenge that is described in this volume.

GEORGE BUSH,
U.S. Representative to the United Nations.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself 1 minute.

First of all, the previous speaker said today we stand up for family planning. I would add and strongly say that today we stand up for voluntary family planning. The issue is coercion versus voluntarism.

Those who want to insist on the House position which has been enforced since 1985 will vote against the motion to recede.

So I urge Members to vote against the motion to recede and also point out that we will vote to stay with the House position. The UNFPA is not the only provider of family planning in the world. There are many other organizations. And every dollar that does not go to UNFPA will go to organizations that truly believe in voluntarism. I tell Members we have lists of those organizations that have received these funds and will be the recipients of those dollars. So dollar for dollar it is all reprogrammed. It goes right into family planning. So not anything is lost.

Mr. Speaker, I reserve the balance of my time.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentleman from Michigan [Mr. LEVIN].

Mr. LEVIN of Michigan. Mr. Speaker, when I was in AID in the late 1970's, running the population program of the agency, we wrestled with this problem. I want to say to the gentleman from New Jersey and the gentleman from Illinois there are a couple of problems with their approach. It does not work.

First of all, what it means is that you cut off funds for voluntary programs in numerous other countries and for hundreds of thousands of other people.

□ 1540

That is the practical effect. There is another practical effect of the approach, and that is we have no voice in UNFPA at all. If it gives out an award and we do not like it, we are outside shouting.

In practical terms, if a person believes in voluntarism, we will contribute and participate. The real fact here is that none of the money is going to go to China. It has all been allocated, and we are on the outside, shouting, instead of being on the inside, working for voluntary family training programs throughout this world.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself 30 seconds.

I will just respond, the United States does have representation. We did vote against the new $57 million grant to China.

Mr. LEVIN of Michigan. Mr. Speaker, if the gentleman will yield, on the governing?

Mr. SMITH of New Jersey. We did vote.

Mr. LEVIN of Michigan. I think on the governing, but we are not active in UNFPA when we do not contribute, so the gentleman is essentially sterilizing his own position in terms of volunteerism.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentleman from Wisconsin [Mr. MOODY].

Mr. MOODY. Mr. Speaker, if we recede to the Senate in this amendment to support family planning in poor countries through UNFPA, not one penny will go to China. The amount of UNFPA support to China for 1990 is totally preset already and will not alter one penny no matter what we do here today.

However, what we do have an opportunity to accomplish today is to send the family planning support to desperately poor women in over 100 nations. When I went to Bangladesh with the Peace Corps in 1961, the population of the country was 45 million people. Today it is 110 million people, many living in near starvation with almost no access to family planning. In this desperate scenario, by the way, abortion sometimes becomes a desperate way for poor women to limit family size to what they can feed.

If we truly want to limit abortion, if we want to provide access to voluntary family planning, increased standard of living, and if we want to help poor people all over the world, we will not retain the Kasten-Kemp language which has resulted in these desperate people from being helped.

If we want to get at China, why punish women and children all over the world. For under this bill, not one penny of family planning money goes to China.

Maybe a better way would be to stop coproduction of the F-8 fighter. If we want to punish China, there are other ways. China is not in this bill.

Let's not punish millions of families seeking to limit family size to family resources, let's not punish millions of poor women seeking to limit the number of children they can healthly bear, lets not punish millions of poor children to a life of near starvation.

Restore funding to the U.N. Population and Voluntary Family Planning Program.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentlewoman from New York [Ms. SLAUGHTER].

Ms. SLAUGHTER of New York. Mr. Speaker, today we are voting on a public policy, public health issue here, and not China's abortion policy. A vote for the Mikulski amendment saves the lives of thousands of women and infants in more than 100 nations.

Until 1985, the United States was a leading contributor to this vital United Nations program. We have to renew our commitment to it, and the poor women in developing nations who rely on this family planning program to be able to participate in voluntary family planning.

The services mean the difference between life and death for women and for their children. Access to voluntary family planning is a prerequisite to a successful development policy that fully involves women in all economic and social progress.

We know that spacing children at least 2 years apart increases their chances of surviving past their first birthday. We know that 500 million women want access to family planning and cannot get it. We know that UNFPA makes a difference.

Please join me. Women are dying, children are starving. Let Members stop it.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself 30 seconds.

The issue of whether or not we are providing funds for family planning is not in doubt. According to Deputy Administrator Jay Morris—

The U.S. is the largest international supporter of family planning, voting $244 million in fiscal 1988 to population activities in 90 countries, up from $190 million in 1981. This amounts to 40 percent of all donor support for family planning in developing countries. The U.S. has spent nearly $2 billion on international family planning programs since 1981.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentleman from Massachusetts [Mr. ATKINS].

Mr. ATKINS. Mr. Speaker, I do not think there is a single Member of this body who supports the coercive families in China. However, that is not the issue before Members.

The issue is how do we effectively deal with these practices, and how do we do it not only in China but in the other countries where they have existed? The single most effective thing that we can do in the United States is rejoin and begin funding the U.N. family planning activities. They are the most effective voice to switch that Chinese policy from a coercive policy to a voluntary policy. They are the most effective voice in terms of establishing an international presence. Indeed, their policy is to decide freely and responsibly the number and spacing of their children, and to have the information, education, and means to do so.

I would hope that all Members would agree that that ought to be the policy. The U.N. Fund for Family Planning Activities does not fund any abortions, does not fund any coercive family planning activities. Indeed, we are the most effective voice against those coercive practices.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentleman from Connecticut [Mr. GEJDENSON].

Mr. GEJDENSON. Mr. Speaker, to the issues before Members, we have a strawman. If Members cannot beat the United Nations Family Planning Agency, bring up a strawman, the Chinese, attack the Chinese as a way to attack the United Nations program.

My friend from Illinois says that funds are fungible. Well, he is correct. If we want to get out the funds that allow the Chinese to carry out their program, stop the programs we in the United States Government have with China that enrich that country, stop the military programs, stop the economic programs with China. Do not damn the women of Africa to death from birth to a situation where their families are in starvation, or their countries are in turmoil. Do not leave Members in a situation where we have destabilization because societies cannot provide for the basic services because of population growth that outstrip any ability to provide either food assistance or economic assistance.

One in 21 women in some African countries die at childbirth. This is a life and death issue.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself 15 seconds.

The gentleman previously said moneys would not be going to Africa, and was concerned. Normally, I would share that concern, except moneys reprogrammed from UNFPA did go to Africa. In 1987, of the $25 million budgeted for UNFPA, $14,500,000 went to Africa.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentleman from New York [Mr. BOEHLERT].

Mr. BOEHLERT. Mr. Speaker, at the last meeting of the North Atlantic Assembly held last month in Rome, the United States was among 15 nations that dealt with a very sensitive subject of global environmental change.

Let me quote from a report issued by the Committee on Science, Space, and Technology. It says, "It took 17 centuries for the Earth's population to double from its level at the time of Christ. Since then, it has doubled 3 more times, so that it now stands at about 5 billion. By 2025, it is expected to rise between 8 and 10 billion and to reach 14½ billion by 2070." The report goes on to say, "This will put a tremendous strain on the world's resources and will inevitably add to the world's population problems. Consequently, greater international support should be given to population programs, with a goal of making family planning services universally available to every individual who wants them."

To that I say amen. This group should support the UNFPA.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1½ minutes to the gentlewoman from New Jersey [Mrs. ROUKEMA].

Mrs. ROUKEMA. Mr. Speaker, this amendment should be approved. This amendment should not be controversial and should be approved on its merits.

To be clear, none of the $15 million can be used in China. UNFPA does not pay for abortions in any of the programs it funds anywhere, even in countries where abortion is legal. The "abortion" objections are diversions and not substantive.

This vote today is a vote to support the largest voluntary international family planning program. By supporting this program we can assist poor countries that are struggling with rapid population growth. The consequences, therefore, are more hunger, more disease, more poverty, and more political unrest.

The UNFPA does not and has never supported abortion as a method of family planning. This program only promotes maternal and child health, access to contraception, and education training of nurses and doctors.

The most important point to remember about this program is that access to safe and effective family planning prevents abortions.

The United States contribution would not result in direct aid to China's family planning program. The United States contribution will be placed in a U.S. monitored, segregated account to avoid comingling with other funds.

The Senate provision leaves intact the prohibition against the use of U.S. population aid for abortion, coercive abortion, or involuntary sterilization.

Let me share with my colleagues my knowledge gained as the ranking member of the Select Committee on Hunger. I was made painfully aware of the importance of family planning, when several years ago, I traveled to Ethiopia and witnessed first hand death due to starvation, and the overcrowded feeding camps. The famine was compounded by explosive population growth, far outstripping agricultural production.

Many experts agree that the Earth's biological systems are declining in parts of the world where the human population is swelling. Today the world's population exceeds 5.2 billion and is growing at the rate of 90 million people per year.

At current rates of growth, the world's population will double in 35 years, and 95 percent of those new births will occur in the developing countries. Forty percent of the population of Third World countries is under the age of 15.

In virtually every one of the developing countries population growth outpaces economic growth and destroys the natural resource base on which

those countries depend for their livelihood. Unless this trend is reversed we will see more hunger, more disease, more poverty, and more political disruptions. Our own economy and way of life, so dependent on the world economy and environment, will not escape unscathed.

In the past the United States has been the leader in international family planning, but today we are providing less assistance for these programs than in fiscal year 1984. The decline in U.S. funding for international family planning has hampered our ability to aggressively respond to this crisis.

Millions of people in these developing countries want access to contraceptives and cannot get them, while others lack the information necessary to make informed decisions about controlling their family size.

As the economic and political leader of the free world we can do no less than support these humane and progressive programs for the poorest of the poor.

□ 1550

Mr. SMITH of New Jersey. Mr. Speaker, I yield 4 minutes to the gentleman from West Virginia [Mr. MOLLOHAN].

Mr. MOLLOHAN. Mr. Speaker, I rise in opposition to the Senate language earmarking $15 million to the United Nations Fund for Population Assistance.

Mr. Speaker, at the beginning I would like to clarify a point that has been made by those who support this earmarking. A number of comments have been made and arguments made that this $15 million, if it does not go to the UNFPA, will be lost for population assistance. That simply is not accurate. This is a $15 million earmarking out of the population assistance account, and if this $15 million does not go to the UNFPA because of their supporting the China abortion program, it will go to other population control, population planning, family planning agencies that do not support coercive abortion.

So, Mr. Speaker, this $15 million will not be lost for family planning purposes, and I think everybody in the body ought to understand that.

The arguments in support of the Senate language are internally inconsistent. We are told, on the one hand, that we should support this appropriation because the UNFPA, quote, "does not and has never supported abortion as a method of family planning." Yet, on the other hand, we are reassured that none of this $15 million can be used in China.

These twin arguments do not complement one another. If my colleagues argue against all evidence that the UNFPA does not support abortion programs in China, then why do they include language that prohibits the use of the $15 million in China? If the UNFPA is innocent of the allegations against its involvement in the Chinese programs, then why restrict the money going to this organization?

Mr. Speaker, this restriction is a tacit admission that China's population control problem does include coercive abortion. Once this is admitted, why are we supposed to be reassured that none of the American taxpayers' $15 million will be spent in that country? Money, after all, as has been pointed out today, is the most fungible of commodities. If we get $15 million, or even a single dollar, to an entity that supports coercive abortion, we are supporting the existence and the actions of that entity.

Mr. Speaker, I am not opposed to family planning. I support it. But the coercion of families into aborting children they eagerly want is not family planning. It is a violation of the grossest nature of human rights. The Government of the People's Republic of China has admitted that they consider forced abortions to be an effective means of the implementation of their one-child policy. This one-child policy has resulted in cases where women have been loaded into trucks and transported to abortion clinics where they are forced to have abortions. The spouses of pregnant women are also threatened with prosecution, confiscation of farm animals, destruction of their homes.

Mr. Speaker, there is one reported instance where the husband was placed in a confined tank of water until his wife agreed to report to the abortion clinic. This, Mr. Speaker, is the family planning policy we are being asked to support this afternoon.

In summary, Mr. Speaker, there is no question that China's one-child population control policy includes forced abortion and sterilization. There is no question that the United Nations Fund for Population Assistance is closely involved with China's population control problems.

There is finally, Mr. Speaker, no question that the United States financial assistance to UNFPA, regardless of whether it is legislatively segregated, enhances that organization's work in China, and I urge rejectment of the Senate language.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1 minute to the gentlewoman from Connecticut [Mrs. JOHNSON].

Mrs. JOHNSON of Connecticut. Mr. Speaker, I rise in support of the motion to recede and concur with the Senate amendment.

Let me be absolutely clear here that no one supports China's policy of forced abortion and forced sterilization. No one supports that policy.

Mr. Speaker, the issue is whether or not American funds are sufficiently walled off from supporting that kind of activity in China, and I say the answer to that question is yes.

The second question is: How important is it that American funds go through the UN program rather than through our own aid program, and I say the answer to that is that it is very important because the U.N. program reaches 140 countries, rather than 80 countries, and reaches those countries through a highly sophisticated, highly successful, carefully developed program.

The world's population is expected to double in 35 years. U.S. assistance has been reduced by 20 percent in the last 3 years. We cannot allow that record of reduced support to continue when the world's population is growing at the rate of 3.1 percent a year, while its capacity to feed its people is expanding at 1.1 percent a year.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself 15 seconds.

Mr. Speaker, the preceding speaker said that no one supports China's policy of forced abortion, and I find that extremely encouraging. No one except UNFPA. The U.N. population control fund fully supports it, applauds it, and provides extensive dollars to it.

Mr. LEHMAN of Florida. Mr. Speaker, I yield 1½ minutes to the gentleman from New York [Mr. GREEN].

Mr. GREEN. Mr. Speaker, this is a family planning and women's rights issue. It is not an abortion issue. We must not deny women and families in poor and developing nations access to safe and effective family planning services because we in the Congress are afraid to examine the important facts on this issue.

We are not in any way supporting the Government of China today. The Senate language absolutely prohibits that. The authors of the provision were careful to ensure that the United States contribution would not even result in indirect aid to China's family planning program.

Further, the Senate provision leaves intact the Kemp-Kasten prohibition against the use of U.S. population aid for abortion, coercive abortion, or involuntary sterilization.

Today we are supporting women and families in developing nations who are seeking voluntary family planning assistance which will provide them with the means to space births and avoid high-risk pregnancies—thereby greatly enhancing the chances that both mother and child will be healthy.

Opponents of this family planning assistance have repeatedly sabotaged the issue of refunding UNFPA by trying to turn it into a debate on abortion, despite the fact that AID has made it clear that UNFPA does not, and never has, paid for abortions in any of the programs it funds any-

where, even in countries where abortion is legal.

Even in 1985, when then-U.S. AID Administrator M. Peter McPherson announced the decision to begin withholding part of the U.S. contribution to UNFPA, he stated plainly that AID's own internal review of the UNFPA Program had "demonstrated satisfactorily that UNFPA neither funds abortions nor supports coercive family planning practices through its programs."

With specific regard to China, the AID report concluded:

The evidence available indicates that UNFPA does not support, facilitate, or condone coercive family planning practices in China but rather provides alternative approaches to family planning that can reduce the incidence of coercive procedures.

(See page 6 of the full AID report.)

Despite the McPherson findings the United States began withdrawing support for UNFPA in 1985 and has completely withheld its UNFPA contribution since 1986, thereby denying our support to the largest internationally funded source of aid to population and family planning programs worldwide.

UNFPA population programs have resulted in fewer, not more, abortions in China and elsewhere. By discouraging abortions through providing high quality education in the areas of birth control methods, child spacing, and maternal and child health care, UNFPA is part of the solution, not the problem.

Opponents of today's amendment argue that U.S. funding for population assistance has been reprogrammed but not diminished in the last several years. That is simply not the truth.

In recent years the United States has substantially weakened its commitment to voluntary family planning programs. In fiscal 1985, population assistance represented 14.3 percent of our Nation's development assistance. By fiscal year 1989, that amount had fallen to 11 percent.

From fiscal year 1985 to fiscal year 1987, AID transferred over $20 million of population funds to such nonpopulation activities as the private enterprise revolving fund, disaster assistance, aid to Afghanistan, and strategic reserves. In fiscal year 1988 alone, over $14 million of population funds were eventually programmed for nonpopulation activities.

The global overpopulation problem has not gone away. Without strong leadership supporting voluntary international family planning programs, experts predict that in just 35 years the world's population is likely to double in size to 10 billion. UNFPA provides voluntary family planning assistance to more than 140 nations—90 of them with populations expected to double within the next 30 years.

As my colleagues have pointed out, nowhere is UNFPA more important than in the impoverished nations in Africa. A baby born in Africa has more than 10 times a greater chance of dying in infancy than a child born in the United States. The World Bank estimates that more than 100 million people in Africa go hungry every day—lacking enough food for normal health and activity. Nearly one-third of Ethiopians are undernourished. According to the Bank, "Africa's food shortage is not only serious, it is deteriorating."

And yet my opponents would deny the mothers and children of those poor nations access to quality maternal and child health care by continuing to oppose UNFPA efforts in Africa.

The important fact is: Family planning saves lives. Experts estimate that the lives of 5.6 million children and 200,000 women could be saved every year if all the women who wanted to limit their families had access to family planning. The World Health Organization estimates that most of those 200,000 women who die each year are the victims of unsafe abortions in developing countries. Family planning provides a healthy and safe alternative to abortion.

This is a women's issue, a family issue, and a public health issue. Vote to accept the Senate language refunding the UNFPA.

Mr. LEHMAN of Florida. Mr. Speaker, I yield myself 1 minute.

Mr. Speaker, this seems to be a difficult vote, a tough vote, but it really is not because simply this is an easy vote because this is not a China vote. This is not even an abortion vote. This simply is a vote to help poor women and poor children in the poorest of the countries on this Earth to have a chance for a better, a more decent life.

□ 1600

Let us not play a phony China card and trump the opportunity for the poor women in this world to have, in the words of our President, "a kinder and gentler life."

Mr. SMITH of New Jersey. Mr. Speaker, I yield 30 seconds to the gentleman from Illinois [Mr. HYDE].

Mr. HYDE. Mr. Speaker, I just want to say something. You know, a lot of people do not like Saudi Arabia, a moderate Arab state, and refuse to sell them any AWAC's or other weapons because they support the PLO, and I can understand that reluctance. "Who is the friend of my enemy, is my enemy."

Now, here is the U.N. Population Fund supporting the Chinese coerced abortion program, and so it seems to me that we ought not to support the United Nations. That is very simple, and I agree, we should not support any institution that supports coerced abortion or sterilization as the Chinese program does.

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself the balance of the time.

Mr. Speaker, I urge Members to vote "no", on the motion to recede from the House position. The House should not retreat today—or ever—from its principled stand against coercion and forced abortions in population control programs.

To vote "no," on receding Mr. Speaker, is to vote in favor of voluntary family planning programs and against the human rights violations of forced sterilization and forced abortion that have become commonplace in China's brutal one-child-per-couple policy.

A "no" vote on receding from the House position, Mr. Speaker, will retain crucial human rights provisions that have been part of U.S. policy since 1985, which insist that the United States wants no part whatsoever of a program that includes coercion and forced abortion.

A "no" vote, Mr. Speaker, assures that U.S. dollars will go only to those family planning progams that are truly voluntary. It is important to note that U.S. funds for family planning have not been reduced by 1 cent—not 1 penny—as a result of this humane policy.

All funds denied to UNFPA are reprogrammed to other family planning organizations, or countries or projects.

So the issue at hand today, Mr. Speaker, is not whether or not the United States supports family planning. That is a given.

According to the Agency for International Development Deputy Administrator Jay F. Morris:

The United States is the world's largest international supporter of family planning, devoting $244 million in fiscal 1988 to population activities in 90 nations, up from $190 million in 1981. This amounts to 40 percent of all donor support for family planning in developing countries. The United States has spent nearly $2 billion on international family planning programs since 1981.

Instead we are faced with the option of making a clear distinction between voluntary and coercive programs. A "no" vote is a vote for voluntary family planning.

Members should be aware before they vote today that the Kemp-Kasten-Inouye law that we seek to retain does not in and of itself deny any U.N. Population Fund to the United Nation or anywhere else. It does, however, set up a test. The test is this: No organization that supports or comanages coercive programs may be eligible for U.S. funds.

Current law, the House position, says and requires that the President make a determination as to whether or not the anticoercion criteria applies. If it does and the President determines that an organization comanages or supports coercion, that organi-

zation becomes ineligible for U.S. funds.

Based on the evidence, Mr. Speaker, the U.N. Population Fund has been found guilty. It has been found in violation of U.S. law.

Starting in 1985 and each year since, the President, through the U.S. Agency for International Development, after a great deal of study and investigation, has determined that the UNFPA has clearly violated the anti-coercion law, and has thus rendered itself ineligible for U.S. contributions.

That is to say that after careful review, analysis, and scrutiny, the President has determined that UNFPA supports, and comanages, coercive population control policies in China. That anyone in this Chamber is willing to overlook, belittle, or dismiss these findings is, at best, disappointing.

A brief look at the last 3 years of Presidential determinations make this point.

In 1987, for example, AID found that:

The Chinese program remains systematically coercive.

AID quoted Chinese spokesmen at a 1987 family planning conference that:

Births not covered by the plan must be strictly banned and prescribed penalties should be applied firmly and promptly until pregnancies outside the plan are terminated. There is no basis for changing the previous AID determination that China has a coercive program. Official statements clearly say that abortion and/or sterilization not freely chosen by couples is a publicly approved remedy for births outside the state plan.

In 1988 AID said:

Funds budgeted for UNFPA were first shifted in 1985 after a determination that it participated in the management of a program of coercive abortion and involuntary sterilization through its assistance to the population program of the People's Republic of China. A review of the program, conducted by the Census Bureau at U.S. AID's request, indicated that the significant changes that would warrant resumption of support have not occurred."

In 1989 AID reported:

Unfortunately, no significant changes in the nature of the China population program or in UNFPA's assistance to China have occurred which would warrant resumption of U.S. support for UNFPA.

Despite the overwhelming evidence of coercion, UNFPA continues to applaud, actually applaud and support and comanage this despicable program. UNFPA also provides extensive cover as part of a cover-up for Beijing's actions. For example, Dr. Nafis Sadik, Executive Director of the UNFPA said on May 24, 1989, that "the UNFPA firmly believes, and so does the Government of the People's Republic of China, that their program is a totally voluntary program."

I do not see anybody here today defending that so-called totally voluntary program, because it is not. The UNFPA, though, defends it.

Mr. Speaker, does anybody in this Chamber assert that this program is voluntary? I have not heard anybody suggesting that today.

Leading Chinese scholars, including Dr. John Aird, who is a former senior research specialist on China for the United States Census Bureau said that the situation has not been abating but getting worse since 1988, and even worse since 1989 began, and decisively worse since Tiananmen Square. In correspondence dated September 27, 1989, Dr. Aird writes:

The evidence is quite clear that despite the denials of the Beijing regime and its foreign apologists, coercion is a central and intentional feature of the Chinese family planning program. Those who maintain that the Chinese program is not coercive, or that the question of coercion in the Chinese program is a "controversial" matter that is still in doubt, or that the program has been greatly moderated since 1983 so that coercion is no longer as issue are simply not in touch with reality.

He goes on to write there has been "marked escalation"; within the last year and a half. The situation had clearly gone from bad to worse.

In their exhaustive 1988 study on population trends in the People's Republic of China, China experts Judith Banister and Karen Hardee-Cleaveland, of the United States Census Bureau, conclude:

Today Chinese couples still are not given a choice about whether they practice family planning, how many children they have, when they have the allowed birth or births, whether or not to sign family planning contracts or what form of birth control they will use. It is forced on them.

Mr. Speaker, one-fifth of the world population is living under this kind of coercion, and of course, the U.N. Population Fund continues to support, comanage, and publicly laud this program.

Mr. Speaker, this outrageous persecution of women, this rape of the women of China by the Government of China, cries out for compassion and decisive action from those committed to human rights. Embracing coercion—which voting "yes" will do—ought to be out of the question.

Finally, Mr. Speaker, the evidence is compelling that China continues to brutally oppress its citizenry—especially its women—by forced abortion, forced sterilization, and other coercive means of population control. UNFPA works hand in hand with the oppressors in Beijing—you know the ones—the folks who told us no one was hurt in Tiananmen Square. UNFPA provides extensive management training, vital demographic support, helps determine birth quotas throughout the country and other assistance, and provides again the best shield against international criticism.

And that cover or shield is desparately coveted by China's population fanatics. After receiving a United Nations award for its population control efforts in 1983, for example, China's senior population official claimed that the award had put the "imprimature of the world body" on China's population control program.

Since China apparently has no immediate interest in changing and UNFPA fronts for the program and award the Chinese with more money and awards, the remedy the congressional supporters of abortion have planned for us is to repeal the law and substitute a sham in its place.

So what if coercion is pervasive—and getting worse—in the People's Republic of China and that the UNFPA encourages and supports it. And the President has made that determination each and every year since 1985. Let's play a little bookeeping trick, let's jiggle the books a bit and set up separate accounts—never mind that money is fungible. Let's engage in a little intellectual fraud, anything to get UNFPA its money. That approach, Mr. Speaker, is a wholesale sham—and absolutely belittles and undercuts U.S. opposition to coercion in population control.

I sincerely hope Members are not fooled today into buying into this shell game. Mr. Speaker, if we reverse current law today, we give the green light to coercion and forced abortions.

Vote "no" on the motion to recede.

Mr. LEHMAN of Florida. Mr. Speaker, I yield the balance of the time to the distinguished majority whip, the gentleman from Pennsylvania [Mr. GRAY].

Mr. GRAY. Mr. Speaker, this is a strange debate. We are told to oppose this funding because it will pay for coerced abortions in China, yet not a dollar of these funds go to China, not a dollar. The bill explicitly prohibits it.

The facts get even stranger. The UNFPA does not fund abortions, period, not in China, not anywhere in the world, and again the bill explicitly prohibits it.

Let me read to you the language of the bill:

Provided further, That none of the funds made available under this heading for the United Nations Population Fund shall be made available for programs for the People's Republic of China.

Provided further, That none of the funds made available under this heading may be used for the performance of abortion as a method of family planning or to motivate or coerce any person to practice abortion.

Mr. Speaker, that is the language of the bill. If you had listened to this debate for the last hour, you would have believed there was something else here.

Then what will a no vote do? It will hurt United State interests abroad,

people in the developing world, particularly in sub-Saharan Africa, where there is a need for maternal and child health services. This program is about healthy babies, healthy mothers, and that is why you ought to vote, "yes."

□ 1610

This program is about healthy babies, healthy mothers, and that is why we ought to vote yes. We ought to read the language, and if we read the language, we will see for ourselves that we have wasted almost an hour of debate about a nonissue, because the bill says either of the things cannot be done that have been debated for the longest time.

My friends, there are people who need health referral, health information, and that is what this is about. It is about it in sub-Saharan Africa and the poor nations of the world.

I urge the Members to vote yes, and I urge them to read before they vote, and when they do, they will find that no money goes to China, and no money can be used for abortions in this bill.

Mr. BATES. Mr. Speaker, I would like to emphasize the importance and necessity of the the United Nations Fund for Population Activities [UNFPA]. The UNFPA provides voluntary family planning assistance to over 140 developing nations where economic development efforts are often overwhelmed by rapid population growth. Of the countries that receive family planning assistance, dozens cannot even feed their people today.

The UNFPA provides alternatives to abortions. It provides women with access to contraceptives and education about birth spacing and maternal and child health.

The United Nations Fund for Population Activities does not pay for abortions in any of the programs it funds anywhere, even in countries where abortion is legal. Furthermore, none of the money can be used in China.

Bringing family planning options to women in developing countries will enable them to improve the quality of their lives and the lives of their children.

If the world's population continues to grow at its present rate of 90 million people per year, the most serious problems facing humanity, including proverty, hunger, and destruction of the environment, will magnify.

In light of these facts, in light of the human suffering caused by uncontrollable population growth, and in light of the fact that we possess the resources to help women control their fertility, it seems to me that we have an obligation to help.

We are not talking about abortion today, we are talking about the right of every woman to be aware of the options she has to control the number of children she will bear before pregnancy makes abortion her only option. I support family planning programs and urge my colleagues to do the same.

Mrs. LLOYD. Mr. Speaker, when the House adopted the foreign aid appropriations bill for fiscal year 1990 earlier this year, it did not include any assistance for the United Nations Fund for Population Activities Fund [UNFPA].

The UNFPA had not been funded by the Congress since 1985 when the House voted to eliminate its earmark because of the Fund's support for the People's Republic of China's population control program.

I have not traditionally supported funding for the UNFPA because of my strong opposition to their support for the coercive and restrictive abortion policy in China and I state unequivocally that I do not condone China's one couple one child coercive abortion policy in any manner.

I do believe, however, that family planning is a matter of global concern and when the Senate moved to include language providing $15 million for the UNFPA, I was very pleased to see that they added a strict stipulation which requires that the UNFPA maintain United States funds in a separate account while strictly prohibiting any United States funds from being made available for programs for the People's Republic of China.

Because of these absolute restrictions on condoning China's one couple one child coercive abortion policy, I am confident that subsequent funding for the UNFPA will be beneficial to the many developing countries in the world in supporting their population control efforts.

Those of us who are concerned about the quality of life recognize that birth control should be readily available in developing nations. We should all be concerned over the plight of children in many nations who are condemned to a life of misery and hunger and we should act responsibly so that their parents have a choice in their family planning decisions. Restoration of funding for the UNFPA, without supporting China's program, is a solid step toward that end.

I think it's important to reiterate the actual language of the bill. It is as follows:

Not less than $15,000,000 of the funds appropriated under this heading shall be made available only for the United Nations population fund: *Provided further*, That the UNFPA shall be required to maintain these funds in a separate account and not comingle them with any other funds: *Provided further*, That none of the funds made available under this heading for the UNFPA shall be made available for programs for the People's Republic of China: *Provided further*, That none of the funds made available under this heading may be used for the performance of abortion as a method of family planning or to motivate or coerce any person to practice abortions; and that in order to reduce reliance on abortion in developing nations, funds shall be available only to voluntary family planning projects which offer, either directly or through referral to, information about access to, a broad range of family planning methods and services . . .

I also believe it is essential that the House adopt language to grant the President of the United States the authority to withhold funds from the UNFPA until he certifies that the UNFPA does not provide support for, or participate in, the management of a program of coercive abortion or involuntary sterilization in China. This is sound language which I strongly support to ensure with absolute certainty that no United States taxpayer dollars will be used to condone China's abhorrent program of population control.

I urge my colleagues to join with me in receding to the Senate language on funding for the UNFPA.

Mr. DORGAN of North Dakota. Mr. Speaker, I rise in support of the Senate amendment to the fiscal year 1990 foreign operations appropriations bill which earmarks and segregates $15 million for the United Nations Fund for Population Activities [UNFPA].

Let me emphasize at the outset that I deplore the coercive birth control policies of the Republic of China. I cannot express how much I object to either coercive sterilization or coercive abortion. The Government of China deserves our condemnation for these practices. We have already done this by voting to give preferential immigration status to Chinese citizens who fear persecution because of their views on coercive birth control.

Opponents of the $15 million account suggest that it will be used to support the Chinese program. But that simply is not the case. The U.S. contribution is earmarked in a separate account which cannot be used to fund any UNFPA activities in China. Furthermore, current U.S. law barring aid for abortions will continue to stand. Furthermore, UNFPA regulations themselves prohibit aid for abortions.

So this debate is not about abortions but about the pressing need for family planning.

We should not deny the benefits of legitimate family planning to millions of poor people in the developing world merely because China pursues its own deplorable policies. Every year, some 90 million births challenge the world's ability to feed and care for all of its people—now numbering 5.2 billion.

The grim reality is that 40,000 people die every day from hunger and complications from severe malnutrition. Surely we must exert ourselves as a wealthy nation to feed the hungry and to provide health care for those plagued by disease.

But we must also offer all parents the hope of family planning so they can care for all of their children. Right now, this hope can only become a reality if family planning education and methods can be delivered to every corner of the globe. So I urge my colleagues to support the $15 million for UNFPA and to find other vehicles to express an outrage, which I share, about China's coercive population control program.

Ms. PELOSI. Mr. Speaker, I rise today in support of language in the conference agreement which earmarks $15 million to the United Nations Fund for Population Activities [UNFPA].

The UNFPA funding is for family planning and cannot be used in China. If we do not fund UNFPA, we ignore the existence of the global population crisis and the consequences we face if we decrease funds for international family planning. It is estimated that in Africa alone by the year 2000, the population will probably grow by over 300 million. In the next 20 years, the current world population of 5.1 billion is likely to increase by one-third. This rapid growth of population, especially in poor, less-developed countries, will make it difficult for people to attain a decent quality of life. Of the 800 million couples of reproductive age in

the world, most of them in the Third World, only 40 percent are estimated to use modern contraceptives.

We have had many debates this year on the issue of a woman's right to choice and many of the Members here do not support a woman's right to choice. Today, we have the opportunity to reduce the number of abortions performed each year, as well as to save women's lives from dangerous pregnancies. Third World women who become pregnant face a risk of death due to pregnancy that is 50 to 200 times higher than women in industrial countries. Many of these deaths could be prevented if proper prenatal care and basic health care were provided to these women.

I urge my colleagues to support the Senate language and allow women in less-developed countries an opportunity to a better quality of life and to a dignified and respectable life.

Mr. LEHMAN of Florida. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCCLOSKEY). The question is, will the House recede from its disagreement to the amendment of the Senate numbered 17?

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. SMITH of New Jersey. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 244, nays 178, not voting 11, as follows:

NOT VOTING—11

Barton	Garcia	Payne (NJ)
Brooks	Michel	Roe
Burton	Mineta	Rostenkowski
Conyers	Molinari	

□ 1630

The Clerk announced the following pairs:

On this vote:

Mr. Payne of New Jersey for, with Mr. Burton of Indiana against.

Mr. Mineta for, with Mr. Barton against.

Mr. DELAY changed his vote from "yea" to "nay."

Mr. ENGLISH changed his vote from "nay" to "yea."

So, the House receded from its disagreement to the amendment of the Senate numbered 17.

The result of the vote was announced as above recorded.

PREFERENTIAL MOTION OFFERED BY MR. SMITH OF NEW JERSEY

Mr. SMITH of New Jersey. Mr. Speaker, I offer a preferential motion.

The Clerk read as follows:

Mr. SMITH of New Jersey moves to concur with the Senate amendment (number 17) with an amendment, as follows: at the end of Senate amendment 17, insert:

Provided further, That notwithstanding the previous provisos, no funds under this heading shall be made available to the United Nations Population Fund unless the President of the United States certifies that the United Nations Population Fund does not provide support for, or participate in the management of, a program of coercive abortion or involuntary sterilization in the People's Republic of China.

The SPEAKER pro tempore (Mr. MCCLOSKEY). The gentleman from New Jersey [Mr. SMITH] will be recognized for 30 minutes, and the gentleman from New York [Mr. MCHUGH] will be recognized for 30 minutes.

The Chair recognizes the gentleman from New Jersey [Mr. SMITH].

Mr. SMITH of New Jersey. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, in talking to some of my colleagues after that previous vote, I found there was a great deal of uncertainty as to what we were actually about on this House floor. Uncertainty as to whether or not we were truly cutting family planning, whether or not this was an antipopulation-control type of issue.

I want to assure Members now that this motion that I am offering, that the intention of the amendment is

very simple, to try to preserve family planning as voluntary and not coercive, to disassociate ourselves from those programs that either comanage or support a program of involuntary sterilization or coercive abortion.

The issue now before the House is very clear. There will be an up or down vote on the motion that I have just offered that is pro-family planning, that very simply says that we will not engage in supporting those organizations that support coercion.

We set up a test whereby the President has to certify whether or not that organization is indeed supporting or comanaging coercion.

I would like to read the language so that Members will take note. I will read it as slowly as I can: "Provided further that notwithstanding the previous provisos, no funds under this heading shall be made available to the United Nations Population Fund unless the President of the United States certifies that the United Nations Population Fund does not provide support for, or participate in the management of, a program of coercive abortion or involuntary sterilization in the People's Republic of China."

The issue could not be clearer. We are talking about whether or not Members want to be on the record supporting an organization that the President then will have determined to have supported or comanaged coercion. We are talking about forced abortion, ladies and gentlemen.

□ 1640

We are talking about involuntary sterilization. I think it is outrageous that in the PRC, the People's Republic of China, more than 100 million abortions occurred since 1979, most of which have been coerced and involuntary.

The issue that will be before the membership is whether or not we want to be part of that, and this language will disassociate us from that, or whether we want to reverse policy of 5 years' standing.

Mr. Speaker, I urge Members to look at the language, look carefully at the language. I urge Members to support this motion to the Mikulski amendment.

Mr. McHUGH. Mr. Speaker, I yield such time as he may consume to the gentleman from Wisconsin [Mr. OBEY], the chairman of the subcommittee.

Mr. OBEY. Mr. Speaker, I would like to ask a question of the gentleman from New Jersey [Mr. SMITH]. I am trying to determine whether or not there is an intention to take the full hour, or whether we can proceed rather quickly to a vote because we still have a lot of amendments to wade through here today.

I yield to the gentleman from New Jersey.

Mr. SMITH. of New Jersey. Mr. Speaker, I would be more than happy to limit debate, if that is the gentleman's intention.

Mr. OBEY. Mr. Speaker, I am trying to find out if the gentleman has any idea how many other people intend to speak.

Mr. SMITH of New Jersey. If the gentleman will continue yielding, we could keep it to three speakers if the gentleman would do likewise, 10 minutes on each side.

Mr. OBEY. Mr. Speaker, I would very much like to see it, if we could work it out informally, because we have a lot of amendments to go. I think we know how the vote is going to come out.

I understand people want to express themselves, but I hope they do it very briefly.

Mr. McHUGH. Mr. Speaker, I yield myself such time as I may consume.

I would urge the Members who voted yes on the last motion to vote no now. Essentially this is the same issue we considered just a few minutes ago.

The gentleman from New Jersey, in effect, would restore current law if his motion is agreed to. Under current law, the President has refused to certify under the Kemp-Kasten provisions that UNFPA is not involved in China impermissibly, and therefore no money has been going to the UNFPA for its programs anywhere in the world. It is for that very reason that the legislative language was included in the Senate bill, and it is for that very reason that we receded to the Senate a few moments ago.

What we have done in light of the President's refusal to certify under current law is to earmark $15 million for UNFPA with the express provisos that the funds cannot be used in China or for abortion.

What the gentleman's motion seeks to do is to reverse what we have just done, to put Members in the same position that we were before we adopted the prior motion. Therefore, if the gentleman's motion is accepted, the UNFPA will get absolutely no contribution from the United States for the programs it now funds in countries other than China, and for programs which are voluntary programs, excluding abortion.

Therefore, I would urge the Members who voted yes on the prior motion to vote no now. It is the very same vote.

Mr. SMITH of New Jersey. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois [Mr. HYDE].

Mr. HYDE. Mr. Speaker, I think this is very simple, and need not take a lot of time on this issue.

It seems to me if Members want to support the United Nations which supports a program, or manages a program of coerced abortion or forced sterilization, then vote no on this. Then Members will end up supporting the U.N. population fund, which, in turn, supports the Chinese program.

On the other hand, if Members are offended by the Chinese program of coercion, then do not help the United Nations which does not take our money and give it to China, but takes some of its own money. Any agency that supports or encourages or facilitates coerced sterilization, coerced abortion, ought to be anathema.

However, if Members want to support that, go right ahead. This is a clear opportunity to say all this money goes for family planning, but so long as the Chinese program is supported by the United Nations, we are not going to support the United Nations. It is that simple. Family planning is supported all over the world, but not through the United Nations, so long as the United Nations supports the Chinese program. It is that simple. Not convoluted at all.

I hope Members will vote yes on this amendment.

Mr. McHUGH. Mr. Speaker, I yield 2 minutes to the gentleman from Wisconsin [Mr. MOODY].

Mr. MOODY. Mr. Speaker, one has to almost wonder if this amendment is germane since it deals strictly with the condition in China. Our last vote decided to help countries other than China.

I think the previous debate and vote made it very clear that this body chooses to help countries other than China through the UNFPA and voluntary family planning activities in poor countries.

This amendment by Representative SMITH would suddenly reverse that. It would restore the Kasten-Kemp language and therefore remove the ability to help those other countries, given President Bush's current policies. So the amendment almost borders on being nongermane since it goes to conditions in China. When the support we just passed does not deal with China.

That measure was carefully crafted to prevent any United States money from going to China through UNFPA, and that is exactly why many Members supported it. This amendment would simply wipe out what we just did, and say that because what is happening in China, which Congress does not approve of, we do not want any UNFPA money going to Bangladesh or Mexico or Haiti or South America or sub-Sahara Africa. We would be saying we do not want any United States family planning money going to UNFPA anywhere on Earth because of what is happening in China.

We just made the decision that what is happening in China is not going to let Members punish other countries.

Do not let it punish other countries. Do not let it punish poor women, poor

families. Please vote no on this amendment.

Mr. HYDE. Mr. Speaker, will the gentleman yield?

Mr. MOODY Mr. Speaker, I yield to the gentleman from Illinois [Mr. HYDE].

Mr. HYDE. The gentleman does not surely mean that South America will be cut out of family planning?

The gentleman knows that the $15 million that will not go to the United Nations will go to International Planned Parenthood for the Western Hemisphere, and as far as I know the Western Hemisphere includes Latin America.

Mr. MOODY. The gentleman is correct, there would be money for family planning in poor countries, but no U.S. money through UNFPA.

Let me remind the gentleman that there are 18 countries in Africa that have no bilateral U.S. AID program. If we want United States support for family planning in, for example, Ivory Coast, Gabon, or Sierra Leone, the only way to do it is through UNFPA. Don't refuse to help those countries.

Mr. SMITH of New Jersey. Mr. Speaker, I yield 2 minutes to the gentleman from Texas.

Mr. ARMEY. Mr. Speaker, it seems to me that this amendment is very clear in its stated purpose and its language. It is an amendment that everybody in this body can vote yes on.

If Members believe that it is the responsibility of the U.S. Federal Government to protect the life of unborn children everywhere, Members can vote yes. If Members believe that we ought to use the taxpayer money for forced abortion and forced sterilization anyplace in the world, Members ought to vote yes. If Members believe that it is a woman's right to unilaterally decide the life or death of an unborn child, Members can still vote yes and protect her from being forced to have an abortion.

If Members believe that family planning should not include abortion of an unborn child, Members can still vote yes.

I would like to know how any Member who fights for the woman's right to unilaterally choose the life and death of a child can justify a no vote on this. That would ask Members to use American tax dollars to support an agency that, in turn, supports a policy of mandating that women must abort the life of their unborn child.

I say vote yes on this and represent all Americans and all beliefs on this critical issue of abortion.

Mr. McHUGH. Mr. Speaker, I yield 2 minutes to the gentleman from Wisconsin [Mr. OBEY].

Mr. OBEY. Mr. Speaker, I will vote with the gentleman from New Jersey. I will vote with the gentleman because I made a commitment to do that, and I stick by my commitments.

However, I do have a request to make of the President before we vote on this bill. It seems to me that if the goal of the President is to discourage abortion, and if the goal of the President is to specifically affect the conduct of the population control program in China, then I do think it would be useful for him to consider following another tack.

□ 1650

It seems to me that we could just as constructively, perhaps even more effectively, affect the conduct of the program in China, which I think none of us likes, if the President would simply appoint a very hardnosed person to represent his views in the U.N. population control program and try to work from within as a contributor to that program to get them to change their evaluation of the Chinese program because I happen to think that the United Nations evaluation of the Chinese program is in error.

I would urge the President, rather than getting us into a position where virtually every single appropriation bill is vetoed and hung up because of an ancillary issue, I would urge the President to look for a more constructive way to deliver our message and to implement our values in these international programs.

Mr. SMITH of New Jersey. Mr. Speaker, in the interest of time, I just want to again say to my colleagues, "Read the language of the amendment. It clearly puts before this House the choice between coercive population control and voluntary."

Please; I urge Members to read the language of the amendment.

Mr. McHUGH. Mr. Speaker, I yield 1 minute to the gentleman from Florida [Mr. LEHMAN].

Mr. LEHMAN of Florida. Mr. Speaker, the old adage is "If you can't beat them, confuse them."

Do not be confused by this amendment. It is simply a mirror image of the vote we just took. If my colleagues voted aye for family planning in the previous question, vote no to defeat this amendment.

Mr. SMITH of New Jersey. Mr. Speaker, I just want to make one final point, and that is, if this amendment were to be adopted, the President would sign this legislation, so that is with regard to the objection that he raised relative to this amendment.

Mr. Speaker, I yield back the balance of my time and I move the previous question.

The previous question was ordered.

The SPEAKER pro tempore (Mr. McCLOSKEY). The question is, Will the House concur in the amendment of the Senate numbered 17 with an amendment?

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. SMITH of New Jersey. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 219, nays 203, not voting 11, as follows:

Conyers	Payne (NJ)	

□ 1711

The Clerk announced the following pair:

On this vote:

Mr. Burton of Indiana for, with Mr. Payne of New Jersey against.

Messrs. BUSTAMANTE, DONNELLY, and MAVROULES changed their vote from "yea" to "nay."

Mr. TRAXLER, Ms. KAPTUR, and Messrs. LEATH of Texas, LANCASTER, GOODLING, HEFNER, and MADIGAN changed their vote from "nay" to "yea."

So the House concurred in Senate amendment No. 17, with an amendment.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 19: Page 12, after line 23, insert:

HEALTH, DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of section 104(c), $125,994,000: *Provided,* That of this amount $2,500,000 shall be made available for the River Blindness Program of the World Health Organization.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 19, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

HEALTH, DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of section 104(c), $125,994,000.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 22: Page 12, after line 23, insert:

EDUCATION AND HUMAN RESOURCES DEVELOPMENT, DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of section 105, $134, 541,000: *Provided,* That $1,500,000 of the funds appropriated under this heading shall be made available for the Caribbean Law Institute: *Provided further,* That not less than $67,270,000 of the funds appropriated under this heading and under the heading "Sub-Saharan Africa, Development Assistance" shall be available only for programs in basic primary and secondary education: *Provided further,* That in each of fiscal years 1990 and 1991, the Agency for International Development shall initiate three new bilateral projects in basic primary and secondary education, at least two of which in each fiscal year shall be initiated in Sub-Saharan Africa: *Provided further,* That not less than $20,000,000 of the funds appropriated under this heading shall be made available for the International Student Exchange Program: *Provided further,* That not less than $1,200,000 of the funds appropriated under this heading shall be made available for the Leadership Center for the Americas program.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 22, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

EDUCATION AND HUMAN RESOURCES DEVELOPMENT, DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of section 105, $134,541,000: *Provided,* That $1,500,000 of the funds appropriated under this heading shall be made available for the Caribbean Law Institute: *Provided further,* That not less than $67,270,000 of the funds appropriated under this heading and under the heading "Sub-Saharan Africa, Development Assistance" shall be available only for programs in basic primary and secondary education: *Provided further,* That in fiscal year 1990 the Agency for International Development shall initiate three new bilateral projects in basic primary and secondary education, at least two of which shall be initiated in Sub-Saharan Africa: *Provided further,* That not less than $20,000,000 of the funds appropriated under this heading shall be made available for the International Student Exchange Program, of which $2,000,000 shall be available, notwithstanding any other provision of law, for students from Poland and Hungary: *Provided further,* That not less than $1,200,000 of the funds appropriated under this heading shall be made available for leadership programs for the Americas that have a demonstrated record of performance: *Provided further,* That not less than $2,000,000 of the funds appropriated under this heading shall be made available, notwithstanding any other provision of law, for technical training for the people of Poland and Hungary in skills which would foster the development of a market economy and the private sector, including training in management and agricultural extension: *Provided further,* That not less than $3,000,000 of the funds appropriated under this heading shall be made available, notwithstanding any other provision of law, for educational and cultural exchanges with Poland and Hungary, which shall be undertaken in cooperation with the United States Information Agency.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 121: Page 38, line 19, after "law" insert ": *Provided further*, That loan guarantee authority available to the Export-Import Bank of the United States may be used by the Bank to participate in the financing of commercial sales of defense articles and services destined for NATO countries".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 121, and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert ": *Provided further*, That loan guarantee authority available to the Export-Import Bank of the United States may be used by the Bank to participate in the financing of commercial sales of defense articles and services destined for Greece and Turkey, notwithstanding any other provision of law: *Provided further*, That the authority provided by the previous proviso shall not be used for the procurement of defense articles or services for use on Cyprus".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 122: Page 40, line 16, after "principal" insert ": *Provided*, That section 224(c) of the Foreign Assistance Act of 1961 is amended by striking out "September 30, 1989" and inserting in lieu thereof "September 30, 1990" ".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 122, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following "for Central America and, notwithstanding any other provision of law, not to exceed $200,000,000 of contingent liability for loan principal for Poland pursuant to the authorities of section 224 of the Foreign Assistance Act of 1961: *Provided*, That section 224(c) of the Foreign Assistance Act of 1961 is amended by striking out "September 30, 1989" and inserting in lieu thereof "September 30, 1990" ".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 132: Page 46, line 17, strike out all after "Act" over to and including "purposes" in line 9 on page 47.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 132, and concur therein with an amendment, as follows: In lieu of the matter stricken by said amendment, insert the following ": *Provided further*, That, notwithstanding any other provision of this Act, any funds made available for the purposes of chapter 1 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961 which are allocated or obligated for cash disbursements in order to address balance of payments or economic policy reform objectives, shall remain available until expended: *Provided further*, That the report required by section 653(a) of the Foreign Assistance Act of 1961 shall designate for each country, to the extent known at the time of submission of such report, those funds allocated for cash disbursement for balance of payment and economic policy reform purposes".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 133: Page 47, line 16, after "Act" insert ": *Provided*, That this section shall not apply to funds made available in this Act for any narcotics-related activities in Colombia, Bolivia, and Peru authorized by the Foreign Assistance Act of 1961 as amended".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 133, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following ": *Provided*, That this section and section 620(g) of the Foreign Assistance Act of 1961 shall not apply to funds made available in this Act for any narcotics-related activities in Colombia, Bolivia, and Peru authorized by the Foreign Assistance Act of 1961, as amended, or the Arms Export Control Act".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 164: Page 63, after line 18, insert:

"(d) EXPORT-IMPORT BANK.—(1) Of the financing provided by the Export-Import Bank under the authorities contained in this Act for the support of exports for the energy sector, not less than 5 per centum of the financing for such support shall be used for renewable energy projects.

"(2) The Export-Import Bank shall take all appropriate steps to finance information exchanges and training whose purpose it is to help link United States producers in the renewable energy sector with assistance programs and potential foreign customers.

"(3) Beginning on April 15, 1990, the Chairman of the Export-Import Bank shall submit an annual report to the Committees on Appropriations on the Bank's implementation of this subsection."

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 164, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

"(d) EXPORT-IMPORT BANK.—(1) Of the financing provided by the Export-Import Bank that is utilized for the support of exports for the energy sector, the Bank shall seek to provide not less than 5 per centum of such financing for renewable energy projects.

"(2) The Export-Import Bank shall take all appropriate steps to finance information exchanges and training whose purpose it is to help link United States producers in the renewable energy sector with assistance programs and potential foreign customers.

"(3) Beginning on April 15, 1990, the Chairman of the Export-Import Bank shall submit an annual report to the Committees on Appropriations on the Bank's implementation of this subsection."

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 169: Page 64, line 26, strike out all after "law" over to and including "Programs" in line 5 on page 65.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 169, and concur therein with an amendment, as follows: In lieu of the matter stricken by said amendment, insert ": *Provided*, That of the funds appropriated under the heading "Private Sector, Environment, and Energy, Development Assistance", $13,500,000 shall be transferred to "International Organizations and Programs" and made available only for the United Nations Afghanistan Emergency Trust Fund".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 185: Page 69, line 24, after "1981," insert "and assistance under subsection (c) of this section,".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 185, and concur therein.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 187: Page 70, after line 2, insert:

(c)(1) The Congress supports the democratic transition underway in Chile, and intends to assist the new democratically elected government, following its inauguration in March of 1990, with assistance to—

(A) strengthen democratic institutions; and

(B) establish a new relationship with the Chilean armed forces appropriate to a democratic system of government.

(2) Of the funds appropriated by this Act under the heading "International Military Education and Training", up to $50,000 may be made available for Chile for fiscal year 1990, subject to the following conditions—

(A) a civilian, democratically elected President is in power in Chile and has requested such funds;

(B) internationally recognized human rights are being respected and the civilian government is exercising independent and effective authority; and

(C) the Government of Chile is making good-faith efforts in attempting to resolve the murders of Orlando Letelier and Ronni Moffitt.

(3) Assistance may be provided under paragraph (1) without regard to the requirements of section 726(b) of the International Security and Development Cooperation Act of 1981.

(d) Section 726(c) of the International Security and Development Cooperation Act of 1981 is amended—

(1) by inserting "(1)" after "export, of"; and

(2) by inserting before the period at the end ", or (2) components, parts, tools, technical manuals, technical changes to technical orders (TCTOs), TCTO retrofits, or related repair services for C-130 E/H aircraft owned by the Chilean Air Force to enhance the safety of the aircraft and its crew and passengers".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 187, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

(c)(1) The Congress supports the democratic transition underway in Chile, and intends to assist the new democratically elected government, following its inauguration in March of 1990, with assistance to—

(A) strengthen democratic institutions; and

(B) establish a new relationship with the Chilean armed forces appropriate to a democratic system of government.

(2) Of the funds appropriated by this Act under the heading "International Military Education and Training", up to $50,000 may be made available for Chile for fiscal year 1990, subject to the following conditions—

(A) a civilian, democratically elected President is in power in Chile and has requested such funds;

(B) internationally recognized human rights are being respected and the civilian government is exercising independent and effective authority; and

(C) the Government of Chile is making good-faith efforts in attempting to resolve the murders of Orlando Letelier and Ronni Moffitt.

(3) Assistance may be provided under paragraph (2) without regard to the requirements of section 726(b) of the International Security and Development Cooperation Act of 1981.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 197: Page 73, after line 11, insert:

(b) Section 506(a) of the Foreign Assistance Act of 1961 is amended by—

(1) inserting "(1)" after "(a)";

(2) striking "(1)" and "(2)" and inserting in lieu thereof "(A)" and "(B)", respectively; and

(3) inserting the following new paragraph:

"(2) If the President determines and reports to the Congress in accordance with section 652 of this Act that it is in the national interest of the United States to draw down defense articles from the stocks of the Department of Defense, defense services of the Department of Defense, and military education and traning, he may direct—

"(A) the drawdown of such articles, services, and the provision of such training for the purposes and under the authorities of chapters 8 and 9 of part I, as the case may be; and

"(B) the drawdown of defense services for the purposes and under the authorities of the Migration and Refugee Assistance Act of 1952.".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 197, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

(b) Section 506(a) of the Foreign Assistance Act of 1961 is amended by—

(1) inserting "(1)" after "(a)";

(2) striking "(1)" and "(2)" and inserting in lieu thereof "(A)" and "(B)", respectively; and

(3) inserting the following new paragraph:

"(2)(A) If the President determines and reports to the Congress in accordance with section 652 of this Act that it is in the national interest of the United States to draw down defense articles from the stocks of the Department of Defense, defense services of the Department of Defense, and military education and training, he may direct—

"(i) the drawdown of such articles, services, and the provision of such training for the purposes and under the authorities of chapters 8 and 9 of part I, as the case may be; and

"(ii) the drawdown of defense services for the purposes and under the authorities of the Migration and Refugee Assistance Act of 1962.

"(B) An aggregate value of not to exceed $75,000,000 in any fiscal year of defense articles, defense services, and military education and training may be provided pursuant to subparagraph (A) of this paragraph.".

(c) Drawdowns made pursuant to section 506(a)(2) of the Foreign Assistance Act of 1961 shall be subject to the regular notification procedures of the Committees on Appropriations.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 201: Page 73, line 22, strike out all after "may" down to and including "enacted" in line 24 and insert "be obligated and expended notwithstanding section 10 of Public Law 91-672 and section 15 of the State Department Basic Authorities Act of 1956".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 201, and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert the following "be obligated and expended notwithstanding section 10 of Public Law 91-672 and section 15 of the State Department Basic Authorities Act of 1996: *Provided*, That of the funds appropriated by this Act for the Economic Support Fund and Foreign Military Financing Program accounts, not more than 33⅓ percent of the amounts made available by this Act for each such account excluding amounts made available for Israel, Egypt, Poland and Hungary, may be obligated and expended prior to March 1, 1990, unless an Act authorizing appropriations for such account has been enacted".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 220, and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert "beneficiary countries of the Caribbean Basin Initiative and Bolivia".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 235: Page 89, line 25, strike out "up to $2,000,000" and insert "such funds as are necessary".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 235, and concur therein with an amendment, as follows: In lieu of the matter stricken and inserted by said amendment, insert "up to $2,000,000, except through the regular notification procedures of the Committees on Appropriations.".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 245: Page 95, after line 6, insert:

MODERNIZATION OF MILITARY CAPABILITIES OF CERTAIN COUNTRIES

SEC. 574. (a) AUTHORITY TO TRANSFER EXCESS DEFENSE ARTICLES.—

(1) NATO SOUTHERN FLANK COUNTRIES.—The President may transfer—

(A) to any NATO southern flank country which is eligible for United States security assistance and which is integrated into NATO's military structure; and

(B) to any major non-NATO ally on the southern and southeastern flank of NATO which is eligible for United States security assistance, such excess defense articles as may be necessary to help modernize the defense capabilities of such country.

(2) MAJOR ILLICIT DRUG PRODUCING COUNTRIES.—Subject to subsection (f), the President may transfer to any country—

(A) which is a major illicit drug producing country,

(B) which has a democratic government, and

(C) whose armed forces do not engage in a consistent pattern of gross violations of internationally recognized human rights, such excess defense articles as may be necessary to carry out subsection (f)(1).

(3) TERMS OF TRANSFERS.—Excess defense articles may be transferred under this section without cost to the recipient country.

(b) LIMITATIONS ON TRANSFERS.—The President may transfer excess defense articles under this section only if—

(1) they are drawn from existing stocks of the Department of Defense;

(2) funds available to the Department of Defense for the procurement of defense equipment are not expended in connection with the transfer; and

(3) the President determines that the transfer of the excess defense articles will not have an adverse impact on the military readiness of the United States.

(c) NOTIFICATION TO CONGRESS.—

(1) ADVANCE NOTICE.—The President may not transfer excess defense articles under this section until thirty days after the President has provided notice of the proposed transfer to the committees specified in paragraph (2). This notification shall include—

(A) a certification of the need for the transfer;

(B) an assessment of the impact of the transfer on the military readiness of the United States; and

(C) the value of the excess defense articles to be transferred.

(2) COMMITTEES TO BE NOTIFIED.—Notice shall be provided pursuant to paragraph (1) to the Committee on Foreign Affairs, and the Committee on Appropriations of the House of Representatives and the Committee on Armed Services, the Committee on Foreign Relations, and the Committee on Appropriations of the Senate.

(d) WAIVER OF REQUIREMENT FOR REIMBURSEMENT OF DOD EXPENSES.—Section 503 does not apply with respect to transfers of excess defense articles under this section.

(e) MAINTENANCE OF MILITARY BALANCE IN EASTERN MEDITERRANEAN.—

(1) UNITED STATES POLICY.—The Congress intends that excess defense articles be made available under this section consistent with the United States policy, established by section 841 of the International Cooperation Act of 1989, of maintaining the military balance in the Eastern Mediterranean.

(2) MAINTENANCE OF BALANCE—Accordingly, the President shall ensure that, over the three-year period beginning on October 1, 1989, the ratio of—

(A) the value of excess defense articles made available for Turkey under this section, to

(B) the value of excess defense articles made available for Greece under this section, closely approximates the ratio of—

(i) the amount of foreign military financing provided for Turkey, to

(ii) the amount of foreign military financing provided for Greece.

(3) EXCEPTION TO REQUIREMENT.—This subsection shall not apply if either Greece or Turkey ceases to be eligible to receive excess defense articles under subsection (a).

(f) MAJOR ILLICIT DRUG PRODUCING COUNTRIES IN LATIN AMERICA AND THE CARIBBEAN.—

(1) PURPOSE.—Excess defense articles shall be transferred under subsection (a)(2) for the purpose of encouraging the military forces of an eligible country in Latin America and the Caribbean to participate with local law enforcement agencies in a comprehensive national antinarcotics program, conceived and developed by the government of that country, by conducting activities within that country and on the high seas to prevent the production, processing, trafficking, transportation, and consumption of illicit narcotic or psychotrophic drugs or other controlled substances.

(2) USES OF EXCESS DEFENSE ARTICLES.—Excess defense articles may be furnished to a country under subsection (a)(2) only if that country ensures that those excess defense articles will be used only in support of antinaroctics activities.

(3) ROLE OF THE SECRETARY OF STATE.—The Secretary of State shall determine the eligibility of countries to receive excess defense articles under subsection (a)(2) and ensure that any transfer is coordinated with other antinarcotics enforcement programs assisted by the United States Government.

(4) LIMITATION.—The aggregate value of excess defense articles transferred to a country under subsection (a)(2) in any fiscal year may not exceed $10,000,000.

(g) DEFINITIONS.—As used in this section—

(1) the term "excess defense article" has the meaning given that term by section 644(g);

(2) the term "made available" means that a good faith offer is made by the United States to furnish the excess defense articles to a country;

(3) the term "major non-NATO ally" includes Australia, Egypt, Israel, Japan, and New Zealand;

(4) the term "NATO" means the North Atlantic Treaty Organization; and

(5) the term "NATO southern flank countries" means Greece, Italy, Portugal, Spain, and Turkey.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 245, and concur therein with an amendment, as follows:

In lieu of the first section number named in said amendment, insert "573".

In lieu of the "section 503" cited in subsection (d), insert "section 632(d) of the Foreign Assistance Act of 1961".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 250: Page 96, after line 12, insert:

EL SALVADOR ECONOMIC SUPPORT FUNDS

SEC. 578. Not less than 25 per centum of the Economic Support Funds made available for El Salvador by this Act shall be used for projects and activities in accordance with the provisions applicable to assistance under chapter 1 of part I of the Foreign Assistance Act of 1961.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 250, and concur therein.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 252: Page 99, after line 15, insert:

STINGERS IN THE PERSIAN GULF REGION

SEC. 580. Except as provided in section 581, the United States may not sell or otherwise make available any Stingers to any country bordering the Persian Gulf under the Arms Export Control Act or chapter 2 of part II of the Foreign Assistance Act of 1961.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 252, and concur therein.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 253: Page 99, after line 15, insert:

STINGERS FOR BAHRAIN

SEC. 581. (a) PREVIOUSLY TRANSFERRED STINGERS.—Notwithstanding section 580, section 573(b)(4) of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1988, and section 566(b)(4) of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1989, shall cease to apply with respect to Stingers made available to Bahrain under those sections if the President determines, and notifies the Committees on Appropriations and the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, that—

(1) the Stingers are needed by Bahrain to counter an immediate air threat or to contribute to the protection of United States personnel, facilities, equipment, or operations;

(2) no other appropriate system is available from the United States;

(3) Bahrain has agreed, in writing, to such safeguards to protect against diversion of

the Stingers as may be required by the United States; and

(4) Bahrain has agreed in writing to return to the possession and control of the United States all Stingers made available under those sections and subsection (b) of this section, other than Stingers which have been fired or otherwise destroyed, at any time the United States determines, subject to subsection (c).

(b) REPLACEMENT STINGERS.—Notwithstanding section 580, Stingers may be made available to Bahrain under the Arms Export Control Act or the Foreign Assistance Act of 1961 after September 30, 1989, in order to replace, on a one-for-one basis, Stingers previously made available under this subsection, section 573 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1988, or section 566 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1989, that have been fired or otherwise destroyed, subject to the following conditions:

(1) DETERMINATIONS.—Replacement Stingers may be made available to Bahrain pursuant to this subsection only if the President makes the determinations specified in paragraphs (1) through (4) of subsection (a).

(2) NOTICE TO CONGRESS BEFORE STINGERS ARE TRANSFERRED.—At least 3 days before making any replacement Stingers available to Bahrain pursuant to this subsection, the President shall notify the committees designated in subsection (a) that he has made the determinations required by paragraph (1). Any such notification shall include the information required in a certification under section 36(b) of the Arms Export Control Act. This paragraph applies without regard to the value of the Stingers to be made available.

(c) RETURN OF STINGERS TO THE UNITED STATES.—All Stingers made available to Bahrain pursuant to subsections (a) and (b), other than those fired or otherwise destroyed, shall be returned to the possession and control of the United States not later than September 30, 1991, unless the President—

(1) determines that each of the conditions specified in subsection (a) continues to apply; and

(2) notifies the committees designated in subsection (a) not later than September 15, 1991, in accordance with the regular reprogramming procedures of such committees, that the United States intends to waive the requirements that the Stingers be returned to the United States by the date specified in the subsection.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 253, and concur therein.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 266: Page 101, line 8, after "has" insert "determined that there is".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 266, and concur therein.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 267: Page 101, after line 13, insert:

(b) Section 610(a) of the Foreign Service Act of 1980 is amended by inserting the following new paragraphs:

"(3) Notwithstanding the hearing required by this section, or procedures under any other provision of law, where there is reasonable cause to believe that a member has committed a crime for which a sentence of imprisonment may be imposed, and there is a nexus to the efficiency of the Service, the Secretary, or his designee, may suspend such member without pay pending final resolution of the underlying matter.

"(4) Any member suspended pursuant to subsection (a)(3) of this section shall be entitled to—

"(A) advance written notice of the specific reasons for such suspension, including the grounds for reasonable cause to believe a crime has been committed;

"(B) a reasonable time, not less than seven days, to answer orally and in writing;

"(C) be represented by an attorney or other representative; and

"(D) a final written decision.

"(5) Any member suspended pursuant to subsection (a)(3) of this section shall be entitled to grieve such action in accordance with procedures applicable to grievances under chapter 11. The Board review, however, shall be limited only to a determination of whether there exists reasonable cause to believe a crime has been committed for which a sentence of imprisonment may be imposed, and whether there is a nexus between the conduct and the efficiency of the Service.".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 267, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

(b) Section 610(a) of the Foreign Service Act of 1980 is amended by inserting the following new paragraphs:

"(3) Notwithstanding the hearing required by this section, or procedures under any other provision of law, where there is reasonable cause to believe that a member has committed a crime for which a sentence of imprisonment may be imposed, and there is a nexus to the efficiency of the Service, the Secretary, or his designee, may suspend such member without pay pending final resolution of the underlying matter, subject to reinstatement with back pay if cause for separation is not established in a hearing before the Board.

"(4) Any member suspended pursuant to subsection (a)(3) of this section shall be entitled to—

"(A) advance written notice of the specific reasons for such suspension, including the grounds for reasonable cause to believe a crime has been committed;

"(B) a reasonable time, not less than seven days, to answer orally and in writing;

"(C) be represented by an attorney or other representive; and

"(D) a final written decision.

"(5) Any member suspended pursuant to subsection (a)(3) of this section shall be entitled to grieve such action in accordance with procedures applicable to grievances under chapter 11. The Board review, however, shall be limited only to a determination of whether there exists reasonable cause to believe a crime has been committed for which a sentence of imprisonment may be imposed, and whether there is a nexus between the conduct and the efficiency of the Service.".

(c) For purposes of the amendments made by subsections (a) and (b) of this section, reasonable cause to believe that a member has committed a crime for which a sentence of imprisonment may be imposed shall be defined as a member of the Service having been convicted of, and sentence of imprisonment having been imposed for, a job-related crime.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 274: Page 102, after line 20, insert:

ASSISTANCE FOR PAKISTAN

SEC. 590. Section 620E(d) of the Foreign Assistance Act of 1961 is amended by striking out "April 1, 1990" and inserting in lieu thereof "April 1, 1991".

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 274, and concur therein with an amendment, as follows: In lieu of the section number named in said amendment, insert "591".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the

motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 275: Page 102, after line 20, insert:

SEPARATE ACCOUNTS

SEC. 591. (a) SPECIAL ACCOUNTS.—If assistance is furnished to the government of a foreign country under chapter 1 of part I (including assistance for sub-Saharan Africa) or chapter 4 of part II of the Foreign Assistance Act of 1961 under arrangements which result in the generation of local currencies of that country, the Administrator of the Agency for International Development shall—

(1) require that local currencies be deposited in a special account established by the government;

(2) enter into an agreement with that government which sets forth—

(A) the amount of the local currencies to be generated, and

(B) the terms and conditions under which the currencies so deposited may be utilized, consistent with this section; and

(3) establish by agreement with that government the responsibilities of the Agency for International Development and that government to monitor and account for deposits into and disbursements from the special account.

(b) USES OF LOCAL CURRENCIES.—As may be agreed upon with the foreign government, local currencies deposited in a special account pursuant to subsection (a), or an equivalent amount of local currencies, shall be used only—

(1) to carry out chapter 1 of part I or chapter 4 of part II (as the case may be), or

(2) for the administrative requirements of the United States Government.

(c) PROGRAMMING ACCOUNTABILITY.—The Agency for International Development shall take all appropriate steps to ensure that the equivalent of the local currencies disbursed pursuant to subsection (b)(1) from the special account established pursuant to subsection (a)(1) are used for the purposes agreed upon pursuant to subsection (a)(2).

(d) TERMINATION OF ASSISTANCE PROGRAMS.—Upon termination of assistance to a country under chapter 1 of part I or chapter 4 of part II (as the case may be), any unencumbered balances of funds which remain in a special account established pursuant to subsection (a) shall be disposed of for such purposes as may be agreed to by the government of that country and the United States Government.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 275, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

SEPARATE ACCOUNTS

SEC. 592. (a) SEPARATE ACCOUNTS FOR LOCAL CURRENCIES.—(1) If assistance is furnished to the government of a foreign country under chapter 1 of part I (including assistance for sub-Saharan Africa) or chapter 4 of part II of the Foreign Assistance Act of 1961 under arrangements which result in the generation of local currencies of that country, the Administrator of the Agency for International Development shall—

(A) require that local currencies be deposited in a separate account established by that government;

(B) enter into an agreement with that government which sets forth—

(i) the amount of the local currencies to be generated, and

(ii) the terms and conditions under which the currencies so deposited may be utilized, consistent with this section; and

(C) establish by agreement with that government the responsibilities of the Agency for International Development and that government to monitor and account for deposits into and disbursements from the separate account.

(2) USES OF LOCAL CURRENCIES.—As may be agreed upon with the foreign government, local currencies deposited in a separate account pursuant to subsection (a), or an equivalent amount of local currencies, shall be used only—

(A) to carry out chapter 1 of part I or chapter 4 of part II (as the case may be), or

(B) for the administrative requirements of the United States Government.

(3) PROGRAMMING ACCOUNTABILITY.—The Agency for International Development shall take all appropriate steps to ensure that the equivalent of the local currencies disbursed pursuant to subsection (a)(2)(A) from the separate account established pursuant to subsection (a)(1) are used for the purposes agreed upon pursuant to subsection (a)(2).

(4) TERMINATION OF ASSISTANCE PROGRAMS.—Upon termination of assistance to a country under chapter 1 of part I or chapter 4 of part II (as the case may be), any unencumbered balances of funds which remain in a separate account established pursuant to subsection (a) shall be disposed of for such purposes as may be agreed to by the government of that country and the United States Government.

(b) SEPARATE ACCOUNTS FOR CASH TRANSFERS.—(1) If assistance is made available to the government of a foreign country, under chapter 1 of part I (including assistance for sub-Saharan Africa) or chapter 4 of part II of the Foreign Assistance Act of 1961, as cash transfer assistance or as non-project sector assistance, that country shall be required to maintain such funds in a separate account and not commingle them with any other funds.

(2) APPLICABILITY OF OTHER PROVISIONS OF LAW.—Such funds may be obligated and expended notwithstanding provisions of law which are inconsistent with the nature of this assistance including provisions which are referenced in the Joint Explanatory Statement of the Committee of Conference accompanying House Joint Resolution 648 (H. Report No. 98-1159).

(3) NOTIFICATION.—At least fifteen days prior to obligating any such cash transfer or non-project sector assistance, the President shall submit a notification through the regular notification procedures of the Committees on Appropriations, which shall include a detailed description of how the funds proposed to be made available will be used, with a discussion of the United States interests that will be served by the assistance (including, as appropriate, a description of the economic policy reforms that will be promoted by such assistance).

(4) EXEMPTION.—Non-project sector assistance funds may be exempt from the requirements of subsection (b)(1) only through the notification procedures of the Committees on Appropriations.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was on objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 276: Page 102, after line 20, insert:

GLOBAL REDUCTION OF POVERTY

SEC. 592. (a) The Congress finds that the reduction of poverty on a global basis is a fundamental goal of United States foreign assistance. Therefore, to measure progress toward that goal, the Administrator of the Agency for International Development shall, in consultation with the Congress and other appropriate governmental agencies and nongovernmantal agencies and nongovernmental organizations, establish a system of quantitative and qualitative indicators of poverty reduction, which shall be established on a country-by-country basis. These indicators shall include the percentage of persons living below the absolute poverty level, rates of infant and child mortality, rates of literacy for men and women, per capita income and purchasing power, rate of employment, and other factors measuring poverty reduction and economic growth as the Administrator of the Agency for International Development shall deem appropriate.

(b) As part of its annual congressional presentation to Congress, the Agency for International Development shall indentify those reduction objectives that have been set for each country receiving development assistance, and the progress that has been achieved in past years and future steps to be taken to achieve them.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 276, and concur therein with an amendment, as follows: In lieu of the section number named in said amendment, insert "593".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the

motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 277: Page 102, after line 20, insert:

INTERNATIONAL MONETARY FUND

SEC. 593. (a) The Secretary of the Treasury shall instruct the United States Executive Director to the International Monetary Fund (IMF) to regularly and vigorously promote the following policy and staffing changes through formal initiatives before the Board and management of the IMF and through bilateral discussions with other member nations:

(1) The addition to the IMF's staff of natural resource experts, and development economists trained in analyzing the linkages between macro-economic conditions and the short- and long-term impacts on sustainable management of natural resources.

(2) The establishment in the IMF of a systematic process to review in advance, and take into account in policy formation, projected environmental, public health, and poverty impacts of each IMF lending agreement.

(3) The establishment in the IMF of long-term sustainable management of natural resources as an integral part of its stabilization and adjustment policies and programs. A central component of such management should be the promotion of energy efficient economies that minimize contributions to global warming and provide for least cost energy use.

(4) The creation of a special facility which concessional lending terms to promote sustainable management of natural resources. Such a facility should direct part of its activities toward reducing the debt burden of developing countries in exchange for domestic investments in conservation and environmental management.

(b) The Secretary of the Treasury shall prepare an annual report to the Congress on the progress made by the United States Executive Director to the IMF in implementing the reforms encompassed in this section.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 277, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

INTERNATIONAL MONETARY FUND

SEC. 594. (a) The Secretary of the Treasury shall instruct the United States Executive Director to the International Monetary Fund (IMF) to regularly and vigorously promote the following policy and staffing changes through formal initiatives before the Board and management of the IMF and through bilateral discussions with other member nations:

(1) The addition to the IMF's staff of natural resource experts, and development economists trained in analyzing the linkages between macro-economic conditions and the short- and long-term impacts on sustainable management of natural resources.

(2) In a manner consistent with the purposes of the IMF, the establishment in the IMF of a systematic process to review in advance, and take into account in policy formation, projected impacts of each IMF lending agreement on the long-term sustainable management of natural resources, the environment public health and poverty.

(3) The creation of criteria to consider concessional and favorable lending terms to promote sustainable management of natural resources. Such capacity should seek the reduction of the debt burden of developing countries in recognition of domestic investments in conservation and environmental management.

(b) The Secretary of the Treasury shall prepare an annual report to the Congress on the progress made by the United States Executive Director to the IMF in implementing the reforms encompassed in this section.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 278: Page 102, after line 20, insert:

EL SALVADOR

SEC. 594. (a) Of the amounts appropriated by this Act under the heading "Foreign Military Sales Program," not more than $90,000,000 shall be available for El Salvador.

(b) SENSE OF CONGRESS.—With respect to the ongoing political unrest and armed conflict in El Salvador, the Congress hereby—

(1) welcomes the negotiating process set in motion on September 13, 1989, in Mexico City by the Government of El Salvador and the leadership of the Farabundo Marti National Liberation Front and the expressed willingness of both parties to continue this process;

(2) urges the parties to these negotiations to achieve, as quickly as possible—

(A) a cessation of hostilities, and

(B) an overall political settlement of the ten-year-old conflict; and

(3) calls upon the Secretary of State to consult frequently with the Congress on the status of the Salvadoran negotiations and on the efforts being undertaken by the President to support these negotiations.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 278, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

EL SALVADOR

SEC. 595. With respect to the ongoing political unrest and armed conflict in El Salvador, the Congress hereby—

(1) welcomes the negotiating process set in motion on September 13, 1989 in Mexico City by the Government of El Salvador and the leadership of the Farabundo Marti National Liberation Front and the expressed willingness of both parties to continue this process;

(2) urges the parties to these negotiations to achieve, as quickly as possible—

(A) a cessation of hostilities, and

(B) an overall political settlement of the ten-year old conflict; and

(3) calls upon the Secretary of State to consult frequently with the Congress on the status of the Salvadoran negotiations and on the efforts being undertaken by the President to support these negotiations.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 279: Page 102, after line 20, insert:

CENTRAL AMERICAN DEVELOPMENT COORDINATION COMMISSION

SEC. 595. (a) FINDINGS.—The Congress finds that multi-donor foreign assistance funds made available to the Central American region should be channeled through regional institutions which have strong participation in decisionmaking by Central Americans to ensure adequate coordination among donors.

(b) ASSISTANCE FOR CADCC.—Upon the request of the governments of Central America, the President shall provide appropriate support and assistance in the development of a coordination mechanism agreed to by the governments of Central America, which shall be designated as the Central American Development Coordination Commission (CADCC). In providing such support and assistance, the President shall, in concert with the governments of Central America, with other nations providing assistance, with the United Nations, and with other concerned international and regional organizations—

(1) encourage and participate in the creation of a multi-donor, multi-sectoral coordinating mechanism known as the CADCC; and

(2) provide not less than $500,000 or more than $1,000,000 of funds appropriated to

carry out chapter 4 of part II of the Foreign Assistance Act of 1961 (relating to the Economic Support Fund) to be used to assist in the implementation of such Commission, and United States participation therein.

(c) FACTORS IN ESTABLISHING CADCC.—In establishing the CADCC, consideration should be given to:

(1) involving representatives from both the public and private sectors, including representatives from the trade unions and business communities, and nongovernmental organizations at the regional level;

(2) involving regional institutions and multi-lateral organizations such as the Inter-American Bank, the Central American Bank for Economic Integration (CABEI), the Central American Monetary Council (CMCA), the Economic Commission for Latin America (ECLAC), the International Bank for Reconstruction and Development, and the United Nations in project design, implementation, and coordination; and

(3) establishing in each country a National Recovery and Development Commission, modeled after the National Reconciliation Commissions called for in the Esquipulas II Accords agreed to by the presidents of the five countries of Central America in Guatemala on August 6-7, 1987.

(d) SECRETARIAT OF THE CADCC.—The United Nations Development Programme shall be designated as the social service and refugee and displaced persons technical assistance secretariat for the CADCC.

(e) ELIGIBILITY FOR ASSISTANCE.—The President is authorized to furnish assistance under this section to each country in Central America which is in compliance with the Esquipulas II Accords.

(f)(1) ENCOURAGEMENT OF MULTILATERAL CONTRIBUTIONS.—The Congress urges the President to take the necessary steps to encourage and secure greater international cooperation in, and support for, implementing the recommendations of the International Commission for Central American Recovery and Development.

(2) It is the sense of the Congress that, in carrying out paragraph (1), the President should exert leadership in multilateral and regional forums, and at economic summits to further a multidonor, multisector solution to the crisis in Central America.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 279, and concur therein with an amendment, as follows: In lieu of the section number named in said amendment, insert "596."

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 283: Page 102, after line 20, insert:

INTERNATIONAL COFFEE AGREEMENT

SEC. 599. It is the Sense of the Congress that the International Coffee Agreement is an important measure in promoting economic and political stability in many developing countries, including Colombia, that the collapse of the Agreement would seriously undermine Colombia's efforts at fighting illegal drugs, and that the Administration should undertake every possible effort to successfully conclude a renewal of the Agreement.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 283, and concur therein with an amendment, as follows: In lieu of the section number named in said amendment, insert "598."

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. the Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 284 page 102, after line 20, insert:

LATVIA, ESTONIA, AND LITHUANIA

SEC. 599A. (a) The Congress finds that—

(1) the Baltic states of Latvia, Estonia, and Lithuania gained their independence from the Russian Socialist Federative Soviet Republic in 1918, a fact recognized by the government of the Russian Socialist Federative Soviet Republic in 1920;

(2) the governments of the Latvian Democratic Republic and the Russian Socialist Federative Soviet Republic (RSFSR) signed a Treaty of Peace in Riga, Latvia on August 11, 1920, in which the RSFSR "establishes the right of self-determination for all nations, even to the point of total separation from the States with which they have been incorporated" and declares that "Russia unreservedly recognizes the independence, self-subsistency and sovereignty of the Latvian State and voluntarily and forever renounces all sovereign rights over the Latvian people and territory which formerly belonged to Russia";

(3) similar treaties were signed by both the Republic of Estonia and the Republic of Lithuania with the RSFSR on February 2, 1920 and July 12, 1920, respectively;

(4) the independently republics of Latvia, Estonia, and Lithuania swiftly recovered from the ravages of World War I and became active in the World community, gaining membership in the League of Nations on September 22, 1921 and full recognition by the United States on July 28, 1922;

(5) the sovereign rights of the independent states of Latvia, Estonia, and Lithuania were violated by the Union of Soviet Socialist Republic in a Secret Protocol to the Nazi-Soviet Treaty of Nonaggression of August 23, 1939, which divided Eastern Europe into Nazi and Soviet "spheres of influence";

(6) the Union of Soviet Socialist Republics coerced the governments of Latvia, Estonia, and Lithuania to sign Pacts of Mutual Assistance in October 1939, which stipulated that the "contracting parties undertake not to enter into any alliances or to participate in any coalitions directed against one of the contracting parties" and that "the carrying into effect of the present pact must in no way affect the sovereign rights of the contracting parties, in particular their political structure, their economic and social system, and their military measures";

(7) the Union of Soviet Socialist Republics violated not only those bilateral agreements with the independent Baltic states but also international conventions on the changing of international borders by force when the Soviet Union issued ultimatums to the three independent nations on June 15-16, 1940, demanding the formation of governments to their liking, followed by armed invasions of Lithuania, Latvia, and Estonia on June 16-17, 1940;

(8) the occupation of the Baltic states was confirmed on July 14-15, 1940, with the irregular and illegal "election" of new parliaments, which then petitioned for admission into the Soviet Union, and these petitions were accepted by the Soviet Union, as follows: Lithuania's on August 3, 1940, Latvia's on August 4, 1940, and Estonia's on August 5, 1940;

(9) Sumner Welles, Acting Secretary of State, declared on July 23, 1940 that "the devious processes whereunder the political independence and territorial integrity of the three small Baltic republics—Estonia, Latvia and Lithuania—were to be deliberately annihilated by one of their more powerful neighbors, have been rapidly drawing to their conclusion. The people of the United States are opposed to predatory activities no matter whether they are carried on by the use of force or by the threat of force. They are likewise opposed to any intervention on the part of one state, however powerful, in the domestic concerns of any other state, however weak. The United States will continue to stand by these principles";

(10) the Government of the United States continues its policy of standing by the 1922 recognition of the de jure independent governments in the Baltic states, and of refusing to recognize the forced incorporation of the Baltic states into the Soviet Union;

(11) the peoples of Latvia, Estonia, and Lithuania have never accepted the occupation of their native lands, and have demonstrated their resolve on numerous occasions since 1940, most notably in the last three years. The most striking demonstration of the desires of the Baltic people took place on August 23, 1989, the fiftieth anniversary of the Nazi-Soviet Treaty of Nonaggression, when nearly 2,000,000 citizens of Latvia, Estonia, and Lithuania joined hands in a 400-mile human chain stretching across the Baltic states from the Estonian capital of Tallinn, through the Latvian capital, Riga, to the Lithuanian capital of Vilnius;

(12) the people of the Baltic states, through their elected representatives in the Popular Front of Latvia, the Popular Front

of Estonia, and the Lithuanian Movement in Support of Perestroika "Sajudis", have declared their desire for the restoration of independence in the Baltic states; and

(13) even the Communist officials and regimes in each of the Baltic states have begun to respond to the drive for more autonomy.

(b) The Congress urges the President—

(1) to raise the issue of the political rights of the Baltic peoples in all diplomatic contacts with the Soviet Union and, more especially, in the talks between Secretary Baker and Foreign Minister Shevardnadze scheduled for later in September 1989; and

(2) to call upon the Soviet Union—

(A) to honor the international agreements it has voluntarily entered into, such as the Final Act of the Helsinki Conference on Security and Cooperation in Europe and the United Nations Declaration of Human Rights, as well as the bilateral agreements it has voluntarily entered into with the independent governments of Latvia, Estonia, and Lithuania,

(B) to allow the people of Latvia, Estonia, and Lithuania their right of self-determination, as guaranteed by the RSFSR in 1920 as well as by the current constitution of the Soviet Union,

(C) to recognize the human rights of all peoples both within the Soviet Union and under Soviet influence, and

(D) to replace the policy of aggressive industrialization in the Baltic states, which has poisoned the land, air, and water of Latvia, Estonia, and Lithuania, with one of environmental responsibility.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 284, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

LATVIA, ESTONIA, AND LITHUANIA

SEC. 599. (a) The Congress finds that—

(1) the Baltic states of Latvia, Estonia, and Lithuania gained their independence from the Russian Socialist Federative Soviet Republic in 1918, a fact recognized by the government of the Russian Socialist Federative Soviet Republic in 1920;

(2) the goverments of the Latvian Democratic Republic and the Russian Socialist Federative Soviet Republic (RSFSR) signed a Treaty of Peace in Riga, Latvia on August 11, 1920, in which RSFSR "establishes the right of self-determination for all nations, even to the point of total separation from the States with which they have been incorporated" and declares that "Russia unreservedly recognizes the independence, self-subsistency and sovereignty of the Latvian State and voluntarily and forever renounces all sovereign rights over the Latvian people and territory which formerly belonged to Russia",

(3) similar treaties were signed by both the Republic of Estonia and the Republic of Lithuania with the RSFSR on February 2, 1920 and July 12, 1920, respectively";

(4) the independent republics of Latvia, Estonia, and Lithuania swiftly recovered from the ravages of World War I and became active in the World community, gaining membership in the League of Nations on September 22, 1921 and full recognition by the United States on July 28, 1922;

(5) the sovereign rights of the independent states of Latvia, Estonia, and Lithuania were violated by the Union of Soviet Socialist Republics in a Secret Protocol to the Nazi-Soviet Treaty of Nonaggression of August 23, 1939, which divided Eastern Europe into Nazi and Soviet "spheres of influence";

(6) the Union of Soviet Socialist Republics coerced the governments of Latvia, Estonia, and Lithuania to sign Pacts of Mutual Assistance in October 1939, which stipulated that the "contracting parties undertake not to enter into any alliances or to participate in any coalitions directed against one of the contracting parties" and that "the carrying into effect of the present pact must in no way affect the sovereign rights of the contracting parties, in particular their political structure, their economic and social system, and their military measures";

(7) the Union of Soviet Socialist Republics violated not only those bilateral agreements with the independent Baltic states but also international conventions on the changing of international borders by force when the Soviet Union issued ultimatums to the three independent nations on June 15–16, 1940, demanding the formation of governments to their liking, followed by armed invasions of Lithuania, Latvia, and Estonia on June 16–17, 1940;

(8) the occupation of the Baltic states was confirmed on July 14–15, 1940, with the irregular and illegal "election" of new parliaments, which then petitioned for admission into the Soviet Union, and these petitions were accepted by the Soviet Union, as follows: Lithuania's on August 3, 1940, Latvia's on August 4, 1940, and Estonia's on August 5, 1940;

(9) the Government of the United States continues its policy of standing by the 1922 recognition of the de jure independent governments in the Baltic states, and of refusing to recognize the forced incorporation of the Baltic states into the Soviet Union;

(10) the peoples of Latvia, Estonia, and Lithuania have never accepted the occupation of their native lands, and have demonstrated their resolve on numerous occasions since 1940, most notably in the last three years. The most striking demonstration of the desires of the Baltic people took place on August 23, 1989, the fiftieth anniversary of the Nazi-Soviet Treaty of Nonaggression, when nearly 2,000,000 citizens of Latvia, Estonia, and Lithuania joined hands in a 400-mile human chain stretching across the Baltic states from the Estonian capital of Tallinn, through the Latvian capital, Riga, to the Lithuanian capital of Vilnius;

(11) the people of the Baltic states, through their elected representatives in the Popular Front of Latvia, the Popular Front of Estonia, and the Lithuanian Movement in Support of Perestroika "Sajudis", have declared their desire for the restoration of independence in the Baltic states; and

(12) even the Communist officials and regimes in each of the Baltic states have begun to respond to the drive for more autonomy.

(b) The Congress urges the President—

(1) to raise the issue of the political rights of the Baltic peoples in all diplomatic contacts with the Soviet Union including during the meeting between President Bush and President Gorbachev in December, 1989 and during the Presidential summit scheduled in 1990 between the United States and the Soviet Union; and

(2) to call upon the Soviet Union—

(A) to honor the international agreements it has voluntarily entered into, such as the Final Act of the Helsinki Conference on Security and Cooperation in Europe and the United Nations Declaration of Human Rights, as well as the bilateral agreements it has voluntarily entered into with the independent governments of Latvia, Estonia, and Lithuania,

(B) to allow the people of Latvia, Estonia, and Lithuania their right of self-determination, as guaranteed by the RSFSR in 1920 as well as by the current constitution of the Soviet Union,

(C) to recognize the human rights of all people both within the Soviet Union and under Soviet influence, and

(D) to replace the policy of aggressive industrialization in the Baltic states, which has poisoned the land, air, and water of Latvia, Estonia, and Lithuania, with one of environmental responsibility.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 286: Page 102, after line 20, insert:

IMPORTATION OF CERTAIN DEFENSE ARTICLES FROM POLAND, CZECHOSLOVAKIA, AND HUNGARY

SEC. 599C. Notwithstanding section 38 of the Arms Export Control Act (22 U.S.C. 2276) or any other provision of law, any article that—

(1) is a defense article for purposes of section 38 of the Arms Export Control Act,

(2) is from Poland, Hungary, or Czechoslovakia,

(3) was imported or temporarily imported into the United States before June 30, 1989, by, or on behalf of, a museum or educational institution that is described in section 5012(c)(3) of the Internal Revenue Code of 1986 and exempt from tax under section 501(a) of such Code,

(4) was manufactured at least 20 years before its importation into the United States,

(5) has been disabled so that no weapon or weapons system is functional, and

(6) is to be used only for display to the public by the museum or educational institution for educational purposes,

shall be considered to have been lawfully imported into the United States and shall be permitted to remain in the United States, and the museum or educational institution shall not be subject to any penalty by reason of such importation.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 286, and concur there-

in with an amendment, as follows: In lieu of the section number named in said amendment, insert "599A."

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 287: Page 102, after line 20, insert:

HUMAN RIGHTS IN CUBA

SEC. 599D. (1) FINDINGS.—The Congress finds that—

(A) the United Nations in 1989 issued its first report on humans rights in Cuba this year, the result of a year-long investigation that concluded on the 30th year of Fidel Castro's rise to power;

(B) the report extensively documented across-the-board human rights abuses that include cases of torture, missing people, religious persecution, violations of civil and political rights and violations of economic and social rights;

(C) The United Nations received 137 complaints of "torture, cruel, inhuman or degrading treatment or punishment";

(D) among the abuses reported to the United Nations were sensory deprivation, immersion in a pit latrine, mock executions, overcrowding in special cells, deafening loudspeakers, keeping prisoners naked in front of relatives, and forcing a prisoner about to be executed to carry his own coffin or dig his own grave;

(E) the United Nations commissioners also charged the Cuban regime with carrying out reprisals against Cuban citizens who offered testimony to the United Nations group, a clear violation of the Castro's government's promise not to harass those who complained about human rights;

(F) at least 22 Cuban human rights activists who were arrested are currently serving prison sentences or being held without trial;

(G) The Human Rights Commission approved a resolution on March 9, 1989, calling on the Cuban government to cooperate with the Secretary General of the United Nations in settling unresolved issues raised by the human rights study group;

(H) since March 9, 1989, the United Nations has failed to take any substantive action to follow up on the March 9 resolution. The United Nations also has failed to intervene on behalf of those who are now imprisoned because of their attempts to testify before the United Nations human rights investigative group last fall.

(2) STATEMENT OF POLICY.—In the interest of promoting respect for human rights in Cuba, the Congress—

(A) calls on the Secretary General of the United Nations to act upon the resolution approved by the Commission on Human Rights March 9, 1989, calling on the Secretary General to take appropriate follow up action on the Commission's report;

(B) calls on the Secretary General to specifically urge the Cuban government to release the 22 persons still being held in detention because of their human rights activities;

(C) calls on the United States Ambassador to the United Nations to make known in the strongest terms the dissatisfaction of the United States with the failure by the United Nations to continue to act on its own resolution; and

(D) calls on the Secretary General of the United Nations to expand the United Nation's investigation of Cuba to include an examination of labor rights in recognition of current Cuban law which prohibits the formation of independent unions and which has led to the imprisonment of those Cuban workers who have tried to organize themselves.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 287, and concur therein with an amendment, as follows: In lieu of the section number named in said amendment, insert "599B".

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 289: Page 102, after line 20, insert:

OFFSETTING ADJUSTMENTS

SEC. 599F. (a) Notwithstanding any other provision of this Act, each amount appropriated, and each allocation of appropriated funds made, by title I of this Act, by title II of this Act (other than the appropriations under the headings "PEACE CORPS" and "PAYMENT TO THE FOREIGN SERVICE RETIREMENT AND DISABILITY FUND"), by title III of this Act shall be reduced by 133 percent. Nothing in this subsection may be construed as applying the reductions required by this subsection to the loan program level under the heading "HOUSING AND OTHER CREDIT GUARANTY PROGRAMS" or to the exercise of authority under the heading "GUARANTY RESERVE FUND".

(b) Notwithstanding any other provision of this Act or, in the case of paragraph (2), any other provision of law (other than sections 1342(a) and 1517 of title 31, United States Code)—

(1) none of the funds made available by this Act or any prior Act shall be expended if such expenditure would cause the total fiscal year 1990 expenditures for Economic Support Fund programs or activities contained in this or prior year Acts to exceed $3,300,636,000; and

(2) not more than $1,700,293,000 shall be expended before October 1, 1990, pursuant to the discretionary budget authority made available by this Act.

(c) Notwithstanding any other provision of this Act, no allocation of funds for, and no expenditures for, Israel or Egypt shall be restricted in any manner in order to accomplish the reductions made in title II or III of this Act by subsection (a) or the limitations made by subsection (b).

(d) To the maximum extent feasible, fiscal year 1990 expenditures for programs, projects, or activities subject to the dollar limitations of paragraphs (1) and (2) of subsection (b) shall be reduced proportionally in order to reflect the lower dollar limitations imposed by those paragraphs.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 289, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

ASSISTANCE FOR POLAND AND HUNGARY

SEC. 599C. (a) In addition to amounts appropriated under the heading "Trade and Development Program", there is hereby appropriated $2,000,000, to remain available until expended, to carry out the provisions of section 661 of the Foreign Assistance Act of 1961, notwithstanding any other provision of law.

(b) Notwithstanding any other provision of this Act, any funds made available by this Act for a specific activity for Poland or Hungary instead may be obligated for Poland or Hungary for an activity with a similar purpose. The authority of section 515 of this Act may also be used to deobligate such funds and reobligate them for Poland or Hungary for an activity with a similar purpose: *Provided*, That the authority of this subsection shall be exercised subject to the regular notification procedures of the Committees on Appropriations.

(c) Funds made available by this Act and obligated for the Government of Poland shall not be expended if the President of Poland, or any other Polish official, initiates martial law without the consent of the Polish Senate and Sejm, or if members of the Polish Senate or the Sejm are removed from office or are arrested through extra-constitutional processes: *Provided*, That, notwithstanding the restriction on expenditures contained in this subsection, the President of the United States may continue to expend funds made available to Poland if he determines and certifies to Congress that it is in the foreign policy interests of the United States to do so.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

Mr. SOLOMON. Mr. Speaker, reserving the right to object, I will not object, but may this gentleman ask

how many more of these amendments there are?

Mr. EDWARDS of Oklahoma. If the gentleman would yield, there are six more.

Mr. SOLOMON. Did they not ever hear of the committee system over there in the other body? Does the gentleman mean they offered 286 amendments on the floor?

Mr. EDWARDS of Oklahoma. If the gentleman would yield further, had the gentleman participated in the conference in which my colleague from Wisconsin [Mr. OBEY] and I participated, he would have far more questions than that to ask about the other body.

Mr. SOLOMON. I think we owe the two gentlemen a merit of valor or something for having put up with all of this.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 290: Page 102, after line 20, insert:

ESTABLISHING CATEGORIES OF REFUGEE APPLICANTS

SEC. 599G. (a)(1) The Attorney General is directed to establish, in consultation with the Secretary of State, categories of refugee applicants which would identify applicants with a strong likelihood of qualifying for admission as refugees due to well established histories of persecution, pursuant to section 207 of the Immigration and Nationality Act.

(2) The following refugee applicants are deemed to be categories established under paragraph (a)(1):

(A) Soviet nationals who are Jews or Evangelical Christians,

(B) Holders of Letters of Introduction in the Orderly Departure Program in Vietnam, who do not immediately qualify for immigrant visas.

(3) The Attorney General may designate other groups of refugee applicants for which such categories may be appropriate, including Soviet nationals who are Ukrainian Catholic and Ukrainian Orthodox.

(b) If a refugee applicant is within any of the categories, he or she may qualify for refugee status by demonstrating one of the following:

(1) acts of mistreatment, or prejudicial actions against him or her personally such as, but not limited to:

(A) inability to study or practice religious beliefs or ethnic heritage; or

(B) denial of access to educational, vocational or technical institutions for which he or she is otherwise qualified, based on membership in one of the above categories; or

(C) adverse treatment in the workplace stemming from prejudicial attitudes toward members of his or her category; or

(2) acts of persecution committed against other persons in his or her category, in his or her geographical locale; or acts, regardless of locale, which give rise to a well-founded fear of persecution; or

(3) instances of mistreatment or prejudicial actions based on his or her personal request to depart his or her homeland, including, but not limited to, loss of home, job, or educational opportunity.

(c) Decisions made to deny applications for refugee status shall be made in writing and shall state, to the maximum extent feasible, the reasons why the application was denied.

(d) Aliens who fall within categories established by this Act, or by the Attorney General pursuant to this Act, and who have been denied refugee status between August 15, 1988 and the date of enactment of this Act, shall be permitted to reapply and shall be readjudicated for refugee status under the terms of this Act.

(e) This section shall take effect on the date of enactment of this Act and shall terminate on September 30, 1990.

PUBLIC INTEREST PAROLE POWER

SEC. 599H. (a) The Attorney General shall, subject to the requirements in subsection (b) and (c) of this section, adjust to lawful permanent resident status those nationals of the Soviet Union or Vietnam who entered the United States on or after September 1, 1988 and before September 30, 1990, through the exercises of his public interest parole power after being denied refugee status.

(b) Soviet or Vietnamese nationals described in this section shall not be eligible for adjustment under subsection (a) unless—

(1) they have been physically present in the United States for at least one year;

(2) they apply for adjustment within one year after the date upon which they become eligible for such adjustment; and

(3) they pay a fee to provide for the processing of their application, as determined by regulation by the Attorney General.

(c) Persons described in subsection (a) shall not be subject to the numerical limitations in section 201(a) or section 202(a) of the Immigration and Nationality Act, but shall be subject to the exclusions in section 212(a) of such Act (except for paragraphs (14) and (28)).

REPORT BY THE COMPTROLLER GENERAL

SEC. 5991. (a) The Comptroller General of the United States shall provide reports to the Committees on the Judiciary of the United States Senate and the United States House of Representatives on the implementation of this provision in Italy and the Soviet Union. Such reports shall include, but not be limited to, the timeliness and length of individual interviews, the adequacy of staffing and funding by the State Department, Immigration and Naturalization Service and voluntary agencies, the denial rates by ethnic or religious group, the sufficiency of the proposed Soviet refugee processing system within the United States, backlogs by ethnic or religious group and the reasons backlogs exist, if they do exist, the sufficiency of the means of distributing and receiving applications in Moscow, to the extent possible, a comparison of the cost of conducting processing only in Moscow as opposed to permitting processing also in Italy, and an evaluation of efforts to phase out Soviet refugee processing in Italy.

(b) The Comptroller General shall provide a preliminary report to the Committees on the Judiciary by December 31, 1989, and a final report no later than March 31, 1990. The final report shall include any recommendations which the Comptroller General may have regarding the need, if any, to extend or revise this provision.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 290, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

ESTABLISHING CATEGORIES OF ALIENS FOR PURPOSES OF REFUGEE DETERMINATIONS

SEC. 599D. (a) IN GENERAL.—In the case of an alien who is within a category of aliens established under subsection (b), the alien may establish, for purposes of admission as a refugee under section 207 of the Immigration and Nationality Act, that the alien has a well-founded fear of persecution on account of race, religion, nationality, membership in a particular social group, or political opinion by asserting such a fear and asserting a credible basis for concern about the possibility of such persecution.

(b) ESTABLISHMENT OF CATEGORIES.—

(1) For purposes of subsection (a), the Attorney General, in consultation with the Secretary of State and the Coordinator for Refugee Affairs, shall establish—

(A) one or more categories of aliens who are or were nationals and residents of the Soviet Union and who share common characteristics that identify them as targets of persecution in the Soviet Union on account of race, religion, nationality, membership in a particular social group, or political opinion, and

(B) one or more categories of aliens who are or were nationals and residents of Vietnam, Laos, or Cambodia and who share common characteristics that identify them as targets of persecution in such respective foreign State on such an account.

(2)(A) Aliens who are (or were) nationals and residents of the Soviet Union and who are Jews or Evangelical Christians shall be deemed a category of alien established under paragraph (1)(A).

(B) Aliens who are (or were) nationals of the Soviet Union and who are current members of, and demonstrate public, active, and continuous participation (or attempted participation) in the religious activities of, the Ukrainian Catholic Church or the Ukrainian Orthodox Church, shall be deemed a category of alien established under paragraph (1)(A).

(C) Aliens who are (or were) nationals and residents of Vietnam, Laos, or Cambodia and who are members of categories of individuals determined, by the Attorney General in accordance with the "Immigration and Naturalization Service Worldwide Guidelines for Overseas Refugee Processing" (issued by the Immigration and Naturalizatin Service in August 1983) shall be deemed a category of alien established under paragraph (1)(B).

(3) Within the number of admissions of refugees allocated for fiscal year 1990 for refugees who are nationals of the Soviet Union under section 207(a)(3) of the Immigration and Nationality Act, notwithstanding any other provision of law, the President shall allocate 1,000 of such admissions for such fiscal year to refugees who are

within the category of aliens described in paragraph (2)(B).

(c) WRITTEN REASONS FOR DENIALS OF REFUGEE STATUS.—Each decision to deny an application for refugee status of an alien who is within a category established under this section shall be in writing and shall state, to the maximum extent feasible, the reason for the denial.

(d) PERMITTING CERTAIN ALIENS WITHIN CATEGORIES TO REAPPLY FOR REFUGEE STATUS.—Each alien who is within a category established under this section and who (after August 14, 1988, and before the date of the enactment of this Act) was denied refugee status shall be permitted to reapply for such status. Such an application shall be determined taking into account the application of this section.

(e) PERIOD OF APPLICATION.—

(1) Subsections (a) and (b) shall take effect on the date of the enactment of this Act and shall only apply to applications for refugee status submitted before October 1, 1990.

(2) Subsection (c) shall apply to decisions made after the date of the enactment of this Act and before October 1, 1990.

(3) Subsection (d) shall take effect on the date of the enactment of this Act and shall only apply to reapplications for refugee status submitted before October 1, 1990.

(f) GAO REPORTS ON SOVIET REFUGEE PROCESSING.—

(1) The Comptroller General shall submit to the Committee on the Judiciary of the Senate and of the House of Representatives reports on the implementation of this section in Italy and the Soviet Union. Such reports shall include a review of—

(A) the timeliness and length of individual interviews,

(B) the adequacy of staffing and funding by the Department of State, the Immigration and Naturalization Service, and voluntary agencies, including the adequacy of staffing, computerization and administration of the processing center in Washington,

(C) the sufficiency of the proposed Soviet refugee processing system within the United States,

(D) backlogs (if any) by ethnic or religious groups and the reasons any such backlogs exist,

(E) the sufficiency of the means of distributing and receiving applications for refugee status in Moscow,

(F) to the extent possible, a comparison of the cost of conducting refugee processing only in Moscow and such cost of processing in both Moscow and in Italy, and

(G) an evaluation of efforts to phase out Soviet refugee processing in Italy.

(2) The Comptroller shall submit a preliminary report under paragraph (1) by December 31, 1989, and a final report by March 31, 1990. The final report shall include any recommendations which the Comptroller General may have regarding the need, if any, to revise or extend the application of this section.

ADJUSTMENT OF STATUS FOR CERTAIN SOVIET AND INDOCHINESE PAROLEES

SEC. 599E. (a) IN GENERAL.—The Attorney General shall adjust the status of an alien described in subsection (b) to that of an alien lawfully admitted for permanent residence if the alien—

(1) applies for such adjustment,

(2) has been physically present in the United States for at least 1 year and is physically present in the United States on the date the application for such adjustment is filed,

(3) is admissible to the United States as an immigrant, except as provided in subsection (c), and

(4) pays a fee (determined by the Attorney General) for the processing of such application.

(b) ALIENS ELIGIBLE FOR ADJUSTMENT OF STATUS.—The benefits provided in subsection (a) shall only apply to an alien who—

(1) was a national of the Soviet Union, Vietnam, Laos, or Cambodia, and

(2) was inspected and granted parole into the United States during the period beginning on August 15, 1988, and ending on September 30, 1990, after being denied refugee status.

(c) WAIVER OF CERTAIN GROUNDS FOR INADMISSIBILITY.—The provisions of paragraphs (14), (15), (20), (21), (25), (28), (other than paragraph (F)), and (32) of section 212(a) of the Immigration and Nationality Act shall not apply to adjustment of status under this section and the Attorney General may waive any other provision of such section (other than paragraph (23)(B), (27), (29), or (33)) with respect to such an adjustment for humanitarian purposes, to assure family unity, or when it is otherwise in the public interest.

(d) DATE OF APPROVAL.—Upon the approval of such an application for adjustment of status, the Attorney General shall create a record of the alien's admission as a lawful permanent resident as of the date of the alien's inspection and parole described in subsection (b)(2).

(e) NO OFFSET IN NUMBER OF VISAS AVAILABLE.—When an alien is granted the status of having been lawfully admitted for permanent residence under this section, the Secretary of State shall not be required to reduce the number of immigrant visas authorized to be issued under the Immigration and Nationality Act.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 291: Page 102, after line 20, insert:

PLAN TO ERADICATE WORST ASPECTS OF POVERTY

SEC. 599J. (a) DEVELOPMENT OF PLAN.—It is the sense of Congress that the President should, in consultation with host country governments, international organizations, and United States and indigenous nongovernmental organizations which represent the poor in developing countries, develop a plan consistent with basic objectives set forth in sections 101 and 102(a) of the Foreign Assistance Act of 1961 to ensure that United States development assistance contributes measurably to eradicating the worst aspects of absolute poverty by the year 2000, and seek international cooperation in achieving the goals developed in the plan.

(b) GOALS OF PLAN.—The plan developed pursuant to paragraph (1) shall include specific measurable poverty-reducing goals and the target dates for reaching these goals, including the following goals for the year 2000:

(1) Reduction of under-five-mortality rates by at least 50 percent of the 1980 mortality rates or to not more than 70 per thousand live births, whichever achieves the greater reduction.

(2) Achievement of universal primary education, and at least 80 percent female literacy for those age groups defined by each country.

(3) Reduction of the proportion of the population living in absolute poverty by at least 50 percent of that proportion in 1980.

(4) Such other specific measurable goals, consistent with the achievement of the basic objective set forth in sections 101 and 102(a) of the Foreign Assistance Act of 1961 as the President determines to be crucial to measurably eliminating the worst aspects of absolute poverty.

(c) SUBMISSION OF PLAN TO CONGRESS.—The President shall submit the plan developed pursuant to this subsection to the Congress not later than 6 months after the date of the enactment of this Act. This plan shall be used by the administering agency in planning and providing funds for development assistance projects under this Act.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 291, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

REPEAL OF PROVISION

SEC. 599F. (a) The following provision under the heading "Salaries and Expenses, General Legal Activities", contained in the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1990 (H.R. 2991), as enacted into law, is hereby repealed: ": *Provided further*, That for fiscal year 1990 and hereafter the Attorney General may establish and collect fees to cover the cost of identifying, copying and distributing copies of tax decisions rendered by the Federal Judiciary and that any such fees shall be credited to this appropriation notwithstanding the provisions of 31 U.S.C. 3302".

(b) The provisions of subsection (a) shall take effect upon the date of the enactment into law of the Department of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 1990 (H.R. 2991).

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

□ 1740

The SPEAKER pro tempore (Mr. MCCLOSKEY). The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 292: Page 102, after line 20, insert:

CONDITIONAL ASSISTANCE FOR EL SALVADOR FOR POLICE TRAINING

SEC. 599K. (a) CONDITIONAL ASSISTANCE.—In order to promote the professional development of the security forces of El Salvador and to encourage the separation of the law enforcement forces from the armed forces of El Salvador, funds made available under chapter 4 of part II of the Foreign Assistance Act of 1961 which are allocated to El Salvador may, notwithstanding section 660 of that Act, be provided to El Salvador for fiscal year 1990 for purposes otherwise prohibited by section 660 of the Act, if the following conditions are met:

(1) The training provided with such assistance is provided by United States civilian law enforcement personnel.

(2)(A) The assistance is to be used for the purposes of professional development and training of the security forces of El Salvador in such areas as human rights, civil law, investigative and civilian law enforcement techniques, and urban law enforcement training.

(B) Any such assistance that is made available for equipment for these forces is intended to be used for the purchase of equipment such as communication devices, transportation equipment, forensic equipment, and personal protection gear. No such assistance may be used for the purchase of firearms.

(3) At least 30 days before obligating such assistance, the President certifies to the Committee on Foreign Affairs and the Committee on Appropriations of the House of Representatives and the Committee on Foreign Relations and the Committee on Appropriations of the Senate that the Government of El Salvador has made significant progress during the preceding 6 months in eliminating any human rights violations, including torture, incommunicado detention, detention of persons solely for their political views, or prolonged detention without trial. Any such certification shall include a full description of the assistance which is proposed to be provided and of the purposes to which it is to be directed.

(4) REPROGRAMMING.—Funds made available under this subsection shall be subject to the regular reprogramming procedures of the Committees on Appropriations.

(b) DEFINITION.—For purposes of this section, the term "civilian law enforcement personnel" means individuals who are not members of the United States Armed Forces.

(c) Not more than $12,000,000 shall be made available in fiscal year 1990 to carry out the provisions of this section and of subsection 534(b)(3) of the Foreign Assistance Act of 1961.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 292, and concur therein with an amendment, as follows: In lieu of the matter proposed by said amendment, insert the following:

CONDITIONAL ASSISTANCE FOR EL SALVADOR FOR POLICE TRAINING

SEC. 599G. (a) CONDITIONAL ASSISTANCE.—In order to promote the professional development of the security forces of El Salvador and to encourage the separation of the law enforcement forces from the armed forces of El Salvador, funds made available under chapter 4 of part II of the Foreign Assistance Act of 1961 which are allocated to El Salvador may, notwithstanding section 660 of that Act, be provided to El Salvador for fiscal year 1990 for purposes otherwise prohibited by section 660 of the Act, if the following conditions are met:

(1) The training provided with such assistance is provided by United States civilian law enforcement personnel.

(2)(A) The assistance is to be used for the purposes of professional development and training of the security forces of El Salvador in such areas as human rights, civil law, investigative and civilian law enforcement techniques, and urban law enforcement training.

(B) any such assistance that is made available for equipment for these forces is intended to be used for the purchase of equipment such as communication devices, transportation equipment, forensic equipment, and personal protection gear. No such assistance may be used for the purchase of any lethal equipment, except for small arms ammunition and rifle ammunition solely for training purposes.

(3) At least 30 days before obligating such assistance, the President certifies to the Committee of Foreign Affairs and the Committee on Appropriations of the House of Representatives and the Committee of Foreign Relations and the Committee on Appropriations of the Senate that the Government of El Salvador has made significant progress during the preceding 6 months in eliminating any human rights violations, including tortue, incommunicado detention, detention of persons solely for their political views, or prolonged detention without trial. Any such certification shall include a full description of the assistance which is proposed to be provided and of the purposes to which it is to be directed. Any such certification shall also include a report on the status of all investigative action and prosecutions with respect to those responsible for the 1980 murders of Archbishop Oscar Romero and the four American churchwomen, the recent murder of Ana Casanova, and the recent bombings of the headquarters of the FENASTRAS union and the office of COMADRES, a human rights organization.

(4) REPROGRAMMING.—Funds made available under this subsection shall be subject to the regular reprogramming procedures of the Committees on Appropriations.

(b) DEFINITION.—For purposes of this section, the term "civilian law enforcement personnel" means individuals who are not members of the United States Armed Forces.

(c) Not more than $5,000,000 shall be made available in fiscal year 1990 to carry out the provisions of this section. Not less than $7,000,000 of the funds made available to carry out the provisions of chapter 4 of part II of the Foreign Assistance Act of 1961 for fiscal year 1990 shall be made available for the purposes of subsection 534(b)(3) of the Foreign Assistance Act of 1961.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 293: Page 102, after line 20, insert:

SEC. 599L. Notwithstanding any other provision of law, the President may provide assistance under chapter 1 of part I or chapter 4 of part II of the Foreign Assistance Act of 1961 for Peru and Bolivia to promote the production, processing, or marketing of all crops which can be economically grown in areas of those countries which currently produce crops from which narcotic and psychotropic drugs are derived.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 293, and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following:

CROPS IN PERU, BOLIVIA AND JAMAICA

SEC. 599H. Notwithstanding any other provision of law, the President may provide assistance under chapter 1 of part I or chapter 4 of part II of the Foreign Assistance Act of 1961 for Peru, Bolivia and Jamaica to promote the production, processing, or marketing of all crops which can be economically grown in areas of those countries which currently produce crops from which narcotic and psychotropic drugs are derived.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the next amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 294: Page 102, after line 20, insert:

LAND REFORM IN EL SALVADOR

SEC. 599M. (a) It is the sense of the Senate that the success and continuation of land reform in El Salvador is vital to United States policy and to political stability, eco-

nomic development and maintenance of democratic institutions in that country.

(b) Therefore, when allocating Economic Support Funds to El Salvador, the President shall take into consideration progress in the Salvadoran Land Reform Program.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 294, and concur therein with an amendment, as follows: In lieu of the matter inserted by said amendment, insert the following:

LAND REFORM IN EL SALVADOR

SEC. 599I. (a) It the sense of the Congress that the success and continuation of land reform in El Salvador is vital to United States policy and to political stability, economic development and maintenance of democratic institutions in that country.

(b) Therefore, when allocating Economic Support Funds to El Salvador, the President shall take into consideration progress in the Salvadoran Land Reform Program.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

The SPEAKER pro tempore. The Clerk will designate the last amendment in disagreement.

The text of the amendment is as follows:

Senate amendment No. 295: Page 102, strike out all after line 20, over to and including line 5 on page 103.

MOTION OFFERED BY MR. OBEY

Mr. OBEY. Mr. Speaker, I offer a motion.

The Clerk read as follows:

Mr. OBEY moves that the House recede from its disagreement to the amendment of the Senate numbered 295, and concur therein with an amendment, as follows: Restore the matter stricken by said amendment, amended to read as follows:

TITLE VI—FUNDING ADJUSTMENTS

REDUCTION OF APPROPRIATIONS

SEC. 601. Each appropriation item, direct loan obligation limit, loan guarantee commitment limit, or obligation limit provided by this Act shall be reduced by 0.43 percent: *Provided,* That such reduction shall be applied proportionally to each program, project, and activity as set forth in section 543 of this Act: *Provided further,* That programs and activities exempt from sequestration under Section 255 of the Deficit Control Act of 1985 shall be exempt from the uniform reduction required by this paragraph.

COUNTER—NARCOTICS PROGRAMS

SEC. 602. For expenses necessary to enable the President to carry out the provisions of the Foreign Assistance Act of 1961 and the Arms Export Control Act, $125,000,000, which shall be made available only for counter—narcotics programs: *Provided,* That none of the funds appropriated under this heading shall be made available except as provided through the regular notification procedures of the Committees on Appropriations.

Strike out Sec. 577 of the House bill and insert:

PROHIBITION ON LEVERAGING AND DIVERSION OF UNITED STATES ASSISTANCE

SEC. 582. (a) None of the funds appropriated by this Act may be obligated or expended for the purpose of furthering any military or foreign policy activity which is contrary to United States law.

(b) None of the funds appropriated by this Act may be used to solicit the provision of funds by any foreign government (including any instrumentality or agency thereof), foreign person, or United States person, for the purpose of furthering any military or foreign policy objective which is contrary to United States law.

(c) Nothing in this section shall be interpreted as in any way interfering with assistance being provided for the voluntary reintegration or relocation of Members of the Nicaraguan Resistance consistent with the Bipartisan Accord on Central American of March 24, 1989, or pursuant to regional peace agreement.

(d) Definitions.—(1) For the purposes of this section the term "any military or foreign policy activity", and "any military or foreign policy objective" includes only

(A) assistance of any kind under the Foreign Assistance Act of 1961;

(B) sales, credits, and guaranties under the Arms Export Control Act; and

(C) export licenses issued under the Arms Export Control Act.

(2) For the purposes of this section the term "contrary to United States law" means those provisions of law which expressly prohibit all United States assistance, or all assistance under a specified United States assistance account, from being provided to any specified foreign region, country, government, group or individual for all or specified activities.

(3) For the purposes of this section, the term "United States assistance account" means an appropriations account contained in this Act.

(e) Nothing in this section shall be construed to limit—

(1) the ability of the President, the Vice President, or any official or employee of the United States to make statement or otherwise express his views to any party on any subject;

(2) the ability of an official or employee of the United States to communicate with any foreign country, government, group, or individual, either directly or through a third party, with respect to the prohibition of this section including the reasons for such prohibitions, and the actions, terms, or conditions which might lead to the removal of the prohibitions of this section.

Mr. EDWARDS of Oklahoma (during the reading). Mr. Speaker, I ask unanimous consent that the motion be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

Mr. OBEY. Mr. Speaker, I would like to be heard on this amendment.

Mr. EDWARDS of Oklahoma. Mr. Speaker, I too, would like to be heard on this amendment.

The SPEAKER pro tempore. The gentleman from Wisconsin [Mr. OBEY] will be recognized for 30 minutes, and the gentleman from Oklahoma [Mr. EDWARDS] will be recognized for 30 minutes.

The Chair recognizes the gentleman from Wisconsin [Mr. OBEY].

Mr. OBEY. Mr. Speaker, I will not take very long I simply want to explain that I am offering an amendment to the amendment to amendment 295 which tries to accommodate the administration's concerns that the leveraging language which they raised questions about in this conference report, their concerns related to the fact that they felt the language was somewhat unclear. Therefore, we simply provide a clarification of the intent of the language in this amendment.

This amendment would do as follows: It would incorporate both elements of the original motion reflecting the conference agreement. Those elements are an across-the-board cut of .43 percent to account for the increased funding for various drug programs, and they provide for $125 million for Contra narcotics program for the Andean countries.

In addition, the amendment would further clarify the leveraging prohibition section 577 of the House bill by doing the following: By making clear that the scope of the provision applies only to assistance provided in the Foreign Assistance Act of 1961; to sales, credits, and guarantees under the Arms Export Control Act and export licenses issued under the Arms Export Control Act. It also makes clear that this amendment has the effect of limiting the prohibition in the bill to apply only to foreign assistance funds and not the multilateral banks or any other funds in this bill used to pay salaries. It makes clear that the scope of the provision applies only to those provisions of law which expressly prohibit U.S. assistance from oeing provided. It clarifies that nothing in this bill shall be construed to limit the ability of the President, the Vice President, or any other U.N. officials to express his or her views on this subject.

This clarification, in my view, gives the President all the authority he needs to conduct whatever foreign policy discussions he wants. It is silent on the issue of intelligence matters because there are no funds of this kind in the bill, and the prohibition does not relate. It prefers the most important aspects of the prohibition, that simply being that it applies to the foreign assistance funds in this bill.

Mr. EDWARDS of Oklahoma. Mr. Speaker, this is a difficult one. We have been working to try to come up

with a solution that would be satisfactory to the executive branch.

As I stated in my remarks during the general debate on this bill, I agree with the concept. A legislation should prohibit any Chief Executive of the United States or his employees from doing those things which are contrary to the laws of the United States. At the same time, we have received a number of objections from the executive branch, for fear that the language that we had put in the bill was overly broad and overly vague, and that it made it very difficult for the executive branch to comply.

We have taken language proposed at various times by officials with the State Department and the White House and used that language to craft a substitute for the language already in this bill, in an effort to move closer toward the White House's position, and to alleviate their concerns.

This new language spells out, in the terms provided for Members by the White House, what assistance means, what contrary to U.S. law means. It spells out clearly it is not a prohibition on the President or the Vice President or their employees from speaking and expressing views on policy with anybody whatsoever.

I have to be very honest with my colleagues and tell them that the White House has not agreed to this substitute language. They still have objections, but I also have to say that I have tried very diligently to get the White House and its attorneys to tell Members what it is they object to. We cannot get an answer. They merely object. I have asked for a very specific rendering of those objectionable provisions so that we might further refine the language and try to change it and make it even more acceptable. I cannot get an answer, merely that "we object." So I have to say, and I will say to my colleague, the gentleman from Wisconsin [Mr. OBEY], the chairman of the subcommittee, that this is not without warning. I told the White House I was going to do it. The only thing I can do is say in all honesty that we do not want to suggest that the White House agrees with this language. We have gone to the White House. We have asked them what is wrong with it, and apparently they cannot find anything wrong with it except they object to it.

I am pleased to support the language. I can tell Members that a great many of my colleagues on this side of the aisle do, as well.

Mr. OBEY. Mr. Speaker, I appreciate the gentleman's comments.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Wisconsin [Mr. OBEY].

The motion was agreed to.

A motion to reconsider the votes by which action was taken on the several motions was laid on the table.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Mr. Kalbaugh, one of his secretaries.

MAKING IN ORDER ON WEDNESDAY, NOVEMBER 15, 1989, OR ANY DAY THEREAFTER, CONSIDERATION OF H.R. 3566, DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 1990

Mr. NATCHER. Mr. Speaker, I ask unanimous consent that it may be in order at any time on Wednesday, November 15, 1989, or any day thereafter, to consider the bill H.R. 3566, making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 1990, and for other purposes, as reported from the Committee on Appropriations.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

MAKING IN ORDER ON WEDNESDAY, NOVEMBER 15, 1989, CONSIDERATION OF H.J. RES. 435, FURTHER CONTINUING APPROPRIATIONS FOR FISCAL YEAR 1990

Mr. NATCHER. Mr. Speaker, I ask unanimous consent that it shall be in order on Wednesday, November 15, 1989, to consider in the House, any rule of the House to the contrary notwithstanding, House Joint Resolution 435, a joint resolution making further continuing appropriations for the fiscal year 1990, and for other purposes, and that debate be limited to 1 hour, the time to be equally divided between the chairman [Mr. WHITTEN] and the gentleman from Massachusetts [Mr. CONTE] and that the previous question shall be considered as ordered on the resolution to final passage without intervening motion, except one motion to recommit.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

□ 1750

MAKING IN ORDER ON WEDNESDAY, NOVEMBER 15, 1989, OR ANY DAY THEREAFTER, CONSIDERATION OF H.R. 3610, DISTRICT OF COLUMBIA APPROPRIATIONS ACT, 1990

Mr. DIXON. Mr. Speaker, I ask unanimous consent that it may be in order at any time on Wednesday, November 15, 1989, or any day thereafter, to consider the bill H.R. 3610, making appropriations for the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the year ending September 30, 1990, and for other purposes, as reported from the Committee on Appropriations.

The SPEAKER pro tempore (Mr. MCCLOSKEY). Is there objection to the request of the gentleman from California?

There was no objection.

SPEAKER'S ACCESS TO INTELLIGENCE MEETINGS AND INFORMATION

Mr. MOAKLEY. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 268 to amend the Rules of the House of Representatives to clarify the right of the Speaker to attend any meeting and to have access to any information in the possession of the permanent Select Committee on Intelligence, and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 268

Resolved, That clause 7(c) of rule XLVIII of the rules of the House of Representatives is amended—

(a) in subparagraph (1) by striking out "subparagraph (2)" and inserting in lieu thereof "subparagraphs (2) and (3)";

(b) in the second sentence of subparagraph (2) by inserting "(other than to the Speaker)" after "available"; and

(c) by inserting at the end thereof the following new subparagraph:

"(3) The select committee shall permit the Speaker to attend any meeting of the committee and to have access to any information in the possession of the committee.".

The SPEAKER pro tempore. The gentleman from Massachusetts [Mr. MOAKLEY] is recognized for 1 hour.

Mr. MOAKLEY. Mr. Speaker, for purposes of debate only, I yield the customary 30 minutes to the gentleman from New York [Mr. SOLOMON], and pending that I yield myself such time as I may consume.

Mr. Speaker, I would like to advise the Chair that all time yielded, during debate on the pending resolution, is yielded for the purposes of debate only.

Mr. Speaker, House Resolution 268 is a privileged report from the Rules Committee that clarifies the right of the Speaker of the House of Repre-

sentatives to attend any meeting and to have access to any information in the possession of the Permanent Select Committee on Intelligence.

Currently under House rule 48, only two designated leadership officials—the majority leader and the minority leader—serve as ex officio members of the Select Committee on Intelligence.

However, as members are aware, the Speaker has always had access by custom and practice of the House to information within the purview of the Permanent Select Committee on Intelligence ever since that committee was created: the Speaker appoints all of the members of the select committee.

In addition, as a member of the "Gang of 8" who consult with the President on the most secret and sensitive intelligence matters, the Speaker has access to information denied to most members of both House and Senate Intelligence Committees.

Mr. Speaker, an interim rule was adopted by the Intelligence Committee in the 101st Congress to ensure the Speaker's right of access to Intelligence Committee meetings and records. It was offered at the suggestion of the minority of the Permanent Select Committee on Intelligence, and the majority concurred in their recommendation.

Mr. Speaker, House Resolution 268, is a resolution that will simplify the interpretation of House Rule 48 and correct the anomaly in current House rules by allowing the Speaker to attend any committee meeting and review any documents in its possession.

Mr. SOLOMON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as my colleague from Massachusetts has indicated, this is a privileged resolution which will enable the Speaker to have routine access to the proceedings and information of the Permanent Select Committee on Intelligence. I believe most members will be as surprised as I was to learn that the Speaker does not, at present, have this opportunity.

This anomaly is House Rule 48 is all the more surprising when we consider the Speaker's unique constitutional position which places him second in the line of succession to the President. Therefore, I support the passage of House Resolution 268. This is a necessary and proper correction in House rules.

The point needs to be made, however, that this change should have been made before the arrangement was worked out whereby a member of the Speaker's staff was given blanket access to all of the Intelligence Committee's information, proceeding with that particular arrangement first, before rule 48 was amended, was not, in my view, a proper thing to do. And even with the change in the rules that we will make today, I would hope that this arrangement would be reexamined.

It is surprising to me that the former professional staff member on the Intelligence Committee who now serves on the Speaker's staff has been placed back on the Intelligence Committee payroll this time at a token salary and with the job designation of clerk. This does not make sense to me, and I suspect it suggests to other members as well that something a little unusual is going on here.

When someone starts out as general counsel and is now designated as a clerk, that person appears to be climbing down the ladder of success—unless some other factor unbeknownst to most of us is also involved. In any event, I do support the resolution before us.

But I also believe, Mr. Speaker, that the time has come to take a good look at what this resolution and all of the other incremental changes affecting the Intelligence Committee add up to. This resolution is the fourth such change this year alone. And the cumulative affects since 1977 of various changes made in the committee's structure and operations needs to be the subject of a comprehensive review.

I had hoped that the presentation of this resolution might have provided such an opportunity. However, the skids had been greased in favor of this resolution long before the Rules Committee even met to discuss it.

As a way of providing further discussion—and, indeed, examination—of what needs to be done, the ranking Republican on the Intelligence Committee, Mr. HYDE, will be making an effort later today to defeat the previous question on the resolution. I will support his motion, and I urge all members to support it. At the very least, defeating the previous question will afford the House an occasion to take a closer look at how the Intelligence Committee operates.

If any member believes that all of the incremental tinkering with the committee, that has taken place over the past 12 years has served to stem the flow of damaging leaks, that members has not been heard from. This very week, for example, a new book has arrived in the bookstores and purports to contain the details of a very serious leak of highly sensitive intelligence data concerning U.S. policy in Central America.

I have no way of knowing if what this book says is true. And even if I did know, I would not make any statement to confirm or deny it one way or the other. But all of us have to be appalled at cases such as this when Members of Congress are cited by name in the public media as sources of leaked information.

Now, I know that the statement will be made by our friends on the other side of the aisle that hearings need to be held before we rush into changes affecting the Intelligence Committee. My point is: Those changes are being made incrementally, by stealth so to speak. Let's see what those changes add up to.

Mr. HYDE has identified several areas that need to be examined and there are probably any number of others. But let's at least get started. And as far as hearings are concerned, House Resolution 268 was introduced on October 18. This kind of rapid movement to the floor suggests that the means are there to consider ideas that are politically advantageous to the majority.

Other bills and resolutions affecting the Intelligence Committee have been languishing in the Rules Committee for many months, in some cases years. So let's not use the need for hearings as an excuse.

I will not steal any more of Mr. HYDE's thunder, and I reserve the balance of my time.

Mr. Speaker, I yield 5 minutes to the distinguished gentleman from Illinois [Mr. HYDE], the ranking Republican of the Permanent Select Committee on Intelligence.

Mr. HYDE. Mr. Speaker, I thoroughly concur in this resolution. I want to make it as clear as I can, but I do think it is an anomaly that the Speaker under our rules is not in the loop. The majority leader is, but not the Speaker, and I think it is unusual, to say the least, and inefficient that the Speaker not understand what is going on in the House Permanent Select Committee on Intelligence because he is certainly the head of the House and is the Speaker.

□ 1800

Now, as a matter of fact, the Speaker has been told and informed what has transpired in our committee from time to time. The only thing that bothers me is that our rules have not permitted that process. Wise and sensible and efficient as it is, it has been outside the rules.

Now, rules are about all there is around here to protect the minority. We are told to observe the rules quite often when it suits people, so it just seems to me we ought to have enough respect for the rules to change them, to accommodate what we all agree needs accommodation, namely, have the Speaker privy to what goes on in our committee.

It also seems to me, rather than to go through the convoluted method that we are, we ought to change the rules to make the Speaker privy ex-officio along with the majority leader, and permit him to designate someone on his staff to provide him with this information, instead of appointing someone on his staff to a dual staff position as a clerk, when clearly his

duties will not be those of a clerk. I do not know why we have to do this the hard way, but ours is not to reason why, and so be it.

I, on the other hand, look upon this as an opportunity to bring to the attention of the House at 6 o'clock in the evening, again unfortunate, but still nonetheless important, a proposal that I have that members of the Intelligence Committee at least take a secrecy oath. We deal with the most sensitive intelligence information in our Government.

Now, an oath is very important. Benjamin Franklin took an oath when he was chairman of the Committee of Secret Correspondence. You take an oath when you are sworn in to this body. You take an oath when you are going to be a witness in court. You take an oath when you are going to serve as a juror. You take an oath when you are married. All solemn occasions, important occasions, require, it seems to me, or at least it is appropriate that they be solemnized by an oath.

We who sit on the Intelligence Committee ought to be hypersensitive to the leaks that go on day after day of sensitive classified information. I do not for a second say that only the House Permanent Select Committee on Intelligence leaks. I would not say our committee leaks at all, but I would say we can do something about one body that has access to this information, members and staff, 12 Democrats, 7 Republicans and staff, by taking an oath of secrecy, just elevates certainly the importance of what we are doing. It raises our consciousness, I was going to say our conscience, too, and that would not hurt, but it impresses on us really the importance of the material we are handling and how we cannot talk about it outside the committee. That needs repetition. That needs emphasis, and all I am asking is that we recognize members of the House Permanent Select Committee on Intelligence are different from the average Member. We have access on a daily basis to some of the most sensitive secrets in the Government. Acknowledge that access by requiring those of us on the committee to at least take the secrecy oath.

Now, if I am successful in defeating the previous question, I will offer such an amendment. I have two other amendments that interest me. One, of course, is for security clearance for every member of the committee. The staff is cleared for security. The members of the executive branch are cleared. I know Members who feel they were elected and are above that. I do not feel that way. I do not mind having a security clearance if one is required, and I would like to require it, because I think the importance of what we are dealing with is critical.

The SPEAKER pro tempore (Mr. MCCLOSKEY). The time of the gentleman from Illinois has expired.

Mr. SOLOMON. Mr. Speaker, I yield 2 additional minutes to the gentleman from Illinois.

Mr. HYDE. Mr. Speaker, I thank my friend for yielding me this additional time.

So what I am asking this body to do, and it is the only way we can do it, is to defeat the previous question, at which point I will offer an amendment requiring members of the Select Committee on Intelligence of the House to take a secrecy oath. All that will do will be to elevate in the minds of people and ourselves the importance, the sensitivity of the secrets that we are daily given and privy to.

Again, I have no objection, I encourage the amendment of the gentleman to the rules to include the Speaker in the loop and to include the Speaker's designee, Mr. O'Neal. I have no problem with that. I want the rules respected, and most importantly, I want us to become conscious of the leaks that go on and perhaps we can set an example, be a paradigm for the Executive, for the other body, that we take our responsiblity seriously.

Leaks are dangerous. They are dangerous to our national security and we ought to set an example where we can.

So I hope you will vote to defeat the previous question so that I may offer the amendment.

Mr. SOLOMON. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Florida [Mr. YOUNG], a former longstanding member of the Intelligence Committee.

Mr. YOUNG of Florida. Mr. Speaker, I rise in support of this resolution.

Frankly, as a former member of the Intelligence Committee, I was quite surprised when I learned the Speaker did not have that direct access, and certainly he should; but I think while we are correcting the rules and while we are doing something about bringing us into compliance with the rules, now is a good time to consider some of the other problems that we have in maintaining the secrecy of our national security secrets.

The gentleman from Illinois [Mr. HYDE] has so eloquently made the point that members of the Intelligence Committee have access to some of the most sensitive national security secrets that our Government has. What he did not point out quite as emphatically is that also members of the staff of that committee have the same type of access.

Mr. Speaker, this is a staggering responsibility. You only have to sit through several hearings or meetings of that committee to realize just how serious this responsibility is.

I think from time to time there have been those who felt that maybe it was not quite as serious and maybe a minor leak did not make any difference. Well, a leak of classified material, whether major or minor or somewhere in-between, is a threat to the Nation's security.

Here is a Wall Street Journal article of just a few days ago talking about a big covert action program that may or may not be in existence. Those on the Intelligence Committee know whether or not this story is true. Those on the Defense Subcommittee that I work on know whether this is true.

The fact is, if it is, it is classified and secret and it should not be released.

I think this is an ideal time while we are considering this resolution to defeat the previous question and to allow amendments to be offered that will in fact create more security for those who have access to the information available through the Intelligence Committee.

I recall not too many years ago before a secret session of this House pointing out to our colleagues, Mr. Speaker, specific cases of leaks from that Intelligence Committee, leaks that I considered to be extremely important. That has got to stop. We cannot have that. A minor leak is almost as bad as a major leak. It is very costly to our national security effort. I think everybody agrees with that, and this is a great time to solve the problem, to put into effect some rules and regulations that we will abide by, that we will go by to make sure that those who serve in those important capacities understand their obligation, understand the seriousness of the responsibility with which they have been entrusted.

Again, the members of that committee and the members of the staff of that committee have access basically to the same intelligence information that the President of the United States reviews on a daily basis. Again I say, that is a staggering responsibility, and members and staff with that kind of access have to understand that.

I believe we can amend this resolution to make it a powerful tool in preserving the national security secrets of our Nation.

Mr. Speaker, I thank the gentleman for yielding me this time. It is an extremely important subject.

Mr. SOLOMON. Mr. Speaker, I yield 2 minutes to the gentleman from Louisiana [Mr. LIVINGSTON], another member of the Permanent Select Committee on Intelligence.

Mr. LIVINGSTON. Mr. Speaker, I hope the Members will support the gentleman from Illinois [Mr. HYDE] and vote no on the previous question.

The Hyde amendment supports the bill and resolution in toto. They do not disagree with them at all, but they address an extraordinary important subject. There are leaks in this Congress. Our Members, our staff have obtained

classified information. Over the years we can read about those divulgences, those instances in which classified secret ultrasensitive information has been divulged to the press. It is an unjustice to the entire Nation when that happens.

□ 1810

All the gentleman from Illinois [Mr. HYDE] does is require in his resolutions that all members and staff of the Intelligence Committee should take a simple oath of secrecy, to undergo security clearances before they gain access to those secrets. The oath is very simple. It says, "I do solemnly swear or affirm that I will not directly or indirectly disclose to any unauthorized person any classified information received in the course of my duties on the Permanent Select Committee on Intelligence except with the formal approval of the committee or the House." It cannot get any more simple than that. It is very basic. It is very fundamental. It underscores to all of the Intelligence Committee members and staff the importance of not disclosing information to unauthorized persons. We should not even have a debate over this. It just seems to me to be so fundamental.

We require at times witnesses who come before us to take an oath of secrecy under penalties of perjury and that sort of thing. It just seems that the people who are receiving that very same information ought to be required to take that simple oath.

I support the Hyde motion. I hope that all of the Members will again vote against the previous question. I would like to see the security clearances imposed, and I urge a no vote on the previous question.

Mr. SOLOMON. Mr. Speaker, I yield 3 minutes to the gentleman from Texas [Mr. COMBEST], a member of the Permanent Select Committee on Intelligence.

Mr. COMBEST. Mr. Speaker, I rise in strong support of this resolution and feel that not only is it proper that the Speaker of the House have information privy to the Committee on Intelligence but that it should have happened a long time ago.

I also rise in strong support of the efforts of the gentleman from Illinois to defeat the previous question so that we can get at what I think are some very, very fundamental issues about the further activities of the House committee, the Permanent Select Committee on Intelligence. Under the arrangement which has been reached and providing the opportunity for the Speaker to have information in the Intelligence Committee is unprecedented in the history of the House Intelligence Committee in that there is a staff member who is serving dual roles, one as a paid staff member by the Committee on Intelligence, one as a paid member of the Speaker's permanent staff.

The question that I would address to the gentleman from California, if he would respond, my concerns would be that we could also ensure, since we are taking an unprecedented situation here, that we could ensure to the rights of the minority leader the same privileges which have been afforded to the Speaker if the minority leader so wished to exercise that option and have a similar type of staff member available to him or her as the case may be in the future on the committee staff.

Mr. BEILENSON. Mr. Speaker, will the gentleman yield?

Mr. COMBEST. I am happy to yield to the gentleman from California.

Mr. BEILENSON. Mr. Speaker, the answer of this gentleman is certainly yes. As far as this gentleman understands, it is totally within the competence of our committee to agree to those kinds of staffing arrangements and, yes, of course, anything that the distinguished minority leader would like in the way of staffing would be, so far as this gentleman is concerned, agreed to by us.

Mr. COMBEST. Mr. Speaker, I appreciate the gentleman's response.

Once again, I would just state that I think that it is very important that the previous question be defeated so that we can discuss very, very significant issues here. I do not know how one can oppose the idea of requiring, at a minimum, and I would much prefer that Members of the House who are members of the Select Committee on Intelligence have to go through security clearances, but at the least should take an oath requiring that they would not divulge any of the information, and I feel that there should be severe penalties for Members of Congress to be paid for divulging classified information.

Mr. SOLOMON. Mr. Speaker, I yield 3 minutes to the gentleman from Florida [Mr. Goss], a member of the Committee on Foreign Affairs, and a very distinguished member of that committee, I might add.

Mr. GOSS. Mr. Speaker, I want to rise in support of Mr. HYDE's proposals and H.R. 268 to share with you my own special perspectives. I believe I am unique among Members of this House as the only former CIA career intelligence officer. I served more than 10 years as an operations officer in the clandestine services—meeting and working discreetly with men and women in foreign areas who support the same democratic principals that have made our country great.

I realize that much of this debate on intelligence leaks has historically focused on the specific dangers of releasing classified information—and how such disclosure hurts a particular project or individual who has endangered himself to provide sensitive information to the U.S. Government.

Yet I believe each and every one of us should consider the broader residual damage which infects our intelligence aparatus when a leak appears on the front pages of our newspapers. When sensitive information hits the news—the impact is felt immediately—worldwide.

Cooperative sources overseas become demoralized, reluctant and fearful. That hurts our intelligence agencies abilities to collect and analyse up-to-date information on topics vital to our national defense. Sources dry up everywhere. Not even our best friends can stick with us if their well being is unnecessarily at risk because of unwitting—or worse yet—witting release of sensitive material to the media.

More troubling—news of intelligence leaks makes it that much harder to develop new contacts. People who had considered meeting confidentially with U.S. Government officials fear their information could be tomorrows' compromising news—and they remain mute.

Sadly some of the strongest criticism of the Panama situation focused on our Government's lack of information. The critics charged that we didn't have enough contacts to really know what was happening. I have to wonder whether potentially cooperative sources remained silent out of fear of leaks.

Those of us who have the privilege of receiving classified information must always remember that leaks have a profound and enduring impact on this Government's ability to collect sensitive information. For this reason I fully endorse Mr. HYDES's efforts to establish reasonable guidelines regarding handling of and access to classified materials.

Mr. Speaker, I would add that I had the privilege of reviewing material prior to some previous legislative action, and in all of my years of being involved in the intelligence business, I have seen no place where compartmentalization is as broken down as it is in the information that is made available to our Intelligence Committee. That is a good thing, but it means extra safeguards. That is an excellent thing. But those extra safeguards have to be in place, and for that reason I think the gentleman from Illinois [Mr. HYDE] is on the right track.

Mr. MOAKLEY. Mr. Speaker, I yield 5 minutes to the gentleman from California [Mr. BEILENSON], the chairman of the Permanent Select Committee on Intelligence.

Mr. BEILENSON. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, for Members who may not be listening carefully, I do want to reiterate the point that some of our

friends across the aisle have themselves made, and that is that the gentleman from Illinois [Mr. HYDE], the gentleman from New York [Mr. SOLOMON], and the others do support the resolution that is before us.

Let me quote just for a moment if I may from the additional views of the Republican members of the Committee on Rules:

House Resolution 268 is aimed at correcting an obscure anomaly in House Rule XLVIII (48), which concerns the organization and activities of the House Permanent Select Committee on Intelligence [HPSCI]. As presently written, rule 48 denies routine access by the Speaker to HPSCI's proceedings and information. * * *

This anomaly in rule 48 appears to be a sin of omission rather than commission. As presently written, Rule 48 provides for two designated leadership officials—the majority leader and the minority leader—to be ex officio members of HPSCI. No mention is made of the Speaker. We find this anomaly to be very surprising, particularly in view of the Speaker's unique constitutional position which places him second in the line of succession to the Presidency.

Accordingly, we support the prompt passage of House Resolution 268. We believe the Speaker should have immediate access to any and all proceedings and information at HPSCI.

We appreciate the gentleman's and the lady's, the gentlewoman from Illinois [Mrs. MARTIN], feelings about this, but I did want to bring it to the attention of all of the Members in case, as I said, they had not been listening all that carefully.

The minority people on the Committee on Rules, however, went on to say, and I quote again just very briefly:

We also believe the time has come to take a careful look at the way in which HPSCI is structured. * * *

Fair enough. Nothing is perfect. Our committee is certainly not perfect, and certainly can be made better. In fact, the two previous chairmen of that committee who still serve in the House, the gentleman from Ohio [Mr. STOKES] and the gentleman from Indiana [Mr. HAMILTON] and I have some proposals of our own that we feel, we ourselves feel, will improve the workings of that committee. Other Members have similar proposals. The gentleman from Minnesota [Mr. OBERSTAR] has submitted a resolution to change some of the rules regarding length of service in terms of service on the committee.

□ 1820

Other Members have submitted various other proposals, perhaps a dozen of which are currently resting before the Committee on Rules to be heard. The gentleman from Illinois [Mr. HYDE] himself, as many Members probably know, has at least one major proposal other than the ones the gentleman spoke of earlier today, the three spoken of earlier today, mainly one to form a single Joint Intelligence Oversight Committee with the Senate to take the place of the two separate Oversight Committees we now have. That is pending too before the Committee on Rules.

I would say to my friends across the aisle and other Members who may be listening, these are all pretty substantive and major proposed changes. Most of them are controversial as well.

Frankly, in this gentleman's opinion, they all need and they all deserve some sorting out, some discussion, some real thought and attention. In short, they need to be the subject of serious and thoughtful and careful committee hearings and of committee markup.

They ought not, any of them, to be offered to the full membership in the manner that these three proposals are being offered today, although as I understand it perhaps only one is being pushed at this moment by my friend, the gentleman from Illinois [Mr. HYDE].

What is being proposed today in the resolution before us is a very modest change, one which I think all Members agree does not and did not require a great deal of consideration, other than the half hour or 40 minutes or so it might have taken in the Committee on Rules late last week.

The gentlemen across the aisle supported this themselves, and they stated themselves it corrects an oversight, an anomaly in the rules as they currently are.

I would say finally to my friends, and they are my friends, across the aisle, the gentleman from Illinois, the gentleman from New York, and the other gentlemen as well who have participated in this debate so far this evening, that this Member, as chairman of our committee, intends to ask the Committee on Rules to take up the whole slew of proposals that various Members have submitted concerning the makeup and the workings of the Permanent Select Committee on Intelligence early next year when we are back in session, when we are back in Washington.

We will have the opportunity at that time, as I think in truth and fact we do not have now, to take up and carefully consider these several proposals, some of which this Member believes have some considerable merit.

So I ask Members to approve this particular resolution, which is not opposed, and get on with the business of ending the session, if at all possible, in the next few days.

We will certainly revisit many, if not all, of the measures in the proposals which our friends across the aisle have spoken about today, and many others as well.

Mr. SOLOMON. Mr. Speaker, before yielding the balance of our time to the gentleman from Illinois [Mr. HYDE], let me just take a minute to first of all praise the gentleman from California [Mr. BEILENSON], our chairman, and the gentleman from Illinois [Mr. HYDE], our ranking member, for the outstanding job they have done.

We in this Congress feel very comfortable with the gentlemen in their respective positions. We wish it was reversed.

Let me just say also that the gentleman from California [Mr. BEILENSON] read from the minority views, and the gentleman is correct, and I concur with what was read. We do urge the Members to vote for this resolution. It is an anomaly in the rules and it should be corrected.

Mr. Speaker, Let me point out that of the leaks we see and hear about, probably 99 percent of them are unintentional. That is too bad. But I believe that if the gentleman from Illinois [Mr. HYDE] is successful in defeating the previous motion and is allowed to offer his secrecy oath amendment, that is going to make the Speaker and myself and every Member of this House more aware of all the information that we receive day by day, year in and year out, that it could be classified, and we do have a responsibility.

So I hope the Members back in their offices would come over here, vote to defeat that previous question, and then after the successful passage of the amendment of the gentleman from Illinois [Mr. HYDE], let Members vote from this resolution, which is a good resolution.

Mr. Speaker, I yield the balance of our time to the gentleman from Illinois [Mr. HYDE], the ranking member.

The SPEAKER pro tempore. (Mr. MCCLOSKEY). The gentleman from Illinois is advised he has 6 minutes.

Mr. HYDE. Mr. Speaker, I certainly hope I do not use the 6 minutes. At this point I do not intend to.

Let me just say in response to the gentleman from California [Mr. BEILENSON] that he has no idea how delighted I am that he has indicated support for hearings on some of these issues.

My proposal for a Joint House and Senate Intelligence Committee, which, by the way, is supported by every living and at least one deceased, that I know of, Director of the Central Intelligence Agency, the Vice President, and many other intelligence professionals, has been languishing in the Bermuda Triangle that sometimes makes up a corner of the Committee on Rules since August of 1984, 5 years.

I wrote repeatedly to the predecessor of the gentleman from Massachusetts [Mr. MOAKLEY], the very esteemable Mr. Pepper, but he never quite got around to scheduling hearings. I hope

the remarks of the chairman of our committee are prophetic.

Let me also point out that hearings sometimes are used to delay things. I do not say that is a suggestion here, but I would point out we have expanded our committee without hearings, and it would seem to me shrinking our committee without hearings would be appropriate. But if we do get hearings, at least as I say, that is something.

Mr. Speaker, I am going to ask that the previous question be defeated. Not to defeat the gentleman's great resolution, important resolution, because it will pass in any event. I do not think any Member objects to it. But I wish to offer an amendment to it to require Members of the House permanent Select Committee on Intelligence to take an oath of secrecy, to swear that they will not reveal the very sensitive, highly classified information Members get on a daily basis.

This is simply to psychologically impress upon Members, myself and all of us, the importance of the information we are getting, the importance to our allies, to our national security, to our military forces, to the intelligence community.

We are different from other Members in that we meet in a very segregated place that is swept for listening devices. One has to get through doors and be recognized.

It seems to me that taking an oath simply solemnizes something that we admit deserves solemnity, importance.

So taking the oath, it seems to me, is a minimal step toward emphasizing the need for secrecy. Therefore, since it applies to all Members, there is certainly no partisan intent. It is just meant to elevate in the minds of all Members the importance of preserving secrecy.

Mr. Speaker, I appreciate the courtesy that we have received. I look forward to the hearings on the joint bill, and on restructuring the committee, which is now 12 to 7. I would like to see it 7 to 6. Actually, I would like to see a joint committee, but that is an argument for another day.

I thank the Speaker for his indulgence and courtesy. I want to commend the gentleman from Massachusetts [Mr. MOAKLEY] for being courteous and patient and understanding, and the gentleman from California [Mr. BEILENSON] for doing a superb job as leader of our committee.

Mr. SOLOMON. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mrs. KENNELLY. Mr. Speaker, I rise in strong support of House Resolution 268, which would make clear that the Speaker may attend any meeting of the Intelligence Committee or have access to information available to the committee. Like many members of the committee, I was surprised to note that the Speaker's relationship to the Intelligence Committee was not clearly spelled out by the rule. Obviously, this is a necessary change, one that should have been made in 1977 when the rule was adopted.

In any event, I want to note that insofar as I can determine, the committee has never operated in a fashion that questioned the right of the Speaker to have complete access to the Intelligence Committee. It was always understood. In fact, I always thought that one of the great advantages of choosing our former colleague, Eddie Boland, as the first chairman of the Intelligence Committee was that he enjoyed Speaker O'Neill's unreserved trust. Tip O'Neill counted on Eddie Boland to keep him informed of intelligence matters that required his attention as Speaker.

Mr. Speaker, this is simply a technical correction of the House rules. It is, as far as I can determine, supported by both leaderships and by all the members of the Intelligence Committee on both sides.

I want to point out, however, that the proposals that have been offered by our friend from Illinois [Mr. HYDE], which seek other changes in the rule, do not enjoy bipartisan support. Mr. HYDE has explained his proposals as an effort to prevent leaks. I reject the underlying assumption that the Intelligence Committee in this House has been responsible for leaks while I have been a Member. I find some of these proposals, such as requiring security clearances for Members of Congress, who like the President and Vice President are elected constitutional officers of the Government, inconsistent with both the Constitution and the best traditions of this body. I don't think we need security oaths to supplement the oath of office that we all take in the well of this House when we are sworn in. When this suggestion was brought up in the Intelligence Committee earlier this year, it was rejected. My own view is that it offered a rhetorical rather than a real solution to any imagined security problem.

Mr. Speaker, I urge the adoption of the resolution.

Mr. MOAKLEY. Mr. Speaker, I have no further requests for time. However, prior to bringing this matter to a vote, I wish to make very clear to Members what we are voting on.

The pending resolution makes a very small amendment in the Rules of the House to clarify that the Speaker may have access to certain records of the Intelligence Committee. There is no disagreement with the rule, and the minority supports it.

The vote on the previous question is intended to obtain some kind of vote on a large package of rules changes proposed by the gentleman from Illinois. His amendments, are contained in House Resolution 279, which was introduced only 14 days ago. Obviously, neither the Rules Committee nor the Intelligence Committee have had an opportunity to seriously review these rules.

Mr. HYDE. Mr. Speaker, would the gentleman yield?

Mr. MOAKLEY. I yield to the gentleman from Illinois.

Mr. HYDE. Mr. Speaker, I just want to suggest that I am only going to offer the one amendment, to require an oath of secrecy by the members of the Permanent Select Committee on Intelligence. I will not offer the security clearance, although I would like to, and I will not offer the restructuring of the committee. I would like to, but I will not. It is just the one, the oath of secrecy.

Mr. MOAKLEY. Mr. Speaker, neither House Resolution 279, nor any part of it is germane to the pending resolution. I fully expect the previous question to be ordered.

However, if the Hyde amendment were to be considered, I would make a point of order on germaneness, and I anticipate that the point of order would be sustained.

So I do want Members to understand that a vote against the previous question does not provide any opportunity to vote on the amendment.

The resolution is an important matter and should not be delayed by unrelated issues. I urge the House to order the previous question on the resolution, and I move the previous question.

Mr. Speaker, I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. HYDE. Mr. Speaker, I object to the vote on the ground that a quorum is not present, and make a point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 245, nays 176, not voting 12, as follows:

NOT VOTING—12

Brooks	Florio	Morella
Burton	Garcia	Payne (NJ)
Conyers	Mineta	Rostenkowski
Dickinson	Molinari	Whitten

□ 1849

The Clerk announced the following pair:

On this vote:

Mr. Payne of New Jersey for, with Mr. Burton of Indiana against.

Mr. McCANDLESS changed his vote from "yea" to "nay."

Mr. CONDIT changed his vote from "nay" to "yea."

So the previous question was ordered.

The result of the vote was announced as above recorded.

The SPEAKER pro tempore (Mr. McCLOSKEY). The question is on the resolution.

The resolution was agreed to.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to the provisions of clause 5 of rule I, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 4 of rule XV.

Such rollcall votes, if postponed, will be taken tomorrow.

NATIONAL EMERGENCY WITH RESPECT TO IRAN—MESSAGE FROM THE PRESIDENT OF THE UNITED STATES (H. DOC. NO. 101-109)

The SPEAKER pro tempore laid before the House the following message from the President of the United States; which was read and, together with the accompanying papers, without objection, referred to the Committee on Foreign Affairs and ordered to be printed.

(For message, see proceedings of the Senate of today, Tuesday, November 14, 1989.)

PERSONAL EXPLANATION

Mr. DENNY SMITH. Mr. Speaker, I would like the record to show that I was incorrectly paired on the final passage of H.R. 1465, the comprehensive oilspill liability bill, when it was voted on by the full House last Thursday, November 9, 1989.

I would like to take this opportunity to set the record straight. I was unable to be in the House Chamber for the final passage vote. Had I been there, I would have voted for the bill. In my absence, I requested that my vote be paired for the bill. I support the bill as a strong step toward protecting our environment, and ensuring that any future spill will be cleaned up.

Unfortunately, I was incorrectly paired on this vote, so it appeared that I voted against the bill. I would ask unanimous consent that the permanent RECORD of the House be corrected to accurately reflect my position in favor of this bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

There was no objection.

HURRICANE HUGO FORESTRY RESTORATION ACT

Mr. DE LA GARZA. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3482) to provide disaster assistance to private timber producers for the reestablishment of timber stands necessitated by Hurricane Hugo, as amended.

The Clerk read as follows:

H.R. 3482

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Hurricane Hugo Forestry Restoration Act".

SEC. 2. COST-SHARE ASSISTANCE.

(a) ESTABLISHMENT.—For the purpose of encouraging tree owners to reestablish stands of trees damaged by Hurricane Hugo, the Secretary of Agriculture shall develop and implement a cost-share program to provide financial assistance to owners of private timber stands that were damaged, as determined by the Secretary, in 1989 by Hurricane Hugo. This assistance shall only be made available in those counties or equivalent local subdivisions in South Carolina, North Carolina, Virginia, Puerto Rico, and the United States Virgin Islands declared by the President to be disaster areas as a result of Hurricane Hugo and any county or subdivision contiguous to those counties or subdivisions.

(b) ELIGIBLE PRACTICES.—Practices eligible for cost-share assistance under this Act are—

(1) reforestation;

(2) site preparation; and

(3) such other timber stand reestablishment practices as may be prescribed by the Secretary.

(c) PRIVATE TIMBER STANDS.—(1) For the purpose of this Act, the term "private timber stand" means a stand of trees dam-

aged by Hurricane Hugo held continuously during the period described in paragraph (2) for commercial purposes by a private individual, group, association, corporation, Indian tribe or other native Indian group, or other legal entity, owning 1,000 acres or less of land planted to trees, except agencies of Federal, State, or local governments. Such term does not include a stand of trees transferred after the date on which such stand was damaged by Hurricane Hugo except for a stand of trees transferred by bequest, devise or inheritance, or acquired from a decedent by reason of death because of the form of ownership (including trees acquired through the exercise or nonexercise of a power of appointment).

(2) The period referred to in paragraph (1) is the period beginning on the date on which such trees were damaged by Hurricane Hugo and ending at the time the request is made for assistance under this Act.

(d) INDIVIDUAL FOREST MANAGEMENT PLANS.—The Secretary may provide assistance under this Act only after a management plan for the private timber stand has been developed by the holder of the stand in cooperation with, and approved by, the State forester or equivalent State official. Such management plan shall—

(1) include provision for the replacement of the timber stand through reforestation by tree plantings or other means; and

(2) be the basis for an agreement between the holder and the Secretary under subsection (e).

(e) COST SHARE.—The Secretary shall enter into agreements to share the cost of implementing eligible practices with holders who agree to implement those eligible practices. The amount of the Federal cost-share (including labor) for an eligible practice shall be 75 percent of the total cost of implementing eligible practices. The Secretary may consider, in determining the total cost of implementing eligible practices, any revenue from the sale of timber from private timber stands.

(f) DEADLINE.—Requests for assistance under this Act must be filed with the Secretary not later than December 31, 1993.

(g) TRANSFER.—The Director of the Federal Emergency Management Agency may transfer to the Secretary of Agriculture to carry out the provisions of this Act an amount not to exceed $100,000,000 of the funds provided under the section 108(a) of the fiscal year 1990 Dire Emergency Supplemental to Meet the Needs of Natural Disaster of National Significance (Public Law 101-130), if the Director notifies the Committee on Agriculture of the House of Representatives, the Committee on Appropriations of the House of Representatives, the Committee on Agriculture, Nutrition, and Forestry of the Senate, and the Committee on Appropriations of the Senate at least 15 days prior to such transfer.

(h) PAYMENT LIMITATION.—The total amount of payments that a person shall be entitled to receive under this Act may not exceed $50,000. The Secretary shall issue regulation defining the term "person" which shall conform, to the extent practicable, to the regulations defining the term "person" issued under section 1001 of the Food Security Act of 1985 (7 U.S.C. 1308).

(i) REGULATIONS.—The Secretary shall issue regulations to implement the provisions of this Act as soon as practicable after the date of the enactment of this Act, without regard to the requirement for notice and public participation in rulemaking prescribed in section 553 of title 5, United States Code or in any directive of the Secretary.

The SPEAKER pro tempore. Is a second demanded?

Mr. MORRISON of Washington. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Texas [Mr. DE LA GARZA] will be recognized for 20 minutes and the gentleman from Washington [Mr. MORRISON] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. DE LA GARZA].

Mr. DE LA GARZA. Mr. Speaker, I rise today in support of H.R. 3482, as amended, the Hurricane Hugo Forestry Restoration Act.

As a survivor of the many hurricanes that have struck the south Texas coastline, I can attest firsthand to the devastating effects of a hurricane on the people and the land.

Hurricane Hugo left a path of destruction in its wake as it wound its way up through the Southeastern United States from its origins in the Caribbean. Puerto Rico and the U.S. Virgin Islands, as well as North and South Carolina and parts of Virginia, bore the brunt of the storm and suffered the greatest damage.

As the television cameras revealed after the hurricane had departed, cities like Charleston, SC, and the surrounding communities were, for a time, crippled in the wake of the storm. However, thanks to the emergency services provided by the Red Cross, and the Federal Emergency Management Agency [FEMA], these areas are recovering.

Less visible than the damage incurred by places like Charleston, was the damage sustained by rural areas. Of particular concern was the damage to forestlands and timber, which, in dollar terms, is a substantial portion of the damage done by Hugo.

Timber and wood fiber production is the lifeblood of many of the areas in North and South Carolina and Virginia affected by the hurricane. Unfortunately, the damage done to forest lands and timber resources by Hugo will severely hamper the ability of these areas to recover from the effects of the storm.

The force of Hugo in these areas, as well as in Puerto Rico and the Virgin Islands, literally wrenched trees from the ground and scattered them across the landscape. Many of the trees left standing were broken off at mid-height, rendering them useless for timber production. Much of the timber was blown down as if to resemble a child's game of pick up sticks.

The destruction to woodlands that resulted has a number of short and long term consequences for the affected areas. The most urgent problem is that this downed timber, as it dries, will serve as a source of fuel and greatly increase the risk of wildfires this spring. If action is not taken in short order to alleviate this problem, the region could face devastating forest fires in the near term.

In the long run, the damage done to these forests will affect the economies of the communities in the region, and limit their ability to rebound from the storm. With an abundance of wood fiber now, remaining markets for wood pulp are likely to plummet, making it difficult to justify the costs of harvesting what remains. However, failing to salvage the downed and damaged timber will further increase the risk of wildfire and interfere with efforts to reforest the area.

H.R. 3482, as amended, will help to deal with both the short-term problem of clearing downed and damaged timber and long-term need to reforest damaged areas to promote their reestablishment and development as potential sources of future commercial timber.

Specifically, H.R. 3482, as amended, would establish a cost-share assistance program to benefit private forest land owners of 1,000 acres or less who suffered timber stand losses due to Hurricane Hugo. Assistance would be available for: First, reforestation; second, site preparation; and third, other timber stand reestablishment practices prescribed in a forest management plan to be developed by the landowner.

Each individual seeking such assistance must work with the State forester or equivalent State officials to develop an individual forest management plan. This plan, which is to be approved by that official, must include provisions for the reforestation of the stand affected by Hugo, and is to serve as the basis for agreements between the timber holder and the Secretary for cost-share assistance. This process for completing forest management plans and developing agreements to obtain cost-share assistance is thus intended to be administered in a manner which is similar to the way in which the Forest Service currently administers its Forestry Incentives Program [FIP].

H.R. 3482 permits the Secretary to consider any revenue from the sale of timber from private timber stands damaged by the hurricane in determining the total cost of implementing eligible practices by the timber holder. In this way, the Secretary may adjust the amount provided for an approved cost-share practice to take into consideration the landowner's ability to pay. In addition, any individual would be prohibited from receiving more than $50,000 in Federal cost-share assistance under the act.

Finally, H.R. 3482 would authorize the transfer of $100 million from FEMA to USDA for implementation of this act, upon prior notification of the affected committees. These funds were previously allocated for such purposes under section 108(a) of the fiscal year 1990 Dire Emergency Supplemental To Meet the Needs of Natural Disaster of National Significance (Public Law 101-130).

Mr. Speaker, I want to compliment the gentleman from South Carolina [Mr. TALLON], for introducing this legislation. I also want to thank the chairman of the Agriculture Subcommittee on Forests, Family Farms, and Energy, the Honorable HAROLD VOLKMER, for convening a hearing in Moncks Corner, SC, soon after the hurricane, to hear from those affected and to survey the damage first hand. His interest in this issue and the urgency which he placed on this matter upon his return from that field hearing, have helped to bring this bill to the House today. I must also thank the chairman of the Committee on Appropriations, Mr. WHITTEN, for his assistance in helping to develop appropriate language to provide funding for this bill.

Mr. Speaker, I urge my colleagues to support H.R. 3482, as amended.

Mr. MORRISON of Washington. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the measure before us is as described by our distinguished chairman of the Committee on Agriculture, the gentleman from Texas [Mr. DE LA GARZA]. This is an effort to recognize the tremendous amount of damage done by Hurricane Hugo and to provide for a cost-share program on getting certain areas of South Carolina, North Carolina, Virginia, Puerto Rico, and the Virgin Islands reforested.

Mr. Speaker, it is a reasonable measure. It restricts the eligibility to smaller land owners. It requires individual forest plans, has a payment limitation, which I think is important to us so that money goes as far as possible and transfers the fund from the Federal emergency management area.

Mr. Speaker, this is a reasonable answer to a distressing circumstance, and I urge the passage of this measure.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to the gentleman from Missouri [Mr. VOLKMER], a distinguished chairman of the subcommittee.

Mr. VOLKMER. Mr. Speaker, I rise in support of H.R. 3482, the Hurricane Hugo Forestry Assistance Act. I commend the sponsor of the legislation, the gentleman from South Carolina [Mr. TALLON], for bringing the matter to our attention and for his flexibility in addressing concerns with the original bill. I also wish to thank the ranking member of our subcommittee, Mr. MORRISON, as well as Chairman DE LA GARZA and Mr. MADIGAN, for their cooperation in expediting consideration of this bill through the committee.

Mr. Speaker, our subcommittee held a field hearing in Moncks Corner, SC, last week to review the damage caused by Hurricane Hugo to forest resources. We heard from a number of witnesses, but I doubt if any of our members were prepared for the sight we witnessed as we toured the area. Entire stands of timber were virtually obliterated. Mature trees were twisted and snapped, leaving 20-foot tall snags in their place. Woody debris covered the ground over hundreds of thousands of acres.

According to Forest Service estimates, Hurricane Hugo damaged or destroyed about 6.7 million board-feet of sawtimber in South Carolina alone, more than three times the State's normal annual harvest. Nearly three-fourths of the sawtimber stands in the coastal Francis Marion National Forest sustained heavy blowdown.

The vast amounts of downed timber represents an unprecedented potential fuel supply for wildlife in the region. Clearing the debris soon will be necessary in order to avoid widespread forest fires as the timber dries.

Damages to forests have also caused economic hardships. Many nonindustrial, private landowners, in particular, have lost a significant portion of their timber.

In addition to these immediate problems, the severe damage to forest resources will be evident for decades. Even if all affected lands are completely reforested, it will take years to replace growth that was lost. Some of the lands will not be reforested, which will serve to compound the damage. The nonindustrial, private landowners, who account for a significant share of the region's forest lands, are unlikely as a group to have the capital to invest in reforestation.

Existing Federal salvage and reforestation assistance programs are inadequate for damage of this magnitude. Current funding levels for programs such as the agricultural conservation program and forestry incentive program could provide only marginal assistance in this situation. In addition, existing programs are not intended to address many of the unique problems associated with a widespread forestry disaster of this type, such as the threat of wildfire.

To address the problems created by the hurricane, H.R. 3482 established a Federal Cost-Share Assistance Program. Persons who own 1,000 acres or less of forest land are eligible for 75 percent Federal cost-share for both tree planting and site preparation, including clearing timber debris left by the storm. In this way, the program will provide assistance to meet long-term reforestation needs as well as to reduce the more immediate wildfire danger.

This bill also provides for the transfer of up to $100 million from funds appropriated for disaster assistance to the Federal Emergency Management Agency, to the Secretary of Agriculture to carry out the Cost-Share Program. This funding level may still fall short of the needs of the affected areas, but more adequately addresses these needs than current program funding levels.

I want to emphasize that this is not a wide-open bail-out bill. The committee recognizes the present budget constraints, and has added reasonable limits to this program. In addition to the 1,000-acre woodland ownership ceiling, Federal payments are capped at a maximum of $50,000 for any one person.

Once again, Mr. Speaker, I commend the gentleman from South Carolina for his hard work in this matter, and I urge an "aye" vote on this bill.

□ 1900

Mr. DE LA GARZA. Mr. Speaker, I yield such time as he may consume to the gentleman from South Carolina [Mr. TALLON], the author of the legislation we are considering.

Mr. TALLON. Mr. Speaker, I would like to personally thank the chairman, the gentleman from Texas [Mr. DE LA GARZA], the subcommittee chairman, the gentleman from Missouri [Mr. VOLKMER], and also the subcommittee members, the gentleman from Alabama [Mr. HARRIS], the gentleman from California [Mr. HERGER], the gentleman from Virginia [Mr. OLIN], who came to a timber hearing in South Carolina 2 weeks ago to personally review the damage, the incredible damage that was wrought on over 4 million acres of timberland in just a 6-hour period of time.

Also, I would like to thank the gentleman fom Michigan [Mr. TRAXLER], of the Subcommittee on Appropriations who has jurisdiction over our FEMA and, or course, the Appropriations Committee chairman, the gentleman from Mississippi [Mr. WHITTEN] for their support of this legislation.

Mr. Speaker, I rise in strong support of H.R. 3482, legislation to provide replanting and clearing assistance to timber farmers damaged by Hurricane Hugo.

Almost 2 months ago, South Carolina was devastated by the worst storm of this century.

We have had a half million people displaced, a quarter of million out of work and damage to physical property exceeding $4 billion.

It will take us years to recover.

But, as the people of our State begin the long, painful process of piecing their lives and belongings back together, it has become clear that one of the greatest casualties was our forests.

This should not come as a great surprise. Timberland accounts for 12.2 million acres of 63 percent of South Carolina's total land area. Of that, 68 percent is owned by nonindustrial private landowners. Little guys use this as a savings account. They have used it to finance their children's education, for collateral for operating loans on small family farm operations, and many, many other very personal things, but it is all gone now, because Hugo prematurely harvested over 3 years' worth of South Carolina's timber, the State's largest cash crop. It left over 6.5 billion board feet of saw timber on the ground.

Mr. Speaker, that is just enough to build 470,000 homes, and for a $4.3 billion industry, this sort of damage is crippling for the entire State's economy.

One of my constituents said, "It looks like a giant walked through the forest and snapped off trees. Trees 30 inches in diameter are snapped like twigs."

Perhaps even more threatening is the enormous amount of debris from the pine forests littering almost all of the acreage in my district and much across the State. Right now my district is a forest fire waiting to happen. It's a powder keg.

Yet unlike other crop producers, timber farmers have no real Federal assistance program to fall back on.

Congress enacted the Disaster Assistance Act of 1989 to provide disaster assistance payments to farmers who suffered losses in production due to damaging weather including hurricane.

As well, the Farmers Home Administration has low interest emergency loans for loss of farms and equipment.

But the timber farmer is largely left to his own devices.

This is bad news for those concerned about the production and conservation of the 4 million-plus acres affected by Hurricane Hugo.

H.R. 3482, which was originally introduced by the entire South Carolina delegation and members of the North Carolina delegation, would set up a cost-sharing program for the clearing and reforestation of timber acreage damaged by Hurricane Hugo. I wanted to note as well that Puerto Rico, while it does not have counties per se, would be eligible for these funds.

This program will encourage tree owners to reestablish their damaged stands by assisting in the reforestation of damaged stands, site preparation, and other necessary timber stand reestablishment.

It recommends that FEMA provide up to $100 million for this program and assumes 75 percent of the cost of implementation for private timber stands of 1,000 acres or less. A payment limitation of $50,000 is also put into place.

This program is modeled on the Forestry Incentive Program which has been extremely effective in encouraging reforestation but which if funded at current levels would take 111 years to reforest South Carolina.

Mr. Speaker, timber is a costly, long-term investment.

Most of South Carolina's small timber owners simply don't have the means to clear debris or replant damaged and destroyed stands.

In the long term this will be a severe blow to our national conservation efforts and to South Carolina's economy. In the short term it will mean forest fires the like of which this country has never seen.

I urge my colleagues to help prevent even further disaster and to let South Carolina, North Carolina, and Puerto Rico begin to restore their most important natural resource—her forests.

Mr. DE LA GARZA. Mr. Speaker, I yield 1 minute to our distinguished colleague, the gentleman from South Carolina [Mr. SPRATT].

Mr. SPRATT. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I rise to urge support for H.R. 3482, the Hurricane Hugo Timber Assistance Act.

Hurricane Hugo devastated timber throughout the Carolinas and caused great damage in Puerto Rico and the Virgin Islands as well. In South Carolina, timber is our largest cash crop, and forest products are the State's third largest manufacturing industry. The paper and forest products industry create 40,000 jobs and generate over $4 billion in income each year.

Until Hugo, the benchmark for hurricanes was Camille. Hugo destroyed 5 times as much saw timber as Camille and 20 times as much pulpwood. Hugo destroyed more timber than Hurricanes Frederick and Camille, the Yellowstone wildfires, and Mount St. Helens combined. In South Carolina, the State hardest hit, 6.7 million board feet with a value estimated at $1 billion lie on the ground. Stands of trees that individual growers planted and nurtured for decades, hoping to harvest for retirement or education of their children or grandchildren, were demolished or vastly diminished in value. Many of these growers do not have the incentive, much less the resources, to reforest their tracts. Their loss was uninsurable, and despite all the disaster programs offered by FEMA, the Small Business Administration, and the Department of Agriculture, there is nothing offering any real relief for timber growers.

This bill would give timber growers help in reforesting. It would authorize $100 million in Federal cost-sharing to help pay for reforestation. It redirects $100 million which Congress already has appropriated for FEMA to the U.S. Department of Agriculture. It applies only to individuals owning less than 1,000 acres of land planted in trees; for these timber growers, the Government would share 75 percent of the cost of reforestation. Payments under the bill would be available only in counties in South Carolina, North Carolina, Puerto Rico, and the U.S Virgin Islands that were designated as disaster areas by the President following the hurricane and in counties contiguous to those counties, where damage was sustained. The measure specifies that no person may receive more than $50,000 in cost-sharing payments, and that all requests for such assistance must be filed with the U.S. Department of Agriculture [USDA]. Many timber owners whose land was devastated will have trouble making mortgage payments on their property and are in no position to hear the total cost of tree replanting. This bill will provide aid and relief they critically need.

Indirectly, this bill will deal with another disaster waiting to happen: forest fires. With millions of cords of timber on the ground, our forests are becoming tinder boxes. Once the dry season begins in February, lightning or an accidental spark or arsonists could cause entire forests to go up in flames. Since most of these timber stands surround farms and rural homes and communities, thousands of residences will be in jeopardy. This bill cannot fully remove the risk, but it will help reduce the danger by making debris removal a site preparation cost which the Government will share.

This bill does not begin to give timber growers in my State all they need to be whole again after Hugo. But if timber growers hit by Hugo are ever to recover and reforest their tracts, this type of assistance is absolutely essential. I urge my colleagues to join me and vote for this bill.

Mr. KANJORSKI. Mr. Speaker, I rise today in strong support of H.R. 3482, the Hurricane Hugo Assistance Act of 1989. As a Representative of an area that has experienced the devastation that can be wrought by hurricanes, I know first-hand the long-term economic and environmental damage they are capable of causing.

After the immediate destruction caused by Hurricane Hugo is cleaned up—the houses are rebuilt and the roads repaired—much of the Nation's attention is likely to wander elsewhere. South Carolina, North Carolina, the Virgin Islands, and Puerto Rico, however, will feel the economic ramifications for years to come.

Congress must make it clear that we too have a sense not only of the immediate needs, but also what should be done to encourage long-term economic recovery.

Timbering is South Carolina's hurricane-impacted No. 1 cash industry, and the hurricane destroyed a large part of that crop. Staff members of both the Banking and Post Office and Civil Service Committees recently conducted an investigative trip to the area. As a member of both committees, I was very interested in their report, and they have identified reforestation as one of the top priorities if economic recovery is to occur.

Mr. Speaker, H.R. 3482 is a sensible means of encouraging economic recovery in an area that has already suffered a great loss. I rise today in support of the bill, and urge my colleagues to do the same.

Mr. DE LA GARZA. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCCLOSKEY). The question is on the motion offered by the gentleman from Texas [Mr. DE LA GARZA] that the House suspend the rules and pass the bill, H.R. 3482, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

CLARIFYING THE FOOD SECURITY ACT OF 1985

Mr. DE LA GARZA. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3620) to clarify the Food Security Act of 1985, as amended.

The Clerk read as follows:

H.R. 3620

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. AMENDMENT AFFECTING THE 1989 CROPS.

Effective only for the 1989 crops, subparagraph 1001(5)(D) of the Food Security Act of 1985 (7 U.S.C. 1308(5)(D)) is amended to read as follows:

"(D)(i) Except as provided in clause (ii), any person that conducts a farming operation to produce a crop subject to limitations under this section as a tenant that rents the land for cash (or a crop share guaranteed as to the amount of the commodity to be paid in rent) and that makes a significant contribution of active personal management but not of personal labor shall be considered the same person as the landlord unless the tenant makes a significant contribution of equipment used in the farming operation.

(ii) A tenant that because of any act or failure to act would otherwise be considered the same person as the landlord under clause (i) shall not be considered the same person as the landlord if the Secretary has at any time made a determination, for purposes of this section, regarding the number of persons with respect to the tenant's operation on such land for the 1989 crop year and the landlord did not consent to or knowingly participate in such act or failure to act.

(iii) Any tenant that would be considered to be the same person as the landlord but for the operation of clause (ii) shall be eligible to receive any payment specified in paragraph (2) or subtitle D of title XII with respect to such land only to the extent that the tenant would be eligible for such payments if the tenant were to be considered the same person as the landlord under the regulations in place immediately prior to the enactment of this subparagraph.".

SECTION 2. AMENDMENT AFFECTING THE 1990 CROPS.

Effective only for the 1990 crops, subparagraph 1001(5)(D) of the Food Security Act of 1985 (7 U.S.C. 1308(5)(D)) is amended to read as follows:

"(D) Any person that conducts a farming operation to produce a crop subject to limitations under this section as a tenant that rents the land for cash (or a crop share guaranteed as to the amount of the commodity to be paid in rent) and that makes a significant contribution of active personal management but not of personal labor shall be ineligible to receive any payment specified in paragraph (2) or subtitle D of title XII with respect to such land unless the tenant makes a significant contribution of equipment used in the farming operation.".

SEC. 3. EQUITABLE RELIEF.

Nothing in this Act shall be construed in any way to limit the authority of the Secretary to provide equitable relief under any provision of law.

The SPEAKER pro tempore. Is a second demanded?

Mr. EMERSON. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Texas [Mr. DE LA GARZA] will be recognized for 20 minutes, and the gentleman from Missouri [Mr. EMERSON] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Texas [Mr. DE LA GARZA].

Mr. DE LA GARZA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3620 makes a technical correction to the law regarding the limitation on payments under the Federal farm programs.

The purpose of H.R. 3620 is to protect innocent landlords from being penalized for the acts or omissions of their tenants.

The effect of the Department of Agriculture's current interpretation of the law is to combine, for payment limitation purposes, a landlord with his or her tenant if the tenant is held to be out of compliance with the payment limitation regulations. This would punish the landlord for the acts or omissions of the tenant.

The current application of the law could work a special hardship on Indian tribes who participate in Federal farm programs. If a tenant who rents land from an Indian tribe is found to be out of compliance with the payment limitation regulations, the tenant would be combined with the tribal venture as one person, and the tribal venture could lose its payment limitation exemption and be restricted to only one $50,000 payment. This could be harmful to Indian tribes who depend on income from the tribal farm to fund the tribal government and enhance the tribal economy.

Mr. EMERSON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the bill before the House of Representatives today, H.R. 3620. This bill seeks to clarify section 1001(5) of the Food Security Act of 1985, as amended in 1987, with regard to payments in landlord-tenant situations. H.R. 3620 was introduced by our distinguished colleague from Arizona [Mr. RHODES] to correct a situation that arose with regard to Indian reservations. The Committee on Agriculture considered the bill and determined, upon advice from the Department of Agriculture, that changes and clarifications should apply to all persons covered by payment limitations of the act.

The bill before the House provides that in landlord-tenant situations, in which the tenant fails to abide by the USDA approved farm operating plan and the landlord does not knowingly participate in the tenant's failure to meet the requirements of the farm operating plan, the tenant will be denied 1990 payments under the Food Security Act. However, for 1989, the tenant will not automatically be denied payments but will be combined with the landlord, for payment limitation purposes, under the regulations in effect prior to the enactment of this bill. Landlords, both for 1989 and for 1990, will not be subjected to any disqualifications, if the landlord did not consent to or knowingly participate in the tenant's failure to meet the payment limitations requirements of the Food Security Act.

I urge my colleagues to support the bill before the House today. This is a fair resolution and a necessary clarification of the Food Security Act of 1985. I congratulate the gentleman from Arizona, my good friend, Mr. RHODES, and the chairman of the Committee on Agriculture for bringing this bill before us today.

Mr. BEREUTER. Mr. Speaker, will the gentleman yield?

Mr. EMERSON. I yield to the gentleman from Nebraska.

□ 1910

Mr. BEREUTER. Mr. Speaker, I thank the gentleman for yielding me this time.

I want to commend the gentleman, the chairman, and the committee for taking this step. It is an issue that this Member and many Members have brought to the attention of the Committee on Agriculture. They have responded well, and in a timely fashion, and I want to endorse their efforts here today. I thank them very much for their initiative on both sides of the aisle.

Mr. EMERSON. Mr. Speaker, I yield such time as he may consume to the gentleman from Arizona [Mr. RHODES].

Mr. RHODES. Mr. Speaker, I rise in support of H.R. 3620, a bill to clarify the Food Security Act of 1985, as amended by the Committee on Agriculture.

I introduced this bill, along with Mr. UDALL and Mr. STUMP, to correct an unintended hardship that threatens to be imposed upon several Indian Tribes resulting from the administration's regulatory application of the 1987 amendments to the Food Security Act of 1985.

In 1978, the Department of Agriculture payment limitation regulations were amended to exempt Indian tribes from the requirements for the number and amount of payments which could be received under USDA programs. The tribal exemption placed an upper limit on the amount of payments based upon tribal member population. Since 1978, tribal farming operations for land which is held communally for the entire tribal member population have been planned and conducted in reliance on this regulation.

However, in 1988, the Department of Agriculture issued final regulations eliminating the tribal exemption, even though there is nothing in the Food Security Act of 1985, the amendments to that act contained in the Agricultural Reconciliation Act of 1987, or the legislative histories thereof, indicating that Congress either considered or contemplated eliminating the tribal exemption.

USDA interpretation of its 1988 regulations has the effect of penalizing a tribe for noncompliance by a third-party lessee who leases tribal farm land pursuant to Bureau of Indian Affairs regulations, and over whose internal operations the tribe has no control. It is the consensus of the Committee on Agriculture and the Department of Agriculture that the law was never intended to have this effect.

Additionally, the Agricultural Committee amendment extends the protection from this unintended consequence in broader fashion to non-Indian farming operations whose lessees may also be found out of compliance without the knowledge of the landlord. Furthermore, the language as amended seeks to clarify the manner in which a lessor may or may not be deemed to have had knowledge of a lessee's failure to comply with USDA requirements. This should avoid possible ambiguous interpretations of the law.

I urge my colleagues to support the passage of H.R. 3620. I also want to thank the gentleman from Louisiana [Mr. HUCKABY] the committee chairman, Mr. DE LA GARZA, and the ranking Republican member, Mr. MADIGAN and good friend, the gentleman from Missouri [Mr. EMERSON], for their understanding and help in passing this technical amendment to the Food Security Act.

Mr. EMERSON. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. DE LA GARZA. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCCLOSKEY). The question is on the motion offered by the gentleman from Texas [Mr. DE LA GARZA] that the House suspend the rules and pass the bill, H.R. 3620, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. DE LA GARZA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H.R. 3620 and H.R. 3482, the bills just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

TRAUMA CARE SYSTEMS PLANNING AND DEVELOPMENT ACT OF 1989

Mr. WAXMAN. Mr. Speaker, I move the House suspend the rules and pass the bill (H.R. 1602) to amend the Public Health Service Act to improve emergency medical services and trauma care, and for other purposes, as amended.

The Clerk read as follows:

H.R. 1602

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Trauma Care Systems Planning and Development Act of 1989".

SECTION 2. FINDINGS.

The Congress finds that—

(1) the Federal Government and the governments of the States have established a history of cooperation in the development, implementation, and monitoring of integrated, comprehensive systems for the provision of emergency medical services throughout the United States;

(2) physical trauma is the leading cause of death of Americans between the ages of 1 and 44 and is the third leading cause of death in the general population of the United States;

(3) physical trauma in the United States results in an aggregate annual cost of $135,000,000,000 in medical expenses, insurance, administrative costs, property damage, and indirect costs (including more than an annual $31,000,000,000 in lost wages of individuals who are in their most productive work years); and

(4) the number of incidents of physical trauma in the United States is a serious medical and social problem, and the number of deaths resulting from such incidents can be substantially reduced by improving the trauma-care components of the systems for the provision of emergency medical services in the United States.

SEC. 3. ESTABLISHMENT OF PROGRAMS WITH RESPECT TO TRAUMA CARE

The Public Health Service Act (42 U.S.C. 201 et seq.) is amended by inserting after title XI the following new title:

"TITLE XII—TRAUMA CARE

"PART A—GENEAL AUTHORITY AND DUTIES OF SECRETARY

"SEC. 1201. ESTABLISHMENT.

"(a) IN GENERAL.—The Secretary shall—

"(1) conduct and support research, training, evaluations, and demonstration projects with respect to trauma care systems;

"(2) foster the development of appropriate, modern trauma care systems through the sharing of information among agencies and individuals involved in the study and provision of trauma care;

"(3) collect, compile, and disseminate information on the achievements of, and problems experienced by, State and local agencies and private entities by, State and local agencies and private entities in providing trauma care;

"(4) provide to State and local agencies technical assistance relating to trauma care systems; and

(5) sponsor workshops and conferences on trauma care.

"(b) GRANTS, COOPERATIVE AGREEMENTS, AND CONTRACTS.—The Secretary may make grants, and enter into cooperative agreements and contracts, for the purpose of carrying out subsection (a).

"SEC. 1202. ADVISORY COUNCIL ON TRAUMA CARE SYSTEMS.

"(a) ESTABLISHMENT.—The Secretary shall establish an advisory council to be known as the Advisory Council on Trauma Care Systems.

"(b) DUTIES.—The Council shall—

"(1) periodically conduct assessments of the needs in the United States with respect to trauma care, including special consideration of the unique needs of rural areas, and the extent to which the States are responding to such needs;

"(2) submit to the Secretary the findings made as a result of such assessments; and

"(3) Advise the Secretary with respect to activities carried out under this title.

"(c) MEMBERSHIP.—

"(1) The Sectetary shall appoint to the Council 12 appropriately qualified representatives of the public who are not officers or employees of the United States. Of such members—

"(A) 4 shall be individuals experienced or specially trained in trauma surgery (including a critical care nurse);

"(B) 3 shall be individuals experienced or specially trained in emergency medicine;

"(C) 1 shall be an individual experienced or specially trained in the care of injured children;

"(D) 1 shall be an individual experienced or specially trained in physical medicine and rehabilitation; and

"(E) 3 shall be individuals experienced or specially trained in the development, administration, or financing of trauma care systems.

"(2) The Secretary may designate as ex officio members of the Council appropriately

qualified representatives of the Department of Health and Human Services, the Department of Transportation, the Federal Emergency Management Agency, and such other agencies of the Federal Government as the Secretary determines to have functions affecting emergency medical services.

"(d) TERMS.—

"(1) Except as provided in paragraph (2), members of the Council appointed under subsection (c)(1) shall serve for a term of 4 years.
